TRANSPORT CO., INC., 3225 Fifth Avenue South, Fort Dodge, Iowa 50501. Applicant's representative: D. L. Robson, P.O. Box 1325, Fort Dodge, Iowa 50501. An Order of the Commission, Review Board No. 3, decided November 17, 1977, and served December 12, 1977, finds that the present and future public convenience and necessity require operations by applicant, in interstate or foreign commerce, as a common carrier, by motor vehicle, over irregular routes, in the transportation of *meats*, *meat products*, *meat byproducts* and articles distributed by meatpacking houses, as described in sections A and C of appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766 (except hides and commodities in bulk, in tank vehicles), from the facilities of Dubuque Packing Co., Inc., at or near Mankato, Kans., to points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maryland, Massachusetts, Michigan, Missouri, Minnesota, Nebraska, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Virginia, West Virginia, and Wisconsin, and the District of Columbia, restricted to the transportation of shipments originating at the named origin and destined to the named destinations, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to include Indiana as a destination point which was inadvertently omitted in the previous publication.

No. MC 134484 (Sub-No. 11) (republication), filed March 3, 1977, published in the *FEDERAL REGISTER* issue of April 21, 1977, and republished this issue. Applicant: EDWARDS BROS., INC., 1875 North Holmes Avenue, Idaho Falls, Idaho 83401. Applicant's representative: Dennis M. Olsen, 485 E Street, Idaho Falls, Idaho 83401. An Order of the Commission, Review Board No. 2, decided December 19, 1977, and served January 3, 1978, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier, by motor vehicle, over irregular routes, transporting: *Meat*, in carcass form, from Toppenish, Wash., to points in Arizona, California, Idaho, Montana, Nevada, Oregon, and Utah; that applicant is fit, willing, and able properly to perform the granted service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to broaden the commodity description in applicant's actual grant of authority.

No. MC 138231 (Sub-No. 3) (republication), filed May 13, 1977, published

in the *FEDERAL REGISTER* issue of June 23, 1977, and republished this issue. Applicant: WILBUR CARTER, 401 St. Augustine Road, Valdosta, Ga. 30349. Applicant's representative: Virgil H. Smith, Suite 12, 1587 Phoenix Boulevard, Atlanta, Ga. 30349. An Order of the Commission, Review Board No. 2, decided November 29, 1977, and served December 9, 1977, finds that operations by applicant will be consistent with the public interest, in interstate or foreign commerce, as a contract carrier, by motor vehicle, over irregular routes, in the transportation of (1) *Furniture*, from Candler, N.C., and Huntsville, Ala., to points in Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Delaware, Maryland, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia to Candler, N.C., and Huntsville, Ala., under a continuing contract, or contracts with Harris Pine Mills, of Pendleton, Ore. The purpose of this republication is to broaden the territorial description by adding the States of Delaware, Maryland, Virginia, and West Virginia.

No. MC 138564 (Sub-No. 1) (republication), filed April 16, 1976, published in the *FEDERAL REGISTER* issue of May 6, 1976 as Florida Docket No. 760290-CCT, and republished this issue. Applicant: DUVAL CARTAGE, INC., 321 North Lane Avenue, Jacksonville, Fla. 32205. Applicant's representative: Richard B. Austin, Suite 214, Palm Coast II Building, 5255 Northwest 87th Avenue, Miami, Fla. 33178. An Order of the Commission, Review Board No. 4, decided December 16, 1977, and served January 6, 1978, finds that applicant may conduct operations in interstate or foreign commerce within limits which do not exceed the scope of the intrastate operations for which applicant holds Certificate No. 1291 embraced in order dated September 14, 1977, issued by the Florida Public Service Commission, which authorizes operations as a common carrier by motor vehicle, solely within the State of Florida in the transportation of *General commodities* (except household goods as defined by the Commission; articles of unusual value, including performance of armored car services; articles which are injurious to other loadings; commodities in bulk, building and construction materials on flatbed trailers; and articles which, by reason of their size or weight, require specialized handling and equipment; commodities between military installations for the U.S. Government) between points in the city of Jacksonville. The purpose of this republication is to reflect applicant's actual grant of authority.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

NOTICE

The following applications are governed by Special Rule 247 of the Commission's General Rules of Practice (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the *FEDERAL REGISTER*. Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if not representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the *FEDERAL REGISTER* of a notice that the proceeding has been assigned for oral hearing.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 2473 (Sub-No. 17), filed November 22, 1977. Applicant: BUILD-

INGS TRANSFER CORP., INC., Green Needles Road, Lexington, N.C. 27292. Applicant's representative: Charles Ephraim, Suite 600, 1250 Connecticut Avenue NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Textiles and textile products*, from Startex, Spartanburg, Rock Hill, Lancaster, Grace, Blacksburg, and Carlisle, S.C., and all points in that part of North Carolina included within the boundaries of a line extending 100 miles from Forsyth, Guilford, Davidson and Stokes Counties, N.C. (including points within those counties), to points in Union County, Pa. and those in that part of Pennsylvania bounded by a line beginning at the Pennsylvania-New Jersey State line and extending west along U.S. Highway 22 to junction U.S. Highway 15 near Harrisburg, Pa., thence north along U.S. Highway 15 to junction Interstate Highway 80 near New Columbia, Pa., thence east along Interstate Highway 80 to junction U.S. Highway 11 at or near Lime Ridge, Pa., thence northeast along U.S. Highway 11 to junction Pennsylvania Highway 309 at or near Kingston, Pa., thence north along Pennsylvania Highway 309 to junction U.S. Highway 6 at or near Dickson City, Pa., thence east along U.S. Highway 6 to the Pennsylvania-New Jersey State line and thence south along the Pennsylvania-New Jersey State line to point of beginning, including service to points on all highways specified except U.S. Highway 22.

NOTE.—Applicant states that the sole purpose of its application is to substitute a single line service for its existing joint-line operations. If a hearing is deemed necessary, applicant requests that it be held at either Charlotte, N.C., or Washington, D.C.

No. MC 13123 (Sub-No. 93), filed December 1, 1977. Applicant: WILSON FREIGHT CO., a corporation, 11353 Reed Hartman Highway, Cincinnati, Ohio 45241. Applicant's representative: Milton H. Bortz, 11353 Reed Hartman Highway, Cincinnati, Ohio 45241. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment) serving the site of the Marble Hill nuclear generating station at or near Paynesville, Ind. as an off-route point in connection with carrier's otherwise authorized regular route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Cincinnati, Ohio.

No. MC 18037 (Sub-No. 7), filed December 2, 1977. Applicant: CHAS. LEVY CIRCULATING CO., a corpora-

tion, 1200 North Branch Street, Chicago, Ill. 60622. Applicant's representative: Edward G. Bazelon, 39 South LaSalle Street, Chicago, Ill. 60603. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Magazines*, from Brookfield, Wis., to Chicago, Ill., and points within its commercial zone, and South Bend, Ind., under a continuing contract, or contracts, with Newsweek, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill.

No. MC 25869 (Sub-No. 136), filed December 5, 1977. Applicant: NOLTE BROS. TRUCK LINE, INC., 6217 Gilmore Avenue, P.O. Box 7184, South Omaha Station, Omaha, Nebr. 68107. Applicant's representative: Donald L. Stern, Suite 530, Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a motor *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is used or distributed by wholesale, retail, chain grocery, and food business houses (except commodities in bulk in tank vehicles), from the plantsite and storage facilities used by A. E. Staley Manufacturing Co. and subsidiaries or divisions within the Chicago, Ill. commercial zone, to points in Colorado and Nebraska.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 30844 (Sub-No. 597), filed November 25, 1977. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: John P. Rhodes, P.O. Box 5000 Waterloo, Iowa 50704. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum, petroleum products, vehicle body sealer and sound deadner compounds*, (except in bulk), and *filters*, from points in Marion County, Tenn., to points in and east of North Dakota, South Dakota, Colorado, Oklahoma, and Texas, and in and north of Missouri, Illinois, Indiana, Ohio, West Virginia and Virginia, restricted to traffic originating at points in Marion County, Tenn.; (2) *materials, supplies, and equipment* used in the manufacture, sale, and distribution of the commodities named in (1) above, (except in bulk), from points in Ohio, West Virginia, Pennsylvania, Alabama, Georgia, Virginia and Kentucky, to Marion County, Tenn., restricted to traffic destined to Marion County, Tenn.; and (3) *petroleum, petroleum products, vehicle body sealer, and sound deadner compounds* (except in bulk), and *filters*, from points in Ohio, New York,

Rhode Island, Pennsylvania and West Virginia, to points in Marion County, Tenn., restricted to traffic destined to points in Marion County, Tenn.

NOTE.—Common control may be involved. If a hearing is deemed necessary the applicant requests it be held at Washington, D.C.

No. MC 35320 (Sub-No. 151) (correction), filed September 30, 1977, published in the FEDERAL REGISTER issue of November 25, 1977, and republished as corrected this issue. Applicant: T.I.M.E.-DC, INC., P.O. Box 2550, Lubbock, Tex. 79408. Applicant's representative: Kenneth G. Thomas (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *General commodities* (except household goods as defined by the Commission), serving the plantsite and facilities of the Wal Mart Co., located at or near Searcy, Ark.

NOTE.—The purpose of this republication is to indicate the correct number as MC 35320 (Sub-No. 151), which was previously published as MC 35320 (Sub-No. 1512). If a hearing is deemed necessary, the applicant requests that it be held at either Little Rock, Ark., or Oklahoma City, Okla.

No. MC 43683 (Sub No. 31), filed December 1, 1977. Applicant: BAKER DRIVEAWAY CO., INC., 3999 East South Boulevard, Bloomfield Hills, Mich. 48013. Applicant's representative: S. S. Elsen, 370 Lexington Avenue, New York, N.Y. 10017. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *New automobiles, new trucks, bodies, cabs, chassis, and unfinished automobiles* moving in secondary movements in truckaway and driveway service from Winston-Salem, N.C., to points in Georgia.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Detroit, Mich., or Washington, D.C.

No. MC 50866 (Sub-No. 8), filed December 7, 1977. Applicant: BURLINGAME TRUCK LINE, INC., R.R. 2 Scranton, Kans. 66537. Applicant's representative: Clyde N. Christey, 514 Capitol Federal Building, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicles over irregular routes, transporting: *Dry feed and dry feed ingredients*, (except in tank vehicles), from Emporia, Kans., to points in Oklahoma.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 59150 (Sub-No. 110), filed December 2, 1977. Applicant: PLOOF TRUCK LINES, INC., 1414 Lindrose Street, Jacksonville, Fla. 32206. Applicant's representative: Martin Sack, Jr., 1754 Gulf Life Tower, Jacksonville, Fla. 32207. Authority sought to oper-

ate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing materials, composition shingles, rolled roofing, roofing cements, roofing asphalt* (except liquid), and *accessories* thereto, from Tuscaloosa, Ala., to points in Arkansas, Florida, Georgia, Kentucky, Mississippi, South Carolina, and Tennessee.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Birmingham, Ala.

No. MC 61440 (Sub-No. 161), filed December 7, 1977. Applicant: LEE WAY MOTOR FREIGHT, INC., 3000 West Reno, Oklahoma City, Okla. 73108. Applicant's representative: Richard H. Champlin, P.O. Box 82488, Oklahoma City, Okla. 73108. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, class A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), serving the facilities of Aberdeen Manufacturing Co. and its subdivisions located at or near Kaufman, Tex., an off route point in connection with carrier's authorized regular route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Dallas, Tex.

No. MC 78118 (Sub-No. 36), filed December 2, 1977. Applicant: W. H. JOHNS, INC., 35 Witmer Road, Lancaster, Pa. 17602. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, Pa. 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers*, (1) from Paint and Elk Townships, Clarion County, Pa., to points in Virginia, North Carolina, South Carolina, Georgia, and Florida, and that part of West Virginia on and north of U.S. Highway 50; (2) from the Borough of Knox, Clarion County, Borough of Marienville, Forest County, and the Borough of Parker, Armstrong County, Pa., to points in West Virginia on and north of U.S. Highway 50. Restricted to traffic originating at and destined to the above origins and destinations.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C. or Harrisburg, Pa.

No. MC 82492 (Sub-No. 170), filed November 23, 1977. Applicant: MICHIGAN & NEBRASKA TRANSIT CO., INC., 2109 Olmstead Road, P.O. Box 2853, Kalamazoo, Mich. 49003. Applicant's representative: William C. Harris (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food, frozen* (except commodities in

bulk), from the facilities of Green Giant Co. located at or near Belvidere, Ill., to points in Indiana, Kentucky, Michigan and Ohio. Restriction: Restricted to traffic originating at the named origins and destined to the named destinations.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 87689 (Sub-No. 13), filed December 8, 1977. Applicant: INTERCITY TRUCK LINES LTD., 3033 Universal Drive, Mississauga, Ontario M8Z 5R3. Applicant's representative: John R. Davidson, Suite 805, Midland Bank Building, Billings, Mont. 59101. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between the port of entry on the international boundary line between the U.S. and Canada located at or near Sweetgrass, Mont. and Great Falls, Mont., (2) from the port of entry on the international boundary line between the U.S. and Canada, located at or near Sweetgrass, Mont., over Interstate 15 and U.S. Highway 91 to Great Falls, and return over the same route.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Great Falls, Mont. Common control may be involved.

No. MC 100666 (Sub-No. 370), filed December 7, 1977. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Wilburn L. Williamson, 280 National Foundation Life Building, 3535 Northwest 58th Street, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic, plastic articles, plastic pipe, tubing, fittings and connections and materials, supplies and accessories* used in the manufacture and installation thereof (except in bulk, in tank vehicles), between facilities utilized by Robintech Inc. at or near Grinnell, Iowa; Rolla, Mo.; and Hillsboro, Tex., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C.

No. MC 103993 (Sub-No. 912), filed December 7, 1977. Applicant: MORGAN DRIVE-AWAY, INC., 28651 U.S. 20 West, Elkhart, Ind. 46514. Applicant's representative: Paul D. Borghesani, 28651 U.S. 20 West, Elkhart, Ind. 46514. Authority sought to operate as a *common carrier*, by

motor vehicle, over irregular routes, transporting: *Roofing and roofing materials*, from the facilities of Masonite Corp., Roofing Division, located at or near Meridian, Miss., to points in the United States in and east of the States of Wisconsin, Illinois, Kentucky, Tennessee and Mississippi.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Jackson, Miss.

No. MC 103993 (Sub-No. 915), filed December 6, 1977. Applicant: MORGAN DRIVE-AWAY, INC., 28651 U.S. 20 West, Elkhart, Ind. 46514. Applicant's representative: Paul D. Borghesani (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, (1) from the facilities of the Gilman Paper Co., at Dudley (Laurens County) Ga, at or near Blackshear (Pierce County), Ga. to points in Texas, Louisiana, Arkansas, Missouri, Illinois, Wisconsin, Michigan (lower peninsula), Indiana, Ohio, West Virginia, Maryland, Delaware, South Carolina, New Jersey, Pennsylvania and New York; and (2) from the plantsite of Gilman Paper Co., Building Products Division, at approximately eight (8) miles north of Middlebury (Clay County), Fla., to points in Georgia, Alabama, Mississippi, Louisiana, Texas, Arkansas, Missouri, Illinois, Wisconsin, Michigan, Indiana, Ohio, Kentucky, Tennessee, North Carolina, South Carolina, Virginia, West Virginia, District of Columbia, Delaware, New Jersey, Pennsylvania and New York.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Jacksonville, Fla.

No. MC 104421 (Sub-No. 22), filed December 7, 1977. Applicant: ECONOLINES, INC., P.O. Box 623, D.T.S., Omaha, Nebr. 68101. Applicant's representative: Roger W. Norris (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766 (except hides and commodities in bulk, in tank or hopper type vehicles), from points in Iowa (except Council Bluffs, Glenwood, Hospers, Sioux Center, and Sioux City), and Minnesota, to points in Burt County, Nebr. Restriction: The authority hereinabove is restricted to the transportation of shipments originating at the above-named origins.

NOTE.—Common control may be involved. If oral hearing is deemed necessary, the applicant requests it be held at Lincoln or Omaha, Nebr.

No. MC 105045 (Sub-No. 45), filed November 25, 1977. Applicant: R.L. JEFFRIES TRUCKING CO., INC., 1020 Pennsylvania Street, Evansville, Ind. 47701. Applicant's representative: Richard C. McGinnis, 711 Washington Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Mining machinery, equipment, and supplies, and parts of or for the above-specified machinery and equipment*, between points in Illinois, Indiana and Kentucky.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Chicago, Ill., or Washington, D.C.

No. MC 106074 (Sub-No. 56), filed December 5, 1977. Applicant: B AND P MOTOR LINES, INC., Oakland Road, P.O. Box 727, Forest City, N.C. 28043. Applicant's representative: George W. Clapp, 109 Hartsville Street, P.O. Box 836, Taylors, S.C. 29687. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass fiber, glass fiber rovings, yarn and strand, glass fiber mats and matting, glass fiber fabric, and glass fiber waste*, from South Lexington and West Shelby, N.C., to points in Texas.

NOTE.—Applicant holds contract carrier authority in No. MC 140842 sub 1, and other subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Charlotte, N.C. or Pittsburgh, Pa.

No. MC 106674 (Sub-No. 274), filed December 2, 1977. Applicant: SCHILLI MOTOR LINES, INC., P.O. Box 123, Remington, Ind. 47977. Applicant's representative: Linda J. Sundry (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plastic pipe and conduit and accessories* from points in Geneva County, Ala., to points in the United States in and east of Minnesota, Iowa, Missouri, Oklahoma, and Texas and (2) *materials, equipment and supplies used in the manufacture, distribution and sale of plastic pipe and conduit and accessories*, from the above named destination States, to points in Geneva County, Ala.

NOTE.—If a hearing is deemed necessary, applicant requests it be held in either Chicago, Ill., or Indianapolis, Ind.

No. MC 107002 (Sub-No. 524), filed November 23, 1977. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, Jackson, Miss. 39205. Applicant's representative: John J. Borth, P.O. Box 8573, Battlefield Station, Jackson, Miss. 39204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum prod-*

ucts, in bulk, in tank vehicles, from the facilities of Vulcan Asphalt Refining Co., located at or near Cordova, Ala., to points in Georgia, Mississippi, North Carolina, South Carolina, and Tennessee.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala.

No. MC 111045 (Sub-No. 148) (correction), filed September 29, 1977, published in the FEDERAL REGISTER issue of November 25, 1977, and republished as corrected this issue. Applicant: REDWING CARRIERS, INC., P.O. Box 426, Tampa, Fla. 33601. Applicant's representative: L. W. Fincher (same address as applicant). Authority sought to operate as a common carrier by motor vehicle, over irregular routes, transporting: Chemicals, in bulk, in tank vehicles, from points in Washington County, Ala., to points in Florida, Louisiana, Tennessee, Arkansas, Alabama, Mississippi and Georgia.

NOTE.—The purpose of this correction is to indicate the addition of the State of Georgia, which was inadvertently omitted. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C. Common control may be involved.

No. MC 111545 (Sub-No. 245), filed November 25, 1977. Applicant: HOME TRANSPORTATION CO., INC., P.O. Box 6426, Station A, Marietta, Ga. 30065. Applicant's representative: Robert E. Born (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Material handling equipment, and (2) parts, attachments, and accessories for commodities named in (1) above: From New Bremen, Ohio, to points in California and points in the United States in and east of Texas, Oklahoma, Kansas, Nebraska, Iowa and Minnesota.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held either in Columbus, Ohio or Washington, D.C.

No. MC 111812 (Sub-No. 542), filed November 3, 1977. Applicant: MIDWEST COAST TRANSPORT, INC., P.O. Box 1233, Sioux Falls, S. Dak. 57101. Applicant's representative: David Peterson, P.O. Box 1233, Sioux Falls, S. Dak. 57101. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Foodstuffs, frozen and not frozen from points in Kansas City, Kans.—Kansas City, Mo. commercial zone to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont and the District of Columbia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Kansas

City, Missouri. Common control may be involved.

No. MC 111812 (Sub-No. 551), filed December 1, 1977. Applicant: MIDWEST COAST TRANSPORT, INC., P.O. Box 1233, Sioux Falls, S. Dak. 57101. Applicant's representative: Ralph H. Jinks (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Such merchandise as is dealt in or used by retail stores (except commodities in bulk), between Des Moines, Iowa, on the one hand, and, on the other, points in California and Nevada.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held in Des Moines, Iowa.

No. MC 112520 (Sub-No. 347), filed December 6, 1977. Applicant: McKENZIE TANK LINES, INC., P.O. Box 1200, Tallahassee, Fla. 32302. Applicant's representative: W. Guy McKenzie, Jr. (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Petroleum and Petroleum Products, in bulk, in tank vehicles, from points in Duval County, Fla., to points in Georgia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Atlanta, Ga., or Jacksonville, Fla.

No. MC 112593 (Sub-No. 21), filed November 25, 1977. Applicant: SIDNEY W. JOHNSON, d.b.a. Southwestern Film Service, 6767 Guadalupe Trail, NW., Albuquerque, New Mexico 87107. Applicant's representative: Thomas J. Burke, Jr., 1600 Lincoln Center Building, 1660 Lincoln Street, Denver, Colo. 80264. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Books, from Denver, Colo. to Albuquerque, New Mexico, and (2) Books and magazines, from Denver, Colo., to points in New Mexico, except Albuquerque.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in (1) Albuquerque, New Mexico; (2) Denver, Colo.

No. MC 112963 (Sub-No. 71), filed December 7, 1977. Applicant: ROY BROS., INC., 764 Boston Road, Pinehurst, Mass. 01866. Applicant's representative: Leonard E. Murphy, 764 Boston Road, Pinehurst, Mass. 01866. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: plastics, dry, in bulk, from Pawtucket, R.I., to Elkton, Md., New Brunswick, N.J., Sycamore, Ill., Tarboro, N.C., Hazelhurst, Miss., Miami, Fla., and Westfield, Mass.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Boston, Mass. or Washington, D.C.

No. MC 112989 (Sub-No. 54) (correction), filed November 4, 1977, published in the FEDERAL REGISTER issue of December 29, 1977, and republished as corrected this issue. Applicant: WEST COAST TRUCK LINES, INC., 85647 Highway 99 South, Eugene, Oreg. 97405. Applicant's representative: John W. White, Jr. (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Aluminum, aluminum products and supplies, materials and equipment used in the manufacture of aluminum and aluminum products (except in bulk), between the plantsites of Alumax, Inc. and its subsidiary and affiliated companies located at or near Casa Grande, Ariz.; Long Beach, Riverside, Santa Fe Springs, Visalia, Perris Valley, and Woodland, Calif.; Boise and Twin Falls, Idaho; Stayton, Oreg.; and Spokane and Ferndale, Wash., on the one hand, and, on the other, points in Montana, Idaho, Utah, Arizona, California, Nevada, Oregon, Washington, and ports of entry located on the International Boundary line between the United States and Canada located in Washington; and (2) zinc and zinc alloys (except in bulk), between the plantsites of Alumax, Inc. and its subsidiary and affiliated companies located at or near Long Beach, Calif., on the one hand, and, on the other, points in Montana, Idaho, Utah, Arizona, California, Nevada, Oregon, Washington, and ports of entry located on the International Boundary line between the United States and Canada, located in Washington.

NOTE.—The purpose of this application is to remove the restriction and indicate applicant intends to participate in traffic moving between Canada and the United States through ports of entry in Washington. If a hearing is deemed necessary, the applicant requests that it be held at either San Francisco, Calif. or Portland, Oreg.

No. MC 113271 (Sub-No. 43), filed December 2, 1977. Applicant: CHEMICAL TRANSPORT, P.O. Box 2644, Great Falls, Mont. 59403. Applicant's representative: Patrick W. Rice, P.O. Box 2644, Great Falls, Mont. 59403. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Lime, and limestone products, in bulk, from ports of entry on the International Boundary line between the United States and Canada located at or near Oroville, Laurier and Nelway, Wash., to the plantsite of Western Nuclear, Inc. located near Wellpoint, Wash. (Restricted to traffic originating in the Provinces of Alberta and British Columbia).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Great Falls, or Billings, Mont.

No. MC 114273 (Sub-No. 311), filed November 25, 1977. Applicant: CRST,

INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Kenneth L. Core (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Aluminum bus bar, foil, sheet, plate, and ingot from the plantsite and storage facilities of ALCOA at Riverdale, Iowa, to points in Indiana, Ohio, Michigan, Pennsylvania, New Jersey, New York, Maryland, Delaware, Virginia, and West Virginia.

NOTE.—The purpose of the instant application is to substitute single-line service for existing joint-line service. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Chicago, Illinois or Washington, D.C.

No. MC 114273 (Sub-No. 313), filed November 28, 1977. Applicant: CRST, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Kenneth L. Core (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Meats, meal products, and meat by-products, and articles distributed by meat packinghouses as described in sections A and C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766 (except hides and commodities in bulk in tank vehicles), (1) from Dakota City, Nebr. to points in Indiana, Maryland, Michigan, Ohio and Virginia; (2) from Emporia, Kans. to points in Indiana, Michigan, and Ohio. Restricted in (1) and (2) above to traffic originating at the plantsites and storage facilities utilized by Iowa Beef Processors, Inc. and destined to the above-named points.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill. or Washington, D.C.

No. MC 114552 (Sub-No. 144), filed December 7, 1977. Applicant: SENN TRUCKING CO., a corporation, P.O. Drawer 220, Newberry, S.C. 29108. Applicant's representative: William P. Jackson, Jr., 3426 North Washington Boulevard, P.O. Box 1267, Arlington, Va. 22210. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Crosssties, from points in Alabama, to points in and east of South Carolina, North Carolina, Virginia, West Virginia, Pennsylvania, and New York.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in Washington, D.C.

No. MC 114552 (Sub-No. 146), filed December 9, 1977. Applicant: SENN TRUCKING CO., a corporation, P.O. Drawer 220, Newberry, S.C. 29108. Applicant's representative: William P. Jackson, Jr., 3426 North Washington Boulevard, P.O. Box 1267, Arlington, Va. 22210. Authority is sought to oper-

ate as a common carrier by motor vehicle, over irregular routes, transporting: (1) Composition board, from Coldwater, Mich., to points in the United States in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas; and (2) Materials, equipment and supplies used in the manufacture of composition board, from points in the United States in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas, to Coldwater, Mich.

NOTE.—If an oral hearing is deemed necessary, applicant requests that it be held in Chicago, Ill. or Washington, D.C.

No. MC 114569 (Sub-No. 203), filed December 7, 1977. Applicant: SHAFFER TRUCKING, INC., P.O. Box 418, New Kingstown, Pa. 17072. Applicant's representative: N. L. Cummins, (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Meats, meat products, and meat byproducts and articles distributed by meat packinghouses, as described in section A and C of appendix I to the report in Descriptions in Motor Carrier Certificates, 69 MCC 209 and 766 (except commodities in bulk, hides, pet foods, or pet food ingredients), from the plantsite and storage facilities of John Morrell and Co. at or near Estherville, Humboldt, and Sioux City, Iowa; and Sioux Falls, S. Dak., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Rhode Island, Pennsylvania, Virginia, West Virginia, and the District of Columbia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Illinois or Washington D.C.

No. MC 114969 (Sub-No. 67), filed December 1, 1977. Applicant: PROPANE TRANSPORT, INC., P.O. Box 232, 1734 State Route 131, Milford, Ohio 45150. Applicant's representative: James R. Stiverson, 1396 West Fifth Avenue, Columbus, Ohio 43212. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquefied petroleum gas, in bulk, in tank vehicles, from Robinson, Ill. to points in Indiana.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 115162 (Sub-No. 397), filed December 5, 1977. Applicant: POOLE TRUCK LINE, INC., P.O. Drawer 500, Evergreen, Ala. 36401. Applicant's representative: Robert E. Tate (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Lumber and composition board, from the facilities utilized by

MacMillan Bloedel Building Materials, located at or near Astabula, Ohio, to points in the United States in and east of Texas, Oklahoma, Missouri, Illinois, and Wisconsin.

NOTE.—If a hearing is deemed necessary the applicant requests it be held at Washington, D.C.

No. MC 115311 (Sub-No. 251), filed November 25, 1977. Applicant: J & M TRANSPORTATION CO., INC., P.O. Box 488, Milledgeville, Ga. 31061. Applicant's representative: Paul M. Daniell, P.O. Box 872, Atlanta, Ga. 30301. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Hydraulic brake fluid, cleaning compound, lubricating oil petroleum, windshield washer fluid, (except in bulk), from the plantsite and warehouse facilities of Quaker Supreme Chemical Corp. at Montgomery, Ala., to points in the United States in and east of Minnesota, Iowa, Kansas, Oklahoma and Texas and Missouri.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Montgomery, Ala., or Atlanta, Ga.

No. MC 115311 (Sub-No. 252), filed November 23, 1977. Applicant: J & M TRANSPORTATION CO., INC., P.O. Box 488, Milledgeville, Ga. 31061. Applicant's representative: K. Edward Wolcott, P.O. Box 872, Atlanta, Ga. 30301. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes transporting: (1) Plastic articles (pads, tubing, netting), from the plant site and storage facilities of Conwed Corp., at Athens, Ga., to points in the United States in and east of Louisiana, Arkansas, Missouri, Illinois and Wisconsin; and (2) machinery, materials, equipment and supplies used in the manufacture, distribution and application or use of the commodities named above, from points in the destination States named in (1), to Athens, Ga.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 115331 (Sub-No. 441), filed December 5, 1977. Applicant: TRUCK TRANSPORT INC., 29 Clayton Hills Lane, St. Louis, Mo. 63131. Applicant's representative: J. R. Ferris, 230 St. Clair Avenue, East St. Louis, Ill. 62201. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Lime, in bulk, from Springfield, Mo. to Wickliffe, Ky.; (2) pebble lime, in bulk, from Sequiota, Mo. to Hawesville, Ky.; and (3) fly ash, in bulk, from points in Pike County, Ind. to points in Illinois, Kentucky, Missouri, Arkansas and Tennessee.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo.

No. MC 115841 (Sub-No. 580), filed November 22, 1977. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., Suite 110, 9041 Executive Park Drive, Knoxville, Tenn. 37919. Applicant's representative: David C. Venable, 805 McLachlen Bank Building, 666 11th Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum, petroleum products, vehicle body sealer and sound deadener compound* (except in bulk) and *filters*, from points in Marion County, Tenn., to points in the United States (except Alaska and Hawaii), restricted to traffic originating at points in Marion County, Tenn.; (2) *materials, supplies and equipment* used in the manufacture, sale, and distribution of the commodities named in (1) above (except in bulk) from points in Ohio, West Virginia, Pennsylvania, Alabama, Georgia, Virginia, and Kentucky to Marion County, Tenn., restricted to traffic destined to points in Marion County, Tenn.; and (3) *petroleum and petroleum products, vehicle body sealer and sound deadener compound* (except in bulk) and *filters* from points in Ohio, New York, Rhode Island, Pennsylvania, and West Virginia to Marion County, Tenn., restricted to traffic destined to points in Marion County, Tenn.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C., or Atlanta, Ga.

No. MC 117910 (Sub-No. 2), filed November 25, 1977. Applicant: W. H. FROH, INC., 57760 Main Boulevard, New Haven, Mich. 48048. Applicant's representative: Walter N. Bleneman, 100 West Long Lake Road, Suite 102, Bloomfield Hills, Mich. 48013. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Castings, foundry supplies and replacement parts* for foundry equipment, from points in Ohio, Indiana, Illinois and Wisconsin, to points in New Haven, Mich., under a continuing contract, or contracts with New Haven Foundry, Inc., of New Haven, Mich.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Lansing, Mich. or Detroit, Mich.

No. MC 117940 (Sub-No. 246), filed December 9, 1977. Applicant: NATIONWIDE CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. Applicant's representative: Allan L. Timmerman, 5300 Highway 12, P.O. Box 104, Maple Plain, Minn. 55359. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except commodities in bulk), from the facilities of Cudahy Foods Co. at

Harrodsburg, Cynthiana, Russell Springs, and Tompkinsville, Ky., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia and the District of Columbia. Restricted to traffic originating at named facilities and destined to named destinations.

NOTE.—If a hearing is deemed necessary the applicant requests it be held at Phoenix, Ariz. Applicant holds motor contract carrier authority in MC 114789, Sub No. 16 and other subs, therefore dual operations may be involved.

No. MC 118202 (Sub-No. 80), filed November 25, 1977. Applicant: SCHULTZ TRANSIT, INC., P.O. Box 406, 323 Bridge Street, Winona, Minn. 55987. Applicant's representative: Thomas J. Beener, Waterloo Savings Bank Building, Suite 340, West Park at Cedar, P.O. Box 5000, Waterloo, Iowa 50704. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum, petroleum products, vehicle body sealer and/or sound deadener compounds* (except in bulk) and *filters*, (1) from points in Marion County, Tenn., to points in Washington, Oregon, California, Nevada, Arizona, Texas, New Mexico, North Dakota, South Dakota, Nebraska, Minnesota, Wisconsin, Iowa, Missouri, Illinois, Michigan, Indiana, Ohio, Pennsylvania, New York, Massachusetts, Connecticut, Vermont, Maine, Rhode Island, New Hampshire, New Jersey, restricted to traffic originating at points in Marion County, Tenn.; and (2) from points in Ohio, New York, Rhode Island, Pennsylvania and West Virginia, to points in Marion County, Tenn., restricted to traffic destined to points in Marion County, Tenn.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 118535 (Sub-No. 109), filed December 6, 1977. Applicant: TIONA TRUCK LINE, INC., 111 S. Prospect, Butler, Mo. 64730. Applicant's representative: Wilburn Williamson, 280 National Foundation Life Center, 3535 Northwest 58th, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Animal and poultry medicinal health products and pesticides, animal and poultry feed and animal and poultry feed components* (except in bulk) and *advertising matter* related to such commodities, from Kansas City, Mo., to points in Arizona, Arkansas, Colorado, Kansas, Louisiana, Mississippi, New Mexico, Oklahoma, and Texas; and (2) *animal and poultry medicinal health products and pesticides, animal and poultry feed components* (except in bulk) and *advertising matter* relat-

ed to such commodities, from Kansas City, Mo., to points in Illinois, Iowa, Minnesota, Nebraska, North Dakota, South Dakota and Wisconsin.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Mo.

No. MC 118569 (Sub-No. 5), filed December 1, 1977. Applicant: HALBERG CONSTRUCTION & SUPPLY, INC., South 18th Avenue and Eight Street, Virginia, Minn. 55792. Applicant's representative: Robert F. Berger, 200 First National Bank Building, Virginia, Minn. 55792. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *commodities* (which because of size or weight require the use of special equipment or special handling), from Milwaukee County, Wis., to points in the Upper Peninsula or Michigan.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Duluth or Minneapolis, Minn.

No. MC 120909 (Sub-No. 3), filed December 1, 1977. Applicant: ISLAND CARTAGE CO., INC., 5801 South Cicero Avenue, Chicago, Ill. 60638. Applicant's representative: James R. Madler, 120 West Madison Street, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* with no exceptions, between points in McHenry, Lake, DeKalb, Kane, Cook, DuPage, Kendall, Will, LaSalle, Grundy, Kankakee and Iroquois Counties, Ill., on the one hand, and, on the other, points in Illinois.

NOTE.—The purpose of this application is to convert applicant's certificate of registration to a certificate of public convenience and necessity. If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill.

No. MC 121281 (Sub-13), filed December 5, 1977. Applicant: BIG MAC TRUCKING CO., a corporation, 922 Maxine, P.O. Box 15069, Houston, Tex. 77020. Applicant's representative: Joe G. Fender, 711 Louisiana, 1150 Pennzoil Place, South Tower, Houston, Tex. 77002. Authority to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trusses, bars, joists and accessories* from the plantsite and facilities of Tex-Ark Joist Co. at or near Oak Haven, Ark. to points in Louisiana, Texas, Oklahoma, Colorado and New Mexico.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Houston or Dallas, Tex.

No. MC 121499 (Sub-No. 7), filed December 9, 1977. Applicant: WILLIAM HAYES LINES, INC., P.O. Box 610 Lebanon, Tenn. 37087. Applicant's representative: Walter Harwood, P.O. Box

15214, Nashville, Tenn. 37215. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, (except those of unusual value, classes A and B explosives, household goods, commodities in bulk, and those requiring special equipment); Serving the site of Kmart Corp. Distribution Center in Coweta County, Ga. as an off-route point in connection with carrier's authorized regular routes.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Nashville, Tenn., or Atlanta, Ga.

No. MC 121654 (Sub-No. 9) (correction), filed October 14, 1977, published in the FEDERAL REGISTER issue of December 1, 1977, and republished as corrected this issue. Applicant: COASTAL TRANSPORT & TRADING CO., a corporation, P.O. Box 7438, Savannah, Ga. 31408. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Road NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, over irregular routes, transporting: *Building materials, wood products and lumber* (except iron and steel articles), from Mobile and Baldwin Counties, Ala., all points in Louisiana, and all points in Mississippi on and south of U.S. Highway 84, to all points in the United States in and east of Texas, Oklahoma, Kansas, Nebraska and Minnesota.

NOTE.—The purpose of this republication is to indicate the addition of "all" points in the territorial description. If a hearing is deemed necessary, applicant requests that it be held at New Orleans, La. Common control may be involved.

No. MC 123405 (Sub-No. 54), filed November 25, 1977. Applicant: FOOD TRANSPORT, INC., R.D. No. 1, Thomasville, Pa. 17364. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, Pa. 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: 1. *Petroleum and petroleum products, vehicle body sealer and sound deadening compounds* (except in bulk) and *filters*, from points in Marion County, Tenn. to points in the United States (except Alaska and Hawaii), restricted to traffic originating at points in Marion County, Tenn.; 2. *Materials, supplies and equipment* used in the manufacture, sale and distribution of the commodities named in part 1 above (except in bulk), from points in Ohio, West Virginia, Pennsylvania, Alabama, Georgia, Virginia, and Kentucky to Marion County, Tenn.; and 3. *Petroleum and petroleum products, vehicle body sealer and sound deadening compound* (except in bulk) and *filters*, from points in Ohio, New York, Rhode Island, Pennsylvania, West Virginia, to points in Marion County, Tenn., restricted to traffic destined to Marion County, Tenn.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C. or Harrisburg, Pa.

No. MC 124078 (Sub-No. 766), filed November 25, 1977. Applicant: SCHWERMAN TRUCKING CO., a corporation, 611 South 28th Street, Milwaukee, Wis. 53215. Applicant's representative: Richard H. Pevette, P.O. Box 1601, Milwaukee, Wis. 53201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Spent phosphoric acid, liquid, in bulk*, from Carrollton, Franklin, LaGrange, and Newnan, Ga., to Natchez and Laurel, Miss.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Washington D.C.

No. MC 124078 (Sub-No. 767), filed December 7, 1977. Applicant: SCHWERMAN TRUCKING CO. (a corporation), 611 South 28th Street, Milwaukee, Wis. 53215. Applicant's representative: James R. Ziperski, P.O. Box 1601, Milwaukee, Wis. 53201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Flour*, in bulk, from Toledo, Ohio to Buffalo, N.Y.; Chicago, Ill.; Pittsburgh and Philadelphia, Pa.; Fair Lawn, N.J.; Richmond, Va., and Atlanta, Ga.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Toledo, Ohio. Common control may be involved.

No. MC 124692 (Sub-No. 186), filed November 28, 1977. Applicant: SAMMONS TRUCKING, P.O. Box 4347, Missoula, Mont. 59806. Applicant's representative: J. David Douglas (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Hardwood systems, synthetic flooring systems, hardwood and synthetic flooring*, (2) *materials and supplies* used in the installation of the commodities in (1) above; and (3) *lumber, wood products and millwork*, from Dollar Bay, Mich., to points in Iowa, Missouri, Kansas, Oklahoma, New Mexico and Texas. Restricted to traffic originating in Dollar Bay, Mich.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 124887 (Sub-No. 46), filed December 1, 1977. Applicant: SHELTON TRUCKING SERVICE, INC., Route 1, Box 230, Altha, Fla. 32421. Applicant's representative: Sol H. Proctor, 1101 Blackstone Building, Jacksonville, Fla. 32202. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes in the transportation of: *Iron and steel articles*, from Darlington, S.C. to points in Alabama, Florida, Georgia, Illinois, Indiana, Kentucky,

Louisiana, Michigan, Mississippi, North Carolina, Ohio, Pennsylvania, Tennessee, Texas and Virginia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Jacksonville or Tallahassee, Fla. or Atlanta, Ga.

No. MC 126574 (Sub-No. 4), filed December 7, 1977. Applicant: M. L. HATCHER PICKUP AND DELIVERY SERVICES, INC. 3818 Patterson Street, Greensboro, N.C. 27407. Applicant's representative: Peter R. Gilbert, 1725 K Street NW., Suite 303, Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Malt beverages and related advertising materials*, and (2) *materials, supplies and equipment* used in the manufacture, sale and distribution of malt beverages, and returned empty malt beverage containers, (except commodities in bulk), between Eden, N.C., on the one hand, and, on the other, points in Virginia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 127042 (Sub-No. 198), filed December 5, 1977. Applicant: HAGEN, INC., P.O. Box 98, Leeds Station, Sioux City, Iowa 51108. Applicant's representative: Robert G. Tessar (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts, and articles distributed by meat packing-houses*, as described in sections A and C of appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766 (except hides and except commodities in bulk, in tank vehicles). (1) from Ft. Dodge and Denison, Iowa; Emporia, Kans.; Luverne, Minn.; and Dakota City, Nebr., to points in Arizona, California, Idaho, Nevada, Oregon, Utah, Washington; and (2) from West Point, Nebr., to points in Idaho, Oregon, and Washington.

NOTE.—If a hearing is deemed necessary applicant requests it be held in Omaha, Nebr.

No. MC 127550 (Sub-No. 6), filed December 9, 1977. Applicant: BOSCH TRUCKING CO., INC., 5600 South Washington Street, Bartonville, Ill. 61607. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Heavy equipment, machinery, machines, and raw materials and parts* for use in the manufacture and distribution of heavy equipment, machinery, and engines; and (2) *office and maintenance supplies*, between the facilities of Caterpillar Tractor Co. located in Scott

County, Iowa, on the one hand, and, on the other, Rockford, and Itasca, Ill., and the facilities of Caterpillar Tractor Co. located at or near Aurora, Decatur, Peoria, Joliet, Mapleton, Morton, and Mossville, Ill., under a continuing contract or contracts with Caterpillar Tractor Co., restricted against the transportation of commodities in bulk.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 128270 (Sub-No. 26), filed November 25, 1977. Applicant: RE-DIEHS INTERSTATE, INC., 1477 Ripley Street, Lake Station, Ind. 46405. Applicant's representative: Richard A. Kerwin, 180 North LaSalle Street, Chicago, Ill. 60601. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles, and building and construction materials*, from the plantsites and warehouses utilized by Penn-Dixie Industries, Inc. and Penn-Dixie Steel Corp., Subsidiaries of said corporations located at or near Cicero, Elkhart, Fort Wayne, Kokomo and North Judson, Ind.; Detroit, Grand Rapids, Holland and Petoskey, Mich.; Blue Island, Chicago, Joliet, Ill.; Columbus and Toledo, Ohio; Centerville and Des Moines, Iowa; Milwaukee, Wis.; Denver, Colo.; Albuquerque, N. Mex.; Kingsport, Knoxville, and Richards City, Tenn. to points in Montana, Wyoming, Colorado, New Mexico, Texas, Louisiana, Arkansas, Oklahoma, Kansas, Iowa, Missouri, Nebraska, North Dakota, South Dakota, Minnesota, Ohio, Wisconsin, Illinois, Indiana, Michigan, Kentucky, and Tennessee. (2) *Raw materials, supplies and equipment* used in the manufacturing and distribution of iron and steel articles and building and construction materials from the above named destination States to the origins in (1) above.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 128698 (Sub-No. 16), filed December 5, 1977. Applicant: ERDNER BROS., INC., Davidson Road, Swedesboro, N.J. 08085. Applicant's representative: Chester A. Zyblut, 366 Executive Building, 1030 15th Street NW., Washington, D.C. 20005. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen bakery goods*, from the plant-site and storage facilities of Pepperidge Farm, Inc., located at or near Downers Grove, Ill., to points in Massachusetts, Connecticut, Pennsylvania, New York, New Jersey, Delaware and Maryland.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held in Washington, D.C.

No. MC 129032 (Sub-No. 41), filed December 2, 1977. Applicant: TOM INMAN TRUCKING, INC., 6015 South 49th West Avenue, P.O. Box 9667, Tulsa, Okla. Applicant's representative: John Paul Fisher, 256 Montgomery Street, San Francisco, Calif. 94104. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such merchandise as is dealt in by wholesale, retail, chain grocery, and food business houses*, in vehicles equipped with mechanical refrigeration (except commodities in bulk, in tank vehicles), from the plant and warehouse facilities of Kraft, Inc., at Springfield, Mo., to points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Kansas, Kentucky, Louisiana, Mississippi, New Mexico, North Carolina, Oklahoma, South Carolina, Texas, Tennessee, and Virginia, restricted to traffic originating at the above-named origin and destined to the above-named destination States.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill., or St. Louis, Mo. Common control may be involved.

No. MC 129613 (Sub-No. 26), filed November 22, 1977. Applicant: ARTHUR H. FULTON, INC., P.O. Box 86, Stephens City, Va. 22655. Applicant's representative: Charles E. Creager, 1329 Pennsylvania Avenue, P.O. Box 1417, Hagerstown, Md. 21740. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Plastic articles and attachments, accessories and hardware therefor*, from Winchester, Va., to points in Michigan, Illinois, Indiana, Ohio, and Georgia, under a continuing contract or contracts with Rubbermaid Commercial Products, Inc.

NOTE.—Applicant holds motor common authority in MC 138000 and subs 30, 31, and 32 therefore; dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 133189 (Sub-No. 11), filed November 25, 1977. Applicant: VANT TRANSFER, INC., 5075 Mulcare Drive, Minneapolis, Minn. 55421. Applicant's representative: James S. Holmes, 4610 IDS Center, Minneapolis, Minn. 55402. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, in the transportation of *steel grinding balls*, from the plantsite and warehouse facility of Northstar Steel Co. located at or near Duluth, Minn. to points in Michigan, Wisconsin, Colorado, Montana, and Illinois.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Minneapolis or Duluth, Minn.

No. MC 133249 (Sub-No. 1), filed December 7, 1977. Applicant: PIONEER

TRUCKING CO., a corporation, 2010 Chicago Drive SW., Wyoming, Mich. 49509. Applicant's representative: Donald L. Stern, Suite 530, Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Paper labels*, from Grand Rapids, Mich., to points in California, under continuing contract or contracts with Michigan Lithographing Co.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held in Detroit, Mich.

No. MC 133562 (Sub-No. 26), filed December 1, 1977. Applicant: HOLIDAY EXPRESS CORP., P.O. Box 115, Esterville, Iowa 51334. Applicant's representative: Edward A. O'Donnell, 1004 29th Street, Sioux City, Iowa 51104. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts and articles distributed by meat packinghouses* as described in sections A and C of appendix I to the report in Descriptions in Motor Carrier Certificates 61 MCC 209 and 766 (except hides and commodities in bulk, in tank vehicles), from Fargo and West Fargo, N. Dak. to points in California. Restriction: Restricted to the transportation of shipments originating at the plantsites and storage facilities of Flavorland Industries, Inc., at or near the above-described origins and destined to points in the above-named State, except when moving in foreign commerce.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Fargo, N. Dak., or Minneapolis, Minn.

No. MC 133566 (Sub-No. 97), filed December 7, 1977. Applicant: GANG-LOFF & DOWNHAM TRUCKING CO., INC., P.O. Box 479, Logansport, Ind. 46947. Applicant's representative: Charles W. Beinhauer, Suite 4959, One World Trade Center, New York, N.Y. 10048. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meat, meat products and meat byproducts and articles distributed by meat packinghouses* as described in sections A, B, and C of appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766 (except hides and commodities in bulk), in vehicles equipped with mechanical refrigeration, from the plant-site and storage facilities utilized by John Morrell & Co. at or near Sioux City, Iowa, Esterville, Iowa, Humboldt, Iowa, and Sioux Falls, S. Dak. to points in the States of Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont. Restricted to traffic originating

at the above named origins and destined to points in the named destination States.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill. or New York, N.Y.

No. MC 133566 (Sub-No. 98), filed December 6, 1977. Applicant: GANG-LOFF & DOWNHAM TRUCKING CO., INC., P.O. Box 479, Logansport, Ind. 46947. Applicant's representative: Charles W. Beinhauer, Suite 4959, One World Trade Center, New York, N.Y. 10048. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meat, meat products and meat byproducts and articles distributed by meat packinghouses* as described in sections A, B, and C of appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766 (except hides and commodities in bulk), in vehicles equipped with mechanical refrigeration, from the plant-site and storage facilities utilized by John Morrell & Co. at or near Sioux City, Iowa, Esterville, Iowa, Humboldt, Iowa, and Sioux Falls, S. Dak. to points in Alabama, Florida, Georgia, Kentucky, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia, restricted to traffic originating at the above named origins and destined to points in the named destination States.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill. or New York, N.Y.

No. MC 134467 (Sub-No. 26), filed December 5, 1977. Applicant: POLAR EXPRESS, INC., P.O. Box 845, Springdale, Ark. 75764. Applicant's representative: Charles M. Williams, 350 Capitol Life Center, 1600 Sherman Street, Denver, Colo. 80203. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Cheese, cheese products and synthetic cheeses* (except commodities in bulk) from the plant-site and storage facilities of or utilized by the L.D.S. Schreiber Cheese Co., Inc., in Jasper, Newton, Barry and Lawrence Counties of Missouri, to points in Indiana, Michigan, New Jersey, New York, Ohio, Pennsylvania, Maryland, West Virginia, and the District of Columbia, restricted to traffic originating at named origins and destined to named destinations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Little Rock, Ark. or Green Bay, Wis.

No. MC 134547 (Sub-No. 6), filed December 7, 1977. Applicant: BILBO TRANSPORTS, INC., 2722 Singleton Boulevard, Dallas, Tex. 75212. Applicant's representative: Austin L. Hatchell, 1102 Perry Brooks Building, Austin, Tex. 78701. Authority sought

to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Gypsum and gypsum products and materials and supplies* used in the installation and distribution thereof (except commodities in bulk), from the facilities of the Georgia-Pacific Corp. located at or near Acme, Tex., to points in New Mexico, under a continuing contract or contracts with Georgia-Pacific Corp.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 134922 (Sub-No. 247), filed November 28, 1977. Applicant: B. J. McADAMS, INC., Route 6, Box 15, North Little Rock, Ark. 72118. Applicant's representative: Bob McAdams (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Portable ladders*, (a) wood ladders, (b) fiberglass ladders, (c) aluminum ladders, (d) mobile steel and aluminum platform ladders, and (e) special purpose ladders; (2) *fixed ladders*, (a) steel ladders, (b) aluminum ladders, and (c) fiberglass ladders; (3) *ladder accessories*; (4) *scaffolding*, (a) steel, and (b) aluminum; (5) *stages and planks*, (a) aluminum, and (b) wood; (6) *elevating work platforms*, (a) mobile telescoping platforms, (b) mobile scissor lift platforms, (c) mobile boom lift platforms, and (d) fork lift platforms; (7) *fall protection equipment*; (8) *ladder packs*; (9) *lumber, fabricated wood parts, and wood pallets*; (10) *steel materials, fabricated parts and hardware*; (11) *aluminum extrusions, fabricated parts and castings*; (12) *reinforced plastic pultrusions, and materials and plastic parts*, from Wooster, Ohio, to points in Arkansas, Louisiana, Texas, Oklahoma, Missouri, New Mexico, Arizona, California, Colorado, Utah, Nevada, Nebraska, Montana, Wyoming, Washington, Oregon, and Idaho, restricted against the transportation of commodities in bulk and those which because of size or weight require the use of special equipment.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Columbus, Ohio or Little Rock, Ark.

No. MC 135598 (Sub-No. 8) (correction), filed November 10, 1977, published in the FEDERAL REGISTER issue of December 22, 1977, and republished, as corrected, this issue. Applicant: SHARKEY TRANSPORTATION, INC., Post Office Box 3156, Quincy, Ill. 62301. Applicant's representative: Carl L. Steiner, 39 South LaSalle Street, Chicago, Ill. 60603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Malt beverages*, from Milwaukee, Wis., to Quincy, Ill., and Burlington, Iowa; (2) *dry animal and poultry feed, animal and*

poultry tonics, insecticides (other than agricultural), and *livestock and poultry feeders*, from the plant site of Moorman Manufacturing Co., located at or near Alpha, Ill., to points in Wisconsin and Iowa. Restricted to traffic originating at the said plantsite and destined to the named States; (3) (a) *animal and poultry feeds and animal and poultry mineral mixes, animal and poultry tonics and medicines, dry earth paint, insecticides and premiums and advertising matter related to such products*, from Quincy, Ill., to points in Kentucky, Tennessee, and Alabama. Restricted to traffic originating at the plantsite and facilities of Moorman Manufacturing Co., located at Quincy, Ill., and destined to the States named herein; (b) *such ingredients as are used in animal and poultry feeds, animal and poultry mineral mixtures, animal and poultry tonics and medicines, dry earth paint and insecticides, and bags and containers*; from points in Kentucky and Tennessee to the plantsite of Moorman Manufacturing Co. at Quincy, Ill.; (c) *livestock and poultry feeders and equipment*, from the plantsite of Moorman Manufacturing Co., located at Quincy, Ill., to points in Kentucky, Tennessee, and Alabama. Restricted to traffic originating at the plantsite of Moorman Manufacturing Co., located at Quincy, Ill., and destined to points in Kentucky, Tennessee, and Alabama.

NOTE.—Applicant presently holds permits to provide the service for which authority is sought herein in Docket No. MC 138314 and Subs. 2 and 3. This application is being filed so that all of the applicant's authority will be that of a common carrier. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill. The purpose of this correction is to show the additional destination of Burlington, Iowa in part (1) above.

No. MC 135982 (Sub-No. 17), filed November 28, 1977. Applicant: S. L. HARRIS, d.b.a. P.B.I., Post Office Box 7130, Longview, Tex. 75601. Applicant's representative: Bernard H. English, 6270 Firth Road, Fort Worth, Tex. 76116. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Malt beverages* and related advertising materials from Eden, N.C., to points in Alabama, Florida, Georgia, Kentucky, South Carolina, Louisiana, Mississippi, Tennessee, and Texas; (2) *materials, supplies, and equipment* used in the manufacture, sale, and distribution of malt beverages, and returned empty malt beverage containers (except commodities in bulk), from points in Alabama, Florida, Georgia, Kentucky, South Carolina, Louisiana, Mississippi, Tennessee, and Texas, to Eden, N.C.; and (3) *malt beverages and*

related advertising materials, between Eden, N.C., and Fort Worth, Tex.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Dallas or Fort Worth, Tex.

No. MC 136357 (Sub-No. 2), filed November 25, 1977. Applicant: BEST TRANSPORTATION CORP., River Street and South Washington Avenue, Scranton, Pa. 18505. Applicant's representative: Joseph F. Hoary, 121 South Main Street, Taylor, Pa. 18517. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Printed matter* from Dunmore, Scranton, Bloomsburg, and Allentown, Pa., to points in New Jersey; Rhode Island; Connecticut; Massachusetts; Michigan; Illinois; New Hampshire; Vermont; Maine; New York; Indianapolis, Crawfordville, Bloomington, Fort Wayne, Hammond, Terre Haute, Ind.; Cincinnati, Ohio; Kingsport, Tenn.; and Lynchburg, Va.; and (2) *materials and supplies* used in the manufacture of printed matter, on return.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 136371 (Sub-No. 28), filed November 30, 1977. Applicant: CONCORD TRUCKING CO., INC., 1 Scout Avenue, South Kearny, N.J. 07032. Applicant's representative: Steven J. Kalish, Suite 1105, 1750 Pennsylvania Avenue NW., Washington, D.C. 20006. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Such commodities* as are dealt in or used by discount department stores (except foodstuff and commodities in bulk), between the facilities of Charming Shoppes of Delaware, Inc., located at Cornwells Heights, Pa., on the one hand, and, on the other, points in Kentucky and South Carolina, under a continuing contract or contracts with Charming Shoppes of Delaware, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 136376 (Sub-No. 8), filed December 5, 1977. Applicant: MONT R. LYNCH, d.b.a. LYNCH TRUCKING, 1818 Elaine, Billings, Mont. 59102. Applicant's representative: G. Todd Baugh, Suite 805, Midland Bank Building, Billings, Mont. 59101. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Carpeting*, from points in Georgia, to points in Montana.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Billings, Mont.

No. MC 136464 (Sub-No. 33), filed December 7, 1977. Applicant: CARO-

LINA WESTERN EXPRESS, INC., Box 3961, Gastonia, N.C. 28052. Applicant's representative: Eric Meierhoefer, Suite 712, 1511 K Street NW., Washington, D.C. 20005. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Zippers, thread, binding, lace, tape, webbing, ribbon, sewing aids, and materials and supplies used in the manufacture and sale thereof* between the facilities of Talon Division of Textron located at or near Meadville, Pa., and Charlotte, N.C., under a continuing contract, or contracts, with Talon Division of Textron, Inc., of Meadville, Pa.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C. Applicant holds common carrier authority in No. MC 138635 (Sub-No. 16) and sub-numbers thereunder, therefore dual operations may be involved.

No. MC 138046 (Sub-No. 1), filed December 7, 1977. Applicant: JOHN S. GRIMES, INC., 890 Shorewood Drive, Median, Ohio, 44256. Applicant's representative: John L. Alden, 1396 West Fifth Avenue, Columbus, Ohio 43212. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: (1) *Plastic products*, from Medina, Ohio, to points in Connecticut, Delaware, Massachusetts, Missouri, Iowa, New Jersey, Wisconsin, and Virginia; and (2) *materials and supplies* used in the manufacture and distribution of plastic products (except commodities in bulk), from points in Connecticut, Delaware, Massachusetts, Missouri, Iowa, New Jersey, Wisconsin, and Virginia to Medina, Ohio, under a continuing contract or contracts with Plastipak Packaging Division of Beatrie Foods Co.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Columbus or Cleveland, Ohio, or Washington, D.C.

No. MC 138438 (Sub-No. 19), filed December 2, 1977. Applicant: D. M. BOWMAN, INC., Route 9, Box 26, Hagerstown, Md. 21740. Applicant's representative: Charles E. Creager, 1329 Pennsylvania Avenue, P.O. Box 1417, Hagerstown, Md. 21740. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Building materials*, from the plantsite of Washington Concrete Products, Division of General Industries, Inc., at or near Gainesville, Va., to points in Maryland and the District of Columbia.

NOTE.—Applicant has motor contract carrier authority pending in No. MC 117613 (Sub. 23); therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 138635 (Sub-No. 46), filed December 6, 1977. Applicant: CAROLINA WESTERN EXPRESS, INC.,

Box 3961, Gastonia, N.C. 28052. Applicant's representative: Eric Meierhoefer, Suite 712, 1511 K Street NW., Washington, D.C. 20005. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment) which are at the time moving on bills of lading of freight forwarders operating pursuant to Part IV of the Interstate Commerce Act, (a) between points in California, Washington, Oregon, Nevada, Idaho, Utah, and Arizona, on the one hand, and, on the other points in Arkansas, Louisiana, Mississippi, Maryland, District of Columbia, Kentucky, Tennessee, Alabama, Florida, Georgia, South Carolina, North Carolina, and Virginia; and (b) from points in California, to points in Washington and Oregon.

NOTE.—Applicant holds contract carrier authority in No. MC 138464 and sub numbers thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests that it be held at Los Angeles, Calif.

No. MC 138875 (Sub-No. 67), filed December 6, 1977. Applicant: SHOE-MAKER TRUCKING CO. (a corporation), 11900 Franklin Road, Boise, Idaho 83705. Applicant's representative: F. L. Sigloh, 11900 Franklin Road, Boise, Idaho 83705. Authority sought to operate as a common carrier, over irregular routes, transporting: (1) *Fabricated pipe, control panels, and materials for nuclear energy systems*, (2) *materials and supplies* used in the fabrication and distribution of (1) above (except products in bulk in tank vehicles), (1) from the plantsite of Huico, Inc., located at or near Meridian, Idaho to points and places in the United States (including Alaska, but except Hawaii); (2) from points in the United States (including Alaska, but except Hawaii) to the plantsite of Huico, Inc., located at or near Meridian, Idaho.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Boise or Meridian, Idaho.

No. MC 139495 (Sub-No. 293), filed December 2, 1977. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th Street, P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert Alan Dublin, 1320 Fenwick Lane, Suite 500, Silver Spring, Md. 20910. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Food, cosmetic, drug, industrial, and scientific chemicals, and related laboratory instruments and kits* (except commodities in bulk, in tank vehicles), from the facilities of Mallinckrodt, Inc., located at or near

Paris, Ky., Decatur, Ill., and St. Louis, Mo., to points in Washington, Oregon, California, Texas, and Louisiana.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 139615 (Sub-No. 10) filed December 7, 1977. Applicant: DRS TRANSPORT, INC., P.O. Box 29, Oskaaloosa, Iowa 52577. Applicant's representative: Larry D. Knox, 600 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Plastic, plastic articles, plastic pipe tubing, fittings connections and materials, supplies, and accessories* used in the manufacture and installation thereof (except in bulk, in tank vehicles), between the facilities of, or utilized by, Robintech Inc. located at or near Grinnell, Iowa, Rolla, Mo., and Hillsboro, Tex., on the one hand, and, on the other, all points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 140829 (Sub No. 64) filed November 23, 1977. Applicant: CARGO CONTRACT CARRIER CORP., P.O. Box 206, U.S. Highway 20, Sioux City, Iowa 51102. Applicant's representative, William J. Hanlon, 55 Madison Ave., Morristown, N.J. 07960. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *meat, meat products and meat byproducts and articles* distributed by meat packing houses, as described in section A of appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766, (except commodities in bulk), from the plantsite and/or storage facilities utilized by Illini Beef Packers, Inc. at or near Joslin, Ill. Davenport, Iowa to points in the states of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, and the District of Columbia, restricted to the transportation of traffic originating at the named origins and destined to points in the above named destination states.

NOTE.—Applicant holds contract carrier authority in MC 136408 (Sub. 7) and subs thereunder; therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it to be held in Washington, D.C.

No. MC 141921 (Sub-No. 8) filed November 25, 1977. Applicant: SAV-ON TRANSPORTATION, INC., 143 Frontage Road, Manchester, N.H. 03103. Applicant's representative: Harry C. Pappas (same address as applicant). Authority sought to operate

as a common carrier, by motor vehicle, over irregular routes, in the transportation of: *Meat, meat products, and meat byproducts, and articles* distributed by meat packing houses, as described in sections A and C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766 (except hides, skins, and commodities in bulk), from the plantsite or warehouse facilities of the Sterling, Colorado Beef Co. at or near Sterling, Colo., to points in —, Wisconsin, Illinois, Kentucky, New York, Pennsylvania, Massachusetts, Connecticut, Rhode Island, New Jersey, Maryland, Delaware and the District of Columbia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Boston, Mass.

No. MC 142517 (Sub-No. 2), filed December 1, 1977. Applicant: HOWARD DELIVERY SERVICE, INC., 5-270 General Motors Building, Detroit, Mich. 48202. Applicant's representative: Richard A. Mehley, 1000 16th Street NW., Washington, D.C. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *motor vehicle parts, components, materials and supplies* (except commodities in bulk) between Chicago, Ill., on the one hand, and, on the other, (1) points in Wisconsin on and south of a line extending from Wisconsin-Michigan boundary along U.S. Highway 8 to junction of U.S. Highway 45, then along U.S. Highway 45 to junction of Wisconsin Highway 64, then along Wisconsin Highway 64 to Wisconsin-Minnesota boundary, and (2) points in Indiana on and north of a line extending from Indiana-Ohio boundary along Indiana Highway 44 to junction of Indiana Highway 67, then along Indiana Highway 67 to junction with Indiana Highway 46, then along Indiana State Highway 46 to junction with Interstate Highway 70, then along Interstate Highway 70 to Indiana-Illinois boundary, under a continuing contract with General Motors Parts Division, General Motors Corp. of Flint, Mich.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held in either Washington, D.C., or Chicago, Ill.

No. MC 142672 (Sub-No. 8), filed November 3, 1977. Applicant: DAVID BENEUX PRODUCE & TRUCKING, INC., P.O. Drawer F, Mulberry, Ark. 72747. Applicant's representative: Don Garrison, 324 North Second Street, Rogers, Ark. 72756. No. MC 144008, filed November 14, 1977. Applicant: STORE TRANSFER & DELIVERY SERVICES, INC., 226 Mill Street, Poughkeepsie, N.Y. 12601. Applicant's representative: Ronald I. Shapss, 450 Seventh Avenue, New York, N.Y. 10001. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise as dealt in by retail department stores*, between New York, N.Y., on the one hand, and, on the other, points in Terre Haute, Ind., Columbia and Greenville, S.C., and Lexington and Richmond, Ky., under a continuing contract or contracts with Southern Dollar Stores, Inc., and Mercantile Stores, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 144061 (Sub-No. 1), filed December 1, 1977. Applicant: SICOMAC CARRIERS, INC., 347 Sicomac Avenue, Wyckoff, N.J. 07481. Applicant's representative: Arthur J. Piken, One Lefrak City Plaza, Flushing, N.Y. 11368. Authority is sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Powdered pollution control and stack emission additives; liquid pollution control and stack neutralizing additives; liquid pollution control combustion catalyst additives; and pollution control feeding equipment*: (1) Between the facilities of Apollo Chemical Corp., located at or near Whippany, N.J., on the one hand, and, on the other, points in the United States, except Alaska and Hawaii; (2) between the facilities of Apollo Chemical Corp., located at or near Marshall, Tex., on the one hand, and, on the other, points in the States of Arizona, California, Oregon, Washington, Nevada, Idaho, New Mexico, Montana, Oklahoma, Utah, Missouri, Illinois, Nebraska, Louisiana, and Florida; and *Raw materials used in the manufacture of powdered pollution control and stack emission additives; liquid pollution control and stack neutralizing additives; and liquid pollution control combustion catalyst additives*, from points in the United States (except Alaska and Hawaii) to the facilities of Apollo Chemical Corp., located at or near Whippany, N.J., and Marshall, Tex. Restriction: The above restricted to service under contract or continuing contracts with Apollo Chemical Corp. of Whippany, N.J.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Newark, N.J.

No. MC 144066 (Sub-No. 1), filed December 9, 1977. Applicant: GORDON A. PADGETT TRUCKING, INC., 3206 Production Drive, Fairfield, Ohio 45014. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Applicant seeks authority to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Slag*, in bulk, in dump vehicles, from the plantsites of American Materials Corp., in Butler County, Ohio, to points in Indiana.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 144071, filed December 1, 1977. Applicant: J. A. FRATE, INC., 755 Broadway, Crystal Lake, Ill. 60014. Applicant's representative: William H. Towle, 180 North LaSalle Street, Suite 3520, Chicago, Ill. 60601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between points in Cook, Lake, Kane, and McHenry Counties, Ill. Restriction: The above authority is restricted to the transportation of shipments having a prior or subsequent movement by air.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 144075, filed December 7, 1977. Applicant: INDUSTRIAL TRANSPORT, INC., 2301 East 65th Street, Cleveland, Ohio 44104. Applicant's representative: Henry U. Snavely, 410 Pine Street, Vienna, Va. 22180. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, of: (1) *Sheet metal products* used in the manufacture and installation of heating and air-conditioning systems, and (2) *coil steel* (a) between the facilities of L B Cleveland, Inc., at Cleveland and Mount Vernon, Ohio, and (b) between the said facilities, on the one hand, and, on the other, points in Alabama, California, Connecticut, Delaware, Georgia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Missouri, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, West Virginia, Wisconsin, Vermont, and Virginia, and the District of Columbia, restricted to a transportation service performed under a continuing contract or contracts with L B Cleveland, of Cleveland, Ohio.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C., or Cleveland, Ohio.

No. MC 144084, filed December 2, 1977. Applicant: DONALD E. FITZPATRICK, Sr., d.b.a. FITZPATRICK TRANSPORT, 9942 West Saint Charles Road, Sumner, Mich. 48889. Applicant's representative: Martin J. Leavitt, 22375 Haggerty Road, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* from Toledo, Ohio to points in Michigan.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Chicago, Ill. or Washington, D.C.

No. MC 144140, filed November 4, 1977. Applicant: SOUTHERN FREIGHTWAYS, INC., P.O. Box 374, Eustis, Fla. 32726. Applicant's representative: K. Edward Wolcott, 1600 First Federal Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Citrus products* between points in Florida, restricted to traffic having a prior or subsequent movement by water or rail.

NOTE.—Applicant holds pending contract carrier authority in MC 104589 Sub. 3 and other subs thereunder therefore dual operations may be involved. Applicant states it is seeking conversion of existing contract authority to common. If a hearing is deemed necessary, applicant requests it be held at Orlando, Fla.

No. MC 144140 (Sub-No. 1), filed November 25, 1977. Applicant: SOUTHERN FREIGHTWAYS, INC., P.O. Box 374, Eustis, Fla. 32726. Applicant's representative: K. Edward Wolcott, P.O. Box 872, Atlanta, Ga. 30301. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Foodstuffs*, from the facilities of Bruce Foods Corp. at or near Cade and Lozes, La., to points in Alabama, Florida, Georgia, Kentucky, Mississippi, and Tennessee.

NOTE.—Applicant holds contract carrier authority in No. MC 104589 Sub. 31; therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests that it be held at New Orleans, La.

PASSENGERS

No. MC 115676 (Sub-No. 4), filed November 28, 1977. Applicant: CONWAY'S BUS SERVICE, INC., 3220 Mendon Road, Cumberland, R.I. 02864. Applicant's representative: Frank O. Lind, Jr., 2180 Mendon Road, Cumberland, R.I. 02864. NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at New York, N.Y. Common control may also be involved.

FINANCE APPLICATIONS

NOTICE

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, or rail carriers or motor carriers pursuant to sections 5(2) or 210a(b) of the Interstate Commerce Act.

An original and two copies of protests against the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with Special Rule 240(c) or 240(d) of the Commission's General Rules of Practice (49 CFR 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant, if no representative is named.

MOTOR CARRIER OF PASSENGERS

No. MC-F-13468. Authority sought for control by BOISE-WINNEMUCCA STAGES, INC., 1105 La Pointe Street, Boise, Idaho 83706, of Northwestern Stage Lines, Inc., 1105 La Pointe Street, Boise, Idaho 83706 and for acquisition by A. J. Achabal and Shirley Achabal, both of 160 Appaloosa Drive, Boise, Idaho 83705, of control of such rights through the transaction. Applicant's representative: A. J. Achabal, 1105 La Pointe Street, Boise, Idaho. Operating rights sought to be controlled: *Passengers and their baggage, and express, newspapers, and mail*, in the same vehicle with passengers, as a common carrier, over regular routes between Boise, Idaho, and New Meadows, Idaho; serving the intermediate and off route points of Horse Shoe Bend, Cascade, McCall, Donnelly, Gardena, Arling, Macgregor, Banks, Lake Fork, and Smiths Ferry, Idaho, from Boise over Idaho Highway 44 to junction Idaho Highway 15, thence over Idaho Highway 15 to New Meadows, and return over the same route. Between New Meadows, Idaho, and Grangeville, Idaho; serving the inter-

NOTICES

mediate and off route points of New Meadows, Black Bear, Riverside, Pollock, Riggins, Lucile, Slate Creek, and White Bird, Idaho; from New Meadows over U.S. Highway 95 to Grangeville, and return over the same route. Passengers and their baggage, and express, mail, and newspapers in the same vehicle with passengers, between Grangeville, Idaho and Lewiston, Idaho, serving all intermediate points, from Grangeville over U.S. Highway 95 to Lewiston, and return over the same route. Vendee is authorized to operate as a common carrier in all of the 48 States, and as a contract carrier in Idaho, Oregon, California, and Nevada. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-13469. Authority sought for merger into PONY EXPRESS COURIER CORP., P.O. Box 4313, Atlanta, Ga., 30302, of the operating rights and properties of Financial Courier Corp., P.O. Box 3094, Winston-Salem, N.C. Financial Courier Corp. operates as a contract carrier, over irregular routes, under Docket No. MC 133683 and Sub-No. 4 thereof transporting: (a) *Such commercial papers, documents, written instruments, and business records* (except currency and negotiable securities) as are used in the business of banks and banking institutions, between Asheville, Charlotte, Greenville, Raleigh, and Winston-Salem, N.C.; between Asheville, Charlotte, Greenville, Raleigh, and Winston-Salem, N.C. on the one hand, and, on the other, points in North Carolina, South Carolina, Virginia and points in Johnson, Sullivan, Hawkins, Hancock, Claiborne, Carter, Washington, Greene, Unicoi, Cocke, Sevier, Blount, Jefferson, Knox, Loudon, Anderson, Union, and Grainger Counties, Tenn., and Richmond and Columbia Counties, Ga. Restriction: The operations authorized above are limited to a transportation service to be performed, under a continuing contract, or contracts with banks and banking institutions, Wachovia Services, Inc., (b) *audit and data processing media and other business and governmental records*; (except as are used in the business of banks and banking institutions), between Asheville, Charlotte, Greenville, Raleigh, and Winston-Salem, N.C., and between Asheville, Charlotte, Greenville, Raleigh, and Winston-Salem, N.C., on the one hand, and, on the other, points in North Carolina, South Carolina, Virginia, and points in Johnson, Sullivan, Hawkins, Hancock, Claiborne, Carter, Washington, Greene, Unicoi, Cocke, Sevier, Blount, Jefferson, Knox, Loudon, Anderson, Union, and Grainger Counties, Tenn., and Richmond and Columbia Counties, Ga. Restriction: The operations authorized immediately above are limited to a

transportation service to be performed, under a continuing contract, or contracts with Wachovia Services, Inc., (c) *commercial papers, documents, written instruments, audit and data processing media, and business records* (except currency and negotiable securities), between Raleigh-Durham Airport at Greensboro, N.C., Smith Reynolds Airport at Winston-Salem, N.C., and Douglas Airport at Charlotte, N.C., on the one hand, and, points in North Carolina, on the other, between Tri-City Airport at Kingsport, Tenn., on the one hand, and, points in Johnson, Sullivan, Hawkins, Hancock, Claiborne, Carter, Washington, Greene, Unicoi, Cocke, Sevier, Blount, Jefferson, Knox, Loudon, Anderson, Union, and Grainger Counties, Tenn., and Washington County, Va., on the other, restricted to the transportation of shipment having an immediately prior or subsequent movement by air, under contract with banks and banking institutions, and Wachovia Services, Inc. Authority is also sought for Pony Express Courier Corp. to purchase the operating rights of Wells Fargo Armored Service Corp., Cosmopolitan Center, 6165 Barfield Road, Suite 200, Atlanta, Ga. 30328, issued in Docket No. MC 35807 (Sub-No. 63) authorizing service as a contract carrier, over irregular routes, of *commercial papers, documents, written instruments and accounting media*, between DeFuniak Springs, Fla., and Dothan, Ala., restricted to service performed under a continuing contract or contracts with First National Bank of Birmingham, Ala., and in Docket No. MC 35807 (Sub-No. 69) authorizing similar service in the transportation of *Checks, business papers, records, payroll checks, reports and audit and accounting media*, over irregular routes, between Hamden, Conn., and points in Ulster, Orange, and Dutchess Counties, N.Y., restricted to service performed for the accounts of Mid-Hudson Savings Bank, Rondout Savings Bank, Ellenville Saving Bank, Savings and Loan Association of Newburgh, and Northeast Data Co., Inc. Wells Fargo Armored Service Corp. holds authority under Docket No. MC 35807 and Sub-Nos. thereof to transport, over irregular routes, *coin, currency and other valuable articles* as a contract carrier from, to or between specified points or areas in Massachusetts, New York, Pennsylvania, New Jersey, Delaware, Louisiana, Mississippi, Florida, Alabama, Tennessee, Colorado, Georgia, North Carolina, Virginia, Kentucky, Texas, Oklahoma, Missouri, Arkansas, New Mexico, Arizona, Wyoming, Montana, North Dakota, South Dakota, Illinois, California, Minnesota, Oregon, Utah, Washington, Washington, D.C., South Carolina, Iowa, Nebraska, Connecticut, West Virginia, and Michigan, generally

under contract with banks, banking institutions, and General Services Administration. Pony Express Courier Corp., holds no permanent authority from this Commission. However, Baker Industries, Inc., 199 Cherry Hill Road, Parsippany, N.J. 07054, controls both Pony Express Courier Corp. and Wells Fargo Armored Service Corp. and joins in this application for authority to commonly control the two carriers and the operating rights and property sought to be acquired through the proposed transactions. Applicant's attorney: Harry J. Jordan, Esquire, Macdonal & McInerney, 1000 16th Street NW., Suite 502, Washington, D.C. 20036. Approval of the transaction will not result in dual operations, the splitting of any operating authority, or duplication of authorities. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-13478. Authority sought for purchase by ST. LAWRENCE FREIGHTWAYS, INC., 650 Cooper Street, Watertown, N.Y. 13601, of a portion of the operating rights of Oneida Motor Express, Inc., Commercial Avenue, Carlstadt, N.J. 07072, and for acquisition by Charles J. Wilcox, Sr., also of 650 Cooper Street, Watertown, N.Y. 13601, of control of such rights through the purchase. Applicant's attorneys: Roy D. Pinsky (attorney for transferee), 345 South Warren Street, Syracuse, N.Y., and William Biederman (attorney for transferor), 371 Seventh Avenue, New York, N.Y. 10001. Operating rights sought to be transferred: *General commodities*, with exceptions as a common carrier, over regular routes between New York, N.Y., and Auburn, N.Y., serving the intermediate point of Syracuse, N.Y.; from New York via ferry, bridge, or tunnel to New Jersey, thence over U.S. Highway 22 to junction New Jersey Highway 69 to junction U.S. Highway 46 to junction U.S. Highway 611, thence over U.S. Highway 611 to Scranton, Pa., thence over U.S. Highway 11 via Binghamton, N.Y., to Syracuse, N.Y. and thence over New York Highway 5 to Auburn and return over the same route. Service is authorized to and from the off-route points of Chadwicks, Rome, Troy, Albion, Honoye Falls, Mount Morris, Medina and Phelps, N.Y. Vendee is authorized to operate as a common carrier in New York, New Jersey, Pennsylvania, Massachusetts, New Hampshire, and Vermont. Application has not been filed for temporary authority under section 210a(b), of the Act.

No. MC-F-13479. Authority sought for purchase by TRI-STATE MOTOR TRANSIT CO., P.O. Box 113 (business I-44), Joplin, Mo. 64801, a portion of the operating rights of O.N.C. Freight Systems, P.O. Box 10280 (260 Sheridan Ave.), Palo Alto, Calif. 94303. Ap-

plicant's attorneys: Max. G. Morgan, 223 Ciudad Building, Oklahoma City, Okla. 73112; and Joseph P. Ficurelli, P.O. Box 10280, Palo Alto, Calif. 94303. Operating rights sought to purchase: That portion of MC 71459 (Sub-No. 53) as follows: *Classes A, B, and C Explosives*, as a *common carrier*, over regular routes between intermediate and off-route points within 18 miles of Olympia, Wash., not including Olympia and not including those portions falling within 18 miles of Tacoma except to specifically include the right to serve the point of DuPont, on the one hand, and, on the other, intermediate, off-route and terminal points in Clallam, Jefferson and Kitsap Counties, Wash.; from Olympia, over U.S. Highway 101 to Quilcene, Wash., or from Olympia over U.S. Highway 101 to junction Washington Highway 3 (formerly portion Washington Highway 14), thence over Washington Highway 3, (formerly portion Washington Highways 14 and 21) to Bremerton, Wash., and return over the same routes. *Classes A, B, and C Explosives*, as a *common carrier*, over irregular routes between points within 18 miles of Olympia, Wash., not including Olympia and excluding that portion falling within 18 miles of Tacoma, but to include the specific right to serve DuPont, Wash., on the one hand, and, on the other, points in Clallam, Jefferson, and Kitsap Counties, Wash., with restrictions. Vendee is authorized to operate pursuant to Certificate No. MC 109397 as a *common carrier* in all states in the United States. Upon approval of the proposed transaction, Vendor will continue to operate the remaining portions of its authority. Application has not been filed for temporary authority under Section 210a(b).

NOTE.—MC 109397 (Sub-No. 386) is a directly related matter.

MOTOR CARRIER OF PASSENGERS

No. MC-F-13480. Authority sought for the purchase by RFK CHARTER COACHES, INC., 144 32d Street Drive, SE., Cedar Rapids, Iowa, 52403, of a portion of the operating rights and equipment of Sedalia-Marshall-Boonville Stage Line, Inc., 5805 Fleur Drive, Des Moines, Iowa, 50321, and for the acquisition by Thomas E. Fleckenstein, 2315 Ridgeway Drive SE., Cedar Rapids, Iowa, 52403, and Robert F. Kazimour, 1200 Norwood Drive, SE., Cedar Rapids, Iowa, 52403, of control of such rights and equipment through the purchase. Applicants' representative: Thomas E. Leahy, Jr., 1980 Financial Center, Des Moines, Iowa. Operating rights sought to be transferred: *Passengers and their baggage, and express* in the same vehicle with passengers, as a *common carrier*, over regular routes, between Des Moines,

Iowa, and Manning, Iowa, serving the intermediate points of Clive, Waukee, Adel, Redfield, Linden, Panora, Bagley, and Coon Rapids, Iowa; and the off route points of Yale, Bayard, Dedham, and Templeton, Iowa, from Des Moines over U.S. Highway 6 to Redfield, Iowa, thence over Iowa Highway 292 to junction Iowa Highway 64, thence over Iowa Highway 64 to Panora, Iowa, thence over Iowa Highway 17 to junction Iowa Highway 141, and thence over Iowa Highway 141 to Manning, and return over the same route, with restrictions, between Des Moines, Iowa, and Sioux City, Iowa serving the intermediate points of Clive, Grimes, Dallas Center, Minburn, Perry, Dawson Junction, Jamailca, Bagley, Bayard, Coon Rapids, Dedham, Templeton, Manning, Manilla, Denison, Charter Oak, Ute, Mapleton, Smithland, Hanson Trading Post, and Holly Spring, Iowa; From Des Moines over Iowa Highway 64 to Junction U.S. Highway 169, thence over U.S. Highway 169 to junction Iowa Highway 141, thence over Iowa Highway 141 to junction Iowa Highway 342, thence over Iowa Highway 342 to Jamailca, Iowa, and return over Iowa Highway 342 to junction Iowa Highway 141, thence over Iowa Highway 141 to junction Iowa Highway 361, thence over Iowa Highway 361 to Bayard, Iowa, and return over Iowa Highway 361 to junction Iowa Highway 141, thence over Iowa Highway 141 to junction Iowa Highway 236, thence over Iowa Highway 236 to Templeton, Iowa, and return over Iowa Highway 236, to junction Iowa Highway 141, thence over Iowa Highway 141 to junction Iowa Highway 45, thence over Iowa Highway 45 to Manilla, Iowa, and return over Iowa Highway 45 to junction Iowa Highway 141, and thence over Iowa Highway 141 to Sioux City, and return over the same route. RFK Charter Coaches, Inc., holds no authority from this Commission. However, Thomas E. Fleckenstein who controls RFK Charter Coaches, Inc. is also the owner of Charter Coaches, Inc. Charter Coaches, Inc. is authorized to operate a *common carrier* in all the States in the United States except Alaska and Hawaii. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-13482. Authority sought for continuance in control by JAMES "JAKE" JACOBSSMA, 2600 Highway 75 North, Sioux City, Iowa, 51105 of (B) Jacobsma Transport, Inc., of 2600 Highway 75 North, Sioux City, Iowa, 51105 and (BB) Jacobsma Transportation, Inc., of 2600 Highway 75 North, Sioux City, Iowa, 51105 through stock ownership. Applicant's attorney: Brian K. Ridenour, P.O. Box 82028, Lincoln, Nebr., 68501. Operating rights sought to be controlled: (B) Jacobsma Trans-

port, Inc. of Sioux City: *Liquid fertilizer solutions*, as a *common carrier* over irregular routes from Owens, Iowa to points in Minnesota, Nebraska, and South Dakota; and *anhydrous ammonia*, as a *common carrier*, over irregular routes from the facilities of Gulf Central Pipeline at or near Spencer and Holstein, Iowa, to points in Iowa, Minnesota, Nebraska, North Dakota and South Dakota. Applications for said authority have been granted in MC 143024 (Sub-Nos. 1 and 2), but issuance of the certificates has been withheld pending section 5 approval of common control. Operating rights sought to be controlled, (BB) Jacobsma Transportation, Inc. of Sioux City: specified *iron, aluminum and steel items* from the plantsites of Sioux City Foundry Co., Sioux City, Iowa and South Sioux City, Nebr. to points in Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota and South Dakota and *steel products* from the plantsite of Missouri Valley Steel Co., Sioux City, Iowa, to points in Kansas, Minnesota, Nebraska, North Dakota and South Dakota, all as more specifically described in MC 129830 (Sub-No. 2); specified *aluminum, iron and steel articles*, as a *common carrier* from the facilities of State Steel Supply Co., Sioux City, Iowa to points in Iowa, Minnesota, Kansas, Nebraska, South Dakota, North Dakota and Missouri and specified *iron, aluminum and steel articles*, as a *common carrier*, over irregular routes, from the facilities of Sioux City Foundry Co., Sioux City, Iowa and South Sioux City, Nebr., to points in Wyoming and Colorado, all as more specifically described in MC 129830 (Sub-No. 5); and *crushed and scrapped vehicles, implements and machinery*, as a *common carrier*, over irregular routes from points in Woodbury and Plymouth Counties, Iowa, Dakota County, Nebr. and Union and Dakota Counties, South Dakota to points in Minnesota, Illinois, Wisconsin and Missouri, and *aluminum, iron and steel articles*, as a *common carrier* over irregular routes from the plantsite and storage facilities of State Steel Supply Co., Sioux City, Iowa and Sioux City Foundry Co., Sioux City, Iowa and South Sioux City, Nebr. to points in Wisconsin and Illinois, all as more specifically described in MC 129830 (Sub-No. 7). Applicant, d.b.a. Jacobsma Transport Co., is authorized to operate as a *common carrier* of *liquid animal and poultry feed* over irregular routes between LeMars, Iowa and points in Iowa within 25 miles of LeMars, on the one hand, and, on the other, points in Minnesota, South Dakota, Nebraska, Illinois, Missouri, and Wisconsin and from Burlington, Wis. to points in South Dakota, Nebraska and Iowa as more specifically described in certificate MC 128808. Approval of continuance in control will not result

in dual operations or duplicating authority. Application has not been filed for temporary authority under section 210a(b). This application is not related to any pending or simultaneously filed application.

No. MC-F-13484. Authority sought for purchase by THE TRANSPORT CO., INC., 5505 Agnes, P.O. Box 4736, Corpus Christi, Tex. 78408, of a portion of the operating rights of Dixie Transport Co. of Texas, P.O. Box 5447, Beaumont, Tex. 77706, and for acquisition by Donald G. Majors, 6021 Marlow Lane, Oklahoma City, Okla., of control of such rights through the transaction. Applicant's attorneys: Mike Cotten, P.O. Box 1148, Austin, Tex. 78767, and Austin L. Hatchell, 1102 Perry-Brooks Building, Austin, Tex. 78701. Operating rights to be transferred: *Asphalt, in bulk*, in tank vehicles, as a *common carrier*, over irregular routes, from Port Arthur, Smith's Bluff and Chaison, Tex., to points in that part of Louisiana on and south of U.S. Highway 84; *Asphalt, in bulk*, as a *common carrier*, over irregular routes from Port Neches, Tex., to points in Louisiana, *Antifreeze preparations, glycols, glycol ethers, jet fuel anti-icing agents and motor fuel anti-knock compound, in bulk*, in tank vehicles as a *common carrier*, over irregular routes from the plantsite of Houston Chemical Co. located near Beaumont, Tex., to points in Arkansas, Mississippi, South Carolina, Louisiana (except Baton Rouge, Lake Charles, and New Orleans) and points in that part of Kentucky on and east of U.S. Highway 31-E, with restriction; *anhydrous ammonia, in bulk*, in tank vehicles, as a *common carrier*, over irregular routes from Beaumont, Tex., to points in Louisiana; *Petroleum and petroleum products, in bulk*, in tank vehicles, as a *common carrier*, over irregular routes from the plantsite at Gulf Oil Co.-U.S., located at West Port Arthur, Tex. to points in Arkansas, Florida, Georgia, Mississippi, North Carolina, South Carolina and Tennessee, with restriction. Vendee is authorized in MC-104210 and subs to operate as a *common carrier* of *specified liquid commodities, in bulk*, in tank vehicles to, from and/or between specified points and/or described areas of Texas, Louisiana, Oklahoma, Kansas, Colorado and New Mexico. Application has not been filed for temporary authority under section 210a(b).

NOTE.—MC-6741 (Sub-No. 8) is a directly related matter.

No. MC-F-13487. Authority sought for purchase by JACOBSSMA TRANSPORT, INC., OF SIOUX CITY, 2600 Highway 75 North, Sioux City, Iowa 51105, of the operating rights of (B) James "Jake" Jacobsma, d.b.a. Jacobsma Transport Co., 2600 Highway 75 North, Sioux City, Iowa 51105, and of a portion of the operating rights of (BB) Freddie Ahrenstorff, d.b.a. Ahrenstorff Transfer, P.O. Box 627, Lake Park, Iowa, 51347, and for acquisition by James "Jake" Jacobsma of control of the rights through the purchase. Applicants' attorney: Brian K. Ridenour, P.O. Box 82028, Lincoln, Nebr. 68501. Operating rights sought to be purchased from James "Jake" Jacobsma, d.b.a. Jacobsma Transport Co.: *Liquid animal and poultry feed*, as a *common carrier*, over irregular routes, between LeMars, Iowa, and points in Minnesota, South Dakota, Nebraska, Illinois, Missouri, and Wisconsin and from Burlington, Wis., to points in South Dakota, northern Nebraska and northwestern Iowa, as more specifically described in MC 128808. Operating rights sought to be purchased from Ahrenstorff Transfer: *fertilizers, insecticides, fungicides and herbicides*, as a *common carrier*, over irregular routes, from the facilities of Agrico Chemical Co. (formerly Gulf Oil Corp.), Blair, Nebr., to points in Wisconsin, Minnesota, Iowa, Missouri, Kansas, Illinois, Indiana, Michigan, Colorado, South Dakota, North Dakota, Wyoming, Montana, and Nebraska, and of *anhydrous ammonia* from Mapco, Inc., terminals at Whiting, Early, and Garner, Iowa, to points in Illinois, Iowa, Minnesota, Nebraska, North Dakota, South Dakota, and Wisconsin as more fully described in MC 20729 (Sub-Nos. 9 and 12). Vendee currently holds no authority from the Commission but an affiliated company, Jacobsma Transportation Co., holds authority for the transportation as a *common carrier*, over irregular routes, of *iron, aluminum and steel articles* in the States of Kansas, Minne-

No. MC-F-13485. Authority sought for purchase by F. S. WILLEY COMPANY, INC., d.b.a. WILLEY'S EXPRESS, 28 Center Street, Laconia, N.H. 03246 of the operating rights of Red Ball Express, Inc., 370 West First Street, South Boston, Mass. 02127, and for acquisition by Floyd M. Willey, 28 Center Street, Laconia, N.H. 03246 and Frank M. Willey, 28 Center Street, La-

conia, N.H. 03246 of control of such rights through the purchase. Transferor's attorney: Frank J. Weiner, 15 Court Square, Boston, Mass. 02108. Transferor's attorney: S. Harrison Kahn, Suite 733 Investment Building, 1511 K Street NW., Washington, D.C. 20005. Operating rights sought to be purchased: *General commodities*, as a *common carrier*, between points in the State of Massachusetts, as more fully described in Certificate of Registration No. MC-85504 (Sub-No. 1). Vendee is authorized to operate as a *common carrier* in Massachusetts, New Hampshire and Vermont. Application has been filed for temporary authority under section 210a(b).

NOTE.—MC-6741 (Sub-No. 8) is a directly related matter.

No. MC-F-13488. Authority sought for purchase by COMMERCIAL TRANSPORTATION, INC., 2300 East Adams Avenue, Philadelphia, Pa. 19124, of a portion of the operating rights of North Penn Transfer, Inc., Box 230, Lansdale, Pa. 19446, and for acquisition by Anthony N. Coppola and Leon J. Coppola, both of 2300 East Adams Avenue, Philadelphia, Pa. 19124. Applicants' representative: John W. Fram, Box 626, 2207 Old Gettysburg Road, Camp Hill, Pa. 17011. Operating rights sought to be transferred: *General commodities*, with exceptions, as a *common carrier*, over regular routes, between Lansdale, Pa., and Washington, D.C., serving the intermediate points of Wilmington, Del., and Baltimore, Md., and serving those off-route points in New Castle County, Del., from Lansdale over Pennsylvania Highway 63 to junction U.S. Highway 202, thence over U.S. Highway 202 to junction U.S. Highway 13, thence over U.S. Highway 13 to junction U.S. Highway 40, thence over U.S. Highway 40 to junction U.S. Highway 1, and thence over U.S. Highway 1 to Washington, and return over the same route. Vendee is authorized to operate as a *common carrier*, in New York, New Jersey, Pennsylvania, and Delaware. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-13490. Authority sought for purchase by HYMAN FREIGHTWAYS, INC., 1745 University Avenue, P.O. Box 3393, St. Paul, Minn. 55165, of a portion of the operating rights of Keomah Truck Lines, Inc., 546 9th Avenue, East Oskaloosa, Iowa 52577, and for acquisition by Eugene Pikovsky, 1745 University Avenue, P.O. Box 3393, St. Paul, Minn. 55165, of control of such rights through the purchase. Applicant's attorneys: Donald A. Morken, 1000 First National Bank Bldg., Minneapolis, Minn. 55402, and Larry D. Knox, 600 Hubbell Building, Des Moines, Iowa 50309. Operating rights sought to be transferred: *General commodities*, with the usual exceptions, as a *common carrier* over regular routes between Pella, Iowa, and Chicago, Ill.; *livestock* between Omaha, Neb., and Pella, Iowa; *farm machinery*, as a *common carrier* over irregular routes from Rockford, Moline, and Rock Island, Ill., to Des Moines, Iowa; *windmills and parts*, from Freeport, Ill., to Des Moines, Iowa; *boilers and pipe fit-*

sota, Nebraska, North Dakota, South Dakota, Iowa, Missouri, Wyoming, and Colorado as more specifically described in MC 129830 and subs thereto. Approval of the application will not result in dual operation or duplicating authority. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-13488. Authority sought for purchase by COMMERCIAL TRANSPORTATION, INC., 2300 East Adams Avenue, Philadelphia, Pa. 19124, of a portion of the operating rights of North Penn Transfer, Inc., Box 230, Lansdale, Pa. 19446, and for acquisition by Anthony N. Coppola and Leon J. Coppola, both of 2300 East Adams Avenue, Philadelphia, Pa. 19124. Applicants' representative: John W. Fram, Box 626, 2207 Old Gettysburg Road, Camp Hill, Pa. 17011. Operating rights sought to be transferred: *General commodities*, with exceptions, as a *common carrier*, over regular routes, between Lansdale, Pa., and Washington, D.C., serving the intermediate points of Wilmington, Del., and Baltimore, Md., and serving those off-route points in New Castle County, Del., from Lansdale over Pennsylvania Highway 63 to junction U.S. Highway 202, thence over U.S. Highway 202 to junction U.S. Highway 13, thence over U.S. Highway 13 to junction U.S. Highway 40, thence over U.S. Highway 40 to junction U.S. Highway 1, and thence over U.S. Highway 1 to Washington, and return over the same route. Vendee is authorized to operate as a *common carrier*, in New York, New Jersey, Pennsylvania, and Delaware. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-13490. Authority sought for purchase by HYMAN FREIGHTWAYS, INC., 1745 University Avenue, P.O. Box 3393, St. Paul, Minn. 55165, of a portion of the operating rights of Keomah Truck Lines, Inc., 546 9th Avenue, East Oskaloosa, Iowa 52577, and for acquisition by Eugene Pikovsky, 1745 University Avenue, P.O. Box 3393, St. Paul, Minn. 55165, of control of such rights through the purchase. Applicant's attorneys: Donald A. Morken, 1000 First National Bank Bldg., Minneapolis, Minn. 55402, and Larry D. Knox, 600 Hubbell Building, Des Moines, Iowa 50309. Operating rights sought to be transferred: *General commodities*, with the usual exceptions, as a *common carrier* over regular routes between Pella, Iowa, and Chicago, Ill.; *livestock* between Omaha, Neb., and Pella, Iowa; *farm machinery*, as a *common carrier* over irregular routes from Rockford, Moline, and Rock Island, Ill., to Des Moines, Iowa; *windmills and parts*, from Freeport, Ill., to Des Moines, Iowa; *boilers and pipe fit-*

tings from Kewanee, Ill., to Des Moines, Iowa; wire and steel products, from Sterling, Ill., to Des Moines, Iowa; wire nails and steel fencing from Crawfordsville, Ind., to Ottumwa, Boone, Fort Dodge, and Storm Lake, Iowa; iron castings from Pella, Iowa, to Peoria, Ill.; miner's safety fuses, from Chicago, Ill., to Knoxville, Iowa; livestock, between Pella, Iowa, and points within 20 miles of Pella on the one hand, and, on the other, St. Louis, Mo., and livestock, from Oskaloosa, Iowa, and points and places within 35 miles of Oskaloosa, to named points in Illinois. General commodities (with the usual exceptions), between Oskaloosa, Iowa, on the one hand, and, on the other, Chicago, East St. Louis, Rock Island, Moline, East Moline, and Silvis, Ill. Vendee is authorized to operate as a common carrier in North Dakota, South Dakota, Minnesota, Wisconsin, Missouri, Nebraska, Iowa, and Illinois. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-13501. Authority sought for control and merger by ST. JOHNSBURY TRUCKING COMPANY, INC., 87 Jeffrey Avenue, Holliston, Mass. 01746 with Roberts Motor Express, Inc., North Road, Highland, N.Y. 12528, and for acquisition by S.T.L. Inc., also of 87 Jeffrey Ave., Holliston, Mass. 01746, of control of the rights and property through the merger. Applicants' representatives: Francis P. Barrett, Barrett & Barrett, 60 Adams Street, Milton, Mass. 021187 and Seymour Feinman, 532 Blooming Grove Turnpike, Newburgh, N.Y. 12550. Operating rights sought to be controlled and merged: Under Certificate of Registration No. MC 99084, General commodities, with exceptions, over regular routes as a common carrier, between Troy, N.Y., and New York, N.Y.; between Troy and Schenectady, N.Y.; with service from, to, and between all intermediate points and Albany, Greene, Orange, Sullivan and Ulster Counties, N.Y., and named off-route points as more fully described in said certificate. Transferee operates as a common carrier, over regular and irregular routes in the States of Connecticut, Delaware, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont and the District of Columbia. S.J.T. Inc., holds no authority from the Commission. Application has been filed for temporary authority under section 210a(b).

NOTE.—MC 108473 (Sub-No. 40) is a direct-related matter.

OPERATING RIGHTS APPLICATION(S) DIRECTLY RELATED TO FINANCE PROCEEDINGS

NOTICE

The following operating rights application(s) are filed in connection with pending finance applications under section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with transfer applications under section 212(b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the authorities must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with special rules 247(d) of the Commission's General Rules of Practice (49 CFR 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 6741 (Sub-No. 8), filed January 9, 1978. Applicant: F. S. WILLEY CO., INC. d.b.a. WILLEY'S EXPRESS, 28 Center Street, Laconia, N.H. 03246. Applicant's representative: Frank J. Weiner, 15 Court Square, Boston, Mass. 02108. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: General commodities (except those of unusual value, classes A and B explosives, household goods as defined in Practices of Motor Common Carriers of Household Goods, 17 MCC 467, commodities in bulk and those commodities requiring special equipment), between points in Massachusetts.

NOTE.—The purpose of this filing is to convert a Certificate of Registration to a Certificate of Public Convenience and Necessity. This matter is directly related to a section 5(2) finance proceeding in Docket No. MC-F-13485, published in a previous section of this FEDERAL REGISTER issue. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 69116 (Sub-No. 198), filed January 19, 1978. Applicant: SPEC-TOR FREIGHT SYSTEM, INC., 1050 Kingery Highway, Bensenville, Ill. 60106. Applicant's representative: Jack Goodman, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, classes

A and B explosives, household goods as defined by the Commission, livestock, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading): (1) Between Lancaster, Pa., and Harrisburg, Pa., serving no intermediate points; from Lancaster over U.S. Highway 230 to Harrisburg, and return over the same route; (2) between Lancaster, Pa., and Philadelphia, Pa., serving all intermediate points and the off-route points of Morristown, Lansdowne, Marcus Hook, Chester, West Chester, Emigsville, Biglerville, McSherrytown, and Hanover, Pa.; from Lancaster over U.S. Highway 30 to Philadelphia, and return over the same route.

NOTE.—The purpose of this application is to eliminate the problem of the sale by Eastern of duplicate segments of highways, and is a matter directly related to a section 5(2) proceeding in No. MC-F-13438, published in the FEDERAL REGISTER issue of December 1, 1977. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 108473 (Sub-No. 40), filed January 17, 1978. Applicant: ST. JOHNSBURY TRUCKING CO., INC., 87 Jeffrey Avenue, Holliston, Mass. 01746. Applicant's representative: Francis P. Barrett, 60 Adams Street, Milton, Mass. 02187. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between Troy, N.Y. and New York, N.Y.: (a) from Troy over the Menands Bridge to Menands, thence over N.Y. Highway 32 to Albany, thence over U.S. Highway 20 to the intersection of U.S. 9, thence over U.S. Highway 9 to New York City, and return over the same route; (b) from Troy over U.S. Highway 4 to intersection of U.S. Highway 4 and U.S. Highway 9; (c) from Troy as above to intersection of U.S. 20 and 9J; thence over N.Y. 9J to the intersection of U.S. 9 thence as above; (d) from Troy over N.Y. Highway 9D to Beacon, thence to New York as above; (e) from Troy over N.Y. 9H to the junction of U.S. 9 and N.H. Highway 9H at Bro Corners, thence as above to New York; (f) from Troy to Albany as above, thence over N.Y. 144 to New Baltimore, thence over unnumbered highway to West Coxsackie, thence over N.Y. 385 to Catskill, thence over bridge to New York 9G, thence over N.Y. 9G to the intersection with U.S. 9, thence over U.S. 9 to New York; (g) from Troy to Albany as above, thence over U.S. 9W to the mid Hudson and Bear Mountain Bridges, thence over said bridges to U.S. 9, thence to New York, N.Y. as above; (2) between Troy

and Schenectady, N.Y.; from Troy over N.Y. 7 to Schenectady and return over the same routes; (3) between Albany and Schenectady, N.Y.; from Albany over N.Y. Highway 5 to Schenectady and return over the same routes, serving all intermediate points, the counties of Albany, Greene, Orange, Sullivan, and Ulster as off-route points and New Rochelle, White Plains, Chatham, Philmont, Mellenville, Niverville, Stottville (Columbia County), Elmsford, Pelham (Westchester County), Illerton, New Hamburg, Stonewall, Wassaic, Wingdale (Dutchess County), Scotia (Schenectady County), Waterford (Saratoga County), Averill Park, Wynantskill (Rensselaer County) and Garrison (Putnam County), N.Y.

NOTE.—The purpose of this application is to convert a Certificate of Registration to a Certificate of Public Convenience and Necessity and is a matter directly related to a section 5(2) proceeding in No. MC-F-13501 published in a previous section of this FEDERAL REGISTER issue. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass. or Albany, N.Y.

No. MC 109397 (Sub-No. 386), filed January 4, 1978. Applicant: TRI-STATE MOTOR TRANSIT CO., a corporation, P.O. Box 113, Joplin, Mo., 64801. Applicant's representative: Max G. Morgan, 223 Ciudad Building, Oklahoma City, Okla. 73112. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Classes A, B, and C explosives, between points in Clallam, Jefferson, and Kitsap Counties, Wash., on the one hand, and, on the other, points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, and Utah.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Olympia, Wash. This is a gateway elimination request, and is a matter directly related to Tri-State Motor Transit Co. purchase (a portion) of O.N.C. Freight Systems, MC-F-13479, published in a previous section of this FEDERAL REGISTER issue.

MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS NOTICE

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Deviation Rules—Motor Carrier of Property (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of this FEDERAL REGISTER notice.

Each applicant states that there will be no significant effect on the quality

of the human environment resulting from approval of its request.

MOTOR CARRIERS OF PROPERTY

No. MC 109095 (Deviation No. 13), ANDERSON MOTOR SERVICE, INC., 525 Ravensridge Drive, St. Louis, Mo. 63119, filed January 16, 1978. Carrier's representative: Joseph Rebman, 314 N. Broadway, St. Louis, Mo. 63102. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows, from Cincinnati, Ohio over Interstate Highway 71 to Cleveland, Ohio, and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Cincinnati, Ohio over U.S. Highway 50 to junction U.S. Highway 421 to Indianapolis, Ind., thence over Indiana Highway 67 to the Indiana-Ohio State line, thence over Ohio Highway 29 to St. Marys, Ohio, thence over U.S. Highway 33 to Wapakoneta, Ohio, thence over U.S. Highway 25 to Findlay, Ohio, thence over U.S. Highway 224 to Attica, Ohio, thence over Ohio Highway 4 to junction U.S. Highway 20, thence over U.S. Highway 20 to junction Ohio Highway 10, thence over Ohio Highway 10 to Cleveland, Ohio and return, over the same route.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

[Notice No. 580]

ASSIGNMENT OF HEARINGS

JANUARY 30, 1978.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 139482 (Sub 12), New Ulm Freight Lines, Inc., now assigned January 31, 1978, at Chicago, Ill., is cancelled, and application dismissed.

MC 78400 (Sub 53), Beaufort Transfer Co., now assigned February 13, 1978, at Jefferson City, Mo., is cancelled and reassigned to Sedalia, Mo., and will be held at the Ramada Inn, Highway 50 West.

MC 67121 (Sub 10), Harp Transportation Line, now being assigned February 22, 1978 (2 days), at Denver, Colo., in a hearing room to be later designated.

MC 124947 (Sub 61), Machinery Transports, Inc., now assigned February 2, 1978, at Washington, D.C., is cancelled. Section 5b appl. No. 1, Alaska Rail Water Association Agreement, now assigned March 7, 1978, at the offices of the Interstate Commerce Commission, Washington, D.C. Fourth Section Order No. 20541, Sheet Steel, Chicago, Ill. to Fort Smith, Ark., now being assigned March 14, 1978, at the Offices of the Interstate Commerce Commission, Washington, D.C. I & SM 29710, General Increase, December 1977, C.S.M.F.T.A., now assigned March 7, 1978, at Washington, D.C., is cancelled—schedules cancelled.

MC 4966 (Sub 21), Jones Transfer Co., now being assigned March 6, 1978 (5 days), at Lansing, Mich., in a hearing room to be later designated.

MC 57298 (Sub 11), Union Bus Lines, Inc., now being assigned February 20, 1978 (5 days), at San Antonio, Tex., at the Holiday Inn-Northwest, 6023 Northwest Expressway, continued on March 13, 1978 (5 days), at Phoenix, Ariz., at the Holiday Inn-Central, 2247 East Van Buren, and continued March 20, 1978 (5 days), at Houston, Tex., at the Holiday Inn-Memorial, 2100 Memorial Drive.

H. G. HOMME, Jr.,
Acting Secretary.

[Notice No. 289]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission on or before March 6, 1978. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would pre-

clude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

No. MC-FC-77195, filed January 4, 1978. Transferee: NORMAN PESTKA, 540 River Street, Ontonagon, Mich. 49953. Transferor: JOHN P. FONTANA, d.b.a. J & J TRANSPORT, 100 Florida Street, Laurium, Mich. 49913. Applicant's representative: John Boeschstein, 127 State Street, Hart, Mich. 49420. Authority sought for purchase by transferee of the operating rights of transferor set forth in Certificate No. MC-116483 (Sub-No. 1), issued October 23, 1967: *Lumber, logs, wooden posts, and poles from points in Gogebic, Iron, Ontonagon, Baraga, and Houghton Counties, Mich. to points in Wisconsin and similar commodities from points in Menominee, Dickerson, Luce, Marquette, Alger, Keweenaw, Delta, Schoolcraft, Chippewa, and Mackinac Counties, Mich. to points in Wisconsin.* Applicant holds no Commission authority and does not seek section 210a(b) temporary authority.

No. MC-FC-77462, filed December 14, 1977. Transferee: PAUL D. SCHOMAKER, d.b.a. SCHOMAKER TRUCKING, 501 P Avenue, Milford, Iowa 51351. Transferor: Iowa Packers Xpress, Inc., P.O. Box 231, Spencer, Iowa 51301. Applicants' representative: Scott E. Daniel, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought for purchase by transferee of the operating rights of transferor as set forth in Certificate No. MC 115113 (Sub-No. 22), issued November 20, 1974, and superseded by certificate issued October 19, 1977, as follows: *Meats, meat products, meat by-products, and articles distributed by meat packinghouses, as described in sections Q and C of appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766 (except hides and commodities in bulk), from the plantsite and warehouse facilities of Banner Beef Co. at or near Hospers, Iowa, to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia and the District of Columbia, with no transportation for compensation on return except as otherwise authorized.* Restrictions: The operations authorized herein are restricted to the transportation of traffic originating at the above-named origin and destined to the above-named destination states. Transferee presently holds no author-

ity from this Commission. Application has been filed for temporary No. MC-FC-77462: authority under section 210a(b).

No. MC-FC-77473, filed December 28, 1977. Transferee: COMMERCIAL STORAGE & DISTRIBUTION CO., 432 Richmond Road, Texarkana, Tex. 75501. Transferor: Herrin Transfer & Warehouse Co., Inc., 1305 Marshall, Shreveport, La. 71164. Applicant's representative: Clifford L. Lawrence Jr., Esquire, P.O. Box 1661, Monroe, La. 71201. Authority sought for purchase by transferee of the operating rights set forth in Certificate No. MC 1414 and MC 1414 (Sub-No. 2) acquired by transferor pursuant to MC-FC-76810 which transferred the above authority to Mid-States Industries, Inc., who later changed its name to Herrin Transfer & Warehouse Co., Inc. The transaction in MC-FC-76810 was consummated on March 3, 1977. The authority to be transferred herein is as follows: *Household goods, between points and places in Louisiana, Arkansas, Texas, and Mississippi, and Household goods, as defined in Practices of Motor Common Carriers of Household Goods, 17 M.C.C. 467, between points in Louisiana, on the one hand, and, on the other, points in Oklahoma, Alabama, and Georgia, traversing Texas, Arkansas, and Mississippi for operating convenience only.* Transferee is presently authorized to operate as a common carrier under Certificate No. MC 128932. Application has not been filed for temporary authority under Section 210a(b).

Transferee: LEPRECHAUN LINES, INC., Route 32, P.O. Box 2628, Newburgh, N.Y., 12550. Transferor: Newburgh Beacon Bus Corp. (same address as transferee). Applicants' representative: J. G. Dall, Jr., P.O. Box 567, McLean, Va. 22101. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 114755 (Sub-No. 1), issued July 20, 1972, as follows: *Passengers and their baggage, in the same vehicle with passengers, in charter operations, beginning and ending at Beacon, Beekman, Cornwall (except the United States Military Academy, at West Point, N.Y.), Dover, East Fishkill, Fishkill, LaGrange, Lloyd, Marlborough, the city of Newburgh, the Town of Newburgh, New Windsor, Pawling, Phillipstown, Plattekill, Putnam Valley, Union Vale, and Wappinger, N.Y., and extending to points in the United States (including Alaska but excluding Hawaii).* Transferee is presently authorized to operate as a common carrier under Certificate No. MC 112108 (Sub-No. 3). Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77483, filed December 27, 1977. Transferee: DATTCO

TOURS, INC., 583 South Street, New Britain, Conn. 06051. Transferor: The Graham Travel Co., 135 College Street, New Haven, Conn. 06502. Applicant's representative: W. C. Mitchell, 370 Lexington Avenue, New York, N.Y. 10017. Authority sought for purchase by transferee of License No. MC 12658, issued May 19, 1958, authorizing the transportation of passengers and their baggage, in special or charter operations, in round-trip all-expense tours, beginning and ending at points in Fairfield, New Haven, and Hartford Counties, Conn., and extending to points in the United States. Transferee presently holds no authority from this Commission but is affiliated with Datto, Inc., a motor passenger carrier holding authority under MC 95466 and Subs thereto. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77488, filed January 3, 1978. Transferee: J. D. CARTON & SON, INC., 41 Watchung Avenue, Chatham, N.J. 07928. Transferor: Carton Moving & Storage Co. (same address as transferee). Applicant's representative: Thomas F. X. Foley, Esq., Colts Neck Professional Plaza, State Highway 34, Colts Neck, N.J. 07722. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 43161, issued December 13, 1973, as follows: *Household goods, between Newark, N.J. on the one hand, and, on the other, points in New Jersey, New York, Pennsylvania, Connecticut, and Rhode Island, and between points in Essex, Bergen, Hudson, and Passaic Counties, N.J., on the one hand, and, on the other, points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, and the District of Columbia.* Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77509, filed January 16, 1978. Transferee: COWEN TRUCK LINES, INC., Route No. 2, Perrysville, Ohio 44864. Transferor: Robert H. Cowen, d.b.a. Cowen Truck Lines, Route No. 2, Perrysville, Ohio 44864. Applicant's representative: Boyd B. Ferris, Muldoon, Pemberton & Ferris, 50 West Broad Street, Columbus, Ohio 43215. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Permit No. MC 138555 (Sub-No. 2), issued April 1, 1974, as follows: *Materials, equipment, and supplies (except commodities in bulk), used in the manufacture of household appliances, between North Canton, Ohio, and Holly Springs, Miss.* Transferee presently holds no authority from this Commis-

sion. Application has not been filed for temporary authority under Section 210a(b).

NOTE.—By separate application filed concurrently herewith, under docket No. MC-FC-77510, transferee also seeks authority to purchase Permit No. MC 106608.

No. MC-FC-77510, filed January 16, 1978. Transferee: COWEN TRUCK LINES, INC., Route No. 2, Perrysville, Ohio 44864. Transferor: Wag Freight, Inc., 5260 Schario NW., Canton, Ohio 44718. Applicant's representative: A. Charles Tell, George, Greek, King, McMahon & McConnaughey, 100 East Broad Street, Columbus, Ohio 43215 and Boyd B. Ferris, Muldoon, Pemberton & Ferris, 50 West Broad Street, Columbus, Ohio 43215. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Permit No. MC 106608, issued February 10, 1971, as follows: *Electrical household appliances and parts thereof, die castings, advertising matter, office furniture, supplies and equipment, and machinery, supplies, equipment, and materials used in the manufacture of electrical household appliances, electrical household appliance parts, and die castings, between North Canton, Ohio, and Chicago, Ill., serving no intermediate points, over a specified regular route.* Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

NOTE.—Robert H. Cowen, a controlling stockholder in transferee, also holds Permit No. MC 138555 (Sub-No. 2) and is seeking approval to transfer that authority to transferee in a separate application filed concurrently herewith under docket No. MC-FC-77509.

No. MC-FC-77516, filed January 18, 1978. Transferee: JACK M. GEMMER, d.b.a. GEMMER PARCEL DELIVERY, 60223 Bremen Highway, Mishawaka, Ind. 46544. Transferor: Jon Larrymore Swanson, d.b.a. Swanson Delivery Service, 63993 Madison Trail, Mishawaka, Ind. 46544. Applicant's representative: Robert W. Loser II, 1009 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Permit Numbers MC-134844 and MC-134844 (Sub-No. 2) issued June 10, 1971, and September 11, 1974, respectively, as follows: *Cosmetics, toilet preparations, advertising, and promotional products, from Mishawaka, Ind., to points in Elkhart, Fulton, Kosciusko, La Porte, Marshall, Starke, and St. Joseph Counties, Ind., and Toilet preparations, and advertising, and promotional products, from Mishawaka, Ind., to points in De Kalb, La Grange, Noble, Steuben, and Whitley Counties, Ind.* Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-77519, filed January 20,

1978. Transferee: EDWARD S. DAVIS, WALTER E. DAVIS, a partnership, d.b.a. Couey Storage and Transfer Co., 427-47 N. Chestnut Street, Trinidad, Colo. 81082. Transferor: James R. Couey, Jr., d.b.a. Couey Storage and Transfer Co. 427-47 N. Chestnut Street, Trinidad, Colo. 81082. Applicants' representative: Edward S. Davis, 427 N. Chestnut Street, Trinidad, Colo. 81082. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC-3817 (Sub-No. 4), issued May 2, 1975, as follows: *General commodities, except Classes A and B explosives and household goods as defined by the Commission, between Trinidad, Colo., and Monument Lake, Colo., serving the intermediate points of Jansen, Sopris, Valdez, Segundo, Weston, and Stonewall, Colo., and the off-route points of Cokedale, Boncarbo, Tercio, and Whiskey Creek Pass, Colo., the site of the filter plant for the city of Trinidad, Colo., and points within two miles of Colorado Highway 12. From Trinidad over Colorado Highway 12 to Monument Lake, and return over the same route, transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210a(b).*

H. G. HOMME, Jr.,
Acting Secretary.

FEDERAL DEPOSIT INSURANCE CORPORATION.

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that the Board of Directors of the Federal Deposit Insurance Corporation met in closed session at 10:55 a.m. on January 28, 1978, by telephone conference call, to (1) accept sealed bids for the purchase of certain assets of and the assumption of the deposit liabilities of First Bank of Macon County, Notasulga, Ala. which was closed by the Alabama Superintendent of Banks as of the close of business on January 26, 1978; (2) approve a resulting application from the newly chartered First Alabama Bank, N.A., Notasulga, Alabama, for consent to purchase assets of and assume the deposit liabilities of the closed bank; and (3) provide such financial assistance, pursuant to section 13(e) of the Federal Deposit Insurance Act (12 U.S.C. 1823(e)), as was necessary to effect the purchase and assumption transaction.

In calling the meeting, the Board of Directors determined, on motion of Chairman George A. LeMaistre, seconded by Director John G. Heimann (Comptroller of the Currency), that Corporation business required its consideration of the matter on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest

did not require consideration of the matter in a meeting open to public observation; and that the meeting was exempt from the open meeting requirements of the "Government in the Sunshine Act" by subsections (c)(8) and (c)(9)(A)(ii) thereof (5 U.S.C. 552b(c)(8) and (c)(9)(A)(ii)).

Dated: January 30, 1978.

FEDERAL DEPOSIT INSURANCE CORPORATION,
ALAN R. MILLER,
Executive Secretary.

SECURITIES AND EXCHANGE COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: January 27, 1978.

PREVIOUSLY ANNOUNCED TIME AND DATE: Thursday, February 2, 1978, 10 a.m.

STATUS: Open meeting.

PLACE: 500 North Capitol Street, Washington, D.C., Room 825.

CHANGES IN THE MEETING: Deletion of item to be considered. The following item will not be considered by the Commission at the open meeting on Thursday, February 2, 1978, at 10 a.m.:

Proposed transmittal of comments to the Office of Management and Budget ("OMB") expressing the views of the Commission on OMB's draft bill amending the Independent Offices Appropriations Act of 1952, which deals with fees charged by Federal agencies.

Chairman Williams, Commissioners Loomis, Evans, Pollack and Karmel determined that Commission business required the above change and that no earlier notice thereof was possible.

JANUARY 30, 1978.

[8010-01]

SECURITIES AND EXCHANGE COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: January 27, 1978.

PREVIOUSLY ANNOUNCED TIME AND DATE: Thursday, February 2, 1978, 10 a.m.

STATUS: Open meeting.

PLACE: 500 North Capitol Street, Washington, D.C., Room 825.

CHANGES IN THE MEETING: Additional items to be considered. The following items will be considered by the Commission at the open meeting on Thursday, February 2, 1978, at 10 a.m.:

1. Proposed transmittal of comments to the Office of Management and Budget and Senator Harrison A. Williams, Jr., concerning S. 2305, a bill to amend the Securities Act of 1933 by increasing the dollar limit in section 3(b).
2. Proposed transmittal of comments to the Office of Management and

Budget on a Small Business Administration ("SBA") draft bill to amend the Small Business Act to facilitate the sale of SBA-guaranteed obligations.

Chairman Williams, Commissioners Loomis, Evans, Pollack and Karmel determined that Commission business required consideration of these matters and that no earlier notice thereof was possible.

JANUARY 30, 1978.

[8010-01]

SECURITIES AND EXCHANGE COMMISSION.

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94-409, that the Securities and Exchange Commission will hold the following meetings during the week of February 6, 1978, in Room 825, 500 North Capitol Street, Washington, D.C.

Closed meetings will be held on Tuesday, February 7, 1978, at 10 a.m. and on Wednesday, February 8, 1978, immediately following the open meeting. Open meetings will be held on Wednesday, February 8, 1978, at 10 a.m. and on Thursday, February 9, 1978, at 2:30 p.m.

The Commissioners, their legal assistants, the Secretary of the Commission and recording secretaries will attend the closed meetings. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meetings may be so considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 552b(c)(4)(B)(9)(A) and (10) and 17 CFR 200.402(a)(8)(9)(i) and (10).

Chairman Williams, Commissioners Loomis, Evans, Pollack, and Karmel determined to hold the aforesaid meeting in closed session.

The subject matter of the closed meeting on Tuesday, February 7, 1978, at 10 a.m., will be

Formal orders of investigation. Referral of investigative files to Federal, State, or Self-Regulatory authorities. Institution of injunctive actions. Settlement on injunctive actions. Settlement of administrative proceedings. Authorization of staff members to testify. Regulatory matters arising from or bearing enforcement implications. Other litigation matters.

The subject matter of the closed meeting on Wednesday, February 8, 1978, immediately following the open meeting, will be:

Opinions.

SUNSHINE ACT MEETINGS

The subject matter of the open meeting on Wednesday, February 8, 1978, at 10 a.m., will be:

1. Consideration of the issuance of a release which (a) calls attention to issuers, attorneys, and accountants the recent enactment of the Foreign Corrupt Practices Act of 1977; (b) answers questions which have been raised most often by members of the public regarding the Act; and (c) solicits public comments on the need for further rulemaking, guidelines or interpretive releases.

2. Consideration of the issuance of a release which announces the withdrawal on a prospective basis a prior interpretation concerning the term "single employer" used in

section 3(a)(2) of the Securities Act of 1933, with respect to purposes of exemption from registration for interests in certain employee benefits plans.

3. Consideration of a request by Mr. Louis A. Brusati that the Commission review the Division of Corporation Finance's determination concerning two share-holder proposals submitted by Mr. Brusati to General Electric Co.

4. Consideration of proposed plan of reorganization filed by British American Utilities Corp. and North East Heat & Light Co.

5. Consideration of the issuance of a release announcing the Commission preliminary response to the recommendations of the Advisory Committee on Corporate Disclosure.

The subject matter of the open meeting scheduled for Thursday, February 9, 1978, at 2:30 p.m., will be:

The Commission will meet with representatives from the Investment Company Institute to discuss various issues concerning mutual funds.

FOR FURTHER INFORMATION CONTACT:

Elisse B. Walter at 202-376-8068 or Linda W. Jarett at 202-755-1271.

JANUARY 30, 1978.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

[FRL 830-51]

PART 86—CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLES AND NEW MOTOR VEHICLE ENGINES

Selective Enforcement Auditing Procedures

AGENCY: Environmental Protection Agency.

ACTION: Final rulemaking.

SUMMARY: The Environmental Protection Agency is making several minor clarifications and technical changes in the Selective Enforcement Auditing (SEA) regulations, published July 28, 1976 (41 FR 31472).

EFFECTIVE DATE: February 2, 1978.

EXPLANATION OF AMENDMENTS

Section	Changes	Reason
1. § 86.603(c).....	Vehicles are to be weighed only if required in test order.	Clarify weighing requirement.
2. § 86.605(a)(2)(v).....	Requires reporting of actual curb weight of test vehicles only if test order requires weighing.	Do.
3. § 86.607(i).....	Allow manufacturer to immediately ship vehicles which have passed test.	Eliminate unnecessary holding of vehicles.
4. § 86.608(c)(1)(i).....	Eliminate requirement that same mileage be accumulated on all test vehicles.	Unnecessary procedural requirement.
5. § 86.609 (a), (b), (c), (d)(3), (d)(4)(iii).....	Delete use of LMET's and change calculations to derive final deteriorated test results for comparison to emission standards.	Accommodate industry concern regarding differences between method used for SEA and certification for determining compliance with standards.
6. § 86.610 (a), (b).....	Same as for No. 5.....	Same as for No. 5.
§ 86.610(c).....	Discontinue test sample selection when batch sequence rejected.	Sample no longer required.
7. § 86.612 (f)(1)(ii), (g)(2).....	Same as for No. 5.....	Same as for No. 5.
8. § 86.613(b)(3).....	Eliminate interested parties from definition of "party."	Inadvertently included.

NOTE.—The Environmental Protection Agency has determined that this document does not contain a major regulation requiring preparation of an Economic Impact Statement under Executive Orders 11821 and 11949 and OMB Circular A-107.

Dated: January 23, 1978.

DOUGLAS M. COSTLE,
Administrator.

Part 86 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

1. In § 86.603, the first sentence of paragraph (c) (41 FR 31483) is amended to read as follows:

§ 86.603 Test orders.

(c) The test order will specify the vehicle configuration selected for test-

RULES AND REGULATIONS

ADDRESS: Director, Mobile Source Enforcement Division (EN-340), Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:

Frank D. Slaveter, Chief, SEA Section, Mobile Source Enforcement Division (EN-340), Environmental Protection Agency, 401 M Street, Washington, D.C. 20460, 202-755-1572.

SUPPLEMENTARY INFORMATION: The Agency finds that good cause exists for omitting as unnecessary a notice of proposed rulemaking, public rulemaking procedure, and postponement of the effective date in the issuance of these amendments, in that: (1) the amendments primarily clarify the regulations, (2) they make nonsubstantive changes, and (3) they impose no additional burden on the regulated industry complying with the regulations. These amendments are described in the table below.

EXPLANATION OF AMENDMENTS

Section	Changes	Reason
1. § 86.603(c).....	Vehicles are to be weighed only if required in test order.	Clarify weighing requirement.
2. § 86.605(a)(2)(v).....	Requires reporting of actual curb weight of test vehicles only if test order requires weighing.	Do.
3. § 86.607(i).....	Allow manufacturer to immediately ship vehicles which have passed test.	Eliminate unnecessary holding of vehicles.
4. § 86.608(c)(1)(i).....	Eliminate requirement that same mileage be accumulated on all test vehicles.	Unnecessary procedural requirement.
5. § 86.609 (a), (b), (c), (d)(3), (d)(4)(iii).....	Delete use of LMET's and change calculations to derive final deteriorated test results for comparison to emission standards.	Accommodate industry concern regarding differences between method used for SEA and certification for determining compliance with standards.
6. § 86.610 (a), (b).....	Same as for No. 5.....	Same as for No. 5.
§ 86.610(c).....	Discontinue test sample selection when batch sequence rejected.	Sample no longer required.
7. § 86.612 (f)(1)(ii), (g)(2).....	Same as for No. 5.....	Same as for No. 5.
8. § 86.613(b)(3).....	Eliminate interested parties from definition of "party."	Inadvertently included.

ing, the manufacturer's plant or storage facility from which the vehicles must be selected, the time and location at which vehicles must be selected, the batch size, the manner in which vehicles must be selected from the batch, and whether test vehicles are to be weighed. . . .

2. In § 86.605, paragraph (a)(2)(v) (41 FR 31484) is revised to read as follows:

§ 86.605 Maintenance of records; submission of information.

.

(a)
(2)

(v) The drive wheel tire pressure for each test vehicle, the inertia weight

class and the actual curb weight for each test vehicle required to be weighed pursuant to a test order.

.

3. In § 86.607, paragraph (i) (FR 31485) is revised to read as follows:

§ 86.607 Sample selection.

.

(i) The manufacturer shall keep on hand all untested vehicles in the batch sample until the batch is accepted or rejected in accordance with § 86.610. The manufacturer may ship any tested vehicle which has not failed in accordance with § 86.610(a). However, once a manufacturer ships any vehicle from any batch sample, he relinquishes the prerogative to conduct retests as provided in § 86.608(i).

.

4. In § 86.608, paragraphs (c)(1) (41 FR 31485) and (i) (41 FR 31486) are revised to read as follows:

§ 86.608 Test procedures.

.

(c)
(1) Mileage accumulation may be performed in any manner the manufacturer desires.

.

(i) The manufacturer will be permitted to retest any test vehicle: *Provided*, That all vehicles selected for testing are tested the same number of times and that not more than three tests per vehicle are performed. The manufacturer may accumulate additional mileage before conducting a retest.

5. In § 86.609 the title and paragraphs (a), (b), (c), (d)(3), and (d)(4)(iii) (41 FR 31486) are amended to read as follows:

§ 86.609 Calculation and reporting of test results.

(a) Initial tests results shall be calculated following the method prescribed in Appendix IX or X, as appropriate, of this part and rounded in accordance with ASTM E29-67 to the number of places to the right of the decimal point indicated by expressing the appropriate emission standard to three significant figures.

(b) Final test results for each test vehicle shall be calculated by summing the initial test results derived in § 86.609(a) above for each test vehicle, dividing by the number of tests conducted on the vehicle, and rounding, in accordance with ASTM E29-67, to the same number of decimal places to

the right of the decimal point as the initial test results.

(c) The final deteriorated test results for each test vehicle shall be calculated by multiplying the final test results by the appropriate deterioration factor derived from the certification process for the engine family and model year to which the selected configuration belongs and rounded in accordance with ASTM E29-67 to two significant figures. For the purpose of this paragraph, if a deterioration factor as computed during the certification process is less than one, that deterioration factor shall be one.

(d)
(3) Deterioration factors for the selected configuration.

(4)
(iii) Test number, date, initial test results, final results and final deteriorated test results for all valid and invalid exhaust emission tests, and the reason for invalidation.

.

6. In § 86.610, paragraphs (a), (b) and (c) (41 FR 31486) are revised to read as follows:

§ 86.610 Acceptance and rejection of batches.

(a) A failed vehicle is one whose final deteriorated test result for one or more of the three exhaust pollutants when compared to the applicable emission standard for that pollutant, exceeds that standard.

(b) The batch from which a batch sample is selected will be accepted or rejected for each pollutant based upon the number of test vehicles in the batch sample with final deteriorated test results exceeding the applicable emission standards. A sufficient number of test samples of size determined by entering Appendix VIII, Table II at the appropriate code letter will be drawn from the batch sample and the vehicles tested until the cumulative number of vehicles whose final deteriorated test results exceed the emission standard for each pollutant is less than or equal to the acceptance number or greater than or equal to the rejection number appropriate for the cumulative number of vehicles tested. The acceptance and rejection numbers at the appropriate code letter in Appendix VIII, Table II will be used in determining whether the acceptance or rejection of a batch has occurred. Once a batch is accepted or rejected for a particular pollutant, the number of vehicles whose final deteriorated test results exceed the emission standard for that pollutant shall not be considered any further for the purposes of the audit of that batch.

(c) Test samples from the batch sample shall continue to be drawn and tested until a decision of acceptance or

rejection can be made with regard to each pollutant for the batch or until the batch sequence is rejected in accordance with § 86.611(a).

.

7. In § 86.612, paragraphs (f)(1)(ii) and (g)(2) (41 FR 31487) are amended to read as follows:

§ 86.612 Suspension and revocation of certificates of conformity.

.

(f)
(1)
(ii) demonstrate that the vehicle's final deteriorated test results conform to the applicable emission standards by retesting the vehicle in accordance with these regulations.

.

(g)
(2) Demonstrate that the vehicle configuration for which the certificate of conformity has been suspended does in fact comply with these regulations by testing vehicles from consecutively produced batches of that vehicle configuration at the plant or plants specified by the Administrator in accordance with § 86.610 and § 86.611 and the conditions specified in the initial test order. Except, That if the manufacturer elects to continue testing individual vehicles after suspension of a certificate, the certificate is reinstated for any vehicle actually determined to have its final deteriorated test results in conformance with the applicable emission standards through testing in accordance with the applicable test procedures: *Provided*, That the Administrator had not revoked the certificate pursuant to paragraph (e) above.

.

8. In § 86.613 paragraph (b)(3) (41 FR 31487) is amended to read as follows:

§ 86.613 Hearings on suspension and revocation of certificate of conformity.

.

(b)
(3) "Party" shall include the Agency and the manufacturer.

.

(Secs. 206, 208, 301(a), Clean Air Act, as amended (42 U.S.C. 7525, 7542, 7601(a), formerly 42 U.S.C. 1857f-5, 1857f-6, 1857g(a) which was reclassified by 91 Stat. 685 (Aug. 7, 1977)).)

[FR Doc. 78-2702 Filed 2-1-78; 8:45 am]

.

8. In § 86.613 paragraph (b)(3) (41 FR 31487) is amended to read as follows:

§ 86.613 Hearings on suspension and revocation of certificate of conformity.

.

(b)
(3) "Party" shall include the Agency and the manufacturer.

.

(Secs. 206, 208, 301(a), Clean Air Act, as amended (42 U.S.C. 7525, 7542, 7601(a), formerly 42 U.S.C. 1857f-5, 1857f-6, 1857g(a) which was reclassified by 91 Stat. 685 (Aug. 7, 1977)).)

[FR Doc. 78-2702 Filed 2-1-78; 8:45 am]

.

8. In § 86.613 paragraph (b)(3) (41 FR 31487) is amended to read as follows:

§ 86.613 Hearings on suspension and revocation of certificate of conformity.

.

(b)
(3) "Party" shall include the Agency and the manufacturer.

.

(Secs. 206, 208, 301(a), Clean Air Act, as amended (42 U.S.C. 7525, 7542, 7601(a), formerly 42 U.S.C. 1857f-5, 1857f-6, 1857g(a) which was reclassified by 91 Stat. 685 (Aug. 7, 1977)).)

[FR Doc. 78-2702 Filed 2-1-78; 8:45 am]

fueled light-duty vehicles and light-duty trucks consistent with the test procedures in the certification regulations for exhaust emissions only.

The Agency finds good cause (1) for omitting as unnecessary a notice of proposed rulemaking and public rulemaking procedure, and (2) for making these changes effective upon publication, so that the changes will apply to production now underway. Two of the changes made by this notice clarify the regulations without changing

their substance or imposing any burden on the regulated industry. The other changes are required to make the SEA procedures consistent with the certification procedures, on which the public was provided opportunity to comment before they were adopted. Finally, the manufacturers have been aware of these planned changes for some time, and should not be burdened by the requirement that they comply immediately.

These amendments are described in the table below.

EXPLANATION OF AMENDMENTS

Section	Changes	Reason
1. § 86.608(a)	App. IX applies for 1977 vehicles and trucks and app. X applies for 1978 and later. Add provision for alternate test procedures.	Make SEA test procedures for 1978 and later vehicles and trucks consistent with those for certification.
2. App. IX	App. IX to apply to 1977 vehicles and trucks.	Clarify that app. IX applies to 1977 vehicles and trucks.
3. App. X	Add app. X	Test procedures for 1978 and later vehicles and trucks.

The following table summarizes the differences between the 1977 and 1978 test procedures.

1977 procedures (app. IX)	1978 procedures (app. X)	Change	Reason
II(a)(2) II(b)(3)(i) (41 FR 31493)	II(a)(2) II(b)(4)...	Add provision limiting commercial fuel to that which is available in the United States. Also add provision to allow usage of test fuel for mileage accumulation.	Clarification of intent.
II(b)(2) (41 FR 31493)	do	Add specifications for diesel fuel.	(1)
III(1)(iii) (41 FR 31493)	do	Add provision prohibiting slave evaporative canisters.	(1)
IV (41 FR 31493)	do	Delete provisions allowing use of slave fuel tanks. Add heat build procedure.	(1)
VI(e)(2) (41 FR 31494)	do	Delete details for alternate method of determining vehicle load horsepower. Reserve (I)(A) and (I)(B).	Outdated procedure.
VI, XV (41 FR 31495, 41 FR 31501)	VI (j) XIV	Add provisions to require measuring the actual driving distance on the rolls, and the appropriate changes in calculations of mass emissions.	(1)
VII, VIII, IX (41 FR 31495)	VII	Combine and update sections on transmission operations; make consistent with owner's manual.	(1)
X (41 FR 31495)	VIII	Make starting procedure consistent with owner's manual.	(1)
XII(a)(4) (41 FR 31499)	X	For system calibration, reference certification publication.	(1)
XIII(b) (11) and (13) (41 FR 31401)	XI(b) (11) and (13)	Delete time limit for ambient bag analysis....	(1)

* Consistency with certification regulations.

NOTE.—The Environmental Protection Agency has determined that this document does not contain a major regulation requiring preparation of an Economic Impact Statement under Executive Orders 11821 and 11949 and OMB Circular A-107.

Dated: January 23, 1978.

DOUGLAS COSTLE,
Administrator.

Part 86 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

1. In § 86.608 paragraph (a) amended to read as follows:

§ 86.608 Test procedures.

(a) The prescribed test procedures are contained in Appendix IX for 1977 model year light-duty vehicles and light-duty trucks and in Appendix X for 1978 model year and later light-duty vehicles and light-duty trucks. The Administrator may, on the basis of a written application by a manufacturer, prescribe test procedures other than those set forth in these appendices for any motor vehicle which he determines is not susceptible to satis-

factory testing by the procedures set forth in these appendices.

2. By changing the title of Appendix IX to read as follows:

APPENDIX IX—SELECTIVE ENFORCEMENT AUDITING TEST PROCEDURES FOR 1977 MODEL YEAR LIGHT-DUTY VEHICLES AND LIGHT-DUTY TRUCKS

3. By adding Appendix X to read as follows:

APPENDIX X—SELECTIVE ENFORCEMENT AUDITING TEST PROCEDURES FOR 1978 AND LATER MODEL YEAR LIGHT-DUTY VEHICLES AND LIGHT-DUTY TRUCKS

I. TEST PROCEDURES

Vehicles shall be tested for conformity with following procedures:

(1) Gasoline-fueled vehicles:
(i) The test consists of prescribed sequences of fueling, parking, and operating conditions. The exhaust gases generated during vehicle operation are diluted with air and sample continuously for subsequent analysis of specific components by prescribed analytical techniques. The test applies to vehicles equipped with catalytic or direct-flame afterburners, induction system modifications, or other systems or to uncontrolled vehicles and engines.

(ii) The exhaust emission test is designed to determine hydrocarbon, carbon monoxide, and oxides of nitrogen mass emissions while simulating an average trip of 7.5 miles in an urban area. The test consists of engine startups and vehicle operation on a chassis dynamometer through a specified driving schedule, as described in Appendix I to 40 CFR Part 86. A proportional part of the diluted exhaust emissions is collected continuously, for subsequent analysis, using a constant volume (variable dilution) sampler.

(2) Diesel vehicles:
(i) The test consists of prescribed sequences of fueling, parking, and operating conditions. The exhaust gases generated during vehicle operation are diluted with air and sampled continuously for analysis of Diesel exhaust hydrocarbons and subsequent analysis of other specific components by prescribed techniques. The test applies to vehicles equipped with catalytic or direct flame afterburners, other control systems or to uncontrolled vehicles and engines. All test phases are conducted within an ambient temperature range of 68 to 86° F.

(ii) The exhaust emission test is designed to determine hydrocarbon, carbon monoxide, and oxides of nitrogen mass emissions while simulating an average trip of 7.5 miles in an urban area. The test consists of engine startups and vehicle operation on a chassis dynamometer through a specified driving schedule, as described in Appendix I to 40 CFR Part 86. Using a constant volume (variable dilution) sampler, a proportional part of the diluted exhaust gas is analyzed continuously for hydrocarbons and an additional proportional part of the diluted exhaust gas is collected in bags for subsequent analysis of the other components.

II. FUEL SPECIFICATIONS

(a) Gasoline.
(1) Gasoline having the following specifications will be used by the Administrator in exhaust emission testing. Gasoline having

the following specifications of substantially equivalent specifications approved by the Administrator, shall be used by the manufacturer in testing.

Item designation	ASTM	Leaded	Unleaded
Octane, research, minimum	D2699	100	93
Pb. (organic), grams/U.S. gallon		1.4	0.00-0.05
Distillation range			
IBP, °F	D88	75-95	75-95
10 pct point °F	D88	120-135	120-135
50 pct point °F	D88	200-230	200-230
90 pct point °F	D88	300-325	300-325
EP, °F	D88	415	415
Sulfur, weight percent	D1268	0.10	.10
Phosphorus, grams/U.S. gallon		.01	.005
RVP, pounds	D323	8.7-9.2	8.7-9.2
Hydrocarbon composition			
Olefins, percent	D1319	10	10
Aromatics, percent	D1319	35	35
Saturates, percent	D1319	55	55

* Minimum.
* For testing at altitudes above 1,219 m (4,000 ft) the specified range is 75-105.
* For testing unrelated to evaporative emissions, the range is 8.0-9.2 lbs.
* For testing at altitudes above 1,219 m (4,000 ft) the specified range is 7.9-9.2.
* Maximum.
* Remainder.

(2) Gasoline representative of commercial gasoline which will be generally available in the United States through retail outlets shall be used in mileage accumulation. Emission test fuel meeting the specifications in (a)(1) of this section may be used for mileage accumulation.

(3) The specifications range of the gasoline used under paragraphs (a)(1) and (a)(2) of this section shall be recorded.

(b) Diesel fuel. (1) The diesel fuels employed for testing shall be clean and bright, with pour and cloud points adequate for operability. The diesel fuel may contain nonmetallic additives as follows: Cetane improver, metal deactivator, antioxidant, demerizer, antirust, pour depressant, dye, and dispersant.

(2) Diesel fuel meeting the following specifications, or substantially equivalent specifications approved by the Administrator, shall be used in exhaust emissions testing: The grade of diesel fuel recommended by the engine manufacturer commercially designated as "Type 2-D", shall be used.

Item	ASTM	Type 2-D
Cetane	D813	42-50
Distillation range	D86	
IBP, °F		340-400
10 pct point, °F		400-480
50 pct point, °F		470-540
90 pct point, °F		550-610
EP, °F		580-660
Gravity, °API	D287	33-37
Total sulfur, percent	D129 or D2822	0.2-0.5
Hydrocarbon composition	D1319	
Aromatics, pct		27
Paraffins, naphthenes, olefins		(1)
Flashpoint, °F	D93	130
Viscosity, centistokes	D445	2.0-3.2

* Minimum.
* Remainder.

(3) Diesel fuel meeting the following specifications, or substantially equivalent specifications approved by the Administrator, or testing fuel designated in paragraphs (b)(1) and (b)(2) of this section shall be used in mileage accumulation. The grade of diesel fuel recommended by the engine manufacturer, commercially designated as "Type 2-D", shall be used.

Item	ASTM	Type 2-D
Cetane	D813	38-58
Distillation range		
90 pct point, °F	D86	430-630
Gravity, °API	D287	30-42
Total sulfur, pct.	D129 or D2822	0.2
Flashpoint, °F	D93	130
Viscosity, centistokes	D455	1.5-4.5

(4) Other petroleum distillate fuels may be used for testing and mileage accumulation provided they are commercially available in the U.S., and

(i) Information, acceptable to the Administrator, is provided to show that only the designated fuel would be in customer service, and

(ii) Use of a fuel listed under paragraphs (b)(1), (b)(2), and (b)(3) of this section would have a detrimental effect on emissions or durability, and

(iii) Written approval from the Administrator of the fuel specifications was provided prior to the start of testing.

(5) The specification range of the fuels used under paragraphs (b)(1), (b)(2), (b)(3), and (b)(4) of this section shall be recorded.

III. GASOLINE-FUELED VEHICLE PREPARATION

Gasoline-fueled vehicles to be tested in accordance with this appendix shall be prepared as follows:

(1)(i) Inspect the fuel system carefully to insure the absence of any leaks to the atmosphere of either liquid or vapor which might affect the accuracy of the test or the performance of the control system. Such inspection shall include the application of a pressure of 14.5 inches of water (plus or minus 0.5 inches of water) to the fuel system. The pressure should be applied and allowed to stabilize and the fuel system isolated from the pressure source. The fuel system may not lose more than 2 inches of water pressure in five minutes beginning with the isolation of the fuel system. Corrective action, if required, shall be performed in accordance with § 86.608(d) and be reported with the final test report under § 86.609(d).

(ii) Care should be exercised, in the application of any pressure tests, neither to purge nor load the evaporative emission control system.

(iii) The vehicle evaporative emission system may not be modified by component addition, deletion, or substitution during any Selective Enforcement Audit, except to comply with section IV(a)(2)(i)(A) of this appendix if approved by the Administrator in advance.

IV. VEHICLE PRECONDITIONING

(a) Gasoline fueled vehicles to be tested in accordance with this appendix shall be preconditioned as follows:

(1) Preconditioning.
(i) The fuel tank(s) shall be drained and filled with the specified test fuel (II(a)(1)) to 40 percent of nominal capacity, rounded to the nearest whole U.S. gallon.

(ii) The fuel added to the vehicle tank(s) shall have an initial temperature of no more than 86° F. The evaporative emission control system or device shall not be abnormally purged or loaded as a result of draining or filling the tank(s).

(iii) The test vehicle shall be placed on the dynamometer and operated over a simulated trip, according to the requirements of section V through XI of this appendix. The engine need not be cold when starting the run on the dynamometer and a single trip of 7.5 miles shall be made. Longer preconditioning may be permitted with advance approval of the Administrator. The test vehicle shall not be used to set dynamometer horsepower. During this operation the ambient temperature shall be between 68° F and 86° F.

(iv) Within 5 minutes of completion of preconditioning the vehicle shall be driven or removed from the dynamometer and parked. The vehicle shall be stored for not less than 11 hours and not more than 36 hours at a temperature between 68° F and 86° F prior to the start of the heat build.

(2) Heat build. (i) Vehicle preparation.

(A) Prepare the fuel tank(s) for recording the temperature of the prescribed test fuel at the approximate mid-volume of the fuel. Fuel temperature may be measured at other than mid-volume if approved in advance by the Administrator.

(B) The fuel tank of the test vehicle shall be drained and refilled with the specified test fuel to 40 percent of nominal capacity, rounded to the nearest whole U.S. gallon. The temperature of the fuel prior to delivery to the fuel tank shall be between 50° F and 60° F. Care should be exercised against abnormal loading of the evaporative emission control system as a result of fueling the tank.

(ii) Temperature recording system. Strip chart recorder(s) or automatic data processor shall be used to record ambient and vehicle fuel tank temperature during the heat build. The temperature recorder or data processor shall record the temperature at least once every minute. The recording system shall be capable of resolving time to ±15 seconds and capable of resolving temperature to ±0.75° F (0.42° C). The temperature recording system (recorder and sensor) shall have an accuracy of ±3° F (1.7° C). The recorder (data processor) shall have a time accuracy of ±15 seconds and a precision of ±15 seconds.

(iii) Test sequence.
(A) When the fuel temperature reaches 60±2° F, the fuel tank cap(s) shall be installed, and the fuel tank shall be heated in such a way that its temperature change conforms to the following function to within ±3° F (±1.6° C):

$$F = T + 0.4t$$

for SI units, $C = T + (2/9)t$

Where:

F=fuel temperature, °F
C=fuel temperature, °C
t=time since beginning of test, minutes.
T=initial temperature.

(B) After 60±2 minutes of heating, the fuel temperature rise shall be 24±1° F (±0.5° C). (C) The heat build ends after 60±2 minutes of heating.

(C) A wait of up to 60 minutes is permitted between the end of the heat build and the beginning of the cold start exhaust test.

(D) Ambient temperature during the heat build shall be between 68 and 86° F.

(b) Diesel vehicles to be tested in accordance with this appendix shall be preconditioned as follows:

(1) The fuel tank(s) of each test vehicle shall be drained and refilled with specified test fuel (II.(b) (1)), (2), (4) to 40 percent of nominal capacity, rounded to the nearest whole U.S. gallon.

(2) The test vehicle shall be placed on the dynamometer and operated over a simulated trip, according to the requirements of sections V through XI of this appendix. The engine need not be cold when starting the run on the dynamometer and a single trip of 7.5 miles shall be made. The test vehicle shall not be used to set dynamometer horsepower.

(3) Within 5 minutes of completion of preconditioning the vehicle shall be driven or removed from the dynamometer and parked. The vehicle shall be stored for not less than 12 hours at a temperature between 68° F and 86° F prior to the start of the dynamometer test.

V. DYNAMOMETER DRIVING SCHEDULE

(a) The dynamometer driving schedule to be followed consists of a nonrepetitive series of idle, acceleration, cruise, and deceleration modes of various time sequences and rates. The driving schedule is defined by a smooth transition through the speed vs. time relationship listed in Appendix I of 40 CFR Part 86. The time sequence begins upon starting the vehicle according to the startup procedure described in section VIII of this appendix.

(b) The speed tolerance at any given time on the dynamometer driving schedule prescribed in Appendix I or as plotted on a driver's aid chart approved by the Administrator, when conducted to meet the requirements of Section VI of this appendix, is defined by upper and lower limits. The upper limit is 2 m.p.h. higher than the highest point on the trace within 1 second of the given time. The lower limit is 2 m.p.h. lower than the lowest point on the trace within 1 second of the given time. Speed variations greater than the tolerances (such as occur when shifting manual transmission vehicles) are acceptable provided they occur for less than 2 seconds on any one occasion. Speeds lower than those prescribed are acceptable provided the vehicle is operated at maximum available power during such occurrences. Further, speed deviations from those prescribed due to stalling are acceptable provided the provisions of section VIII(e) are adhered to. When conducted to meet the requirements of section IV, the speed tolerance shall be as specified above, except that the upper and lower limits shall be 4 m.p.h.

VI. DYNAMOMETER PROCEDURE

(a) The dynamometer run consists of two tests, a "cold" start test after a minimum 12-hour soak (according to the provisions of section IV of this appendix) and a "hot" start test with a 10-minute soak between the two tests. Engine startup (with all accessories turned off), operation over the driving schedule, and engine shutdown make a complete cold start test. Engine startup and operation over the first .505 seconds of the driving schedule complete the hot start test. The exhaust emissions are diluted with air to a constant volume and a portion is sampled continuously during each phase. (Diesel hydrocarbons are analyzed continuously.) The composite (flow integrated) samples collected in bags are analyzed for

hydrocarbons (except Diesel), carbon monoxide, carbon dioxide, and oxides of nitrogen. A parallel sample of the dilution air is similarly analyzed for hydrocarbon, carbon monoxide, carbon dioxide, and oxides of nitrogen.

(b) During dynamometer operation, a fixed speed cooling fan shall be positioned so as to direct cooling air to the vehicle in an appropriate manner with the engine compartment cover open. The fan capacity shall normally not exceed 5,300 c.f.m. If, however, the manufacturer can show that during field operation the vehicle receives additional cooling, the fan capacity may be increased or additional fans used if approved in advance by the Administrator. In the case of vehicles with front engine compartments, the fan(s) shall be squarely positioned between 8 and 12 inches in front of the cooling air inlets (grill). In the case of vehicles with rear engine compartments (or if special designs make the above impractical), the cooling fan(s) shall be placed in a position to provide sufficient air to maintain engine cooling.

(c) The vehicle shall be nearly level when tested in order to prevent abnormal fuel distribution.

(d) Flywheels, electrical, or other means of simulating inertia as shown in the following table shall be used. If the equivalent inertia specified is not available on the dynamometer being used, the next higher equivalent inertia (not to exceed 250 lbs.) available shall be used.

Loaded vehicle weight, pounds	Equivalent inertia weight, pounds	Road load power at 50 mi/h, horsepower
Up to 1,125	1,000	5.9
1,125 to 1,375	1,250	6.5
1,375 to 1,625	1,500	7.1
1,625 to 1,875	1,750	7.7
1,875 to 2,125	2,000	8.3
2,125 to 2,375	2,250	8.8
2,375 to 2,625	2,500	9.4
2,625 to 2,875	2,750	9.9
2,875 to 3,125	3,000	10.3
3,125 to 3,375	3,500	11.2
3,375 to 3,625	4,000	12.0
3,625 to 3,875	4,500	12.7
3,875 to 4,125	5,000	13.4
4,125 to 4,375	5,500	13.9
4,375 and above	5,500	14.4

(e) Power absorption unit adjustment.

(1) The power absorption unit shall be adjusted to reproduce road load power at 50 m.p.h. true speed. The indicated road load power setting shall take into account the dynamometer friction. The relationship between road load (absorbed) power and indicated road load power for a particular dynamometer shall be determined by the procedure outlined in Appendix II of 40 CFR Part 86 or other suitable means.

(2) The road load power listed in the table above shall be used or the vehicle manufacturer may determine the road load power by an alternate procedure requested by the manufacturer and approved in advance by the Administrator (such as the coastdown method).

(i) Gasoline-fueled vehicles:

- (A) [Reserved]
- (B) [Reserved]

(ii) Diesel vehicles:

(A) Measuring the fuel flow rate of a representative vehicle of the same equivalent weight class, when operated on a level road under balanced wind conditions at a true speed of 50 m.p.h., and

(B) Noting the dynamometer indicated road load horsepower setting required to reproduce that fuel flow rate when the same vehicle is operated on the dynamometer at a true speed of 50 m.p.h. The tests on the road and on the dynamometer shall be performed with the same vehicle ambient absolute pressure (usually barometric), i.e., within ± 5 mm. Hg.

(3) The road load power shall be adjusted according to the following if applicable: Where it is expected that more than 33 percent of the vehicles in an engine family will be equipped with air conditioning, the road load power listed above or as determined in paragraph (e)(2) of this section shall be increased by 10 percent when testing all vehicles within such engine family if those vehicles are intended to be offered with air conditioning in production.

(f) The vehicle speed (m.p.h.) as measured from the dynamometer rolls shall be used for all conditions. A speed v. time recording, as evidence of dynamometer test validity, shall be supplied on request of the Administrator.

NOTE.—When using a two-roll dynamometer a truer speed-time trace may be obtained by minimizing the rocking of the vehicle in the rolls. The rocking of the vehicle changes the tire rolling radius on each roll. The rocking may be minimized by restraining the vehicle horizontally (or nearly so) by using a cable and winch.

(g) The drive wheel tires may be inflated up to 45 psig in order to prevent tire damage. Slave tires may be substituted for the drive wheel tires in which the vehicle is equipped provided they are the same size. The drive wheel tire pressure shall be recorded.

(h) If the dynamometer has not been operated during the 2-hour period immediately preceding the test it shall be warmed up for 15 minutes by operating it at 30 m.p.h. using a nontest vehicle.

(i) If the dynamometer horsepower must be adjusted manually, it shall be set within 1 hour prior to the exhaust emissions test. The test vehicle shall not be used to make this adjustment. Dynamometers using automatic control of preselectable power settings may be set anytime prior to the beginning of the test.

(j) The driving distance as measured by counting the number of dynamometer roll or shaft revolutions, shall be determined for the transient cold start, stabilized cold start, and transient hot start phases of the test. The revolutions shall be measured on the same roll or shaft used for measuring the vehicle's speed.

(k) Practice runs over the prescribed driving schedule may be performed at test points, provided an emission sample is not taken, for the purpose of finding the minimum throttle action to maintain the proper speed-time relationship, or to permit sampling system adjustments.

VII. TRANSMISSIONS

(a) All test conditions, except as noted, shall be run according to the manufacturer's recommendation to the ultimate purchaser as detailed in the owner's manual.

(b) Vehicles equipped with free wheeling or overdrive shall be tested with these features operated according to the manufacturer's recommendations in the owner's manual.

(c) Idle modes shall be run with automatic transmission in "Drive" and the wheels

braked; manual transmissions shall be in gear with the clutch disengaged, except first idle (see section VIII).

(d) The vehicle shall be driven with minimum accelerator pedal movement to maintain the desired speed.

(e) Accelerations shall be driven smoothly according to the manufacturer's recommendation in the owner's manual. If the manufacturer does not recommend shift speeds in owner's manual, manual transmission vehicles shall be shifted as follows: A three-speed vehicle shall be shifted from first to second gear at 15 m.p.h. and from second to third gear at 25 m.p.h.; and four-speed vehicle shall be shifted from first to second gear at 15 m.p.h., from second to third gear at 25 m.p.h., and from third to fourth gear at 40 m.p.h.; a five-speed vehicle shall be shifted the same as a four-speed vehicle with the fifth gear used at the manufacturer's option. For manual transmissions, the operator shall release the accelerator pedal during each shift and accomplish the shift with minimum time. If the vehicle cannot accelerate at the specified rate, the vehicle shall be operated with the accelerator pedal fully depressed until the vehicle speed reaches the value prescribed for that time in the driving schedule.

(f) The deceleration modes shall be run in gear using brakes or accelerator pedal as necessary to maintain the desired speed. Manual transmission vehicles shall have the clutch engaged and shall not change gears from the previous mode. For those modes which decelerate to zero, manual transmission clutches shall be depressed when the speed drops below 15 m.p.h. (24.14 km/h), when engine roughness is evident, or when engine stalling is imminent.

(g) Downshifting is allowed at the beginning of or during a power mode in accordance with the manufacturer's recommendation in the owner's manual.

VIII. ENGINE STARTING AND RESTARTING

(a) Gasoline-fueled vehicles:

(1) The engine shall be started according to the manufacturer's recommended starting procedures as detailed in the owner's manual. The initial 20-second idle period shall begin when the engine starts.

(2) Choke operation:

(i) Vehicles equipped with automatic chokes shall be operated according to the instructions in the owner's manual including choke setting and "kick-down" from cold fast idle. The transmission shall be placed in gear 15 seconds after the engine is started.

If necessary, braking may be employed to keep the drive wheels from turning.

(ii) Vehicles equipped with manual chokes shall be operated according to the owner's manual. The transmission shall be placed in gear 15 seconds after the engine is started.

(3) The operator may use the choke, accelerator pedal, etc., where necessary to keep the engine running.

(4) If the owner's manual does not specify a warm engine starting procedure, the engine (automatic and manual choke engines) shall be started by depressing the accelerator pedal about half way and cranking the engine until it starts.

(b) Diesel vehicles. The engine shall be started according to the manufacturer's recommended starting procedures as detailed in the owner's manual. The initial 20-second idle period shall begin when the engine starts. The transmission shall be placed in gear 15 seconds after the engine is started. If necessary, braking may be employed to keep the drive wheels from turning.

(c) If the vehicle does not start after 10 seconds of cranking, cranking shall cease and the reason for failure to start shall be determined. The revolution counter on the constant volume sampler (and the hydrocarbon integrator when testing Diesel vehicles, see section XI) shall be turned off and the sample solenoid valves placed in the "dump" position during this diagnostic period. In addition, either the positive displacement pump should be turned off or the exhaust tube disconnected from the tailpipe during the diagnostic period. If failure to start is an operational error, the vehicle shall be rescheduled for testing.

(1) If failure to start occurs during the cold portion of the test and is caused by vehicle malfunction, corrective action of less than 30 minutes duration may be taken and the test continued. The sampling system shall be reactivated at the same time cranking begins. When the engine starts, the driving schedule timing sequence shall begin. If failure to start is caused by vehicle malfunction and the vehicle cannot be started, the test shall be voided, corrective action taken, and the vehicle rescheduled for testing. The reason for the malfunction (if determined) and the corrective action taken shall be reported.

(2) If a failure to start occurs during the hot start portion of the test and is caused by vehicle malfunction, the vehicle must be started within 1 minute of key on. The sampling system shall be reactivated at the same time cranking begins. When the

engine starts, the driving schedule timing sequence shall begin. If the vehicle cannot be started within 1 minute of key on, the test shall be voided, and corrective action taken, and the vehicle rescheduled for testing. The reason for the malfunction (if determined) and the corrective action taken shall be reported.

(d) If the engine "false starts," the operator shall repeat the recommended starting procedure (such as resetting the choke, etc.).

(e) Stalling. (1) If the engine stalls during an idle period, the engine shall be restarted immediately and the test continued. If the engine cannot be started soon enough to allow the vehicle to follow the next acceleration as prescribed, the driving schedule indicator shall be stopped. When the vehicle restarts the driving schedule indicator shall be reactivated.

(2) If the engine stalls during some operating mode other than idle, the driving schedule indicator shall be stopped, the vehicle restarted, accelerated to the speed required at that point in the driving schedule and the test continued.

(3) If the vehicle will not restart within 1 minute, the test shall be voided, corrective action taken, and the vehicle rescheduled for test. The reason for the malfunction (if determined) and the corrective action taken shall be reported.

IX. SAMPLING AND ANALYTICAL SYSTEM (EXHAUST EMISSIONS)

(a) Gasoline-fueled vehicles. (1) Schematic drawings. The following figures (Figs. 1 and 2) are schematic drawings of the exhaust gas sampling and analytical systems which will be used for testing under the regulations in this part. Since various configurations of the required components can produce accurate results, these schematic drawings are not to be interpreted literally and exact conformance is not mandatory. Additional components such as instruments, valves, solenoids, pumps, and switches may be used to provide additional information and coordinate the functions of the component systems.

(2) Component description (exhaust gas sampling system). The following components will be used in the exhaust gas sampling systems for testing under the regulations in this subpart. See Figure 1. Other types of constant volume samplers may be used if shown to yield equivalent results and if approved in advance by the Administrator.

RULES AND REGULATIONS

4559

FEDERAL REGISTER, VOL. 43, NO. 23—THURSDAY, FEBRUARY 2, 1978

(l) A dilution air filter assembly consisting of a particulate filter to remove solid matter from the dilution air and thus increase the life of the charcoal filter; a charcoal filter to reduce and stabilize the background hydrocarbon level; and a second particulate filter to remove charcoal particles from the airstream.

(li) A leak-tight connector and tube to the vehicle tailpipe. The tubing shall be sized and connected in such a manner that the static pressure variations in the vehicle tailpipe(s) remain within ± 5 inches of water of the static pressure variations measured during a dynamometer driving cycle with no connection to the tailpipe(s). Sampling systems capable of tolerance of ± 1 inch of water will be used by the Administrator if a written request by the manufacturer substantiates the need for this closer tolerance.

(lii) A heating system to preheat exchanger to within $\pm 10^\circ$ F of its operating temperature before the test begins.

(liv) A heat exchanger capable of limiting the gas mixture temperature variation during the entire test to $\pm 10^\circ$ F from the total test average as measured at a point immediately ahead of the positive displacement pump.

(v) A positive displacement pump in order to pump the dilute exhaust mixture. The pump capacity (300 to 350 c.f.m. if sufficient for testing most vehicles) shall be large enough to virtually eliminate water condensation in the system. (See Appendix III of 40 CFR Part 86 for one-flow calibration technique.) Other suitable calibration techniques may be used if approved in advance by the Administrator.

(vi) Temperature sensor (T1) with an accuracy of $\pm 2^\circ$ F to allow continuous recording of the temperature of the dilute exhaust mixture entering the positive displacement pump.

(vii) Gauge (G1) with an accuracy of ± 3 mm. Hg to measure the pressure depression of the dilute exhaust mixture entering the positive displacement pump, relative to atmospheric pressure.

(viii) Gauge (G2) with an accuracy of ± 3 mm. Hg to measure the pressure increase across the positive displacement pump.

(ix) Sample probes (S1 and S2) pointed upstream to collect samples from the dilution airstream and the dilute exhaust mixture.

(x) Filters (F1 and F2) to remove particulate matter from dilution air and dilute exhaust samples.

(xi) Pumps (P1 and P2) to pump the dilution air and dilute exhaust into their respective sample collection bags.

(xii) Flow control valves (N1 and N2) to

regulate flows to sample collection bags, at constant flow rates. The minimum sample flow rate shall be 10 c.f.h.

(xiii) Flowmeters (FL1 and FL2) to insure, by visual observation, that constant flow rates are maintained throughout the test.

(xiv) Three-way solenoid valves (V1, V2, V3, and V4) to direct sample streams to either their respective bags or overboard.

(xv) Quick-connect, leak-tight fittings (C1, C2, C3, and C4) with automatic shutoff on bag side to attach sample bags to sample system.

(xvi) Sample collection bags for dilution air and exhaust samples of sufficient capacity so as not to impede sample flow.

(xvii) Revolution counters to count the revolutions of the positive displacement pump while each test phase is in progress and samples are being collected.

(3) Component description (exhaust gas analytical system). The following components will be used in the exhaust gas analytical system for testing under the regulations in this part. The analytical system provides for the determination of hydrocarbon concentrations by flame ionization detector (FID) analysis, the determination of carbon monoxide and carbon dioxide concentrations by nondispersive infrared (NDIR) analysis and the determination of oxides of nitrogen concentrations by chemiluminescence (CL) analysis in dilute exhaust samples. The chemiluminescence method of analysis requires that the nitrogen dioxide present in the sample be converted to nitric oxide before analysis.

Other types of analyzers may be used if shown to yield equivalent results and if approved in advance by the Administrator. (See figure 2.)

(i) Quick-connect leak-tight fitting (C5) to attach sample bags to analytical system.

(ii) Filter (F3) to remove any residual particulate matter from the collected sample.

(iii) Pump (P3) to transfer samples from the sample bags to the analyzers.

(iv) Selector valves (V5, V6, V7, V8, V9, V10, V11, and V12) for directing samples, span gases or zeroing gases to the analyzers.

(v) Flow control valves (N3, N4, N5, N6, N7, N8, N9, N10, N11, N12, N13, N14, and N15) to regulate the gas flow rates.

(vi) Flowmeters (FL3, FL4, FL5, FL6, and FL7) to indicate gas flow rates.

(vii) Pressure gauges (G3 and G4) to facilitate greater precision in setting and reading flowmeters.

(viii) Manifold (M1) to collect the expelled gases from the analyzers.

(ix) Pump (P4) to transfer expelled gases from the collection manifold to a vent external to the test room (optional).

(x) Analyzers to determine hydrocarbon, carbon monoxide, carbon dioxide and oxides of nitrogen concentrations. (See Section X(a).)

(xi) Sample conditioning column containing CaSO_4 or indicating silica gel to remove water vapor and containing ascarite to remove carbon dioxide from the CO analysis stream.

NOTE.—If CO instruments which are essentially free of CO, and water vapor interference are used, the use of the conditioning column may be deleted. A CO instrument will be considered to be essentially free of CO, and water vapor interference if its response to a mixture of 3 percent CO, and N_2 , which has been bubbled through water at room temperature ($68-86^\circ$ F), produces an equivalent CO response, as measured on the most sensitive CO range, which is less than 1 percent of full scale CO concentration on instrument ranges above 300 ppm CO or less than 3 ppm on instrument ranges below 300 ppm CO.

(xii) Recorders (R1, R2, R3, and R4) or digital printers to provide permanent records of calibration, spanning and sample measurements; or in those facilities where computerized data acquisition systems are incorporated, the computer facility printout may be used.

(b) Diesel vehicles. (1) Schematic drawings. The following figures (Figs. 3, 4, and 5) are schematic drawings of the exhaust gas sampling and analytical systems which will be used for testing under the regulations in this part. Since various configurations of the required components can produce accurate results, these schematic drawings are not to be interpreted literally and exact conformance is not mandatory. Additional components such as instruments, valves, solenoids, pumps, and switches may be used to provide additional information and coordinate the functions of the component systems.

(2) Components description (exhaust gas sampling system). The following components will be used in the exhaust gas sampling system for testing under the regulations in this part (see Fig. 3). Other types of constant volume samplers may be used if shown to yield equivalent results, and if approved in advance by the Administrator.

(i) A dilution air filter assembly consisting of a particulate filter to remove solid matter from the dilution air and thus increase the life of the charcoal filter; a charcoal filter to reduce and stabilize the background hydrocarbon level; and a second particulate filter to remove charcoal particles from the air stream.

(ii) A leak-tight connector and tube to the vehicle tailpipe. The tubing shall be sized and connected in such a manner that the static pressure variations in the vehicle tailpipe(s) remain within ± 5 inches of water of the static pressure variations measured during a dynamometer driving cycle with no connection to the tailpipe(s). Sampling systems capable of tolerance of ± 1 inch of water will be used by the Administrator if a written request by the manufacturer substantiates the need for this closer tolerance.

(iii) A heating system to preheat the heat exchanger to within $\pm 10^\circ$ F of its operating temperature before the test begins.

(iv) A heat exchanger capable of limiting the gas mixture temperature variation during the entire test to $\pm 10^\circ$ F from the total test average as measured from a point immediately in front of the positive displacement pump.

(v) A positive displacement pump in order to pump dilute exhaust mixture. The pump capacity (300 to 350 c.f.m. is sufficient for testing most vehicles) shall be large enough to virtually eliminate water condensation in the system. See Appendix III to 40 CFR 86 for one-flow calibration technique. Other suitable calibration techniques may be used if approved in advance by the Administrator.

(vi) Temperature sensor (TI) with an accuracy of $\pm 2^\circ$ F to allow continuous recording of the temperature of the dilute exhaust mixture entering the positive displacement pump.

(vii) Gauge (G1) with an accuracy of ± 3 mm. Hg to measure the pressure depression of the dilute exhaust mixture entering the positive displacement pump, relative to atmospheric pressure.

(viii) Gauge (G2) with an accuracy of ± 3 mm. Hg to measure the pressure increase across the positive displacement pump.

(ix) Sample probes (S1, S2, and S3) pointed upstream to collect samples from the dilution airstream and the dilute exhaust mixture. Additional sample probes may be used, for example, to obtain continuous concentration traces of the dilute exhaust stream. In such cases the sample flow rate, in standard cubic feet per test phase, must be added to the calculated dilute exhaust volume. The position of the sample probes in Figure 3 is pictorial only. The heated sample line (S3) between the sampling point and the analyzer shall be as short as possible.

(x) Filters (F1 and F2) to remove particulate matter from dilution air and dilute exhaust samples.

(xi) Pumps (P1 and P2) to pump the dilution air and dilute exhaust into their respective sample collection bags.

(xii) Flow control valves (N1 and N2) to regulate flows to sample collection bags, at constant flow rates. The minimum sample flow rate shall be 10 c.f.h.

(xiii) Flowmeters (FL1 and FL2) to insure, by visual observation, that constant flow rates are maintained throughout the test.

(xiv) Three-way solenoid valves (V1, V2, V3, and V4) to direct sample streams to either their respective bags or overboard.

(xv) Quick-connect, leak-tight fittings (C1, C2, C3, and C4) with automatic shutoff on bag side to attach sample bags to sample system.

(xvi) Sample collection bags for dilution air and exhaust samples of sufficient capacity so as not to impede sample flow.

(xvii) Revolution counters to count the revolutions of the positive displacement

pump while each test phase is in progress and samples are being collected.

(3) Component description (exhaust gas batch analytical system). The following components will be used in the exhaust gas batch analytical system for testing under the regulations in this part. The analytical system provides for the determination of carbon monoxide and carbon dioxide concentrations by nondispersive infrared (NDIR) analysis and the determination of oxides of nitrogen concentrations by chemiluminescence (CL) analysis in dilute exhaust samples. The chemiluminescence method of analysis requires that the nitrogen dioxide present in the sample be converted to nitric oxide before analysis. Other types of analyzers may be used if shown to yield equivalent results and if approved in advance by the Administrator. (See Figure 4.)

(i) Quick-connect, leak-tight fitting (C5) to attach sample bags to analytical system.

(ii) Filter (F3) to remove any residual particulate matter from the collected sample.

(iii) Pump (P3) to transfer samples from the sample bags to the analyzers.

(iv) Selector valves (V7, V8, V9, V10, V11, and V12) for directing samples, span gases or zeroing gases to the analyzers.

(v) Flow control valves (N6, N7, N8, N9, N10, N11, N12, N13, N14, and N15) to regulate the gas flow rates.

(vi) Flowmeters (FL4, FL5, FL6, and FL7) to indicate gas flow rates.

(vii) Pressure gauge (G4) to facilitate greater precision in setting and reading flow rate.

(viii) Manifold (M1) to collect the expelled gases from the analyzers.

(ix) Pump (P4) to transfer expelled gases from the collection manifold to a vent external to the testroom (optional).

(x) Analyzers to determine carbon monoxide, carbon dioxide and oxides of nitrogen concentrations.

(xi) Sample conditioning column containing CaSO_4 or indicating silica gel to remove water vapor and containing ascarite to remove carbon dioxide from the CO analysis stream.

NOTE.—If CO instruments which are essentially free of CO, and water vapor interference are used, the use of the conditioning column may be deleted. A CO instrument will be considered to be essentially free of CO, and water vapor interference if its response to a mixture of 3 percent CO, in N₂, which has been bubbled through water at room temperature ($68^\circ\text{--}86^\circ\text{F}$) produces an equivalent CO response, as measured on the most sensitive CO range, which is less than 1 percent of full scale CO concentration on instrument ranges above 300 ppm CO or less than 3 ppm on instrument ranges below 300 ppm CO.

(xii) Recorders (R2, R3, and R4) or digital printers to provide permanent records of calibration, spanning and sample measurements; or in those facilities where computerized data acquisition systems are incorporated, the computer facility printout may be used.

(4) Component description (exhaust gas continuous analytical system). The following components will be used in the exhaust gas continuous analytical system for testing under the regulations in this part. This analytical system provides for the continuous determination of exhaust hydrocarbon concentration by heated flame ionization detector (HFID) analysis. Other types of analyzers may be used if shown to yield equivalent

results and if approved in advance by the Administrator. (See Figure 5.)

(i) Heated continuous sampling line (S3).

(ii) Heated filter (F4) to remove particulate matter from heated hydrocarbon sample.

(iii) Selector valves (V15 and V16) for directing the continuous dilute exhaust sample, dilution air bag sample, span or zeroing gases to the analyzers.

(iv) Quick-connect, leak-tight fitting (C6) to attach dilution air sample bag to analytical system.

(v) Heated hydrocarbon analyzer (HFID) complete with heated pump, filter, and flow control system. The response time of this instrument shall be less than 1 second for 90 percent of full scale response. Sample transport time from sampling point to inlet of instrument shall be less than 4 seconds. The sample line and filter shall be heated to a set point $\pm 10^\circ$ F ($\pm 5.6^\circ$ C) between 300° and 390° F (149° and 199° C).

(vi) Chart recorder (R4) and analog integrator with two readouts, or chart recorder (R4) and on-line digital computer for manual or electronic integration of analyzer output signal during the three operating phases of the test.

(vii) Flow control valves (N13 and N14) to regulate the gas flow rates.

X. SYSTEM CALIBRATION

For the procedures and specifications to calibrate the dynamometer, CVS and analytical systems see sections 40 CFR 86.118-78 through 86.126-78 and 86.114-78 in the June 28, 1977, FEDERAL REGISTER.

XI. DYNAMOMETER TEST RUNS

(a) The vehicle shall be allowed to stand with the engine turned off for a period of not less than 11 hours before the start of the test. The vehicle shall be stored prior to the emission tests in such a manner that precipitation (e.g., rain or dew) does not occur on the vehicle. The complete dynamometer test consists of a cold start drive of 7.5 miles and a hot start drive of 7.5 miles. The vehicle is allowed to stand on the dynamometer during the 10-minute test period between the cold and hot start test. The cold start test is divided into two periods. The first period, representing the cold start "transient" phase, terminates at the end of the deceleration which is scheduled to occur at 505 seconds into the driving schedule. The second period, representing the "stabilized" phase, consists of the remainder of driving schedule including engine shutdown. The hot start test similarly consists of two periods. The first period, representing the hot start "transient" phase, terminates at the same point in the driving schedule as the first phase of the cold start test. The second period of the hot start test, "stabilized" phase, is assumed to be identical to the second period of the cold start test. Therefore, the hot start test terminates after the first period (505 seconds) is run. During the tests the ambient temperature shall be between 68° and 86° F.

(b) The following steps shall be taken for each test. Several steps are described in terms of using a positive displacement pump. Similar operations appropriate to CFV should be followed by manufacturers utilizing this equipment.

(1) Place drive wheels of vehicles on dynamometer without starting engine.

(2) Open the vehicle engine compartment cover and start the cooling fan.

(3) With the sample solenoid valves in the "dump" position connect evacuated sample

collection bags to the dilute exhaust sample connectors and to the dilution air sample line connectors.

(4) Start the positive displacement pump (if not already on), the sample pumps, heated hydrocarbon analyzer recorder (Diesel only) and the temperature recorder. (The heat exchanger of the constant volume sampler, the Diesel hydrocarbon analyzer continuous sample line and filter, if applicable, should be preheated to their respective operating temperatures before the test begins.)

(5) Adjust the sample flow rates to the desired flow rate (minimum of 10 c.f.h.) and set the revolution counters to zero. Also set Diesel hydrocarbon integrator counters to zero, if applicable.

(6) Attach the flexible exhaust tube to the vehicle tailpipe(s).

(7) Simultaneously start the revolution counter for the positive displacement pump, position the sample solenoid valves to direct the sample flow into the "transient" exhaust sample bag and the "transient" dilution air sample bag, (turn on the Diesel hydrocarbon analyzer system integrator and mark the recorder chart, if applicable) and start cranking the engine.

(8) Fifteen seconds after the engine starts, place the transmission in gear.

(9) Twenty seconds after the engine starts, begin the initial vehicle acceleration of the driving schedule.

(10) Operate the vehicle according to the dynamometer driving schedule (see section V).

(11) At the end of the deceleration which is scheduled to occur at 505 seconds, simultaneously switch the sample flows from the "transient" bags to the "stabilized" bags, switch off revolution counter No. 1 (and the Diesel hydrocarbon integrator chart) and start counter No. 2 (and the Diesel hydrocarbon integrator No. 2). Before the acceleration which is scheduled to occur at 510 seconds, record the measured roll or shaft revolutions and reset the counter or switch to a second counter. Disconnect the "transient" exhaust and dilution air sample bags and transfer them to the analytical systems. As soon as possible and in no case longer than 20 minutes after the end of sampling, process the exhaust sample according to section XII.

(12) Turn engine off 2 seconds after the end of the last deceleration (at 1,369 seconds).

(13) Five seconds after the engine stops running, simultaneously turn off revolution counter No. 2 (and the Diesel hydrocarbon integrator No. 2, mark the hydrocarbon recorder chart, if applicable) and position the sample solenoid valves to the "dump" position. Disconnect the "stabilized" exhaust and dilution air sample bags and transfer them to the analytical system. As soon as possible and in no case longer than 20 minutes after the end of sampling, process the exhaust sample according to section XII.

(14) Immediately after the end of the sample period turn off the cooling fan and close the engine compartment cover.

(15) Turn off the positive displacement pump or disconnect the exhaust tube from the tailpipe(s) of the vehicle.

(16) Repeat the steps in paragraphs (b)(2) through (10) of this section for the hot start test except only one evacuated sample bag is required for sampling exhaust gas and one for dilution air. The step in paragraph (b)(7) of this section shall begin between 9

and 11 minutes after the end of the sample period for the cold start test.

(17) At the end of the deceleration which is scheduled to occur at 505 seconds, simultaneously turn off the No. 1 revolution counter (and Diesel hydrocarbon integrator No. 1, mark the Diesel hydrocarbon recorder chart, if applicable) and position the sample solenoid valve to the "dump" position.

NOTE.—Engine shutdown is not part of the hot start test sample period. Record the measured roll or shaft revolutions.

(18) Disconnect the hot start "transient" exhaust and dilution air sample bags and transfer them to the analytical system. As soon as possible and in no case longer than 20 minutes after the end of this portion of the test process the exhaust sample according to section XII.

(19) Disconnect the exhaust tube from the vehicle tailpipe(s) and the vehicle may be removed from the dynamometer.

(20) The positive displacement pump may be turned off, if desired.

XII. HC, CO, CO₂, AND NO_x MEASUREMENTS

When testing Diesel vehicles allow the HC analyzer sample line and filter to heat to a set point $\pm 10^\circ$ F between 300° and 390° F. Allow a minimum of 20 minutes warmup for the HC analyzer and 2 hours for the CO, CO₂, and NO_x analyzer. (Power is normally left on infrared and chemiluminescence analyzers; but when not in use, the chopper motors of the infrared analyzers are turned off and the phototube high voltage supply of the chemiluminescence analyzers is placed in the standby position.) The following sequence of operations should be performed in conjunction with each series of measurements:

(a) Zero the analyzers. Obtain a stable zero on each amplifier meter and recorder. Recheck after tests.

(b) Introduce span gases and set the CO and CO₂ analyzer gains, the HC analyzer sample capillary flow rate and the NO_x analyzer high voltage supply or amplifier gain to match the calibration curves. In order to avoid corrections, span and calibrate at the same flow rates used to analyze the test samples. Span gases should have concentrations equal to 75 to 100 percent of full scale. If gain has shifted significantly on the CO or CO₂ analyzers, check tuning. If necessary, check calibration. Recheck after tests. Show actual concentrations on chart.

(c) Check zeros; repeat the procedure in paragraphs (a) and (b) of this section if required.

(d) Check flow rates and pressures.

(e) For Diesel vehicles continuously record (and integrate electronically, if desired) dilute hydrocarbon emission levels during test.

(f) Measure CO, CO₂, and NO_x concentrations of samples, also HC for gasoline-fueled vehicles. Care should be exercised to prevent moisture from condensing in the sample collection bag.

(g) Check zero and span points. If the difference is greater than 2 percent of full scale, repeat the procedure in paragraphs (a) through (g) of this section.

(h) Repeat the procedures for the sample bag analysis, paragraphs (a) through (g) of this section, to analyze the ambient bag.

XIII. CHART READING

(a) Gasoline-fueled light duty vehicles and light duty trucks:

(1) Determine the HC, CO, CO₂, and NO_x

concentrations of the dilution air and dilute exhaust sample bags from the instrument deflections or recordings making use of appropriate calibration charts.

(2) Determine the pressure of the mixture of exhaust and dilution air entering the CVS metering device, the pressure increase across the device, and the temperature at the inlet. The temperature may be recorded continuously or digitally to determine temperature variations.

(3) Determine the number of revolutions of the positive displacement pump accumulated during each test phase while exhaust samples are being collected. The number of standard cubic feet metered by a critical flow venturi during each test phase would be the equivalent record for a CFV-CVS.

(4) Determine the driving distance for each of the three phases of the test, calculated from the measured roll of shaft revolutions.

(b) Diesel light duty vehicles and light duty trucks:

(1) Determine the HC, CO, CO₂, and NO_x concentrations of the dilution air and the CO, CO₂, and NO_x concentrations of the dilute exhaust sample bags from the instrument deflections, computer printouts, or recordings making use of appropriate calibration charts.

(2) Record integrated HC results, or manually integrate continuous chart. This chart provides a permanent record and can be graphically integrated if verification of the results of electronic integration is required.

(3) Determine the pressure of the mixture of exhaust and dilution air entering the CVS metering device, the pressure increase across the device, and the temperature at the inlet. The temperature may be recorded continuously or digitally to determine temperature variations.

(4) Determine the number of revolutions of the positive displacement pump accumulated during each test phase while exhaust samples are being collected. The number of standard cubic feet metered by a critical flow venturi during each phase would be the equivalent record for a CFV-CVS.

(5) Determine the driving distance for each of the three phases of the test, calculated from the measured roll of shaft revolutions.

XIV. CALCULATIONS

The individual reported test results shall be computed by use of the following formula:

(a) For light duty vehicles and light duty trucks:

$$Y_{wm} = 0.43((Y_{ct} + Y_s)/(D_{ct} + D_s)) + 0.57 \\ ((Y_{ht} + Y_s)/(D_{ht} + D_s))$$

Where:

Y_{wm} = Weighted mass emissions of each pollutant, i.e., HC, CO, NO_x, or CO₂, in grams per vehicle mile.

Y_{ct} = Mass emissions as calculated from the "transient" phase of the cold start test in grams per test phase.

Y_{ht} = Mass emissions as calculated from the "transient" phase of the hot start test in grams per test phase.

Y_s = Mass emissions as calculated from the "stabilized" phase of the cold start test, in grams per test phase.

D_{ct} = The measured driving distance from the "transient" phase of the cold start test in miles.

RULES AND REGULATIONS

Dht=The measured driving distance from the "transient" phase of the hot start test in miles.
Ds=The measured driving distance from the "stabilized" phase of the cold start test, in miles.

(b) The mass of each pollutant for each phase of both the cold start test and hot start test is determined from the following:

(1) Hydrocarbon mass:

$$HC_{mass} = V_{mix} \times \text{Density}_{HC} \times HC_{conc} / 1,000,000$$

(2) Oxides of nitrogen mass:

$$NO_{mass} = V_{mix} \times \text{Density}_{NO} \times (NO_{conc} / 1,000,000) \times KH$$

(3) Carbon monoxide mass:

$$CO_{mass} = V_{mix} \times \text{Density}_{CO} \times CO_{conc} / 1,000,000$$

(4) Carbon dioxide mass:

$$CO_{2mass} = V_{mix} \times \text{Density}_{CO_2} \times CO_{2conc} / 100$$

(c) Meaning of symbols:

(1) HC_{mass}=Hydrocarbon emissions, in grams per test phase.

Density_{HC}=Density of hydrocarbons in the exhaust gas, assuming an average carbon to hydrogen ratio of 1:1.85, in grams per cubic foot at 68° F and 760 mm. Hg pressure (16.33 gm./cu.ft.).

HC_{conc}=Hydrocarbon concentration of the dilute exhaust sample corrected for background, in p.p.m. carbon equivalent, i.e. equivalent propane $\times 3$.
HC_{conc}=HCE-HCd(1-1/DF).

Where:

HCE=Average hydrocarbon concentration of the dilute exhaust sample as measured from the sample bag or for Diesel, average hydrocarbon concentration of the dilute exhaust sample, as calculated from the integrated HC traces, in p.p.m. carbon equivalent.
HCd=Hydrocarbon concentration in the dilution air as measured in p.p.m. carbon equivalent.

(2) NO_{mass}=Oxides of nitrogen emissions, in grams per test phase.

Density_{NO}=Density of oxides of nitrogen in the exhaust gas, assuming they are in the form of nitrogen dioxide, in grams per cubic foot at 68° F and 760 mm. Hg pressure (54.16 gm./cu. ft.).

NO_{conc}=Oxides of nitrogen concentration of the dilute exhaust sample corrected for background, in p.p.m.
NO_{conc}=NO_e-NO_d(1-1/DF).

Where:

NO_e=Oxides of nitrogen concentration of the dilute exhaust sample as measured, in p.p.m.

(3) CO_{mass}=Carbon monoxide emissions, in grams per test phase.

Density_{CO}=Density of carbon monoxide in grams per cubic foot at 68° F and 760 mm. Hg pressure (32.97 gm./cu. ft.).

CO_{conc}=Carbon monoxide concentration of the dilute exhaust sample corrected for background, water vapor and CO₂ extraction, in p.p.m.
CO_{conc}=CO_e-COD(1-1/DF).

Where:

CO_e=Carbon monoxide concentration of the dilute exhaust sample volume corrected for water vapor and carbon dioxide extraction, in p.p.m. The calculation assumes the carbon to hydrogen ratio of the fuel is 1:1.85.
CO_e=(1-0.01925 CO_{2e}-0.000323R) CO_{em}.

Where:

CO_{em}=Carbon monoxide concentration of the dilute exhaust sample as measured in p.p.m.
CO_{2e}=Carbon dioxide concentration of the dilute exhaust sample, in mole percent.
R=Relative humidity of the dilution air, in percent.
CO_d=Carbon monoxide concentration of the dilution air corrected for water vapor extraction, in p.p.m.
CO_d=(1-0.000323R) CO_{dm}.

Where:

CO_{dm}=Carbon monoxide concentration of the dilution air sample as measured, in p.p.m.

NOTE.—If a CO instrument which meets the criteria specified in section XI(a)(3)(xi) or section XI(b)(3)(xi) is used and the conditioning column has been deleted, CO_{em} can be substituted directly for CO_e and CO_{dm} can be substituted directly for CO_d.

(4) CO_{2mass}=Carbon dioxide emissions, in grams per test phase.

Density_{CO₂}=Density of carbon dioxide is 51.85 g/ft³ (4.843 kg/M³), at 68° F (20° C) and 760 mm Hg (101.3 kPa) pressure.

CO_{2conc}=Carbon dioxide concentration of the dilute exhaust sample corrected for background, in percent.

$$CO_{2conc} = CO_{2e} - CO_{2d}(1-1/DF)$$

Where:

CO_{2d}=Carbon dioxide concentration of the dilution air as measured, in percent.

$$(5) DF = 13.4 / [CO_{2e} + (HCE + CO_e)10 - 4]$$

$$KH = 1 / [1 - 0.0047(H - 75)]$$

$$\text{for SI units} = 1 / [1 - 0.0329(H - 10.11)]$$

Where:

H=Absolute humidity in grains (grams) of water per pound (kilogram) of dry air.

$$H = [(43.478)Ra \times Pd] / [PB - (Pd \times Ra / 100)]$$

$$\text{for SI units, } H = [(6.211)Ra \times Pd] / [PB - (Pd \times Ra / 100)]$$

Ra=Relative humidity of the ambient air, in percent.

Pd=Saturated vapor pressure, in mm. Hg (kPa) at the ambient dry bulb temperature.

PB=Barometric pressure, in mm. Hg (kPa).

V_{mix}=Total dilute exhaust volume in cubic feet per test phase corrected to standard conditions (528 R) (293 K) and 760 mm. Hg (101.3 kPa).

For PDP-CVS, V_{mix} is:

$$V_{mix} = V_o \times N(PB - P_4) / 528 R / (760 \text{ mm. Hg}) (Tp)$$

for SI units,

$$V_{mix} = V_o \times N(PB - P_4) / (101.325 \text{ kPa}) (Tp)$$

Where:

V_o=Volume of gas pumped by the positive displacement pump, in cubic feet (m³) per revolution. This volume is dependent on the pressure differential across the positive displacement pump.

N=Number of revolutions of the positive displacement pump during the test phase while samples are being collected.

PB=Barometric pressure, in mm. Hg (kPa).

P₄=Pressure depression below atmospheric measured at the inlet to the positive displacement pump, in mm. Hg (kPa) (during an idle mode).

Tp=Average temperature of dilute exhaust entering positive displacement pump during test, R(K).

(d) Example calculation of mass emissions values:

(1) For the "transient" phase of the cold start test assume V_o=0.29344 cu. ft. per revolution; N=10,485; R=48.0 percent; Ra=48.2 percent; PB=762 mm. Hg; Pd=22.225 mm. Hg;

P₄=70 mm. Hg; Tp=570 R; HCE=105.8 p.p.m. carbon equivalent; NO_{2e}=11.2 p.p.m.; CO_{em}=306.6 p.p.m.; CO_{2e}=1.43 percent; HCD=12.1 p.p.m.; NO_{2d}=0.8 p.p.m.; CO_{dm}=15.3 p.p.m.

Then:

$$V_{mix} = (0.029344) (10,485) (762-70) / (528) / (760) (570) = 2595 \text{ cu. ft. per test phase.}$$

$$H = (43.478) (48.2) (22.225) / [762 - (22.225 \times 48.2 / 100)] = 62 \text{ grains of water per pound of dry air.}$$

$$KH = 1 / [1 - 0.0047(62 - 75)] = .9424.$$

$$CO_e = (1 - 0.01925(1.43) - 0.000323(48))306.6 = 293.4 \text{ p.p.m.}$$

$$CO_d = (1 - 0.000323(48))15.3 = 15.1 \text{ p.p.m.}$$

$$DF = 13.4 / 1.43 + (105.8 + 293.4) \times 10 - 4 = 9.116.$$

$$HC_{conc} = 105.8 - 12.1(1 - 1/9.116) = 95.03 \text{ p.p.m.}$$

$$HC_{mass} = (2595) (16.33) (95.03 / 1,000,000) = 4.027 \text{ grams per test phase.}$$

$$NO_{2conc} = 11.2 - 0.8(1 - 1/9.116) = 10.49 \text{ p.p.m.}$$

$$NO_{2mass} = (2595) (54.16) (10.49 / 1,000,000) (0.9424) = 1.389 \text{ grams per test phase.}$$

$$CO_{conc} = 293.4 - 15.1(1 - 1/9.116) = 280.0 \text{ p.p.m.}$$

$$CO_{2mass} = (2595) (32.97) (280 / 1,000,000) = 23.96 \text{ grams per test phase.}$$

$$CO_{2conc} = 1.43 - .032(1 - 1/9.116) = 1.402 \text{ percent.}$$

$$CO_{2mass} = (2595.0) (51.85) (1.402 / 100) = 1886 \text{ grams per test phase.}$$

(2) For the "stabilized" portion of the cold start test assume that similar calculations resulted in HC_{mass}=0.62 gram per test phase; NO_{2mass}=1.27 grams per test phase; and CO_{2mass}=5.98 grams per test phase.

(3) For the "transient" portion of the hot start test assume that similar calculations resulted in HC_{mass}=0.51 gram per test phase; NO_{2mass}=1.38 grams per test phase; and CO_{2mass}=5.01 grams per test phase; CO_{2mass}=1758 grams per test phase; Dht=3.598 miles.

(4) Weighted mass emission results:

$$HC_{wm} = 0.43 [(4.027 + 0.62) / (3.598 + 3.902)] + 0.57 [(0.51 + 0.62) / (3.598 + 3.902)] = 0.352 \text{ gram per vehicle mile.}$$

RULES AND REGULATIONS

$$NO_{2wm} = 0.43 [(1.389 + 1.27) / (3.598 + 3.902)] + 0.57 [(1.38 + 1.27) / (3.598 + 3.902)] = .354 \text{ gram per vehicle mile.}$$

$$CO_{wm} = 0.43 [(23.96 + 5.98) / (3.598 + 3.902)] + 0.57 [(5.01 + 5.98) / (3.598 + 3.902)] = 2.55 \text{ grams per vehicle mile.}$$

$$CO_{2wm} = 0.43 [(1886 + 2346) / (3.598 + 3.902)] + 0.57 [(1758 + 2346) / (3.598 + 3.902)] = 555 \text{ grams per vehicle mile.}$$

(Secs. 206, 208, 301(a), Clean Air Act, as amended (42 U.S.C. 7525, 7542, 7601(a), formerly (42 U.S.C. 1857f-5, 1857f-6, 1857g(a)) which was reclassified by 91 Stat. 685 (Aug. 7, 1977).)

THURSDAY, FEBRUARY 2, 1978
PART III

DEPARTMENT OF
HEALTH,
EDUCATION,
AND WELFARE

Public Health Service,
Health Care Financing
Administration and Office
of Human Development
Services

FEDERAL FINANCIAL
PARTICIPATION IN
EXPENDITURES FOR
ABORTIONS FUNDED
THROUGH VARIOUS
HEW PROGRAMS

Revised
Federal

[4110-85]

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER D—GRANTS

PART 50—POLICIES OF GENERAL APPLICABILITY

Abortions and Related Medical Services in Federally Assisted Programs of the Public Health Service

AGENCY: Public Health Service.

ACTION: Final rules.

SUMMARY: The Department is promulgating new rules to govern Federal financial participation in expenditures for abortions funded through various HEW programs. Three parallel sets of regulations are being promulgated. One set will apply to programs administered under title XIX of the Social Security Act, another to programs administered under title XX of that Act, and the third to programs and projects supported with funds appropriated to the Department of Health, Education, and Welfare and administered by the Public Health Service. These rules are necessary as a result of the enactment of Pub. L. 95-205. That statute imposes strict limitations upon Federal funding of abortions and requires that the Secretary "promptly issue regulations and establish procedures to insure that (the statute is) rigorously enforced." These regulations respond to that statutory directive and specify when Federal funds may be used to pay for abortions.

EFFECTIVE DATES: This regulation will be effective February 14, 1978. As explained in the preamble of 42 CFR Part 449 appearing in this issue at p. 4571, in providing Federal financial participation prior to the effective date of these regulations, the Department will accept any reasonable interpretation of the statutory provisions implemented by these regulations.

Notice of Proposed Rulemaking and a delayed effective date of 30 days have been waived because of the compelling need to provide immediate direction to States and Federal grantees as to those abortions which the Department will fund with its appropriations for fiscal year 1978, and to follow the dictates of Congress that the Department promptly issue regulations. Nevertheless, written comments or suggestions received on or before March 20, 1978, will be considered with a view to revising these regulations, and will be responded to by further publication in the FEDERAL REGISTER no later than May 3, 1978.

In commenting please refer to PCO-187-RC. Agencies and organizations are requested to submit comments in

RULES AND REGULATIONS

duplicate. Comments will be available for public inspection beginning approximately two weeks after publication in Room 722-H, of the Department's offices at 200 Independence Avenue SW., Washington, D.C., on Monday through Friday of each week from 8:30 a.m. to 5 p.m., 202-245-0950.

ADDRESS: Address comments to: Marilyn Martin, Public Health Service, Room 722H, Humphrey Building, 200 Independence Avenue SW., Washington, D.C. 20201.

FOR FURTHER INFORMATION CONTACT:

Marilyn L. Martin, Room 722H, Hubert Humphrey Building, 200 Independence Avenue SW., Washington, D.C. 20201, 202-245-7581.

SUPPLEMENTARY INFORMATION: For a preamble statement, which is being issued jointly by the Public Health Service, the Health Care Financing Administration, and the Administration for Public Services of the Office of Human Development Services, concerning conditions governing Federal funding of abortions, see 42 CFR Part 449 appearing in this issue at page 4571.

Part 50 is amended by adding a new Subpart C to read as set No. MC forth below:

Subpart C—Abortions and Related Medical Services in Federally Assisted Programs of the Public Health Service

- Sec.
- 50.301 Applicability.
 - 50.302 Definitions.
 - 50.303 General Rule.
 - 50.304 Life of the mother would be endangered.
 - 50.305 Severe and long-lasting damage to physical health.
 - 50.306 Rape and incest.
 - 50.307 Documentation needed by programs or projects.
 - 50.308 Drugs and devices and termination of ectopic pregnancies.
 - 50.309 Record keeping requirements.
 - 50.310 Confidentiality.

AUTHORITY: Sec. 101, Pub. L. 95-205, 91 Stat. 1461, December 9, 1977.

§ 50.301 Applicability.

The provisions of this subpart are applicable to programs or projects for health services which are supported in whole or in part by Federal financial assistance, whether by grant or contract, appropriated to the Department of Health, Education, and Welfare and administered by the Public Health Service.

§ 50.302 Definitions.

As used in this subpart: (a) "Law enforcement agency" means an agency, or any part thereof, charged under applicable law with enforcement of the general penal statutes of the United States, or of any State or local jurisdiction.

(b) "Medical procedures performed upon a victim of rape or incest" means any medical service, including an abortion, performed for the purpose of preventing or terminating a pregnancy arising out of an incident of rape or incest.

(c) "Physician" means a doctor of medicine or osteopathy legally authorized to practice medicine and surgery by the State in which he or she practices.

(d) "Public health service" means: (1) An agency of the United States or of a State or local government, that provides health or medical services; and (2) a "rural health clinic," as defined under section 1(d)(aa)(2) of Pub. L. 95-210, 91 Stat. 1485; except that any agency or facility whose principal function is the performance of abortions is specifically excluded from this definition.

§ 50.303 General Rule.

Federal financial participation is not available for the performance of an abortion in programs or projects to which this subpart applies except under circumstances described in §§ 50.304, 50.305, or 50.306.

§ 50.304 Life of the mother would be endangered.

Federal financial participation is available for the performance of an abortion when a physician has found, and so certified in writing to the program or project, that on the basis of his/her professional judgment, the life of the mother would be endangered if the fetus were carried to term.

§ 50.305 Severe and long-lasting damage to physical health.

Federal financial participation is available for the performance of an abortion when two physicians have found, and so certified in writing to the program or project, that on the basis of their professional judgment, severe and long-lasting physical health damage to the mother would result if the pregnancy were carried to term.

§ 50.306 Rape and incest.

Federal financial participation is available for medical procedures performed upon a victim of rape or incest if the program or project has received signed documentation from a law enforcement agency or public health service stating that: (a) The person upon whom the medical procedure was performed was reported, within 60 days of the incident, to have been the victim of an incident of rape or incest; and (b) the report included the name, address and signature of the person who reported the rape or incest. Federal financial participation is also available for the performance of abortions for victims of rape or incest under the circumstances described in §§ 50.304 and

RULES AND REGULATIONS

50.305 without regard to the requirements of the preceding sentence.

§ 50.307 Documentation needed by programs or projects.

Federal financial participation is unavailable for the performance of abortions or other medical procedures otherwise provided for under §§ 50.304, 50.305, and 50.306 if the program or project has paid without first having received the certifications and documentation specified in those sections.

§ 50.308 Drugs and devices and termination of ectopic pregnancies.

Federal financial participation is available with respect to the cost of drugs or devices to prevent implantation of the fertilized ovum, and for medical procedures necessary for the termination of an ectopic pregnancy.

§ 50.309 Record keeping requirements.

Programs or projects to which this subpart applies must maintain copies of the certifications and documentation specified in §§ 50.304, 50.305, and 50.306 for three years pursuant to the retention and custodial requirements for records at 45 CFR 74.20 et seq.

§ 50.310 Confidentiality.

Information in the records or in the possession of programs or projects which is acquired in connection with the requirements of this subpart may not be disclosed in a form which permits the identification of an individual without the individual's consent except as may be necessary for the health of the individual or as may be necessary for the Secretary to monitor the activities of those programs or projects. In any event, any disclosure shall be subject to appropriate safeguards which will minimize the likelihood of disclosures of personal information in identifiable form.

Dated: January 26, 1978.

JAMES F. DICKSON,
Acting Assistant
Secretary for Health.

Approved: January 26, 1978.

JOSEPH A. CALIFANO, JR.,
Secretary, Department of Health,
Education, and Welfare.

CHAPTER IV—HEALTH CARE FINANCING ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 449—SERVICES AND PAYMENT IN MEDICAL ASSISTANCE PROGRAMS

Federal Financial Participation in State Claims for Abortions

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Final rules.

SUMMARY: The Department is promulgating new rules to govern Federal financial participation in expenditures for abortions funded through various HEW programs. Three parallel sets of regulations are being promulgated. One set will apply to programs administered under title XIX of the Social Security Act, another to programs administered under title XX of that Act, and the third to programs and projects supported with funds appropriated to the Department of Health, Education, and Welfare and administered by the Public Health Service. These rules are necessary as a result of the enactment of Pub. L. 95-205. That statute imposes strict limitations upon Federal funding of abortions and requires that the Secretary "promptly issue regulations and establish procedures to insure that (the statute is) rigorously enforced." These regulations respond to that statutory directive and specify when Federal funds may be used to pay for abortions.

EFFECTIVE DATE: The regulations will be effective February 14, 1978. As explained below, in providing Federal financial participation prior to the effective date of these regulations, the Department will accept any reasonable interpretation of the statutory provisions implemented by these regulations.

Notice of Proposed Rulemaking and a delayed effective date of 30 days have been waived because of the compelling need to provide immediate direction to States and Federal grantees as to which abortions the Department will fund with its appropriations for fiscal year 1978, and pursuant to the dictate of Congress that these regulations be issued promptly. Nevertheless, written comments or suggestions received on or before March 20, 1978, will be considered with a view to revising these regulations and will be responded to by further publication in the FEDERAL REGISTER no later than May 3, 1978. The Department's published response will indicate the extent to which, if at all, amendment of these regulations is in order in light of these comments.

In commenting please refer to PCO-187-RC. Agencies and organizations are requested to submit comments in duplicate. Comments will be available for public inspection beginning approximately 2 weeks after publication, in Room 5225 of the Department's offices at 330 C Street SW., Washington, D.C., on Monday through Friday of each week from 8:30 a.m. to 5 p.m., 202-245-0950.

ADDRESS: Address Comments to:

Administrator, Health Care Financing Administration, Department of Health, Education, and Welfare,

P.O. Box 2366, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT:

Michael Cook, Room 4423, Switzer Building, 330 C Street SW., Washington, D.C. 20201, 202-245-0962 (HCFA).

SUPPLEMENTARY INFORMATION: On December 9, 1977, the President signed Pub. L. 95-205. That Act appropriates funds for the Department's programs from December 1, 1977, through September 30, 1978, or until enactment of an appropriation for any project or activity provided for therein, whichever occurs first. Section 101 of that Act contains language which succeeds section 209 of the Labor-HEW Appropriations Act of 1977, Pub. L. 94-439, which has popularly been referred to as the "Hyde amendment."

STATUTORY LANGUAGE

Section 101 of Pub. L. 95-205 provides, in part, that:

[N]one of the funds provided for in this paragraph shall be used to perform abortions except where the life of the mother would be endangered if the fetus were carried to term; or except for such medical procedures necessary for the victims of rape or incest, when such rape or incest has been reported promptly to a law enforcement agency or public health service; or except in those instances where severe and long-lasting physical health damage to the mother would result if the pregnancy were carried to term when so determined by two physicians.

Nor are payments prohibited for drugs or devices to prevent implantation of the fertilized ovum, or for medical procedures necessary for the termination of an ectopic pregnancy.

The Secretary shall promptly issue regulations and establish procedures to ensure that the provisions of this section are rigorously enforced.

PRIOR DEPARTMENT POLICY

Section 209 of Pub. L. 94-439, the Labor-HEW Appropriations Act of 1977, prohibited the Department from using any funds appropriated under that Act to pay for abortions "except where the life of the mother would be endangered if the fetus were carried to term." The Department was enjoined by a Federal District Court from enforcing section 209 in October, 1976, prior to its implementation. The injunction was dissolved on August 4, 1977, and the Department published a notice, 42 FR 40486 (August 10, 1977), specifying the method by which it would implement section 209.

The notice provided that: "the Department will provide Federal financial participation in the cost of abortions only where the attending physician, on the basis of his or her professional judgment, has certified that the abortion is necessary because the life of the mother would be endangered if the fetus were carried to term."

In addition, the notice indicated that the conference report to section 209 made clear that that section did not bar Federal funding for medical procedures necessary for the termination of an ectopic pregnancy, for drugs and devices to prevent the implantation of the fertilized ovum and for prompt treatment before the fact of pregnancy is established for victims of rape or incest.

Congress did not enact an HEW appropriations act for fiscal year 1978 by October 1, 1977, the end of the 1977 fiscal year. Congress did, however, enact two temporary resolutions which continued funding for the Department through November 30, 1977. These resolutions continued the limitations on Federal funding of abortions set forth in section 209.

Finally, on December 7, 1977, Congress enacted Pub. L. 95-205, which the President signed on December 9, 1977, providing funding for the Department through September 30, 1978. The Secretary issued a statement on December 10, 1977, which essentially restated the provisions on Federal funding of abortions contained in the Act, and indicated that the Office of the General Counsel would be preparing regulations to enforce these limitations. The Department transmitted that statement to all State Medicaid agencies, HEW Regional Offices, Public Health Service Hospitals and grantees, and State medical associations.

INTRODUCTION

These regulations have been drafted to implement the determinations of Congress with respect to the availability of Federal funds to pay for abortions. Congress has expressed its will in a statute, Pub. L. 95-205, and the Department's primary task in preparing these regulations has been to interpret that statute to implement congressional intent.

In construing Pub. L. 95-205, the Department has accorded maximum weight to the statutory language, for as the Supreme Court has noted, it is a cardinal principle of statutory construction that "[t]here is, of course, no more persuasive evidence of the purpose of a statute than the words by which the legislature undertook to give expression to its wishes. Often these words are sufficient in and of themselves to determine the purpose of the legislation. In such cases we have followed their plain meaning." *United States v. American Trucking Ass'n*, 310 U.S. 534, 543 (1940).

Examination of statutory language focuses primarily on its plain meaning, and in determining that meaning, the Department has been guided by so-called "intrinsic aids," such as the structure of the statute and the inferences that may be drawn from the

normal usages of grammar and composition. Intrinsic aids are recognized as valuable tools of construction. In the words of the most authoritative treatise on statutory construction, "[t]he use of intrinsic aids, by concentrating attention on the text of the law, thus appears to be most directly related to the object of deciding according to what the statute may be generally understood to mean." 2A Sutherland, "Statutory Construction" §47.01 (Sands ed. 1973).

The Department has also thoroughly studied the legislative history of Pub. L. 95-205, which includes 10 different versions of the statute passed by either the Senate or the House and over 225 pages of congressional debate over 6 months.

Unfortunately, the reports of the House and Senate committees to which 1978 fiscal year appropriations bills were referred contain virtually no discussion of the issue of Federal funding of abortions. Also, because House and Senate conferees were never able to agree on the abortion issue, there is no conference report interpreting the statutory language. Thus, there is no official expression of the collective understanding of even one house of the Congress as to the meaning of this statute, and an interpretation of the legislative history must be based solely on the debates and the different versions of the statute. Although these debates serve as a valuable indication of congressional intent, they are at times inconsistent or inconclusive.

Nonetheless, the Department has sought to determine congressional intent with the greatest of care, using the traditional methods of statutory construction.

OPINION OF THE ATTORNEY GENERAL

The Department recognizes that the question of Federal funding of abortions is a matter of great concern to the American people.

The Department wishes to ensure that the regulations implementing section 101 are consistent with the will of Congress. Accordingly, on January 24, 1978, the Secretary, by letter, requested the Honorable Griffin B. Bell, Attorney General of the United States, to review the legal validity of these regulations. The Secretary's letter stated:

THE SECRETARY OF HEALTH, EDUCATION, AND WELFARE

WASHINGTON, D.C. 20201

JANUARY 24, 1978.

Hon. GRIFFIN B. BELL,

Attorney General, Department of Justice, Washington, D.C. 20530

DEAR MR. ATTORNEY GENERAL: As you are aware, Congress recently enacted Pub. L. 95-205, which provides for appropriations for the Department of Health, Education,

and Welfare through the 1978 fiscal year and which contains certain restrictions upon the use of appropriated funds to pay for abortions.

Section 101 of Pub. L. 95-205 provides, in part, that "none of the funds provided for in [the HEW-Labor continuing resolution] shall be used to perform abortions except where the life of the mother would be endangered if the fetus were carried to term; or except for such medical procedures necessary for the victims of rape or incest, when such rape or incest has been reported promptly to a law enforcement agency or public health service; or except in those instances where severe and long-lasting physical health damage to the mother would result if the pregnancy were carried to term when so determined by two physicians." In addition, section 101 provides that "[t]he Secretary shall promptly issue regulations and establish procedures to ensure that the provisions of this section are rigorously enforced."

Enclosed is a copy of our final draft of the regulations implementing this statutory requirement. I understand that our legal staff has provided your staff, during the past several weeks, with an explanation of our interpretation of principal issues. Our views as to the legal basis and purpose of these regulations are expressed in the accompanying preamble.

In light of the importance of these rules, I would appreciate your formal opinion as to whether these rules comply with the statute. In particular, I would appreciate your opinion on the following questions of interpretation:

1. Do the "medical procedures" authorized for the victims of rape or incest include abortion?
2. Does the statute require this Department to specify through regulations what constitutes a "report," and, if so, has Congress indicated its intent on this issue?
3. Does the definition of "law enforcement agency" in the regulations properly reflect congressional intent?
4. Does the definition of "public health service" in the regulations properly reflect congressional intent?
5. Is the implementation in the regulations of the requirement that reporting be "prompt" consistent with the intent of Congress?
6. Are the procedures specified in the regulations to implement the reporting requirement consistent with the intent of Congress?

Because of the urgent necessity to give guidance to state agencies administering the Medicaid program and Public Health Service hospitals and grantees, I would greatly appreciate a prompt response.

Thank you for your assistance.

Sincerely,

JOSEPH A. CALIFANO, JR.

Enclosure.

The Attorney General responded to that request by letter of January 26, 1978. The Attorney General's letter states:

OFFICE OF THE ATTORNEY GENERAL

WASHINGTON, D.C. 20530,

January 26, 1978.

Hon. JOSEPH A. CALIFANO, JR., Secretary of Health, Education, and Welfare, Washington, D.C.

MY DEAR MR. SECRETARY: You have asked for my opinion whether certain provisions

of your department's proposed regulations pertaining to federal funding of abortions with respect to victims of rape or incest are in conformity with the requirements of § 101 of Public Law No. 95-205, 91 Stat. 1461 (1977) (the "Act"), making further continuing Appropriations for fiscal year 1978, and for other purposes. Section 101 provides in part:

"[N]one of the funds provided for in this paragraph shall be used to perform abortions except where the life of the mother would be endangered if the fetus were carried to term; or except for such medical procedures necessary for the victims of rape or incest, when such rape or incest has been reported promptly to a law enforcement agency or public health service; or except in those instances where severe and long-lasting physical health damage to the mother would result if the pregnancy were carried to term when so determined by two physicians."

Nor are payments prohibited for drugs or devices to prevent implantation of the fertilized ovum, or for medical procedures necessary for the termination of an ectopic pregnancy.

The Secretary shall promptly issue regulations and establish procedures to insure that the provisions of this section are rigorously enforced.

You have asked in particular for my opinion with respect to a series of questions relating to the scope of various terms and language in § 101.

At the outset I believe that some general observations are in order. As a rule, administrative regulations properly promulgated under statutory authority are presumed valid. *Grubbs v. Bulz*, 514 F. 2d 1323 (D.C. Cir. 1975); *United States v. Boyd*, 491 F. 2d 1163 (9th Cir. 1973). In order to sustain that presumption, an administrative officer exercising rulemaking powers delegated to him by Congress must adhere to two basic requirements: he must adopt regulations which are both reasonable and consistent with the intention of Congress as expressed by the statute. *United States v. Larrison*, 431 U.S. 864 (1977); *Manhattan General Equipment Co. v. C.I.R.*, 297 U.S. 129 (1936). Within that framework, an administrative officer such as yourself has broad discretion.

The legislative intention with respect to abortion regulations implementing § 101 of the Act is, however, difficult to discern. For the most part, neither the language of the section nor its legislative history provides clear answers to the questions you raise. The provisions of § 101 had their origin in the proposed HEW Appropriations Act for 1978. The reports of the House and Senate Appropriations Committees on that proposed act contain no discussion of Federal funding of abortions. The reports of the Conference Committee are equally unenlightening, as the conferees were unable to reach agreement on the abortion funding provisions of the proposed act. The final version of § 101 was a product of compromise on the floor of both houses. Consequently, the floor debates provide the only source of Congressional intent other than the language of the statute itself. But, those debates are contradictory and inconclusive in many respects. They do reveal, however,

*The paragraph in question appropriates funds for your department for fiscal year 1978.

that Congress intended to leave many matters of interpretation concerning § 101 to the sound discretion of the Secretary, rather than attempt a more detailed statutory scheme. See, e.g., 123 Cong. Rec. H12651 (daily ed. Dec. 6, 1977) (remarks of Representative Michel); id. S19397-19398 (remarks of Senator Magnuson). After carefully reviewing the language of the section, the floor debates, and the views you express in the preamble to the proposed regulations, I conclude that the provisions of the regulations about which you have inquired are in conformity with both the language and intent of the section. I shall turn now to your specific questions.

ABORTIONS AS MEDICAL PROCEDURES NECESSARY FOR VICTIMS OF RAPE OR INCEST

Both the structure of § 101 and the available legislative history support my view that abortions are included in the phrase "medical procedures necessary for the victims of rape or incest." The section contains a broad prohibition against Federal funding of abortions followed by three exceptions. The second of those exceptions is for medical procedures in cases of rape or incest. The logical interpretation of the language of the paragraph is that Federal funding of abortions is permissible in the three circumstances enumerated. Moreover, if the exception for medical procedures in cases of rape or incest does not include abortions, the phrase would be surplusage. Immediately following the exceptions in the section is a new paragraph which describes non-abortion services for which Federal funding is available. Thus, there would be no reason to place an exception for medical procedures in the preceding language if such procedures did not include abortions. While it is possible to argue that by adding the term "medical procedures" to the exception covering victims of rape or incest Congress must have intended something other than abortions, that argument clearly runs counter to the thrust of the floor debates.

The Senate made it abundantly clear that it understood medical procedures to include abortions. In floor discussions which took place immediately before Senate passage of the Act, Senator Brooke, the ranking Republican conferee, asserted:

"I want to make it crystal clear, and I want to make it certain for the record, as to what was intended by the Senate and, as I understand, what was intended by the House by their vote—because no other change was referred to in that debate—is that we are talking about medical procedures being abortions. Cong. Rec. S19441 (Dec. 7, 1977)."

Senator Magnuson, the floor manager for the Senate conferees, unequivocally concurred in that understanding. Cong. Rec. S19441-19442 (Dec. 7, 1977).

The debates in the House of Representatives also indicate that the members of that body understood medical procedures to include abortions. See, e.g., Cong. Rec. H12488 (Nov. 29, 1977) (remarks of Representative Conte); Cong. Rec. H12772, H12774 (Dec. 7, 1977) (remarks of Representative Hyde). The sole suggestion to the contrary in the debates appears in a colloquy between Representatives Michel and Volkmer. In response to questioning, Representative Michel asserted that medical procedures in

*All references hereafter are to volume 123 of the daily edition of the Record.

cases of rape or incest did not include abortions. Cong. Rec. H12652 (Dec. 6, 1977). Both earlier and later in the debates, however, Representative Michel made statements implicitly contradicting that assertion. Cong. Rec. H12170 (Nov. 3, 1977); H12652 (Dec. 6, 1977). It is therefore my opinion that the phrase "medical procedures necessary for the victims of rape or incest" used in § 101 includes abortions.

REPORTS OF INCIDENTS OF RAPE OR INCEST

The legislative history offers little guidance in interpreting the requirement that victims of rape and incest "report" the incidents to a law enforcement agency or public health service. Congress did not specify the form or content of the report except to indicate that the victim need not herself be the reporter. See Cong. Rec. S19237 (Nov. 29, 1977) (remarks of Senator Brooke); Cong. Rec. H12653 (Dec. 6, 1977) (colloquy between Representatives Volkmer and Michel). The basic concern of Congress in adopting a reporting requirement was to prevent fraudulent claims. See, e.g., Cong. Rec. H12489 (remarks of Representative Bonker). In my view, the reporting requirement in § 449.105(b) of the proposed regulations adequately reflects that concern and is compatible with Congressional intent.

DEFINITION OF LAW ENFORCEMENT AGENCY

The limited discussion of the term "law enforcement agency" in the floor debates does not suggest that Congress intended to ascribe a special meaning to the term. Cong. Rec. H10830 (Oct. 12, 1977); Cong. Rec. S19237 (Nov. 29, 1977). Section 449.101(a) of the proposed regulations defines the term as "an agency, or any part thereof, charged under applicable law with enforcement of the general penal statutes of the United States, or of any State or local jurisdiction." This meaning appears to be within the common understanding of the term and its adoption is within the Secretary's discretion.

DEFINITION OF PUBLIC HEALTH SERVICE

Although the discussion of the term "public health service" in the floor debates is somewhat lengthier, the meaning intended for the term is nevertheless unclear. See, e.g., Cong. Rec. H12654 (Dec. 6, 1977) (remarks of Representative Flood). Section 449.101(d) of the proposed regulations provides the following definition:

"(1) an agency of the United States or of a State or local government, that provides health or medical services; and (2) a "rural health clinic", as defined under section 1(d)(aa)(2) of Pub. L. 95-210, 91 Stat. 1485, except that any agency or facility whose principal function is the performance of abortion is specifically excluded from this definition."

Since that definition can reasonably be accommodated within the statutory language, its adoption is within the Secretary's discretion.

REQUIREMENT OF PROMPT REPORTING

The requirement in § 101 that cases of rape and incest be "reported promptly" is open to differing interpretations. There was no agreement during the floor debates on the permissible time limits for making such reports. Proposals ranged from a few weeks to several months. See, e.g., Cong. Rec. S19397, S19398 (Dec. 6, 1977) (remarks of Senator Magnuson suggesting that a report

within 90 days would suffice); Cong. Rec. H12653 (statement of Representative Bonker that "prompt" is not as long as "3 or 4 or 5 weeks later"). Section 449.105 of the proposed regulations requires reports of cases of rape or incest "within 60 days of the incident." Since that requirement seems within the permissible meaning of the words "reported promptly" its adoption is within the Secretary's discretion.

PROCEDURES FOR IMPLEMENTING THE REPORTING REQUIREMENT

Section 449.106 of the proposed regulations specifies the procedure for enforcing the reporting requirement. It provides:

"Federal financial participation is unavailable in any expenditures for abortions or other medical procedures otherwise provided for under [the sections of the regulations] if the State agency has paid without first having received the certifications and documentations specified in those sections.

Neither the statute itself nor the legislative history indicates that Congress intended the Secretary to implement the reporting requirement in any particular manner. The only concern expressed was that the Secretary develop procedures to prevent fraudulent claims. See, e.g., Cong. Rec. H12652 (Dec. 6, 1977) (colloquy between Representatives Miller and Michel). In view of the absence of any congressional directive, it is my opinion that the method of implementing the reporting requirement in the proposed regulations is within the proper exercise of the Secretary's discretion.

In the final paragraph of § 101 Congress expressly directed the Secretary to promulgate regulations implementing its requirements. As the administrative officer charged with enforcement of the statute, the Secretary's construction of the section is entitled to great weight. The views expressed in his regulations need not be the only reasonable ones or the ones someone else might choose in order to be valid. *Udall v. Tallman* 380 U.S. 1 (1965). It is my opinion that the provisions of the proposed regulations discussed above are reasonable and consistent with the language and intent of the section, and that you are authorized to promulgate these regulations.

Yours sincerely,

GRIFFIN B. BELL,
Attorney General.

ANALYSIS

The following analysis explains the major issues covered by these regulations, including the requirements for Federal funding and the basis for each requirement.

GENERAL RULE

The regulations provide that Federal funds are not available to pay for abortions except in the three circumstances set forth in Pub. L. 95-205. The statute unequivocally provides that "none of the funds provided for in this paragraph shall be used to perform abortions except . . ." Since the prohibition on the use of funds is applicable to all of the Department's appropriated funds, the Department does not have statutory authority to fund any abortions other than those

specifically provided for under the following three exceptions set forth in this statute:

"where the life of the mother would be endangered if the fetus were carried to term;" "or except for such medical procedures necessary for the victims of rape or incest, when such rape or incest has been reported promptly to a law enforcement agency or public health service;"

"or except in those instances where severe and long-lasting physical health damage to the mother would result if the pregnancy were carried to term when so determined by two physicians."

1. LIFE OF THE MOTHER WOULD BE ENDANGERED

The regulations provide that Federal funds will be available for the cost of abortions "when a physician has found, and so certified in writing . . . that on the basis of his/her professional judgment, the life of mother would be endangered if the fetus were carried to term." This section of the regulations essentially restates the statutory language and leaves to a physician the determination of whether a particular condition presents a life endangering circumstance. There are two reasons for leaving the determination to the discretion of a doctor.

First, Congress apparently intended that, in the absence of fraud, the physician's judgment would be conclusive. The life endangering exception in Pub. L. 95-205 is identical to the statutory exception contained in section 209 of the fiscal year 1977 HEW appropriations act. In implementing that provision, the Department left to physicians the determination whether a particular condition presents a life endangering circumstance. The Congress, in enacting section 101, did not indicate any disapproval of this interpretation. In fact, all evidence is to the contrary, since, as is discussed below, Congress clearly indicated that it expected physician judgment, in the absence of fraud, to operate conclusively under the very similar exception for severe and long-lasting physical health damage. The failure of Congress to question the manner in which HEW had previously implemented this exception, and its reenactment without change, should be understood as indicating congressional approval of the Department's interpretation. See, e.g., *Cammarano v. United States*, 358 U.S. 498, 508-09 (1959).

Second, as a practical matter, it would be virtually impossible to specify every possible medical circumstance that could endanger the life of a pregnant woman. Rather, this medical determination must be made in each case by a physician familiar with the entire medical history of the patient as well as her current condition. The regulations do require a physician to certify in writing to the State agency, program or project that in his

or her professional judgment the life of the mother would be endangered if the fetus were carried to term. The State agency, program or project may not pay for the abortion until it has received this certification. The purpose of the certification requirement is not to enable the Department to question physician judgment, but rather to ensure that physician judgment has in fact been exercised. This is the most efficient manner by which a State agency or a program or project—or the Department in conducting audits or other enforcement reviews—may ascertain that the statutory requirements for a claim for Federal financial participation in an abortion have been met. As such, it will aid the Department in complying with the congressional directive for rigorous enforcement of these rules.

2. SEVERE AND LONG-LASTING PHYSICAL HEALTH DAMAGE

The regulations also provide for Federal funding of abortions "when two physicians have found, and so certified . . . that on the basis of their professional judgment, severe and long-lasting physical health damage to the mother would result if the pregnancy were carried to term." These requirements essentially follow the statutory language. The regulations do not attempt to list each circumstance that might fall within this exception. Rather, as with the life endangering exception, the regulation leaves this determination to the physician, since it would be impossible to list every medical circumstance which would result in severe and long-lasting physical health damage if the pregnancy were carried to term.

The record of the congressional debates in both houses of Congress supports this interpretation. In explaining to the Senate the exception regarding severe and long-lasting physical health damage, Senator Brooke, the ranking minority conferee and one of the chief proponents of Federal funding of abortions stated:

We know, when we are talking about severe and long-lasting physical health damage, that *that is something that will be determined by a physician, because he is the only one who can determine that.* We are not in a position to determine what a severe and long-lasting physical health damage might be. It would be different from case to case. That is a medical determination that must be made. 123 Cong. Rec. S19442 (daily ed. Dec. 7, 1977) (emphasis supplied).

In the House, Representatives Hyde and Bauman, two chief proponents of strict limitations on Federal funding of abortions, objected to a prior version of section 101 which contained an exception for severe and long-lasting harm identical to the one enacted except that it omitted the "two physician" requirement.

MR. HYDE: The long and short of it is, whatever is serious, whatever is long lasting, is up to the doctor to decide. It can be a migraine headache or it could be varicose veins; it could be any condition that, in the doctor's medical judgment, is serious and would be long lasting. 123 Cong. Rec. H12653 (daily ed. Dec. 6, 1977) (emphasis supplied); and

MR. BAUMAN: As to the mothers health exception, it would be left up to the judgment of the doctor. Id. at H12773 (daily ed. Dec. 7, 1977) (emphasis supplied).

Based on the foregoing, the Department concluded that Congress intended that the determination as to severe and long-lasting physical health damage should be made by physicians.

This section of the regulations also requires that two physicians certify in writing that severe and long-lasting physical health damage would occur if the fetus were carried to term. As with the life endangering exception, the State agency, or program or project may not pay for the abortion without first having received this certification. This requirement provides the most efficient method by which the Department can monitor these determinations and comply with the statutory directive for rigorous enforcement.

3. MEDICAL PROCEDURES PERFORMED UPON VICTIMS OF RAPE OR INCEST

This section implements the third exception specified in section 101—medical procedures for victims of rape or incest. The regulations provide that Federal funding is available for "medical procedures performed upon a victim of rape or incest" provided that certain reporting requirements, explained later in the preamble at 3 (b), (c) and (d), are met.

(a) *Medical procedures.* The term "medical procedures performed upon a victim of rape or incest" is defined by these regulations to encompass "any medical service," including an abortion, performed for the purpose of preventing or terminating a pregnancy arising out of an incident of rape or incest." The Department has concluded, after a thorough analysis of the statutory language and the applicable legislative history, that Congress intended that the "medical procedures" authorized for the victims of rape or incest would include abortions.

The statutory language. As indicated earlier, statutory language is by far the most persuasive evidence of legislative intent. The language of section 101 of Pub. L. 95-205 plainly means that Congress intended to fund abortions for the victims of rape or incest.

The word "service" is placed in the definition to indicate that the term does not include drugs or devices which prevent implantation of the fertilized ovum. Federal funding for drugs or devices is permitted under another paragraph of the statute discussed below.

The statute specifies that "none of the funds provided in this paragraph shall be used to perform abortions except . . . for such medical procedures necessary for the victims of rape or incest, . . ." (Emphasis added.) "Medical procedures necessary for the victims of rape or incest" are thus explicitly authorized as one of three enumerated exceptions to the ban on funding for abortions and unless these procedures include abortions, it would make no sense for Congress to authorize their funding as an exception to the general ban on funding for abortions.

Moreover, the structure of the rest of the statute supports this conclusion. The placement of "medical procedures" as the second phrase in a series of three exceptions to the ban on the use of appropriated funds for abortions stands in instructive contrast to the sentence which follows the paragraph describing those exceptions. That sentence nowhere refers to abortions, but instead merely notes that "[n]or are payments prohibited" for drugs or devices or "for medical procedures necessary for the termination of an ectopic pregnancy." These items, grouped together in a separate sentence, are clearly not abortions, but are merely matters related to pregnancies as to which Congress meant to indicate that the abortion ban did not extend.

Had Congress intended that "medical procedures" for victims of rape and incest not include abortions but solely something different, the logic of ordinary English usage would have required the placement of the reference to the victims of rape or incest in the second paragraph, rather than in the paragraph describing the exceptions to the ban on funding for abortions.

The conference report to section 209 of the 1977 Labor-HEW Appropriations Act stated:

It is the intent of the Conferees to limit the financing of abortions under the Medicaid program to instances where the performance of an abortion is deemed by a physician to be of medical necessity and to prohibit payment for abortions as a method of family planning, or for emotional or social convenience. It is not our intent to preclude payment for abortions when the life of the woman is clearly endangered, as in the case of multiple sclerosis or renal disease, if the pregnancy were carried to term. Nor is it the intent of the Conferees to prohibit medical procedures necessary for the termination of an ectopic pregnancy or for the treatment of rape or incest victims; nor is it intended to prohibit the use of drugs or devices to prevent implantation of the fertilized ovum. H. Rep. No. 1555, 94th Cong., 2d Sess. 3 (1976) (emphasis added).

Commenting on the conference report in an opinion dated July 27, 1977, and addressed to the Secretary, the Attorney General contrasted the first two sentences, which "use[d] the word 'abortion,' describing generally

those which may be funded and those which may not," with the last sentence, in which the word "abortion" nowhere appeared. Based on this juxtaposition, and based on the conference committee's rejection of a proposal to include rape and incest among the enumerated exceptions, the Attorney General concluded in his opinion of July 27, 1977, that Congress did not intend that "medical procedures" for victims of rape or incest in the fiscal year 1977 appropriations statute include abortions.

As Congress considered the abortion matter for the 1978 fiscal year, it was fully aware of the Attorney General's interpretation of the fiscal year 1977 statute and conference report. See 123 Cong. Rec. H10130 (daily ed. Sept. 27, 1977) (remarks of Representative Conte). In addition, early versions of the abortion funding restriction that passed the House did not refer to rape or incest in the "exception" sentence, while Senate drafts did. Compare, e.g., House and Senate versions of October 12, 1977. In light of this history, it is clear to the Department that Congress was acutely aware of the significance of placing the reference to medical procedures for victims of rape and incest in the series of exceptions to the general ban on funding of abortions rather than in a separate and distinct sentence.

Accordingly, the placement in section 101 of the exception for funding for medical procedures for the victims of rape and incest clearly supports the conclusion that the plain meaning of the statute is that the phrase "medical procedures" includes abortions.

Furthermore, unless "medical procedures" is construed to include abortions, the reporting requirements in the case of rape or incest are difficult to explain. The statute provides that funding for medical procedures is available for the victims of rape or incest only "when such rape or incest has been reported promptly to a law enforcement agency or public health service." The legislative history is quite clear that the primary purpose of the reporting requirements was to prevent Federal funding of abortions except in those circumstances specified by Congress. See, e.g., 123 Cong. Rec. H12489, H12491, (daily ed. Nov. 29, 1977) (remarks of Representatives Bonker, Bauman, and Michel). Treatment other than abortions for rape or incest victims had been funded under the fiscal year 1977 appropriations statute, and there is no mention in the records that Congress had any evidence before it concerning fraudulent procurement of these non-abortion procedures. There would thus seem to be no reason for subjecting the "medical procedures" in Pub. L. 95-205 to the reporting requirements unless they included abortions.

RULES AND REGULATIONS

The legislative history. While the Department believes that it is clear from the plain meaning and the structure of the statute that the authorized medical procedures for victims of rape or incest include abortions, the vast preponderance of the debates also indicates that Congress intended the term "medical procedures" to encompass abortions.

The intent of the Senate is unmistakable. Thus, a colloquy between Senator Brooke, the ranking minority conferee and ranking minority member of Senate Appropriations Committee, and Senator Magnuson, the Acting Chairman of the Senate Appropriations Committee and floor manager of the appropriations language, reads in pertinent part:

MR. BROOKE: I want to make it crystal clear, and I want to make it certain for the record, as to what was intended by the Senate and, as I understand, what was intended by the House by their vote—because no other change was referred to in that debate—is that we are talking about medical procedures being abortions.

There is no doubt in my mind that medical procedures are abortions. . . .

So, there are major changes now as to what poor, indigent women would be eligible for medical abortions. If the woman is a victim of rape or incest, she is eligible under the conditions of the reporting provision . . .

We fully intend medical procedures to include again, abortions. So long as the rape or incest has been reported to a law enforcement agency or to a public health service, the woman is clearly eligible for a publicly funded abortion.

Am I correct about our intent, that medical procedures do include abortion? Is that the chairman's understanding?

MR. MAGNUSON: That is correct. I think we should make it clear to the Secretary, Mr. Califano, that we mean that a woman who is a victim of rape or incest may have an abortion as long as she reports the incident, and he should issue regulations . . . that will carry out that intent . . . 123 Cong. Rec. S19441-42 (daily ed., Dec. 7, 1977).

In addition to these remarks, Senate debates on virtually identical versions of section 101 contain many other instances in which Senators indicated that "medical procedures" included abortions. See 123 Cong. Rec. S19237 (daily ed. Nov. 29, 1977); *id.* at S 19239; *id.* at S 18583 (daily ed. November 3, 1977); *id.* at S 18586. In fact, there is a total absence from the records of debate in the Senate of even a single instance in which a Senator expressed a contrary view.

Records of the House debate also indicate, with one exception, that members of that body understood the phrase "such medical procedures necessary for the victims of rape or incest" to include abortions.

The phrase "medical procedures necessary for the victims of rape or

incest" first appeared in the version of the statute considered and passed by the Senate on November 3, 1977. See 123 Cong. Rec. S18584 (daily ed. Nov. 3, 1977). This proposal was submitted to the House later that day, whereupon Representative Mahon, the Chairman of the House Committee on Appropriations, who had negotiated this phrase with the Senate conferees and who was its proponent before the House, was questioned as to its meaning:

MR. VOLKMER: Mr. Speaker, in the language it says "except for medical procedures necessary for the victims of rape or incest." Would the medical procedures necessary for the victims of rape or incest include abortions? Would they necessarily include abortions?

MR. MAHON: This language excludes abortions "except for medical procedures necessary for the victims of rape or incest." That language it seems to me is a little bit fuzzy and at the same time not too bad.

MR. VOLKMER: Is the gentleman telling the House that it would not include abortions?

MR. MAHON: It could possibly include abortions, but the regulations would have to be promulgated and rigorously enforced by the HEW. 123 Cong. Rec. H12169 (daily ed. Nov. 3, 1977) (emphasis supplied).

Although somewhat tentative, Chairman Mahon's statement is inconsistent with the view that "medical procedures" could under no circumstances include abortions. That this language was perceived as permitting abortions for the victims of rape or incest is further established by the remarks in opposition to the Senate proposal by Representative Michel, the ranking minority House conferee and ranking Republican on the HEW-Labor Subcommittee of the House Appropriations Committee:

The Senate language does not include the words "forced rape," and thus could be interpreted to allow abortions on demand in cases of statutory rape. 123 Cong. Rec. H12170 (daily ed. Nov. 3, 1977). *Contra*, 123 Cong. Rec. H12652 (daily ed. Dec. 6, 1977) (remarks of Representative Michel indicating his view that "medical procedures" did not include abortions).

For this and other reasons, the House on November 3 rejected the version proffered by the Senate.

From the time of the first Senate proposal including the phrase "medical procedures necessary for the victims of rape or incest" in the paragraph describing the exceptions to the general ban on Federal funding of abortions until its passage of the appropriations act, its opponents in the House objected to including the phrase in the exceptions paragraph in part because they thought it would permit the funding of abortions. For example, earlier on the same day on which the House ultimately approved Pub. L. 95-205, it rejected language that was identical to the statute as

passed except for the words "when so determined by two physicians" at the end of the first sentence. Opposing the inclusion of "medical procedures" in the exceptions paragraph, Representative Hyde, perhaps one of the most active Members of the House opposing Federal funding of abortions, stated:

The other body has removed "forced" from the definition of rape and thus opens medical abortions to any woman under the age of consent . . . 123 Cong. Rec. H12772 (daily ed. Dec. 7, 1977).

A week earlier, commenting on identical language, Representative Hyde stated:

In the rape of an 18-year-old girl or a 17-year-old girl, depending upon what the statutory age is in a given State, she would get her abortion. If she becomes pregnant, she gets an abortion. There is no requirement of force, or anything else. Statutory rape is covered. She gets an abortion. 123 Cong. Rec. H12489 (daily ed. Nov. 29, 1977).

Similar criticism of this language was offered by Representatives Conte and Mahon. See 123 Cong. Rec. H12487, H12488 (daily ed. Nov. 29, 1977).

The sole instance in the debates of a direct expression by a Member of Congress that the phrase "medical procedures necessary for the victims of rape or incest" did not include abortions occurred during a colloquy between Representatives Michel and Volkmer:

MR. VOLKMER: . . . In the first sentence or the first phrase the word "abortion" is used providing that none of the funds be used except where the life of the mother would be endangered.

Then we say "or except for such medical procedures . . ." and there we use the term "medical procedures"; we do not use the word "abortion"; and therefore, the word "abortion" is not included in "medical procedures"; is that correct?

MR. MICHEL: That is correct.

MR. VOLKMER: Is it the gentleman's intention in presenting this amendment to the House that the words "medical procedures" as used in here, and where reference obviously is made to them, does not include the word "abortion"; is that correct?

MR. MICHEL: Yes. 123 Cong. Rec. H12652 (daily ed. Dec. 6, 1977) (emphasis supplied).

Representative Michel's statement must be accorded due weight, given his leadership role in the abortion dispute, but it contradicts, not only his earlier statement concerning the identical language on November 3, quoted above, but also additional statements made by Representative Michel during the debate of December 6. Thus, when asked by another Member to comment on the prompt reporting aspect of the rape or incest exception, Representative Michel stated:

Yes. At least in this gentleman's mind it certainly does, and of course that prompt

treatment is pretty much available today almost any place in the country. But "prompt" leaves itself open to a number of days. But let us face it. Pregnancy is a fact which cannot obviously be known until the raped victim has missed her first period. So it seems to me that "prompt" embraces a period that is at least in the 30-day range and still would be acceptable as prompt treatment and prompt reporting. 123 Cong. Rec. H12652 (daily ed. Dec. 6, 1977).

By making this statement, Representative Michel indicated that he would have permitted the performance of "medical procedures" after the fact of pregnancy is established. But it is precisely whether the fact of pregnancy has been established that distinguishes certain forms of treatment from abortions.

Given these differing statements, the record is unclear whether, in Representative Michel's view, "medical procedures" includes abortion. Even assuming, however, that Representative Michel was consistent throughout in his view that "medical procedures" did not include abortions, that view is insufficient to overcome the plain meaning of the statute, the unequivocal expression of intent by the Senate, and the remaining debate in the House.

For the foregoing reasons, the Department has concluded that Congress intended to permit the funding of abortions for the victims of rape or incest.

It should be noted that since Congress considered but dropped proposals that would have limited the availability of abortions to victims of "forced" rape, it is clear that Congress intended that funding would be available for abortions for the victims of statutory rape. See, e.g., 123 Cong. Rec. H12772 (daily ed. Dec. 7, 1977) (remarks of Representative Hyde).

Finally, the phrase "medical procedures performed upon a victim of rape or incest" does not encompass the use of drugs or devices to prevent the implantation of the fertilized ovum. (See 123 Cong. Rec. S19442 (daily ed. Dec. 7, 1977), and medical procedures necessary for the termination of an ectopic pregnancy. The statute explicitly provides . . . nor are payments prohibited (for those procedures)" (emphasis supplied), in a sentence separate from and following the one providing for the general prohibition against Federal funding of abortions and the exceptions thereto. These items are not

²After the law was passed by Congress and signed by the President, Members of both houses of Congress wrote the Department expressing their varying interpretations of the meaning of several statutory terms. It is well settled that such post-enactment expressions may not be considered as probative evidence of legislative intent. Cf. *Waterman S. S. Corp. v. United States*, 381 U.S. 252, 268-9 (1965), 2A Sutherland, Statutory Construction § 48.16 (Sands ed. 1973).

RULES AND REGULATIONS

abortions. Accordingly, a separate subsection of the regulations provides for Federal funding of these procedures.

Finally, it should be noted that a victim of rape or incest may obtain an abortion under the other two exceptions to the general funding ban without reporting the incident to a law enforcement agency or public health service.

(b) *Report to a law enforcement agency or public health service.* The regulations effectuate the statutory requirement that an incident of rape of incest must be reported to a law enforcement agency or to a public health service for Federal funding to be provided for an abortion under this exception. Federal funds will be made available only where the State agency, program or project has received, prior to payment for the abortion, signed documentation from a law enforcement agency or public health service certifying that the person upon whom the abortion was performed was reported, within the time period specified by the regulations, to have been a victim of rape of incest. These requirements are explained in greater detail below.

(i) *Who must report.* The incident of rape or incest need not be reported by the victim herself. The Department has concluded that Congress intended that anyone may report on behalf of the victim. First, the words of the statute allow for Federal funding of "medical procedures . . . when such rape or incest has been reported promptly to a law enforcement agency or public health service." Thus, the statute does not specify that the victim must report the incident of rape or incest.

Second, the congressional debates demonstrate that the ranking minority conferees of both Houses of Congress agreed that third parties could make the report. Senator Brooke stated:

Our language does not say who must make the report to the law enforcement agency or public health service or its equivalent. It is our intent that the report may be made by third parties, such as doctors, attorneys including, but not limited to legal services lawyers, rape center counselors, welfare agencies, poverty agencies or family members or relatives. Our only requirement here is that someone or some organization make the report to relevant authorities cited in the provision. 123 Cong. Rec. S19237 (daily ed. Nov. 29, 1977). See also 123 Cong. Rec. S19397 (daily ed. Dec. 6, 1977).

Similarly, Representative Michel engaged in the following colloquy with Representative Volkmer:

MR. VOLKMER: . . . As I read the amendment of the gentleman, I do not find any requirement in it that the young lady herself makes that report. I just find it needs to be reported, which to me, and tell me if this is right or not, it could be reported by anyone. It could be reported by a private family planning agency. It could be reported by a father, mother, sister, brother, friend, or anyone else, as I read the amendment; is that correct, first?

MR. MICHEL: Well, there is a significant stigma, no matter who reports it. If a raped victim is singled out by name and address, and I do not care who reports it, there has to be some stigma attached to that.

MR. VOLKMER: The language says only reported; it does not say by whom.

MR. MICHEL: No, it does not.

MR. VOLKMER: It could be anyone.

MR. MICHEL: The Department of HEW may want to tie this down by rules, that could be done.

MR. VOLKMER: . . . what is the gentleman's intention in that regard?

MR. MICHEL: I would not be one to force that particular victim as an individual to report. 123 Cong. Rec. H12653 (daily ed. Dec. 6, 1977).

(ii) *Law enforcement agency.* With respect to the meaning of law enforcement agency, the Congressional Record consists of statements of two members of Congress who described a law enforcement agency in the following manner:

MR. McCLORY: . . . the proper authorities . . . 123 Cong. Rec. H10830 (daily ed. Oct. 12, 1977);

MR. BROOKE: . . . [O]bviously a law enforcement agency includes the police—State, county or city. But it is not exclusively these organizations. Since we are dealing with women who are victims of attack, we do not want to pile trauma upon tragedy by forcing them to go through a process that is more geared to criminals than to people who deserve our greatest sympathy. If, for example, there is a human relations division within a police department, the report could be made through such an office. A police chaplain's office could be assigned the job of receiving reports. 123 Cong. Rec. S19237 (daily ed. Nov. 29, 1977).

In light of the clear language in the statute and the foregoing statements, the regulations define "law enforcement agency," as "an agency, or any part thereof, charged under applicable law with enforcement of the general penal statutes of the United States, or of any State or local jurisdiction." The reference to "any part thereof" is to make it clear that the report may be given to a rape crisis center or chaplain's office which is part of or administered by a law enforcement agency. The reference to "general penal statutes" is intended to preclude reporting to a specialized law enforcement agency such as the Drug Enforcement Administration, Secret Service, or their State or local equivalents.

(iii) *Public Health Service.* The regulations define "public health service" primarily as "an agency of the United States or of a State or local government, that provides health or medical services . . ." The Department believes that this definition most closely comports with the intent of Congress; however, the Department acknowledges that what Congress meant by "public health service" is not entirely clear. The range of possibilities was

suggested by one Congressman as follows:

What in the world is that? Most Members know of an organization called the U.S. Public Health Service. Is that what is meant by this amendment? I cannot find out. Or does it mean that one could have a conversation with the public health nurse next door? . . . The language of this amendment is wide open to interpretation. It could mean anything you want it to mean. 123 Cong. Rec. H12654 (daily ed. Dec. 6, 1977) (remarks of Representative Flood).

The text of the statute offers substantial, although not conclusive, evidence that Congress intended that reporting be restricted to governmental entities. First, the phrase "public health service" is used along with "law enforcement agency," and it is a general rule of statutory construction that "the meaning of doubtful words may be determined by reference to their association with other associated words and phrases." 2A Sutherland, "Statutory Construction" §47.16 (Sands ed. 1973). Law enforcement agencies are by definition governmental entities, and the close association of the two statutory phrases suggests that Congress intended "public health service" to have a similar meaning. In addition, the close similarity of the statutory phrase with the United States Public Health Service suggests that Congress intended to limit reporting to the Public Health Service, its State and local analogues, and other governmental entities.

The legislative history with respect to this phrase is brief and inconclusive. Only two statements in the Senate shed any light on its meaning. The first, by Senator Brooke, describes the meaning of the term "a public health service or its equivalent" when that language was under consideration by the Senate:

We also want to tell HEW what we mean by a "public health service or its equivalent." A public health service is one that serves the public in the immediate local area, or over a wider region. It could be a Government service and in many areas likely would be. But where such Government service does not exist, we intend that the private sector equivalent of such service would be eligible to receive the relevant report. Thus, in addition to services funded from public moneys we also would include services funded by a combination of public and private moneys, or even moneys totally from the private sector, if that is the best "equivalent" that can be found.

Thus, authorized recipients of reports would include, but not be limited to, family planning organizations, health maintenance organizations, rape crisis centers, health and counseling centers run by local charitable organizations, special phone-in counseling services, or any kind of neighborhood or other health or counseling center for people with problems. 123 Cong. Rec. S19237 (daily ed. Nov. 29, 1977)

It should be emphasized that these statements were made in the context

of a proposed version of the statute containing the phrase "a public health service or its equivalent." Significantly, the phrase "or its equivalent" was ultimately deleted. The critical passage in Senator Brooke's statement thus is: "[b]ut where such Government service does not exist, we intend that the private sector equivalent of such service would be eligible to receive the relevant report." (Emphasis supplied.) With the deletion of the phrase "or its equivalent," the most reasonable inference would seem to be that the Senate intended that only governmental entities would be eligible to receive reports from the victims of rape or incest.

Discussion in the House as to the meaning of "public health service" tended to focus on the desire that the term not be so broad as to include abortion clinics. On November 29, 1977, Representative Michel in a colloquy with Representative Bauman indicated that medicare-financed abortion clinics should be excluded:

MR. BAUMAN: Mr. Speaker, if the gentleman will yield further, anyone can see the obvious conflict that exists in a medicare-financed abortion clinic, which makes most of its money from performing abortions, having the right to certify that these pregnancies were a result of rape or incest. Obviously, it would be almost an automatic act by people who have a patent conflict of interest and wish to perform the abortion and be paid. That certainly should not be the intent of the conferees.

MR. MICHEL: No, it should not. I would sincerely hope that they would be getting the message downtown and that lines would be drawn accordingly. 123 Cong. Rec. H12491 (daily ed. Nov. 29, 1977).

The only additional House legislative history of any significance on the issue of what constitutes a public health service consists of the following colloquy between Representatives Volkmer and Michel:

MR. VOLKMER: That is, what is a public health service? What does the gentleman mean by a public health service? Does that include family planning centers and others that could be referred to?

MR. MICHEL: In my judgment, it is every public health center that is funded to any degree by Federal funds.

MR. VOLKMER: To any degree by Federal funds?

MR. MICHEL: Yes.

MR. VOLKMER: What about State and local funds?

MR. MICHEL: I am talking about federally funded centers. The gentleman and I well know that in Cook County or Peoria County today they are taking care of situations that we are prohibiting here, but they feel a need locally to do it and if there are no Federal funds, I have no voice in it. I am not about to eliminate or restrict what they are doing.

MR. VOLKMER: But the receivers of the report can only be public health services that are partially or fully funded by the Federal Government?

MR. MICHEL: Yes, sir. 123 Cong. Rec. H12653 (daily ed. Dec. 6, 1977).

As this brief review of the legislative history indicates, what Congress meant by the term "public health service" is not entirely clear. Only two possibilities have any support in the legislative history—a definition limited to governmental entities or a definition limited to Federally funded entities. The language of the statute and the deletion of the phrase "or its equivalent" led the Department to conclude that Congress intended to entrust the reception of reports from the victims of rape or incest, an integral part of a statutory requirement intended to deter fraud, only to those agencies ultimately accountable to the political process. Accordingly, the definition of "public health service" in these regulations is restricted primarily to governmental entities that provide health services. These may include health department offices, public hospitals and clinics and facilities operated by the Public Health Service.

This definition also encompassed quasi-public corporations or authorities, such as the New York City Health and Hospital Corporation, that provide general medical services pursuant to a delegation of governmental authority by a State or local government or through a multi-jurisdiction compact.

The Department recognizes that in certain rural areas no appropriate governmental agency or facility may be available. In order to insure that a responsible entity will be accessible for purposes of receiving the required report, the definition includes rural health clinics, a term defined in recently enacted Pub. L. 95-210, 91 Stat. 1485, to mean Federally funded clinics in certain medically underserved rural areas.

The Department believes that this definition of "public health service" will not prevent necessary reporting. Since reporting need not be done in person by the victim, communication by mail to a law enforcement agency or public health service from a health facility where a rape or incest victim went for medical help should prevent any problems of inaccessibility.

Finally, because of several clear expressions in the congressional debates that abortion clinics cannot be considered proper facilities to receive reports of rape or incest, the definition of "public health service" specifically excludes any facility whose principal function is the performance of abortions. The Department believes that permitting reporting to abortion clinics would be inconsistent with the concept of rigorous enforcement.

(c) The requirement that rape or incest be "promptly" reported. Section 101 provides that Federal funding is available for "such medical procedures necessary for the victims of rape or

incest, when such rape or incest has been reported promptly . . ." (Emphasis supplied.) To implement this requirement, the regulations provide that the report must be filed within 60 days of the incident of incest or rape. The 60-day period is consistent with congressional intent and was arrived at by balancing the competing interest of providing sufficient time to permit victims of rape or incest to make reasoned decisions as to how and whether to report these incidents, with the necessity to protect against fraudulent reporting. Thus, in explaining this requirement, one Congressman commented:

The intent is to insure that innocent victims of rape will receive treatment with a minimum of difficulty, but that sufficient steps have been taken by the victims to demonstrate the fact of the rape. 123 Cong. Rec. H12489 (daily ed., Nov. 29, 1977) (remarks of Representative Bonker).

The records of the debates in Congress indicate that Congress was aware of both policies that are balanced in these regulations, but that the members had conflicting views as to what would constitute prompt reporting, varying from as little as two or three weeks, to 60 to 90 days, to "months."

In the Senate, Senators Magnuson, Brooke and Metzenbaum, engaged in the following colloquy:

MR. BROOKE: In addition, we also include the word "promptly," to provide that any reporting must be prompt. By this we do not mean hours; we mean a much longer period of time that is reasonable yet humane . . .

MR. METZENBAUM: In yielding to the House with respect to putting in the word "promptly," it seems to me that it opens the door to a wide variety of interpretations . . .

MR. METZENBAUM: Does the Senator from Massachusetts, therefore, interpret the word "promptly" to mean a number of weeks and possibly months after the traumatic experience has occurred, rather than a requirement to get on the telephone immediately after that kind of occurrence? I believe it does have relevance, and I would appreciate to some elaboration on the subject from the Senator from Massachusetts.

MR. BROOKE: Mr. President, I agree with the Senator from Ohio that the word "promptly" is subject to interpretation.

As I view it, "promptly" would mean a reasonable and humane period of time in which the rape or incest would be reported to a law enforcement agency or to a public health service; it might be reported by a parent or someone in behalf of that victim of rape or incest, or it could be reported by the victim.

We may be talking about children. As the distinguished Senator from Ohio well knows, it is a matter that concerns me deeply and concerns him and others deeply. We may be talking about young children, so we may be talking about the reporting of

the parent, where the child cannot be in a position to make that report promptly. It is not a question of hours, as I see it, but maybe days, weeks—a reasonable and humane period of time, whatever that may be considered.

MR. METZENBAUM: Possibly weeks and months.

MR. BROOKE: It could be, yes.

MR. MAGNUSON: I would not suggest that they wait months. As with any piece of legislation, you cannot spell out the time. We probably could say within 90 days or within 60 days or within the first part of the pregnancy. But we have to leave it up to the Department to make what we hope will be reasonable regulations to carry out what the word "promptly" means.

In reverse, I think it means that you cannot wait and wait and wait and all of a sudden show up some place and say, "I was raped," or, "Incest took place." You would have to do it within a reasonable time, with respect to the Department.

In this amendment, we go even further. We say:

The Secretary shall promptly issue regulations and establish procedures to ensure that the provisions of this section are rigorously enforced.

I think that would mean that they would interpret the word "promptly" not to apply to any length of time, but that it should be done, say, in 90 days, or say that was the middle figure, that it be before that time, not "promptly" after a long period of time. I am sure that is the way the regulations would read.

MR. BROOKE: I think a reasonable and humane period of time would be a fair period of time. I think there might be extenuating circumstances in certain cases which should be taken into consideration.

MR. MAGNUSON: Each case has to be taken into consideration.

MR. BROOKE: I can conceive of a case where there is an extenuating circumstance such as requiring a longer period of time, say, than the normal case. So I think that would be the intent of the language.

MR. METZENBAUM: I appreciate the assurances of the distinguished Senator from Massachusetts and the distinguished Senator from Washington that "promptly" in this sense in this legislation does not mean "promptly" as we normally think of it such as when we expect the Secretary of HEW to act promptly in issuing regulations. That is a different kind of promptness than that which we expect under these circumstances.

MR. BROOKE: I agree.

MR. MAGNUSON: I hope this will set an example for other regulations they have to issue down there. 123 Cong. Rec. S19397-98 (daily ed. Dec. 6, 1977). See also id. at S 19442 (daily ed. December 7, 1977).

A somewhat more restrictive view

had been stated by Senator Helms when he earlier had unsuccessfully introduced an amendment that would have required prompt reporting:

The word "promptly" before the word "reported" will eliminate the possibility that 2 or 3 months after the fact a supposed victim would claim to have been raped when, as a matter of fact, she had not. 123 Cong. Rec. S19238 (daily ed. Nov. 29, 1977).

The prevailing view in the House

was closer to that of Senator Helms. One representative, referring to the Senate colloquy on the meaning of

promptly, expressed apprehension that the Senate might consider the term to encompass months.

MR. BAUMAN: Then they [the Senators quoted above] went on to explain in their view months could pass and still lead to prompt reporting. In other words, this is a very large loophole, and this debate in the Senate could support a complete reversal of the attitude of the House when we desired a prompt reporting of when the rape occurred. Read what the Senate said. 123 Cong. Rec. H12772 (daily ed. Dec. 7, 1977).

In response to that remark, Representative Mahon related his belief that prompt was shorter than "months" and meant "reasonably quick."

MR. MAHON: Regardless of what may have been said by any Member of the other body and by any Member of this body, in plain English "prompt" means reasonably quick. It does not mean months, regardless of what anybody may have said. I do not accept everything I read in the Congressional Record. I know what the word "promptly" means, and I know that Mr. Califano, the Secretary of HEW, is a man of integrity, and he is required under the language in this proposal to promptly issue regulations to rigorously enforce the import of the resolution. So I would not be concerned about that matter. Id.

However, even after the Chairman's assurance to the contrary, Representative Bauman reiterated his fears that "prompt" could be interpreted to mean months after the occurrence of the rape:

. . . With the inclusion of the broadly interpreted "prompt reporting" months after the occurrence as the Members of the other body readily interpret it—and legislative history does play a part—we have another estimate. Id. at H 12773.

On the previous day, Representative Michel provided his view on the meaning of prompt reporting:

But "prompt" leaves itself open to a number of days. But let us face it. Pregnancy is a fact which cannot obviously be known until the raped victim has missed her first period. So it seems to me that "prompt" embraces a period that is at least in the 30-day range and still would be acceptable as prompt treatment and prompt reporting. 123 Cong. Rec. H12652 (daily ed. Dec. 6, 1977).

The significance of this comment is that it indicates this Member's belief that "prompt" encompasses at least a sufficiently lengthy period of time so as to permit the victim to know whether or not she is pregnant.

The only additional explanation of the meaning of "prompt" was a comment by Representative Bonker, on December 6, 1977 that:

It has to be reported promptly and that does not mean it can be done 3 or 4 or 5 weeks later and reported and thus qualify for a medicare abortion. Id. at H12653 (daily ed. Dec. 6, 1977).

In the face of these sharply conflicting expressions of Congress, the De-

partment believes that a 60-day reporting period is within the middle range of the various time limits mentioned in the debates. More importantly, the Department believes that a 60-day reporting period accommodates both basic policies, of permitting access by eligible individuals while discouraging fraud, advanced in support of the promptness requirement.

(d) *The procedure for prompt reporting.* There is virtually no evidence as to what procedures Congress envisioned should be followed to implement the reporting requirements for the victims of rape or incest. The Department, in the absence of congressional guidance in formulating these requirements, has attempted to balance concerns for individual privacy with the statutory mandate that the Secretary shall "establish procedures to insure that the provisions of this section are rigorously enforced." The regulations require only that information necessary to confirm the fact that an incident of rape or incest has been reported to a law enforcement agency or public health service, be provided.

The regulations provide that Federal financial participation is available for medical procedures performed upon a victim of rape or incest if the appropriate State agency or program or project has received signed documentation from a law enforcement agency or public health service. The documentation must state that the person upon whom the medical procedure was performed was reported, within 60 days of the incident, to have been the victim of rape or incest and that the report included the name, address and signature of the person who reported the incident.

The regulations do not specify the manner in which reporting must be accomplished and do not require the reporting of any details concerning the underlying incident other than the name of the victim. However, it should be noted that the regulations require an official of the agency or service that received the report to certify in writing to the fact of prompt reporting. This may be done, for example, by inclusion in the certification of a statement that the rape or incest was promptly reported as required by the regulations or by a recitation of the date of the report to the law enforcement agency or public health service and the date of the incident of rape or incest.

In order to implement the requirement of rigorous enforcement, the regulations require that the relevant documentation must be received by the applicable State agency, program or project prior to payment to the provider of the abortion. In other words, no Federal funds may be expended for an abortion until the State agency, program or project has on hand the

requisite documentation. Providers, however, may perform abortions prior to the receipt of such documentation, but they do so at the risk of not receiving Federal reimbursement should such documentation subsequently not be forthcoming.

In addition, it must be noted that any person who knowingly submits a falsified claim for Federal funds, or who aids or abets in the submission of a falsified claim, may be subject to prosecution under section 1909(a) of the Social Security Act or another applicable provision of law.

4. RETENTION OF RECORDS

The regulations also require that the State agency, or the program or project maintain copies of all requisite documentation and certifications for the three year period specified in the maintenance of record requirements at 45 CFR 74.20. These records must be retained to facilitate audits and other enforcement reviews. However, in order to safeguard personal privacy, these records are subject to the safeguarding requirements specified in 45 CFR 205.50.

WAIVER OF PROPOSED REGULATIONS

Section 102 of Pub. L. 95-205 specifies that the statute governs the Department's appropriations effective as of December 1, 1977. Section 101 of that Act places specific limitations upon those abortions for which Federal funds are available. Accordingly, it is critical that States and other grantees be made aware of the instances in which Federal funding will be available as soon as possible. Moreover, Congress has dictated that these regulations must be issued promptly to enforce rigorously these limitations. For this reason, the Department has determined that there is good cause to waive notice and opportunity for public comment prior to issuing these regulations in final form, and to waive the normal requirement that 30 days elapse between publication of the regulations and effective date. However, comments will be received, as noted earlier, with the possibility of modifying the regulations in response to those comments.

EFFECTIVE DATE

These regulations will be effective February 14, 1978. The Department understands that a reasonable amount of time is necessary to make adjustments to comply with the reporting and record keeping procedures. The Department, however, believes that this can be done in substantially less time than the normal 30 days, given the minimal nature of the requirements imposed upon States and other grantees. The Department has concluded that a 12 day lead time is sufficient.

Part 449 is amended by adding a new Subpart A after § 449.82 to read as set forth below:

Subpart A—Federal Financial Participation in State Claims for Abortions

- 449.100 Applicability.
- 449.101 Definitions.
- 449.102 General rule.
- 449.103 Life of the mother would be endangered.
- 449.104 Severe and long-lasting damage to physical health.
- 449.105 Rape and incest.
- 449.106 Documentation needed by State agency.
- 449.107 Drugs and devices and termination of ectopic pregnancies.
- 449.108 Record keeping requirements.
- 449.109 Safeguarding requirements.

AUTHORITY: Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302); sec. 101 of Pub. L. 95-205, 91 Stat. 1461, December 9, 1977.

Subpart A—Federal Financial Participation in State Claims for Abortions

§ 449.100 Applicability.

This subpart applies to programs administered under Title XIX of the Social Security Act.

§ 449.101 Definitions.

As used in this Subpart:

(a) "Law enforcement agency" means an agency, or any part thereof, charged under applicable law with enforcement of the general penal statutes of the United States, or of any State or local jurisdiction.

(b) "Medical procedures performed upon a victim of rape or incest" means any medical service, including an abortion, performed for the purpose of preventing or terminating a pregnancy arising out of an incident of rape or incest.

(c) "Physician" means a doctor of medicine or osteopathy legally authorized to practice medicine and surgery by the State in which he or she practices.

(d) "Public health service" means: (1) An agency of the United States or of a State or local government, that provides health or medical services; and

(2) A "rural health clinic," as defined under section 1(d)(aa)(2) of Pub. L. 95-210, 91 Stat. 1485, except that any agency or facility whose principal function is the performance of abortions is specifically excluded from this definition.

(e) "State" means each of the fifty States of the United States, the District of Columbia, Guam, the Virgin Islands, Puerto Rico, and the Northern Mariana Islands.

§ 449.102 General rule.

Federal financial participation is not available in expenditures for an abortion except under circumstances described in §§ 449.103, 449.104, or § 449.105.

§ 449.103 Life of the mother would be endangered.

Federal financial participation is available in expenditures for an abortion when a physician has found, and so certified in writing to the applicable State agency, that on the basis of his/her professional judgment, the life of the mother would be endangered if the fetus were carried to term.

§ 449.104 Severe and long-lasting damage to physical health.

Federal financial participation is available in expenditures for an abortion when two physicians have found, and so certified in writing to the applicable State agency, that on the basis of their professional judgment, severe and long-lasting physical health damage to the mother would result if the pregnancy were carried to term.

§ 449.105 Rape and incest.

Federal financial participation is available in expenditures for medical procedures performed upon a victim of rape or incest if the State agency has received signed documentation from a law enforcement agency or public health service stating that: (a) The person upon whom the medical procedure was performed was reported, within 60 days of the incident, to have been the victim of an incident of rape or incest; and (b) the report included the name, address and signature of the person who reported the rape or incest. Federal financial participation is also available in expenditures for abortions for victims of rape or incest under the circumstances described in §§ 449.103 and 449.104 without regard to the requirements of the preceding sentence.

§ 449.106 Documentation needed by the State agency.

Federal financial participation is unavailable in any expenditures for abortions or other medical procedures otherwise provided for under §§ 449.103, 449.104, and 449.105 if the State agency has paid without first having received the certifications and documentation specified in those sections.

§ 449.107 Drugs and devices and termination of ectopic pregnancies.

Federal financial participation is available in expenditures for drugs or devices to prevent implantation of the fertilized ovum, and for medical procedures necessary for the termination of an ectopic pregnancy.

§ 449.108 Record keeping requirements.

State agencies must maintain copies of the certifications and documentation specified in §§ 449.103, 449.104 and 449.105 for 3 years pursuant to the retention and custodial requirements for records at 45 CFR 74.20 *et seq.*

§ 449.109 Safeguarding requirements.

State agencies must safeguard against improper disclosure of information contained in the certifications and documentation described in §§ 449.103, 449.104, and 449.105 pursuant to the requirements at 45 CFR 205.50(b).

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS); DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 228—SOCIAL SERVICES PROGRAMS FOR INDIVIDUALS AND FAMILIES: TITLE XX OF THE SOCIAL SECURITY ACT

Federal Financial Participation in State Claims for Abortions

AGENCY: Administration for Public Services (APS), Office for Human Development Services (OHDS), Department of Health, Education, and Welfare.

ACTION: Final rules.

SUMMARY: Department is promulgating new rules to govern Federal financial participation in expenditures for abortions funded through various HEW programs. Three parallel sets of regulations are being promulgated. One set will apply to programs administered under title XIX of the Social Security Act, another to programs administered under title XX of that Act, and the third to programs and projects supported with funds appropriated to the Department of Health, Education, and Welfare and administered by the Public Health Service. These rules are necessary as a result of the enactment of Pub. L. 95-205. That statute imposes strict limitations upon Federal funding of abortions and requires that the Secretary "promptly issue regulations and establish procedures to ensure that [the statute is] rigorously enforced." These regulations respond to that statutory directive and specify when Federal funds may be used to pay for abortions.

EFFECTIVE DATE: These regulations will be effective February 14, 1978. As explained in the preamble to

42 CFR Part 449 appearing in this issue at p. 4571 in providing Federal financial participation prior to the effective date of these regulations, the Department will accept any reasonable interpretation of the statutory provisions implemented by these regulations.

Notice of Proposed Rulemaking and a delayed effective date of 30 days have been waived because of the compelling need to provide immediate direction to States and Federal grantees as to those abortions which the Department will fund with its appropriations for fiscal year 1978, and to follow the dictates of Congress that the Department promptly issue regulations. Nevertheless, written comments or suggestions received on or before March 20, 1978, will be considered with a view to revising these regulations, and will be responded to by further publication in the FEDERAL REGISTER no later than May 3, 1978.

In commenting please refer to APS-3. Agencies and organizations are requested to submit comments in duplicate. Comments will be available for public inspection beginning approximately 2 weeks after publication, in Room 2225 of the Department's offices at 330 C Street SW., Washington, D.C., on Monday through Friday of each week from 8:30 a.m. to 5 p.m., 202-245-9415.

ADDRESS: Address comments to: Commissioner, Administration for Public Services, Department of Health, Education, and Welfare, P.O. Box 1923, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT:

Mrs. Johnnie U. Brooks, Room 2225, Switzer Building, 330 C Street SW., Washington, D.C. 20201, 202-245-9415.

SUPPLEMENTARY INFORMATION: For a preamble statement, which is being issued jointly by the Administration for Public Services of the Office of Human Development Services, the Public Health Service, and the Health Care Financing Administration, concerning conditions governing Federal funding of abortions, see 42 CFR Part 449 appearing in this issue at page 4571.

45 CFR 228 is revised as follows:

1. The Table of Contents for Subpart I is revised as follows:

Subpart I—General Provisions

- Sec. 228.90 Expenditures for which Federal financial participation is available.
- 228.91 Expenditures for which Federal financial participation is not available.
- 228.92 Federal Financial Participation in State Claims for Abortions.

AUTHORITY: Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302); and Sec. 101, Pub. L. 95-205, 91 Stat. 1461, December 9, 1977.

2. Subpart I is revised to add a new § 228.92 as follows:

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The Federal Register provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The Federal Register will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the Federal Register.

Title 3—The President

PROCLAMATION 4549

Save Your Vision Week, 1978

By the President of the United States of America

A Proclamation

Good vision is too important to be left to chance. Most of what we learn and do depends upon how well we can see. As one of our most valuable possessions, sight deserves our care and protection.

By learning the early warning signs of eye disease, practicing eye safety, and having regular eye examinations, we can prevent some of the most common forms of visual impairment and blindness. Many eye disorders can be corrected or alleviated with prompt professional care. By wearing protective eyeglasses or safety goggles in potentially hazardous situations on the job or at home, we can prevent many eye injuries. Regular eye examinations may also detect early signs of other serious health problems, such as diabetes or high blood pressure, long before symptoms appear.

To increase awareness of the importance of good vision and of ways to protect it, the Congress, by joint resolution approved December 30, 1963 (77 Stat. 629, 36 U.S.C. 169a), has requested the President to proclaim the first week of March of each year as Save Your Vision Week.

NOW, THEREFORE, I, JIMMY CARTER, President of the United States of America, do hereby designate the week beginning March 5, 1978, as Save Your Vision Week. I urge all Americans to observe this period by learning what they can do to take care of their eyes and by practicing a few simple precautions to protect their sight. I invite the vision care professionals, the communications media, educators, and all public and private organizations which support sight conservation to participate in activities which will inform all Americans about the importance of eye care and encourage them to take steps to protect their vision.

IN WITNESS WHEREOF, I have hereunto set my hand this first day of February, in the year of our Lord nineteen hundred seventy-eight, and of the Independence of the United States of America the two hundred and second.

Jimmy Carter

[FR Doc. 78-3206 Filed 2-2-78; 11:04 am]

FEDERAL REGISTER, VOL. 43, NO. 24—FRIDAY, FEBRUARY 3, 1978

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of Agriculture; Correction

AGENCY: Civil Service Commission.

ACTION: Correction to Final Rule.

SUMMARY: This document corrects a final rule which appeared in 43 FR 3253, January 24, 1978, under subparagraph 213.3313(a)(42), which showed exception under Schedule C of one position of Assistant Sales Manager in the Office of the Secretary. This subparagraph is amended more clearly identify the organizational location of the position, which is Assistant Sales Manager to the General Sales Manager, Office of the Assistant Secretary for International Affairs and Commodity Programs.

EFFECTIVE DATE: February 3, 1978.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3313(a)(42) is amended as set out below:

§ 213.3313 Department of Agriculture.

(a) *Office of the Secretary.* . . .

(42) One Assistant Sales Manager to the General Sales Manager, Office of the Assistant Secretary for International Affairs and Commodity Programs.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,

JAMES C. SPRY,

*Executive Assistant to**the Commissioners.*

[FR Doc. 78-2938 Filed 2-2-78; 8:45 am]

[6325-01]

PART 213—EXCEPTED SERVICE

Department of Commerce

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: One Private Secretary to the Director of Communications is ex-

cepted under Schedule C because it is confidential in nature.

EFFECTIVE DATE: February 3, 1978.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3314(a)(14) is added as set out below:

§ 213.3314 Department of Commerce.

(a) *Office of the Secretary.* . . .

(14) One Private Secretary to the Director of Communications,

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,

JAMES C. SPRY,

*Executive Assistant**to the Commissioners.*

[FR Doc. 78-2939 Filed 2-2-78; 8:45 am]

[6325-01]

PART 213—EXCEPTED SERVICE

Department of Commerce; Correction

AGENCY: Civil Service Commission.

ACTION: Correction to compilation of regulations.

SUMMARY: This document corrects the compilation of regulations which appeared in 42 FR 65513, December 30, 1977, which, under § 213.3314 (a)(3), showed that there are one Confidential Assistant and two Private Secretaries to the Under Secretary. This subparagraph should show that there are one Confidential Assistant, one Special Atant, and two Private Secretaries to the Under Secretary because the position of Special Assistant was revoked in error.

EFFECTIVE DATE: February 3, 1978.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3314(a)(3) is amended as set out below:

§ 213.3314 Department of Commerce.

(a) *Office of the Secretary.* . . .

(3) One Confidential Assistant, one Special Assistant, and two Private Secretaries to the Under Secretary.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,

JAMES C. SPRY,

*Executive Assistant to the**Commissioners.*

[FR Doc. 78-2940 Filed 2-2-78; 8:45 am]

[6325-01]

PART 213—EXCEPTED SERVICE

Federal Home Loan Bank Board

AGENCY: Civil Service Commission.

ACTION: Final Rule.

SUMMARY: The following positions are excepted under Schedule C because they are confidential in nature: (1) one position of Secretary (Typing) to the Director, Office of Community Investment; and (2) one position of Assistant Congressional Liaison.

EFFECTIVE DATE: February 3, 1978.

FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3354(p) and (q) are added as set out below:

§ 213.3354 Federal Home Loan Bank Board.

(p) One Secretary (Typing) to the Director, Office of Community Investment.

(q) Assistant Congressional Liaison.

(5 U.S.C. 3301, 3302; E.O. 10577, 3 CFR 1954-1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,

JAMES C. SPRY,

*Executive Assistant**to the Commissioners.*

[FR Doc. 78-2942 Filed 2-2-78; 8:45 am]

[6325-01]

PART 213—EXCEPTED SERVICE

Department of the Interior

AGENCY: Civil Service Commission.

ACTION: Correction to final rule.

SUMMARY: In its document of December 27, 1978, 42 FR 64636, revoking 176 positions, the Commission revoked § 213.3312(1). On January 17, 1978, 43 FR 2377, the Commission published a correction saying § 213.3312(1) (1) through (4) were revoked in error. This corrects both of these documents.

EFFECTIVE DATE: February 3, 1978.
FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.3312(1) should read as set out below:

§ 213.3312 Department of the Interior.

(1) Office of the Director of Territorial Affairs. (1)-(10) (Reserved).

(11) One Secretary to the High Commissioner of the Trust Territory.

(12) One Staff Assistant to the Director.

(5 U.S.C. 3301, 3302; EO 10577; 3 CFR 1954-1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,

Executive Assistant
to the Commissioners.

[FR Doc 78-2941 Filed 2-2-78; 8:45 am]

[6325-01]

PART 213—EXCEPTED SERVICE

Small Business Administration; Correction

AGENCY: Civil Service Commission.

ACTION: Correction to final rule.

SUMMARY: In 42 FR 64638, December 27, 1977, the following position was revoked in error: One Special Assistant to the Deputy Administrator of the Small Business Administration.

EFFECTIVE DATE: February 3, 1978.
FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533.

Accordingly, 5 CFR 213.33) is amended as set out below:

§ 213.3332 Small Business Administration.

(1) Three Special Assistants to the Deputy Administrator.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,

Executive Assistant
to the Commissioners.

[6325-01]

PART 213—EXCEPTED SERVICE

ACTION

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: The following positions in the Office of the Assistant Director for Legislative and Governmental Affairs are excepted under Schedule C because they are confidential in nature: Intergovernmental Affairs Officer, Legislative Officer (International Affairs), and Legislative Officer (Domestic Affairs).

EFFECTIVE DATE: February 3, 1978.
FOR FURTHER INFORMATION CONTACT:

William Bohling, 202-632-4533

Accordingly, 5 CFR 213.3359 (z), (aa), (bb) are added to read as follows:

§ 213.3359 ACTION.

(z) One Intergovernmental Affairs Officer to the Assistant Director for Legislative and Governmental Affairs.

(aa) One Legislative Officer (International Affairs) to the Assistant Director for Legislative and Governmental Affairs.

(bb) One Legislative Officer (Domestic Affairs) to the Assistant Director for Legislative and Governmental Affairs.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,

Executive Assistant
to the Commissioners.

[FR Doc. 78-2937 Filed 2-2-78; 8:45 am]

[6325-01]

PART 213—EXCEPTED SERVICE

Department of Transportation

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: This amendment excepts from the competitive service under Schedule C one position of Assistant Administrator for Airports Programs, Federal Aviation Administration, Department of Transportation because the position is confidential in nature.

EFFECTIVE DATE: February 3, 1978.

FOR FURTHER INFORMATION CONTACT:

On Position Authority Contact, Dean Bollman, Civil Service Commission, 202-632-7676. On Position Authority Content Contact, Thomas M. McKenna, Chief, Executive

Staffing Branch, Department of Transportation, 202-426-4122.

Accordingly, 5 CFR 213.3394(h)(10) is added as set out below:

§ 213.3394 Department of Transportation.

(h) Federal Aviation Administration.

(10) Assistant Administrator for Airports Programs.

(5 U.S.C. 3301, 3302; E.O. 10577, 3 CFR 1954-1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,

Executive Assistant
to the Commissioners.

[FR Doc. 78-2958 Filed 2-2-78; 8:45 am]

[3410-02]

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 131]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona lemons that may be shipped to market during the period February 5 to 11, 1978. Such acts needed to provide for orderly marketing of fresh lemons for this period due to the marketing situation confronting the lemon industry.

EFFECTIVE DATE: February 5, 1978.
FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-6393.

SUPPLEMENTARY INFORMATION: Findings. Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, and upon other information, it is found that the limitation of handling of lemons, as hereafter provided, will tend to effectuate the declared policy of the act.

The committee met on January 31, 1978, to consider supply and market

conditions and other factors affecting the need for regulation and recommended a quantity of lemons deemed advisable to be handled during the specified week. The committee reports the demand for lemons is very similar to last week.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared policy of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

§ 910.431 Lemon Regulation 131.

Order. (a) The quantity of lemons grown in California and Arizona which may be handled during the period February 5, 1978, through February 11, 1978, is established at 200,000 cartons.

(b) As used in this section, "handled" and "carton(s)" mean the same as defined in the marketing order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: February 1, 1978.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 70-3139 Filed 2-2-78; 8:45 am]

[3410-02]

PART 959—ONIONS GROWN IN SOUTH TEXAS

Handling Regulation

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation requires fresh market shipments of onions grown in designated counties in South Texas to be inspected and meet minimum size and quality requirements. The regulation should pre orderly marketing of such onions by keeping less desirable qualities and sizes from being shipped to consumers.

EFFECTIVE DATE: March 6, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, AMS,

U.S. Department of Agriculture, Washington, D.C. 20250, telephone 202-447-6393.

SUPPLEMENTARY INFORMATION: Marketing Agreement No. 143 and Order No. 959, both as amended (7 CFR Part 959) regulate the handling of onions grown in designated counties of South Texas. It is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The South Texas Onion Committee, established under the order, is responsible for its local administration.

Notice of rulemaking was published in the December 7, 1977, FEDERAL REGISTER (42 FR 61867). Interested persons had until December 22 to file data, views, or comments. Two were received.

One comment was received from Mr. George Eisenberg of the Eisenberg Company, Inc., Omaha, Nebr., requesting that authority be provided for the disposition, diversion or resale of onions shipped to canners or freezers which fail to meet prescribed terms of trade. Authority for appropriate disposition of such onions already is provided under terms of the marketing order and the administrative rules of the committee. Such onions may be discarded or shipped to other bona fide canners or freezers, provided that handlers follow safeguard procedures prescribed by the committee.

The Bemis Company, Inc. of St. Louis, Mo., a bag manufacturer, requested authority for the use of its new bag which it indicated may exceed the maximum 33 inches allowed in the proposed handling regulation for such containers. Container dimensions are regulated under this program to encourage uniformity in containers and thereby improve efficiency in handling throughout market channels. Permitting the use of an additional bag, with dimensions exceeding the maximum proposed by the committee, would be inconsistent with the objective of container standardization.

This regulation is based upon recommendations made by the committee at its public meeting in Laredo, Tex., on October 26, 1977. The recommendations of the committee reflect its appraisal of the expected volume and composition of the 1978 early spring crop of South Texas onions and of the marketing prospects for the shipping season which is expected to begin about March 6, 1978.

The grade and size requirements are similar to last season's and are designed to prevent onions of poor quality or undesirable sizes from being distributed in fresh market channels.

Thus, only onions that contain not more than 20 percent defects of U.S. No. 1 grade and are not packed or loaded on Sunday except for export may be shipped from March 6 through May 13, 1978. Again this season in

order to provide more orderly marketing from all districts, the inspection and container requirements are extended through June 10, 1978.

The container requirements prevent the use of off-size or deceptive containers which could adversely affect the reputation and returns of South Texas onions. However, they do not preclude the use of containers customarily packed for the retail trade. The prohibition on packaging and loading onions on Sunday is intended principally to provide more orderly marketing by tailoring shipments from the production area more closely to the ability of receiving markets to accept marketings. Again this season handlers are permitted, with the approval of the committee, to grade, package, and load onions on Sunday for export, provided that they shut down packing and loading operations on the first working day after shipment for the same length of time as they operated on Sunday. This should prevent handlers who ship on Sunday for export from gaining a competitive advantage due to longer packing hours over handlers who do not have export orders.

Exceptions are provided to certain of these requirements to recognize special situations in which such requirements would be inappropriate or unreasonable. Up to 110 pounds of onions may be handled, other than for resale, per day without regard to requirements of this section in order to avoid placing an unreasonable burden on persons handling noncommercial quantities of onions.

The requirements with respect to special purpose shipments allow the shipment of onions for experimental purposes or the use of containers including bulk bins which have been the subject of test shipments during past seasons, and encourage exports by allowing the use of containers required for such purposes. Shipments for relief or charity are exempt since no useful purpose would be served by regulating such shipments.

Findings. After consideration of all relevant comments, including the proposal set forth in the notice, it is hereby found that the handling regulation, as hereinafter set forth, will tend to effectuate the declared policy of the act.

The regulation is as follows:

§ 959.318 Handling regulation.

During the period March 6 through June 10, 1978, no handler may package or load onions on Sunday or handle any onions except red varieties, unless they comply with paragraphs (a) through (d) or (e) or (f) of this section. However, the requirements of paragraphs (a) and (b) and the Sunday prohibition shall terminate at 11:59 p.m. on May 13, 1978.

(a) Grade requirements. Not to exceed 20 percent defects of U.S. No. 1

grade. In percentage grade lots, tolerances for serious damage shall not exceed 10 percent including not more than 2 percent decay. Double the lot tolerance shall be permitted in individual packages in percentage grade lots. Application of tolerances in U.S. onion standards shall apply to in-grade lots.

(b) *Size requirements.* (1) "Small"—1 to 2 1/4 inches in diameter, and limited to whites only;

(2) "Repacker"—1 3/4 to 3 inches in diameter, with 60 percent or more 2 inches in diameter or larger;

(3) "Medium"—2 to 3 1/4 inches in diameter; or

(4) "Jumbo"—3 inches or larger in diameter.

(5) Tolerances for size in the U.S. onion standards shall apply except that for "repacker" and "medium" sizes not more than 20 percent, by weight, of onions in any lot may be larger than the maximum diameter specified. Application of tolerances in the U.S. onion standards shall apply.

(c) *Container requirements.* Excepts as provided in paragraph (f) of this section, only the following containers may be used:

(1) 25-pound bags, with an average net weight in any lot of not more than 27 1/2 pounds per bag, and with outside dimensions not larger than 29 inches by 31 inches; or

(2) 50-pound bags, with an average net weight in any lot of not more than 55 pounds per bag, and with outside dimensions not larger than 33 inches by 39 1/2 inches.

(3) These container requirements shall not be applicable to onions sold to Federal agencies or for export.

(d) *Inspection.* (1) No handler may handle any onions regulated hereunder, except pursuant to paragraphs (e) or (f)(3)(ii) of this section, unless an inspection certificate has been issued covering them and the certificate is valid at the time of shipment.

(2) No handler may transport by motor vehicle or cause such transportation of any shipment of onions for which an inspection certificate is required unless each such shipment is accompanied by a copy of the inspection certificate applicable thereto or by documentary evidence on forms furnished by the committee identifying truck lots to which a valid inspection certificate is applicable and a copy of such inspection certificate or committee document is surrendered upon request to authorities designated by the committee.

(3) For purposes of operation under this part, each inspection certificate or committee form required as evidence of inspection is hereby determined to be valid for a period not to exceed 72 hours following completion of inspection as shown on the certificate.

(4) Handlers shall pay assessments on all assessable onions according to the provisions of section 959.218.

(e) *Minimum quantity exemption.* Any handler may handle, other than for resale, up to, but not to exceed 110 pounds of onions per day without regard to the requirements of this section, but this exemption shall not apply to any shipment or any portion thereof of over 110 pounds of onions.

(f) *Special purpose shipments and culls.* (1) Onions may be handled in containers customarily packed for the retail trade and in other designated special purpose containers as follows:

(i) Each handler desiring to make such shipments shall first apply to the committee for and obtain a Certificate of Privilege to make such shipments.

(ii) After obtaining an approved Certificate of Privilege, each handler may handle onions packed in 2-, 3-, or 5-pound containers customarily packed for the retail trade, or 50-pound cartons, if they meet the grade, size, and inspection requirements of paragraphs (a), (b), and (d) of this section and if they are handled in accordance with the reporting requirements established in subparagraph (2) of this paragraph on such shipments. Shipments of 2-, 3-, and 5-pound containers and 50-pound cartons shall not exceed 10 percent of a handler's total weekly onion shipments.

(iii) The average gross weight per lot of onions packed in master containers shall not exceed 115 percent of the designated net contents.

(iv) The average net weight per lot of 50-pound cartons shall not exceed 55 pounds.

(2) *Reporting requirements for shipments in designated special purpose containers.* Each handler who handles shipments of onions in containers customarily packed for the retail trade and in other designated special purpose containers, shall report to the committee the inspection certificate numbers, the grade and size of onions packed, and the size of the containers in which such onions were handled. Such report, in accordance with § 959.80, shall be furnished to the committee in such manner, on such forms, and at such times as it may prescribe. Each handler shall maintain records of such shipments pursuant to § 959.80(c), and the records shall be subject to review and audit by the committee to verify reports thereon.

(3) *Experimental shipments.* (i) Upon approval of the committee, onions may be shipped in bulk bins with inside dimensions of 47 inches x 37 1/2 inches x 36 inches deep and having a volume of 59,440 cubic inches, or similar containers. Each container shall have a new perforated 2-mil polyethylene liner. Also, onions may be shipped in 40-pound cartons, but not to exceed 4,000 cartons. Such experimental shipments shall be exempt from paragraph (c) of this section but shall not exceed 10 percent of

a handler's total weekly onion shipments and shall be handled in accordance with safeguard provisions of § 959.54 and this paragraph. The receiver shall furnish the committee with a report on the arrival condition of each shipment.

(ii) Upon approval of the committee, onions may be shipped for other experimental purposes exempt from regulations issued pursuant to §§ 959.42, 959.52, and 959.60, provided they are handled in accordance with safeguard provisions of § 959.54.

(4) *Export shipments.* (i) Upon approval of the committee, the prohibition against packaging or loading onions on any Sunday may be modified or suspended to permit the handling of onions for export, provided such handling complies with the procedures and safeguards specified by the committee.

(ii) Following approval, if the handler grades, packages, and ships onions for export on any Sunday, such handler shall on the first workday following shipment, cease all grading, packaging, and shipping operations for the same length of time as the handler operated on Sunday. Upon completion of such shipments, the handler shall report thereon as prescribed by the committee.

(iii) Export shipments shall also be exempt from all container requirements of this section.

(5) *Onions for charity, relief, canning, and freezing.* Onions for charity, relief, canning, and freezing shall be exempt from the requirements of paragraphs (a) through (d). Such onions shall be handled according to the provisions of § 959.126(b).

(6) *Onions failing to meet requirements.* Onions failing to meet the grade, size, and container requirements of this section, and not exempt under paragraphs (e) or (f)(4) of this section, may be handled only pursuant to § 959.126. Culls may be handled pursuant to § 959.126(a)(1).

(g) *Definitions.* "U.S. onion standards" mean the U.S. Standards for Grades of Bermuda-Granex-Grano Type Onions (7 CFR 2851.3195-2851.3209), or the U.S. Standards for Grades of Onions (Other Than Bermuda-Granex-Grano and Creole Types) (7 CFR 2851.2830-2851.2854), whichever is applicable to the particular variety, or variations thereof specified in this section. The term "U.S. No. 1" shall have the same meaning as set forth in these standards. All other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 143, as amended, and this part.

(h) *Applicability to imports.* Onions imported during the period March 20 through May 13, 1978, will be in most direct competition with onions produced in south Texas and regulated

under marketing order No. 959, as amended. Therefore, under section 8e and section 980.117 "Import Regulations" (7 CFR 980.117) of the act such imported onions shall have not more than 20 percent defects of U.S. No. 1 grade and be at least 1 inch in diameter for white varieties and at least 1 1/4 inches in diameter for all other varieties. In percentage grade lots, tolerances for serious damage shall not exceed 10 percent including not more than 2 percent decay. Double the lot tolerance shall be permitted in individual packages in percentage grade lots. Applications of tolerances in the U.S. Grade Standards shall apply to in-grade lots.

(Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674).)

Dated: January 30, 1978 to become effective March 6, 1978.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK); DEPARTMENT OF AGRICULTURE

[Milk Order No. 139]

PART 1139—MILK IN THE LAKE MEAD MARKETING AREA

Order Suspending Certain Provision

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Suspension of rule.

SUMMARY: This order suspends the provision relating to the number of days that a dairy farmer must deliver milk to a pool supply plant during January and February maintain producer status with such plant during the following March-July period. Suspension of the provision was requested by a cooperative association to help it continue the association of its members' milk with the order. The suspension would apply during the months of March through July 1978.

DATE: Effective February 3, 1978.

FOR FURTHER INFORMATION CONTACT:

Maurice M. Martin, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-7183.

SUPPLEMENTARY INFORMATION: Prior document in this proceeding: Notice of proposed suspension—issued January 11, 1978, published January 17, 1978 (43 FR 2404).

This order of suspension is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Lake Mead marketing area.

Notice of proposed rulemaking was published in the FEDERAL REGISTER (43 FR 2404) concerning a proposed suspension of certain provisions of the order. Interested persons were afforded opportunity to file written data, views, and arguments thereon.

After consideration of all relevant material, including the proposal set forth in the aforesaid notice, data, views, and arguments filed thereon, and other available information, it is hereby found and determined that for the months of March through July 1978 the provision § 1139.12(b)(5) of the order does not tend to effectuate the declared policy of the Act and is hereby suspended.

STATEMENT OF CONSIDERATION

The suspension makes inoperative for 1978 the requirement that at least 52 days' milk production of a dairy farmer be received at a pool supply plant during January and February if the farmer wishes to deliver milk to the same pool plant in the following March-July period and have it pooled under the order.

The suspension was requested by the Lake Mead Cooperative Association, which operates the only supply plant in the market. The cooperative indicated that without the suspension, a number of its producer-members who are now supplying pool distributing plants on a regular basis cannot be considered as producers during the forthcoming months of March through July if the milk of such members is delivered to the cooperative's supply plant.

The 52-day delivery requirement was intended to prevent the attachment of surplus milk supplies from other markets to the Lake Mead market through a pool supply plant that has automatic pool plant status. The cooperative's supply plant, which customarily qualifies for such status, failed, however, to do so for 1978. It thus must make monthly shipments to the market during March through July if it is to qualify for pooling during this period. Because of this, the 52-day requirement has no useful purpose this year. However, because this provision remains in the order, it may impede the orderly handling of milk at this supply plant under the changed operating situation. Accordingly, it is reasonable that the provision be suspended for the period of March through July 1978.

Views opposing the suspension that were filed by a proprietary handler who operates a pool distributing plant

do not provide a sufficient basis for denying the requested suspension. This handler objected to such action on the grounds that the basis for the 1975 decision to adopt the provision in question remains valid. However, as noted, the marketing situation relative to this issue has changed and the suspension is warranted under the changed circumstances.

It is hereby found and determined that thirty days' notice of the effective date hereof is impractical, unnecessary and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area in that substantial quantities of milk of producers who regularly supply the fluid market otherwise could be excluded from the pool during the forthcoming months of March through July 1978.

(b) This suspension does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) Notice of proposed rulemaking was given interested parties and they were afforded opportunity to file written data, views, or arguments concerning this suspension.

Therefore, good cause exists for making this order effective upon publication in the FEDERAL REGISTER.

§ 1139.12 [Partially suspended]

It is therefore ordered, That the aforesaid provisions of the order (paragraph (b)(5) of § 1139.12) are hereby suspended with respect to fluid milk marketings during the months of March through July 1978.

(Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674).)

Effective date: February 3, 1978.

Signed at Washington, D.C., on: January 31, 1978.

JERRY C. HILL,
Deputy Assistant Secretary.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES AND OTHER OPERATIONS [Amdt. No. 2]

PART 1425—COOPERATIVE MARKETING ASSOCIATIONS

Subpart—Eligibility Requirements for Price Support

Miscellaneous Amendments

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule.

SUMMARY: This rule amends the regulations which set forth the eligibility requirements which approved cooperative marketing clations must meet to obtain price support on behalf of their members. This amendment will specify 15 days as the period of time in which an approved cooperative, participating in a price support program, must distribute to its members proceeds received through CCC price support loans and purchases. The rule is needed for purposes of clarification. In addition, this rule changes the designation of responsibilities for administering the provisions of the regulations in this Part.

EFFECTIVE DATE: February 3, 1978.

FOR FURTHER INFORMATION CONTACT:

Charlie B. Robbins (ASCS), 202-447-4634, P.O. Box 2415, Washington, D.C. 20013.

SUPPLEMENTARY INFORMATION: On Friday, October 7, 1977, a notice of proposed rulemaking was published in the FEDERAL REGISTER (42 FR 54566) announcing that the Commodity Credit Corporation was considering amending 7 CFR Part 1425, "Cooperative Marketing Associations, Eligibility Requirements for Price Support" to specify 15 days as the period of time in which an approved cooperative must distribute to its members proceeds received through CCC price support loans and purchases. Comments were solicited on the proposal and interested persons were given thirty (30) days to express their views. In addition, this amendment is changing the designation of offices having the responsibilities for administering the provisions of Part 1425. These changes of responsibility result from a reorganization within the Agricultural Stabilization and Conservation Service and do not require a notice of proposed rulemaking.

DISCUSSION OF COMMENTS

Nine comments were received. Six respondents objected to the proposal: Three indicated an exception should be made when there is an agreement between the cooperative and members providing for a deferred payment and three indicated that a 15-day period was not realistic and would be too restrictive. All comments received have been considered in connection with this final rule. After giving careful consideration to these comments, it has been determined that the arguments opposing the proposal were not valid reasons for not establishing a period of 15 days in which approved cooperatives must distribute to members loan and purchase proceeds received from CCC.

FINAL RULE

Accordingly, 7 CFR Part 1425 is amended as follows:

1. Paragraph (a) of section 1425.2 and paragraphs (a), (e) and (f) of section 1425.3 are amended to change the designation of responsibility resulting from administrative reorganization within ASCS. The amended paragraphs read as follows:

§ 1425.2 Administration

(a) *Responsibility.* The Price Support and Loan Division, ASCS, will administer the provisions of this subpart under the general direction and supervision of the Deputy Administrator, State and County Operations, in accordance with program provisions and policy determined by Commodity Credit Corporation. In the field, the provisions of this subpart will be administered by the State and county Agriculture Stabilization and Conservation committees, and where applicable, the Agricultural Stabilization and Conservation Service Commodity Office. As used in this Part, the term "CCC" means Commodity Credit Corporation and the term "ASCS" means the Agricultural Stabilization and Conservation Service.

§ 1425.3 Application.

(a) *Initial approval.* A cooperative which desires approval to obtain price support on any authorized 1977 and succeeding crop of a commodity shall submit an application for a determination of eligibility with respect to each of the commodities listed herein for which approval is sought. An application form and related questionnaire and a copy of the regulation appearing in this subpart may be obtained from the Director, Price Support and Loan Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, P.O. Box 2415, Washington, D.C. 20013. Inquiries relating to such documents should also be addressed to the Director, Price Support and Loan Division. Applications with respect to each of the commodities listed herein and supporting material shall be submitted on or before the applicable date listed below of the calendar year in which the cooperative requests approval to participate in the price support program for commodities marketed thereafter, or by such later date as the Executive Vice President, CCC, may authorize to alleviate hardship.

Commodity	Date
Barley.....	June 1.
Corn.....	Oct. 1.
Cotton.....	Aug. 1.
Honey.....	July 1.
Oats.....	June 1.
Rice.....	Aug. 1.
Rye.....	June 1.

Commodity	Date
Sorghum.....	Oct. 1.
Soybeans.....	Sept. 1.
Wheat.....	June 1.

If price support program regulations for a commodity not listed herein require a cooperative to obtain approval under this subpart to be eligible for price support, the latest date for filing an application for approval with respect to such commodity shall be specified in such program regulations.

(e) *Annual information.* Annually, the Director, Price Support and Loan Division shall request an approved cooperative to furnish: (1) An audit report to include any accompanying notes, schedules, or exhibits, certified by a certified public accountant as fairly representing the financial condition of the cooperative.

(2) A statement showing the total capital interest in the cooperative and the total capital interest in the cooperative owned by inactive and non-members by each separate category.

(3) The names of any active producer members and member cooperatives who own in excess of 10 percent of the capital of the cooperative and the amount owned by each.

(4) The quantity of each commodity delivered to the cooperative for marketing and the portion thereof that was received from active members.

(5) The quantity of each commodity tendered to CCC for loan and the quantity redeemed.

(6) The quantity of each commodity tendered to CCC for purchase.

(f) *Current information.* An approved cooperative shall furnish to the Director, Price Support and Loan Division, immediately:

(1) Any changes in its articles of incorporation, bylaws, resolutions, or marketing agreement.

(2) Any changes in officers, directors, or principal employees and conflict of interest statements in accordance with 1425.8(d).

(3) Any change in pooling operations with an explanation of the change and why such change was necessary.

(4) Additional information as may be requested at any time in connection with its continued approval under this subpart.

2. Paragraph (a) of § 1425.14 is amended to establish a period of 15 days in which loan and purchase proceeds received from CCC must be distributed to members. The amended paragraph reads as follows:

§ 1425.14 Distribution of proceeds.

(a) *CCC loans and purchases.* If price support is obtained on any part of the commodity in a pool through CCC loans or purchases, the proceeds

therefrom shall be distributed to members participating in such pool on the basis of the quantity and quality of the commodity delivered by each member less any authorized charges for services performed by and/or paid for by the cooperative which are necessary to condition the commodity or otherwise make the commodity eligible for price support. Such proceeds shall be distributed within a period of 15 days from the date of receipt from CCC. However, if the cooperative has distributed initial advances to members in the eligible pool at the time it acquires the commodity and which advances equal not less than such proceeds less authorized charges, a further distribution shall not be required.

Signed at Washington, D.C., on January 27, 1978.

RAY FITZGERALD,
Executive Vice President,
Commodity Credit Corporation.

[3410-34]

Title 9—Animals and Animal Products

CHAPTER 1—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 73—SCABIES IN CATTLE

Areas Quarantined

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: The purpose of this amendment is to quarantine a portion of Chaves, Colfax, De Baca, Eddy, Guadalupe, Quay, and Union counties and all of Curry, Lea, and Roosevelt counties in New Mexico because of the existence of cattle scabies. Psoroptic cattle scabies was confirmed by Veterinary Services Laboratories in New Mexico. Therefore, in order to prevent the dissemination of cattle scabies it is necessary to quarantine the infested areas.

EFFECTIVE DATE: January 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Dr. Glen O. Schubert, Chief Staff Veterinarian, Sheep, Goats, Equine, and Ectoparasites Staff, USDA, APHIS, VS, Federal Building, Room 737, 6505 Belcrest Road, Hyattsville, Md. 20782, 301-436-8322.

SUPPLEMENTARY INFORMATION: This amendment quarantines a portion of Chaves, Colfax, De Baca, Eddy,

Guadalupe, Quay, and Union counties and all of Curry, Lea, and Roosevelt counties in New Mexico because of the existence of cattle scabies. The restrictions pertaining to the interstate movement of cattle from quarantined areas as contained in 9 CFR Part 73, as amended, will apply to the areas quarantined.

Accordingly, Part 73, Title 9, Code of Federal Regulations, as amended, restricting the interstate movement of cattle because of scabies, is hereby amended as follows:

In § 73.1a, in paragraph (e) relating to the State of New Mexico new paragraphs (e)(7) and (e)(8) are added to read:

§ 73.1a Notice of quarantine.

(e)

(7) That portion of Colfax and Union counties bounded by a line beginning at the junction of State Highway 72 and U.S. Highway 64-87 at Des Moines; thence, following State Highway 72 in a northwesterly direction approximately 7 miles to State Road 325 at Folsom; thence, following State Road 325 in a northeasterly direction to State Road 551; thence, following State Road 551 in a northerly direction to the New Mexico-Colorado State line; thence, following the New Mexico-Colorado State line in a westerly direction for approximately 17 miles to Meridian Line, R. 26 E. in Colfax county; thence, following Meridian Line, R. 26 E. in a southern direction approximately 15 miles to U.S. Highway 64-87; thence, following U.S. Highway 64-87 in an easterly direction for approximately 20 miles to its junction with State Highway 72 at Des Moines.

(8) That portion of Eddy, Chaves, De Baca, Guadalupe, and Quay counties, and all of Curry, Lea, and Roosevelt counties bounded by a line beginning at the junction of the New Mexico-Texas State line and U.S. Highway 285 in Eddy county; thence, following U.S. Highway 285 in a northwesterly direction approximately 130 miles to State Highway 20 in Chaves county; thence, following State Highway 20 in a northeasterly direction for approximately 46 miles to U.S. Highway 84 in De Baca county; thence, following U.S. Highway 84 in a northwesterly direction approximately 43 miles to Interstate Highway 40 in Guadalupe county; thence, following Interstate Highway 40 in an easterly direction approximately 100 miles to the New Mexico-Texas State line; thence following the New Mexico-Texas State line in a southern then western direction to its junction with U.S. Highway 285 in Eddy county.

(Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; secs. 1-4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132 (21 U.S.C. 111-113, 115, 117, 120, 121, 123-126, 134b, 134f); 37 FR 28464, 28477; 38 FR 19141.)

The amendment imposes certain further restrictions necessary to prevent the interstate spread of cattle scabies and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 27th day of January 1978.

NOTE.—The Animal and Plant Health Inspection Service has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

E. A. SCHILF,
Acting Deputy Administrator,
Veterinary Services.

[FR Doc. 78-2801 Filed 2-2-78; 8:45 am]

[3410-34]

PART 78—BRUCELLOSIS

Subpart D—Designation of Brucellosis Areas, Specifically Approved Stockyards, and Slaughtering Establishments

BRUCELLOSIS AREAS

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: The Animal and Plant Health Inspection Service is amending its Brucellosis regulations. These amendments update the Brucellosis regulations by providing the current status of various counties and States which have been designated Certified Brucellosis-Free Areas, Modified Certified Brucellosis Areas, or Noncertified Areas for purposes of interstate movement of cattle and bison from such areas. This action is required because of the change in the Brucellosis status of the areas affected.

EFFECTIVE DATE: February 3, 1978.

FOR FURTHER INFORMATION CONTACT:

Dr. A. D. Robb, U.S. Department of Agriculture, Animal and Plant Health Inspection Service, Veteri-

nary Services, Hyattsville, Md., Room 805, 301-436-8713.

SUPPLEMENTARY INFORMATION: The amendments delete the following areas from the list of Modified Certified Brucellosis-Free Areas in § 78.21 and add such areas to the list designated as Certified Brucellosis-Free Areas in § 78.20 because it has been determined that they now come within the definition of a Certified Brucellosis-Free Area in § 78.1(1): Yuma County in Colorado; Gem County in Idaho; Crawford and Delaware Counties in Iowa; Deuel County in Nebraska; and Armstrong, Gillespie, Kendall, and Real Counties in Texas.

Accordingly, §§ 78.20, 78.21, and 78.22 of Part 78, Title 9, Code of Federal Regulations, designating Certified Brucellosis-Free Areas, Modified Certified Brucellosis-Free Areas, and Noncertified Areas, respectively, are amended to read as follows:

§ 78.20 Certified brucellosis-free areas.

The following States, or specified portions thereof, are hereby designated as Certified Brucellosis-Free Areas:

(a) *Entire States:* Arizona, California, Connecticut, Delaware, Hawaii, Indiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Montana, Nevada, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, South Carolina, Virginia, Washington, West Virginia, Wisconsin, Virgin Islands.

(b) *Specific Counties Within States:* Alabama: Dale, Geneva.

Arkansas: Baxter, Bradley, Carroll, Cleveland, Columbia, Dallas, Drew, Fulton, Garland, Grant, Johnson, Marion, Monroe, Montgomery, Newton, Ouachita, Searcy, Sharp, Stone, Union, Woodruff.

Colorado: Adams, Alamosa, Arapahoe, Archuleta, Baca, Bent, Boulder, Chaffee, Cheyenne, Clear Creek, Conejos, Costilla, Crowley, Custer, Delta, Denver, Dolores, Douglas, Eagle, Elbert, El Paso, Fremont, Garfield, Gilpin, Grand, Gunnison, Hinsdale, Huerfano, Jackson, Jefferson, Kiowa, Kit Carson, Lake, La Plata, Larimer, Las Animas, Lincoln, Logan, Mineral, Moffat, Montezuma, Montrose, Morgan, Otero, Ouray, Park, Phillips, Pitkin, Prowers, Pueblo, Rio Blanco, Rio Grande, Routt, Saguache, San Juan, San Miguel, Sedgwick, Summit, Teller, Washington, Weld, Yuma.

Florida: Baker, Bay Citrus, Dixie, Escambia, Franklin, Holmes, Jackson, Leon, Liberty, Monroe, Okaloosa, Orange, Santa Rosa, Seminole, St. Johns, Taylor, Wakulla, Walton, Washington.

Georgia: Appling, Atkinson, Bacon, Banks, Brantley, Bryan, Bulloch, Burke, Butts, Camden, Candler, Charlton, Chatham, Chattahoochee, Clarke, Clayton, Cook, Crawford, De Kalb,

Echols, Effingham, Evans, Fannin, Franklin, Glascock, Glynn, Greene, Habersham, Jeff Davis, Johnson, Lanier, Laurens, Liberty, Long, McIntosh, Monroe, Peach, Rabun, Richmond, Screven, Stephens, Taylor, Toombs, Treutlen, Twiggs, Upson, Ware, Wayne, Wheeler, White, Wilkinson.

Idaho: Ada, Adams, Bear Lake, Benewah, Blaine, Boise, Bonner, Boundary, Butte, Camas, Canyon, Clark, Clearwater, Custer, Gem, Idaho, Kootenai, Latah, Lemhi, Lewis, Minidoka, Nez Perce, Owyhee, Payette, Power, Shoshone, Valley, Washington.

Illinois: Adams, Alexander, Bond, Boone, Brown, Bureau, Calhoun, Carroll, Cass, Champaign, Christian, Clark, Clay, Clinton, Coles, Cook, Crawford, Cumberland, De Kalb, De Witt, Douglas, Du Page, Edgar, Edwards, Effingham, Fayette, Ford, Franklin, Fulton, Gallatin, Greene, Grundy, Hamilton, Hancock, Hardin, Henderson, Henry, Iroquois, Jackson, Jasper, Jefferson, Jersey, Jo Daviess, Johnson, Kane, Kankakee, Kendall, Knox, Lake, La Salle, Lawrence, Lee, Livingston, Logan, Macon, Macoupin, Madison, Marion, Marshall, Mason, McDonough, McHenry, McLean, Menard, Mercer, Monroe, Montgomery, Morgan, Moultrie, Ogle, Peoria, Perry, Piatt, Pike, Pope, Pulaski, Putnam, Randolph, Richland, Rock Island, St. Clair, Saline, Sangamon, Schuyler, Scott, Shelby, Stark, Stephenson, Tazewell, Union, Vermilion, Wabash, Warren, Washinton, Wayne, White, Whiteside, Will, Williamson, Winnebago, Woodford.

Iowa: Adair, Adams, Audubon, Benton, Black Hawk, Boone, Bremer, Buchanan, Buena Vista, Butler, Calhoun, Carroll, Cass, Cedar, Cherokee, Chickasaw, Clarke, Clay, Clinton, Crawford, Dallas, Davis, Decatur, Delaware, Des Moines, Dickinson, Dubuque, Emmet, Fayette, Floyd, Franklin, Fremont, Greene, Grundy, Hamilton, Hancock, Hardin, Harrison, Henry, Howard, Humboldt, Ida, Iowa, Jackson, Jasper, Johnson, Jones, Keokuk, Kossuth, Lee, Linn, Louisa, Lucas, Lyon, Madison, Mahaska, Marion, Marshall, Mills, Mitchell, Monona, Monroe, Montgomery, Muscatine, O'Brien, Osceola, Page, Palo Alto, Pocahontas, Polk, Pottawattamie, Poweshiek, Plymouth, Scott, Shelby, Sioux, Story, Tama, Taylor, Union, Van Buren, Wapello, Warren, Washington, Webster, Winnebago, Winneshiek, Woodbury, Worth, Wright.

Kansas: Barber, Brown, Chase, Cheyenne, Clark, Comanche, Decatur, Doniphan, Edwards, Ellsworth, Ford, Gove, Graham, Grant, Gray, Greeley, Hamilton, Haskell, Hodgeman, Johnson, Kearny, Kingman, Kiowa, Lane, Logan, Marion, Marshall, Meade, Ness,

Norton, Pawnee, Phillips, Pottawattamie, Pratt, Rawlins, Republic, Riley, Rooks, Rush, Saline, Scott, Shawnee, Sheridan, Sherman, Smith, Stanton, Thomas, Trego, Wallace, Washington, Wichita.

Kentucky: Bell, Breathitt, Campbell, Clay, Edmonson, Floyd, Harlan, Johnson, Kenton, Knott, Knox, Lawrence, Lee, Leslie, Letcher, Lewis, Magoffin, Martin, McCreary, Menifee, Morgan, Owsley, Pendleton, Perry, Pike, Robertson, Trimble, Whitley, Wolfe.

Mississippi: Alcorn, Hancock, Harrison, Jackson, Stone, Tishomingo.

Missouri: Audrain, Dunklin, Gasconade, Hickory, Lewis, Moniteau, Montgomery, Perry, Platte, Pulaski, St. Louis, Schuyler, Shelby.

Nebraska: Deuel.

New Mexico: Catron, Colfax, Dona Ana, Grant, Harding, Hidalgo, Lincoln, Los Alamos, Luna, McKinley, Otero, Rio Arriba, Sandoval, San Juan, Santa Fe, Sierra, Socorro, Taos, Torrance.

South Dakota: Aurora, Beadle, Bennett, Bon Homme, Brookings, Brown, Brule, Buffalo, Butte, Campbell, Charles Mix, Clark, Clay, Codington, Corson, Custer, Davison, Day, Deuel, Dewey, Douglas, Edmunds, Fall River, Faulk, Grant, Gregory, Haakon, Hamlin, Hand, Hanson, Harding, Hughes, Hutchinson, Hyde, Jackson, Jerauld, Kingsbury, Lake, Lawrence, Lincoln, Lyman, Marshall, McCook, McPherson, Meade, Mellette, Miner, Minnehaha, Moody, Pennington, Perkins, Potter, Roberts, Sanborn, Shannon, Spink, Sully, Todd, Tripp, Turner, Union, Walworth, Washabaugh, Yankton, Ziebach.

Tennessee: Anderson, Blount, Campbell, Carter, Claiborne, Davidson, Fentress, Grainger, Greene, Hamblen, Hancock, Jefferson, Johnson, Knox, Lake, Lewis, Meigs, Morgan, Perry, Polk, Roane, Robertson, Scott, Sequatchie, Sevier, Sullivan, Unicoi, Union, Van Buren.

Texas: Armstrong, Brewster, Childress, Comal, Crane, Culberson, Ector, Gillespie, Glasscock, Gray, Hansford, Hartley, Hemphill, Hudspeth, Hutchinson, Irion, Jeff Davis, Kendall, Kerr, Kimble, Lipscomb, Llano, Loving, Martin, Mason, Menard, Midland, Moore, Newton, Ochiltree, Reagan, Real, Roberts, Schleicher, Sherman, Sterling, Sutton, Terrell, Val Verde, Ward, Winkler, Yoakum.

Utah: Beaver, Carbon, Daggett, Davis, Duchesne, Emery, Garfield, Grand, Iron, Juab, Kane, Millard, Morgan, Piute, Rich, Salt Lake, San Juan, Sanpete, Sevier, Summit, Tooele, Uintah, Utah, Wasatch, Washington, Wayne, Weber.

Vermont: Bennington, Caledonia, Essex, Grand Isle, Lamoille, Orange, Rutland, Washington, Windham, Windsor.

Wyoming: Albany, Big Horn, Campbell, Carbon, Converse, Crook, Fre-

mont, Goshen, Hot Springs, Johnson, Laramie, Natrona, Niobrara, Park, Platte, Sheridan, Sublette, Sweetwater, Teton, Uinta, Washakie, Weston.

Puerto Rico: Adjuntas, Aguada, Aguadilla, Aguas Buenas, Aibonito, Anasco, Arroyo, Barceloneta, Barranquitas, Bayamon, Cabo Rojo, Caguas, Canovanas (Loiza), Catano, Cayey, Ceiba, Ciales, Cidra, Coamo, Comerio, Corozal, Culebra, Dorado, Fajardo, Guanica, Guayama, Guaynabo, Guayanilla, Hormigueros, Humacao, Jayuya, Juana Diaz, Juncos, Lajas, Lares, Las Marias, Luquillo, Manati, Maricao, Maunabo, Mayaguez, Moca, Morovis, Naranjito, Orocovis, Patillas, Penuelas, Ponce, Rincon, Rio Grande, Rio Piedras, Sabana Grande, Salinas, San German, San Juan, San Lorenzo, Santa Isabel, Toa Alta, Toa Baja, Trujillo Alto, Utuado, Vega Alta, Vega Baja, Vieques, Villalba, Yabucoa, Yauco.

§ 78.21 Modified Certified Brucellosis Areas.

The following States, or specified portions thereof, are hereby designated as Modified Certified Brucellosis Areas:

(a) *Entire States:* Alaska, Louisiana, Oklahoma.

(b) *Specific Counties Within States:*

Alabama: Autauga, Baldwin, Barbour, Bibb, Blount, Bullock, Butler, Calhoun, Chambers, Cherokee, Chilton, Choctaw, Clarke, Clay, Cleburne, Coffee, Colbert, Conecuh, Coosa, Covington, Crenshaw, Cullman, Dallas, De Kalb, Elmore, Etowah, Escambia, Fayette, Franklin, Greene, Hale, Henry, Houston, Jackson, Jefferson, Lamar, Lauderdale, Lawrence, Lee, Limestone, Lowndes, Macon, Madison, Marengo, Marion, Marshall, Mobile, Monroe, Montgomery, Morgan, Perry, Pickens, Pike, Randolph, Russell, St. Clair, Shelby, Sumter, Talladega, Tallapoosa, Tuscaloosa, Walker, Washington, Wilcox, Winston.

Arkansas: Arkansas, Ashley, Benton, Boone, Calhoun, Chicot, Clark, Clay, Cleburne, Conway, Craighead, Crawford, Crittenden, Cross, Desha, Faulkner, Franklin, Greene, Hempstead, Hot Spring, Howard, Independence, Izard, Jackson, Jefferson, Lafayette, Lawrence, Lee, Lincoln, Little River, Logan, Lonoke, Madison, Miller, Mississippi, Nevada, Perry, Phillips, Pike, Poinsett, Polk, Pope, Prairie, Pulaski, Randolph, Saline, Scott, St. Francis, Sebastian, Sevier, Van Buren, Washington, White, Yell.

Colorado: Mesa.

Florida: Alachua, Bradford, Brevard, Broward, Calhoun, Charlotte, Clay, Collier, Columbia, Dade, De Soto, Duval, Flagler, Gadsden, Gilchrist, Glades, Gulf, Hamilton, Hardee, Hendry, Hernando, Highlands, Hillsborough, Indian River, Jefferson, La-

fayette, Lake, Lee, Levy, Madison, Manatee, Marion, Martin, Nassau, Osceola, Palm Beach, Pasco, Pinellas, Polk, Putnam, St. Lucie, Sarasota, Sumter, Suwanee, Union, Volusia.

Georgia: Baker, Baldwin, Barrow, Bartow, Ben Hill, Berrien, Bibb, Bleckley, Brooks, Calhoun, Carroll, Catoosa, Chattooga, Cherokee, Clay, Clinch, Cobb, Coffee, Colquitt, Columbia, Coweta, Crisp, Dade, Dawson, Decatur, Dodge, Dooly, Dougherty, Douglas, Early, Elbert, Emanuel, Fayette, Floyd, Forsyth, Fulton, Gilmer, Gordon, Grady, Gwinnett, Hall, Hancock, Haralson, Harris, Hart, Heard, Henry, Houston, Irwin, Jackson, Jasper, Jefferson, Jenkins, Jones, Lamar, Lee, Lincoln, Lowndes, Lumpkin, Macon, Madison, Marion, McDuffie, Meriwether, Miller, Mitchell, Montgomery, Morgan, Murray, Muscogee, Newton, Oconee, Oglethorpe, Paulding, Pickens, Pierce, Pike, Polk, Pulaski, Putnam, Quitman, Randolph, Rockdale, Schley, Seminole, Spalding, Stewart, Sumter, Talbot, Taliaferro, Tattnall, Telfair, Terrell, Thomas, Tift, Towns, Troup, Turner, Union, Walker, Walton, Warren, Washington, Webster, Whitfield, Wilcox, Wilkes, Worth.

Idaho: Bannock, Bingham, Bonneville, Caribou, Cassia, Elmore, Franklin, Fremont, Gooding, Jefferson, Jerome, Lincoln, Madison, Oneida, Teton, Twin Falls.

Illinois: Massac.

Iowa: Allamakee, Appanoose, Cerro Gordo, Clayton, Guthrie, Jefferson, Ringgold, Sac, Wayne.

Kansas: Allen, Anderson, Atchison, Barton, Bourbon, Butler, Chautauqua, Cherokee, Clay, Cloud, Coffey, Cowley, Crawford, Dickinson, Douglas, Elk, Ellis, Finney, Franklin, Geary, Greenwood, Harper, Harvey, Jackson, Jefferson, Jewell, Labette, Leavenworth, Lincoln, Linn, Lyon, McPherson, Miami, Mitchell, Montgomery, Morris, Morton, Nemaha, Neosho, Osage, Osborne, Ottawa, Reno, Rice, Russell, Sedgwick, Seward, Stafford, Stevens, Sumner, Wabauensee, Wilson, Woodson, Wyandotte.

Kentucky: Adair, Allen, Anderson, Ballard, Barren, Bath, Boone, Bourbon, Boyd, Boyle, Bracken, Breckinridge, Bullitt, Butler, Caldwell, Calloway, Carlisle, Carroll, Carter, Casey, Christian, Clark, Clinton, Crittenden, Cumberland, Daviess, Elliott, Estill, Fayette, Fleming, Franklin, Fulton, Gallatin, Garrard, Grant, Graves, Grayson, Green, Greenup, Hancock, Hardin, Harrison, Hart, Henderson, Henry, Hickman, Hopkins, Jackson, Jefferson, Jessamine, Larue, Laurel, Lincoln, Livingston, Logan, Lyon, Madison, Marion, Marshall, Mason, McCracken, McLean, Meade, Mercer, Metcalfe, Monroe, Montgomery, Muhlenberg, Nelson, Nicholas, Ohio, Oldham, Owen, Powell, Pulaski,

Rockcastle, Rowan, Russell, Scott, Shelby, Simpson, Spencer, Taylor, Todd, Trigg, Union, Warren, Washington, Wayne, Webster, Woodford.

Mississippi: Adams, Amite, Attala, Benton, Bolivar, Calhoun, Carroll, Chickasaw, Choctaw, Claiborne, Clarke, Clay, Coahoma, Copiah, Covington, De Soto, Forrest, Franklin, George, Greene, Grenada, Hinds, Holmes, Humphreys, Issaquena, Itawamba, Jasper, Jefferson, Jefferson Davis, Jones, Kemper, Lafayette, Lamar, Lauderdale, Lawrence, Leake, Lee, LeFlore, Lincoln, Lowndes, Madison, Marion, Marshall, Monroe, Montgomery, Neshoba, Newton, Noxubee, Oktibbeha, Panola, Pearl River, Perry, Pike, Pontotoc, Prentiss, Quitman, Rankin, Scott, Sharkey, Simpson, Smith, Sunflower, Tallahatchie, Tate, Tippah, Tunica, Union, Walthall, Warren, Washington, Wayne, Webster, Wilkinson, Winston, Yalobusha, Yazoo.

Missouri: Adair, Andrew, Atchison, Barry, Barton, Bates, Benton, Bollinger, Boone, Buchanan, Butler, Calswell, Callaway, Camden, Cape Girardeau, Carroll, Carter, Cass, Cedar, Chariton, Christian, Clark, Clay, Clinton, Cole, Cooper, Crawford, Dade, Dallas, Daviess, De Kalb, Dent, Douglas, Franklin, Gentry, Greene, Grundy, Harrison, Henry, Holt, Howard, Howell, Iron, Jackson, Jasper, Jefferson, Johnson, Knox, Laclede, Lafayette, Lawrence, Lincoln, Linn, Livingston, Macon, Madison, Maries, Marion, McDonald, Mercer, Miller, Mississippi, Monroe, Morgan, New Madrid, Newton, Nodaway, Oregon, Osage, Ozark, Pemiscot, Pettis, Phelps, Pike, Polk, Putnam, Ralls, Randolph, Ray, Reynolds, Ripley, St. Charles, St. Clair, St. Francois, St. Genevieve, Saline, Scotland, Scott, Shannon, Stoddard, Stone, Sullivan, Taney, Texas, Vernon, Warren, Washington, Wayne, Webster, Worth, Wright.

Nebraska: Adams, Antelope, Arthur, Banner, Blaine, Boone, Box Butte, Boyd, Brown, Buffalo, Burt, Butler, Cass, Cedar, Chase, Charry, Cheyenne, Clay, Colfax, Cuming, Custer, Dakota, Dawes, Dawson, Dixon, Dodge, Douglas, Dundy, Fillmore, Franklin, Frontier, Furnas, Gage, Garden, Garfield, Gosper, Grant, Greeley, Hall, Hamilton, Harlan, Hayes, Hitchcock, Holt, Hooker, Howard, Jefferson, Johnson, Kearney, Keith, Keya Paha, Kimball, Knox, Lancaster, Lincoln, Logan, Loup, Madison, McPherson, Merrick, Morrill, Nance, Nemaha, Nuckolls, Otoe, Pawnee, Perkins, Phelps, Pierce, Platte, Polk, Redwillow, Richardson, Rock, Saline, Sarpy, Saunders, Scotts Bluff, Seward, Sheridan, Sherman, Sioux, Stanton, Thayer, Thomas, Thurston, Valley, Washington, Wayne, Webster, Wheeler, York.

New Mexico: Bernalillo, Chaves, Curry, De Baca, Eddy, Guadalupe,

Lea, Mora, Quay, Roosevelt, San Miguel, Union, Valencia.

South Dakota. Jones, Stanley.

Tennessee. Bedford, Benton, Bledsoe, Bradley, Cannon, Carroll, Cheatham, Chester, Clay, Cocke, Coffee, Crockett, Cumberland, Decatur, DeKalb, Dickson, Dyer, Fayette, Franklin, Gibson, Giles, Grundy, Hamilton, Hardeman, Hardin, Hawkins, Haywood, Henderson, Henry, Hickman, Houston, Humphreys, Jackson, Lauderdale, Lawrence, Lincoln, Loudon, Macon, Madison, Marion, Marshall, Maury, McMinn, McNairy, Monroe, Montgomery, Moore, Obion, Overton, Pickett, Putnam, Rhea, Rutherford, Shelby, Smith, Stewart, Sumner, Tipton, Trousdale, Warren, Washington, Wayne, Weakley, White, Williamson, Wilson.

Texas. Anderson, Andrews, Angelina, Aransas, Archer, Atascosa, Austin, Bailey, Bandera, Bastrop, Baylor, Bee, Bell, Bexar, Blanco, Borden, Bosque, Bowie, Brazoria, Brazos, Briscoe, Brooks, Brown, Burleson, Burnet, Caldwell, Calhoun, Callahan, Cameron, Camp, Carson, Cass, Castro, Chambers, Cherokee, Clay, Cochran, Coke, Coleman, Collin, Collingsworth, Colorado, Comanche, Concho, Cooke, Coryell, Cottle, Crockett, Crosby, Dallam, Dallas, Dawson, Deaf Smith, Delta, Denton, De Witt, Dickens, Dimmitt, Donley, Duval, Eastland, Edwards, Ellis, El Paso, Erath, Falls, Fannin, Fayette, Fisher, Floyd, Foard, Fort Bend, Franklin, Freestone, Frio, Gaines, Galveston, Garza, Goliad, Gonzales, Grayson, Gregg, Grimes, Guadalupe, Hale, Hall, Hamilton, Hardeman, Hardin, Harris, Harrison, Haskell, Hays, Henderson, Hidalgo, Hill, Hockley, Hood, Hopkins, Houston, Howard, Hunt, Jack, Jackson, Jasper, Jefferson, Jim Hogg, Jim Wells, Johnson, Jones, Karnes, Kaufman, Kenedy, Kent, King, Kinney, Kleberg, Knox, Lamar, Lamb, Lampasas, La Salle, Lavaca, Lee, Leon, Liberty, Limestone, Live Oak, Lubbock, Lynn, McCulloch, McClellan, McMullen, Madison, Marlon, Matagorda, Maverick, Medina, Milam, Mills, Mitchell, Montague, Montgomery, Morris, Motley, Nacogdoches, Navarro, Nolan, Nueces, Oldham, Orange, Palo Pinto, Panola, Parker, Parmer, Pecos, Polk, Potter, Presidio, Rains, Randall, Red River, Reeves, Refugio, Robertson, Rockwall, Runnels, Rusk, Sabine, San Augustine, San Jacinto, San Patricio, San Saba, Scurry, Shackelford, Shelby, Smith, Somervell, Starr, Stephens, Stonewall, Swisher, Tarrant, Taylor, Terry, Throckmorton, Titus, Tom Green, Travis, Trinity, Tyler, Upshur, Upton, Uvalde, Van Zandt, Victoria, Walker, Waller, Washington, Webb, Wharton, Wheeler, Wichita, Wilbarger, Willacy, Williamson, Wilson, Wise, Wood, Young, Zapata, Zavala.

Utah. Box Elder, Cache.

Vermont. Addison, Chittenden, Franklin, Orleans.

Wyoming. Lincoln.

Puerto Rico. Arecibo, Camuy, Carolina, Gurabo, Hatillo, Isabela, Las Piedras, Naguabo, Quebradillas, San Sebastian.

§ 78.22 Noncertified Areas.

The following States, or specified portions thereof, are hereby designated as Noncertified Brucellosis Areas:

(a) *Entire States.* Yellowstone National Park.

(b) *Specific Counties Within States.* Florida. Okeechobee.

(Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; sec. 3, 33 Stat. 1285, as amended; sec. 2, 65 Stat. 693; and secs. 3 and 11, 76 Stat. 130, 132, 21 U.S.C. 111-113, 114a-1, 115, 117, 120, 121, 125, 134b, 134f; 37 FR 28464, 28477; 38 FR 19141, 9 CFR 78.25.)

The amendments impose certain restrictions necessary to prevent the spread of brucellosis in cattle and relieve certain restrictions presently imposed. They should be made effective promptly in order to accomplish their purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 27th day of January 1978.

The Animal and Plant Health Inspection Service has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

E. A. SCHILF,
Acting Deputy Administrator,
Veterinary Services.

[3410-34]

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 94—RINDERPEST, FOOT-AND-MOUTH DISEASE, FOWL PEST (FOWL PLAGUE), NEWCASTLE DISEASE (AVIAN PNEUMOENCEPHALITIS), AFRICAN SWINE FEVER, AND HOG CHOLERA: PROHIBITED AND RESTRICTED IMPORTATIONS

Transiting of Animal Products and Materials Through the United States

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final Rule.

SUMMARY: This document provides for the transiting of animal products and materials through the United States when such products or materials would otherwise be eligible for entry into the United States as restricted products or materials subject to special handling or processing at an approved establishment. In the absence of specific transiting provisions in the regulations, brokers, importers, exporters, and carriers have experienced many unusual problems and delays in the movement of restricted animal products and materials in foreign commerce when such animal products or materials are aboard transiting vessels or other means of conveyance which enter the United States. The effect of this amendment is to relieve existing barriers to foreign commerce associated with such movements by adding provisions to the regulations under which restricted animal products and materials may transit the United States.

EFFECTIVE DATE: February 3, 1978.

FOR FURTHER INFORMATION CONTACT:

Dr. B. T. Deal, USDA, APHIS, VS, Room 824, Federal Building, Hyattsville, Md. 20782, 301-436-8379.

SUPPLEMENTARY INFORMATION: On June 17, 1977, there was published in the FEDERAL REGISTER (42 FR 30844) a notice of proposed rulemaking which would provide for the transiting of animal products and materials through the United States when such products or materials would otherwise be eligible for entry into the United States as restricted products or materials subject to special handling or processing at an approved establishment. No comments were received in response to publication of this proposal. However, the proposed regulations contained provision for notification to the Deputy Administrator of Veterinary Services prior to the proposed importation. This promulgation has

been altered to provide that notification shall be furnished to the Plant Protection and Quarantine Officer at the port of arrival. This change has been made because such officer will be responsible for the handling of the proposed shipment. Therefore, it appears reasonable to notify such Plant Protection and Quarantine Officer instead of the Deputy Administrator, Veterinary Services. Additionally, because of the aforementioned change, notification must only be made prior to the transiting rather than one day prior to entry. The one day period had been proposed to allow the Deputy Administrator time to contact the PPQ officer at the port of entry. However, since notice is to be furnished directly to the PPQ officer at the port of entry, notification must only be made prior to transiting.

Accordingly, new § 94.15 of the regulations (9 CFR 94.15) is added to read:

§ 94.15 Animal products and materials; movement and handling.

Any animal product or material which would be eligible for entry into the United States, as specified in the regulations in this part, may transit through the United States for immediate export if the following conditions are met:

(a) Notification of the transiting of such animal product or material must be made by the importer to the Plant Protection and Quarantine Officer at the United States port of arrival prior to such transiting, and

(b) The animal product or material transited shall be contained in a sealed, leakproof carrier or container which shall remain sealed while aboard the transporting carrier or other means of conveyance, or if the container or carrier in which such animal product or material is transported is offloaded in the United States for reshipment, it shall remain sealed at all times.

(Sec. 306, 46 Stat. 689, as amended; sec. 2, 32 Stat. 792, as amended (19 U.S.C. 1306; 21 U.S.C. 111); 37 FR 28464, 28477; 38 FR 19141.)

Insofar as the amendment relieves certain restrictions presently imposed but no longer deemed necessary to prevent the spread of disease, and in order to avoid unnecessary interference with foreign commerce it should be made effective immediately to be of maximum benefit to affected persons.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, good cause is found for making this amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 30th day of January 1978.

NOTE.—The Animal and Plant Health Inspection Service has determined that this

document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

J. K. ATWELL,
Acting Deputy Administrator,
Veterinary Services.

Title 19—Customs Duties

CHAPTER I—U.S. CUSTOMS SERVICE

[T.D. 78-36]

PART 162—INSPECTION, SEARCH, AND SEIZURE

Filing of Petitions for Relief

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Final rule.

SUMMARY: This rule expands a district director's authority to grant an extension of time for filing a petition for relief from a fine, penalty, or forfeiture arising under the Customs or navigation laws. The regulations prescribe a 60-day period for filing a petition, with limited authority for a district director to extend the period if the person who is liable for a fine or penalty, or who has an interest in the property subject to forfeiture, is abroad or was abroad for 30 days or more of the filing period. By permitting the district director to extend the filing period for other good reasons of which he is aware, this rule continues the Customs policy of delegating decisionmaking authority to the level at which it can be most effectively exercised.

EFFECTIVE DATE: February 3, 1978.

FOR FURTHER INFORMATION CONTACT:

Marilyn Morrison, Entry Procedures and Penalties Division, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229, 202-566-5746.

SUPPLEMENTARY INFORMATION:

BACKGROUND

In pertinent part, section 162.32(a) of the Customs Regulations (19 CFR 162.32(a)) requires a person who is liable for a fine or penalty, or who has an interest in property subject to forfeiture, for any violation of the Customs or navigation laws to file a petition for relief within 60 days from the date that the notice of penalty is mailed. However, a district director may grant an extension of time for filing the petition if the person is outside the United States or was outside the United States for 30 days or more during the filing period. If a petition is

not filed within the 60-day period, the district director must refer the case to the United States attorney for the start of collection proceedings unless the Commissioner of Customs authorizes other action.

Because of the present limitations on a district director's authority to grant an extension of time for filing a petition, a request for such an extension usually must be referred to the Commissioner of Customs for decision, even though the district director is often in the best position to determine whether an extension of time is justified. Accordingly, section 162.32(a) of the Customs Regulations is being amended to increase the authority of a district director with respect to extensions of the filing period for petitions for relief. This amendment, which specifies additional situations in which a district director may act on a request for an extension of the filing period, does not affect the present authority of the Commissioner to grant an extension or to take any other action on a case.

DRAFTING INFORMATION

The principal author of the document is William G. Rosoff, Regulations and Legal Publications Division of the Office of Regulations and Rulings, United States Customs Service. However, personnel from other offices of the Customs Service participated in developing the document, both on matters of substance and style.

AMENDMENT TO THE REGULATIONS

This amendment is considered to be exempt from the notice requirements of 5 U.S.C. 553 because it solely concerns agency procedure.

Accordingly, section 162.32(a) of the Customs Regulations (19 CFR 162.32(a)) is amended to read as follows:

§ 162.32 Where petition for relief not filed.

(a) *Fines, penalties, and forfeitures.* If the person who is liable for a fine or penalty, or who has an interest in property subject to forfeiture, for any violation of the Customs or navigation laws fails to petition for relief in accordance with Part 171 of this chapter, or to pay or to arrange to pay the fine or penalty within 60 days from the date of mailing of the notice of violation as provided in section 162.31, the district director shall immediately refer the case to the U.S. attorney for judicial action unless the Commissioner of Customs expressly authorizes other action with respect to the case. However, if there is at least 1 year before the statute of limitations may be asserted as a defense, a district director may extend the time for filing a petition, upon the request of the person who is liable for a fine or penalty, or who has an interest in property subject to forfeiture, in the following situations:

1. The person is seriously ill or is otherwise incapacitated and is unable to prepare or to assist in the preparation of a petition.

2. The person is absent from the United States or was absent from the United States for 30 days or more during the 60-day filing period.

3. Necessary evidence or a necessary witness is not available through no fault of the person.

4. The case involves a complex legal or factual problem other than a classification, appraisal, or similar issue. Examples of the type of problem intended to be covered by this category are the need to examine voluminous records to learn the facts on which to base a petition or the need to determine legal responsibilities in a case involving numerous parties or numerous violations.

5. The existence of unusual circumstances, such as a fire or other disaster, affecting the business of the person which requires the full attention of that person in order to overcome the effects of the unusual circumstances.

6. Any other situation in which the district director determines that an extension of time for filing a petition is justified.

(R.S. 251, as amended; sec. 624, 46 Stat. 759 (19 U.S.C. 66, 1624).)

G. R. DICKERSON,
Acting Commissioner
of Customs.

Approved: January 18, 1978.

BETTE B. ANDERSON,
Under Secretary
of the Treasury.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL [Docket No. 76N-0366]

PART 81—GENERAL SPECIFICATIONS AND GENERAL RESTRICTIONS FOR PROVISIONAL COLOR ADDITIVES FOR USE IN FOODS, DRUGS, AND COSMETICS

Postponement of Closing Date

AGENCY: Food and Drug Administration.

ACTION: Final Rule.

SUMMARY: The Commissioner of Food and Drugs is postponing the closing date for the provisional listing of lead acetate. The new closing date is February 28, 1978.

EFFECTIVE DATE: January 31, 1978.

FOR FURTHER INFORMATION CONTACT:

Gerard L. McCowin, Bureau of Foods (HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street, SW., Washington, D.C. 20204, 202-472-5740.

SUPPLEMENTARY INFORMATION:

The current closing date of January 31, 1978 for the provisional listing of lead acetate was established by regulation published in the FEDERAL REGISTER of November 4, 1977 (42 FR 57886). In the FEDERAL REGISTER of December 13, 1977 (42 FR 62497), the Commissioner proposed to postpone the closing date for lead acetate until April 30, 1979 to allow time for the petitioner for listing of the color additive to develop additional data on the likelihood of lead acetate being absorbed through the skin. On January 20, 1978, a comment was received on that proposal from the Environmental Defense Fund (EDF) which opposed the proposal. On January 27, 1978, a response to the EDF comment was received from Combe, Inc., a manufacturer of hair coloring preparations containing lead acetate.

The closing date for the provisional listing of lead acetate is being postponed to permit time to evaluate fully the EDF comment, Combe's response, and other pertinent scientific material. The Commissioner will issue a notice in the FEDERAL REGISTER on or before February 28, 1978, which will contain his conclusions about continued provisional listing for lead acetate.

The Commissioner concludes that notice and public procedure on this regulation are impracticable and contrary to the public interest and that good cause exists for issuing this postponement as a final order. This regulation, to be effective on January 31, 1978, will permit the uninterrupted use of the affected color additive until further action is taken. Therefore, in accordance with 5 U.S.C. 553(b) and (d) (1) and (3), this postponement is issued as a final regulation and is being made effective on January 31, 1978.

Therefore, under the transitional provisions of the Color Additive Amendments of 1960 to the Federal Food, Drug, and Cosmetic Act (Title II, Pub. L. 86-618; sec. 203, 74 Stat. 404-407 (21 U.S.C. 378 note)) and under authority delegated to the Commissioner (21 CFR 5.1), Part 81 is amended in § 81.1. Provisional lists of color additives, by revising the entry for the closing date for the color additive lead acetate listed in paragraph (g) to read "February 28, 1978."

Effective date: January 31, 1978.
(Sec. 203, 74 Stat. 404-407 (21 U.S.C. note).)

Dated: January 31, 1978.

JOSEPH P. HILE,
Associate Commissioner for
Compliance.

[4110-03]

SUBCHAPTER B—FOOD FOR HUMAN CONSUMPTION

[Docket No. 76P-0500]

PART 135—FROZEN DESSERTS

Standards of Identity for Frozen Desserts; Confirmation of Effective Date of One Provision, and Revocation of Certain Stayed Provisions

AGENCY: Food and Drug Administration.

ACTION: Final rule and revocation of stayed regulations.

SUMMARY: This document confirms the revision for reduction in milk fat and nonfat milk solids when bulky flavors are added to ice milk and revokes revised standards for use of certain safe and suitable milk-derived ingredients and establishment of minimum milk protein requirements. These actions are taken in response to objections to the revised standards for frozen desserts.

EFFECTIVE DATES: Provisions confirmed—July 1, 1979; provisions revoked February 3, 1978.

FOR FURTHER INFORMATION CONTACT:

Eugene T. McGarrah, Bureau of Foods (HFF-415), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204, 202-245-1155.

SUPPLEMENTARY INFORMATION:

The Food and Drug Administration issued in the FEDERAL REGISTER of April 12, 1977 (42 FR 19127) a final regulation amending the identity standards for frozen desserts, primarily to: (1) Provide for full ingredient declaration of all the frozen desserts; (2) provide for the use of safe and suitable ingredients; and (3) provide for replacing the long-standing use of a nonfat milk solids minimum with a milk protein minimum. The regulation revised and reissued former 21 CFR 135.10, 135.20, 135.40, 135.65, 135.70, and 135.90 as 21 CFR 135.3, 135.110, 135.120, 135.140, and 135.160. Written objections and requests for a hearing were received. As a result of these objections, the Commissioner issued in the FEDERAL REGISTER of July 8, 1977 (42 FR 35152) a document confirming the effective date for the standard of identity for water ices and certain portions of the standards of identity for ice cream, frozen custard, ice milk, and sherbet. He stayed other portions of the ice cream, frozen custard, ice milk, and

sherbet standards pending the receipt and review of information he considered essential to make a final decision on the merits of granting requests for a hearing. He also provided an opportunity for all interested parties to submit more definitive data and information on the issues to which certain objections had been raised. With these data and information available, he stated that he would determine whether to grant or deny the requested hearing.

Pursuant to section 701(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 371(e)), the Commissioner has considered the objections and requests for a hearing, the supplemental information and data received in response to his July 8, 1977 regulation and other information that has become available. All the information and data considered are on file with the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857. The Commissioner's conclusions follow:

OBJECTIONS AND REQUEST FOR A HEARING

1. The effectiveness of the provision in the revised standard for reduction in milk solids when bulky flavors are added to ice milk (21 CFR 135.120(a)(2)), redesignated 135.120(a)(4) below) is confirmed.

The basis for the objection to this provision was that the standard before revision did not provide for a decrease in the milk solids content of ice milk when various amounts and kinds of bulky flavors are used to characterize ice milk. One comment urged that no allowance be made for bulky flavors in ice milk in order to prevent ice milk from being fraudulently sold as ice cream. No data or information to support this objection were submitted in response to the final regulation or to the Commissioner's July 8, 1977 document.

The Commissioner agrees that the former standard did not provide for the reduction objected to, but no supporting information has been forwarded to support the maintenance of a policy difference between ice milk and ice cream as it concerns bulky flavors. Ice cream manufacturing already makes allowance for bulky flavors, and the submissions provided no bases to support the assertion that the failure to make a similar allowance for bulky flavors in ice milk would help prevent fraud. Furthermore, the sale of ice milk as ice cream or some other different food would violate the act and would be subject to enforcement action. Therefore, the Commissioner concludes that this objection has not presented an issue of fact supported by data and information that warrants a hearing.

2. The provisions in the revised standards for the use of safe and suitable milk-derived ingredients and establishment of minimum milk protein requirements (as cited below) are revoked.

The agency has evaluated the information and data received in response to the July 8, 1977 request for information and has conducted its own studies, which have indicated that the revised standard could result in a reduction in nutrient levels in some frozen desserts. When it issued these standards, FDA did not expect that there would be measurable nutritional differences between ice cream made under the new standard and that made under the present one. But the agency's studies determined that under the new standard some ice cream formulations could have lesser amounts of some nutrients than under the current standard. For this reason, the Commissioner is revoking § 135.110(a)(1) (21 CFR 135.110(a)(1)) to the extent that it permits the use of safe and suitable milk-derived ingredients not specifically listed as permitted in former § 135.30 (c) and (e) (21 CFR 135.30 (c) and (e)). Therefore, former § 135.30 (c) and (e) are incorporated into § 135.110 as new paragraphs (b) and (c). Further, he is revoking § 135.110(a) (2) and (3) to the extent that they establish minimum milk protein requirements, and he is revoking § 135.110(b) (2) and (3), which specify the method of analysis for milk protein and PER. Therefore, from the former § 135.30 the nonfat milk solids requirements of paragraph (a), the whey limitation requirements of paragraph (c) and the caseinate limitation requirement of paragraph (e) are incorporated into § 135.110(a) (2) and (3), (b), and (c), respectively.

The Commissioner is revoking § 135.120(a)(2) (21 CFR 135.120(a)(2)) to the extent that it establishes minimum milk protein requirements. Therefore, the specific requirements of former § 135.40(b) with respect to total milk solids requirements and § 135.40(c) with respect to the caseinate limitation requirements are incorporated into § 135.120(a) (2) and (3), respectively.

The Commissioner also is revoking § 135.140(a)(1) (21 CFR 135.140(a)(1)) to the extent that it permits the use of safe and suitable milk-derived ingredients not specifically listed as permitted in former §§ 135.20 (c) and (e)(7) and 135.65 (c) and (e)(7). Therefore, former §§ 135.20 (c) and (e)(7) and 135.65 (c) and (e)(7) are incorporated into § 135.140 as new paragraphs (b) and (c). Further, he is revoking § 135.140(a)(2) with respect to the provisions for "nonfat milk-derived solids" and "milk-derived solids." Therefore, the requirements of former § 135.20(a) and § 135.65(a) with respect

to "nonfat milk solids" are incorporated into § 135.140(a)(2).

OTHER MATTERS

It is important to emphasize that the section requiring ingredient labeling is not being revoked and, as confirmed in the Commissioner's July 8, 1977 document, all products initially introduced into interstate commerce on or after July 1, 1979, shall fully comply.

The regulation will permit the use of safe and suitable ingredients, but only if the present requirements with respect to milkfat, nonfat milk solids, and source of dairy ingredients are satisfied, as sought in the objections. The Commissioner advises that vegetable proteins and other nondairy proteins would not be considered suitable ingredients and could not be used in ice cream because in ice cream the protein ingredients come from dairy sources.

The agency intends to examine further the larger issues raised by the ice cream standard debate, such as the concept that manufacturers can use "safe and suitable" ingredients instead of a strict recipe approach. The agency plans to hold hearings before the Commissioner as provided for in 21 CFR Part 15 later this year to gather public comment on this and related food-labeling issues. The information will help FDA decide on a new course of action, if needed, for the frozen dessert standard, particularly on the need to propose minimum nutrient requirements to assure that the use of "safe and suitable" ingredients will not reduce the nutrient levels of ice cream and related products. Any future changes in the frozen dessert standard will be made through a new rulemaking proceeding, after public notice, comments, and opportunity to file objections and request a hearing.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 401, 701(e), 52 Stat. 1046 as amended, 70 Stat. 919 as amended (21 U.S.C. 341, 371(e))) and under authority delegated to the Commissioner (21 CFR 5.1), notice is given that no objections raising substantial issues of fact requiring a hearing under section 701(e) of the act were received regarding § 135.120(a)(2) (21 CFR 135.120(a)(2)). Accordingly, the requests for a hearing on the objections regarding a reduction of milk solids when bulky flavors are added are denied. Further, certain provisions of Part 135 are revoked or amended as discussed in this preamble and reflected in the amendments below, thereby making a formal evidentiary public hearing, as provided for in 21 CFR Part 12, on these provisions unnecessary.

Part 135 is amended:

1. By revising § 135.110 to read as follows:

§ 135.110 Ice cream and frozen custard.

(a) *Description.* (1) Ice cream is a food produced by freezing, while stirring, a pasteurized mix consisting of one or more of the optional dairy ingredients specified in paragraph (b) of this section, and may contain one or more of the optional caseinates specified in paragraph (c) of this section subject to the conditions hereinafter set forth, and other safe and suitable nonmilk-derived ingredients; and excluding other food fats, except such as are natural components of flavoring ingredients used or are added in incidental amounts to accomplish specific functions. Ice cream is sweetened with nutritive carbohydrate sweeteners and may or may not be characterized by the addition of flavoring ingredients.

(2) Ice cream contains not less than 1.6 pounds of total solids to the gallon, and weighs not less than 4.5 pounds to the gallon. Ice cream contains not less than 10 percent milkfat, nor less than 10 percent nonfat milk solids, except that when it contains milkfat at 1 percent increments above the 10 percent minimum, it may contain the following milkfat-to-nonfat milk solids levels:

Percent milkfat	Minimum percent nonfat milk solids
10.....	10
11.....	9
12.....	8
13.....	7
14.....	6

Except that when one or more bulky flavors are used, the weights of milkfat and total milk solids are not less than 10 percent and 20 percent, respectively, of the remainder obtained by subtracting the weight of the bulky flavors from the weight of the finished food; but in no case is the weight of milkfat or total milk solids less than 8 percent and 16 percent, respectively, of the weight of the finished food. Except in the case of frozen custard, ice cream contains less than 1.4 percent egg yolk solids by weight of the food, exclusive of the weight of any bulky flavoring ingredients used. Frozen custard shall contain 1.4 percent egg yolk solids by weight of the finished food: *Provided, however*, That when bulky flavors are added the egg yolk solids content of frozen custard may be reduced in proportion to the amount by weight of the bulky flavors added, but in no case is the content of egg yolk solids in the finished food less than 1.12 percent. A product containing egg yolk solids in excess of 1.4 percent, the maximum set forth in this paragraph for ice cream, may be marketed if labeled as specified by paragraph (e)(1) of this section.

(3) When calculating the minimum amount of milkfat and nonfat milk solids required in the finished food, the solids of chocolate or cocoa used shall be considered a bulky flavoring

ingredient. In order to make allowance for additional sweetening ingredients needed when certain bulky ingredients are used, the weight of chocolate or cocoa solids used may be multiplied by 2.5; the weight of fruit or nuts used may be multiplied by 1.4; and the weight of partially or wholly dried fruits or fruit juices may be multiplied by appropriate factors to obtain the original weights before drying and this weight may be multiplied by 1.4.

(b) *Optional dairy ingredients.* The optional dairy ingredients referred to in paragraph (a) of this section are: Cream, dried cream, plastic cream (sometimes known as concentrated milk fat), butter, butter oil, milk, concentrated milk, evaporated milk, sweetened condensed milk, superheated condensed milk, dried milk, skim milk, concentrated skim milk, evaporated skim milk, condensed skim milk, superheated condensed skim milk, sweetened condensed skim milk, sweetened condensed part-skim milk, nonfat dry milk, sweet cream buttermilk, condensed sweet cream buttermilk, dried sweet cream buttermilk, skim milk that has been concentrated and from which part of the lactose has been removed by crystallization, skim milk in concentrated or dried form which has been modified by treating the concentrated skim milk with calcium hydroxide and disodium phosphate, concentrated cheese whey, and dried cheese whey. Water may be added, or water may be evaporated from the mix. The sweet cream buttermilk and the concentrated sweet cream buttermilk or dried sweet cream buttermilk, when adjusted with water to a total solids content of 8.5 percent, has a titratable acidity of not more than 0.17 percent, calculated as lactic acid. The term "milk" as used in this section means cow's milk. Any concentrated cheese whey and dried cheese whey used contribute not more than 25 percent by weight of the total nonfat milk solids content of the finished food. Dried cheese whey is uniformly light in color, free from brown and black scorched particles, and has an alkalinity of ash, not more than 225 milliliters 0.1N HCl per 100 grams, a bacterial count of not more than 50,000 per gram, and, as adjusted with water to a total solids content of 6.5 percent, a titratable acidity of not more than 0.16 percent, calculated as lactic acid. Concentrated cheese whey has an alkalinity of ash, not more than 115 milliliters 0.1N HCl per 100 grams, a bacterial count of not more than 50,000 per gram, and, as adjusted with water to a total solids content of 6.5 percent, a titratable acidity of not more than 0.18 percent, calculated as lactic acid. The modified skim milk, when adjusted with water to a total solids content of 9 percent is substantially free of lactic acid as determined by titration with

0.1N NaOH, and it has a pH value in the range of 8.0 to 8.3.

(c) *Optional caseinates.* The optional caseinates referred to in paragraph (a) of this section that may be added to ice cream mix containing not less than 20 percent total milk solids are: Casein prepared by precipitation with gums, ammonium caseinate, calcium caseinate, potassium caseinate, and sodium caseinate. Caseinate may be added in liquid or dry form, but must be free of excess alkali.

(d) *Methods of analysis.* Fat content shall be determined by the following methods contained in the "Official Methods of Analysis of the Association of Official Analytical Chemists," 12th ed., 1975.¹

(1) Fat content shall be determined by the method: "Fat; Roese-Gottlieb Method—Official Final Action," section 16.228.

(2) [Reserved]

(e) *Nomenclature.* (1) The name of the food is "ice cream"; except that when the egg yolk solids content of the food is in excess of that specified for ice cream by paragraph (a) of this section, the name of the food is "frozen custard" or "french ice cream" or "french custard ice cream".

(2) (i) If the food contains no artificial flavor, the name on the principal display panel or panels of the label shall be accompanied by the common or usual name of the characterizing flavor, e.g., "vanilla", in letters not less than one-half the height of the letters used in the words "ice cream".

(ii) If the food contains both a natural characterizing flavor and an artificial flavor simulating it, and if the natural flavor predominates, the name on the principal display panel or panels of the label shall be accompanied by the common name of the characterizing flavor, in letters not less than one-half the height of the letters used in the words "ice cream", followed by the word "flavored", in letters not less than one-half the height of the letters in the name of the characterizing flavor, e.g., "Vanilla flavored", or "Peach flavored", or "Vanilla flavored and Strawberry flavored".

(iii) If the food contains both a natural characterizing flavor and an artificial flavor simulating it, and if the artificial flavor predominates, or if artificial flavor is used alone the name on the principal display panel or panels of the label shall be accompanied by the common name of the characterizing flavor in letters not less than one-half the height of the letters used in the words "ice cream", preceded by "artificial" or "artificially flavored", in letters not less than one-half the

¹ Copies may be obtained from: Association of Official Analytical Chemists, Post Office Box 540, Benjamin Franklin Station, Washington, D.C. 20044.

height of the letters in the name of the characterizing flavor, e.g., "artificial Vanilla", or "artificially flavored Strawberry" or "artificially flavored Vanilla and artificially flavored Strawberry".

(3)(i) If the food is subject to the requirements of paragraph (e)(2)(ii) of this section or if it contains any artificial flavor not simulating the characterizing flavor, the label shall also bear the words "artificial flavor added" or "artificial ——— flavor added", the blank being filled with the common name of the flavor simulated by the artificial flavor in letters of the same size and prominence as the words that precede and follow it.

(ii) Wherever the name of the characterizing flavor appears on the label so conspicuously as to be easily seen under customary conditions of purchase, the words prescribed by this paragraph shall immediately and conspicuously precede or follow such name, in a size reasonably related to the prominence of the name of the characterizing flavor and in any event the size of the type is not less than 6-point on packages containing less than 1 pint, not less than 8-point on packages containing at least 1 pint but less than one-half gallon, not less than 10-point on packages containing at least one-half gallon but less than 1 gallon, and not less than 12-point on packages containing 1 gallon or over: *Provided, however*, That where the characterizing flavor and a trademark or brand are presented together, other written, printed, or graphic matter that is a part of or is associated with the trademark or brand, may intervene if the required words are in such relationship with the trademark or brand as to be clearly related to the characterizing flavor: *And provided further*, That if the finished product contains more than one flavor of ice cream subject to the requirements of this paragraph, the statements required by this paragraph need appear only once in each statement of characterizing flavors present in such ice cream, e.g., "Vanilla flavored, Chocolate, and Strawberry flavored, artificial flavors added".

(4) If the food contains both a natural characterizing flavor and an artificial flavor simulating the characterizing flavor, any reference to the natural characterizing flavor shall, except as otherwise authorized by this paragraph, be accompanied by a reference to the artificial flavor, displayed with substantially equal prominence, e.g., "strawberry and artificial strawberry flavor".

(5) An artificial flavor simulating the characterizing flavor shall be deemed to predominate:

(i) In the case of vanilla beans or vanilla extract used in combination with vanillin if the amount of vanillin used

is greater than 1 ounce per unit of vanilla constituent, as that term is defined in § 169.3(c) of this chapter.

(ii) In the case of fruit or fruit juice used in combination with artificial fruit flavor, if the quantity of the fruit or fruit juice used is such that, in relation to the weight of the finished ice cream, the weight of the fruit or fruit juice, as the case may be (including water necessary to reconstitute partially or wholly dried fruits or fruit juices to their original moisture content) is less than 2 percent in the case of citrus ice cream, 6 percent in the case of berry or cherry ice cream, and 10 percent in the case of ice cream prepared with other fruits.

(iii) In the case of nut meats used in combination with artificial nut flavor, if the quantity of nut meats used is such that, in relation to the finished ice cream the weight of the nut meats is less than 2 percent.

(iv) In the case of two or more fruits or fruit juices, or nut meats, or both, used in combination with artificial flavors simulating the natural flavors and dispersed throughout the food, if the quantity of any fruit or fruit juice or nut meat is less than one-half the applicable percentage specified in paragraph (e)(5) (ii) or (iii) of this section. For example, if a combination ice cream contains less than 5 percent of bananas and less than 1 percent of almonds it would be "artificially flavored banana-almond ice cream". However, if it contains more than 5 percent of bananas and more than 1 percent of almonds it would be "banana-almond flavored ice cream".

(6) If two or more flavors of ice cream are distinctively combined in one package, e.g., "Neapolitan" ice cream, the applicable provisions of this paragraph shall govern each flavor of ice cream comprising the combination.

(f) *Label declaration.* Each of the optional ingredients used shall be declared on the label as required by the applicable sections of Part 101 of this chapter, except that sources of milkfat or milk solids not fat may be declared in descending order of predominance either by the use of all the terms "milkfat and nonfat milk" when one or any combination of two or more of the ingredients listed in § 101.4(b) (3), (4), (8), and (9) of this chapter are used or alternatively as permitted in § 101.4 of this chapter. Pursuant to section 402(k) of the Federal Food, Drug, and Cosmetic Act artificial color need not be declared in ice cream. Voluntary declaration of such color in ice cream is recommended.

2. By revising § 135.120 to read as follows:

§ 135.120 Ice milk.

(a) *Description.* Ice milk is the food prepared from the same ingredients

and in the same manner prescribed in § 135.110 for ice cream and complies with all the provisions of § 135.110 (including the requirements for label statement of optional ingredients), except that:

(1) Its content of milkfat is more than 2 percent but not more than 7 percent.

(2) Its content of total milk solids is not less than 11 percent.

(3) Caseinates may be added when the content of total milk solids is not less than 11 percent.

(4) The provision for reduction in milkfat and nonfat milk solids content from the addition of bulky flavors in § 135.110(a) applies, except that in no case will the milkfat content be less than 2 percent, nor the nonfat milk solids content be less than 7 percent. When the milkfat content increases in increments of 1 percent above the 2 percent minimum, it may contain the following milkfat-to-nonfat milk solids levels:

Percent milkfat	Minimum percent nonfat milk solids
2.....	9
3.....	8
4.....	7
5.....	6
6.....	5
7.....	4

(5) The quantity of food solids per gallon is not less than 1.3 pounds.

(6) When any artificial coloring is used in ice milk, directly or as a component of any other ingredient, the label shall bear the statement "artificially colored", "artificial coloring added", "with added artificial color", or "———, an artificial color added", the blank being filled in with the common or usual name of the artificial color; or in lieu thereof, in case the artificial color is a component of another ingredient, "——— artificially colored".

(7) If both artificial color and artificial flavoring are used, the label statements may be combined.

(b) *Nomenclature.* The name of the food is "ice milk".

3. By revising § 135.140 to read as follows:

§ 135.140 Sherbet.

(a) *Description.* (1) Sherbet is a food produced by freezing, while stirring, a pasteurized mix consisting of one or more of the optional dairy ingredients specified in paragraph (b) of this section, and may contain one or more of the optional caseinates specified in paragraph (c) of this section subject to the conditions hereinafter set forth, and other safe and suitable nonmilk-derived ingredients; and excluding other food fats, except such as are added in small amounts to accomplish specific functions or are natural components of flavoring ingredients used. Sherbet is sweetened with nutritive carbohydrate sweeteners and is char-

acterized by the addition of one or more of the characterizing fruit ingredients specified in paragraph (b) of this section or one or more of the nonfruit-characterizing ingredients specified in paragraph (c) of this section.

(2) Sherbet weighs not less than 6 pounds to the gallon. The milkfat content is not less than 1 percent nor more than 2 percent, the nonfat milk-derived solids content not less than 1 percent, and the total milk or milk-derived solids content is not less than 2 percent nor more than 5 percent by weight of the finished food. Sherbet that is characterized by a fruit ingredient shall have a titratable acidity, calculated as lactic acid, of not less than 0.35 percent.

(b) *Optional dairy ingredients.* The optional dairy ingredients referred to in paragraph (a) of this section are: Cream, dried cream, plastic cream (sometimes known as concentrated milk fat), butter, butter oil, milk, concentrated milk, evaporated milk, superheated condensed milk, sweetened condensed milk, dried milk, skim milk, concentrated skim milk, evaporated skim milk, condensed skim milk, superheated condensed skim milk, sweetened condensed skim milk, sweetened condensed part-skim milk, nonfat dry milk, sweet cream buttermilk, condensed sweet cream buttermilk, dried sweet cream buttermilk, skim milk that has been concentrated and from which part of the lactose has been removed by crystallization, concentrated cheese whey, and dried cheese whey. Water may be added, or water may be evaporated from the mix. The sweet cream buttermilk and the concentrated sweet cream buttermilk or dried sweet cream buttermilk, when adjusted with water to a total solids content of 8.5 percent, has a titratable acidity of not more than 0.17 percent, calculated as lactic acid. The term "milk" as used in this section means cow's milk. Dried cheese whey is uniformly light in color, free from brown and black scorched particles, and has an alkalinity of ash, not more than 225 milliliters 0.1N HCl per 100 grams, a bacterial count of not more than 50,000 per gram, and, as adjusted with water to a total solids content of 6.5 percent, a titratable acidity of not more than 0.16 percent calculated as lactic acid. Concentrated cheese whey has an alkalinity of ash, not more than 115 milliliters 0.1N HCl per 100 grams, a bacterial count of not more than 50,000 per gram, and, as adjusted with water to a total solids content of 6.5 percent, a titratable acidity of not more than 0.18 percent, calculated as lactic acid.

(c) *Optional caseinates.* The optional caseinates referred to in paragraph (a) of this section which may be added to sherbet mix are: Casein prepared by precipitation with gums, ammonium caseinate, calcium caseinate, potas-

sium caseinate, and sodium caseinate. Caseinates may be added in liquid or dry form, but must be free of excess alkali. Such caseinates are not considered to be milk solids.

(d) *Optional fruit-characterizing ingredients.* The optional fruit-characterizing ingredients referred to in paragraph (a) of this section are any mature fruit or the juice of any mature fruit. The fruit or fruit juice used may be fresh, frozen, canned, concentrated, or partially or wholly dried. The fruit may be thickened with pectin or other optional ingredients. The fruit is prepared by the removal of pits, seeds, skins, and cores, where such removal is usual in preparing that kind of fruit for consumption as fresh fruit. The fruit may be screened, crushed, or otherwise comminuted. It may be acidulated. In the case of concentrated fruit or fruit juices, from which part of the water is removed, substances contributing flavor volatilized during water removal may be condensed and reincorporated in the concentrated fruit or fruit juice. In the case of citrus fruits, the whole fruit, including the peel but excluding the seeds, may be used, and in the case of citrus juice or concentrated citrus juices, cold-pressed citrus oil may be added thereto in an amount not exceeding that which would have been obtained if the whole fruit had been used. The quantity of fruit ingredients used is such that, in relation to the weight of the finished sherbet, the weight of fruit or fruit juice, as the case may be (including water necessary to reconstitute partially or wholly dried fruits or fruit juices to their original moisture content), is not less than 2 percent in the case of citrus sherbets, 6 percent in the case of berry sherbets, and 10 percent in the case of sherbets prepared with other fruits. For the purpose of this section, tomatoes and rhubarb are considered as kinds of fruit.

(e) *Optional nonfruit characterizing ingredients.* The optional nonfruit characterizing ingredients referred to in paragraph (a) of this section include but are not limited to the following:

- (1) Ground spice or infusion of coffee or tea.
- (2) Chocolate or cocoa, including sirup.
- (3) Confectionery.
- (4) Distilled alcoholic beverage, including liqueurs or wine, in an amount not to exceed that required for flavoring the sherbet.
- (5) Any natural or artificial food flavoring (except any having a characteristic fruit or fruit-like flavor).

(f) *Nomenclature.* (1) The name of each sherbet is as follows:

(i) The name of each fruit sherbet is "— sherbet", the blank being filled in with the common name of the fruit

or fruits from which the fruit ingredients used are obtained. When the names of two or more fruits are included, such names shall be arranged in order of predominance, if any, by weight of the respective fruit ingredients used.

(ii) The name of each nonfruit sherbet is "— sherbet", the blank being filled in with the common or usual name or names of the characterizing flavor or flavors; for example, "peppermint", except that if the characterizing flavor used is vanilla, the name of the food is "— sherbet", the blank being filled in as specified by § 135.110(e) (2) and (5)(i).

(2) When the optional ingredients, artificial flavoring, or artificial coloring are used in sherbet, they shall be named on the label as follows:

(i) If the flavoring ingredient or ingredients consists exclusively of artificial flavoring, the label designation shall be "artificially flavored".

(ii) If the flavoring ingredients are a combination of natural and artificial flavors, the label designation shall be "artificial and natural flavoring added".

(iii) The label shall designate artificial coloring by the statement "artificially colored", "artificial coloring added", "with added artificial coloring", or "—, an artificial color added", the blank being filled in with the name of the artificial coloring used.

(g) *Characterizing flavor(s).* Wherever there appears on the label any representation as to the characterizing flavor or flavors of the food and such flavor or flavors consist in whole or in part of artificial flavoring, the statement required by paragraph (f)(2) (i) and (ii) of this section, as appropriate, shall immediately and conspicuously precede or follow such representation, without intervening written, printed, or graphic matter (except that the word "sherbet" may intervene) in a size reasonably related to the prominence of the name of the characterizing flavor and in any event the size of the type is not less than 6-point on packages containing less than 1 pint, not less than 8-point on packages containing at least 1 pint but less than one-half gallon, not less than 10-point on packages containing at least one-half gallon but less than 1 gallon, and not less than 12-point on packages containing 1 gallon or over.

(h) *Display of statements required by paragraph (f)(2).* Except as specified in paragraph (g) of this section, the statements required by paragraph (f)(2) of this section shall be set forth on the principal display panel or panels of the label with such prominence and conspicuousness as to render them likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

(i) *Label declaration.* Each of the optional ingredients used shall be declared on the label as required by the applicable sections of Part 101 of this chapter.

Effective date: Compliance with the confirmed provision of this regulation, including any required labeling changes, may have begun on June 13, 1977, and all products initially introduced into interstate commerce on or after July 1, 1979, shall fully comply. As to the provisions hereby revoked, the effective date is February 3, 1978.

(Secs. 401, 701(e), 52 Stat. 1046 as amended, 70 Stat. 919 as amended (21 U.S.C. 341, 371(e)).)

Dated: January 30, 1978.

DONALD KENNEDY,
Commissioner of Food and Drugs.

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS
PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Diethylcarbamazine Citrate Tablets

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The animal drug regulations are amended to reflect approval for a new animal drug application (NADA) providing for use of an antitoxic tablet as an aid in treatment of ascarids in dogs and cats and prevention of heartworm disease in dogs. The application was filed by Philips Roxane, Inc.

EFFECTIVE DATE: February 3, 1978.
FOR FURTHER INFORMATION CONTACT:

Henry C. Hewitt, Bureau of Veterinary Medicine (HFV-112), Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3430.

SUPPLEMENTARY INFORMATION: Philips Roxane, Inc., St. Joseph, Mo. 64502, filed an NADA (108-487V) providing for use of diethylcarbamazine citrate tablets as an aid in treatment of ascarids (*T. canis* and *T. leonina*) in dogs and cats and prevention of heartworm disease (*Dirofilaria immitis*) in dogs.

In accordance with the freedom of information regulations and § 514.11 (e)(2)(ii) of the animal drug regulations (21 CFR 514.11(e)(2)(ii)), a summary of the safety and effectiveness data and information submitted to support the approval of this application is released publicly. The summary is available for public examination at

the office of the Hearing Clerk (HFC-20), Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857, between 9 a.m. and 4 p.m., Monday through Friday, except on Federal holidays.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i) 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), Part 520 is amended in § 520.622a by revising paragraph (a) to read as follows:

§ 520.622a Diethylcarbamazine citrate tablets.

(a) (1) *Specifications.* Each tablet contains 50, 200, or 400 milligrams of diethylcarbamazine citrate.

(2) *Sponsors.* See Nos. 000010 and 010042 in § 510.600(c) of this chapter.

(3) *Conditions of use—(i) Amount.* (a) 25 to 50 milligrams per pound of body weight as an aid in treatment of ascarid infections.

(b) 3 milligrams per pound of body weight daily for prevention of heartworm disease.

(ii) *Indications for use.* As an aid in treatment of ascarid (*Toxocara canis* and *Toxascaris leonina*) infections in dogs and cats; for prevention of heartworm disease (*Dirofilaria immitis*) in dogs.

(iii) *Limitations.* Tablets are administered orally or pulverized and given in the feed or water. For treatment of ascarids, a repeat dose should be given in 10 to 20 days to remove immature worms that may enter the intestine from the lungs after the first dose. Dogs with established heartworm infections should not receive the drug until they have been converted to a negative status by the use of adulticidal and microfilaricidal drugs. Inadvertent administration to heartworm infected dogs may cause adverse reactions due to pulmonary occlusion. Overdosage may cause emesis. For prevention of heartworm disease in heartworm endemic areas, administration of the drug should start at the beginning of mosquito activity and be continued daily throughout the mosquito season and for approximately a month thereafter. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Effective date: February 3, 1978.
(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated: January 24, 1978.

FRED J. KINGMA,
Acting Director, Bureau of
Veterinary Medicine.

[4110-03]

PART 540—PENICILLIN ANTIBIOTIC DRUGS FOR ANIMAL USE

Amoxicillin Trihydrate Oral Suspension

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The animal drug regulations are amended to reflect approval of a new animal drug application (NADA) filed by Beecham Laboratories providing for use of an amoxicillin suspension for treatment of porcine colibacillosis in baby pigs.

EFFECTIVE DATE: February 3, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles E. Haines, Bureau of Veterinary Medicine (HFV-138), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3410.

SUPPLEMENTARY INFORMATION: Beecham Laboratories, Division of Beecham, Inc., Bristol, Tenn. 37620, filed an NADA (55-080V) providing for use of amoxicillin trihydrate oral suspension in treating porcine colibacillosis in pigs under 4 weeks of age.

In accordance with the freedom of information regulations and § 514.11(e)(2)(ii) of the animal drug regulations, a summary of safety and effectiveness data and information submitted to support approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk (HFC-20), Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, Monday through Friday, from 9 a.m. to 4 p.m., except on Federal holidays.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))), and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), Part 540 is amended by adding new § 540.103c to read as follows:

§ 540.103c Amoxicillin trihydrate oral suspension.

(a) *Requirements for certification—*

(1) *Standards of identity, strength, quality, and purity.* Amoxicillin trihydrate oral suspension is composed of amoxicillin trihydrate with a suitable and harmless preservative and gelling agent suspended in soybean oil base. The drug is packaged in a multiple-dose container incorporating a suitable dosing pump. Each 0.8-milliliter dose contains amoxicillin trihydrate equivalent to 40 milligrams of amoxicillin. Its potency is satisfactory if it is not less than 90 percent and not more

than 120 percent of the labeled amount of amoxicillin. Its moisture content is not more than 2 percent. It passes the identity test for amoxicillin. The amoxicillin trihydrate used conforms to the standards prescribed by § 440.3(a)(1) of this chapter.

(2) *Labeling.* It shall be labeled in accordance with the requirements of paragraph (c) of this section and § 510.55 of this chapter. In addition, it shall be labeled "amoxicillin oral suspension."

(3) *Request for certification; samples.* In addition to complying with the requirements of § 514.50 of this chapter, each such request shall contain:

(i) The results of tests and assays on:

(a) The amoxicillin trihydrate used in making the batch for potency, safety, moisture, pH, amoxicillin content, concordance, crystallinity, and identity.

(b) The batch for potency, moisture, and identity.

(ii) Samples required:

(a) The amoxicillin trihydrate used in making the batch: 12 packages, each containing approximately 300 milligrams.

(b) The batch: A minimum of eight immediate containers.

(b) *Tests and methods of assay—(1) Potency.* Assay for potency by either of the following methods; however, the results obtained from the microbiological assay shall be conclusive:

(i) *Microbiological agar diffusion assay.* Proceed as directed in § 436.105 of this chapter, preparing the sample for assay as follows: Using the dosing pump, deliver one dose of the sample into a high-speed glass blender jar containing 1 milliliter of polysorbate 80 and sufficient 0.1 M potassium phosphate buffer, pH 8.0 (solution 3) to give a final volume of 500 milliliters. Blend for 3 to 5 minutes. Further dilute an aliquot of this stock solution with solution 3 to the reference concentration of 0.1 microgram of amoxicillin per milliliter (estimated).

(ii) *Iodometric assay.* Proceed as directed in § 436.204 of this chapter, preparing the sample as follows: Place an accurately measured aliquot (5 pump doses are suggested) of the suspension into a separatory funnel containing 100 milliliters of petroleum ether and shake vigorously until homogeneous. Add 140 milliliters of distilled water and shake for 5 minutes. Allow the layers to separate, and drain the lower aqueous layer into a 250-milliliter volumetric flask. Repeat the extraction twice with 50-milliliter portions of distilled water, combining the second and third extracts with the first and diluting to volume with distilled water.

(2) *Moisture.* Proceed as directed in § 436.201 of this chapter.

(3) *Amoxicillin identity.* Proceed as directed in § 436.311 of this chapter

preparing the sample solution as follows: Place 1.0 milliliter of the well shaken sample into a 50-milliliter volumetric flask. Bring to volume with a 4:1 solution of acetone and 0.1 N hydrochloric acid.

(c) *Conditions of marketing—(1) Specifications.* The drug conforms to the requirements of paragraph (a) of this section.

(2) *Sponsor.* See No. 000029 in § 510.600(c) of this chapter.

(3) *Related tolerances.* See § 556.510 of this chapter.

(4) *Conditions of use in swine—(1) Amount.* 40 milligrams once or twice a day orally using a dosing pump, not to exceed 5 days.

(ii) *Indications for use.* For treatment of pigs under 4 weeks of age for porcine colibacillosis caused by *Escherichia coli* susceptible to amoxicillin.

(iii) *Limitations.* Do not slaughter animals during treatment or for 15 days after latest treatment. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Effective date: February 3, 1978

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated: January 24, 1978.

FRED J. KINGMA,

Acting Director, Bureau of

Veterinary Medicine.

[4110-03]

PART 540—PENICILLIN ANTIBIOTIC DRUGS FOR ANIMAL USE

Sterile Ampicillin Trihydrate Suspension

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The animal drug regulations are amended to reflect approval of a new animal drug application (NADA), filed by Beecham Laboratories, providing for the use of sterile ampicillin trihydrate suspension for treating dogs for certain bacterial infections.

EFFECTIVE DATE: February 3, 1978.

FOR FURTHER INFORMATION CONTACT:

Robert A. Baldwin, Bureau of Veterinary Medicine (HFV-114), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3420.

SUPPLEMENTARY INFORMATION: Beecham Laboratories, Division of Beecham, Inc., Bristol, Tenn. 37620, filed an NADA (55-079V) providing for the use of sterile ampicillin trihydrate suspension for treating dogs for bacterial infections of the respiratory tract and soft tissues when caused by susceptible organisms.

In accordance with the freedom of information regulations and § 514.11 (e)(2)(ii) (21 CFR 514.11(e)(2)(ii)) of the animal drug regulations, a summary of the safety and effectiveness data and information submitted to support approval of this application is released publicly. The summary is available for public examination at the Office of the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, Monday through Friday, 9 a.m. to 4 p.m., except on Federal holidays.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512 (i) and (n), 82 Stat. 347, 350-351 (21 U.S.C. 360b (i) and (n)), and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), Part 540 is amended in § 540.207a by revising paragraphs (a) (1) and (c) to read as follows:

§ 540.207a Sterile ampicillin trihydrate suspension.

(a) *Requirements for certification—(1) Standards of identity, strength, quality, and purity.* Sterile ampicillin trihydrate suspension is ampicillin trihydrate in a suitable and harmless oil base. It may contain one or more suitable and harmless preservatives, antioxidants, and complexing or suspending agents. It contains, in each milliliter, an amount of ampicillin trihydrate equivalent to 150 or 200 milligrams of ampicillin. Its potency is satisfactory if it is not less than 90 percent and not more than 120 percent of the number of milligrams of ampicillin that it is represented to contain. It is sterile. Its moisture content is not more than 4.0 percent. The ampicillin trihydrate used conforms to the requirements of § 440.7a(a)(1) of this chapter.

(c) *Conditions of marketing—(1) Specifications.* Sterile ampicillin suspension contains 200 milligrams of ampicillin (as ampicillin trihydrate) per milliliter of nonaqueous vehicle and conforms to the requirements of paragraph (a) of this section.

(i) *Sponsor.* See No. 000003 in § 510.600(c) of this chapter.

(ii) *Related tolerances.* See § 556.40 of this chapter.

(iii) *Conditions of use—(a) In calves.* (1) Administer intramuscularly for the treatment of bacterial enteritis caused by *E. coli* susceptible to ampicillin.

(2) Administer at a dose of 3 milligrams per pound of body weight, once or twice daily, for up to 3 days.

(3) It is not for use in other animals raised for food production.

(4) Treated animals must not be slaughtered for food use during treatment or for 9 days after the last treatment.

(5) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

(b) *In dogs.* (1) Administer intramuscularly for the treatment of respiratory tract infections due to *E. coli*, *Pseudomonas spp.*, *Proteus spp.*, *Staphylococcus spp.*, and *Streptococcus spp.*; tonsillitis due to *E. coli*, *Pseudomonas spp.*, *Streptococcus spp.*, and *Staphylococcus spp.*; generalized infections (septicemia) associated with abscesses, lacerations, and wounds due to *Staphylococcus spp.* and *Streptococcus spp.*

(2) Administer at a dose of 3 to 6 milligrams per pound of body weight once or twice daily until at least 48 hours after the animal's temperature has returned to normal and other signs of infection have subsided. Usual treatment is 3 to 5 days.

(3) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

(c) *In cats.* (1) Administer intramuscularly or subcutaneously for the treatment of generalized infections (septicemia) associated with abscesses, lacerations, and wounds due to *Staphylococcus spp.*, *Streptococcus spp.*, and *Pasteurella spp.*

(2) Administer at a dose of 5 to 10 milligrams per pound of body weight once or twice daily until at least 48 hours after the animal's temperature has returned to normal and other signs of infection have subsided. Usual treatment is 3 to 5 days.

(3) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

(d) *In swine.* (1) Administer intramuscularly for the treatment of bacterial enteritis (colibacillosis) caused by *E. coli* and bacterial pneumonia caused by *Pasteurella spp.* susceptible to ampicillin.

(2) Administer at a dose of 3 milligrams per pound of body weight, once or twice daily, for up to 3 days.

(3) Treated animals must not be slaughtered for food use during treatment or for 15 days after the last treatment.

(4) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

(2) *Specifications.* The drug contains 150 milligrams of ampicillin (as ampicillin trihydrate) per milliliter of nonaqueous vehicle and conforms to the requirements of paragraph (a) of this section.

(i) *Sponsor.* See No. 000029 in § 510.600(c) of this chapter.

(ii) *Related tolerances.* See § 556.40 of this chapter.

(iii) *Conditions of use—(a) In dogs.* Administer at a dose of 3 to 5 milligrams of ampicillin per pound of body weight, once a day for up to 4 days.

(1) *Indications for use.* It is used in the treatment of bacterial infections

of the upper respiratory tract (tonsillitis) due to *Streptococcus spp.*, *Staphylococcus spp.*, *E. coli*, *Proteus spp.*, and *Pasteurella spp.*, and soft tissue infections (abscesses, lacerations, and wounds) due to *Staphylococcus spp.*, *Streptococcus spp.*, and *Escherichia coli*, when caused by susceptible organisms.

(2) *Limitations.* Administer intramuscularly. If continued treatment is indicated, oral dosage is recommended. As with all antibiotics, appropriate in vitro culturing and susceptibility tests of samples taken before treatment are recommended. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

(b) [Reserved]

Effective date. This regulation is effective February 3, 1978.

(Sec. 512 (i) and (n), 82 Stat. 347, 350-351 (21 U.S.C. 360b (i) and (n)).)

Dated: January 24, 1978.

CHAPTER I—INTERNAL REVENUE SERVICE,
DEPARTMENT OF THE TREASURY

SUBCHAPTER A—INCOME TAX
[T.D. 7528]

PART 1—INCOME TAX; TAXABLE YEARS
BEGINNING AFTER DECEMBER 31, 1953

Certain Controlled Corporations

Correction

In FR Doc. 78-36813, appearing at page 64690 in the issue of Wednesday, December 28, 1977, make the following changes:

1. On page 64692, the period at the end of the second line of § 1.1561-2(b)(3)(ii) should be deleted and a hyphen should be inserted between the words "par-lent" and "subsidiary" in the 20th line of Example (2) in paragraph (e).

2. On page 64693, first column, the first and second entries under "Corporation Y" should read, "1974 184/365 of \$24,900" and "1975 181/365 of \$20,700".

3. On page 64694, first column, the second line of the second amendment under paragraph 10 (in small print) should read, "letting '§ 1.151-2' in the last sentence and in—".

4. On page 64694, second column, the section heading designated "§ 1.801-2" should be designated "§ 1.804-2".

5. On page 64697, the next to last word in the eleventh line of § 1.1561-3(b) should read, "the".

6. On page 64700, first column, the comma in the ninth line of Example 1 in § 1.1561-2A(a)(4) should be a period and the eleventh line of Example 2 should read, "is an amount equal to \$12,500 (\$25,000 ÷ 2)."

7. On page 64701, first column, the 23rd and 24th lines of § 1.1561-3A(a) should read, "required to consent to the plan under paragraph (b)(1) of this section files the".

8. On page 64701, first column, the 32nd and 33rd lines of § 1.1561-3A(a) should read, "with paragraph (a)(1)(i) of § 1.1561-2A. (If a valid apportionment plan is adopted)".

SUBCHAPTER D—MISCELLANEOUS EXCISE TAXES
[T.D. 7491]

PART 54—PENSION, ETC., EXCISE TAXES

Exemptions for the Provision of Services or Office Space to Employee Benefit Plans, the Investment of Plan Assets in Bank Deposits, the Provision of Bank Ancillary Services to Plans, and the Transitional Rule for the Provision of Services to Plans

AGENCY: Internal Revenue Service, Treasury.

AN: Correction.

SUMMARY: This document contains a nonsubstantive correction to Treasury Decision 7491, published June 24, 1977.

EFFECTIVE DATE: The correction is effective for taxable years ending after December 31, 1974.

FOR FURTHER INFORMATION CONTACT:

David A. Rood of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224, Attention: CC:LR:T, 202-566-3288, not a toll-free call.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On June 24, 1977, the FEDERAL REGISTER published a Treasury decision (42 FR 32384) containing Pension, Etc., Excise Tax Regulations (26 CFR Part 54) under section 4975 of the Internal Revenue Code of 1954. The full text of the regulations as adopted by the Treasury decision appears at 42 FR 32384. The text contains a "6" that should have been a "9". This document corrects that error.

DRAFTING INFORMATION

The author of this correction was David A. Rood of the Legislation and

Regulations Division of the Office of Chief Counsel, Internal Revenue Service.

CORRECTION OF TREASURY DECISION

Accordingly, FR Doc. 77-17894 (42 FR 32384) is amended on page 32386 by inserting "§ 54.4975-9 (c)(1)(ii)(B)" in place of "§ 54.4975-6 (c)(1)(ii)(B)" in Example 4 of § 54.4975-6 (a)(6).

Dated: January 30, 1978.

Title 29—Labor

CHAPTER XX—OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION

PART 2200—RULES OF PROCEDURE

Amendments to Procedural Rules

AGENCY: Occupational Safety and Health Review Commission.

ACTION: Final rule.

SUMMARY: This notice is to advise of amendments to the procedural rules of the Occupational Safety and Health Review Commission, which are intended to simplify and clarify the review process of the Commission. The amendments are designed to assist employers appearing without the assistance of counsel.

The amendments also have as their purpose expediting cases, both at the hearing level, and review before the Commission, which involve challenges to periods of abatement under subsections 10 (b) or (c) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 659 (b) and (c)). Included are those cases where an employee or a representative of employees files a notice alleging the period of time fixed in a citation for the abatement of violations is unreasonable under section 10(c).

EFFECTIVE DATE: February 3, 1978.
FOR FURTHER INFORMATION CONTACT:

Thomas B. Flynn, Counsel for Appellate and Administrative Legal Services, Occupational Safety and Health Review Commission, 1825 K Street NW., Washington, D.C. 20006, 202-634-7971.

SUPPLEMENTARY INFORMATION: The Commission has become aware of some difficulties encountered by parties appearing without attorneys, and as a consequence is herein making adjustment to those procedural rules in areas where difficulty has been encountered. Particularly, the rules will now advise the public that an ag-

RULES AND REGULATIONS

grieved party must exhaust its administrative remedies by appeal to the Commission before seeking judicial review in court of an Administrative Law Judge's decision, and, in lieu of requiring precise citations to the record, the Commission rule is changed to observe that citations to the record would facilitate prompt review of the petition. This change is designed to relieve a possible burden on some employers and affected employees or their unions, if any, that in some cases might be considered oppressive, but at the same time to indicate clearly that precise citations would facilitate action on the petition.

Further changes are amendments to rules concerning petitions for modification of periods of abatement. The intent with respect to this amendment is to require that all petitions for modification of abatement periods or challenges to abatement periods by employees or representatives of employees will be expedited, both at the hearing level and on review by the full Commission, in order to avoid, whenever practicable, a lapse of the period of abatement before the matter is decided by the Commission.

Inasmuch as these are procedural rules, opportunity for public comment is unnecessary under 5 U.S.C. § 553. Also, since the changes should facilitate practice before the Commission, good cause is found to waive the 30-day delayed effective date otherwise required under 5 U.S.C. § 553.

Therefore, under the authority of section 12(g) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 661(f)), 29 CFR Part 2200 is amended as follows:

1. In § 2200.34, paragraph (d)(2) is revised to read as follows:

§ 2200.34 Petitions for modification of abatement.

(d) . . .
(2) The Commission shall docket and process such petitions as expedited proceedings as provided for in § 2200.101 of this Part.

2. In § 2200.35, a new paragraph (c) is added to read as follows:

§ 2200.35 Employee contests.

(c) All contests under this section shall be handled as expedited proceedings as provided for in § 2200.101 of this Part.

3. In § 2200.101, paragraph (a) is revised to read as follows:

§ 2200.101 Expedited proceeding.

(a) Upon application of any party or intervenor or upon his own motion,

any Commissioner may order an expedited proceeding. Contests arising under §§ 2200.34 and 2200.35 shall be placed on a special docket and treated as expedited proceedings before Administrative Law Judges. Cases arising under these sections which are directed for review before the Commission shall also be placed on a special docket for review, and shall be treated as expedited proceedings under this section.

4. In § 2200.91, paragraphs (a) and (b) are revised and a new paragraph (f) is added to read as follows:

§ 2200.91 Discretionary review; petitions for statements in opposition.

(a) A party aggrieved by the decision of a judge may submit a petition for discretionary review. An aggrieved party that fails to file a petition for such review by the Commission may be foreclosed from court review of any objection to the judge's decision. *Key-stone Roofing Co., Inc. v. Dunlop*, 539 F.2d 960 (3rd Cir. 1976).

(b) . . .
(c) A petition should contain a concise statement of each portion of the decision and order to which exception is taken and may be accompanied by a brief of points and authorities relied upon. The inclusion of precise citations to the record or legal authorities, as the case may be, will facilitate prompt review of the petition.

(d) . . .
(e) . . .
(f) An original and three copies of any petition or statement shall be filed with the Commission.

5. Section 2200.91a is revised to read as follows:

§ 2200.91a Review by the Commission.

(a) Review is a matter of sound discretion of a member of the Commission.

(b) In exercising discretion, a Commission member will consider assertions of the following:

(1) A finding of material fact is not supported by a preponderance of the evidence.

(2) The decision is contrary to law or to the duly promulgated rules or decisions of the Commission.

(3) A substantial question of law, abuse of discretion, or policy is involved.

(4) A prejudicial error of procedure was committed.

(c) When a petition for discretionary review is granted, review shall be limited to the issues specified in the petition, unless the order for review expressly provides differently.

(d) At any time within 30 days after the filing of a decision of a judge, a case may also be directed for review by a member upon his own motion upon

RULES AND REGULATIONS

any ground that could be raised by a party, but the issues would normally be limited to novel questions of law or policy or questions involving conflict in Administrative Law Judges' decisions. Any direction for review shall state the issues with particularity. Except in extraordinary circumstances, the Commission's power to review is limited to issues of law or fact raised by the parties in the proceedings below. (Sec. 12(g) Public Law 91-596, 84 Stat. 1603-1605 (29 U.S.C. 661(f)).)

Dated: January 30, 1978.

For the Commission.

RAY H. DARLING, JR.,
Executive Secretary.

Title 32—National Defense

CHAPTER VII—DEPARTMENT OF THE AIR FORCE

SUBCHAPTER I—MILITARY PERSONNEL

PART 888g—ORGANIZATIONAL AND REPRESENTATIONAL ACTIVITIES OF MILITARY PERSONNEL

AGENCY: Department of the Air Force, Department of Defense.

ACTION: Final rule.

SUMMARY: The Department of the Air Force is adding a rule which establishes policies and guidelines for dealing with individuals and organizations whose objective is to organize or represent active duty military personnel, members of Reserve components on inactive duty training, civilian employees, individuals and groups, for the purpose of negotiation or collective bargaining over terms or conditions of military service. This rule is needed to provide uniform direction and guidance to officials in the Department of the Air Force and to insure fair, consistent treatment of members of the Air Force and individuals, groups, organizations and associations seeking to represent members of the Air Force for such negotiating or bargaining.

EFFECTIVE DATE: November 21, 1977.

FOR FURTHER INFORMATION CONTACT:

Lieutenant Colonel Quentin W. Korte, Chief, Personnel Systems Plans Branch, Directorate of Personnel Plans, The Pentagon, Washington, D.C. 20330, 202-697-9821.

SUPPLEMENTARY INFORMATION: The Office of the Secretary of Defense published a final rule (DOD Directive 1354.1) in the FEDERAL REGISTER on October 14, 1977 (42 FR 55209) after asking for public comment by

publishing the proposed rule in the FEDERAL REGISTER on August 16, 1977 (42 FR 41306). By adding this new part 888g to Subchapter I, Chapter VII, of Title 32 in the CFR, the Department of the Air Force is implementing the DOD Directive and therefore has determined it unnecessary to invite public comment on this rule.

This rule is issued under the authority of sec. 8012, 70A Stat. 488; 10 U.S.C. 8012.

Accordingly, the new part will read as follows:

Sec.
888g.1 Purpose.
888g.2 Applicability.
888g.3 Policy on unionization of military personnel.
888g.4 Explanation of terms.
888g.5 Activities prohibited in the Air Force.
888g.6 Permissible activities.
888g.7 Responsibilities.
888g.8 Situational guidance.
888g.9 Military union incident, RCS HAF-DPX(AR) 7701.
888g.10 Guidelines for making determinations.
888g.11 Air Force installations where provisions of this part have been invoked by the Secretary of the Air Force.
888g.12 Organizations determined by the Secretary of the Air Force to present a clear danger to Air Force discipline, loyalty or obedience to lawful orders.
888g.13 Reporting format.
888g.14 Situational guidance for commanders.

AUTHORITY: Sec. 8012, 70A Stat. 488 (10 U.S.C. 8012).

§ 888g.1 Purpose.

This part establishes policies and guidelines for dealing with individuals and organizations whose objective is to organize or represent military members of the Air Force for the purpose of negotiation or collective bargaining over terms or conditions of military service, prohibits Air Force commanders and supervisors from engaging in negotiation or collective bargaining, and prohibits military personnel from engaging in strikes and other concerted activities, on-base recruitment, and active membership in organizations which would engage in such activities.

§ 888g.2 Applicability.

(a) This part does not modify or diminish the existing authority of commanders to control access to, or maintain good order and discipline on, military installations; nor does it change or lessen the obligations of commanders and supervisors pursuant to Executive Order 11491 with respect to organizations representing Department of the Air Force civilian employees.

(b) This part applies to all active duty military personnel, members of Reserve components on inactive duty training, civilian employees, and to individuals and groups entering, using or seeking to enter or use Air Force in-

stallations. Violations of the specific prohibitions of this part by military members of the Air Force may result in prosecution under the UCMJ or administrative action.

(c) This part implements DOD Directive 1354.1, Relationships With Organizations Which Seek to Represent Members of the Armed Forces in Negotiation or Collective Bargaining, October 6, 1977.

§ 888g.3 Policy on unionization of military personnel.

(a) The mission of the Air Force is to safeguard the security of the United States. The Air Force must be ready to execute its responsibilities in supporting that role with absolute reliability and immediate responsiveness. Essential to maintaining this state of readiness are the military requirements of control, discipline, and prompt obedience to lawful orders of command. The chain of command must remain unencumbered by outside influence or obstruction of authority.

(b) The Air Force recognizes the important contributions which organized labor has made to the social and economic development of our nation. Civilian labor unions are an integral part of everyday Air Force activities. However, the traditional union functions of collective or concerted actions would impair the control of Air Force commanders over military personnel so as to threaten the security of the United States. Air Force commanders could not maintain readiness, be responsive to contingency plans or accomplish their missions if required to bargain over their orders, consult over decisions, or be subject to collective actions of any sort.

(c) Any individual or organization which seeks to intrude on the relationship between commanders and military members of the Air Force in matters relating to mission accomplishment or terms or conditions of military service, presents a clear danger to discipline, loyalty, and obedience to lawful orders of command and such interference will not be permitted.

§ 888g.4 Explanation of terms.

(a) "Aid and abet" means to be present during the commission of any act prohibited by this regulation and to assist, command, counsel or otherwise encourage such an act.

(b) "Air Force installation" includes bases, stations, sites, aircraft and other facilities where Air Force personnel are assigned.

(c) "Civilian employee" includes Executive Schedule, Scientific and Technical, General Schedule, Wage Board, and Nonappropriated Fund employees of the Air Force.

(d) "Collective job-related action" means any activity by two or more persons that is intended to and does

obstruct or interfere with the performance of a military duty assignment.

(e) "Conspire" means to join or agree with one or more persons to commit any act prohibited by this part.

(f) "Installation commander" means the senior host wing or equivalent commander. Major commanders may designate the commander of a higher level organization to enforce the provisions of this part when two or more organizations of the host command are located at the same installation.

(g) "Military member" includes Air Force personnel on active duty or inactive duty training and members of the Air National Guard of the United States and United States Air Force Reserve while serving in a military capacity.

(h) "Negotiation or collective bargaining" is a process whereby a commander or supervisor, military or civilian, acting on behalf of the United States, engages in discussions with a military member or members of the Air Force (purporting to represent such members), or with an individual group, organization, or association purporting to represent such members, for the purpose of resolving bilaterally, terms or conditions of military service.

(i) "Solicit" means to use words or any other means to request, urge, advise, counsel, tempt or command another to commit any act prohibited by this part.

(j) "Terms or conditions of military service" means terms or conditions of military compensation or duty including but not limited to wages, rates of pay, duty hours, assignments, grievances, or disputes.

§ 888g.5 Activities prohibited in the Air Force.

(a) *Negotiation or Collective Bargaining.* Air Force commanders and supervisors will not engage in negotiation or collective bargaining.

(b) *Strikes and Other Concerted Activities.* Military members of the Air Force will not:

(1) Engage in any strike, slowdown, work stoppage, or other collective job-related action with respect to terms or conditions of military service, or

(2) Picket for the purpose of causing or coercing other military members of the Air Force to engage in a strike, slowdown, work stoppage, or other collective job-related action related to terms or conditions of military service.

(c) *Recruitment Efforts:*

(1) No person will conduct or attempt to conduct a demonstration, meeting, protest, march, or engage in or attempt to engage in speechmaking, picketing, leafleting, or other similar activity on an Air Force installation for the purpose of forming, recruiting military members for, or soliciting

money or services for any organization that:

(i) Engages or is substantially likely to engage in any activity prohibited by this part; or

(ii) Proposes or holds itself out as proposing to engage in negotiation or collective bargaining on behalf of military members of the Air Force; or

(iii) Proposes or holds itself out as proposing to represent military members of the Air Force to the military chain of command with respect to the terms or conditions of military service when such representation would interfere with the military chain of command; or

(iv) Solicits or aids and abets a violation of this regulation by a military member of the Air Force.

(2) No person will engage in any activity, including but not limited to individual contacts or the posting for public display of any poster, handbill or other writing, on any part of an Air Force installation if the activity or the material displayed constitutes or includes an invitation to collectively engage in an activity prohibited by this part.

(d) *Membership in Certain Organizations.* Military members of the Air Force will not become or remain members of an organization under the following conditions:

(1) After the Secretary of the Air Force determines in accordance with § 888g.10 that the organization presents a clear danger to discipline, loyalty or obedience to lawful orders; and

(2) The military members know the Secretary has made such determination, and

(3) The military members intend to promote the conduct upon which the determination is based, and

(4) The military members actively participate in activities of the organization.

(e) *General Prohibitions.* Military members of the Air Force will not attempt to engage in, or solicit the commission of, or conspire with, or aid and abet any person or organization in the commission of any act prohibited in this part.

§ 888g.6 Permissible activities.

This part does not prevent:

(a) Military members from presenting complaints or grievances over terms or conditions of military service through established military channels.

(b) Commanders or supervisors from giving due consideration to the views of military members presented individually or as a result of participation on command-sponsored or authorized advisory councils, committees, or organizations for the purpose of improving conditions or communications at the Air Force installation involved.

(c) Military members from petitioning Congress or communicating with any member of Congress.

(d) Military members from being represented by qualified counsel, whether or not retained by an organization on his or her behalf, in any judicial or administrative proceeding with respect to which there is a right to counsel of choice.

(e) Military members from joining or being a member of any organization which engages in representational activities with respect to terms or conditions of off-duty employment.

(f) Civilian employees from joining or being a member of any organization that engages in representational activities with respect to terms or conditions of civilian employment.

§ 888g.7 Responsibilities.

(a) The Secretary of the Air Force is responsible for making determinations as required by § 888g.5 (c)(2) and § 888g.5 (d) (1), and for the selective application of such determinations to particular Air Force installations on a case-by-case basis. Guidelines for making these determinations are contained in § 888g.10. Section 888g.11 lists those Air Force installations where selective application has been invoked by the Secretary of the Air Force. § 888g.12 lists those organizations which have been determined to present a clear danger to discipline, loyalty, or obedience to lawful orders of command.

(b) *Installation commanders:*

(1) Are responsible for enforcement of § 888g.5 (a), (b), (c)(1), and (e), which automatically apply to all personnel and § 888g.5 (c)(2) and (d)(1) after a determination is made by the Secretary of the Air Force.

(2) Will gather the facts and data needed by the Secretary of the Air Force to make determinations required by this part. The limitations on obtaining information on persons or organizations not affiliated with the Department of Defense imposed by Part 954 of this chapter will be strictly complied with.

(3) Will report through intermediate commanders to their major commander, with information to HQ USAF/DPXX/JACM, Pentagon, Washington, D.C., all incidents concerning requests for permission or attempts to engage in activities prohibited by this part. The checklist/form at § 888g.13 will be utilized for submitting these reports.

(4) Will post notices of the determinations made by the Secretary of the Air Force affecting their installation which clearly state:

(i) That the identified organization poses a clear danger to discipline, loyalty, or obedience to lawful orders, including the reason upon which the determination is based, and

(ii) That knowing, active membership in that organization by a military member with the intent to promote such prohibited conduct is not permitted.

(c) Intermediate commanders will resolve incidents or provide guidance to installation commanders as appropriate, or request assistance or additional guidance from HQ USAF/DPXX/JACM. HQ USAF/DPXX/JACM will be an information addressee on all correspondence and messages concerning activities addressed by this part and reports of guidance and action taken.

(d) HQ USAF/DPXX/JACM is the Air Staff focal point for activities related to this part, and will provide staff support to the Secretary of the Air Force in making determinations required by this part.

(e) Air Force officers and noncommissioned officers, especially unit commanders, senior enlisted advisors and first sergeants, are responsible for insuring that Air Force personnel are aware of the policies, rights and responsibilities expressed herein, and all personnel are responsible for assisting installation commanders in identifying incidents and/or conduct prohibited by this part.

§ 888g.8 Situational guidance.

To assist installation and intermediate commanders in dealing with activities prohibited by this part, guidance for typical situations is provided in § 888g.14. This guidance is for example only and is not intended to override the judgment of individual commanders or the advice of their staff judge advocates.

§ 888g.9 Military union incident, RCS HAF-DPX(AR) 7701.

The reports specified in § 888g.7(b)(3) will be furnished as required to HQ USAF/DPXX/JACM. The reports will be submitted by electrical message in the format of § 888g.13. During periods when MINIMIZE is imposed, commanders will consider the severity of the activity in approving electrical transmission.

§ 888g.10 Guidelines for making determinations.

This part requires that certain determinations be made on the basis of facts that exist at particular installations. The guidelines for making these determinations are:

(a) A person or organization poses a clear danger to the discipline, loyalty, or obedience to lawful orders when the person or organization, or any person on behalf of the organization, engages in, solicits, or aids and abets any act prohibited by this part, or violates or conspires to violate 18 U.S.C. 1382, or solicits or aids and abets a violation of Articles 82, 85, 86, 87, 89, 90, 91, 92, 94, 108, 109, 115, 116, 117 or 128 of the Uniform Code of Military Justice. In making this determination, the history and operations of the organization (including the constitution and bylaws, if any) or person in question may be evaluated along with evidence with respect to the conduct constituting a prohibited act. In addition, there must be sufficient evidence to support a conclusion that the person or organization is substantially likely to engage in a prohibited act.

(b) In determining whether commission of a prohibited act by individual members of an organization can be attributed to that organization, examples of factors which should be considered include: the frequency of such act; the position in the organization of persons committing such act; whether the commission of such act was known by the leadership of the organization; and whether the commission of such act was condemned or disavowed by the leadership of the organization.

(c) In determining whether individual contact or posting for public display of any poster, handbill, or other writing constitutes or includes an invitation to collectively engage in an act prohibited by this regulation, specific language of the conversation or written material will be considered. In the case of individual conversations, determinations will be sensitive to protection of First Amendment rights of free speech.

(d) In making the decision that a military member of the Air Force is an "active" member of the organization in question, membership must be more than merely nominal or passive. Normally a person can be considered an active member if he or she engages in certain kinds of conduct for the organization. This conduct includes solicitation or collection of dues, membership recruitment, distribution of lit-

erature, service as an officer of the organization, or frequent attendance at meetings or activities of the organization.

(e) In deciding that a military member knows about the prohibited conduct engaged in by the organization, such knowledge may be inferred if the notice specified in § 888g.7(b)(4) has been properly posted.

(f) In deciding that a military member intends to promote the prohibited conduct engaged in by the organization, his or her conduct and/or participation in the organizational activities which constitute active membership will be considered.

§ 888g.11 Air Force installations where provisions of this part have been invoked by the Secretary of the Air Force. [Reserved]

§ 888g.12 Organizations determined by the Secretary of the Air Force to present a clear danger to Air Force discipline, loyalty or obedience to lawful orders. [Reserved]

§ 888g.13 Reporting format.

Priority Message

To: Intermediate Commanders and Majcom.
Info: HQ USAF/DPXX/JACM.
Subject: Military Union Incident, RCS HAF-DPX(AR) 7701.

A. Name of installation.

B. Type of incident (request or attempt for negotiation or collective bargaining, strike or other concerted action, solicitation or request for recruitment, distribution of literature, active membership, or other prohibited activity).

C. Name(s) of individual(s) or organization.

D. Narrative statement of incident.

E. Brief summary of constitution, bylaws, statement of purpose submitted by the individual or organization, or other information and the source to provide sufficient data for SECAF determination.

F. Summary of commander's action.

Note 1: Information and data gathered on persons or organizations not affiliated with the Department of Defense will be in accordance with AFR 124-13.

Note 2: During periods when minimize is imposed, commanders will consider the severity of the activity before approving electrical transmission.

RULES AND REGULATIONS

RULE	A	B	C	D
	If the incident concerns	and	then the installation commander	and
1	an individual or organization that claims to represent military members of the Air Force	the purpose is for negotiation or collective bargaining over terms or conditions of military service	advises the individual or organization that he or she is prohibited from negotiating or collectively bargaining over terms or conditions of military service	reports the incident IAW § 888g.13.
2	an individual or organization that requests permission to negotiate or collectively bargain on behalf of military members of the Air Force			denies the request and reports the incident IAW § 888g.13.
3	an individual or organization that attempts to negotiate or collectively bargain on behalf of military members of the Air Force			reports the incident IAW § 888g.13.
4	an organization that claims to represent military members of the Air Force threatens a strike, slowdown, work stoppage or other collective job-related action, or picket			
5	an organization that claims to represent military members of the Air Force engages in a strike, slowdown, work stoppage or other collective job-related action, or picket	the organization and military members have been advised that such activity by military personnel is prohibited	takes necessary action to return to normal operation	takes disciplinary action, when appropriate, against military members of the Air Force who engaged in prohibited activity, and reports incident IAW § 888g.13.
6	an individual or organization that pickets for the purpose of causing or coercing military members of the Air Force to engage in a strike, slowdown, work stoppage or other collective job-related action		takes necessary action to stop such activity on base	
7	an individual or organization that requests permission to conduct a demonstration, meeting or protest, or engage in speech-making, picketing or leafleting, or other such activity		denies the individual or organization access to the base and/or denies permission to conduct such activities	reports the incident IAW § 888g.13.
8		the organization proposes or holds itself out as proposing to engage in negotiation or collective bargaining on behalf of military members of the Air Force		

RULES AND REGULATIONS

RULE	A	B	C	D
	If the incident concerns	and	then the installation commander	and
9	an individual or organization that attempts to recruit military members of the Air Force on base for any organization	permission has not been requested	directs individuals or organizations to cease and desist and removes violators from the base	reports the incident IAW § 888g.13.
10		permission was previously requested but denied		takes disciplinary action, when appropriate, and reports incident IAW § 888g.13.
11	an individual or organization that conducts recruiting of military personnel for any organization and the method is by such techniques as individual contacts or posting of any poster, handbill or other writing for public display	such contact or posting constitutes or includes an invitation to engage in negotiation or collective bargaining, or a strike or other concerted action	denies access to the base or removes violators and prohibits further contact, posting or distribution of such material pending determination by SECAF (see note)	reports the incident IAW § 888g.13.
12		SECAF makes determination that the organization poses a clear danger to discipline, loyalty, or obedience to lawful orders	posts the notice required by paragraph 5b(4).	
13	an individual or organization that attempts on-base distribution of literature	permission has not been requested	halts distribution and reviews the literature to determine whether it constitutes a clear danger to discipline, loyalty or morale IAW AFR 35-15.	
14		the commander decides the material does not constitute a clear danger to discipline, loyalty or morale	permits distribution.	
15		the commander decides the material does constitute a clear danger to discipline, loyalty or morale	prohibits further distribution and advises distributor to cease and desist	reports the incident IAW § 888g.13.
16		permission to distribute was previously denied	halts further distribution, confiscates available literature, and removes violators from the base	
17	an individual or organization that distributes literature soliciting membership or promoting an organization which purports or proposes to represent military members in negotiation or collective bargaining	distribution is through the US Mail	takes no action	

A	B	C	D
16	a military member who asks about the legality of joining a union or other organization	advises member active membership is prohibited in organizations that violate AFR 30-24 when the member knows the organization engages in prohibited conduct and the member intends to promote such conduct	further advises member that it is permissible to belong to an organization which engages in representational activities with respect to terms or conditions of off-duty employment.
19	a military member who joins a labor organization for representation not related to off-duty employment	SECAF has not made a determination that the organization presents a clear danger to discipline, loyalty or obedience to lawful orders	gathers information on subject organization IAW AFR 124-13
20		SECAF has made determination that the organization poses a clear danger and enters it on atch 3	posts notice IAW § 888g. 7 (b) (4).
21		SECAF has made determination and Commander decides member knows determination has been made and is active participant in the organization's activities	takes disciplinary or administrative action, when appropriate.
22	a military member who already belongs to a labor organization for representation not related to off-duty employment	SECAF has not made a determination that the organization presents a clear danger to discipline, loyalty or obedience to lawful orders	gathers information on subject organization IAW AFR 124-13
23		SECAF has made determination that the organization poses a clear danger and enters it on atch 3	posts notice IAW § 888g. 7 (b) (4).
24		SECAF has made determination and Commander decides member knows determination has been made and is active participant in the organization's activities	takes disciplinary or administrative action, when appropriate.

NOTE: SECAF will make determination whether such individual or organization presents a clear danger to discipline, loyalty, or obedience to lawful orders of the Air Force. When SECAF makes affirmative determination and enters it on § 888g. 12, installation commander posts notice IAW § 888g. 7 (b) (4).

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Ohio

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The purpose of this notice is to announce the approval, with exceptions, of a revision to the Ohio State Implementation Plan which was submitted by the Governor of Ohio pursuant to section 110 of the Clean Air Act. The revision provides an enforceable strategy for the control of open burning.

EFFECTIVE DATE: February 3, 1978.

FOR FURTHER INFORMATION, CONTACT:

John A. Chicca, Chief, Air Programs Branch, U.S. Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Ill. 60604, 312-353-2205.

SUPPLEMENTARY INFORMATION: On May 30, 1974, the Governor of Ohio submitted a set of regulations EP-12 -01 through -06, inclusive, to the Regional Administrator of the Environmental Protection Agency (EPA) for approval as revisions to the Ohio State Implementation Plan (SIP). These regulations were adopted by the State following public hearing in accordance with 40 CFR 51.4. The 1974 regulations rescinded the originally approved regulation AP-3-08 (39 FR 13539) which prohibited open burning for refuse disposal and salvage operations. These regulations were not acted on. On August 10, 1976, the Governor of Ohio submitted revised regulations EP-12 -01, -03, and -04, and specifically rescinded EP-12-06, to the Regional Administrator for approval as revisions to the Ohio SIP. These revised regulations were adopted by the State following public hearing in accordance with 40 CFR 51.4. These regulations were proposed in the FEDERAL REGISTER, Vol. 42, No. 88 on May 6, 1977. Any public comments submitted on or before June 6, 1977, were considered. Since the regulations became effective on June 21, 1976, in Ohio, an immediate effective date is appropriate.

In response to the May 6, 1977, FEDERAL REGISTER notice, EPA received only one comment. This was from Ohio EPA in response to our request for further clarification of EP-12-03(D)(1) and EP-12-04(D)(1) which allows open burning of hazardous or toxic materials where Ohio EPA determines that there is no practical alternate method of disposal. Upon review, it was determined that this section of the proposed revision be disapproved as part of the State Implementation Plan, particularly since Subtitle C, section 3004 of the "Resource Conservation and Recovery Act of 1976" calls for the U.S. Environmental Protection Agency to promulgate specific regulations by April 21, 1978, which will establish standards of performance for incinerators which will handle the treatment, storage and disposal of hazardous wastes. However, the remaining portion of the submitted regulations broadens the scope of the previous regulations and increases the stringency in restricted areas. After review of all relevant materials, the Administrator has determined that the proposed revision, with the above stated exceptions, is consistent with current EPA policies and goals set forth in the requirements of section 110(a)(2)(A)-(H) of the Clean Air Act, as amended by the 1977 Amendments, and EPA regulations in 40 CFR Part 51 in that the proposed revision will not interfere with any applicable ambient air quality standards. Therefore, the Administrator is approving this proposed Ohio revision with the noted exceptions.

Part 52 of Chapter I, Title 40, Code of Federal Regulations is amended as follows:

Subpart kk—Ohio

1. Section 52.1870 is amended by adding a new paragraph (c)(12):

§ 52.1870 Identification of plan.

(c)...

(12) The Governor of Ohio submitted on May 30, 1974 and August 10, 1976, revisions to the Ohio Implementation Plan for the control of open burning.

2. Section 52.1880 is amended by adding a new paragraph (b) as follows:

§ 52.1880 Control strategy: Particulate matter.

(b) Ohio Regulation EP-12 (open burning) is disapproved insofar as EP-12-03(D)(1) and EP-12-04(D)(1) allow open burning of hazardous or toxic materials.

Dated: January 30, 1978.

DOUGLAS M. COSTLE,
Administrator.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20337; RM-2296]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations in Baxley, Sandersville and Sparta, Ga.; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Report and Order.

SUMMARY: Action herein assigns a class C FM channel to Baxley, Ga., as that community's first local full-time aural broadcast service. The channel would also furnish first and second FM as well as first and second nighttime aural service to By and the surrounding area.

EFFECTIVE DATE: March 17, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

REPORT AND ORDER—PROCEEDING TERMINATED

Adopted: January 30, 1978.

Released: February 2, 1978.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Baxley, Sandersville and Sparta, Ga.), Docket No. 20337, RM-2296.

(1) The Commission has before it (1) a Memorandum Opinion and Order and Further Notice of Proposed Rule Making denying a proposal by WHAB Radio, Inc. ("WHAB") to assign class C Channel 233 to Baxley, Ga., and proposing in its stead to assign Channel 240A, and (2) a Memorandum Opinion and Order and Order to Show Cause reversing the Commission's denial of the assignment of Channel 233 to Baxley, and reinstating WHAB's original class C proposal. In the latter document, Station WSNT-FM (Channel 232A), Sandersville, Ga., was ordered to show cause why it should not operate on Channel 228A in lieu of Channel 232A in the event Channel 233 was assigned to Baxley. Assignment of Channel 233 to Baxley also requires the substitution of Channel 244A for the unoccupied Channel 228A at Sparta, Ga.¹

¹ 42 FR 25342, adopted May 10, 1977.
² 42 FR 47568, adopted September 7, 1977.
³ The transmitter site for Channel 244A at Sparta would have to be located approximately 1.9 kilometers (1.2 miles) northeast of the community.

(2) Although the Commission agreed in the initial stages of this proceeding to explore the possibility of making a class C assignment, it pointed out that such a proposal was contrary to the Commission's usual policy of assigning a class A rather than a class C channel to a small community like Baxley. Consequently, the first Notice of Proposed Rule Making⁴ requested additional information from WHAB to justify a class C assignment. In response, WHAB contended that since no class A channels were available to assign to Baxley, a first local radio service could only be provided through the use of a class C channel. However, as a result of changes in the assignments made in other communities in another rule-making proceeding, a class A channel became available. With this in mind, WHAB's request for Channel 233 was denied, and the Further Notice proposed the assignment of Channel 240A instead.

(3) WHAB then requested in its comments that its original proposal of assigning Channel 233 to Baxley be reinstated on the grounds that special circumstances did exist which would make a class C channel a preferable assignment. WHAB submitted a *Roanoke Rapids-Anamosa*⁵ study which showed that a class C station would provide a first FM service and first aural service at night to 2,507 persons in an area of 430 square kilometers (165 square miles), and second such services to 23,843 persons in an area of 1,300 square kilometers (490 square miles), which a class A station would not provide. The preclusionary effect of the proposed assignment would not be an impediment since there are no communities with a population greater than 1,000 in the precluded areas. On the basis of this information, the Commission believed that the matter warranted further consideration. It therefore reversed its earlier decision and reinstated the original proposal of assigning Channel 233 to Baxley. In addition, an Order to Show Cause was issued to Station WSNT-FM for modification of its license in the event that, after consideration, the Channel 233 alternative was adopted for Baxley. To accommodate the Channel 233 proposal, the Sandersville station would have to move to Channel 228A.

(4) Radio Station WSNT, Inc. ("WSNT"), licensee of Station WSNT-FM (Channel 232A), Sandersville, Ga., filed comments in response to the Order to Show Cause. It stated that it would not request a hearing on the proposed modification of its license provided the following conditions were met:

⁴40 FR 4939, adopted January 21, 1975.
⁵*Roanoke Rapids, N.C.*, 9 FCC 2d 672 (1967), and *Anamosa, Iowa*, 46 FCC 2d 520 (1974).

(a) That subsequent to the construction of the class C facility and prior to obtaining operating authority, the permittee will reimburse WSNT for its expenses incurred in the modification of its license;

(b) That if additional engineering reports must be filed with the Commission in connection with the modification of its license, this expense (legal and engineering) will be borne by the class C permittee; and

(c) That WSNT would not be required to change its station's facilities prior to construction of the class C facility and the modification of WSNT's license would not be made effective until the class C station in Baxley is prepared to go on the air.

(5) It is the Commission's policy to allow and provide for reimbursement for the reasonable costs involved in the change of a station's channel assignment from the ultimately benefitting party. The equitable consideration dictates that WSNT should be reimbursed for such costs by WHAB, or other party, who may be granted a construction permit for the new Baxley FM assignment. WSNT has submitted a list of estimated expenses (engineering, advertising, printing and miscellaneous) for which it seeks reimbursement. Generally, the items mentioned (including (b) above) appear appropriate for reimbursement, though not necessarily in the amounts claimed. As we have regularly noted, this is a matter for negotiation between the parties involved. Assisted by the guidelines furnished in other similar cases, such as *Circleville, Ohio*, 8 FCC 2d 159 (1967), the appropriate costs making up the "reasonable" reimbursement figure are generally left to the good faith judgment of the parties eventually involved, subject to Commission approval in the event of a disagreement.

(6) WSNT also has requested that, if it is required to change over to operation on Channel 228A, the modification of its license be withheld until the class C station in Baxley is prepared to go on the air. The change in the assignment adopted herein will be made effective on the date specified below and the license of Station WSNT-FM will be modified accordingly. However, the station may continue to operate under its presently outstanding authorization on Channel 232A until the Baxley permittee is ready to operate on Channel 233, or it may effect the change at any time prior thereto if it should so desire.

(7) In view of the showing made by WHAB that first and second FM service as well as first and second nighttime aural service would be provided by a class C FM assignment as well as providing for a first full-time local broadcast service in Baxley, the Commission believes it would be in the

public interest to modify the license of the Sandersville station so that Channel 233 can be assigned to Baxley, Ga., and we make that assignment here.⁶

(8) Accordingly, pursuant to authority contained in sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended: *It is ordered*, That effective March 17, 1978, the FM Table of Assignments (§ 73.202(b) of the Commission's rules) is amended with respect to the following communities:

City	Channel No
Baxley, Ga.	233
Sandersville, Ga.	228A
Sparta, Ga.	244A

(9) *It is further ordered*, That effective March 17, 1978, pursuant to section 316 of the Communications Act of 1934, as amended, the outstanding license held by Radio Station WSNT, Inc., for Station WSNT-FM, Sandersville, Ga., is modified to specify operation on Channel 228A in lieu of Channel 232A subject to the following conditions:

(a) The licensee shall inform the Commission in writing no later than the effective date herein of its acceptance of this modification.

(b) The licensee shall submit to the Commission by March 17, 1978, all necessary information complying with the applicable technical rules for modification of authorization to cover the operation of Station WSNT-FM on Channel 228A at Sandersville, Ga.

(c) The Commission will notify the licensee when a construction permit has been granted for the use of Channel 233 at Baxley, Ga. The licensee may continue to operate on Channel 232A under its outstanding authorization until the Baxley permittee is ready to operate on Channel 233 or it may effect the change to Channel 228A at any time prior thereto if it should so desire. Ten days prior to commencing operation on Channel 228A, the licensee shall submit the measurement data normally required in an application for an FM broadcast station license.

(d) The licensee shall not commence operation on Channel 228A until the Commission specifically authorizes it to do so.

(10) *It is further ordered*, That the Secretary of the Commission shall send a copy of this Report and Order by certified mail, return receipt requested, to Radio Station WSNT, Inc., Box 150 Sandersville, Ga. 31082, licensee of Station WSNT-FM, Sandersville, Ga.

(11) *It is further ordered*, That this proceeding is terminated.

⁶As noted, the vacant assignment at Sparta, Ga., also must be changed.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; (47 U.S.C. 154, 303, 307).)

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Station in Burlington, Colo.;
Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Report and Order.

SUMMARY: Action taken herein assigns a class C FM channel to Burlington, Colo., as that community's first FM channel. The assignment would provide for a station which could furnish a first local full-time broadcast service to the community in addition to providing service to people residing in sparsely populated areas.

EFFECTIVE DATE: March 17, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

REPORT AND ORDER—PROCEEDING
TERMINATED

Adopted: January 30, 1978.

Released: January 31, 1978.

In the matter of Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Burlington, Colo.), Docket No. 21460, RM-2913.

1. The Commission herein considers the Notice of Proposed Rulemaking, adopted November 1, 1977, 42 FR 58187, in the above-captioned proceeding, instituted in response to a petition filed by KNAB, Inc. (petitioner), licensee of daytime-only Station KNAB, Burlington, Colo. The petition proposed the assignment of class C FM Channel 281 to Burlington, Colo. No oppositions were filed to the petition. Supporting comments were filed by petitioner in which it reaffirmed its intention to file an application for a construction permit to build a station, if the channel is assigned.

2. Burlington (pop. 2,828), seat of Kit Carson County (pop. 7,530),¹ is located approximately 240 kilometers (150 miles) east of Denver, Colo. Burlington is presently served by daytime-only AM Station KNAB, which is licensed to petitioner.

¹Population figures are taken from the 1970 U.S. Census.

3. Petitioner states that Burlington's population has increased 35 percent during the period between 1960-70. It notes that the community is the principal economic center of Kit Carson county. In support of its proposal, petitioner submitted information with respect to the need for a class C FM assignment in Burlington, to serve the large rural area a class A station could not reach.

4. Channel 281 can be assigned to Burlington, Colo., in conformity with the minimum distance separation requirements. The effect would be to preclude some otherwise possible assignments in 30 communities with populations greater than 1,000, 20² of which have no FM assignments or FM stations. However, petitioner has shown that class A channels are available for assignment to these communities.

5. Petitioner submitted a Roanoke Rapids, N.C., 9 FCC 2d 672 (1967), and Anamosa-Iowa City, Iowa, 46 FCC 2d 520 (1974), showing which indicates that a class C station operating with 27 kilowatts and antenna height of 197 meters (350 feet) a.a.t., would provide a first FM service to 2,331 people in an area of 2,450 square kilometers (945 square miles), a second FM service to 5,178 persons in a 2,850 square kilometer (1,098 square miles) area. A second nighttime aural service would be provided to 2,331 persons in an area of 2,450 square kilometers (945 square miles).

6. Ordinarily, a class A channel would be assigned to a community the size of Burlington. However, Channel 281 would provide for an FM station which could render significant first and second FM service as well as second nighttime aural service to sparsely populated areas. In light of this and since Burlington and Kit Carson county would receive its first full-time local aural broadcast service, we believe the public interest would be served by assigning Channel 281 to Burlington, Colo.

7. Authority for the action taken herein is contained in sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

8. In light of the foregoing: *It is ordered*, That effective March 17, 1978, § 73.202(b) of the Commission's rules, the FM Table of Assignments, is

²Colorado: Wray (pop. 1,953); Limon (1,814); Akron (1,775); Brush (3,377); Las Animas (3,148); Holyoke (1,640); Kansas: St. Francis (1,725); Tribune (1,013); Sharon Springs (1,012); Atwood (1,653); Oakley (2,327); Syracuse (1,720); Leoti (1,916); Nebraska: Benkelman (1,349); Imperial (1,589); Cambridge (1,145); Cozad (4,219); Gothenburg (3,154); Curtis (1,166); Grant (1,099).
Brush, Colo., and Cozad, Nebr., have AM stations.

amended with respect to the community listed below:

City and Channel No.

Burlington, Colo., 281.

9. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; (47 U.S.C. 154, 303, 307).)

[Docket No. 21458; RM-2951]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Station in Falls City, Nebr.;
Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Report and Order.

SUMMARY: Action taken herein assigns a first FM channel to Falls City, Nebr. The channel would provide for a first FM service and a second local aural broadcast outlet in Falls City.

EFFECTIVE DATE: March 17, 1978.

ADDRESS: Federal Communication Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

REPORT AND ORDER—PROCEEDING
TERMINATED

Adopted: January 30, 1978.

Released: January 31, 1978.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Falls City, Nebr.): Docket No. 21458, RM-2951.

1. On November 1, 1977, the Commission adopted a Notice of Proposed Rule Making, 42 FR 58188, proposing the assignment of Channel 237A to Falls City, Nebr., as that community's first FM assignment, at the request of Southeast Nebraska Broadcasting Company, Inc. (petitioner). Petitioner filed supporting comments reaffirming its intention to apply for a construction permit for a station to operate on Channel 237A, if assigned. No oppositions to the proposal were received.

2. Falls City (pop. 5,861), seat of Richardson County (pop. 12,277)¹ is

¹Population figures are taken from the 1970 U.S. Census.

RULES AND REGULATIONS

located approximately 137 kilometers (85 miles) south of Omaha, Nebr. Falls City presently receives local broadcast service from full-time AM station KTNC.

3. Petitioner states that Falls City's economic base is agriculture and industry, with several major manufacturing companies in or near Falls City producing such products as horse trailers, grain drying equipment, steel bins, etc. It asserts that industrial and other business development has and will continue to spur a growth in population. Petitioner has submitted sufficient information regarding social, governmental and economic factors which demonstrate Falls City's need for an FM channel assignment.

4. Upon careful consideration of the proposal herein, the Commission believes it would be in the public interest to assign Channel 237A to Falls City, Nebr. A demand has been shown for its use and it would provide the community with a first FM assignment in addition to a second local nighttime aural service. An FM station here would provide nighttime broadcast service to a larger area around Falls City which the local class IV AM station is unable to serve.

5. Authority for the action taken herein is contained in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

6. In light of the foregoing: *It is ordered*, That effective March 17, 1978, § 73.202(b) of the Commission's rules, the FM Table of Assignments, is amended with respect to the community listed below:

City and Channel No.

Falls City, Nebr., 237A.

7. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; (47 U.S.C. 154, 303, 307).)

CONTACT:

Mildred B. Nesterak, Broadcast
Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

REPORT AND ORDER—PROCEEDING
TERMINATED

Adopted: January 25, 1978.

Release: January 30, 1978.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Kearney, Nebr.), Docket No. 21428, RM-2883.

1. The Commission herein considers the Notice of Proposed Rulemaking, adopted October 26, 1977, 42 FR 57976, proposing the assignment of class C FM Channel 290 to Kearney, Nebr., and the deletion of Channel 272A. The Notice was issued in response to a request filed on behalf of Central Nebraska Broadcasting, Inc. (petitioner), licensee of AM Station KGFW (class IV), Kearney, Nebr. There were no oppositions filed to the proposal. Supporting comments were filed by petitioner in which it reaffirmed its intention to file an application for the channel, if assigned.

2. Kearney (pop. 19,181), seat of Buffalo county (pop. 31,222), is located in south central Nebraska, approximately 64 kilometers (40 miles) southwest of Grand Island, Nebr. It is served by daytime-only AM station KRNY, full-time AM station KGFW (licensed to petitioner), and station KRNY-FM (Channel 255).

3. Petitioner states that Kearney has had a rapid growth in the last 10-20 years with its population increasing 21 percent between 1960-1970. It notes that although Kearney is basically an agricultural community, it has attracted substantial industry over the years, and that the county's work force now numbers 16,020 persons. Petitioner has furnished sufficient information regarding social, governmental and economic factors which indicate its need for a second class C channel.

4. Channel 290 can be assigned to Kearney, Nebr., in conformity with the minimum distance separation requirements. Although 15 communi-

*Population figures are taken from the 1970 U.S. Census.

ties, which have populations greater than 2,000 and no local aural broadcast service, would be precluded as a result of the proposed assignment, alternate channels are available for assignment to these communities should the need arise. Petitioner's engineering analysis, using Roanoke Rapids, N.C., 9 FCC 2d 672 (1967), and Anamosa-Iowa City, Iowa, 46 FCC 2d 520 (1974), criteria, indicates that, if Channel 290 were assigned, an FM station operating with 100 kilowatts at 305 meters (1,000 feet) HAAT would provide a first FM service to 8,585 persons in an area of 1,549 square kilometers (597 square miles) and a second FM service to 33,646 persons in an area of 4,033 square kilometers (1,550 square miles). It would also provide a first nighttime aural service to 6,181 persons in a 1,055 square kilometers (400 square miles) area and a second nighttime aural service to 11,100 persons in a 3,471 square kilometers (1,350 square miles) area.

5. The proposed Channel 290 assignment would provide for an FM station which could render significant first and second FM as well as first and second nighttime aural service to substantial areas and populations. It would also provide a growing community an opportunity to develop a second local FM broadcast service. In light of this and since it has been shown that there are alternate channels available for assignment to the communities without local aural broadcast service located in the precluded area, we believe the public interest would be served by the proposed assignment. Since there appears to be no interest in the existing class A assignment, we will delete it, thus ending the intermixture of channels in Kearney, a step which would allow the channel to be utilized elsewhere.

6. Authority for the action taken herein is contained in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

7. In view of the foregoing, *It is ordered*, That effective March 16, 1978, § 73.202(b) of the Commission's rules, the FM Table of Assignments, as regards Kearney, Nebr., is amended as follows:

City and Channel Nos.

Kearney, Nebr., 255, 290.

8. *It is further ordered*, That this proceeding is terminated.

*Nebraska: Orleans (pop. 2,439); Red Cloud (2,195); St. Paul (2,028); Minden (2,669); Gothenburg (3,154); Central City (2,813); Kansas: Hill City (2,071); Ellis (2,137); Wakeeney (2,334); Ellsworth (2,080); Smith Center (2,389); Oberlin (2,291); Horton (3,677); Plainville (2,667); Beloit (4,121).

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; (47 U.S.C. 154, 303, 307).)

SUPPLEMENTARY INFORMATION:

REPORT AND ORDER—PROCEEDING
TERMINATED

Adopted: January 25, 1978.

Released: January 31, 1978.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Warsaw, Mo.), Docket No. 21461, RM-2950.

1. On November 1, 1977, the Commission adopted a Notice of Proposed Rule Making, 42 FR 58768, proposing the assignment of Channel 249A to Warsaw, Mo., as its first FM assignment, at the request of Valkyrie Broadcasting, Inc. (petitioner). Petitioner filed supporting comments reaffirming its intention to file promptly for a construction permit, if the channel is assigned. No oppositions to the proposal were received.

2. Warsaw (pop. 1,423), seat of Benton county (pop. 9,695), is located approximately 53 kilometers (33 miles) south of Sedalia, Mo. There is no local aural broadcast service in Warsaw.

3. Petitioner states that there has been a 25.9 percent increase in the population of Warsaw between 1960-1970, and that Benton county's population has increased 11 percent during the same period. We are told that Benton county has a combination of industry, agriculture and other businesses. Petitioner has submitted infor-

*Population figures are taken from the 1970 U.S. Census.

RULES AND REGULATIONS

mation with respect to Warsaw and its need for a first FM channel assignment.

4. Upon careful consideration of the proposal, the Commission believes it would be in the public interest to assign FM Channel 249A to Warsaw, Mo. An interest has been shown for its use, and the assignment would provide for an FM station which could render a first local aural broadcast service to the community. The assignment can be made in conformity with the minimum distance separation requirements.

5. Authority for the action taken herein is contained in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

6. In view of the foregoing, *It is ordered*, That effective March 16, 1978, § 73.202(b) of the Commission's rules, the FM Table of Assignments, as regards Warsaw, Mo., is amended as follows:

City and Channel No.

Warsaw, Mo., 249A.

7. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; (47 U.S.C. 154, 303, 307).)

Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

REPORT AND ORDER—PROCEEDING
TERMINATED

Adopted: January 25, 1978.

Released: January 31, 1978.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Chatom, Ala.), Docket No. 21425, RM-2942.

1. The Commission has under consideration a Notice of Proposed Rule Making, adopted October 25, 1977, 42 FR 57975, proposing the assignment of Channel 276A to Chatom, Ala., as a first FM assignment to that community. The Notice was issued in response to a petition filed by Washington County Broadcasters (petitioner). Petitioner filed supporting comments reaffirming its continuing interest and stating it will immediately apply for the channel, if assigned. No oppositions to the proposal were filed.

2. Chatom (pop. 1,059), seat of Washington county (pop. 16,241), is located approximately 84 kilometers (52 miles) north of Mobile, Ala. There is no local aural broadcast service in Chatom.

3. In support of its proposal, petitioner has submitted sufficient information with respect to Chatom and its need for a first FM channel assignment. Therefore, the Commission believes it would be in the public interest to assign Channel 276A to Chatom, Ala. A demand has been shown for its use, and it would provide the community with a first local aural broadcast service. It can be made without affecting any existing assignments and would be consistent with the applicable minimum spacing requirements, provided the transmitter site is located 3.2 kilometers (2 miles) east of the community.

5. Authority for the action taken herein is contained in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307 (b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

6. In view of the foregoing, *It is ordered*, That effective March 16, 1978, § 73.202(b) of the Commission's rules and regulations, the FM Table of Assignments, is amended with respect to the city listed below:

City and Channel No.

Chatom, Ala., 276A.

7. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; (47 U.S.C. 154, 303, 307).)

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Station in Berlin, Md.; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Report and order.

SUMMARY: Action taken herein assigns a first class A FM channel to Berlin, Md. The channel assignment would provide for a station which will furnish a first full-time local aural broadcast servto that community.

EFFECTIVE DATE: March 16, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

REPORT AND ORDER—PROCEEDING TERMINATED

Adopted: January 25, 1978.

Released: January 31, 1978.

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Berlin, Md.), Docket No. 21429, RM-2940.

1. The Commission has under consideration its Notice of Proposed Rule Making, adopted October 26, 1977, 42 FR 57696, inviting comments on a proposal to assign channel 280A to Berlin, Md., as a first FM assignment to that community. Supporting comments were filed by petitioner, Musleradio, Inc. No oppositions were received.

2. Berlin (pop. 1,942), in Worcester County (pop. 24, 442), is located on Maryland's Eastern Shore, approximately 13 kilometers (8 miles) west of Ocean City, Md. Berlin has no local aural broadcast service. The proposed assignment can be made in conformance with the minimum distance separation requirements. Petitioner states that, if channel 280A is assigned to Berlin, it intends to apply for its use.

3. In support of its proposal, petitioner submitted information with respect to Berlin, and its need for a first local aural broadcast service. Petitioner asserts that Berlin has no local newspaper and is therefore in need of an outlet for local expression.

4. We believe that the public interest would be served by the assignment of

¹Population figures are taken from the 1970 U.S. Census.

channel 280A to Berlin, Md. A demand has been shown for its use and such an assignment would provide the community with a first full-time local aural broadcast service.

5. Authority for the adoption of the amendment contained herein appears in sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

6. Accordingly, it is ordered, That effective March 16, 1978, § 73.202(b) of the Commission's rules, the FM Table of Assignments, is amended as it pertains to the community listed below:

City and Channel No.
Berlin, Md., 280A.

7. It is further ordered, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; (47 U.S.C. 154, 303, 307).)

FEDERAL COMMUNICATIONS
COMMISSION.

WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

PART 78—CABLE TELEVISION RELAY SERVICE

Relaxing Certain Operating Requirements in the Cable Relay Service (CARS)

AGENCY: Federal Communications Commission.

ACTION: Editorial amendment.

SUMMARY: Mobile Cable Television Relay Service (CARS) stations are presently required to always have a first- or second-class radiotelephone operator on duty at the transmitter location. Under the revised rules, such mobile stations may be operated unattended provided certain requirements are satisfied. Also, in other situations, mobile stations may be operated by any person the licensee may designate.

DATES: Effective: February 13, 1978.

ADDRESS: Federal Communications Commission, 2025 M Street NW., Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Stephen Yelverton, Chief, Microwave Branch, Cable Television Bureau, Federal Communications Commission, 2025 M Street NW., Washington, D.C. 20554, 202-254-3420.

Adopted: January 26, 1978.

Released: January 26, 1978.

Order. In the matter of: editorial amendment of Part 78 of the Commission's rules to Relax Certain Operating Requirements in the Cable Television Relay Service (CARS).

1. A review of the Cable Television Relay Service (CARS) Rules, as contained in Part 78 of the Commission's Rules and Regulations, has disclosed that certain operating requirements for mobile CARS stations can be properly relaxed.

2. Sections 78.53 and 78.61 of the Commission's Rules require that a first-class or second-class radiotelephone operator be on duty at the location of all mobile CARS stations. Upon review, it appears that these requirements can now be relaxed. In the last several years there have been significant advances in both microwave technology and in the uses of mobile microwave stations. We believe that it is now appropriate to relax our operating requirements so that the public may more fully benefit from these advances. Furthermore, these changes will allow a licensee to utilize its technical personnel more productively and will leave unchanged the licensee's ultimate responsibility for the proper operation of its equipment.

3. Section 78.53 is being amended to permit unattended operation of mobile CARS stations. While generally mobile CARS stations will be operated by a qualified operator, there are situations where an operator does not appear to be necessary. This requirement seems particularly burdensome when a mobile station is used for several consecutive days at one location. Under the amended rules, for example, once the microwave link is established back to the cable television system, the station may be operated unattended provided the requirements for unattended operation are satisfied.

4. Section 78.61 is being amended to permit any person the licensee may designate to operate mobile CARS stations in certain circumstances. Specifically, we are relaxing the operator requirements for low-powered mobile CARS stations and for mobile stations which are, for all practical purposes, operated in response to directions from a person at the receiving end of the microwave circuit. As amended, the rule will more closely align itself with the operator requirements for Television Auxiliary Broadcast Service stations, which are assigned channels in the same frequency band as CARS stations.

5. Authority for the attached amendments is contained in 47 U.S.C. 151, 152, 301, and 307; and in § 0.231(d) of the Commission's rules. Inasmuch as the amendments ordered are non-substantive editorial revisions of the Commission's rules and regulations, impose no new requirements, and are intended only to relax or clarify existing requirements, compliance with the prior notice, procedural and effective date provisions of the Administrative Procedure Act, 5 U.S.C. 553, would serve no useful purpose and is unnecessary.

6. Accordingly, it is ordered, That effective February 13, 1978, Part 78 of the Commission's rules and regulations is amended as set forth below.

(Secs. 1, 2, 301, 307, 48 Stat., as amended, 1064, 1081, 1083; (47 U.S.C. 151, 152, 301, 307).)

FEDERAL COMMUNICATIONS
COMMISSION.
RICHARD D. LICHTWARDT,
Executive Director.

Part 78 of Chapter I Title 47 of the Code of Federal Regulations is amended in the following manner:

1. In § 78.53, the introductory language of paragraph (a) is amended to read as follows:

§ 78.53 Unattended operation.

(a) A CARS station may be operated unattended: *Provided*, That such operation is conducted in accordance with the conditions listed below: *And provided further*, That the Commission, in Washington, D.C., is notified at least 10 days prior to the beginning of unattended operation if such operation is not indicated on the station authorization.

2. In § 78.61, paragraph (a) is revised and paragraphs (e) and (f) are added.

§ 78.61 Operator requirements.

(a) Except in cases where a CARS station is operated unattended in accordance with § 78.53 or except as provided in other paragraphs of this section, a person holding a valid first- or second-class radiotelephone operator license shall be on duty at the place where the transmitting apparatus is located, in plain view and in actual charge of its operation or at a remote control point established pursuant to the provision of § 78.51, at all times when the station is in operation. Control and monitoring equipment at a remote control point shall be readily accessible and clearly visible to the operator at that position.

(e) CARS stations operating with nominal transmitter power of 250 milliwatts or less may be operated by any person whom the licensee shall designate. Pursuant to this provision, the designated person shall perform as the licensee's agent and proper operation of the station shall remain the licensee's responsibility.

(f) Mobile CARS stations operating with nominal transmitter power in excess of 250 milliwatts may be operated by any person whom the licensee shall designate: *Provided*, That a person holding a valid first- or second-class radiotelephone license is on duty at the receiving end of the circuit to supervise operation and to immediately

ly institute measures sufficient to assure prompt correction of any condition of improper operation that may be observed.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Amdt. No. 3 to Service Order No. 1247]

PART 1033—CAR SERVICE

Bath and Hammondsport Railroad Co. Authorized To Operate Over Tracks of Consolidated Rail Corporation

AGENCY: Interstate Commerce Commission.

ACTION: Emergency Order (Amendment No. 3 to Service Order No. 1247).

SUMMARY: As the designated operator for the State of New York the Bath and Hammondsport Railroad operates the Wayland Branch of the former Erie-Lackawanna Railroad between Kanona, N.Y., and Wayland, N.Y. This line is separated from the Bath and Hammondsport's own line by 3 miles of Consolidated Rail Corporation trackage. Service Order No. 1247 authorizes the Bath and Hammondsport to operate over this Consolidated Rail Corporation trackage in order to transfer locomotives, cars, and crews between its own line and the Wayland Branch. Amendment No. 3 extends Service Order No. 1247 for 6 months.

DATES: Effective 11:59 p.m., January 31, 1978. Expires 11:59 p.m., July 31, 1978.

FOR FURTHER INFORMATION CONTACT:

C. C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423, telephone 202-275-7840, telex 89-2742.

SUPPLEMENTARY INFORMATION: The Amendment is printed in full below.

Service date: January 31, 1978.

At a Session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 30th day of January, 1978.

Upon further consideration of Service Order No. 1247 (41 FR 29819; 42 FR 6370 and 39389), and good cause appearing therefor:

It is ordered, That:

Service Order No. 1247 is amended by substituting the following paragraph (d) for paragraph (d) thereof:

§ 1033.1247 Car Service Order 1247.

(a) Bath and Hammondsport Railroad Co. authorized to operate over tracks of Consolidated Rail Corporation.

(d) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., July 31, 1978, unless otherwise modified, changed or suspended by order of this Commission.

Effective date: This amendment shall become effective at 11:59 p.m., January 31, 1978.

(49 U.S.C. 1 (10-17).)

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Joel E. Burns, Robert S. Turkington, and John R. Michael.

H. G. HOMME, Jr.,
Acting Secretary.

SUBCHAPTER C—ACCOUNTS, RECORDS AND REPORTS

PART 1241—ANNUAL, SPECIAL OR PERIODIC REPORTS

PART 1249—REPORTS OF MOTOR CARRIERS

PART 1250—REPORTS OF WATER CARRIERS

PART 1251—REPORTS OF FREIGHT FORWARDERS

[No. 36141]

Corporate Disclosure Regulations

AGENCY: Interstate Commerce Commission.

ACTION: Final rule.

SUMMARY: The Interstate Commerce Commission has clarified its corporate disclosure regulations. The clarifications were made in response to comment from carriers, and are intended to simplify application of the regulations.

EFFECTIVE DATE: March 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Janice M. Rosenak, Deputy Director, Section of Rates, or Harvey Gobetz,

Assistant Deputy Director, Section of Rates, Interstate Commerce Commission, Washington, D.C. 20423, phone 202-275-7693 or 275-7656.

SUPPLEMENTARY INFORMATION: In the first report in this proceeding, 354 ICC 27, 62-64, the Commission adopted corporate disclosure regulations, published at 42 FR p. 35853, July 7, 1977. The regulations require regulated carriers to disclose certain information in the annual reports which are filed with the Interstate Commerce Commission. Certain carrier interests filed petitions for reconsideration, and the Commission clarified the regulations in response to those petitions. The first clarification relates to part IA(4), which will not be interpreted as requiring respondent carriers to submit individual balance sheets and income statements for non-transportation subsidiaries of respondents or for nontransportation organizations controlled by joint ventures involved in by respondents.

The second clarification concerns part II D, which has been amended to read as follows:

A list of contracts, agreements, or other business arrangements aggregating \$50,000 entered into during the reporting period (other than compensation related to position with respondents) between the respondent and each officer and director listed in subparagraph A. Identify the parties, amounts, dates and product or service involved. In addition, provide the same information with respect to professional services for each firm, partnership, or organization with which the officer or director is affiliated.

This amendment is intended to reduce respondents' reporting burden.

Finally, part III was clarified to require that restrictive covenants only be filed once, with subsequent, annual statements to the effect that the restrictive covenants are unchanged. Should a restrictive covenant be amended, copies of the complete document incorporating the changes must be filed.

H. G. HOMME, Jr.,
Acting Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE,
DEPARTMENT OF THE INTERIOR

PART 17—ENDANGERED AND THREATENED
WILDLIFE AND PLANTS

Listing of the Mona Boa and Mona Ground
Iguana as Threatened Species with Critical
Habitat

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Final rule.

SUMMARY: The Service determines the Mona' boa (*Epicrates monensis*

monensis) and Mona ground iguana (*Cyclura stejnegeri*) to be Threatened species. Thitation is being taken because of the threats of habitat modification and the effects of feral mammals on populations of these species, and provides Federal protection for the species and their habitat. The Mona boa and Mona ground iguana are known only from Mona Island, Commonwealth of Puerto Rico.

DATES: This rule becomes effective on March 6, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Keith M. Schreiner, Associate Director-Federal Assistance, Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240, 202-343-4646.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On May 26, 1977, the Service published a proposed rulemaking in the FEDERAL REGISTER (42 FR 27003-27007) advising that sufficient evidence was on file to support a determination that the Mona boa, Mona ground iguana, and Mona blind snake were Threatened species pursuant to the Endangered Species Act of 1973, 16 U.S.C. 1531 et seq. That proposal summarized the factors thought to be contributing to the likelihood that these reptiles could become Endangered within the foreseeable future, specified the prohibitions which would be applicable if such a determination were made, and solicited comments, suggestions, objections and factual information from any interested person. Section 4(b)(1)(A) of the Act requires that the governor of each State or Territory, within which a resident species of wildlife is known to occur, be notified and be provided 90 days to comment before any such species is determined to be a Threatened species or an Endangered species. A letter was sent to Governor Romero of the Commonwealth of Puerto Rico on June 1, 1977, notifying him of the proposed rulemaking for the Mona Island reptiles. On June 9, 1977, a memorandum was sent to the Service Directorate and affected Regional personnel, and letters were sent to other interested parties notifying them of the proposal and soliciting their comments and suggestions.

Official comments were received from Dr. Fred V. Soltero Harrington, Secretary of the Department of Natural Resources, representing the Commonwealth of Puerto Rico. Dr. Soltero emphasized that the estimated numbers of individuals of the proposed species are small and that classifying them as Threatened is a needed step for their survival. However, he indicated that their current status is probably the result of natural predators, rather than man's activities. This is especially true of the iguanas, whose eggs are eaten by wild pigs, wild cats, and rats, according to Dr. Soltero. Dr. Soltero further indicated that by declaring Mona and Monito Islands as Critical habitat, and thus preventing all human activity, the extinction of the proposed species might be hastened instead of avoided. Dr. Soltero then briefly reviewed the draft management plan for Mona which had been submitted to the Atlanta Regional Office of the Fish and Wildlife Service. Although he felt that the three species were in need of protection, the Secretary indicated that designation of Mona would prevent implementation of the Department of Natural Resources' management plan. Finally, Dr. Soltero pointed out that plans for a super port for oil tankers on Mona have now been abandoned so that Mona may be preserved as a natural area.

Section 4(b)(1)(C) of the Act requires that a summary of all comments and recommendations received be published in the FEDERAL REGISTER prior to adding any species to the List of Endangered and Threatened Wildlife and Plants.

In the May 26, 1977, FEDERAL REGISTER proposed rulemaking (42 FR 27003-27007) and associated June 6, 1977, Press Release, all interested parties were invited to submit factual reports or information which might contribute to the formulation of a final rulemaking.

SUMMARY OF COMMENTS AND RECOMMENDATIONS

All public comments received during the period May 26, 1977, to October 27, 1977, were considered.

In addition to the comments received from Secretary Soltero, comments were received from nine individuals and representatives of various organizations.

Thomas A. Wiewandt (Cornell University) submitted a series of comments in response to the proposed rulemaking.

(1) Dr. Wiewandt stated that Mona is no longer under consideration as an oil super port. However, he pointed out that any development alternatives, including public recreation and tourism, could prove similarly devastating to the future of the reptiles if not accompanied by a carefully managed and planned management program. He further stated that unintentional human interference with iguana nesting is now a problem in some areas and can be expected to intensify.

(2) The presence of feral goats is a most important factor in the present or threatened destruction, modification, or curtailment of habitat or range. Goats are uncontrolled on

Mona and have been implicated as a main cause of habitat destruction on many islands in addition to Mona. If uncontrolled, little of Mona's native wildlife will pass unscathed.

(3) Rats are not interacting negatively with and snakes on Mona, although they are quite a problem on Monito. Feral pigs and cats are a threat to both species.

(4) While there are written regulations protecting Mona iguanas, no apparent system for their enforcement exists.

(5) Dr. Wiewandt agreed that the entire island should be designated as Critical Habitat for the three species proposed.

Finally, Dr. Wiewandt enclosed a copy of the conservation and management section of his recently completed doctoral dissertation on the Mona iguana which explores in detail the past and present threats to the habitat and iguana.

John Yntema (Frederiksted, St. Croix) responded to the proposal based on information contained in the Endangered Species Technical Bulletin. Mr. Yntema commented on the taxonomy and distribution of *Epicrates monensis* and supported a Threatened designation for the entire species, "Mona" boas having been also collected historically from St. Thomas and Tortola in the Virgin Islands. Apparently, *Epicrates monensis* has been collected in the Virgin Islands within the last 10 years. Mr. Yntema states that a determination of Critical Habitat on St. Thomas would be difficult since no one knows enough about the localities where boas occur on the island to make such a determination.

Mr. Yntema also commented on the taxonomic status of the Mona ground iguana, noting that some authors prefer to treat the *Cyclura* on Mona as a subspecies of the ground iguana on Hispaniola, *C. cornuta*. He supported a Threatened listing.

Finally, Mr. Yntema commented on the secretive nature of the Mona blind snake and stated that it might qualify as an Endangered species instead of a Threatened species.

F. Wayne King (New York Zoological Society) supported the proposed listing and Critical Habitat for the species on Mona. Dr. King indicated that such a listing would protect the habitat of the species on Mona, but that a program of feral animal control should also be undertaken to guarantee the survival of the boa and iguana.

Juan A. Rivero (University of Puerto Rico-Mayaguez) commented that unless considerable destruction or modification of the habitat occurred or is contemplated, the Mona ground iguana should not be considered Endangered. However, he did support protection locally by the Department of Natural Resources against unscrupulous hunters.

Dr. Rivero also noted the scarcity of the Mona blind snake but doubted that it needed protection. Its secretive habits make it hard to find. Finally, Dr. Rivero noted that the Mona boa is very scarce and may be considered Endangered. He referred to Dr. Wiewandt as being an authority on the Mona species and indicated that he would be able to give a clear picture of the status of Mona animals. Dr. Rivero included the last several pages of his forthcoming book "Amphibians and Reptiles of Puerto Rico" which deals with the status of amphibians and reptiles on Puerto Rico.

Richard Thomas (University of Puerto Rico-Rio Piedras) commented extensively on the blind snake on Mona, its biology, difficulty of capture, and recent specimen acquisitions. He concluded that, short of paving the island, the species should probably not be considered a Threatened species.

Dr. Thomas also noted the taxonomic questions previously mentioned by John Yntema. He indicated that there is evidence the the Mona ground iguana is Threatened. However, he felt that no one really has a clear idea of the populations of boas on Mona and that its status is unknown.

In summary, Dr. Thomas regarded *Typhlops* as not Threatened, the Mona ground iguana as Threatened, and the Mona boa as of unknown status but probably not Threatened.

William A. Butler (Environmental Defense Fund) supported the listing of the three species as Threatened and questioned, in light of impending development, whether an Endangered status might be more appropriate. He supported the proposed Critical Habitat.

Herbert A. Raffaele (San Juan, Puerto Rico) strongly supported the proposed listing of the three Mona reptiles as did James Lazell, Jr. (Massachusetts Audubon Society); neither added any new information.

Finally, T. D. Nicholson (Director, American Museum of Natural History) commented on the status and habits of the Mona blind snake. He suggested that the blind snake not be included in a final rulemaking because, in his opinion, it would make it increasingly difficult, if not impossible, for researchers to study it. No comments were made on the boa or ground iguana.

CONCLUSION

There is a difference of opinion among herpetologists with regard to the taxonomic status of both the boa and iguana. *Epicrates monensis monensis* is clearly the form specified in the proposed rulemaking. As such, this final rulemaking will use the trinomial to designate the Mona boa. Should information be received by the Service which indicates that the boa occurring

in the Virgin Islands, *Epicrates monensis granti*, requires Federal protection, then that information will be assessed and if warranted, a proposed rulemaking to list the subspecies as either Endangered or Threatened will be prepared. At this time, nothing is known about the status of *E. m. granti*. *Cyclura stejnegeri* will be retained to designate the Mona ground iguana based on comments by Dr. Wiewandt. Should scientific acceptance be eventually placed on the trinomial, *Cyclura cornuta stejnegeri*, then the prohibitions contained in this final rulemaking would apply to the form found only on Mona Island.

When the proposal to list the Mona reptiles as Threatened was drafted, there were current plans which called for the development of the island as a super port for oil tankers. As such, rather extensive modification of the island, including much paving, was anticipated. Since the proposal appeared in the FEDERAL REGISTER, the plans for the super port have been dropped, and Mona is being developed as a natural area by the Department of Natural Resources of the Commonwealth of Puerto Rico. As such, there no longer appears to be a threat to the Mona blind snake, since the proposed development will not involve much modification of the subsurface habitat where blind snakes live and increased recreational activity on Mona should have little effect on them. Consequently, the Mona blind snake, *Typhlops monensis*, will not be considered for a final Threatened status.

Although the extensive development expected as a result of super port construction will not now occur, the increased use of the island as a result of its being developed for recreation could have deleterious effects on some of Mona's fauna, especially with regard to nesting activity of the iguanas. Also, feral goats, cats, and pigs still pose serious threats to the Mona ground iguana and Mona' boa.

Although some individuals may believe an Endangered status is more befitting the boa, others think it deserves no protection. Also, the status of the ground iguana is questioned as being either Endangered or not Threatened. Although the threats to the boa and iguana are serious, especially from feral animals and the potential impacts from visitor use, they are not serious enough to place these species in danger of becoming extinct in the foreseeable future (i.e., Endangered). By the same token, unless feral mammal control is undertaken and visitor use controlled, especially during nesting season, these species could become Endangered. Therefore, the Service feels justified in retaining a Threatened status for both iguana and boa.

Recent activities by the Department of Natural Resources, such as the sta-

RULES AND REGULATIONS

tioning of uniformed officers with law enforcement powers on Mona, should provide a positive step toward the protection of the Iguana, already prescribed by law in Puerto Rico. The management plan currently under study by the Department of Natural Resources should go a long way toward the protection and preservation of Mona's unique fauna and flora.

After a thorough review and consideration of all the information available, the Director has determined that the Mona ground iguana and Mona boa are threatened with becoming Endangered throughout all or a significant portion of their range due to one or more of the factors described in Section 4(a) of the Act. This review amplifies and substantiates the description of those factors and are described as follows:

(1) *The present or threatened destruction, modification, or curtailment of its habitat or range.*—Although plans for an extensive super port have now been dropped, Mona is still being considered for recreational development. Unless tightly controlled in terms of areas and times of use, recreation could seriously alter the habitat vital to the Mona boa and Mona ground iguana. This is especially true with regard to the iguana, which nests primarily in areas desirable for their recreation potential and which is extremely sensitive to disturbance while nesting.

(2) *Overutilization for commercial, sporting, scientific, or educational purposes.*—This is probably not a major threat to the Mona reptiles. However, Mona boas and Mona ground iguanas are occasionally shot by hunters who come to the island to hunt the many species of introduced mammals. Protection as Threatened would serve to discourage such activity.

(3) *Disease or predation.*—Predation on the eggs, young, and adults of Mona reptiles by introduced mammals, primarily cats and pigs, have contributed to the scarcity of many species of native Mona animals, including the two species which are the subject of this final rulemaking.

(4) *The inadequacy of existing regulatory mechanisms.*—There are a few existing regulatory measures to protect the Mona ground iguana. No iguanas or their eggs may be killed or collected without a special permit from the Puerto Rico Department of Natural Resources, and public hunting is not allowed during iguana nesting season. There are no specific regulatory measures regarding the Mona boa.

(5) *Other natural or manmade factors affecting its continued existence.*—The presence of goats on Mona is a serious threat to the Mona iguana since they are known to compete with

the iguana in choice of foods, both being vegetarian. In addition, goats, pigs, and man are known to collapse iguana nests thus resulting in destruction of the egg clutch. This can be a serious problem in areas of concentrated nesting.

CRITICAL HABITAT

The Director has considered all comments and data submitted in response to the proposed determination of Critical Habitat for the Mona boa and Mona ground iguana (42 FR 27003-27007).

Based on this review, the Critical Habitat for the Mona boa (*Epicrates monensis monensis*) and Mona ground iguana (*Cyclura stejnegeri*) is determined to include the following area (exclusive of those existing man-made structures or settlements which are not necessary to the normal needs or survival of the species): (1) Mona Island, Commonwealth of Puerto Rico—entire island.

EFFECT OF THE RULEMAKING

Section 7 of the Act provides:

The Secretary shall review other programs administered by him and utilize such programs in furtherance of the purposes of this Act. All other Federal departments and agencies shall, in consultation with and with the assistance of the Secretary, utilize their authorities in furtherance of the purposes of this Act by carrying out programs for the conservation of endangered species and threatened species listed pursuant to section 4 of the Act and by taking such action necessary to insure that actions authorized, funded, or carried out by them do not jeopardize the continued existence of such endangered species and threatened species or result in the destruction or modification of habitat of such species which is determined by the Secretary, after consultation as appropriate with the affected States, to be critical.

The Director has prepared, in consultation with an ad hoc interagency committee, guidelines for Federal agencies for the application of Section 7 of the Act. In addition, proposed provisions for interagency cooperation were published on January 26, 1977, in the FEDERAL REGISTER (42 FR 4868-4875) to assist Federal agencies in complying with Section 7.

Endangered species regulations already published in Title 50 of the Code of Federal Regulations set forth a series of general prohibitions and exceptions which apply to all Endangered species. The regulations referred to above, which pertain to Endangered and Threatened species, are found at §§ 17.21 and 17.31 of Title 50 and are summarized below.

With respect to the Mona boa and Mona ground iguana in Puerto Rico, all prohibitions of Section 9(a)(1) of the Act, as implemented by 50 CFR Part 17.21, would apply. These prohibitions, in part, would make it illegal

for any person subject to the jurisdiction of the United States to take, import or export, ship in interstate commerce in the course of a commercial activity, or sell or offer for sale in interstate or foreign commerce this species. It also would be illegal to possess, sell, deliver, carry, transport, or ship any such wildlife which was illegally taken. Certain exceptions would apply to agents of the Service and State conservation agencies.

Regulations published in the FEDERAL REGISTER of September 26, 1975 (40 FR 44412), codified in 50 CFR Part 17, provided for the issuance of permits to carry out otherwise prohibited activities involving Endangered or Threatened species under certain circumstances. Such permits involving Endangered species are available for scientific purposes or to enhance the propagation or survival of the species. In some instances, permits may be issued during a specified period of time to relieve undue economic hardship which would be suffered if such relief were not available.

EFFECT INTERNATIONALLY

In addition to the protection provided by the Act, the Service will review the Mona boa and Mona ground iguana to determine whether they should be proposed to the Secretariat of the Convention on International Trade in Endangered Species of Wild Fauna and Flora for placement upon the appropriate Appendix(ices) to that Convention or whether they should be considered under other, appropriate international agreements.

NATIONAL ENVIRONMENTAL POLICY ACT

An environmental assessment has been prepared and is on file in the Service's Washington Office of Endangered Species. It addresses this action as it involves the Mona boa and Mona ground iguana. The assessment is the basis for a decision that this determination is not a major Federal action which would significantly affect the quality of the human environment within the meaning of Section 102(2)(C) of the National Environmental Policy Act of 1969.

The primary author of this rule is Dr. C. Kenneth Dodd, Jr., Office of Endangered Species, 202-343-7814.

AUTHORITY

These amendments are issued under the authority of Sections 4 and 7 of the Endangered Species Act of 1973 (16 U.S.C. 1533, 1536).

REGULATIONS PROMULGATION

Accordingly, § 17.11 of Part 17 of Chapter I of Title 50 of the U.S. Code of Federal Regulations is amended as follows:

1. By adding the Mona boa and

RULES AND REGULATIONS

Mona ground iguana to the list, alphabetically, under "Reptiles" as indicated below:

§ 17.11 Endangered and threatened wildlife.

Species		Range					
Common name	Scientific name	Population	Known distribution	Portion	Status	When listed	Special rules
Reptiles							
Boa, Mona	<i>Epicrates monensis monensis</i>	NA	U.S.A. (Puerto Rico; Mona Island).	Entire...	T	33	NA
Iguana, Mona ground...	<i>Cyclura stejnegeri</i>	NA	do.....	do...	T	33	NA

§ 17.95 [Amended]

2. The Service amends § 17.95(c) by adding Critical Habitat of the Mona ground iguana after that of the giant anole as follows:

(c) *Reptiles.*

MONA GROUND IGUANA (*Cyclura stejnegeri*)
Commonwealth of Puerto Rico. Mona Island—entire island.

3. The Service also amends § 17.95(c) by adding Critical Habitat of the Mona boa after that of the Mona ground iguana as follows:

(c) *Reptiles.*

MONA BOA (*Epicrates monensis monensis*)
Commonwealth of Puerto Rico. Mona Island—entire island.

NOTE.—The Service has determined that this document does not contain a major action requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: January 25, 1978.

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

[7 CFR Part 225]

SUMMER FOOD SERVICE PROGRAM FOR CHILDREN

AGENCY: Food and Nutrition Service, USDA.

ACTION: Proposed rule.

SUMMARY: The Department is issuing these proposed regulations for the Summer Food Service Program for Children as required in section 13 of the National School Lunch Act, as amended. These proposed regulations deal with the areas of sponsor approval procedures, requirements for participation, food service requirements, food service management companies, and the free meal policy. They supplement interim program regulations issued by the Department effective on February 1, 1978. Together, these proposed regulations and the interim regulations form the basis for the implementation of the Program for the upcoming summer.

DATE: To be assured of consideration, comments must be received on or before February 24, 1978.

ADDRESS: Written comments should be sent to Mr. Henry S. Rodriguez, Acting Director, Child Care and Summer Programs Division, Food and Nutrition Service, U.S. Department of Agriculture, Washington, D.C. 20250. Copies of all written comments received will be available for inspection by the public during normal business hours in room 3300B Auditor's Building, 14th Street and Independence Avenue SW., Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT:

Mr. John M. Heslin, Child Care and Summer Programs Division, Food and Nutrition Service, USDA, Washington, D.C. 20250, 202-447-9072.

SUPPLEMENTARY INFORMATION: The Summer Food Service Program for Children was created by an amendment of section 13 of the National School Lunch Act on October 7, 1975 (Pub. L. 94-105). That amendment provided for a Program of a two-year duration, to operate through the end of fiscal year 1977. With the enactment of Pub. L. 95-166, approved November 10, 1977, the Program has

been extended for an additional three years. The current legislation contains new provisions which provide for stronger administrative controls. Many of these provisions were contained in the Program regulations in effect last summer (42 FR 11811, March 1, 1977); others deal with issues not previously considered in Program legislation or regulations.

Effective February 1, 1978, the Department issued interim regulations covering several specific areas of Program administration and operations (43 FR 4038, January 31, 1978). As stated in the preamble to those regulations, the Department deemed it necessary to address a number of issues in interim rather than proposed regulations, since the actions required therein demand the immediate attention of the Department and States agencies. Because of this fact, it will be noted that, in order to fully evaluate these proposed regulations, it is necessary to examine them in conjunction with the interim regulations (e.g., the definition of terms used in the proposed regulations will be found in the interim).

The following prescribes the proposed changes in Program regulations not previously addressed in interim regulations:

GENERAL PURPOSE AND SCOPE

Previous Program regulations have encouraged the selection of sponsors which are established organizations, experienced in the administration of public service programs, based in the area which they serve and able to provide children with a cultural or recreational activity in addition to a food service. The Department continues to feel that this is an appropriate position since the addition of such organizational characteristics and activities should contribute to the stability of the sponsor's operation and help ensure that children are attracted to and remain with the sponsor's program. Based on the fact that the current law does not stipulate or even allude to these additional sponsor requirements, the Department is removing its reference to them from this section. While the Department still supports the idea of using this type of sponsor in the Program, and encourages State agencies to seek them out, it believes that State agencies may not deny an otherwise eligible sponsor because its program is limited to a food service.

ADMINISTRATION

As provided for in sections 13(i) and 13(n) of the Act, all State agencies must indicate to the Department their intentions either to administer or not to administer the Program by January 1 of each year. Under § 225.18(b), the Department is proposing a notification procedure it will follow any time it finds it necessary to assume the administration of the Program in any State. As proposed, the notification would state the reasons for such action and the State would have 30 days in which to respond. If the State chooses to respond, a final determination and notification would be sent to the State within 30 days of the State's response.

PROCEDURES FOR APPROVAL OF SPONSORS AND SITES

Section 13(a)(4) of the Act sets out a priority system to be used when more than one sponsor proposes to serve children in the same area. The system differs from that found in last year's regulations primarily in that local schools with a history of successful food service operations and former, successful sponsors are to be given prime consideration on an equal basis and, for the first time, specific consideration is to be given to sponsors which integrate the Program with Federal, State, or local employment and training programs. Otherwise eligible applicant sponsors which do not provide a year-round service to the community will still be allowed to participate under the conditions previously established for such sponsors (i.e., when a failure to do so would deny the Program to an eligible area or would result in a significant number of needy children not having reasonable access to the Program). The Department is proposing that these sponsors be limited to 50 sites since they frequently have limited administrative capacity and their participation should be used to "fill the gaps" rather than as a primary source for delivery of food services.

RESPONSIBILITIES OF STATE AGENCIES

Additional mandatory provisions of the contract between sponsors and food service management companies have been proposed. The new provisions include a requirement for food service management companies to have periodic inspections of their preparation facilities, inclusion of food

PROPOSED RULES

specifications and a proposed acknowledgment by food service management companies of their awareness that meals delivered to nonapproved sites or delivered to approved sites outside of the delivery period or which do not meet requirements and specifications would not be paid for.

The interim regulations published January 31, 1978, contain standard audit provisions (§ 225.5(r)). The Department would like comments on amendment of that section in the final regulations which would allow State agencies to use statistical sampling procedures in the performance of audits and the settlement of claims.

REQUIREMENTS FOR PARTICIPATION

The basic sponsor eligibility criteria would be the same as in prior years. For the first time, the Act (section 13(a)(3)) specifically addresses this area, requiring Program sponsors to be those which are demonstrably capable, have not been deficient in prior years, operate a regularly scheduled food service for children or qualify as camps, and provide a year-round service to the community (under the conditions described above). Any sponsor which will earn more than \$50,000 in Program payments would be obliged to provide State agencies with copies of the management letter from its auditor or accountant. Formerly, sponsors were required to submit only letters of engagement with those individuals or firms. The Department believes that State agencies should have the opportunity to see the management letter in order to increase their awareness of the conditions under which the sponsor is operating and should take appropriate action when it appears that a sponsor requires assistance. Required provisions for the agreement between the State agency and sponsors would be increased. The agreement would allow camps to charge children for non-Program meals but the camps would have to serve identical meals to eligible and ineligible children. This would avoid the identification of children eligible for free meals.

Another provision would require each sponsor to issue a free meal policy statement which will be addressed further on. Audits of sponsors earning more than \$50,000 in Program payments could now be conducted by independent State and local government accountants or auditors, as well as by certified public accountants.

FOOD SERVICE REQUIREMENTS

Under Program regulations in effect in prior years, sponsors were allowed to serve supplemental food consisting of: (1) one-half pint of milk or 8 fluid ounces of full-strength fruit or vegetable juice or 1 cup of fruit or vegetable or an equivalent quantity of any combination thereof, and (2) one slice of

whole-grain or enriched bread or an equivalent quantity of other bread or cereal products. The proposed regulations would allow for a choice of two of four components which include: (1) one-half pint of fluid milk, (2) one ounce of meat or meat alternate, (3) eight fluid ounces of full-strength fruit or vegetable juice or one cup of fruit or vegetable, and (4) one slice of bread or an equivalent serving of a bread alternate. The Department feels that this proposed pattern is more beneficial in that it allows for more variety and, with the meat or meat alternate, could enhance the nutrient level of the supplement.

The meal components contained in the proposed regulations are, except for the proposed change above, similar to those found in previous Program regulations and in regulations governing the National School Lunch Program (7 CFR Part 210). The Department has recently proposed (42 FR 45328, September 9, 1977) that the meal pattern for lunches under the National School Lunch Program be revised to reflect the fact that allowable meat alternates, such as one egg and one-half cup of cooked dry beans or peas, are equal to one-half of two ounces of cooked lean meat on a nutritional equivalency basis. The National School Lunch proposal would allow such alternates to meet only one-half of the meat or meat alternate requirement. Because of the relationship between the meal patterns in both this Program and the National School Lunch Program, the Department would like comments on the use in this Program of the School Lunch Program meat alternate proposal.

FOOD SERVICE MANAGEMENT COMPANIES

Additional requirements have been proposed in the administration of this phase of Program operations. As provided for in interim regulations, food service management companies must register with each State in which they wish to operate under the Program. Food service management companies would not be allowed to subcontract for the total meal or for the assembly of the meal (section 13(1)(5) of the Act). State agencies would establish a standard form of contract. Public sponsors, sponsors contracting separately for the management of the Program and those which will earn less than \$10,000 in Program payments could use their existing or usual forms of contract if they get prior State agency approval of the form of contract they intend to use. This provision is proposed to provide for adequate administrative control and, at the same time, give consideration to unique circumstances, e.g., public sponsors frequently have well established, quite specific procurement practices and instruments; small spon-

sors might be unnecessarily burdened by a long, complex contract; and the usual contract for food service management companies does not deal with managing a food service as a separate function. As provided for in the Act (section 13(1)(5)), bids for food service for less than \$75,000 would not have to be accompanied by a bid bond and successful bidders whose bid does not exceed \$75,000 would not have to obtain a performance bond. This provision is intended to assist and encourage otherwise capable small businesses which have been or would be adversely affected by bonding requirements. The referenced section of the Act allows the Department to go as high as \$100,000 in setting this limit. The Department believes that the intent of the provision is best served by using the lower limit in that it would be more closely and more exclusively tied to the capabilities of small and minority-owned businesses. Participation by this type of business has been relatively limited in the past and therefore the Department welcomes any comment which would shed additional light in this area. Bid and performance bonds could be obtained from only those listed companies in the Department of the Treasury Circular 570.

PROCUREMENT PROVISIONS

The proposed procurement provisions are similar to those used last year. These provisions are consistent with those prescribed in the Office of Management and Budget Circulars A-102 and A-110.

FREE MEAL POLICY

The Department feels it is proper to establish a procedure for ensuring that sponsors develop a free meal policy statement. Sponsors which are eligible for reimbursement for all meals served to children would have to develop a policy statement advising that their meals will be served to all children without charge on a nondiscriminatory basis. Sponsors which qualify as camps, which are reimbursed only for meals served to children eligible for free or reduced price school meals and which charge separately for meals, must develop a more detailed statement covering eligibility criteria, collecting from paying children, conducting fair hearings, and avoiding identification of free meal recipients.

COMMENT PERIOD

As noted above, the Department is requiring that comments must be received prior to February 24, 1978, to be assured of consideration. This is a relatively short period of time but the Department believes that it is necessary since the enactment of the law

and the issuance of this proposed regulation occurred later than expected. The Department believes that it is essential to have final regulations and Program materials available as soon as possible in order for State agencies and sponsors to properly prepare for the upcoming summer.

Accordingly, the Department is proposing to adopt the provisions set forth below. "Reserved" sections are those already issued in the interim regulations. Upon expiration of the comment period, final regulations based upon both the interim and the proposed regulations will be published.

PART 225—SUMMER FOOD SERVICE PROGRAM FOR CHILDREN

Subpart A—General

- Sec.
225.1 General purpose and scope.
225.2 [Reserved]
225.3 Administration.

Subpart B—State Agency Provisions

- 225.4 Procedures for approval of sponsors and sites.
225.5 Responsibilities of State agencies.
225.6-225.8 [Reserved]

Subpart C—Sponsor Provisions

- 225.9 Requirements for participation.
225.10 Food service requirements.
225.11 Food service management companies.
225.12 Program payments.
225.13 Program payment procedures.
225.14 Claims against sponsors.

Subpart D—Miscellaneous Provisions

- 225.15 Procurement provisions.
225.16 Prohibitions.
225.17 Free meal policy.
225.18 Other provisions.
225.19 Program information.

AUTHORITY: Sec. 2, Pub. L. 95-166, 91 Stat. 1325 (42 U.S.C. 1761); sec. 7, Pub. L. 91-248, 84 Stat. 211 (42 U.S.C. 1759a).

Subpart A—General

§ 225.1 General purpose and scope.

This part announces the policies and prescribes the regulations under which the Secretary will carry out a Summer Food Service Program for Children to assist States through grants-in-aid to initiate, maintain and expand nonprofit food service programs for children during the summer months and at other approved times. The food service to be provided under the Program is similar to that provided under the National School Lunch and School Breakfast Programs and is intended to serve as a substitute for those programs for children who are on school vacation, except that it is primarily directed toward children from needy areas.

§ 225.2 [Reserved]

§ 225.3 Administration.

(b) Within the Department, FNS shall act on behalf of the Department

in the administration of the Program. Within FNS, CCSPD shall be responsible for Program administration.

(b) Within the States, responsibility for the administration of the Program shall be in the State agency, except that FNSRO shall administer the Program in any State where the State agency is not permitted by law or is otherwise unable to disburse Federal funds paid to it under the Program to any sponsor in the State. Each State agency shall notify the Department by each January 1 as to whether or not it intends to administer the Program.

(c) Each State agency desiring to take part in the Program shall enter into a written agreement with the Department for the administration of the Program in the State in accordance with the provisions of this part. Such agreement shall cover the operation of the Program during the period specified therein and may be extended by consent of both parties.

(d) When the Secretary determines that the State is not operating the Program in accordance with the provisions of this part, he shall, through FNSRO, assume the administration of the Program in the State as provided for in § 225.18(b).

(e) FNSRO shall, in the States in which it administers the Program, assume all responsibilities of State agencies set forth in this part.

Subpart B—State Agency Provisions

§ 225.4 Procedures for approval of sponsors and sites.

(a) The State agency shall determine the eligibility of applicant sponsors applying for participation in the Program in accordance with the applicant sponsor eligibility criteria outlined in § 225.9(a).

(b) The State agency shall not approve the application of any applicant sponsor, identifiable through its corporate or other organization or otherwise, as a sponsor which participated in the Program during any previous fiscal year and which was seriously deficient in its Program operations. In the event an applicant sponsor's application is denied, the State agency shall inform such applicant sponsor of the procedure to request a review of the denial. The official making the determination of denial must notify the applicant sponsor in writing stating all of the grounds on which the State agency based the denial. Serious deficiencies, which are grounds for nonapproval include, but are not limited to, any of the following:

- (1) Noncompliance with the applicable bid procedures and contract requirements of Program regulations;
- (2) The submission of false information to the State agency;
- (3) Failure to return to the State agency any start-up or advance pay-

ments which exceeded the amount earned for serving eligible meals, or failure to submit all Claims for Reimbursement in any prior year;

(4) Program violations at a significant proportion of the sites which include, but are not limited to, the following:

- (i) Noncompliance with the between meal time requirements;
- (ii) Failure to maintain adequate records;
- (iii) Failure to adjust meal orders to conform to variations in the number of participating children;
- (iv) The simultaneous service of more than one meal to each child;
- (v) The claiming of Program payments for meals not served to participating children;
- (vi) Service of a significant number of meals which did not include required quantities of all meal components;
- (vii) Excessive instances of off-site meal consumption; and
- (viii) Continued use of food service management companies that are in violation of health codes.

(c) Pending the outcome of a review of a denial of an application for Program participation, the State agency shall proceed to approve other applicants in accordance with its responsibilities under paragraph (h) of this section, without regard to the application under review.

(d) The State agency shall not approve the application of any applicant sponsor which submits fraudulent information of documentation when applying for Program participation or knowingly withholds information which may lead to the disapproval of its application. Complete information regarding the disapproval of an applicant sponsor on the basis of fraudulent submission of information shall be submitted by the State agency to OIG.

(e) The State agency shall develop, in accordance with the requirements of this part and such other guidance as may be furnished by the Department, a site information sheet, on which applicant sponsors shall provide, for each site, information to demonstrate or describe:

- (1) An organized and supervised system for serving meals to attending children;
- (2) The type or types of meals to be served and the times of service;
- (3) Arrangements, within acceptable standards prescribed by the State or local health authorities, for delivery and holding of meals until time of service, and if there are excess meals, arrangements for storing them until they are served;
- (4) Arrangements for food service during periods of inclement weather;
- (5) Access to a means of communication for making adjustments as needed

in the number of meals delivered in accordance with the number of children attending daily at each site;

(6) The geographic area to be served by the site;

(7) The percentage of children served by the site who are eligible for free or reduced price school meals;

(f) The State agency shall when evaluating proposed sites ensure that:

- (1) If not a camp, the proposed site serves an area in which poor economic conditions exist;
- (2) The number of meals, by type, proposed to be served to children at the site does not exceed the number of children residing in the area to be served, or if applicable, the number enrolled; and
- (3) The area which the site proposes to serve is not or will not be served in whole or in part by another site, unless it can be demonstrated to the satisfaction of the State agency that each site will serve children not served by any other site in the area and that the total number of meals, by type, served to children at all sites does not exceed the number of children residing in the area.

(g) The State agency shall not approve any applicant sponsor to operate more than 200 sites or to serve an average daily attendance of more than 50,000 children unless it can demonstrate to the satisfaction of the State agency that it has the capability of managing a program of that size. Applicant sponsors which qualify as camps shall be approved for reimbursement only for meals served free to children enrolled and eligible for free and reduced price school meals.

(h) The State agency shall use the following order of priority in approving sponsors to operate sites which propose to serve the same area or the same enrolled children:

- (1) Applicant sponsors which are public or nonprofit private schools which have demonstrated a successful food service and other applicant sponsors which have demonstrated successful Program performance in a prior year;
- (2) Applicant sponsors which propose to prepare meals at their own facilities or which operate only one site;
- (3) Applicant sponsors which propose to utilize local school food facilities for the preparation of meals, ability for successful Program operations; and
- (4) Applicant sponsors which plan to integrate the Program with Federal, State, or local employment or training programs.

(i) State agencies may approve the application of an otherwise eligible applicant sponsor which does not provide a year-round service to the community which it proposes to serve under the Program only if it is a residential camp, or a sponsor which provides a

food service for the children of migrant workers, or when a failure to do so would deny the Program to an area in which poor economic conditions exist, or if a significant number of needy children will not have reasonable access to the Program: *Provided, however*, That such an applicant sponsor shall not be approved to operate more than 50 sites. State agencies, when approving the applications of such applicant sponsors, shall take particular care to ensure that such applicant sponsors are timely in their Program planning and thoroughly prepared to assume and carry out all Program responsibilities.

§ 225.5 Responsibilities of State agencies.

(a)-(c) [Reserved]

(d) Accounting procedures for sponsors. Each State agency shall establish accounting procedures under which sponsors shall maintain and report the information required in this part. The system shall be such as to permit determination of the operating balances available to sponsors.

(e) *Payment of claims.* A State agency may make full or partial reimbursement upon receipt of a Claim for Reimbursement from a sponsor, but shall first make any necessary adjustments in payments.

(f) *Sponsor and food service management company contract.* Each State agency shall develop a standard form of contract for use by sponsors with food service management companies. The contract shall expressly and without exception provide that:

(1) The sponsor shall provide the food service management company with a list of State agency approved food service sites and shall notify the food service management company of all sites which have been approved or cancelled subsequent to the submission of the initial approved site list. Such notification shall be provided within the time limits mutually agreed upon in the contract;

(2) The food service management company shall maintain such records (supported by invoices, receipts or other evidence) as the sponsor will need to meet its responsibilities under this part, and shall report to the sponsor promptly at the end of each month, at a minimum;

(3) The food service management company shall have State or local health certification for the facility in which it proposes to prepare meals for use in the Program and it shall ensure that health and sanitation requirements are met at all times. In addition, the food service management company shall provide for meals which it prepares to be periodically inspected by the local health department or an independent agency to determine bacteria levels in the meals being served. Such levels shall conform to the stan-

dards which are applied by the local health authority with respect to the level of bacteria which may be present in meals served by other establishments in the locality. Results of such inspections shall be submitted to the sponsor and to the State agency;

(4) The meals served under the contract shall conform to the cycle menus and meal quality standards and food specifications approved by the State agency and upon which the bid was based;

(5) The books and records of the food service management company pertaining to the sponsor's food service operation shall be available for inspection and audit by representatives of the State agency, of the Department, and of the United States General Accounting Office at any reasonable time and place, for a period of 3 years from the date of receipt of final payment under the contract;

(6) The food service management company shall operate in accordance with current Program regulations;

(7) The food service management company shall not be paid for meals which are delivered to non-approved sites or for meals which are delivered to approved sites outside of the agreed upon delivery time, are spoiled or unwholesome at the time of delivery, or do not otherwise meet the meal requirements and meal quality standards and food specifications contained in the contract;

(8) Unitized meals shall be delivered in accordance with a delivery schedule prescribed in the contract;

(9) Increases and decreases in the number of meal orders may be made by the sponsor, as needed, within a prior notice period mutually agreed upon;

(10) All meals served under the Program shall meet the requirements of § 225.10; and

(11) Nonperformance shall subject the food service management company to specified sanctions.

(g) *Advance and start-up payment procedures.* Each State agency shall inform sponsors of the procedure whereby they may apply for advance net Program payments and advance administrative costs payments as provided for in § 225.9(d) and, where applicable, each State agency shall inform sponsors of the procedure whereby they may apply for start-up payments provided for in § 225.9(d).

(h)-(j) [Reserved]

(k) *Plentiful foods.* State agencies shall provide sponsors with information on foods available in plentiful supply, including those so designated by the Department.

(l) *Records and reports.* (1) Each State agency shall maintain current accounting records of its Program operations which will adequately identify funds authorizations, obligations,

unobligated balances, assets, liabilities, income, and expenditures for administrative costs and net Program costs. The records may be kept in their original form or on microfilm, and shall be retained for a period of three years after the date of submission of the final Financial Status Report, except that, if audit findings have not been resolved, the records shall be retained beyond the three-year period as long as required for the resolution of any issues raised by the audit. (2) No later than September 30 of each year, the State agency shall provide the Department with information on the scope of Program operations within the State. (3) Each State agency shall report information on the use of Program funds and on Program operations to FNS on forms provided by FNS, as instructed by FNS.

(m) *Investigations.* Each State agency shall promptly investigate complaints received or irregularities noted in connection with the operation of the Program, and shall take appropriate action to correct any irregularities. State agencies shall maintain on file all evidence relating to such investigations and actions. The Department may make investigations at the request of the State agency, or where the Department determines investigations are appropriate.

(n) *Commodity distribution information.* A list of sponsors which are to receive food commodities, with accompanying information on the average daily number of eligible meals to be served by such sponsors, shall be prepared not later than June 1 of each year by the State agency. Such a list shall contain only the names of sponsors which will prepare the meals to be served at their sites and the names of sponsors which have entered into an agreement with a school or school district for the preparation of meals to be served under the Program. If the State agency is other than the agency of the State which handles the distribution of food commodities donated by the Department, this information shall be forwarded to the agency of the State which handles the distribution of donated commodities. The State Agency shall be responsible for promptly revising the information to reflect additions or deletions of sponsors and for providing such adjustments in participation data as are determined necessary by the State agency. Availability of commodities for use by sponsors shall be summarized and announced by the State agency at an early date prior to the development of menu cycles.

(o) [Reserved]

(p) *Program materials.* Each State agency shall develop and make available in a timely manner all necessary Program materials so that applicant sponsors have sufficient time to adequately prepare for their participation in the Program.

(q) *Procurement provisions.* State agencies shall require sponsors to adhere to the procurement provisions set forth in § 225.15 in addition to any other procurement provisions contained in this part.

(r)-(u) [Reserved]

(v) *Bid opening monitoring.* Each State agency shall have a representative present at all procurement bid openings of sponsors which expect to receive more than \$100,000 in Program payments.

(w) *Sponsor certifications.* Each State agency shall require applicant sponsors submitting Program applications, site information sheets, Program agreements or Claims for Reimbursement, and sponsors requesting advance payments, to certify that the information submitted on these forms is true and correct and that the sponsor is aware that deliberate misrepresentation or withholding of information may result in prosecution under applicable State and Federal statutes.

(x) [Reserved]

(y) *Advance payment estimates.* Each State agency shall, when determining the amount of advance net Program payments to be made to each sponsor under § 225.13(d) (in the interim regulations), make the best possible estimate based on the amount requested by the sponsor and any other data available to the State agency.

(z) *Sponsor's budget approval process.* Each State agency shall, when approving an applicant sponsor's administrative budget, take into consideration the number of sites and children to be served as well as any other factors determined by the State agency and set forth in guidance provided by the Department, in order to assess the amount of administrative monies needed by a sponsor to effectively and efficiently operate under the Program.

§§ 225.6-225.8 [Reserved]

Support C—Sponsor Provisions

§ 225.9 Requirements for participation.

(a) No applicant sponsor shall be eligible to participate in the Program unless it:

(1) Demonstrates financial and administrative capability for Program operations and accepts final financial and administrative responsibility for total program operations at all sites at which it proposes to conduct a food service;

(2) Has not been seriously deficient in operating the Program in prior years;

(3) Will conduct a regularly scheduled food service for children from areas in which poor economic conditions exist or qualifies as a camp;

(4) Has adequate supervisory and operational personnel for overall monitoring and management of each site including adequate personnel to visit all sites at least once in the first week of operation under the Program and to promptly take such actions as are necessary to correct deficiencies found at the time of the initial visit, and to review food service operations at every site at least once during the first four weeks of Program operations, and thereafter to maintain a reasonable level of site monitoring;

(5) Provides an ongoing year-round service to the community which it proposes to serve under the Program as provided for in § 225.4(i);

(6) Has the capability of maintaining children on site while meals are consumed;

(7) Certifies that all sites have been visited and have the capability and the facilities for the meal service planned for the number of children anticipated to be served;

(8) Is a public or private nonprofit entity;

(9) If not a camp, provides documentation that its food service will serve children from an area in which poor economic conditions exist. If a camp, certifies that it will collect family size and income information to support its Claim for Reimbursement.

(10) Is not a summer school offering educational courses for credit, and therefore, eligible for meals under the National School Lunch and School Breakfast Programs (7 CFR Parts 210 and 220).

(b) Applicant sponsors shall make written application to the State agency for participation in the Program as sponsors. Such application shall be made on a timely basis in accordance with the requirements of § 225.5(i) (of the interim regulations).

(c) Each applicant sponsor shall submit, as part of the application, a site information sheet, as developed by the State agency, for each site where a food service operation is proposed.

(d) Applications shall include information in sufficient detail to enable the State agency to determine whether the applicant sponsor meets the criteria for participation in the Program as set forth in § 225.9(a) and the extent of the Program payments needed, including requests for advance payments and start-up payments, if applicable. In addition, all applicant sponsors must include a management plan for review and approval by the State agency. Such a plan shall include the applicant sponsor's administrative and operating budget, staffing and monitoring plan.

(e) Each applicant sponsor shall submit to the State agency, as part of the application for participation, a complete administrative budget for State agency review and approval. The budget shall contain the projected administrative expenses which a sponsor expects to incur during the operation of the Program, and shall include information in sufficient detail to enable the State agency to effectively determine the amount of administrative monies needed by a sponsor to effectively and efficiently operate under the Program. A sponsor's approved administrative budget shall be subject to subsequent review by the State agency for adjustments in projected administrative costs.

(f) Each applicant sponsor shall submit to the State agency, along with its application, a plan for and a synopsis of its invitation to bid for food service, if a bid is required under § 225.11 and a copy of its letter of engagement with a certified public accountant or an independent State or local government accountant if required under paragraph (j) of this section (in the interim regulations). In addition, the selected accountant shall, within the first two weeks of operation under the Program, submit a copy of the management letter to the sponsor and to the State agency.

(g) Each applicant sponsor, except a camp, shall submit, along with its site information sheet, documentation supporting the eligibility of each site as serving an area in which poor economic conditions exist. Camps shall submit with the site information sheet family size and income information which documents the number of children enrolled in each session whose family incomes meet the eligibility requirements for free or reduced price school meals. Information on each session must be submitted at least 14 calendar days prior to the opening of the session or at such time as specified by the State agency.

(h) Sponsors approved for participation in the Program shall enter into written agreements with the State agency, or, in those States in which FNSRO administers the Program, sponsors shall enter into written agreements with the Department. Such agreements shall provide that the sponsor shall:

(1) Operate a nonprofit food service during any period from May through September for children on school vacation or at some other time or times during the year for children on school vacation under a continuous school calendar system;

(2) Serve meals which meet the requirements and provisions set forth in § 225.10 during a period designated as the meal service period by the sponsor, and serve the same meals to all children;

(3) Serve meals without cost to all children, except that camps may charge for meals served to children who are not eligible for free or reduced price school meals;

(4) Issue a policy statement in accordance with § 225.17;

(5) Hold training sessions for its administrative and site personnel with regard to program duties and allow no site to operate until site personnel have attended such training sessions. Training of site personnel at a minimum shall include: Purpose of the program, site eligibility, recordkeeping, site operations, meal pattern requirements, and duties of a monitor. Each sponsor shall ensure that its administrative personnel attend State agency training provided to sponsors under § 225.5(o) (in the interim regulations); and sponsors shall provide training sessions throughout the summer to ensure that administrative and site personnel are thoroughly knowledgeable in all requisite areas of program administration and operation and are provided with sufficient information to enable them to carry out their program responsibilities;

(6) Provide for an audit to be performed by an independent certified public accountant or an independent State or local government accountant of its food service under any program agreement for which it may receive over \$50,000 in program payments and shall agree to submit to the State agency a copy of the letter of engagement with the accounting firm or individual which is to conduct the audit;

(7) Claim reimbursement only for the type or types of meals specified in the agreement and served to children at approved sites during the approved meal service period; except that camps shall claim reimbursement only for the type or types of meals specified in the agreement and served without charge to children who are eligible for free or reduced price school meals;

(8) Submit claims for reimbursement in accordance with procedures established by the State agency;

(9) Maintain, in the storage, preparation, and service of food, proper sanitation and health standards in conformance with all applicable State and local laws and regulations;

(10) Purchase, in as large quantities as may be efficiently utilized in the program, foods designated as plentiful by the State agency or the Department;

(11) Accept and use, in as large quantities as may be efficiently utilized in the program, such foods as may be offered as a donation by the Department;

(12) Have access to facilities necessary for storing, preparing and serving food;

(13) Maintain a financial management system as prescribed by the State agency;

(14) Maintain on file documentation of site visits in accordance with § 225.9(a)(4);

(15) Upon request, make all accounts and records pertaining to the program available to State, Federal, or other

authorized officials for audit or administrative review, at a reasonable time and place. Such records shall be retained for a period of three years after the end of the fiscal year to which they pertain, except that, if audit findings have not been resolved, the records shall be retained beyond the 3-year period as long as required for the resolution of any issues raised by the audit.

(l) Sponsors selected for participation in the program shall submit evidence to the State agency that they have advised the appropriate health department of their intention to provide a food service during a specific period at specific sites. Such evidence shall be in the form of a letter to the health department.

(j) [Reserved]

(k) Sponsors shall not claim reimbursement under Parts 210, 215, 220, or 226 of this chapter, or any other federally funded program for meals served under the program.

(l) Each sponsor shall, to the maximum extent feasible, utilize either its own food service facilities, or obtain meals from a school food service facility. If the sponsor obtains meals from a school food service facility the applicable requirements of this part shall be embodied in a written agreement between the sponsor and the school.

(m) Sponsors shall operate the food service in accordance with the provisions of this part and any instructions and handbooks issued by FNS under this part or by the State agency which are not inconsistent with the provisions of this part.

§ 225.10 Food service requirements.

(a) Except as otherwise provided in this section and any appendices to this part, each meal served in the Program shall contain, as a minimum, the indicated food components:

(1) A breakfast shall contain:

(i) One-half pint (1 cup) of milk as a beverage or on cereal or used in part for each purpose;

(ii) One-half cup serving of fruit or vegetable, or both, or full strength fruit or vegetable juice;

(iii) One slice of whole-grain or enriched bread; or an equivalent quantity of cornbread, biscuits, rolls, muffins, etc., made of whole-grain or enriched meal or flour; or three-fourths cup (volume) or one ounce (weight), whichever is less, of whole-grain or enriched or fortified cereal, or an equivalent quantity of any combination of these foods.

(2) A lunch or supper shall contain:

(i) One-half pint (1 cup) of milk as a beverage.

(ii) Two ounces (edible portion as served) of cooked lean meat, poultry or fish; or two ounces of cheese; or one egg; or one cup of cooked dry beans or peas; or four tablespoons of peanut

butter; or an equivalent quantity of any combination of the above-listed foods. To be counted in meeting this requirement, these foods must be served as a main dish or in a main dish and one other menu item.

(iii) A three-fourths cup serving consisting of two or more vegetables or fruit, or both. Full-strength vegetable or fruit juice may be counted to meet not more than one-fourth cup of this requirement.

(iv) One slice of whole-grain or enriched bread, or an equivalent quantity of cornbread, biscuits, rolls, muffins, etc., made of whole-grain or enriched meal or flour.

(3) Supplemental food shall contain two of the following four components:

(i) One-half pint (1 cup) of milk.

(ii) One ounce of meat or meat alternate.

(iii) Eight fluid ounces of full strength fruit or vegetable juice (juices shall not be served when milk is served) or one cup of fruit or vegetable.

(iv) One slice of whole-grain or enriched bread, or an equivalent quantity of cornbread, biscuits, rolls, muffins, etc., made of whole-grain or enriched meal or flour; or three-fourths cup (volume) or one ounce (weight), whichever is less, of whole-grain or enriched or fortified cereal, or an equivalent quantity of any combination of these foods.

(b) The quantities of food specified in subparagraphs (1) and (2) of paragraph (a) are approximate amounts of food to serve 10 to 12 year-old boys and girls. Greater or lesser amounts of these foods may be served if participating children are older or younger and if the sponsor can demonstrate to the satisfaction of the State agency that it has the capability of controlling portion size so as to ensure that variations in portion size are in accordance with the age levels of the children served.

(c) If emergency conditions prevent a sponsor normally having a supply of milk from temporarily obtaining delivery, the State agency may approve the service of breakfasts, lunches, suppers, or supplemental food without milk during the emergency period.

(d) The inability of a sponsor to obtain a supply of milk on a continuing basis shall not bar it from participation in the Program. In such cases the State agency may approve the service of meals without milk, provided that an equivalent amount of canned, whole dry, or nonfat dry milk is used in the preparation of the components of all meals. In addition, the State agency may approve the use of nonfat dry milk by camps in meals served to children participating in camp-sponsored activities which make the service of fluid milk impracticable. Such authorization shall stipulate that nonfat

dry milk be reconstituted at normal dilution and under sanitary conditions consistent with State and local health regulations.

(e) In American Samoa, Guam, Puerto Rico, the Virgin Islands of the United States, the Trust Territory of the Pacific Islands and the Northern Marianas Islands, the following variations from the meal requirements are authorized: A serving of a starchy vegetable, such as yam, tanniers, yams, plantains, sweet potatoes, or a serving of enriched rice or enriched or whole-grain cereal products such as macaroni, dumplings or noodles may be substituted for the bread requirement.

(f) Substitutions may be made by sponsors in paragraph (a) of this section if individual participating children are unable, because of medical or other special dietary needs, to consume such food. Such substitutions shall be made only when supported by a statement from a recognized medical authority which includes recommended alternate foods. Such statements shall be kept on file by the sponsor.

(g) FNS may approve variations in the food components of the meals on an experimental or a continuing basis for any sponsor where there is evidence that such variations are nutritionally sound and are necessary to meet ethnic, religious, economic, or physical needs.

(h) Sponsors approved to serve children under 1 year of age shall be required to comply with the applicable meal patterns contained in the Child Care Food Program regulations (7 CFR Part 226).

§ 225.11 Food service management companies.

(a) Any sponsor may contract with a food service management company (or other commercial enterprise) for the preparation of unitized meals, with or without milk. Any sponsor may contract with a food service management company to operate its entire food service: *Provided, however*, That a sponsor that so employs a food service management company shall remain responsible for assuring that the food service operation is in conformity with its agreement with the State agency and all applicable provisions of this part. Sponsors may contract only with food service management companies registered with the State in which the sponsor will operate as provided for under § 225.5(u) (in the interim regulations). A food service management company entering into a contract with a sponsor under the Program shall not subcontract with only one company for the total meal, with or without milk, or for the assembly of the meal. Any sponsor entering into a contract with a food service management company shall use the standard form of contract established by its State

agency. For sponsors which are public institutions, sponsors desiring to contract only for the management of the Program, and sponsors whose contract with a food service management company will not exceed \$10,000, this may be their existing or usual form of contract if such form of contract has been submitted to and approved by the State agency. In any event, sponsors shall adhere to the procurement standards set forth in § 225.15. Each proposed additional provision to the established form of contract shall be submitted to the State agency for approval.

(1) In the absence of any State or local law, sponsors whose proposed contracts are subject to competitive bidding procedure shall, at a minimum, ensure that:

(i) All proposed contracts shall be publicly announced at least 14 days prior to the opening of bids;

(ii) The bids shall be publicly opened;

(iii) All bidders shall be notified at least 5 days prior to the opening of the bids of the time and place of the bid opening; and

(iv) The State agency is notified at least 15 days prior to the opening of the bids of the time and place of the bid opening.

(2) In addition, sponsors shall, at a minimum, when advertising for bids adhere to the following requirements:

(i) The invitation to bid shall not specify a minimum price;

(ii) The invitation to bid shall contain a cycle menu approved by the State agency upon which the bid shall be based;

(iii) The invitation to bid shall contain food specifications and meal quality standards developed by the State agency upon which the bid shall be based;

(iv) The invitation to bid shall not specify special meal requirements to meet ethnic or religious needs unless such special requirements are to meet the needs of the children to be served;

(v) Neither the invitation to bid nor the contract shall provide for loans or any other monetary benefit or term or condition to be made to sponsors by food service management companies;

(vi) Nonfood items shall be excluded from the invitation to bid, except where such items are essential to the conduct of the food service;

(vii) A copy of the health certification required in this section shall be submitted by the food service management company with each bid;

(viii) Sponsors shall submit to the State agency copies of all bids received and the reason for selecting the food service management company chosen;

(ix) All bids totaling \$100,000 or more shall be submitted to the State agency for approval before acceptance. All bids in an amount which exceeds

the lowest bid by more than two (2) cents per meal shall be submitted to the State agency for approval before acceptance. State agencies shall respond to such request for approval within 5 working days of receipt;

(x) Identical bids shall be awarded by lot.

(b) Copies of all contracts between sponsors and food service management companies, along with a certification of independent price determination, shall be submitted to the State agency prior to the beginning of Program operations.

(c) Each food service management company which submits a bid over \$75,000 under the Program shall obtain a bid bond in an amount not less than five (5) percent nor more than ten (10) percent, as determined by the sponsor, of the value of the contract for which the bid is made. A copy of the bid bond shall accompany each bid.

(d) Each food service management company which enters into a food service contract for over \$75,000 with a sponsor shall obtain a performance bond in an amount not less than ten (10) percent nor more than twenty-five (25) percent of the value of the contract, as determined by the State agency. Any food service management company which enters into more than one contract with any one sponsor shall obtain a performance bond covering all contracts if the aggregate amount of such contracts exceeds \$75,000. Sponsors shall require the food service management company to furnish a copy of the bond within ten (10) days of the awarding of the contract.

(e) Food service management companies shall obtain bid bonds and performance bonds only from surety companies listed in the current Department of the Treasury Circular 570.

(f) Failure by a sponsor to comply with the provisions of this section shall be sufficient grounds for the State agency to terminate participation by the sponsor in accordance with § 225.18(b).

§ 225.12 Program payments.

(a) Program payments shall be made to sponsors only after execution of and in accordance with the terms of the agreement with the State agency or the Department. No Program payments shall be made for meals served at a site before the sponsor has received written notification of approval for the site from the State agency.

(b) Reimbursement shall be made to camps only for meals served to children whose eligibility is documents on the basis of family size and income information. Any nonresidential camp reduced to less than four meals per day shall continue to receive reimbursement for only those meals served

to children eligible for free or reduced price school meals.

(c) [Reserved]

(d) Payment to a sponsor for administrative costs shall equal the full amount of administrative costs as approved in its budget by the State agency, except that a sponsor's approved administrative budget shall be subject to subsequent review by the State agency for adjustments in projected administrative costs if the sponsor's level of site participation or number of meals served to eligible children changes significantly: *Provided, however*, That a sponsor shall not receive payment for administrative costs in excess of its actual expenditures for approved administrative costs or the per meal administrative rates by type set forth in § 225.8(c) (in the interim regulations), for meals actually served to eligible children, whichever is less.

(e) [Reserved]

(f) The Secretary shall prescribe, by January 1 of each fiscal year, an adjustment to the nearest one-fourth cent in the reimbursement rates set forth in paragraph (e) of this section (in the interim regulations), to reflect changes for the preceding year ending November 30, in the series for food away from home of the Consumer Price Index published by the Bureau of Labor Statistics of the Department of Labor.

(g) Sponsors shall maintain accurate records to justify the net Program costs and administrative costs claimed. Sponsors who wish to claim only for the costs of obtaining food shall maintain accurate records to justify their food cost. In no instance shall Program payments for the costs of obtaining food exceed the per meal net Program payment rates.

(h) Sponsors shall plan for and prepare or order meals on the basis of participation trends, with the objective of providing only one meal per child at each meal service. Records of participation and of preparation or ordering of meals shall be maintained to demonstrate positive action toward this objective. In recognition of the fluctuation in participation levels which makes it difficult to precisely estimate the number of meals needed and to reduce the resultant waste, any excess meals that are prepared or ordered may be served to children and may be claimed for reimbursement unless the State agency determines that the sponsor has failed to plan and prepare or order meals with the objective of providing only one meal per child at each meal service. In monitoring the number of meals served at a site, the State agency shall withhold reimbursement for those meals served to children which exceed the number of children being served by the site when the State agency determines

that the sponsor has not complied with the provisions of this paragraph.

§ 225.13 Program payment procedures.

(a) To be reimbursed under this part, each sponsor shall submit to the State agency Claims for Reimbursement. Claims for Reimbursement shall be filed with the State agency monthly by the 10th day following the period of operations covered by the Claim but may be submitted more frequently, at the discretion of the State agency. Sponsors whose final period of operation is less than 10 days in duration shall submit a combined Claim covering the final period and the period immediately preceding the final period. Any Claim for Reimbursement not received by the State agency within 30 days after the close of the sponsor's food service operations shall be disqualified from payment, except where the State agency determines that the Claim has been filed late because of circumstances beyond the control of the sponsor. Appropriate payments may then be made if the Claim submitted by the sponsor is valid.

(b) Claims for Reimbursement shall include data in sufficient detail to justify the reimbursement claimed and to enable the State agency to provide the required information for Program reports. In submitting a Claim for Reimbursement, in addition to the certification requirements set forth in § 225.5(w), each sponsor shall certify that records are available to support the Claim.

(c)-(g) [Reserved]

(h) Any prior net Program payment which is under dispute or which is part of a demand for recovery under § 225.14(a) or § 225.14(d) shall be deducted from any advance net Program payment; any prior administrative cost payment which is under dispute or which is part of a demand for recovery under § 225.14(a) or § 225.14(d) shall be deducted from any advance administrative costs payment.

(i) If the State agency has reason to believe that a sponsor will not be able to submit a valid Claim for Reimbursement covering the period for which advance net Program payments and advance administrative costs payments have been made, the subsequent month's advance net Program payment and advance administrative costs payment shall be withheld until such time as the State agency has received a valid claim. Program payments advanced to sponsors which are not subsequently deducted from a valid Claim for Reimbursement shall be paid upon demand to the State agency. Any interest earned on advance net Program payments and advance administrative costs payments shall be returned to the State agency for remittance to FNS.

§ 225.14 Claims against sponsors.

(a) State agencies shall disallow any portion of a Claim for Reimbursement and promptly recover any Program payment made to a sponsor that was not properly payable under this part. State agencies shall use their own procedures to disallow claims and recover overpayments already made. This shall include court actions, where appropriate. However, the State agency shall notify the sponsor of the reasons for any disallowance or demand, and allow the sponsor full opportunity to submit evidence on appeal as provided for in § 225.5(x) (in the interim regulations). If, in the determination of CCSPD, a State agency has acted in conformity with the provisions of this part and has made every reasonable effort to recover any overpayment, the State agency shall not be liable for failure to collect an overpayment.

(b) The State agency shall maintain all records pertaining to action taken under this section. Such records shall be retained for a period of 3 years after the date of the submission of the final Financial Status Report, except that, if audit findings have not been resolved, the records shall be retained beyond the 3-year period as long as required for the resolution of any issues raised in the audit.

(c) The amounts recovered by the State agency from sponsors may be utilized, first, to make Program payments to sponsors for the period for which the funds were initially available, and second, to repay any State funds expended in the payment of Claims for Reimbursement under the Program not otherwise repaid. Any amounts recovered which are not so utilized shall be returned to FNS in accordance with the requirements of this part.

(d) When FNSRO administers the Program with respect to sponsors and disallows a Claim for Reimbursement or a portion of a Claim, or makes a demand for refund of an alleged overpayment, it shall notify the sponsor of the reasons for such disallowance or demand, and the sponsor shall have full opportunity to submit evidence as provided for in § 225.5(x) (in the interim regulations) or to resubmit a Claim for any amount disallowed or demanded.

Subpart D—Miscellaneous Provisions

§ 225.15 Procurement provisions.

(a) This section provides standards for use by sponsors in establishing procedures for the procurement of supplies, goods, and other services with Program payments. These standards are furnished to insure that such goods and services are obtained in an effective manner and in compliance with the provisions of applicable Federal laws and Executive Orders.

(b) The standards contained in this section do not relieve the sponsor of the contractual responsibilities arising under its contracts. The sponsor is the responsible authority, without recourse to the State agency and the Department regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into under the Program. This includes but is not limited to: disputes, claims, protests of award, source evaluation or other matters of a contractual nature. Matters concerning violation of law are to be referred to such local, State, or Federal authorities as may have proper jurisdiction.

(c) Sponsors may use their own procurement regulations which reflect applicable State and local law, rules and regulations provided that procurements made with Program payments adhere to the provisions of Office of Management and Budget Circulars A-102 and A-110 and to the standards set forth, as follows:

(1) The sponsor shall maintain a code or standards of conduct which shall govern the performance of its officers, employees, or agents in contracting with and expending Program payments. The officers, employees, or agents of a sponsor shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or potential contractors on their own behalf or for others. To the extent permissible by State or local laws, rules or regulations, such standards shall provide for penalties, sanctions, or other disciplinary actions to be applied for violations of such standards by either the sponsor's officers, employees, or agents, or by contractors or their agents.

(2) All procurement transactions regardless of whether negotiated or advertised and without regard to dollar value shall be conducted in a manner so as to provide maximum open and free competition. The sponsor shall be alert to organizational conflicts of interest or non-competitive practices among contractors which may restrict or eliminate competition or otherwise restrain trade.

(3) All sponsors shall establish procurement procedures which provide for, as a minimum, the following procedural requirements:

(i) Proposed procurement actions shall be reviewed by sponsor's officials to avoid purchasing unnecessary or duplicative items. Where appropriate, an analysis shall be made of lease and purchase alternatives to determine which would be the most economical, practical procurement.

(ii) Invitations for bids or requests for proposals shall be based upon a clear and accurate description of the technical requirements for the material, product, or service to be procured.

Such description shall not, in competitive procurements, contain features which unduly restrict competition. "Brand name or equal" description may be used as a means to define the performance or other salient requirements of a procurement, and, when so used, the specific features of the name brand which must be met by offerors should be clearly specified.

(iii) Positive efforts shall be made by the sponsors to utilize small business and minority-owned business sources of supplies and services. Such efforts should allow these sources the maximum feasible opportunity to compete for contracts to be performed utilizing Program payments.

(iv) The type of procuring instruments used (i.e., fixed price contracts, cost reimbursable contracts, purchase orders, incentive contracts, etc.), shall be appropriate for the particular procurement and for promoting the best interest of the programs involved. The "cost-plus-a-percentage-of-cost" method of contracting shall not be used.

(v) Formal advertising, with adequate purchase description, sealed bids, and public openings shall be the required method of procurement unless negotiation pursuant to paragraph (vi) below is necessary to accomplish sound procurement. However, procurements of \$10,000 or less need not be so advertised unless otherwise required by State or local law or regulations. Where such advertised bids are obtained the awards shall be made to the responsible bidder whose bid is responsive to the invitation and is most advantageous to the sponsor, price and other factors considered. (Factors such as discounts, transportation costs, taxes may be considered in determining the lowest bid.) Invitations for bids shall clearly set forth all requirements which the bidder must fulfill in order for his bid to be evaluated by the sponsor. Any or all bids may be rejected when it is in the sponsor's interest to do so, and such rejections are in accordance with applicable State and local law, rules, and regulations.

(vi) Procurements may be negotiated if it is impracticable and unfeasible to use formal advertising. Generally, procurements may be negotiated by the sponsor if:

(1) The public exigency will not permit the delay incident to advertising;

(2) The material or service to be procured is available from only one person or firm: (All contemplated sole source procurements where the aggregate expenditure is expected to exceed \$5,000 shall be referred to the State agency for prior approval);

(3) The aggregate amount involved does not exceed \$10,000;

(4) The contract is for personal or professional services, or for any service

to be rendered by a university, college or other educational institutions;

(5) No acceptable bids have been received after formal advertising;

(6) The purchases are for highly perishable materials, for material or services where the prices are established by law, if procured at the lowest applicable price for technical items or equipment requiring standardization and interchangeability of parts with existing, for experimental, developmental or research work, for supplies purchased for authorized resale, and for technical or specialized supplies requiring substantial initial investment for manufacture;

(7) Otherwise authorized by law, rules, or regulations. Notwithstanding the existence of circumstances justifying negotiations, competition shall be obtained to the maximum extent practicable.

(vii) Contracts shall be made only with responsible contractors who possess the potential ability to perform successfully under the terms and conditions of a proposed procurement. Consideration shall be given to such matters as contractor integrity, record of past performance, financial and technical resources, or accessibility to other necessary resources.

(viii) Procurement records or files for purchases in amounts in excess of \$10,000 shall provide at least the following pertinent information: justification for the use of negotiation in lieu of advertising, contractor selection, and the basis for the cost or price negotiated.

(ix) A system for contract administration shall be maintained to assure contractual conformance with terms, conditions, and specifications of the contract or order, and to assure adequate and timely followup of all purchases.

(d) The sponsor shall include, in addition to provisions to define a sound and complete agreement, the following provisions in all contracts and subcontracts:

(1) Contracts shall contain such contractual provisions or conditions which will allow for administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate.

(2) All contract amounts which are in excess of \$10,000 shall contain suitable provisions for termination by the sponsor, including the manner by which it will be effected and the basis for settlement. In addition, such contracts shall describe conditions under which the contract may be terminated for default as well as conditions where the contract may be terminated because of circumstances beyond the control of the contractor.

(3) All contracts awarded by sponsors and their contractors or subcon-

tractors having a value of more than \$10,000 shall contain a provision requiring compliance with Executive Order 11246, entitled "Equal Employment Opportunity", as amended by Executive Order 11375, and as supplemented in Department of Labor regulations (41 CFR Part 60).

(4) Contracts or agreements, the principal purpose of which is to create, develop, or improve products, processes or methods, or exploration into fields which directly concern public health safety, or welfare, or contracts in the fields of science or technology in which there has been little significant experience outside of work funded by Federal assistance, shall contain a notice to the effect that matters regarding rights to inventions, and materials generated under the contract or agreement are subject to the regulations issued by the Department and the sponsor. The contractor shall be advised as to the source of additional information regarding these matters.

(5) All negotiated contracts (except those of \$10,000 or less) awarded by effect, that the sponsor, the Department shall include a provision to the State agency, the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers, and records of the contractor which are directly pertinent to a specific program for the purpose of making audit, examination, excerpts, and transcriptions.

(6) Contracts and subcontracts of amounts in excess of \$100,000 shall contain a provision which requires the recipient to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act of 1970. Violations shall be reported to the State agency and the Regional Office of the Environmental Protection Agency.

§ 225.16 Prohibitions.

(a) The value of benefits and assistance available under the Program shall not be considered as income or resources of recipients and their families for any purpose under Federal, State or local laws, including, but not limited to, laws relating to taxation, welfare, and public assistance programs.

(b) Expenditure of funds from State and local sources for the maintenance of food programs for children shall not be diminished as a result of funds received under the Act and a certification to this effect shall become part of the agreement provided for in § 225.3(c).

§ 225.17 Free meal policy.

(a) The State agency shall require each applicant sponsor to develop, at the time the applicant sponsor applies

for Program participation, a written policy statement concerning free meals to be used uniformly at all sites under its jurisdiction as required in this section. Applicant sponsors shall not be approved for participation unless the free meal policy statement has been approved.

(b) A sponsor which services all meals free to attending children shall develop a policy statement which consists of an assurance to the State agency that all children are served the same meals regardless of race, color, or national origin, and that there is no discrimination in the course of the food service.

(c) A camp which serves meals at no separate charge to attending children shall develop a policy statement which consists of an assurance to the State agency that all children are served the same meals at no separate charge, regardless of race, color, or national origin, and that there is no discrimination in the course of the food service.

(d) A camp which charges separately for meals shall develop a policy statement for determining eligibility for free meals which shall include the following:

(1) The specific criteria to be used in determining eligibility for free meals. The camp's standards of eligibility shall be in conformity with the State's family size and income standards for free and reduced price school meals.

(2) A description of the method or methods to be used in accepting applications from families for free meals.

(3) A description of the method or methods to be used to collect payments from those children paying the full price of the meal which will protect the anonymity of the children receiving a free meal.

(4) As assurance that the camp will establish a hearing procedure which provides: (i) a simple, publicly announced method for a family to make an oral or written request for a hearing; (ii) an opportunity for the family to be assisted or represented by an attorney or other person in presenting its appeal; (iii) an opportunity to examine, prior to and during the hearing, the documents and records presented to support the decision under appeal; (iv) that the hearing shall be held with reasonable promptness and convenience to the family and that adequate notice shall be given to the family as to the time and place of the hearing; (v) an opportunity for the family to present oral or documentary evidence and agreements supporting its position without undue interference; (vi) an opportunity for the family to question or refuse any testimony or other evidence and to confront and cross-examine any adverse witnesses; (vii) that the hearing shall be conducted and the decision made by a hearing official who did not par-

ticipate in making the decision under appeal; (viii) that the decision of the hearing official shall be based on the oral and documentary evidence presented at the hearing and made a part of the hearing record; (ix) that the family and any designated representatives shall be notified in writing of the decision of the hearing official; (x) that a written record shall be prepared with respect to each hearing, which shall include the decision under appeal, any documentary evidence and a summary of any oral testimony presented at the hearing, the decision of the hearing official, including the reasons therefor, and a copy of the notification to the family of the decision of the hearing official; and (xi) that such written record of each hearing shall be preserved for a period of three years and shall be available for examination by the family or its representatives at any reasonable time and place during such period.

(5) An assurance that there will be no identification of free meal recipients and no discrimination against any child on the basis of race, color, or national origin.

(e) The hearing procedure prescribed under paragraph (c)(4) of this section shall be followed when a camp challenges the eligibility of any child for a free meal. During the pendency of the challenge, the child shall continue to receive the free meal to which he is entitled under the eligibility standards announced by the camp based upon the information supplied in the application made by the family.

(f) Each sponsor shall make available on an annual basis to the information media serving the area from which the sponsor draws its attendance a public release announcing the availability of free meals to children. Each camp shall make available on an annual basis to all participants an announcement of the availability of free meals to children meeting the approved eligibility criteria. The public announcement must also state that meals are available to all children in attendance without regard to race, color, or national origin.

§ 225.18 Other provisions.

(a) *Grant closeout procedures.* Grant closeout procedures for the program shall be in accordance with attachment K of the Office of Management and Budget Circular A-110 (41 FR 32016, July 30, 1976), or attachment L of the Office of Management and Budget Circular A-102 (42 FR 45828, September 12, 1977), whichever is applicable.

(b) *Termination for cause.* The Department may terminate a State agency's participation in the program in whole, or in part, whenever it is determined that the State agency has failed to comply with the conditions of the

program. The Department shall promptly notify the State agency in writing of the termination and reasons for the termination, together with the effective date and shall allow the State 30 days to respond. In instances where the State does respond, the Department shall inform the State of its final determination no later than 30 days after the State responds. A State agency shall terminate a sponsor's participation in the program by written notice whenever it is determined by FNS or the State agency that the sponsor has failed to comply with the conditions of the program. When participation in the program has been terminated for cause, any funds paid to the State agency or a sponsor or any recoveries by FNS from the State agency or by the State agency from a sponsor shall be in accordance with the legal rights and liabilities of the parties.

(c) *Termination for convenience.* The Department and the State agency may terminate the State agency's participation in the program in whole, or in part, when both parties agree that the continuation of the program would not produce beneficial results commensurate with the further expenditure of funds. The two parties shall agree upon the termination conditions, including the effective date and, in the case of partial termination, the portion to be terminated. The State agency shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. The Department shall allow full credit to the State agency for the Federal share of the noncancellable obligations properly incurred by the State agency prior to termination. A State agency may terminate a sponsor's participation in accordance with this paragraph.

§ 225.19 Program information.

Persons desiring information concerning the program may write to the appropriate State agency or regional offices of FNS as indicated below:

(a) In the States of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont: New England Regional Office, FNS, U.S. Department of Agriculture, 34 Third Avenue, Burlington, Mass. 01803.

(b) In the States of Delaware, District of Columbia, Maryland, New Jersey, New York, Pennsylvania, Puerto Rico, Virginia, Virgin Islands, and West Virginia: Mid-Atlantic Regional Office, FNS, U.S. Department of Agriculture, One Vahising Center, Robbinsville, N.J. 08691.

(c) In the States of Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee: Southeast Regional Office,

FNS, U.S. Department of Agriculture, 1100 Spring Street NW., Atlanta, Ga. 30309.

(d) In the States of Illinois, Indiana, Michigan, Minnesota, Ohio and Wisconsin: Midwest Regional Office, FNS, U.S. Department of Agriculture, 536 South Clark Street, Chicago, Ill. 60605.

(e) In the States of Colorado, Iowa, Kansas, Missouri, Montana, Nebraska, North Dakota, South Dakota, Utah, and Wyoming: Mountain Plains Regional Office, FNS, U.S. Department of Agriculture, 2420 West 26th Avenue, Room 430D, Denver Colo. 80211.

(f) In the States of Arkansas, Louisiana, New Mexico, Oklahoma, and Texas: Southwest Regional Office, FNS, U.S. Department of Agriculture, 1100 Commerce Street, Room 5-C-30, Dallas, Tex. 75242.

(g) In the States of Alaska, American Samoa, Arizona, California, Guam, Hawaii, Idaho, Nevada, Oregon, Trust Territory of the Pacific Islands, the Northern Mariana Islands, and Washington: Western Regional Office, FNS, U.S. Department of Agriculture, 550 Kearny Street, Room 400, San Francisco, Calif. 94108.

(Catalog of Federal Domestic Assistance Programs No. 10.559.)

NOTE.—The reporting and/or recordkeeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

Dated: February 1, 1978.

CAROL TUCKER FOREMAN,
Assistant Secretary.

CONSUMER PRODUCT SAFETY COMMISSION

[16 CFR Part 1700]

PROPOSED REQUIREMENTS FOR CHILD-RESISTANT PACKAGING

Acetaminophen Preparations

AGENCY: Consumer Product Safety Commission.

ACTION: Proposed rule.

SUMMARY: The Commission proposes, under the Poison Prevention Packaging Act of 1970, to require child-resistant packaging for any preparation in a dosage form intended for oral administration that contains a total amount of more than one gram of acetaminophen in a single package. The Commission preliminarily finds that this special packaging requirement is required to protect children under 5 years of age from serious personal injury and serious illness resulting from ingesting such substance.

DATE: Written comments should be submitted on or before April 4, 1978.

The requirement is proposed to be effective 6 months after the final requirement is issued in the FEDERAL REGISTER as to products packaged after that date.

ADDRESSES: Written comments, preferably in five copies, should be submitted to the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207. All material which the Commission has that is relevant to this proceeding, including any comments that may be received on this proposal, may be seen in, or copies obtained from, the Office of the Secretary, Consumer Product Safety Commission, Third Floor, 1111 18th Street NW., Washington, D.C. 20207.

FOR FURTHER INFORMATION CONTACT:

Fred J. Marozzi, Ph. D., Division of Safety Packaging and Scientific Coordination, Directorate for Engineering and Science, Consumer Product Safety Commission, Washington, D.C. 20207, 301-492-6477.

SUPPLEMENTARY INFORMATION:

BACKGROUND

The Poison Prevention Packaging Act of 1970 (the "PPPA," 15 U.S.C. 1471-1476) authorizes the Commission to establish standards for the "special packaging" of any household substance if (1) the degree or nature of the hazard to children in the availability of such substance, by reason of its packaging, is such that special packaging is required to protect children from serious personal injury or serious illness resulting from handling, using, or ingesting such substance and (2) the special packaging is technically feasible, practicable, and appropriate for such substance. Special packaging is often referred to as "child-resistant packaging" and is defined as packaging that is (1) designed or constructed to be significantly difficult for children under five years of age to open or obtain a toxic or harmful amount of the substance contained therein within a reasonable time, and (2) not difficult for normal adults to use properly. (It does not mean, however, packaging which all such children cannot open, or obtain a toxic or harmful amount from, within a reasonable time.) Under the PPPA, effectiveness standards have been established for special packaging (16 CFR 1700.15), as has a procedure for evaluating the effectiveness (§1700.20). Regulations have been issued requiring special packaging for a number of household products (§1700.14).

By a letter dated March 16, 1976 (Petition PP 76-9), Steven D. Steckel, Assistant Director for Pharmacy of Strong Memorial Hospital, Rochester, N.Y., requested that the Commission require that acetaminophen be packaged in child-resistant containers. He stated that acetaminophen, a commonly used substitute for aspirin, had taken over a major portion of the aspirin market and that it was "important to erase the concept that this medication is less toxic than aspirin in overdose." He also stated that a number of acetaminophen poisonings had been treated at Strong Memorial Hospital. (The Commission had already begun a study of this substance with the intent of targeting it for future regulatory action.)

Acetaminophen is an analgesic which is widely used as a substitute for aspirin. Although acetaminophen is effective when taken in its proper dosage, and is also valuable for those individuals who are sensitive or allergic to aspirin, many persons apparently believe that acetaminophen is safer than aspirin in overdose situations. However, ingestion of excessive amounts of acetaminophen can cause serious toxic effects.

Liver damage and deterioration of liver function are the major toxic effects of acute acetaminophen ingestions. The general sequence of events in cases resulting in failure of the liver is: (1) vomiting within the first few hours; (2) nausea, vomiting, loss of appetite, epigastric pain, and pallor for a few days; (3) abnormal values on liver function tests within two to four days; and (5) hepatic flap (postural disturbance associated with liver damage), fetor (offensive odor), and mental confusion, followed by coma and/or death within two to seven days. Liver damage is often not directly associated with acute acetaminophen ingestion due to the two to six day delay in the onset of symptoms. Within 24 hours of acetaminophen overdose in cases leading to hepatic failure, there are occasionally changes in clotting factors which may be fatal.

There are indications in the medical literature that all acute ingestions of acetaminophen produce some degree of liver damage, although the damage may be so mild that liver functions tests remain normal, in which case the damage can be discovered only by a liver biopsy. However, some cases of liver damage appear to be reversible without any evidence of necrosis.

In addition to liver damage, acute acetaminophen ingestion may result in the following symptoms: (1) esophageal and gastric erosions; (2) hypoglycemia and acidosis; (3) renal (kidney) failure; (4) cardiac arrhythmias (irregular heartbeat); and (5) rash. Acetaminophen may be metabolized somewhat differently by children than by adults. However, the significance of this as it relates to toxicity is not fully understood. Most of the reports in the medical literature concerning acute

acetaminophen ingestion involve adults, but the rate of acetaminophen elimination appears to be similar in adults and children.

NEED FOR SPECIAL PACKAGING

Data from the National Clearinghouse for Poison Control Centers for the period from 1969 to 1975 disclose 4819 reported ingestions of acetaminophen-containing products by children under 5 years of age. Typical symptoms included lethargy, nausea, vomiting, abdominal pain, gagging, diarrhea, crying, flushed skin, irritability, hypothermia, limpness, dizziness, tremors, headache, rash, ataxia, small reactive pupils, diaphoresis, fever, hypotension, slight tachycardia, decreased respiration, feeble pulse, hematuria, cyanosis, convulsions, and coma. One hundred and two cases required hospitalization, which was usually of unspecified duration (some cases were 1-2 days). Two of the 4819 cases resulted in death.

The Consumer Product Safety Commission's file of data from six Poison Control Centers on contract with the Commission shows that 212 of 5253 reported ingestions involved acetaminophen-containing products. None of these 212 ingestions resulted in hospitalization.

Data concerning death certificates on file with the Commission reveal one death to a three year old child as a result of acetaminophen ingestion. However, it is not known if this death was also reported in the data from the National Clearinghouse for Poison Control Centers.

The medical literature indicates that acute acetaminophen ingestions are relatively more toxic in humans than in animals. Consequently, the results of toxicity studies involving animals are not an accurate reflection of the toxicity of acetaminophen in humans.

Extrapolation of the toxicity levels that have been reported for adults may provide an indication of the toxic and lethal values for acetaminophen in children under 5 years of age. It is recognized that such extrapolations may not always be a true reflection of the toxicity of a product in children, since children may not metabolize and/or eliminate the product in a manner similar to adults. Nevertheless, as previously stated, acetaminophen, while it may be metabolized differently in children than adults, is eliminated at a similar rate.

Assuming a maximum weight of 16 kg. for a two year old child, an ingestion of 2 grams would constitute a dose of at least 125 mg./kg. of body weight. The medical literature, in general, reports that 10-15 grams of acetaminophen causes hepatotoxicity in adults and that 13-25 grams may result in death for an adult. Assuming an average adult weight of 70 kg., these values would indicate a mini-

mum toxic dose of approximately 140 mg./kg. of body weight and a minimum lethal level of approximately 190 mg./kg. A dose of 6 grams of acetaminophen has also been reported as producing hepatotoxicity in a 16 year old female. Assuming that this patient weighed 50 kg., extrapolation would yield a possible minimum toxic dose of 120 mg./kg. for a 10 kg. child. The death of an adult has been reported following an ingestion of 8.125 grams of acetaminophen. Assuming an average adult weight of 70 kg., an equivalent minimum lethal dose for a 10 kg. child could be as low as 1.2 grams. (Although this figure is close to the proposed level, it must be emphasized that it is based upon a highly unusual case compared to other reported fatalities.)

The literature also contains reports that there exists a likelihood of liver damage in a two year old child who has ingested more than 3 grams of acetaminophen and that an ingestion of 2 grams could produce hepatotoxicity in a two year old child.

Some of the cases mentioned above represent considerable deviations from the values generally recorded in the literature. However, these cases show that products containing levels of more than one gram of acetaminophen have the potential for producing serious injury or illness in children under five years of age. However, the available human experience data and the medical literature do not reveal any instance in which one gram or less of acetaminophen has caused serious injury or illness after an acute ingestion, nor do they indicate that such an amount has the potential to produce serious injury or illness.

In view of the reports in the medical literature and the data showing numerous ingestions by children, the Commission has preliminarily concluded that preparations containing more than 1 gram of acetaminophen in a single package are available to young children in or about the household and that a regulation requiring special packaging of such preparations is required to protect children under 5 years of age.

The Commission requested comments from the members of the Technical Advisory Committee for Poison Prevention Packaging on its possible proposal to require special packaging for products that contain more than one gram of acetaminophen in a single package. Ten of the Technical Advisory Committee members responded. All of those members indicated that child-resistant packaging should be required. Eight of the members concurred with the recommended level of one gram, while two of the members believed that a lower level should be established.

The Food and Drug Administration's Panel for Over The Counter Drugs

(Internal Analgesic, Antipyretic, and Antirheumatic Products) has also recommended the packaging of acetaminophen products in child-resistant packaging (see 42 FR 35368; July 8, 1977).

A more technical and more detailed discussion of the issues that are discussed above is contained in a memorandum from the Commission's Division of Safety Packaging and Scientific Coordination, dated September 30, 1977. This memorandum also contains specific references to relevant reports in the medical literature and is available from the Commission's Office of the Secretary.

TECHNICAL FEASIBILITY, PRACTICABILITY, AND APPROPRIATENESS

In issuing a standard for special packaging under the PPPA, the Commission is required by section 3(a)(2) of the PPPA to find that the special packaging is "technically feasible, practicable, and appropriate . . .".

A. *Technical feasibility.* Acetaminophen is marketed in tablets, powders, and capsules, and in various liquid formulations, and there are numerous package designs that meet the requirements of 16 CFR 1700.15(b) that are suitable for use with each form of this product.

Practicability. Because many existing designs suitable for use with the acetaminophen preparations that are the subject of the proposed regulation are currently being used in the special packaging of other drugs and dietary supplements, it is clear that special packaging for this product is practicable in that it is adaptable to modern mass production and assembly line techniques. The Commission conducted a survey in May 1977 of the affected industries and packaging manufacturers. Based on the survey and a December 16, 1977, "Preliminary Study of Sales and Packaging of Acetaminophen" prepared by the staff, the Commission anticipates no major supply or procurement problems for the packagers of acetaminophen-containing products or the manufacturers of child-resistant closure and capping equipment. In addition, there should be no serious problems experienced by manufacturers of the products in incorporating the child-resistant packaging features into their existing packaging lines. A more detailed discussion of the Commission's survey is found in a Commission staff memorandum dated October 4, 1977, from Charles J. Wilbur to Georg S. Maisel. Copies of this memorandum and the December 16, 1977, preliminary study may be obtained from the Office of the Secretary.

C. *Appropriateness.* As shown by the use of many existing suitable designs with other drug products, and since special packaging in many instances uses the same container, closure, and

liner materials currently used for acetaminophen products, special packaging is appropriate for acetaminophen since the packaging is available in forms that are not detrimental to the integrity of the substance and that do not interfere with its storage or use.

Accordingly, as required by section 3(a)(2) of the PPPA (15 U.S.C. 1472(a)(2)), the Commission preliminarily finds that special packaging for acetaminophen-containing preparations is technically feasible, practicable, and appropriate.

EFFECTIVE DATE

The PPPA provides that, except for good cause, no regulation shall take effect sooner than 180 days or later than one year from the date such regulation is issued. A Commission survey of the affected industry and packaging manufacturers, discussed above, indicates that a period of six months (180 days) from the issuance form the final regulation will be sufficient for the manufacturers of these preparations to obtain suitable child-resistant packaging and incorporate its use into their packaging lines. Accordingly, the proposed effective date is 180 days after the final regulation is issued in the FEDERAL REGISTER, as to all acetaminophen preparations packaged after the effective date.

CONCLUSION AND PROPOSAL

Therefore, having considered the available human experience data, the medical literature, and after consultation with the Technical Advisory Committee on Poison Prevention Packaging as required by sections 3 and 6 of the PPPA, the Commission concludes that the requirement for special packaging set forth below should be proposed. This action constitutes the final Commission action on petition PP 76-9.

Accordingly, pursuant to provisions of the Poison Prevention Packaging Act of 1970 (Pub. L. 91-601, secs. 2(4), 3, 5, 84 Stat. 1670-72; 15 U.S.C. 1471(4), 1472, 1474) and under the authority vested in the Commission by the Consumer Product Safety Act (Pub. L. 92-573, sec. 30(a), 86 Stat. 1231; 15 U.S.C. 2079(a)), the Commission proposes to add a new paragraph (a)(16) to 16 CFR 1700.14, reading as follows (although unchanged, the introductory text of paragraph (a) is included below for context):

§ 1700.14 Substances requiring special packaging.

(a) . . .

(16) *Acetaminophen.* Preparations for human use in a dosage form intended for oral administration and containing in a single package a total

of more than one gram acetaminophen shall be packaged in accordance with the provisions of § 1700.15 (a), (b), and (c).

Interested persons are invited to submit written data, views, or arguments regarding any aspect of the proposal on or before April 4, 1978. Comments submitted after this date will be considered to the extent practicable.

Comments should be accompanied, to the extent possible, by supporting data or documentation. Requests for confidentiality of documentation will be handled in accordance with the Freedom of Information Act as amended (5 U.S.C. 552), the Commission's regulations under that act (16 CFR Part 1015, issued February 22, 1977, at 42 FR 10490), and the provisions of section 6(a)(2) of the Consumer Product Safety Act (15 U.S.C. 2055(a)(2)).

Written submissions and any accompanying data or materials should be submitted, preferably in five copies, addressed to the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207. Comments may be supported by a memorandum or brief.

Any comments that are received, and all other material which the Commission has that is relevant to this proceeding, may be seen in, or copies obtained from, the Office of the Secretary, Third Floor, 1111 18th Street NW., Washington, D.C. 20207.

Dated: January 31, 1978.

SADYE E. DUNN,
Acting Secretary, Consumer
Product Safety Commission.

[Docket No. 77N-0259]

SUCCINIC ACID

Proposed Affirmation of GRAS Status as a
Direct Human Food Ingredient

AGENCY: Food and Drug Administration.

ACTION: Proposed rule.

SUMMARY: This is a proposal to affirm the generally recognized as safe (GRAS) status of succinic acid as a direct human food ingredient. The safety of this ingredient has been evaluated pursuant to the comprehensive safety review being conducted by the agency. The proposal would list the ingredient as a direct food substance affirmed as GRAS.

DATES: Comments by April 4, 1978.

ADDRESS: Written comments (preferably in quadruplicate) on this pro-

posal may be sent to the office of the Hearing Clerk, Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Corbin I. Miles, Bureau of Foods (HFF-335), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C Street SW., Washington, D.C. 20204, 202-472-4750.

SUPPLEMENTARY INFORMATION: The Food and Drug Administration is conducting a comprehensive study of human food ingredients classified as generally recognized as safe (GRAS) or subject to a prior sanction. The Commissioner of Food and Drugs has issued several notices and proposed regulations in the FEDERAL REGISTER of July 26, 1973 (38 FR 20040), initiating this review. Pursuant to this review, the safety of succinic acid has been evaluated. In accordance with provisions of § 170.35 (21 CFR 170.35), the commissioner proposes to affirm the GRAS status of this ingredient.

Succinic acid, 1,4-butanedioic acid, is a natural constituent of fresh meats, cheeses, and such vegetables as asparagus, beets, broccoli, rhubarb, and sauerkraut. Succinic acid is also being manufactured by the catalytic hydrogenation of maleic or fumaric acid, and has been prepared by aqueous alkali or acid hydrolysis of succinonitrile. It is reported to be added to foods as an acidulant and flavor enhancer.

Succinic acid is listed in § 182.1091 (21 CFR 182.1091) as GRAS for use in food as a miscellaneous and/or general purpose food additive, pursuant to regulations published in the FEDERAL REGISTER of January 31, 1961 (26 FR 938).

A representative cross section of food manufacturers was surveyed to determine the specific foods in which succinic acid was used and the levels of usage. Information from surveys of consumer consumption was obtained and combined with the manufacturing information to obtain an estimate of consumer exposure to succinic acid added to food. The total amount used in 1970 was reported to be 638 pounds.

Succinic acid has been the subject of a search of the scientific literature from 1920 to the present. The parameters used in the search were chosen to discover any articles that considered: (1) chemical toxicity, (2) occupational hazards, (3) metabolism, (4) reaction products, (5) degradation products, (6) any reported carcinogenicity, teratogenicity or mutagenicity, (7) dose response, (8) reproductive effects, (9) histology, (10) embryology, (11) behavioral effects, (12) detection and (13) processing. A total of 441 articles was reviewed, and 15 particularly pertinent reports have been summarized in a scientific literature review.

The scientific literature review shows, among other studies, the following information as summarized in the report of the Select Committee on GRAS Substances (hereinafter referred to as the Select Committee), selected by the Life Sciences Research Office of the Federation of American Societies for Experimental Biology:

Succinic acid is one of the dicarboxylic acids involved in the citric acid cycle. As one of the intermediates in this cycle, it may participate in the net synthesis of glucose and other sugars and fatty acids in animal tissue.

Succinic acid fed to phloridized dogs was converted to glucose. As the dose was increased, a smaller percentage was excreted in the urine as glucose, but antiketogenic and nitrogen sparing activity indicated its conversion to glucose before being oxidized. Stoehr fed 0.15 g of neutralized succinic acid to fasted young rats and noted a marked increase in liver glycogen four hours after feeding. When given by stomach tube to fasting rats with fatty livers, succinic acid and equivalent amounts of glucose were equally effective in reducing ketosis. The antiketogenic action of succinic acid in the intact organism was considered to be simply a result of its conversion to glucose. Ingestion of 10 to 50 g per day of free succinic acid by diabetic patients caused no antiketogenic activity when measured by the ketonuria, while in the normal fasting individual it was as antiketogenic as an equivalent amount of glucose.

Studies of the bioavailability of energy from various aliphatic chemicals added to the diets of experimental animals. Yoshida et al., found that succinic acid at the 5 percent dietary level was well utilized by rats. Sodium succinate produced a 22 percent hypoglycemic response when injected into rabbits. Urinary citric acid from fully grown rats was measured after oral administration of the sodium salts of various organic acids given in the ratio of 60 mg sodium per 100 g body weight. After sodium succinate was given (estimated to be about 150 mg succinate per 100 g of body weight), the 24 hour urine sample contained 4.16 mg of citric acid per ml as compared with 0.44 mg of citric acid per ml in rats given sodium carbonate, and 0.16 mg of citric acid per ml in control animals.

The minimum lethal dose of succinic acid injected subcutaneously into frogs was 2 g per kg body weight. Rabbits tolerated 0.54 g of succinic acid injected intravenously as an 0.5 N solution, or 1.63 g of 0.25 N solution per kg body weight. Rose gave rabbits 4.0 g (about 2 g per kg of body weight) of neutralized succinic acid subcutaneously as the sodium salt and concluded that the acid is not nephrotoxic in rabbits because of the rapid oxidation of succinic acid within the organism. Intraperitoneal injection of 4 g per kg body weight of succinic acid in Long-Evans rats was the maximum tolerated dose, which was defined as the dose at which 10 percent of the test animals died in 24 hours. The oral LD₅₀ of a mixture of succinic acid (63.3 percent) and magnesium phosphate (36.7 percent) in mice was 4562 mg per kg body weight. Albino rats, seven days old, were injected subcutaneously with 0.5 mg of succinic acid in sesame oil, and daily thereafter with increasing doses until they were receiving 2.0 mg per day at four weeks of age (estimated to be approximately 20 mg succinic acid per kg body weight per

day); this dosage was continued until the rats were 80 days old. Control animals received similar doses of sesame oil only. All the rats were weighed and measured weekly, and the times of hair appearance, tooth eruption, eye opening, and vaginal opening were recorded. There were no significant differences between the treated and the control animals except for a possible tendency toward delayed opening of the vagina in the test rats (57.2 days) compared with the controls (49.4 days).

In another series of experiments 0.05 ml of a 1:1000 solution of succinic acid (0.05 mg) was injected into the air sacs of fertile hen eggs on the tenth day of incubation. Control eggs were injected with phosphate buffer solution. No significant differences in weight and rate of development between the chicks of treated and control eggs were noted at hatching, and surviving chicks from treated eggs all developed to maturity without incident.

Single intraperitoneal injections of succinic acid, 4 g per kg body weight, had a sedative effect on the central nervous system and significantly increased brain dopamine in male Long-Evans rats. The mode of action was not determined. Sodium succinate (1 g per kg body weight) administered to rabbits (route not reported), shortened the duration of drug-induced sleep. The author suggested that succinic acid influences the duration of drug-induced sleep by increasing the excretion rate of the soporific.

No long-term toxicity tests with succinic acid have been reported.

Possible estrogenic properties of succinic acid were investigated in two-month-old ovariectomized rats. Daily subcutaneous injections of 5 mg of succinic acid (estimated to be approximately 31 mg per kg body weight per day) for 3 weeks did not change the typical diestrus vaginal smears.

Injection of 7.5 mg of sodium succinate hexahydrate into the yolk sacs of fertile hen eggs at 96 hours of incubation produced no discernible toxic or teratogenic effects in the embryos.

When the yolk sacs of chick embryos were injected simultaneously with sodium succinate hexahydrate and certain teratogens, the succinate decreased the teratogenicity of 3-acetylpyridine, 6-aminonicotinamide, and sulfanilamide, but potentiated the teratogenicity of insulin. The investigators suggested that the teratogens interfered with mitochondrial energy production and that high energy intermediates such as succinate, fed into the respiratory chain of the mitochondria and functioning as energy sources, can decrease the incidence and modify the degree of expression of malformations produced by specific teratogens.

The absorption of orally administered ferrous sulfate in human subjects increased in direct proportion to supplemental doses (30 to 100 mg) of succinic acid given orally and intravenously. Eighty-one subjects participated, 13 of whom were healthy volunteers, and 68 healthy, nonanemic persons who had served as blood donors for various periods of time but had received no iron supplementation. The investigators measured the fraction of absorbed iron utilized in hemoglobin formation and suggested that succinic acid increases intestinal mucosal cell metabolism which influenced the transfer of iron across the cell membranes. On

the other hand, when succinic acid was administered orally or intravenously to normal, adult subjects in single doses of 15 or 110 mg and in daily doses given for 10 days, no increase in the whole-body absorption or iron from oral doses of ferrous succinate was observed.

An incubated mixture of 100 mg of sodium succinate and 2 units of insulin, injected into rabbits' legs, decreased the hypoglycemic effect of insulin; however, simultaneous but separate injections of the two compounds produced little or no change in insulin activity compared with insulin alone.

No studies on possible carcinogenic or mutagenic effects of succinic acid were found by the Select Committee.

All the available safety information on succinic acid has been carefully evaluated by qualified scientists of the Select Committee. It is the opinion of the Select Committee that:

Succinic acid occurs widely as a natural constituent of the plants and animals which are commonly used for human food. As one of the intermediary metabolites in the citric acid cycle, it may participate in the net synthesis of glucose and other sugars and fatty acids normally present in plant and animal tissue. At the level succinic acid occurs naturally in foods, there is no evidence that it is hazardous to man or animals. Moreover, experimental animals tolerate succinic acid in amounts equivalent to several g per kg of body weight. By contrast, a reasonable average daily intake of succinic acid added to foods is estimated to be less than 0.01 mg per day, a dosage that is orders of magni-

tude less than that required to elicit toxic signs in experimental animals.

There have been few scientific studies designed to explore possible untoward effects of succinic acid. However, the normal role of succinic acid as an intermediary metabolite in living organisms including man, is persuasive in favor of its safety.

It is the conclusion of the Select Committee that there is no evidence in the available information on succinic acid that demonstrates, or suggests reasonable grounds to suspect, a hazard to the public when it is used at levels that are now current or that might reasonably be expected in the future. Based upon his own evaluation of all available information on succinic acid, including a mutagenic evaluation which was not available when the Select Committee formed its conclusion, the Commissioner concurs with this conclusion. The Commissioner therefore concludes that no change in the current GRAS status of this ingredient is justified.

Copies of the scientific literature review on succinic acid, the mutagenic evaluation, and the report of the Select Committee are available for review at the office of the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, and may be purchased from the National Technical Information Service, 5285 Port Royal Road, Springfield, Va. 22151, as follows:

Title	Order	Price code	Price ¹
Succinic acid (scientific literature review).....	PB-223-860/AS	A03	\$4.00
Succinic acid (report of the select committee).....	PB-254-541/AS	A02	3.50
Succinic acid (mutagenic evaluation).....	PB-254-519/AS	A03	4.00

¹Price subject to change.

This proposed action does not affect the present use of succinic acid in pet food or animal feed.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 348, 371(a))) and under authority delegated to the Commissioner (21 CFR 5.1), it is proposed that Parts 182 and 184 be amended as follows:

§ 182.1091 [Deleted]

1. In Part 182 by deleting § 182.1091 *Succinic acid*.

2. In Part 184 by adding a new § 184.1091 to read as follows:

§ 184.1091 Succinic acid.

(a) Succinic acid (C₄H₆O₄, CAS Reg. No. 110-15-6), also referred to as amber acid and ethylenesuccinic acid, is the chemical 1,4-butanedioic acid. It is commercially prepared by hydrogenation of maleic or fumaric acid. It can also be produced by aqueous alkali or acid hydrolysis of succinonitrile.

(b) The ingredient meets specifications of the Food Chemicals Codex, 2d Ed (1971).¹

(c) The ingredient is used as a flavor enhancer as defined in § 170.3(o)(11) of this chapter and pH control agent as defined in § 170.3(o)(23) of this chapter.

(d) The ingredient is used in food, in accordance with § 184.1(b)(1) of this chapter, at levels not to exceed good manufacturing practice. Current good manufacturing practice results in a maximum level, as served, of 0.085 percent in condiments and relishes as defined in § 170.3(n)(8) of this chapter and 0.0065 percent in meat products as defined in § 170.3(n)(29) of this chapter.

The Commissioner hereby gives notice that he is unaware of any prior sanction for the use of this ingredient in foods under conditions different from those proposed herein. Any

¹Copies may be obtained from National Academy of Sciences, 2101 Constitution Avenue NW., Washington, D.C. 20037.

person who intends to assert or rely on such a sanction shall submit proof of its existence in response to this proposal. The regulation proposed above will constitute a determination that excluded uses would result in adulteration of the food in violation of section 402 of the act, and the failure of any person to come forward with proof of such an applicable prior sanction in response to this proposal constitutes a waiver of the right to assert or rely on such sanction at any later time. This notice also constitutes a proposal to establish a regulation under Part 181 (21 CFR 181), incorporating the same provisions, in the event that such a regulation is determined to be appropriate as a result of submission of proof of such an applicable prior sanction in response to this proposal.

Interested persons may, on or before April 4, 1978, submit to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, written comments regarding this proposal. Four copies of all comments shall be submitted, except that individuals may submit single copies of comments, and shall be identified with the Hearing Clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

The Food and Drug Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821 (as amended by Executive Order 11949) and OMB Circular A-107. A copy of the economic impact assessment is on file with the Hearing Clerk, Food and Drug Administration.

Dated: January 25, 1978.

JOSEPH P. HILE,
Associate Commissioner
for Compliance.

[21 CFR Part 333]

(Docket No. 75N-0183)

OTC TOPICAL ANTIMICROBIAL PRODUCTS Extension of Time for Objections and Requests for Hearing

AGENCY: Food and Drug Administration.

ACTION: Thirty-day extension of time for objections and/or requests for hearing before the Commissioner.

SUMMARY: The Food and Drug Ad-

ministration is extending until March 6, 1978, the time for filing written objections and requests for hearing before the Commissioner on a proposal to establish conditions under which over-the-counter (OTC) topical antimicrobial drugs are generally recognized as safe and effective and not misbranded. The extension is granted in response to requests for additional time to study the proposal.

DATE: Written objections and/or requests for oral hearing before the Commissioner by March 6, 1978.

ADDRESS: Written objections and/or requests for hearing to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

William E. Gilbertson, Bureau of Drugs (HFD-510), Department of Health, Education, and Welfare, Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4960.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of January 6, 1978 (43 FR 1210), the Commissioner of Food and Drugs issued a tentative final regulation containing a tentative final monograph which would establish conditions for the safety, effectiveness, and labeling of over-the-counter (OTC) products such as antibacterial soaps, surgical scrubs, skin cleaners and first-aid preparations. The tentative final monograph is based on the recommendations and findings of the OTC Antimicrobial I Panel and a proposal by the Commissioner of Food and Drugs, published in the FEDERAL REGISTER of September 13, 1974 (39 FR 33103), in accordance with the OTC drug review procedures in § 330.10(a)(7) (21 CFR 330.10(a)(7)). Interested persons were given until February 6, 1978 to file written objections and request an oral hearing before the Commissioner.

The agency has received requests from the Proprietary Association, The Soap and Detergent Association, Ferro Corp., Acme United Corp., Procter and Gamble Co., and Scientific and Regulatory Services to extend the time for objections and/or requests for hearing before the Commissioner. The requests have argued that the tentative final monograph is substantially changed from the Panel's recommended monograph and that nearly 3½ years have elapsed since the original proposal. The requests also note that major revisions have been proposed in labeling and that the required testing guidelines have been extensively modified. The requests for extension are on file in the office of the Hearing Clerk, Food and Drug Administration.

The Commissioner is persuaded that granting additional time for objections and requests for a hearing before the Commissioner is appropriate.

Accordingly, interested persons may file written objections and/or request an oral hearing before the Commissioner on this tentative order on or before March 6, 1978. Requests for an oral hearing must specify points to be covered and time requested. All objections and requests shall be submitted (in quintuplicate and identified with the Hearing Clerk docket number found in brackets in the heading of this document) to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857, and may be accompanied by a memorandum or brief in support thereof. Objections and requests may be seen in the above-named office between 9 a.m. and 5 p.m., Monday through Friday. Any scheduled oral hearing will be announced in the FEDERAL REGISTER.

This action is taken under the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 701(a), 52 Stat. 1050-1053 as amended, 1055 (21 U.S.C. 352, 355, 371(a)) and under authority delegated to the Commissioner (21 CFR 5.1).

Dated: January 31, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner
for Compliance.

(Docket No. 76N-0286)

NEW ANIMAL DRUGS: BOVINE TEAT DIPS

Extension of Time for Filing Comments on
Proposed Rulemaking

AGENCY: Food and Drug Administration.

ACTION: Proposed rule; extension of comment period.

SUMMARY: This document further extends the comment period on a proposed rule concerning uses of bovine teat dips for an additional 90 days, as requested by the National Mastitis Council.

DATES: Comments by March 10, 1978.

ADDRESSES: Written comments to the Hearing Clerk (HFC-20), Room 4-65, Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

Howard Meyers, Bureau of Veterinary Medicine (HFV-214), Food and

Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3183.

SUPPLEMENTARY INFORMATION:

A proposed rule concerning uses of bovine test dips was published in the FEDERAL REGISTER of August 9, 1977 (42 FR 40217). The proposal provided 60 days, to October 11, 1977, for submission of comments regarding the proposal. An extension of time of 60 days to December 10, 1977 for the submission of comments was published in the FEDERAL REGISTER of September 30, 1977 (42 FR 52440). In a letter dated November 21, 1977 (on file with the Hearing Clerk, Food and Drug Administration) the National Mastitis Council, 910 17th Street NW., Washington, D.C. 20006, has requested that the comment period be extended an additional 90 days. The National Mastitis Council prepared and submitted extensive materials in response to the proposal. They stated, however, that after discussion of these materials, they appointed several committees to review additional items of serious concern. An additional extension would permit preparation of comments by these committees. Good reason therefore for appearing, the time for filing comments in this matter is further extended to March 10, 1978.

Interested persons may, on or before March 10, 1978, submit to the Hearing Clerk, Food and Drug Administration (address given above) written comments regarding the August 9 proposal on bovine test dips. Four copies of all comments shall be submitted, except that individuals may submit single copies, and the comments shall be identified with the Hearing Clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above-named office between 9 a.m. and 4 p.m., Monday through Friday.

This action is taken pursuant to the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and authority delegated to the Commissioner (21 CFR 5.1).

Dated: January 30, 1978.

WILLIAM F. RANDLOPH,
Acting Associate Commissioner
for Compliance.

[26 CFR Part 1]

[LR-194-77]

DEFERRED TAX TREATMENT OF AMOUNTS OF COMPENSATORY PAYMENTS

Proposed Rulemaking

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to the tax treatment of amounts of compensatory payments which are deferred under certain nonqualified compensation reduction plans or arrangements. The regulations would reflect a change in the Internal Revenue Service position relating to these plans or arrangements and provide the public with needed guidance.

DATES: Written comments and requests for a public hearing must be delivered or mailed by April 4, 1978. The amendments are proposed to be effective in the case of compensatory payments which the taxpayer has chosen to defer if the amount would have been payable, but for the taxpayer's exercise of the option to defer receipt, on or after March 6, 1978.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR-194-77), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT:

William E. Mantle of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3734).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains a proposed amendment to the Income Tax Regulations (26 CFR Part 1) under section 61 of the Internal Revenue Code of 1954. The amendment is proposed in order to change the Internal Revenue Service position on certain nonqualified compensation reduction plans or arrangements and is to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

GENERAL RULE

The new regulation provides that if a taxpayer (whether or not an employee) (individually chooses to have payment of some portion of his current compensation or an amount of an increase in compensation deferred and paid in a later year, the amount will nevertheless be treated as received by the taxpayer in the earlier taxable year. The taxpayer's exercise of the option to defer payment must be under a plan or arrangement other than one described in sections 401(a), 403 (a) or (b), or 405(a) of the Internal Revenue Code of 1954 (relating respectively to qualified pension, profit-sharing, and stock bonus plans; taxation of employee annuities; and qualified bond purchase plans).

DEFINITION OF COMPENSATION

Under the proposed amendment, a taxpayer's compensation includes, in addition to basic or regular compensation fixed by contract, statute, or otherwise, a supplement, such as a bonus, and increases in basic or regular compensation.

EXCEPTION

An exception to the general rule is proposed to provide that it does not apply to the amount of any payment which the taxpayer has chosen to defer under an existing plan or arrangement if the amount would have been payable, but for the taxpayer's exercise of the option to defer receipt, before March 6, 1978.

EFFECT ON PRESENT IRS PUBLISHED POSITIONS

If this regulation is published as a Treasury decision, Rev. Rul. 67-449, 1967-2 C.B. 173, Rev. Rul. 68-86, 1968-1 C.B. 184, Rev. Rul. 69-650, 1969-2 C.B. 106, and Rev. Rul. 71-419, 1971-2 C.B. 220 would no longer be applied and present Service acquiescences in the decisions in *James F. Oates*, 18 T.C. 570 (1952) and *Ray S. Robinson*, 44 T.C. 20 (1965) would be reconsidered. Further, it would be necessary to

examine the facts and circumstances of cases similar to those described in several other published revenue rulings (such as Examples (1) and (3) of Rev. Rul. 60-31, 1960-1 C.B. 174, Rev. Rul. 68-99, 1968-1 C.B. 193, and Rev. Rul. 72-25, 1972-1 C.B. 127) to determine whether the deferral of payment of compensation was in fact at the individual option of the taxpayer who earned the compensation.

On September 7, 1977, the Service announced in IR-1881 that it had suspended the issuance of rulings dealing with the income tax treatment of certain non-qualified deferred compensation plans established by State and local governments and other employers pending completion of a review of this area. The plans reviewed permit the employee to individually elect to defer a portion of his or her salary. This proposed amendment represents conclusions reached as a result of this review.

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably six copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

DRAFTING INFORMATION

The principal author of these proposed regulations was William E. Mantle of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

Proposed amendments to the regulations.—26 CFR Part 1 is amended by adding a new § 1.61-16 immediately after § 1.61-15. The new section reads as follows:

§ 1.61-16 Amounts payments of which are deferred under certain compensation reduction plans or arrangements.

(a) In general. Except as otherwise provided in paragraph (b) of this section, if under a plan or arrangement (other than a plan or arrangement described in sections 401(a), 403 (a), or (b), or 405(a)) payment of an amount of a taxpayer's basic or regular compensation fixed by contract, statute, or otherwise (or supplements to such compensation, such as bonuses, or increases in such compensation) is, at the taxpayer's individual option, de-

ferred to a taxable year later than that in which such amount would have been payable but for his exercise of such option, the amount shall be treated as received by the taxpayer in such earlier taxable year. For purposes of this paragraph, it is immaterial that the taxpayer's rights in the amount payment of which is so deferred become forfeitable by reason of his exercise of the option to defer payment.

(b) Exception. Paragraph (a) of this section shall not apply to an amount payment of which is deferred as described in paragraph (a) under a plan or arrangement in existence on February 3, 1978 if such amount would have been payable, but for the taxpayer's exercise of the option, at any time prior to March 6, 1978. For purposes of this paragraph, a plan or arrangement in existence on February 3, 1978 which is significantly amended after such date will be treated as a new plan as of the date of such amendment. Examples of significant amendments would be extension of coverage to an additional class of taxpayers or an increase in the maximum percentage of compensation subject to the taxpayer's option.

S. B. WOLFE,
Acting Commissioner
of Internal Revenue.

INCOME TAX

Reporting Requirements for Non-Qualified Stock Options; Public Hearing

AGENCY: Internal Revenue Service, Treasury.

ACTION: Public Hearing on proposed regulations.

SUMMARY: This document provides notice of a public hearing on proposed regulations relating to reporting requirements for non-qualified stock options.

DATES: The public hearing will be held on March 20, 1978, beginning at 10 a.m. Outlines of oral comments must be delivered or mailed by March 10, 1978.

ADDRESS: The public hearing will be held in the IRS Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue NW., Washington, D.C. 20224. Outlines of comments should be submitted to Commissioner, Internal Revenue Service, Attn: CC:LR:T (LR-95-77), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT:

PROPOSED RULES

George Bradley or Charles Hayden of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224, 202-566-3935, not a toll-free call.

SUPPLEMENTARY INFORMATION: The subject of the public hearing is proposed regulations under section 83 of the Internal Revenue Code of 1954. These proposed regulations appeared in the FEDERAL REGISTER for September 20, 1977 (42 FR 47222).

The rules of § 601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to the public hearing. Persons who have submitted written comments within the time prescribed in the notice of proposed rulemaking and who desire to present oral comments at the hearing on the proposed regulations should submit an outline of the comments to be presented at the hearing and the time they wish to devote to each subject by March 10, 1978. The outlines should be submitted to the Commissioner of Internal Revenue, Attn: CC:LR:T (LR-95-77), Washington, D.C. 20224. Each speaker will be limited to 10 minutes for an oral presentation exclusive of time consumed by questions from the panel for the Government and answers to these questions.

Because of controlled access restrictions, attendees can not be admitted beyond the lobby of the Internal Revenue Building until 9:45 a.m.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of the agenda will be available free of charge at the hearing.

ROBERT A. BLEY,
Director, Legislation and
Regulations Division.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

[45 CFR Part 185]

EMERGENCY SCHOOL AID

AGENCY: Office of Education, HEW.

ACTION: Proposed rule.

SUMMARY: This document proposes to amend the Emergency School Aid Act regulations for the purpose of governing the award of grants for the planning and operation of magnet schools, cooperative programs between local educational agencies and universities or businesses, and the planning of neutral site schools. These activities are authorized by amendments to the

Emergency School Aid Act contained in the Education Amendments of 1976.

DATES: Comments must be received on or before March 20, 1978. Public meetings will be held in four cities at the addresses listed below. The date and time for each meeting follow:

February 13, 1978, Washington, D.C., 9 a.m. to 1 p.m.

February 14, 1978, Cleveland, Ohio, 9 a.m. to 1 p.m.

February 15, 1978, Dallas, Tex., 9 a.m. to 1 p.m.

February 17, 1978, San Francisco, Calif., 9 a.m. to 1 p.m.

ADDRESSES: Comments should be addressed to Dr. Thomas W. Fagan, Room 2017, FOB-6, 400 Maryland Avenue SW., Washington, D.C. 20202. The public meetings will be held at the following locations:

Washington, D.C., Room 221, Martin Luther King Memorial Library, 901 G Street NW.

Cleveland, Ohio, Cleveland YWCA, Willey Room, 2d Floor, 3201 Euclid Avenue 44115.

Dallas, Tex., Human Systems, Inc., Executive Tower, Room 506, 3300 West Mockingbird 75235.

San Francisco, Calif., Far West Laboratory for Educational Research and Development, 1855 Folsom Street 94103.

FOR FURTHER INFORMATION CONTACT:

Dr. Thomas W. Fagan, 202-245-2465.

AUTHORITY.—Pursuant to the authority contained in the Emergency School Aid Act, Title VII of the Education Amendments of 1972 ("ESAA"; 20 U.S.C. 1601 et seq.) and, in particular, the 1976 amendments to that statute contained in section 321(c) of Pub. L. 94-482, the Commissioner (to whom the Assistant Secretary has delegated functions under ESAA) proposes to amend the regulations in 45 CFR Part 185.

SUPPLEMENTARY INFORMATION: On July 1, 1977, an interim final regulation (Subpart L of 45 CFR Part 185) was published in the FEDERAL REGISTER to govern the award of fiscal year 1977 grants for newly authorized activities (the planning and operation of magnet schools, cooperative programs between local educational agencies and universities or businesses, and the planning of neutral site schools). Considering the required time for public comment, it was apparent that a final regulation could not take effect, following proposed rulemaking procedures, in time to govern timely awards of assistance in that fiscal year. The interim final regulation was published with the understanding that the Office of Education would republish it as proposed rulemaking to allow for public comment.

One comment in response to the interim regulation was received. The commenter objected to the requirement that nonminority students constitute no less than 50 percent of the total enrollment of the magnet school. This suggestion was considered by the Office of Education and, for the rea-

sons set out below in connection with § 185.102(c), was not adopted in the proposed regulations.

At this time, the Commissioner republishes the interim regulations, with minor changes indicated below, as proposed rules and invites comment from the public.

DEFINITIONS

Definitions of some terms used in Subpart L are contained in existing regulations pertaining to the Emergency School Aid Act. See, in particular, § 185.02. However, § 185.101 in Subpart L contains definitions of certain terms used in that Subpart alone. The definitions of "magnet school" and "neutral site school" are taken from the 1976 amendments to the statute. The definition of a "special curriculum" required for a magnet school permits the award of a grant in connection with a school that offers a course of study embracing either special subject matter or a special teaching methodology. The "special curriculum" need not be unique. An applicant may seek funds in connection with more than one school offering the same curriculum, or schools offering different curricula, so long as the curriculum at each school is not generally available in the applicant's schools.

The definition of "special curriculum" excludes curricula designed solely for handicapped students or for students of limited English-speaking ability because students are assigned to these curricula by virtue of their special educational needs. In order to ensure that a magnet school is open to students of various ethnic and economic backgrounds, the definition of "special curriculum" also excludes one in which a student is unable to participate because of the student's limited English-speaking ability or limited financial resources. Finally, the definition excludes a curriculum which fails to provide for a participating student's meeting the requirements for completion of elementary or secondary education in the same period as other students enrolled in the applicant's schools. This provision is designed to ensure that a student's enrollment in a magnet school will result in no academic penalty either in the magnet school or in another school to which the student transfers after enrolling in the magnet school.

ELIGIBILITY

Section 185.102 sets out the eligibility requirements for a grant under Subpart L. It provides that only a local educational agency may apply for such a grant, and that the applicant must comply with the civil rights related limitations on eligibility applicable to any educational agency seeking ESAA assistance.

In the case of a grant to conduct educational programs in a magnet

school, there is a further eligibility requirement. Under the statute, this kind of grant may be used only in connection with a school or education center that offers a special curriculum "capable of attracting substantial numbers of students of different racial backgrounds" (20 U.S.C. 1619(9)). Section 185.102(c) requires that the enrollment of a magnet school include substantial numbers of students from different racial backgrounds 60 days after the beginning of the first school term during the project period. The purpose of this provision is to ensure that the curriculum of the school is truly capable of attracting a racially diverse student body, and thereby to ensure that grant funds are used for the purposes permitted by the statute. The Commissioner encourages applicants for magnet school grants to take the necessary steps to attract a racially diverse student body to each school before the beginning of the school term, and anticipates that applicants will be successful in this regard. However, the Commissioner recognizes that precise enrollment figures are difficult to ascertain before school opens, that some students enroll after that date, and that a limited number of students may be attracted to one school after first enrolling in another. For these reasons, he has determined that the capability of a curriculum to attract a racially diverse student body should be assessed 60 days after the beginning of the school term.

The experience of the Office of Education with the first group of magnet school applications has shown requests for equipment costs to be significant. To prevent the obligation of equipment funds in connection with a magnet school which fails to meet enrollment requirements, the interim regulation has been amended to preclude the obligation of more than one-half of equipment funds (where they exceed 10 percent of the grant award) until the school is found to meet enrollment requirements.

Under § 185.102(c), minority group students may constitute between 20 and 50 percent of the enrollment of a magnet school. If the applicant enrolls in its schools students from more than one minority group, the minority group enrollment of the magnet school must generally reflect the minority group enrollment in the applicant's schools as a whole. In establishing these requirements, the Commissioner has been guided, first, by the purposes of the Emergency School Aid Act set out at 20 U.S.C. 1601(b) and, in particular, 20 U.S.C. 1601(b)(2):

to encourage the voluntary elimination, reduction, or prevention of minority group isolation in elementary and secondary schools with substantial proportions of minority group students.

In view of the purposes of the statute, the Commissioner has determined

that funds may not be used in connection with a minority group isolated school as that term is defined in the statute. (See 20 U.S.C. 1619(11) and § 185.02(g) of the ESAA regulations.) Therefore, the regulations establish a ceiling of 50 percent for the minority group enrollment in a magnet school.

In establishing a floor of 20 percent minority enrollment in a magnet school, the Commissioner has been guided by the views of experts in school desegregation. For example, Dr. Thomas Pettigrew, in testimony before Congress prior to the enactment of the ESAA, expressed his opinion that the optimum minority group enrollment in a school was not less than 20 percent. (Hearings before the Select Committee on Equal Educational Opportunity of the United States Senate on Equal Educational Opportunity, 91st Cong., 2d Sess., Pt. 2, at 769 (1970).) More recently, Dr. Charles V. Willie cited the same percentage figure as the lower limit of a sufficient minority group enrollment range. (Willie, "Racial Balance or Quality Education", 84 U. Chi. Sch. Rev. 319 (1976).)

The regulations require a recipient of a grant to conduct educational programs in a magnet school to report the enrollment of the school as of the 60th day after the beginning of the school term. If a racially diverse student body as described above has not been attracted to a school by that time, the grant is terminated insofar as it relates to that school.

AUTHORIZED ACTIVITIES

Section 185.103 sets out the activities for which funds awarded under Subpart L may be used. These activities fall into three major categories set out at 20 U.S.C. 1606(a) (13)-(15):

1. Planning and design of, and conduct of programs in, magnet schools;
2. The pairing of schools and programs with specific colleges and universities and with leading businesses; and
3. The development of plans for neutral site schools. These activities, like those under other ESAA programs, may be assisted only if they would not otherwise be funded and are designed to carry out the purposes of the statute. Limited repair and minor remodeling or alteration of existing facilities may be assisted in connection with activities otherwise authorized.

The interim regulation did not expressly provide that enrollment requirements applicable to projects to conduct educational programs in magnet schools also applied to projects to plan magnet schools. An amendment to the interim regulation makes it clear that the enrollment requirements apply to schools for which planning grants are made.

The regulations amplify each of the three major categories of authorized

activities. In the case of magnet schools, both educational and architectural planning, as well as related activities, may be assisted. The conduct of educational programs in a magnet school may also be assisted, so long as the applicant's fiscal effort per student for students enrolled in the magnet school will be no less than that for students enrolled in comparable schools. This restriction is designed to ensure that ESAA funds are not used as a substitute for non-Federal funds.

In the case of university/business cooperation, the regulations do not delimit the kinds of cooperative educational programs which may be assisted. However, taking into account the purposes of the statute, the Commissioner has determined that these programs must be designed to benefit students or staff in a magnet school, a school affected by a plan described in 20 U.S.C. 1605(a), or a minority group isolated school.

The regulations relating to neutral site planning distinguish between planning activities, which may be assisted, and activities that occur after planning has been completed, which may not. Activities may be assisted only in connection with a school planned to have the enrollment characteristics described above for a magnet school, and one which will be equally accessible to students from all racial groups.

APPLICATIONS AND FUNDING CRITERIA

Section 185.104 sets out the information and assurances required to be included in an application for a grant under Subpart L. It provides that an applicant under this Subpart must include enrollment data needed for the evaluation of its application, as well as the information required of local educational agencies under other ESAA programs.

Section 185.105 sets out objective criteria for use in evaluating applications for grants relating to magnet schools or university/business cooperation. The objective criteria are designed to measure the net change in minority group isolation in the applicant's schools over two periods. For fiscal year 1978 grants these periods are (1) fiscal year 1976 compared to fiscal year 1979 (when the assisted activities would be carried out), and (2) fiscal year 1978 compared to fiscal year 1979. The elimination, reduction, or prevention of isolation in the latter period has twice the weight of that in the former. Thus, the criteria emphasize the efficacy and comprehensiveness of the applicant's efforts to address minority group isolation, and the need arising from those efforts.

No applicant for fiscal year 1977 funds under Subpart L achieved a net change in minority group isolation

greater than 70.99 nor a score of more than 21 points on the basis of the criteria in § 185.105. Therefore, the interim regulation has been amended to provide for better discrimination among applicants in assigning points for the net change in isolation. No points are assigned for a change in isolation between 0 and 0.99. The lowest third of the scale provides for the greatest discrimination among applicants while less is needed in the middle and upper thirds of the scale.

Each application under Subpart L is also evaluated, in whole or in part, on the basis of other criteria. An application for a grant relating to magnet schools or university/business cooperation is evaluated on the basis of the educational criteria set out in § 185.106 as well as the objective criteria described above. An application for a grant relating to neutral site planning is evaluated only on the basis of the criteria set out in § 185.107.

Section 185.108 sets out the funding procedures for the award of grants under Subpart L. It provides for an annual reservation of a proportion of available funds for neutral site planning. Applications for grants relating to magnet schools or university/business cooperation are evaluated separately from applications for grants relating to neutral site planning. Awards are made to the highest ranking applicants in each of these two categories. However, in the case of applications for grants relating to magnet schools or university/business cooperation, the regulations provide for the award of at least five grants where a sufficient number of meritorious applications has been submitted. The purpose of this provision is to ensure that the needs of a number of applicants are met to some extent, and to provide a basis for evaluating the program.

OTHER PROVISIONS

Sections 185.109 and 185.110 incorporate the requirements for public and advisory committee participation and nonpublic school participation, respectively, that apply to any local educational agency seeking ESAA assistance.

NOTE.—The Commissioner has determined that this document does not contain a major proposal requiring preparation of an Inflationary Impact Statement under Executive Order 11821 and OMB Circular A-107.

(Catalog of Federal Domestic Assistance Numbers 13.589—Magnet Schools, University/Business Cooperation, and 13.590—Neutral Site Planning.)

Accordingly, 45 CFR Part 185 is proposed to be amended as set forth below.

Dated: December 28, 1977.
ERNEST L. BOYER,
U.S. Commissioner of Education.
Approved: January 3, 1978.
PETER D. RELIC,
Acting Assistant Secretary for
Education.
Approved: January 27, 1978.
JOSEPH A. CALIFANO, Jr.,
Secretary of Health, Education,
and Welfare.

1. The Table of Contents is amended
by adding at the end thereof the fol-
lowing:

SUBPART L—MAGNET SCHOOLS, UNIVERSITY/BUSI-
NESS COOPERATION, AND NEUTRAL SITE PLAN-
NING

- 185.101 Definitions.
- 185.102 Eligibility.
- 185.103 Authorized activities.
- 185.104 Applications.
- 185.105 Objective criteria—magnet schools and university/business cooperation.
- 185.106 Educational criteria—magnet schools and university/business cooperation.
- 185.107 Neutral site planning criteria.
- 185.108 Funding procedures.
- 185.109 Public and advisory committee participation.
- 185.110 Nonpublic school participation.

2. A new Subpart L is added, as fol-
lows:

Subpart L—Magnet Schools, University/Busi-
ness Cooperation, and Neutral Site Planning

§ 185.101 Definitions.

The following definitions apply to
terms used in this subpart:

"Magnet school" means a school or
education center that offers a special
curriculum capable of attracting sub-
stantial numbers of students of differ-
ent racial backgrounds.

"Neutral site school" means a school
that is located so as to be accessible to
substantial numbers of students of dif-
ferent racial backgrounds.

"Special curriculum" means a course
of study embracing subject matter or a
teaching methodology that is not gen-
erally offered to students of the same
age or grade level, and in the same
local educational agency, as the stu-
dents to whom the special curriculum
is offered. This term does not in-
clude—

- (1) A course of study designed solely
for handicapped students or for stu-
dents of limited English-speaking abil-
ity; or
- (2) A course of study in which any
student is unable to participate be-
cause of his or her limited English-
speaking ability; or
- (3) A course of study in which any
student is unable to participate be-
cause of his or her limited financial re-
sources; or
- (4) A course of study which fails to
provide for a participating student's

meeting the requirements for comple-
tion of elementary or secondary educa-
tion in the same period as other stu-
dents enrolled in the applicant's
schools.

(20 U.S.C. 1603(d), 1619(9), 1619(12).)

§ 185.102 Eligibility.

(a) Any local educational agency
may apply for a grant under this sub-
part.

(20 U.S.C. 1603(d), HR Rep. No. 94-1701,
94th Cong., 2d Sess. 231 (1976).)

(b) The provisions of § 185.43 (limita-
tions on eligibility), § 185.44 (waivers
of ineligibility), and § 185.46 (determi-
nations of ineligibility prior to award
of assistance) apply to any local educa-
tional agency seeking a grant under
this subpart.

(20 U.S.C. 1603(d), 1605(d).)

(c) In the case of a grant for activi-
ties described in § 185.103(a) relating
to the conduct of educational pro-
grams in a magnet school, the Assis-
tant Secretary will consider the cur-
riculum of a magnet school to be capa-
ble of attracting substantial numbers
of students of different racial back-
grounds only if, 60 days after the be-
ginning of the first school term during
the project period, the enrollment of
the school meets the following re-
quirements:

(1) Minority group students consti-
tute no less than 20 percent and no
more than 50 percent of the enroll-
ment;

(2) The ratios of the number of stu-
dents from each minority group to the
total number of minority group stu-
dents enrolled in the magnet school
generally reflect the ratios among mi-
nority group students enrolled in all
the schools of the recipient; and

(3) No student has been compelled
to enroll in the magnet school, or to
enroll in another school after enroll-
ing in the magnet school.

If the enrollment of any school does
not meet these requirements, the As-
sistant Secretary shall terminate the
grant in accordance with § 185.45 inso-
far as it relates to that school.

(d) A recipient of a grant for activi-
ties described in § 185.103(a) relating
to the conduct of educational pro-
grams in a magnet school shall submit
to the Assistant Secretary a report
showing the number of nonminority
group students and the number of stu-
dents from each minority group who
were enrolled at each magnet school
to which the grant relates on the 60th
day after the beginning of the first
school term during the project period.
The recipient shall submit this report
within 75 days after the beginning of
that school term unless the Assistant
Secretary, for good cause shown, sets a
later date for submission.

(20 U.S.C. 1603(d), 1607(a)(13), 1619(9).)

§ 185.103 Authorized activities.

Funds awarded under this subpart
may be used for the activities de-
scribed in this section if those activi-
ties would not otherwise be funded
and if they are designed to carry out
the purposes described in § 185.01 (re-
lating, generally, to the elimination of
minority group segregation, discrimi-
nation, and isolation and the effects
thereof). No more than 10 percent of
the funds awarded under this subpart
may be used for the repair and minor
remodeling or alteration of facilities.

(a) *Magnet schools.* (1) Funds may be
used for the following three activities:

(i) The planning and design of one
or more magnet schools; as described
in § 185.102(c) (1), (2), and (3);

(ii) The conduct of educational pro-
grams in one or more magnet schools;
and

(iii) The repair and minor remodel-
ing or alteration (as defined in
§ 185.12(d) of existing school facilities
in connection with the conduct of edu-
cational programs in one or more
magnet schools.

(2) The planning and design of a
magnet school includes, but is not
limited to, the following activities:

(i) Planning and design of educa-
tional programs for the school;

(ii) Architectural design of new or
modified facilities to house the school;

(iii) Surveys and studies relating to
the establishment or improvement of
the school; and

(iv) Recruitment of students and
staff for the school.

(3) Where the cost of equipment (as
defined in § 185.02(c)) exceeds 10 per-
cent of funds awarded for the conduct
of educational programs in one or
more magnet schools, the recipient
may not obligate more than one-half
of the funds available for equipment
until the Assistant Secretary deter-
mines that each school to which the
equipment relates meets the enroll-
ment requirements set out in
§ 185.102(c) (1)-(3).

(4) The Assistant Secretary shall
award funds for the conduct of educa-
tional programs in a magnet school
only if the applicant's fiscal effort per
student for students enrolled at a
magnet school is no less than its fiscal
effort per student for students en-
rolled at all schools serving students of
the same age or grade level operated
by the applicant in the fiscal year for
which it seeks assistance under this
subpart. For the purpose of this sub-
paragraph, "fiscal effort per student"
means the expenditure for free public
education, including expenditures for
administration, instruction, atten-
dance and health services, pupil trans-
portation services, operation and
maintenance of plant, fixed charges,
and net expenditures to cover deficits

for food services and student body ac-
tivities (but not including expendi-
tures for community services, capital
outlay and debt service, or any expendi-
ture from funds granted under any
Federal program of assistance) divided
by the number of students with re-
spect to whom the computation is
made.

(b) *University/business cooperation.*
Funds may be used for—

(1) The conduct of educational pro-
grams by the applicant, in cooperation
with one or more colleges, universities,
or leading businesses, for the benefit
of students enrolled, or staff em-
ployed, in—

(i) A magnet school assisted under
this subpart;

(ii) A school affected by a plan or
project described in § 185.11 or
§ 185.31(a); or

(iii) A minority group isolated school
(as defined in § 185.02(g)); and

(2) The repair and minor remodeling
or alteration (as defined in § 185.12(d))
of facilities in connection with the
conduct of these educational pro-
grams.

(c) *Neutral site planning.* (1) Funds
may be used for the development of
plans for one or more neutral site
schools, including but not limited to
the following activities:

(i) Surveys and studies to determine
the location of the school;

(ii) Planning educational programs
for the school;

(iii) Architectural design of facilities
to house the school; and

(iv) The repair and minor remodel-
ing or alteration (as defined in
§ 185.12(d) of facilities in connection
with the development of plans for the
school.

(2) Funds may be used only in con-
nection with a school planned to have
the following characteristics:

(i) Minority group students will con-
stitute no less than 20 percent and no
more than 50 percent of the enroll-
ment of the school;

(ii) The ratios of the number of stu-
dents from each minority group to the
total number of minority group stu-
dents who will be enrolled in the
school generally reflect the ratios
among minority group students who
will be enrolled in all the schools of
the recipient; and

(iii) The school will be equally acces-
sible to nonminority group students
and students from each minority
group who will be enrolled in it.

(3) Funds may not be used for—

(i) The acquisition or improvement
of a site for the school;

(ii) The construction of facilities to
house the school;

(iii) The acquisition of equipment
for the school; or

(iv) Any activity related to the oper-
ation of the school.

(20 U.S.C. 1601(b), 1603(d), 1606(a) (12)-(15),
1619 (10) and (12); 122 Cong. Rec. S16870,

S16872 (daily ed. Sept. 28, 1976), H11691,
H11699 (daily ed. Sept. 29, 1976).)

§ 185.104 Applications.

(a) An applicant for a grant under
this subpart shall include in its appli-
cation a description of the activities
for which it seeks assistance and the
information described in §§ 185.109
and 185.110.

(b) The provisions of § 185.13 (a)
through (n), relating to applications,
apply to any applicant for a grant
under this subpart. An applicant shall
include in its application the informa-
tion and assurances required by those
provisions.

(c) In the case of an application for a
grant to carry out activities described
in § 185.103 (a) or (b) relating to
magnet schools and university/busi-
ness co-operation respectively, the ap-
plicant shall include in its application
the information described in this para-
graph.

(1) Except as provided in subpara-
graph (2) of this paragraph, the appli-
cant shall include—

(i) The number of minority group
students and the total number of stu-
dents enrolled or to be enrolled in
each of its schools in the following
years:

(A) "Base year I" (meaning the third
fiscal year prior to the fiscal year for
which an applicant seeks assistance
under this subpart);

(B) "Base year II" (meaning the
fiscal year immediately prior to the
fiscal year for which an applicant
seeks assistance under this subpart);
and

(C) The "project year" (meaning the
fiscal year for which an applicant
seeks assistance under this subpart);
and

(ii) A description of the basis for its
enrollment projections for the project
year.

(2) (i) If an applicant is eligible for
assistance under this part under a
plan described in § 185.11(b)(3) or a
project described in § 185.11(d) and
chooses to rely on that plan or project
in its application for assistance under
this subpart, it shall include the
number of minority group students
and the total number of students who
would be enrolled, in the project year,
in each of its schools—

(A) If the plan or project were im-
plemented; and

(B) If the plan or project were not
implemented.

(ii) If the applicant chooses to rely
solely on that plan or project, it is not
required to include the information
described in subparagraph (1) of this
paragraph.

(d) Both an applicant for a grant
under this subpart and the Assistant
Secretary shall make the application
and all correspondence and other writ-
ten materials relating to it readily
available to the public.

(20 U.S.C. 1603(d), 1609 (a) and (b), 1612,
1605(d), 1228.)

§ 185.105 Objective criteria—magnet
schools and university/business coo-
peration.

(a) (1) In evaluating an application
for a grant under this subpart to carry
out activities described in § 185.103 (a)
or (b) relating to magnet schools and
university/business cooperation re-
spectively, the Assistant Secretary
shall assign the application up to 90
points for the net change in isolation
in the applicant's schools between
base year I and the project year, and
between base year II and the project
year. ("Base year I," "base year II,"
and "project year" are defined at
§ 185.104.)

(2) The Assistant Secretary shall
assign points for net change in isola-
tion on the basis of the procedure de-
scribed in this section.

(b) From the information required
to be included in an application under
§ 185.103(c), the minority group per-
centage of the enrollment of each of
the applicant's schools in base year I is
computed. The number of minority
group students enrolled in schools
within each percentage range in
Column A of Table I is determined.
The number of students in each per-
centage range is then multiplied by
the corresponding weight in Column B
of Table I. The resulting weighted
numbers are added. The sum is then
divided by the total number of minor-
ity group students enrolled in the ap-
plicant's schools for that year.

TABLE I

Column A, minority group percentage	Column B, Weight
95 or more	0.0
At least 90 but less than 951
At least 85 but less than 902
At least 80 but less than 853
At least 75 but less than 804
At least 70 but less than 755
At least 65 but less than 706
At least 60 but less than 657
At least 55 but less than 608
More than 50 but less than 559
50 or less	1.0

(c) The computation described in
paragraph (b) of the section is repeat-
ed using the number of minority
group students to be enrolled in the
applicant's schools in the project year.

(d) The result of the computation
for base year I is subtracted from the
result of the computation for the pro-
ject year to determine the net change
in isolation between base year I and
the project year. Using Table II, the
Assistant Secretary assigns the appli-
cation the number of points in
Column B which corresponds to the
applicant's net change in isolation in
Column A.

TABLE II

Column A, net change in isolation	Column B, points
96 to 100	30
91 to 95.99	29

TABLE II—Continued

Column A, net change in isolation	Column B, points
88 to 90.99	28
81 to 85.99	27
76 to 80.99	26
71 to 75.99	25
66 to 70.99	24
61 to 65.99	23
56 to 60.99	22
51 to 55.99	21
46 to 50.99	20
41 to 45.99	19
36 to 40.99	18
31 to 35.99	17
26 to 30.99	16
21 to 25.99	15
16 to 20.99	14
11 to 15.99	13
6 to 10.99	12
1 to 5.99	11
0 to 0.99	10
	9
	8
	7
	6
	5
	4
	3
	2

	0

(e) The computation described in paragraph (b) of this section is repeated using the number of minority group students enrolled in the applicant's schools in base year II. The result of this computation is subtracted from the result of the computation for the project year to determine the net change in isolation between base year II and the project year. Using Table II, the Assistant Secretary assigns the application the number of points in Column B which corresponds to the applicant's net change in isolation in Column A multiplied by two.

(f) If the applicant relies on either a plan described in § 185.11(b)(3) or a project described in § 185.11(d), or both, and on the reduction or elimination of minority group isolation, the Assistant Secretary assigns the application points on the basis of the computations described in paragraphs (b) through (e) of this section using as project year data the enrollment data based on implementation of the plan or project.

(g) If the applicant relies solely on a plan described in § 185.11(b)(3) or a project described in § 185.11(d), or both, the Assistant Secretary assigns the application points on the basis of the computations described in paragraphs (b) through (e) of this section—

(1) Using as base year I and base year II data the enrollment data based on no implementation of the plan or project; and

(2) Using as project year data the enrollment data based on implementation of the plan or project.

(20 U.S.C. 1601(b), 1603(d), 1606(a) (12)-(14), 1609(c) (1)-(4).)

§ 185.106 Educational criteria—magnet schools and university/business cooperation.

In evaluating an application for a grant under this subpart to carry out activities described in § 185.103 (a) or (b) relating to magnet schools and university/business cooperation respectively, the Assistant Secretary shall assign the application up to 70 points on the basis of the following criteria:

(a) *Need assessment (10 points).* (1) The magnitude of the need for the activities proposed in the application (5 points); and

(2) The extent to which the need is supported by objective evidence (5 points).

(b) *Statement of objectives (10 points).* (1) The extent to which the applicant sets out specific, measurable objectives related to the need assessed (4 points);

(2) The extent to which the objectives realistically address the need assessed (3 points); and

(3) The extent to which the objectives were developed by persons with relevant experience and persons from all racial and ethnic populations to be served by the proposed activities (3 points).

(c) *Activities (36 points).*—(1) *Project design (24 points).* (i) The extent to which the proposed activities are unique (4 points);

(ii) The thoroughness of the applicant's planning for the proposed activities and the extent to which those activities will be coordinated with other efforts by the applicant to eliminate, reduce, or prevent minority group isolation (4 points);

(iii) The extent to which the proposed activities will promote interracial and intercultural contact and understanding (3 points);

(iv) The extent to which the proposed activities will meet the needs of individual students, including students of varying levels of achievement (4 points);

(v) The extent to which the proposed activities will reflect the interests of parents, students, and other members of the community (3 points);

(vi) The extent to which the curriculum to which the proposed activities relate includes materials pertinent to the racial and ethnic composition of the schools or community to be served (2 points);

(vii) The extent to which instruction in basic skills is integrated into the proposed activities (2 points); and

(viii) The extent to which the proposed activities provide for cooperative planning among teachers and other staff to meet the needs of individual students (2 points).

(2) *Staffing (6 points).* (i) The extent to which the applicant sets out an adequate staffing plan, including specific job responsibilities and provisions for

making maximum use of present staff capabilities (2 points);

(ii) The extent to which the proposed activities will be conducted by staff which reflect the racial and ethnic composition of the schools or community to be served (2 points);

(iii) The extent to which the proposed activities include necessary staff training (2 points).

(3) *Parent and Community Involvement (6 points).* (i) The extent to which the applicant will involve parents and students in carrying out the proposed activities, as by employing parents as instructional aides in the classroom and informing parents and students of progress made in carrying out the proposed activities (2 points);

(ii) The extent to which the applicant will involve in the proposed activities public and private agencies in the community which have previously been involved in activities related to the elimination, reduction, or prevention of minority group isolation (2 points); and

(iii) The extent to which the applicant delineates specific opportunities for the participation in the proposed activities of the advisory committee described in § 185.41 (2 points).

(d) *Management (8 points).* (1) The extent to which the amount of funds requested is of sufficient magnitude in relation to the number of participants to be served to give substantial promise of achieving the stated objectives, and is reasonable in relation to the expected benefits (2 points);

(2) The extent to which the applicant has made all possible efforts to minimize the amount of funds requested for the purchase of equipment to carry out the proposed activities (2 points);

(3) The extent to which the applicant sets out a detailed and realistic schedule of implementation (2 points); and

(4) The extent to which the applicant sets out a plan for meeting the logistical requirements for the proposed activities, including a description of adequate and conveniently available facilities and equipment (2 points).

(e) *Evaluation (6 points).* The extent to which the applicant sets out a format for objective, quantifiable measurement of the success of the proposed activities in achieving the stated objectives, including—

(1) A timetable for the compilation of data for evaluation and a method for continuing review of the proposed activities in the light of that data (2 points);

(2) A description of instruments to be used for evaluation of the proposed activities (and of the method for validating these instruments where necessary), or a description of the procedure to be employed in selecting these instruments (2 points); and

(3) Provisions for the comparison of evaluation results with norms, control group performance, results of other programs, or other external standards (2 points).

(20 U.S.C. 1601(b), 1603(d), 1606(a) (12)-(14), 1609(c) (1), (2), (4), and (6).)

§ 185.107 Neutral site planning criteria.

In evaluating an application for a grant under this subpart to carry out activities described in § 185.103(c) relating to neutral site planning, the Assistant Secretary shall assign the application up to 100 points on the basis of the following criteria:

(a) *Need assessment (20 points).* (1) The magnitude of the need for the activities proposed in the application (10 points); and

(2) The extent to which the need is supported by objective evidence, including demographic data (10 points).

(b) *Statement of objectives (5 points).* (1) The extent to which the applicant sets out specific, measurable objectives related to the need assessed (2 points);

(2) The extent to which the objectives realistically address the need assessed (1 point); and

(3) The extent to which the objectives were developed by persons with relevant experience and persons from all racial and ethnic populations to be served by the proposed activities (2 points).

(c) *Activities (60 points).*—(1) *Project design (35 points).* (i) The extent to which the proposed activities will be coordinated with other efforts by the applicant to eliminate, reduce, or prevent minority group isolation (5 points);

(ii) The extent to which the proposed activities will be coordinated with the applicant's other planning activities, including those related to building use (5 points);

(iii) The extent to which the proposed activities will be coordinated with the planning activities of both other governmental agencies and the private sector to ensure that a neutral site school to which the proposed activities relate will have the characteristics described in § 185.103(c)(3) for an extended period (10 points);

(iv) The extent to which the proposed activities will assist in eliminating, reducing, or preventing minority group isolation in the schools of more than one local educational agency (5 points);

(v) The extent to which the proposed activities, including any educational planning activities, will reflect the interests of parents, students and other member of the community (5 points); and

(vi) The extent to which the applicant provides evidence of a commitment to implement any plan developed with assistance under this subpart (5 points).

(2) *Staffing (10 points).* (i) The extent to which the applicant sets out an adequate staffing plan, including specific job responsibilities and provisions for making maximum use of present staff capabilities (4 points);

(ii) The extent to which the proposed activities will be conducted by staff which reflect the racial and ethnic composition of the community to be served (3 points); and

(iii) The extent to which the proposed activities include necessary staff training (3 points).

(3) *Parent and community involvement (15 points).* (i) The extent to which the applicant will involve parents and students in carrying out the proposed activities (5 points);

(ii) The extent to which the applicant will involve in the proposed activities public and private agencies which have previously been involved in activities related to the elimination, reduction, or prevention of minority group isolation (5 points); and

(iii) The extent to which the applicant delineates specific opportunities for the participation in the proposed activities of the advisory committee described in § 185.41 (5 points).

(d) *Management (10 points).* (1) The extent to which the amount of funds requested is of sufficient magnitude in relation to the stated objectives to give substantial promise of achieving those objectives, and is reasonable in relation to the expected benefits (2 points);

(2) The extent to which the applicant has made all possible efforts to minimize the amount of funds requested for the purchase of equipment to carry out the proposed activities (2 points);

(3) The extent to which the applicant sets out a detailed and realistic schedule of implementation (2 points); and

(4) The extent to which the applicant sets out a plan for meeting the logistical requirements for the proposed activities, including a description of adequate and conveniently available facilities and equipment (4 points).

(e) *Evaluation (5 points).* The extent to which the applicant sets out a format for objective, quantifiable measurement of the success of the proposed activities in achieving the stated objectives, including—

(1) A timetable for the compilation of data for evaluation and a method for continuing review of the proposed activities in the light of that data (3 points); and

(2) A description of instruments to be used for evaluation of the proposed activities (and of the method for validating these instruments where necessary), or a description of the procedure to be employed in selecting these instruments (2 points).

(20 U.S.C. 1601(b), 1603(d), 1606(a) (12) and (15), 1609(c) (1)-(4) and (6).)

§ 185.108 Funding procedures.

(a) The Assistant Secretary shall make any grant under this subpart from funds appropriated under section 704(d) of the Act. The Assistant Secretary will announce, by publication of a notice in the FEDERAL REGISTER:

(1) The amount of funds, if any, available for grants under this subpart in any fiscal year;

(2) The proportion of those funds which the Assistant Secretary will reserve for grants to carry out activities described in § 185.103(c) relating to neutral site planning;

(3) The project period for grants under this subpart; and

(4) The deadline for receipt of applications for these grants.

(b) (1) The Assistant Secretary shall separately evaluate applications for grants to carry out—

(i) Activities described in § 185.103 (a) or (b) relating to magnet schools and university/business cooperation respectively; and

(ii) Activities described in § 185.103(c) relating to neutral site planning.

(2) The Assistant Secretary shall make grants to eligible applicants in each category on the basis of their ranking under the criteria in this subpart. However, the Assistant Secretary shall not be required to approve any application which contains proposed activities that afford insubstantial promise of achieving the purposes described in § 185.01, as measured by the criteria in this subpart.

(c) The Assistant Secretary shall fix the amount of each grant on the basis of the additional cost (as defined in § 185.13(a)(1)) of carrying out authorized activities. However, if in any fiscal year at least five applicants have submitted applications for grants to carry out activities described in § 185.103 (a) or (b) relating to magnet schools and university/business cooperation respectively, and if their applications are otherwise approvable, the Assistant Secretary shall make no fewer than five grants for those activities. If the amount needed to fund all authorized activities proposed by the five highest ranking applicants exceeds the amount of funds available, the Assistant Secretary shall reduce the amount of each grant by an equal proportion.

(d) The Assistant Secretary shall not finally disapprove in whole or in part an application for a grant under this subpart without first notifying the applicant of the specific reasons for disapproval and affording the applicant an appropriate opportunity to modify its application.

(20 U.S.C. 1601(b), 1603(d), 1606(a) (12)-(15), 1609(a)(4), 1609(c), 1609(d)(2), 1609(e).)

§ 185.109 Public and advisory committee participation.

The provisions of § 185.41 apply to any applicant for a grant under this

subpart. An applicant shall include in its application the information and assurances required by those provisions. (20 U.S.C. 1609(a)(2), 1609(a)(3), 1609(b).)

§ 185.110 Nonpublic school participation.

The provisions of § 185.42 apply to any applicant for a grant under this subpart. An applicant shall include in its application the information and assurances required by those provisions.

(20 U.S.C. 1609(a)(12), 1605(d), 1611(c).)

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 67]

[Docket No. 21263; FCC 78-84]

JURISDICTIONAL SEPARATIONS

Integration of Rates and Services for the Provision of Communications by Authorized Common Carriers between the United States Mainland and Hawaii, Alaska, and Puerto Rico/Virgin Islands

AGENCY: Federal Communications Commission.

ACTION: Joint Board Order, Docket No. 21263.

SUMMARY: The Federal-State Joint Board established to recommend what charges, if any, should be made to the NARUC-FCC Separations Manual to make it applicable to Alaska and Hawaii issues an order calling for the submission of various cost studies and institutes notice and comment procedures. The Joint Board will issue a supplemental order establishing dates for the filing of comments and replies.

DATES: Already completed cost studies shall be submitted by February 15, 1978, and remaining cost studies shall be submitted by April 1, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Francis L. Young, Common Carrier Bureau, 632-5550.

Adopted: January 24, 1978.

Released: January 31, 1978.

In the matter of integration of rates and services for the provision of communications by authorized common carriers between the United States mainland and Hawaii, Alaska, and Puerto Rico/Virgin Islands, Docket No. 21263, *Memorandum opinion and order*. See 42 FR 51628.

Adopted: January 24, 1978.

Released: January 31, 1978.

By the Federal State Joint Board.

1. In Memorandum Opinion and Order, FCC 77-658, released September 28, 1977, we instructed the Joint Board Staff to prepare recommendations concerning what information should be obtained to develop an adequate record in this proceeding. After considering various options, we have decided to adopt a two phase approach to this proceeding. Phase I will consist of data collection and Phase II will be a notice and comment procedure in which any participant may address what changes, if any, should be made to the existing NARUC-FCC Separations Manual to make it applicable to Alaska and Hawaii.

2. The appendices to this order contain the specific data requests of the Joint Board. These requests cover four time periods commencing prior to rate integration and ending after full implementation of rate integration. The historical data requested will enable the Joint Board participants to identify trends in traffic and revenue as a function of time and actual rates and settlements. The forecast data requested for the period after full rate integration will assist in the analysis of the compatibility of the existing NARUC-FCC Manual and any proposed changes to the Manual with full rate integration. This analysis will include a review of the financial effects upon operating companies and rate payers of the application of the existing manual and any proposed changes which may be advocated. The data requests should not be interpreted as any indication of a predetermination of what separations methodology(ies) should be recommended for Alaska and Hawaii. The information sought during the data collection phase of our efforts will assist our analysis of whatever separations proposals are advocated during the notice and comment phase of this proceeding. The data submitted shall consist of historical information and fully documented projections only. The submissions will be open for review and use by all parties in the preparation of comments in the second phase of this proceeding.

3. Parties are requested to submit data encompassing four time periods as well as any already completed cost studies. The first, Period A, is prior to Step I, rate integration; the second, Period B, March 29, 1976-June 30, 1977; the third, Period C, July 1, 1977-December 31, 1978; and the fourth, Period D, after the final step of rate integration. Cost companies should submit any already completed cost separations studies including materials.¹ Average schedule companies should submit annual financial statements, peg counts, and main station counts.

¹The documentation of cost studies should include: (1) The dollar amount in

each relevant separations cost category prior to and after the allocation to the jurisdictions—listed at the sub-category level indicated in Tables 1 and 2, Pages 14, 15 of the 1971 NARUC-FCC Separations Manual; (2) the allocative factors actually used (e.g., SPF, DEM, MMM, etc.); (3) the parameters and other data used to derive the allocative factors (e.g., MOU, CSR ratio, SLU, etc.); revenue data should be listed according to the relevant revenue categories indicated in Table 2, Page 15, of the Separations Manual.

Additional data requests are detailed in the appendices. Already completed cost studies shall be submitted by February 15, 1978 and any remaining studies shall be submitted by April 1, 1978. In the event all data cannot be submitted by April 1, 1978, the parties are requested to submit data available at that time and a schedule detailing when the remaining data will be submitted. This schedule shall include statements supporting the proposed dates for any remaining data request. In light of the extensive nature of these data requests, parties shall file an original and two copies of their submissions with the Secretary, Federal Communications Commission and one copy with each of the State Commission members of the Joint Board. Copies of the submissions will be available for inspection at the Federal Communications Commission. Participants who have filed a notice of intent to participate in the proceeding should specify what studies, if any, they wish to receive.

4. The Joint Board is also instituting a notice and comment procedure by which participants may advocate what changes, if any, should be made to the existing Separations Manual to make it applicable to Alaska and Hawaii. Since many of the participants in this proceeding will be generating information pursuant to our data requests, a pleading schedule shall be established by separate order. It must be emphasized that it is at this stage of the proceeding that the carriers may utilize their data submissions to advocate what changes, if any, should be made to the existing NARUC-FCC Separations Manual. Following analysis of the submissions, the data, comments and replies, the Joint Board will be in a position to determine what additional procedures will be required to conclude its activities in an expeditious manner.

5. Accordingly, it is ordered, That any completed studies required to meet the data requests set forth in paragraph 3, Appendix A and Appendix B shall be submitted on or before February 15, 1978, and any remaining studies shall be submitted by April 1, 1978;

6. It is further ordered, That all parties submitting data set forth in paragraph 3, Appendix A and Appendix B shall file an original and two copies of

all data with the Secretary, Federal Communications Commission and one copy with each of the State Commission members of this Joint Board. Copies of these filings shall be available for public inspection during regular business hours in the Commission's Reference Room at its headquarters at 1919 M Street NW., Washington, D.C.; and

7. It is further ordered, That a notice and comment procedure is instituted into the issue specified in paragraph 4 of this Memorandum Opinion and Order.

WILLIAM J. TRICARICO,
Secretary.

APPENDIX A—ALASKAN DATA REQUESTS

The following specific data are requested from American Telephone and Telegraph Company (AT&T), RCA Alaska Communications, Inc. (RCAA), and Local Operating Companies (LOC's) in Alaska. In addition, companies are requested to submit the same data on a calendar year basis where possible.

PERIOD A—(JANUARY 1, 1973 TO MARCH 28, 1976)

1. Alaska LOC's shall submit:
 - (a) Traffic: (1) Interstate, intrastate, and total toll—originating, terminating, and total, and (2) local exchange.¹
 - (b) Billed originating toll revenues and collect revenues; Interstate, intrastate, total.
 - (c) Revenues and earned rate of return: Interstate toll, intrastate toll, local and total.
2. RCAA shall submit:
 - (a) Traffic: (1) Interstate, intrastate, and total toll—originating, terminating, and total, and (2) local exchange.
 - (b) Toll service revenues (before and after settlement with LOC's): Interstate, intrastate, total.
 - (c) Investment and Revenue Requirements for toll facilities handling traffic between Alaska and the remaining States.
3. AT&T shall submit:
 - (a) Originating, terminating, and total interstate toll traffic. (Lower 48/Alaska; Alaska/lower 48) measured as in 1(a) above.
 - (b) Toll service revenues (before and after settlement with RCAA) from traffic in 3(a) above.
 - (c) Bell systemwide interstate toll service revenues.

PERIOD B—(MARCH 29, 1976 TO JULY 1, 1977)
All parties shall submit data on an annualized basis for this time period in the same format as Period A.

PERIOD C—(JULY 1, 1977 TO JANUARY 1, 1979)
All parties shall submit data on an annualized basis for the periods July 1, 1977 to December 31, 1977, and for January 1, 1978 to January 1, 1979. In the latter case projections should be used when necessary.

PERIOD D—(AFTER JANUARY 1, 1979)
All parties shall submit data on an annualized basis for the calendar years 1979, 1980, 1981. Since traffic and cost projections must necessarily be made, the bases for estimates should be well documented. Parties shall submit the same data requested for Periods A-C. The following specific requests apply to HTC for this Period D.

¹Measured by annual number of messages and hundred-call-seconds (ccs).

necessarily be made, the bases for estimates should be well documented. Parties shall submit the same data requested for Periods A-C. The following specific requests apply to the LOC's and RCAA for this period.

1. Revenues, revenue requirements, and earned rate of return—interstate toll, intrastate toll, local and total—based upon: (a) Pre-rate integration settlement ratios (Period A); (b) existing settlement ratios (Period C); and (c) the existing NARUC-FCC Separations Methodology.

2. A study showing the effects of (a) pre-rate integration settlement ratios; (b) existing settlement ratios; and (c) settlements based upon separations studies—upon the rates charged for local service and intrastate toll service.

APPENDIX B—HAWAIIAN DATA REQUESTS

The following data submissions shall be made by American Telephone and Telegraph Co. (AT&T) and Hawaiian Telephone Co. (HTC).

PERIOD A—(JANUARY 1, 1973 TO MARCH 28, 1976)

- Data shall be submitted for calendar years 1973, 1974, 1975 and calendar year 1976.
1. HTC shall submit:
 - (a) Traffic: (1) Interstate, intrastate, and total toll—originating, terminating, and total, and (2) local exchange.¹
 - (b) Billed originating toll revenues and collect revenues: Interstate, intrastate, total.
 - (c) Revenues and earned rate of return: Interstate toll, intrastate toll, local total.
 - (d) Investment and Revenue requirements for toll facilities handling traffic between Hawaii and continental United States.
 2. AT&T shall submit:
 - (a) Originating, terminating, and total interstate toll traffic—Mainland/Hawaii/Hawaii/Mainland—measured as in 1(a) above.
 - (b) Toll service revenues (before and after settlement) from traffic in 2(a) above.
 - (c) Bell systemwide interstate toll service revenues.
 - (d) Investment and Revenue requirements for toll facilities handling traffic between the mainland and Hawaii.

PERIOD B—(MARCH 29, 1976 TO JULY 1, 1977)

All parties shall submit data on an annualized basis for this time period. The Step I settlement ratio should be used for toll service revenue computations.

PERIOD C—(JULY 1, 1977 TO JANUARY 1, 1979)

All parties shall submit data on an annualized basis for the periods July 1, 1977 to December 31, 1977, and for January 1, 1978 to January 1, 1979. In the latter case projections should be used when necessary. The Step 2 settlement ratio should be used for toll service revenue computations.

PERIOD D—(AFTER 1979)

All parties shall submit on an annualized basis for the calendar years 1979, 1980, 1981. Since traffic, and cost projections must necessarily be made, the bases for estimates should be well documented. Parties shall submit the same data requested for Periods A-C. The following specific requests apply to HTC for this Period D.

1. Revenues, revenue requirements, and earned rate of return—interstate toll, intrastate toll, local and total—based upon: (a) Pre-rate integration settlement ratios (Period A); (b) existing settlement ratios (Period C); and (c) the existing NARUC-FCC Separations Manual (HTC only).

¹As measured by annual number of message and hundred-call-seconds (CCS).

state toll, local, and total—based upon: (a) Pre-rate integration settlement ratios (Period A); (b) existing settlement ratios (Period C); and (c) the existing NARUC-FCC Separations Manual (HTC only).

2. A study showing the effects of: (a) Pre-rate integration settlement ratios; (b) existing settlement ratios; and (c) settlements based upon separations studies—upon the rates charged for intrastate toll and local service.

In addition to the above, Hawaiian Telephone shall prepare and furnish the following studies showing the effects on it of applying the Separations plans utilized by the United States Independent Telephone Association (USITA) in its report on Results of Telephone Separations and Settlements Analysis, September 1976. These studies should be based upon the 1976 level of business and projected 1979 level.

- Case 1—Present NARUC separations procedures with Hawaiian Adjustments (Hawaiian Plan II).
- Case 2—Present NARUC-FCC separations procedures plus all local COE assigned on Ozark SPF.
- Case 3—Hawaiian Plan II plus all local COE assigned on Ozark SPF.
- Case 4—California plan.
- Case 5—Modified California plan; traffic sensitive local COE assigned on DEM.
- Case 6—New York Plan.
- Case 7—Modified New York Plan.
- Case 8—Subscriber plant assigned one-third (1/3) exchange, one-third (1/3) State toll and one-third (1/3) Interstate.
- Case 9—Subscriber plant assigned fifty-fifty (50-50) toll and exchange.
- Case 10—Effect of Case II with \$3 exchange rate credit allocated on rate message minute miles.
- Case 11—Effect of allocating subscriber plant on fifty-fifty (50-50) exchange and toll split.
- Case 12—Effect of excluding subscriber station plant in Case 11.

[BC Docket No. 78-28; FCC 78-62]

DIRECTIONAL AM STATIONS

Proposed Amendment of Rules and Regulations With Respect to Relative Phase Tolerance

AGENCY: Federal Communication Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes a change in the rules to require the relative phases of the antenna currents in the elements of noncritical, directional, AM broadcast antenna arrays be maintained within ± 3 degrees of licensed values. This requirement has been Commission policy for many years in connection with licensing, renewals, transfers, and enforcement.

PROPOSED RULES

DATES: Comments should be received on or before March 14, 1978, and reply comments on or before April 4, 1978.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Stanley Schmulowitz, Broadcast Bureau, 202-632-9660.

SUPPLEMENTARY INFORMATION:

Adopted: January 25, 1978.

Released: February 1, 1978.

By the Commission: Commissioner Washburn absent.

In the matter of amendment of § 73.52 of the Commission's Rules and Regulations with respect to relative phase tolerance for directional AM stations.

1. The Commission herein proposes to amend § 73.52(b) of the rules to require the relative phases of the antenna currents in the elements of noncritical directional AM antenna arrays be maintained within ± 3 degrees of licensed values.¹ For many years it has been Commission policy to require the relative phases of the currents in the antenna elements to be within ± 3 degrees of specified values. However, the Commission's rules do not actually specify the accuracy within which the phases of the currents shall be maintained and only in instances where there are unusually rigid requirements for the protection of other stations does the station license specify the limits within which phase relationships are to be maintained.

2. The Commission's policy in effect establishes a ± 3 degrees tolerance in adjusting and maintaining the phase relationships of the antenna currents. For example, during program tests for new stations or for existing stations making certain modifications to their antenna systems, etc., operation within ± 3 degrees of specified phases must be demonstrated for 30 days and related data submitted to the Commission for this period. If operation within ± 3 degrees cannot be demonstrated, corrective action must be taken followed by another 30 day test period. The Commission also reviews license renewal applications for stations having directional antenna arrays to determine whether such stations are operating with relative phases within ± 3 degrees of specified values, and, if not, license renewal is deferred until corrective action is taken. License transfers are not authorized until excessive phase variations found during renewal or otherwise are corrected. Furthermore, it has been

¹A critical array is one which, for the protection of other stations, has a license-specified phase tolerance more stringent than ± 3 degrees.

Commission policy to issue appropriate notices to licensees bringing to their attention phase indications observed during station inspections which were in excess of 3 degrees from specified values. Finally, whenever changes to the antenna system occur which cause operation at variance from licensed values, including phase variations in excess of ± 3 degrees, it is necessary that special temporary authority (STA) be obtained for such operation pending corrective action or until authority is received to operate with changed parameters.

3. In Docket 18471 (FCC 69-185) adopted February 26, 1969, a rule was proposed to specify phase tolerance as follows:

Stations employing directional antenna systems must maintain the relative phase angles of the antenna currents in the elements of the system within 2 degrees of the values specified in the license or other instrument of authorization.

4. In its Report and Order in the above proceeding (adopted January 10, 1973, 38 FR 1913) there was considerable discussion concerning not only the appropriateness of a tolerance but also what the tolerance should be. Some commenting parties stated that changes in phase monitor indications may reflect not only actual changes in phase but also changes in the phase sampling system as well as the phase monitor. In its discussion the Commission stated:

In the light of the comments received, we will not now adopt a rule specifying a fixed permissible a fixed permissible phase deviation for stations with directional arrays. We think that phase tolerances ultimately should be set by the Commission * * *

The Commission further stated:

* * * The establishment by rule of a fixed tolerance for phase variations for all stations with directional antennas, with suitable provision for excessive deviations because of weather and other adverse conditions, is desirable in insuring that antennas do not drift out of adjustment because of aging or defective components, or are not misadjusted by station operators. Such a requirement would be fully consistent with the long standing Commission rule requiring the maintenance of current ratios within 5 percent of the values specified in the station license. If this approach were adopted, we think a tolerance of ± 3 degrees might be appropriate. Not only is the effect of a deviation of this amount approximately equivalent to a variation in current ratio of 5 percent, but it would appear, in the light of the comments, that under normal weather conditions reasonably stable directional antennas can operate within such a tolerance without frequent readjustments.

5. During the interval since the above proceeding was terminated, there have been two significant developments which affect the Commission's conclusions made in Docket 18471. First, as a result of another rule proposed and adopted in Docket 18471,

all stations utilizing directional arrays have been required to be equipped with a type approved antenna monitor since June 1, 1977. Additionally, as a result of action taken under Docket No. 19692 (see Report and Order adopted February 4, 1976, FCC 76-101, 41 FR 7399) Rules were promulgated which established requirements for the installation of sampling systems for antenna phase monitors. These rules which are set forth in § 73.68 of the rules state:

* * * After March 18, 1976, each new station issued a construction permit, each existing station issued a construction permit authorizing tower construction, and any existing station undertaking modification or reconstruction of its sampling system shall install a system meeting these requirements * * *

The rule further states:

In an instance where the sampling system of an existing station authorized before this date is patently of marginal construction, or where the performance of a directional antenna is found to be unsatisfactory, and this deficiency reasonably may be attributed, in whole or in part, to inadequacies in the antenna monitoring system, the Commission may require the reconstruction of the sampling system in accordance with these requirements.

6. In consideration of the developments discussed above, it is now evident that the arguments advanced in Docket No. 18471 for postponing the inclusion of a phase tolerance into the rules are no longer valid. As previously discussed, for several years it has been Commission policy for licensing purposes to require phases to be held within ± 3 degrees of the specified relative phases. Section 73.93(e) of the Commission's Rules pertaining to operator requirements alludes to a phase tolerance. As revealed in paragraph four above, the appropriateness of ± 3 degrees phase tolerance was thoroughly discussed in Docket No. 18471. Further mention of ± 3 degrees phase tolerance is made in the Report and Order in Docket No. 19692 wherein the Commission stated:

Generally, for stations not required by their authorizations to hold phase and current variations within restricted and specified limits, we believe that the decision as to whether to limit the differences in the relative length of sampling lines may be approached on the following basis. For the average array, the relative phases should be held ± 3 degrees approximately equivalent to a $\pm 5\%$ variation in current ratio which is a tolerance specified in our rules (§ 73.52(b)) * * *

7. Since Commission policy and the record previously established in the proceedings discussed herein above make clear the appropriateness of a ± 3 degree phase tolerance, it is proposed that § 73.52(b) of the Rules be amended as shown below. In proposing the ± 3 degree tolerance, we recognize that those stations which have not yet

installed sampling systems complying with subparagraphs 1 and 2 of § 73.68(a) of the Rules may suffer short term variations in phase, attributable to the sampling system, which exceed 3 degrees as a result of heavy rain, snow, icing, or abrupt and substantial changes in temperature. However, the Commission would review such variations critically and if deemed excessive or long term, the Commission could on a case-by-case basis require reconstruction of the sampling system in accordance with the requirements of that rule section.

8. Accordingly, pursuant to authority found in sections 1, 4 (i) and (o) and 303 (j) and (r) of the Communications Act of 1934, as amended, it is proposed to amend § 73.52(b) as set forth below.

9. Pursuant to applicable procedures set forth in section 1.415 of the Commission's Rules, interested persons

may file comments on or before March 14, 1978, and reply comments on or before April 4, 1978. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding.

10. In accordance with the provisions of section 1.419 of the Rules, an original and 5 copies of all comments, replies, pleadings, briefs, and other documents shall be furnished the Commission. All filings made in this proceeding will be made available for examination by interested persons during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C. 20554.

FEDERAL COMMUNICATIONS
COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

In § 73.52, the headnote and paragraph (b) are amended to read as follows:

§ 73.52 Maintenance of antenna input power and directional antenna parameters.

(a) * * *

(b) In addition to maintaining antenna input power within the above limitations, each station employing a directional antenna shall maintain the indicated relative amplitudes of the antenna base currents and antenna monitor currents for the elements of the array within 5 percent and the indicated relative phase of the antenna currents within 3 degrees of the values specified in its license or other instrument of authorization, unless more stringent limits are specified therein.

ADVISORY COMMITTEE ON FEDERAL PAY

CONTINUATION OF COMMITTEE

Public Inquiry

This is to request any expressions from the public as to the desirability of continuation of the Advisory Committee on Federal Pay.

The Advisory Committee on Federal Pay was established by the Federal Pay Comparability Act of 1970. It consists of three experts on pay and labor relations who are Federal employees only for the time that they serve on this Committee. The Committee serves as an independent third party in advising the President on salary adjustments for Federal white-collar employees. In making its recommendations on pay increases for these Federal employees, the Committee considers pay in the private sector, the views of Federal employee organizations, government officials and pay experts.

Any comments should be sent in writing to the Advisory Committee on Federal Pay, Suite 205, 1730 K Street NW., Washington, D.C. 20006, by February 24. Any such communications will be incorporated in the report that the Advisory Committee makes to the Administrator of GSA.

JEROME M. ROSOW,
Chairman.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

SPECIFIC APPROVAL OF STOCKYARDS AND SLAUGHTERING ESTABLISHMENTS

The regulations in 9 CFR Part 78, as amended, contain restrictions on the interstate movement of cattle, other domestic animals, and bison to prevent the spread of brucellosis. This document lists certain stockyards and slaughtering establishments as specifically approved for purposes of the regulations, on the basis of a determination of their eligibility for such approval under § 78.25(b) of the regulations.

Pursuant to § 78.25(b) of the regulations (9 CFR 78.25(b)) under provisions of the Act of May 29, 1884, the

Act of February 2, 1903, and the Act of March 3, 1905, and amendments thereof, and the Act of July 2, 1962 (secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; sec. 3, 33 Stat. 1265, as amended; sec. 2, 65 Stat. 693; and secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111-113, 114a-1, 115, 117, 120, 121, 125, 134b, 134f) and delegations of authority thereunder (37 FR 28464, 28477; 38 FR 19141), notice is hereby given that the following stockyards and slaughtering establishments are specifically approved under said regulations as indicated below:

SPECIFICALLY APPROVED SLAUGHTERING ESTABLISHMENTS

The following slaughtering establishments preceded by an asterisk are specifically approved for the purposes of §§ 78.7, 78.8, and 78.12a, of Title 9, Code of Federal Regulations, concerning brucellosis reactors, exposed cattle and cattle from quarantined areas, and for the purposes of § 78.11 of said Title 9, concerning cattle from herds of unknown status. The following slaughtering establishments not preceded by an asterisk are specifically approved for the purposes of § 78.11 only:

Effective date. The foregoing notice shall become effective February 3, 1978.

This action imposes certain restrictions necessary to prevent the spread of brucellosis and relieves certain restrictions presently imposed. The action should be made effective promptly in order to accomplish its purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. Therefore, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to this action are impracticable, unnecessary and contrary to the public interest, and good cause is found for making this action effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C. this 25th day of January 1978.

NOTE.—The Animal and Plant Health Inspection Service has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

E. A. SCHILF,
 Acting Deputy Administrator,
 Veterinary Services.

Aiken v. USDA

Implementation of Court Order

As a result of a court order issued in *Aiken v. USDA*, a telegram was sent to all State agencies on December 1, 1977, directing them to disregard Section 2313 of the Food Stamp Certification Handbook (FNS(FS) Instruction 732-1) insofar as it requires a collateral contact for certification pending verification and insofar as it limits the use of the certification pending verification procedure to one time during a six month period. The order also requires that USDA publish the text of the telegram in the FEDERAL REGISTER. In compliance with this order, and to assure that this information is available to all participating households and other affected persons, the text of the telegram sent to all State agencies is printed below.

Dated: January 27, 1978.

CAROL TUCKER FOFEMAN,
 Assistant Secretary.

Rural Electrification Administration

CHUGACH ELECTRIC ASSOCIATION, INC.,
ANCHORAGE, ALASKA

Final Environmental Impact Statement

Notice is hereby given that the Rural Electrification Administration has prepared a Final Environmental Impact Statement in accordance with Section 102(2)(C) of the National Environmental Policy Act of 1969 in connection with a request for financing from Chugach Electric Association, Inc., P.O. Box 3518, Anchorage, Alaska 99501. The statement covers a 67.8 MW simple cycle combustion turbine generating unit at Beluga, Alaska, one 60 MW steam turbine unit at Beluga along with waste heat boilers, an 18 MW gas turbine at Bernice Lake, a double circuit 230 kV line between Reed and the Chugach University Station, a 230 kV line between Point MacKenzie and Mule Creek, a 230 kV underwater cable across Knik Arm, a 230 kV line from Six Mile Creek to Junction, re-insulation of 138 kV transmission line to 230 kV between Point MacKenzie and Teeland, re-insulation of two parallel lines 44 miles long from 138 kV to 230 kV between Beluga and Point MacKenzie, removal of 26.5 miles of 115 kV line belonging to the Alaska Power Administration, and associated substations and switching facilities.

Additional information may be secured on request, submitted to Mr. Richard F. Richter, Assistant Administrator, Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250. The final Environmental Impact Statement may be examined during regular business hours at the offices of REA in the South Agriculture Building, 12th Street and Independence Avenue SW., Washington, D.C., Room 4310 or at the borrower's address indicated above. Final action may be taken with respect to this matter after March 6, 1978.

Final REA action with respect to this matter (including any release of funds) will be taken only after REA has reached satisfactory conclusions with respect to its environmental effects and after procedural requirements set forth in the National Environmental Policy Act of 1969 have been met.

Dated at Washington, D.C., this 26th day of January, 1978.

DAVID A. HAMIL,
Administrator, Rural
Electrification Administration.

NOTICES

[3410-34]

Office of the Secretary

TERMINATION OF THE DECLARATION OF
EMERGENCY BECAUSE OF THE SPREAD OF
HOG CHOLERA IN THE UNITED STATES

Whereas, on October 11, 1972, the Secretary of Agriculture did declare that the disease known as hog cholera existed in the United States constituting a real danger to producers, shippers, slaughterers, and others concerned with the livestock industry and to the National economy, and

Whereas, the Secretary of Agriculture did declare that an emergency existed and authorized the transfer of funds from other Agencies and Corporations of the Department to control and eradicate the disease wherever found, and

Whereas, the Department of Agriculture independently and in cooperation with States and political subdivisions thereof, along with farmers' associations, and similar organizations and individuals, did pursue a program to control and eradicate hog cholera in the United States, and

Whereas, there has not been a hog cholera outbreak in the United States since August 1, 1976,

Now, therefore, I hereby declare the emergency because of the spread of hog cholera terminated and further proclaim that the United States is now hog cholera free.

BOB BERGLAND,
Secretary of Agriculture.

JANUARY 31, 1978.

Grant of Authority to Make Noncareer
Executive Assignment

Under authority of § 9.20 of Civil Service Rule IX (5 CFR 9.20), the Civil Service Commission authorizes the United States Information Agency to fill by noncareer executive assignment in the excepted service the position of General Counsel.

For the United States Civil Service Commission.

JAMES C. SPRY,
Executive Assistant
to the Commissioners.

(File No. 23(72)-8)

HANS-JURGEN FILTER ET AL.

Order Conditionally Restoring Export
Privileges

In the matter of Hans-Jurgen Filter, Schollenhaldenstrasse 20, D-7100 Heilbronn; Petitioner; Peter Lorenz et al., Respondents.

Hans-Jurgen Filter, together with Peter Lorenz and affiliated companies, were denied all export privileges until May 31, 1990. 40 FR 29314 (July 11, 1975), 42 FR 10331 (Feb. 22, 1977). Filter petitioned for restoration of export privileges.

The Hearing Commissioner considered the petition for restoration. He remarked concerning the record evidence and the report by the director, Compliance Division, showing that petitioner-respondent fully cooperated with the government of the Federal Republic of Germany in its investigations and efforts to terminate unlawful export traffic with the U.S.S.R., that petitioner is now employed in a position where breach of the export regulation is most unlikely, that he has observed the terms and conditions of the 1975 denial order and is not now suspect. He is of the opinion that petitioner can be expected to faithfully observe all regulations if export privileges are extended to him. The Commissioner recommended restoration of export privileges subject to a reasonable period of probation.

I have considered the report and recommendations of the Commissioner. I find that restoration to export privileges subject to a period of probation is consistent with the purposes of the Export Administration Act of 1969, as amended, and the regulations issued thereunder, 15 CFR 368 et seq. Accordingly, it is ordered:

Respondent, Hans-Jurgen Filter, is restored to all U.S. export privileges subject, however, to a period of probation which shall extend to and expire on May 31, 1982. The terms of probation are that respondent shall faithfully comply with all U.S. export laws and regulations failing in which the Director, with or without prior notice, may revoke the probation and deny all export privileges for such period as is deemed appropriate.

This Order is effective immediately; it does not relieve Peter Lorenz et al. from the Denial Orders cited above.

Dated: January 27, 1978.

RAUER H. MEYER,
Director, Office of
Export Administration.

INTERNATIONAL FERTILITY RESEARCH
PROGRAMNotice of Decision on Application for Duty-Free
Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 77-00389. Applicant: International Fertility Research Program, Highway 54, Research Triangle park, N.C. 27709. Article: Tubal Ligation Applicators and Ligation Clips. Manufacturer: Gerhard HUG GmbH, West Germany. Intended use of article: The article is intended to be used for testing to determine extent of tubal occlusion, side effects including tissue rejection, change in menstrual patterns and pain and, most importantly efficacy in preventing pregnancy. In particular emphasis will be placed on comparison of mechanical (i.e., noncautery) methods of ligation including tubal rings and clips. The objectives of the studies are to show procedure complications such as immediate pain and post operative pain, ease of application on interval and post-partum patients, instrument dependability, blood loss, bowel injury, and instrument related morbidity and long term complications such as pregnancy, change in the menstrual patterns, other gynecological problems, or tissue reaction/rejection.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The applicant's use is in clinical research tests of several tubal ligation devices and procedures for ef-

fectiveness and safety. This type of study requires the specific design and construction of the article without the use of metal. The Department of Health, Education, and Welfare advises in its memorandum dated December 12, 1977 that (1) the specific design and construction of the article without the use of metal are pertinent to the applicant's intended purposes and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's planned comparative trials.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

[3510-25]

MASSACHUSETTS INSTITUTE OF TECHNOLOGY
Notice of Decision on Application for duty-free
entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Ave. NW., Washington, D.C. 20230.

Docket No. 77-00352. Applicant: Massachusetts Institute of Technology, 77 Massachusetts Avenue, Cambridge, Mass. 02139. Article: IMS-3F Ion Microprobe. Manufacturer: Cameca Instruments, France. Intended use of article: The article will be used to determine the trace element concentrations and isotopic ratios on small (1-10 μ) sample areas of natural minerals and ores and synthetic laboratory minerals. Experiments will be conducted to obtain an understanding of the processes governing geochemical distribution of the elements in terrestrial and lunar materials. In particular, the article will be used (a) to study the fine-scale (micron) distribution of trace elements (<10ppm) between coexisting phases (minerals), in natural and laboratory samples, and (b) fine scaled variations in isotopic ratio caused either by fractionation or radiogenic

processes. The article will also be used by graduate students doing Ph.D. thesis studies.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides a high (5000) mass resolution and the capability for direct-ion-imaging. The most closely comparable domestic instrument is the ion microprobe analyzer manufactured by Applied Research Laboratories (ARL). The domestic instrument does not provide the high (5000) mass resolution and the capability for direct-ion-imaging. The National Bureau of Standards advises in its memorandum dated December 19, 1977 that (1) both features of the article described above are pertinent to the applicant's intended uses and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended purposes.

We, therefore, find that the ion microprobe analyzer manufactured by ARL is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Con-

NOTICES

stitution Avenue NW., Washington, D.C. 20230.

Docket No. 78-00039. Applicant: MIT-Lincoln Laboratory, 244 Wood Street, Lexington, Mass. 02173. Article: Type CO.10.1 Carcinotron (Backward-Wave Oscillator) w/275 to 290 GHz Tuning Range and 100 MV Output. Manufacturer: Thomson CSF, France. Intended use of article: The article is intended to be used as a component of a submillimeter heterodyne radiometer being used for the purpose of carrying out laboratory demonstrations of the feasibility of observing rocket plumes at high altitudes.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides a 270 to 290 gigahertz frequency range. The National Bureau of Standards (NBS) advises in its memorandum dated January 8, 1978 that (1) the capability of the article described above is pertinent to the applicant's research purposes and (2) it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

MEMORIAL HOSPITAL, PAWTUCKET, R.I., ET
ALNotice of Consolidated Decision on Applica-
tions for Duty Free Entry of Electron Micro-
scopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301). (See especially Section 301.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review between 8:30 a.m. and 5

NOTICES

p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 78-00005. Applicant: The Memorial Hospital, Prospect Street, Pawtucket, R.I. 02860. Article: Electron Microscope, Model HS-9 and accessories. Manufacturer: Perkin-Elmer, Japan. Intended use of article: The article is intended to be used in a study of the attachment of virus particles to specific site locations on the surface of cells. The majority of the work will be done with shadow casted replicas coupled with the examination of negatively stained materials. Application received by Commissioner of Customs: October 5, 1977. Article ordered: March 31, 1977.

Docket No. 78-00011. Applicant: The University of Texas System Cancer Center, M.D. Anderson Hosp. & Tumor Inst., Science Park, Research Div., Buescher State Park, P.O. Box 418, Smithville, Tex. 78957. Article: Electron Microscope, Model EM 201, Plate Camera and Accessories. Manufacturer: Philips Electronics Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used in research directed toward identification of environmental carcinogens and elucidation of their mode of action at both the molecular and cellular levels. Some of the projects are as follows:

- (1) Cellular selection and its relationship to histopathological changes observed during carcinogenesis.
- (2) Metabolic alterations induced by chemical carcinogens.
- (3) Alterations in plasma membrane structure, dynamics and antigenic properties during carcinogenesis.
- (4) Virus-chemical carcinogen interactions.
- (5) Carcinogen-DNA interactions.
- (6) Detection of chemical carcinogen induced chromosome damage.
- (7) Changes in cell-to-cell association during carcinogenesis.
- (8) Toxic effects of chemical carcinogens.

In addition, the article will be used in the following routine applications: (1) Screening of cell cultures for contamination by mycoplasma; (2) determining the epithelial or mesenchymal origin of primary cell cultures; (3) assessment of cellular integrity following dispersion of solid tissues by enzymatic digestion; and (4) evaluation of the purity of preparations of subcellular organelles. Application received by Commissioner of Customs: October 12, 1977.

Docket No. 78-00014. Applicant: University of Arizona, College of Agriculture, Building No. 36, Tucson, Ariz. 85721. Article: Electron Microscope, Model H-500 including Dessicator Kit and Anti-contamination Device. Manufacturer: Hitachi, Japan. Intended use of article: The article is intended to be used for the study of nematode ultra-

structure and development, the cytochemical localization of enzymes in plant and animal pathogens, taxonomic and structural studies of plant viruses and the influence of herbicides on microtubule and membrane formation in plants. Other uses include meat tenderization studies and collagen state in meat products. In addition, the article will be used in training graduate students in its use when this expertise will benefit their research program. The article will also be used in two courses in electron microscopy; one dealing with the techniques of electron microscopy and the other with pathological ultrastructure of plants and animals. Application received by Commissioner of Customs: October 12, 1977.

Docket No. 78-00022. Applicant: University of Illinois, Center for Electron Microscopy, 99 Bevier Hall, Urbana, Ill. 61801. Article: Electron Microscope, Model H-300 and Accessories. Manufacturer: Hitachi, Japan. Intended use of article: The article is intended to be used in research on the temperature sensitive mutants of Murine Leukemia Viruses, electron microscopic analysis of plasmids by a modification of the Klineschmidt technique and examination of freeze fracture replicas of colon chloroplasts in the intestine of notobiotic animals. The article will also be used as the primary teaching instrument in the advanced graduate level course "Transmission Electron Microscopy Laboratory, Biology/Chemistry 429." Application received by Commissioner of Customs: October 20, 1977. Article ordered: June 15, 1977.

Docket No. 78-00030. Applicant: The Medical College of Pennsylvania, 3300 Henry Avenue, Philadelphia, Pa. 19129. Article: Electron Microscope, Model JEM-100S. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for the study of developing and regenerating brain and virus-infected cells. The ultrastructural changes of neurons during development and the ultrastructure modifications of single cells infected with virus will be studied. Experimental modifications of the developing and mature brain and drug treatments of virus-infected cells will be followed by study of the brain and cells with the article. The article will also be used to train graduate and medical students in the use of the electron microscope in the course "Anatomical Techniques in Biological Research." Application received by Commissioner of Customs: October 28, 1977.

Docket No. 78-00032. Applicant: University of Kentucky—Tobacco & Health Research Institute, Lexington, Ky. 40506. Article: Electron Microscope, Model EM 400. Manufacturer:

Philips Electronics Instrument NVD, The Netherlands. Intended use of article: The article is intended to be used for studies of the ultrastructural aspects of the pathology of pulmonary tissues and for high resolution analysis of the ultrastructure of mitochondria and other cell organelles. Application received by Commissioner of Customs: October 31, 1977. Article ordered: August 26, 1977.

Docket No. 78-00033. Applicant: Mercy Hospital and Medical Center, 4077 Fifth Avenue, San Diego, Calif. 92103. Article: Electron Microscope, Model Corinth 500 and Accessories. Manufacturer: AEI Scientific Instruments, Ltd., United Kingdom. Intended use of article: The article is intended to be used to examine human tissues as they relate to diagnostic electron microscopy. These will include a wide variety of neoplasms, liver, renal and muscle tissues. In addition, the instrument will be used to identify viral particles or inclusions from tissues or from tissue scrapings and exudates. Primarily, the properties of the tissues to be examined are those of normal and abnormal human cells, and extracellular material (usually products of cells). Ultrastructural features of cells in disease or neoplastic states in comparison to their normal state will be examined. The article will also be integrated in the pathology resident training program providing residents with an indepth knowledge of ultrastructural pathology in relation to diseases in general and diagnostic electron microscopy. Application received by Commissioner of Customs: October 31, 1977. Article ordered: October 12, 1977.

Comments: No comments have been received with respect to any of the foregoing applications.

Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles for such purposes as these articles are intended to be used, was being manufactured in the United States at the time the articles were ordered.

Reasons: Each foreign article to which the foregoing applications relate is a conventional transmission electron microscope (CTEM). The description of the intended research and/or educational use of each article establishes the fact that a comparable CTEM is pertinent to the purposes for which each is intended to be used. We know of no CTEM which was being manufactured in the United States either at the time of order of each article described above or at the time of receipt of application by the U.S. Customs Service.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are in-

tended to be used, which was being manufactured in the United States either at the time of order or at the time of receipt of application by the U.S. Customs Service.

NATIONAL RADIO ASTRONOMY
OBSERVATORYNotice of Decision on Application for Duty-Free
Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 77-00395. Applicant: National Radio Astronomy Observatory Associated Universities, Inc., 2010 N. Forbes Blvd., Suite 100, Tucson, Ariz. 85705. Article: Repair of Klystron VRT-2124B6 SN70032. Manufacturer: Varian Associates of Canada Ltd., Canada. Intended use of article: The article is intended to be used as a phase-locked local oscillator in a millimeter wave radio astronomy receiver used in conjunction with a microwave antenna to measure the intensity, polarization frequency and direction of cosmic radiation.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides a frequency in the range between 140-170 gigahertz. The National Bureau of Standard (NBS) advises in its memorandum dated December 27, 1977 that (1) the capability of the article described above is pertinent to the applicant's research purposes and (2) it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or appa-

ratus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

UNIVERSITY OF CHICAGO—ARGONNE

Notice of Decision on Application for Duty-Free
Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 78-00002. Applicant: University of Chicago, Operator of Argonne National Laboratory, 9700 South Cass Avenue, Argonne, Ill. 60439. Article: Carcinotron, Model CO4OB (Millimeter Backward Wave Oscillator). Manufacturer: Thomson-CSF, France. Intended use of article: The article is intended to be used in proton polarized target (PPT) facilities which are used to conduct high energy physics (HEP) research on the scattering produced by high energy K's and 0 etc., on a proton polarized target, i.e., material which has a large fraction of its protons pointing in the same direction. HEP experiments to be conducted will include the measurement of A and R and the scattering amplitudes and phases of weak resonances.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides a 68.85 to 71.00 gigahertz frequency range. The National Bureau of Standards (NBS) advises in its memorandum dated December 9, 1977 that (1) the capability of the article described above is pertinent to the applicant's research purposes and (2) it knows of no domestic instrument of

equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

WASHINGTON UNIVERSITY SCHOOL OF
MEDICINE, ET ALNotice of Applications for Duty Free Entry of
Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Statutory Import Programs Staff, Bureau of Trade Regulation, U.S. Department of Commerce, Washington, D.C. 20230, on or before February 23, 1978.

Regulations (15 CFR 301.9) issued under the cited Act prescribe the requirements for comments.

A copy of each application is on file, and may be examined between 8:30 a.m. and 5 p.m., Monday through Friday, in Room 6886C of the Department of Commerce Building, 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 78-00059. Applicant: Washington University—School of Medicine, 660 S. Euclid Avenue, St. Louis, Mo. 63110. Article: LKB 2128-010 Ultratome IV Ultramicrotome and Accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to section cells, tissues, and virus obtained from biopsy and autopsy of animals and humans and tissue cultures used in research of the cancer process. The experiments to be conducted will be quite varied; i.e., the role of various types of viral particles in oncogenesis, the cell-cell contact inhibition phenomenon, examination of tumor tissues, both biopsies and autopsies.

sy, for viral particles, general ultrastructural effects on a cell by various viral and other carcinogenic agents. The experiments will also include cytochemical and immunochemical studies to localize specific enzymatic and immunologic sites during the cancer process. The article will also be used for training faculty and graduate students. Application received by Commissioner of Customs: January 4, 1978.

Docket No. 78-00060. Applicant: Chemical Industry Institute of Toxicology, 3800 Electronics Drive, Raleigh, N.C. 27604. Article: LKB 2250-041/PMV Cryo Microtome, Type 450 MP and Accessories. Manufacturer: PMV, Palmstiernas Mekaniska Verkstad AB, Sweden. Intended use of article: The article is intended to be used for investigations of autoradiographic drug and chemical distribution of whole animals as well as fetal distribution of teratogenic compounds; histochemical studies of hormone and enzyme localization in cells and tissues of large specimens; metabolism studies of drugs and toxic or carcinogenic environmental agents; gross morphology and light microscopy examination of whole human organs and animals to measure tumor metastasis. Application received by Commissioner of Customs: January 4, 1978.

Docket No. 78-00084. Applicant: Albert Einstein College of Medicine of Yeshiva University/Kennedy Ctr. (502), 1410 Pelham Parkway, Bronx, N.Y. 10461. Article: JEM-100CX/SEG Electron Microscope, accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used to examine surgically removed portions of the peripheral (PNS) and central nervous system (CNS) of experimental animals, as well as neural tissue cultures, intoxicated with a variety of chemicals and environmental pollutants (e.g., As and Pb). The objectives pursued in these scientific investigations include the definitive identification of specific ultrastructural changes brought about in vital cellular components of the PNS and CNS as a consequence of exposure to various neurotoxic agents. Another objective to be pursued involves localization and determination of the relative concentration of some of these agents in such altered neural tissues by energy dispersive x-ray microanalysis and related electron energy loss modalities. Application received by Commissioner of Customs: January 4, 1978.

Docket No. 78-00085. Applicant: Eye and Ear Institute of Louisiana, 145 Elk Place, New Orleans, La. 70112. Article: LKB 8800A Ultratome III Ultramicrotome with Accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to section animal human

and microbiological materials which have been embedded in hardened epoxy resins. Investigations will include ultrastructural studies on normal and pathologic animal and human tissues, cyto and histochemical studies on viral and subcellular organelle localization in cells and tissues, membrane interactions as host-parasite interfaces, and subcellular changes in cells induced by changes in their biochemical and physical environments. Application received by Commissioner of Customs: January 4, 1978.

Docket No. 78-00086. Applicant: Washington University, Department of Chemistry, St. Louis, Mo. 63130. Article: JNM-FX-100 High Resolution Fourier Transformation Multi-Nuclear Magnetic Resonance Spectrometer System. Manufacturer: JEOL Analytical Instruments Inc., Japan. Intended use of article: The article is intended to be used in conducting the following experiments: (i) routine observation of ¹H and ¹³C spectra, (ii) observation of a wide variety of other nuclei (¹⁹F, ³¹P, ¹⁵N, ³¹P, ¹³C, ¹⁹F, ³¹P, ¹⁵N, for example), (iii) measurement of relaxation parameters (T_1 and T_2) and (iv) special experiments (rapid spinning of solid samples at the "magic angle"). Application received by Commissioner of Customs: January 4, 1978.

Docket No. 78-00087. Applicant: University of Illinois at the Medical Center, Office of Business Affairs, P.O. Box 6998, Chicago, Ill. 60680. Article: Electron Microscope, Model H-300 and Accessories. Manufacturer: Hitachi, Perkin-Elmer, Japan. Intended use of article: The article is intended to be used for a variety of research studies which include the following:

Synaptogenesis in the Trigeminal Mesencephalic Nucleus (Oral Anatomy).
Separation of Neurons and Glia by Density Gradient Centrifugation (Biology Chemistry).
Study of the Fine Structure of Pigment Cells During Development of the Chick Retina, with Emphasis of Differences between Nuclear and Peripheral Retinal Areas. (Anatomy).
Nucleolus and Nuclear Differentiation in the Oral Epithelium of Zink Deficient Rats. (Oral Pathology).
The Ultrastructure of Normal Primate Lung and Lung in Shock (Surgery).
The Ultrastructure of Nuclear Histones in Melanocytes and Melanoma (Surgery).

Neonatal and other Incremental Lines in Human Enamel (Oral Histology).
Study of the Fine Structure of Developing Neuromuscular Junctions in the Chick (Anatomy).
Dentinogenesis in Frog's Teeth (Oral Histology).
The Maturation of Rat Incisor Enamel (Oral Histology).
Fixation of Tissues by Metallizable Chloro-s-triazines (Oral Pathology).

Localization of Salivary Gland Virus Particles in SGV-Sensitive Cell Lines (Oral Pathology).

Search of Virus Particles from Spontaneously Transformed Normal Calvarium derived Tissue Culture Cells to Transplantable Neoplasms in Mice. (Oral Pathology).

Odontoblastic Process in Sclerotic end Formation. (Oral Histology).

DNA Synthesis in the Alloxan Diabetic Kidney (Anatomy).

Chemical and Physical Properties of Feline Leukemia and Sarcoma Virus (Pathology).

Fine Structural Aspects of Ganglion Cell Differentiation of Chick Retina (Anatomy).

In addition, the article will be used for training faculty, students and technical personnel who require EM capability for research. Application received by Commissioner of Customs: January 5, 1978.

Docket No. 78-00088. Applicant: University of Hawaii, Institute of Astronomy, 2680 Woodlawn Drive, Honolulu, Hawaii 96822. Article: Mechanical telescope. Manufacturer: Ingg. De Bartolomeis, Italy. Intended use of article: The article is intended to be used for basic astronomical research in the infrared region of the electromagnetic spectrum. The scientists and advanced students who use the article will obtain observational data which can be used to advance the general understanding of the solar system, stars, galaxies, and the cosmology of the universe. The initial research emphasis will be to conduct investigations of the planet Jupiter by the two Voyager spacecrafts in 1979. In addition, the article will be used part time for the University of Hawaii Physics and Astronomy graduate program. Application received by Commissioner of Customs: January 5, 1978.

Docket No. 78-00089. Applicant: University of California, Santa Barbara, 45517 Central Receiving, Santa Barbara, Calif. 93106. Article: LKB 8800A Ultratome III Ultramicrotome and Accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to section neural tissue, principally tissue specimens from the retinas of a variety of vertebrates and some invertebrates. The experiments to be conducted will include ultrastructural studies on vertebrate photoreceptors and the process of outer segment renewal in mammalian cones; studies on the synaptology of the retina and brain of vertebrates; and some histochemical studies contemplated concerning enzyme localization within the pigment epithelium of the retina. The article will also be used in the training of undergraduate and graduate students in the techniques of light and electron microscopy in the course Biol-

ogy 199 and 596, Independent Studies in the Biological Sciences and Directed Reading and Research. Application received by Commissioner of Customs: January 5, 1978.

Docket No. 78-00090. Applicant: Washington University School of Medicine, Department of Pediatrics, St. Louis Children's Hospital, 500 South Kingshighway, P.O. Box 14871, St. Louis, Mo. 63178. Article: LKB 8800A Ultratome Ultramicrotome and Accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for ultrastructural studies on normal and pathological animal tissues, cyto and histochemical studies on enzyme and subcellular organelle localization in cells and tissues, membrane interactions at host-parasite interfaces, and subcellular changes in cells induced by changes in their biochemical and physical environments. Human biopsy tissue removed at surgery will be examined to identify structural abnormalities useful in diagnosing disease states. The article will also be used in the courses: "Pediatric Neurology Research" and "Pathology Research (Bio 590)" to train students in the use and application of electron microscopy and to use the electron microscope in solving individual research problems. Application received by Commissioner of Customs: January 5, 1978.

WORCESTER POLYTECHNIC INSTITUTE

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5 p.m. in Room 6886C of the Department of Commerce Building, at 14th and Constitution Avenue NW., Washington, D.C. 20230.

Docket No. 77-00318. Applicant: Worcester Polytechnic Institute/Alden Research Laboratory, 30 Shrewsbury Street, Holden, Mass. 01520. Article: Miniature Propeller Flowmeter. Manufacturer: Delft Hy-

draulics Laboratory, Netherlands. Intended use of Article: The article is intended to be used for measurement of current patterns specifically, investigations of spatial and temporal velocity variations of water flow having poor water quality. Typical experiments concern the influence of water currents on sediment transport, thermal plumes, fish behavior, coastal engineering and the design of various types of hydraulic structures. The article will be used by undergraduate students for special projects, thesis, and for research as part of graduates research assistantships.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article has a miniature size propeller (15 millimeter (mm) in diameter with a 50 mm pitch) and also provides 60 pulses per revolution with measurement up to 15 hertz, a calibrated velocity range of 2.5 to 120 centimeter per second (cm/sec), and operation in water with a conductivity ranging from 450 to 20,000 $\times 10^{-4}$ ohms⁻¹ cm⁻¹. The national Bureau of Standards advises in its memorandum dated November 17, 1977 that (1) the combination of specifications of the article described above is pertinent to the applicant's intended purposes and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

Maritime Administration

[Docket No. S-594]

PARTICIPATION BY VESSELS BUILT WITH CDS IN THE CARRIAGE OF ALASKAN OIL IN THE DOMESTIC TRADE

Notice of Application by Gulf Oil Corp.

Notice is hereby given that an application has been filed on behalf of Gulf Oil Corp. (Gulf Oil), owner of the SS

American Independence, for written permission under section 506 of the Merchant Marine Act, 1936, as amended, for the temporary employment of the vessel in the carriage of oil from Valdez, Alaska, to a point off the west coast of Panama.

The *American Independence* is a 265,000 dwt tanker, built with construction-differential subsidy, and is under time charter to Sohio Petroleum Co. (Sohio). Sohio intends to use the vessel in the Alaska-Panama trade for approximately 12 voyages during two six-month periods. The vessel is expected to arrive at Valdez, Alaska, on or about March 16, 1978, to commence Alaska service.

A previous application for the *American Independence* to engage in this service was published in the FEDERAL REGISTER issue of September 8, 1978 (42 FR 45018), in Docket No. S-576. At the request of Gulf Oil, no further action was taken on the application.

Interested parties may inspect Gulf Oil's application in the Office of the Secretary, Maritime Administration, Room 3099-B, Department of Commerce Building, 14th and E Streets NW., Washington, D.C. 20230.

Any person, firm, or corporation who is a "competitor," as defined in § 250.2 of the regulations as set forth in Part 250 of Chapter II, Title 46 of the Code of Federal Regulations published in the FEDERAL REGISTER issue of June 29, 1977 (42 FR 33035), and desires to protest such application should submit such protest in writing, in triplicate, to the Secretary, Maritime Administration, Washington, D.C. 20230. Protests must be received by February 8, 1978. If a protest is received, the applicant will be advised of such protest by telephone or telegram and will be allowed three working days to respond in a manner acceptable to the Assistant Secretary for Maritime Affairs. Within five working days after the due date for the applicant's response, the Assistant Secretary will advise the applicant, as well as those submitting protests of the action taken, with a concise written explanation of such action. If no protest is received concerning the application, the Assistant Secretary will take such action as may be deemed appropriate.

(Catalog of Federal Domestic Assistance Program No. 11.500 Construction-Differential Subsidies (CDS).)

By Order of the Assistant Secretary for Maritime Affairs.

Dated: February 1, 1978.

JAMES S. DAWSON, Jr.,
Secretary.

Travel Service
TRAVEL ADVISORY BOARD
Rescheduled Meeting

On January 23, 1978, notice was given that the Travel Advisory Board would meet on February 24, 1978 (43 FR 3149). Notice is hereby given that the Travel Advisory Board meeting has been rescheduled for March 3, 1978, at 10 a.m., in Room 4830 of the Main Commerce Building, 14th Street and Constitution Avenue NW., Washington, D.C. 20230.

A limited number of seats will be available to observers from the public and the press. The public will be permitted to file written statements with the Committee before or after the meeting. To the extent time is available, the presentation of oral statements will be allowed.

Sue Barbour, Travel Advisory Board Liaison Officer, the U.S. Travel Service, Room 1860, U.S. Department of Commerce, Washington, D.C. 20230, telephone 202-377-4752, will respond to public requests for information about the meeting.

FABIAN CHAVEZ, JR.,
Assistant Secretary for Tourism,
Department of Commerce.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CHANGES IN OFFICIALS OF THE GOVERNMENT OF COLOMBIA AUTHORIZED TO ISSUE EXPORT VISAS AND CERTIFICATIONS FOR EXEMPT TEXTILE PRODUCTS FROM COLOMBIA

JANUARY 31, 1978.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Two new officials of the Government of Colombia have been authorized to issue export visas and certifications for exempt cotton, wool, and man-made fiber textile products from Colombia.

SUMMARY: The Government of Colombia has notified the United States Government that Julia Emma de Buitrago and Martha Cecilia Munoz de Gomez are being added to the previously published list of officials who are authorized to issue export visas and certifications for exemption for cotton, wool and man-made fiber textile products exported to the United States from Colombia (See 42 F.R. 57334). A complete list of Colombian officials currently authorized to issue export visas and exempt certifications accompanies this notice.

EFFECTIVE DATE: January 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Judith L. McConahy, International Trade Specialist, Office of Textiles, U.S. Department of Commerce, Washington, D.C. 20230, 202-377-5423.

SUPPLEMENTARY INFORMATION: On July 26, 1976, a letter to the Commissioner of Customs from the Chairman of the Committee for the Implementation of Textile Agreements was published in the FEDERAL REGISTER (41 F.R. 30707), which established an export visa requirement and certification for exemption of cotton, wool and man-made fiber textile products, produced or manufactured in Colombia, and exported to the United States. One of the requirements is that the visas and certifications for exemption must be signed by an official authorized by the Government of Colombia. The Government of Colombia has requested that two new officials be recognized as authorized to issue export visas and certifications for exemption. The list that follows this notice includes the names of all Colombian officials currently authorized to issue export visas and certifications for exemption of cotton, wool and man-made fiber textile products exported to the United States.

ROBERT E. SHEPHERD,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Domestic Business Development.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1978

Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Addition to procurement list.

SUMMARY: This action adds to Procurement List 1978 a service to be provided by workshops for the blind or other severely handicapped.

EFFECTIVE DATE: February 3, 1978.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Va. 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher, 703-557-1145.

SUPPLEMENTARY INFORMATION: On September 16, 1977, the Committee for Purchase from the Blind and Other Severely Handicapped published a notice (42 FR 46570) of proposed additions to Procurement List 1978, November 14, 1977 (42 FR 59015).

After consideration of the relevant matter presented, the Committee has determined that the service listed below is suitable for procurement by the Federal Government under 41 U.S.C. 46-48(c), 85 Stat. 77.

Accordingly, the following service is hereby added to Procurement List 1978:

SIC 7699, Repair & Maintenance of Electric Typewriters At the following locations:

1. Railroad Retirement Board, 844 North Rush Street, Chicago, Ill.
2. HEW, 300 South Wacker Drive, Chicago, Ill.

E. R. ALLEY, Jr.,
Acting Executive Director.

[3128-01]

DEPARTMENT OF ENERGY

ISSUANCE OF PROPOSED DECISIONS AND ORDERS BY THE OFFICE OF ADMINISTRATIVE REVIEW

January 6 through January 13, 1978

Notice is hereby given that during the period January 6, 1978, through January 13, 1978, the Proposed Decisions and Orders which are summarized below were issued by the Office of Administrative Review of the Economic Regulatory Administration of

the Department of Energy with regard to Applications for Exception which had been filed with that Office.

Amendments to the DOE's procedural regulations, 10 CFR, Part 205, were issued in proposed form on September 14, 1977 (42 FR 47210 (September 20, 1977)), and are currently being implemented on an interim basis. Under the new procedures any person who will be aggrieved by the issuance of the Proposed Decision and Order in final form may file a written Notice of Objection within ten days of service. For purposes of the new procedures, the date of service of notice shall be deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. The new procedures also specify that if a Notice of Objection is not received from any aggrieved party within the time period specified in the regulations, the party will be deemed to consent to the issuance of the Proposed Decision and Order in final form. Any aggrieved party that wishes to contest any finding or conclusion contained in a Proposed Decision and Order must also file a detailed Statement of Objections within 30 days of the date of service of the Proposed Decision and Order. In that Statement of Objections an aggrieved party must specify each issue of fact or law contained in the Proposed Decision and Order which it intends to contest in any further proceeding involving the exception matter.

Copies of the full text of these Proposed Decisions and Orders are available in the Public Docket Room of the Office of Administrative Review, Room B-120, 2000 M Street NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1 p.m. and 5 p.m., e.s.t., except Federal holidays.

Dated: January 25, 1978.

MELVIN GOLDSTEIN,
Director, Office of
Administrative Review.

PROPOSED DECISIONS AND ORDERS

Atlantic Richfield Co., Ventura County, Calif., FEE-4104, crude oil

Atlantic Richfield Co. (Arco) filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit Arco to sell the crude oil which it produces from its offshore lease located on Rincon Island, in Ventura County, Calif., at upper tier ceiling prices. On January 13, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted in Part.

Beacon Oil Co., Hanford, Calif., FEE-4459, crude oil

Beacon Oil Co. filed an Application for Exception from the provisions of 10 CFR 211.62 and 211.67. The exception request, if granted, would permit Beacon to include the crude oil which it blends with fuel oil in its "crude oil runs to stills" for purposes of the Old Oil Entitlements Program. On January 13, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be denied.

Fords Brook, Inc., Allegheny County, N.Y., FEE-4834, crude oil

Fords Brook, Inc. filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit Fords Brook to sell all the crude oil which it produces from the Petre property at exempt prices. On January 13, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be granted.

International Retail Corp., Towson, Md., FEE-4838, motor gasoline

International Retail Corp. filed an Application for Exception from the provisions of 10 CFR 211.9. The exception request, if granted, would assign Mobil Oil Co. as the new base period supplier of motor gasoline to the State of Delaware to replace the Texaco Oil Co. On January 12, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be denied.

Johnson Oil Co., Inc., Battle Creek, Iowa, DOE-0390, propane

Johnson Oil Co., Inc. filed an Application for Exception. The request, if granted,

would relieve Johnson of the requirement that it file Form F315-M-O ("Monthly Survey of Propane Sales Volume to Ultimate Consumers"). On January 13, 1978, the DOE issued a Proposed Decision and Order which determined that the exception request be denied.

McGoldrick Oil Co., Shreveport, La., FEE-4798, crude oil

McGoldrick Oil Co. filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit McGoldrick to sell the crude oil it produces from six properties at upper tier ceiling prices. On January 13, 1978, the DOE issued a Proposed Decision and Order in which it denied the exception request with respect to five properties. However, the DOE determined that exception relief should be granted which permits McGoldrick to sell 100 percent of the crude oil produced for the benefit of the working interest owners from the Mamie West C-1 Unit at upper tier ceiling prices.

M. J. Mitchell, Dallas, Tex., DXE-0360, crude oil

M. J. Mitchell filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would result in the extension of exception relief previously granted to Mitchell and would permit Mitchell to sell certain quantities of the crude oil produced from the Mitchell State Minnelusa Sand Unit at upper tier ceiling prices. On January 13, 1978, the DOE issued a Proposed Decision and Order in which the DOE determined that the exception request be denied.

Stoltz, Wagner and Brown Oil and Gas Producers, Midland, Tex., DEE-0106, crude oil

Stoltz, Wagner and Brown Oil and Gas Producers filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would permit Stoltz to sell the crude oil it produces from the Edna No. 1 Well and the Wanda No. 1 Well at upper tier ceiling prices. On January 13, 1978, the DOE issued a Proposed Decision and Order which determined that the Stoltz request should be granted in part with respect to the Edna No. 1 and the Wanda No. 1 wells.

NOTICES

REQUESTS FOR EXCEPTION RECEIVED FROM NATURAL GAS PROCESSORS

The Office of Administrative Review of the Department of Energy has issued Proposed Decisions and Orders granting exception relief from the provisions of 10 CFR 212.165 to the natural gas processors listed below. The proposed exception relief permits the firms involved to increase the prices of the production of the gas plants listed below to reflect certain non-product cost increases:

ADMINISTRATOR'S TOXIC SUBSTANCES ADVISORY COMMITTEE

Renewal

Pursuant to section 7(a) of the Office of Management and Budget Circular No. A-63, Transmittal Memorandum No. 1, dated July 19, 1974, it is hereby determined that renewal of the Administrator's Toxic Substances Advisory Committee is in the public interest in connection with the performance of duties imposed on the Agency by law. The charter which continues the Administrator's Toxic Substances Advisory Committee through January 25, 1980, unless otherwise sooner terminated, will be filed at the Library of Congress.

DOUGLAS M. COSTLE,
Administrator.

ANNUAL COMPREHENSIVE REVIEW OF EPA ADVISORY COMMITTEES

In the process of conducting the Agency's annual comprehensive review of Federal advisory committees, we are making provisions for open and public participation in the review process to the maximum extent consistent with an expeditious review. Therefore, the purpose of this notice is to seek public advice regarding EPA advisory committees, as listed below:

1. Administrator's Toxic Substances Advisory Committee.
2. Clean Air Scientific Advisory Committee.
3. Effluent Standards and Water Quality Information Advisory Committee.
4. FIFRA Scientific Advisory Panel.

5. Management Advisory Group to the Municipal Construction Division.

6. National Air Pollution Control Techniques Advisory Committee.

7. National Drinking Water Advisory Council.

8. Science Advisory Board.

9. State-Federal FIFRA Implementation Advisory Committee.

10. State-Federal Water Programs Advisory Committee.

In conducting the annual comprehensive review, a determination must be made regarding each committee as to whether: (1) The Agency has a compelling need for it; (2) the Committee's membership is truly balanced; and (3) the Committee has conducted its business as openly as possible consistent with the law and their mandate. In consideration of these three items, we hereby invite comments from interested members of the public on the need for and performance of EPA's advisory committees.

It is requested that individuals wishing to comment should submit their responses by February 17, 1978, to: Mrs. Mary Anne Beatty, Committee Management Officer, U.S. Environmental Protection Agency, Room 405-B Waterside Mall West (PM-213), 401 M Street SW., Washington, D.C. 20460, telephone 202-755-0866.

Dated: January 21, 1978.

ENVIRONMENTAL IMPACT STATEMENTS

Notice of Receipt

Pursuant to the President's Reorganization Plan No. 1, the Environmental Protection Agency is the official recipient for environmental impact statements (EIS) and is required to publish the availability of each EIS received weekly. The following is a list of environmental impact statements received by the Environmental Protection Agency from January 23, 1978, through January 27, 1978. The date of receipt for each statement is noted in the statement summary. Under the Guidelines of the Council on Environmental Quality the minimum period for public review and comment on draft environmental statements is forty-five (45) days from this FEDERAL REGISTER notice of availability (March 20, 1978). The thirty (30) day period for each final statement begins on the day the statement is made available to the Environmental Protection Agency and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies are also available at 10 cents per page from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

ing agency. Back copies are also available at 10 cents per page from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

Dated: January 31, 1978.

PETER L. COOK,
Acting Director,
Office of Federal Activities.

DEPARTMENT OF AGRICULTURE

Contact: Mr. Barry Flamm, Coordinator, Environmental Quality Activities, U.S. Department of Agriculture, room 307A, Washington, D.C. 20250, 202-447-6827.

FOREST SERVICE

Final

Eldorado National Forest, Timber Plan, several counties in California, January 23: Proposed is the implementation of the 10-year Eldorado National Forest Timber Management Plan. The plan summarizes the present timber situation, interprets policy on a local basis, identifies and classifies lands as to suitability for timber production and sets harvest priorities. Timber would be harvested from El Dorado, Amador, Placer, and Alpine Counties, with a feasible average yearly harvest ranging from 174.0 M Cunits to 207.4 M Cunits. Comments made by: USDA, EPA, COE, USDI, State and regional agencies, organizations, groups, and individuals. (ELR Order No. 80068.)

Superior National Forest, Proposed Land Exchange, St. Louis, Cook, and Lake Counties, Minn., January 25: Proposed is a land-for-land exchange of 7,093.72 acres of land held by Lake-Forest Enterprises, Inc., a land agent for Erie Mining Co., for 3,749.58 acres of land in the Superior National Forest, Erie Mining Co. proposes to dam a portion of the Upper Partridge River. The lands proposed for transfer to the National Forest are wild, undeveloped forest lands. The transfer would result in additional lake and river frontage, timber wolf habitat, and consolidation of public lands. Adverse effects include inundation of a forest environment. Comments made by: EPA, COE, USDA, FHWA, DOI, State and local agencies, concerned groups and individuals. (ELR Order No. 80076.)

Breitenbush Area. Geothermal Development, Marion and Linn Counties, Oreg., January 24: The proposed action is the leasing of national forest lands (Willamette and Mt. Hood National Forests) in the area known as the Breitenbush Known Geothermal Resource Area for Development of Geothermal Resources. The Known Geothermal Resource Area and lands covered by lease applications cover a total of 44,283 acres. Development of the lands will be subject to controls designed to minimize adverse impacts on visual, recreational, water, wildlife, soil, timber, and mineral materials resources (342 pages). Comments made by: EPA, DOI, ERDA, DOC, COE, FPC, HEW, HUD, USDA, State and local agencies, groups and individuals. (ELR Order No. 80075.)

SOIL CONSERVATION SERVICE

Final

Kickapoo Nations Watershed Project, Oklahoma and Lincoln Counties, Okla., January 24: Proposed is the implementation of the Kickapoo Nations Watershed Plan in Oklahoma and Lincoln Counties, Okla. The

project provides for flood prevention, municipal water supply, and recreation. The works of improvement include land treatment supplemented by 19 floodwater retarding structures, one flood water retarding—municipal water and recreation structure, and recreational facilities. Construction related impacts will result. Comments made by: DOD, DOC, HEW, DOI, EPA, FPC, State and local agencies. (ELR Order No. 80074.)

DEPARTMENT OF DEFENSE

ARMY CORPS

Contact: Dr. C. Grant Ash, Office of Environmental Policy Department, Attn: DAEN-CWR-P, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, 202-693-6795.

Draft

Small Boat Harbor, Agat, Guam, U.S. Territory, January 25: The Agat Small Boat Harbor Project is a Federal and Territory-planned and funded project to evaluate present and future boating needs of the Island of Guam to develop effective and environmentally acceptable plans for harbor facilities to meet these needs. Six alternative plans were considered. Each alternative should attract islandwide boaters to the Agat Bay Area, encourage greater boat ownership among local residents, enhance recreational boating and sports and semicommercial fishing opportunities, and provide an indirect, long-range stimulus to the local economy. (ELR Order No. 80079.)

Final

Green Bay Harbor, Operation and Maintenance, Green Bay and Brown Counties, Wis., January 24: This statement proposes the continuation of operation and maintenance activities for the Green Bay Harbor in Wisconsin. It is anticipated that 1,200,000 cubic yards of sediment classified as unsuitable for unrestricted disposal by Region V, EPA will be removed during an 8-year period beginning 1978. A confined disposal facility for this dredged material, with an incorporated effluent filter, will be constructed on a 55 acre water site in Green Bay, approximately 800 feet off-shore of Bay Beach Park. Adverse impacts will be increased levels of air pollution and disturbance of wildlife (Chicago District). Comments made by: USDA, DOC, DOI, EPA, State and local agencies, groups, and individuals. (ELR Order No. 80070.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Director, Office of Environmental Quality, Department of Housing and Urban Development, 451 7th Street SW., Washington, D.C. 20410, 202-755-6308.

Draft

Walnut Grove Woods, Memphis, Shelby County, Tenn., January 24: Proposed is a subdivision approximately 900 acres located in East Shelby County, Tenn., along Wolf River east of Memphis City limits. It is proposed to develop the site in single-family, multifamily, commercial, and office uses, in accordance with existing zoning regulations. Adverse impacts include endangered species habitat; increased stormwater runoff; and increased noise levels and air quality. Five families would be displaced (HUD-RO4-EIS-77-17D). (ELR Order No. 80073.)

Countryside Subdivision, League City, Galveston County, Tex., January 24: Proposed is a development of 570 acres into a planned community composed of single-family homes located in Galveston County, Tex. The project is expected to be beneficial in transforming a large tract of land currently farmed into an urban community providing for League City's strong demand for housing. The population growth will inevitably result in the transition of some rural land to urban for approximately 5,800 people. Adverse impacts include increased loading of solid waste disposal sites, increased demand for fossil fuels through heavy dependence upon the automobile for transportation (HUD-RO6-EIS-78-20). (ELR Order No. 80069.)

Draft

Lakemeer Subdivision, Tenn., January 24: Proposed is a residential community on approximately 667 acres located northeast of Memphis, Tenn. Development plans include single-family, multifamily, and commercial land uses. Focal point of the development will be a 35-acre fishing lake surrounded by single-family lots with a 1.5 acre park to provide fishing and picnic areas. Adverse impacts include no endangered species habitat; noise levels and air quality generally remains within acceptable limits (HUD-RO4-EIS-77-16D). (ELR Order No. 80072.)

Pecan Grove Plantation Subdivision, Fort Bend County, Tex., January 27: The proposed action is for the HUD to accept for HUD-PHA Home Mortgage Insurance purposes under section 203(h) of the National Housing Act of 1934. Some 1400 acres of land located in the northeastern portion of Fort Bend County, Tex. It is proposed that this tract of land be developed into a subdivision composed primarily of single-family dwellings, approximately 4,300 units. The overall environmental impact is expected to be beneficial in that a large tract of land would be transformed into a residential subdivision. This project will provide housing for some 17,000 people (HUD-RO6-EIS-78-3D).

Cypress Point Subdivision, Harris County, Tex., January 27: Proposed is the development of 230 acres into a planned community composed of single-family homes with some commercial reserves in Harris County, Tex. The overall environmental impact of this project is expected to be beneficial in that it would transform a large tract of land, the majority of which is lying fallow, into a planned community. This development provides for the living and controlling of a wide range of life accommodations for approximately 3,700 people (HUD-RO6-EIS-78-5D). (ELR Order No. 80084.)

DEPARTMENT OF LABOR

Contact: Mr. David R. Bell, Chief, Office of Environmental and Economic Impact Assessment, Room N-3673, Washington, D.C. 20210, 202-523-7076.

Final

Benzene, Occupational Exposure Standard, January 27: Proposed is the regulation of employee exposure to benzene by setting a permissible exposure limit of 1 part benzene per million parts of air (1 ppm) as an 8-hour time-weighted average. The proposal also provides for employee exposure measurements, methods of compliance, protective clothing and equipment, medical surveillance, training, signs and labels, employ-

ee observation of monitoring, and record-keeping, beneficial impact on the workplace environment is anticipated. Comments made by: DOT, ERDA, HEW, DOL, State and local agencies, groups and individuals. (ELR Order No. 80082.)

NUCLEAR REGULATORY COMMISSION

Contact: Mr. Voss A. Moore, Assistant Director for Environmental Projects, P-518, Washington, D.C. 20555, 301-492-8446.

Draft

Sundesert Nuclear Plant Units 1 and 2, Riverside County, Calif., January 27: This DEIS was prepared by the Nuclear Regulatory Commission, and the Department of the Interior. Proposed is the issuance of a construction permit to San Diego Gas & Electric Co. for construction of the Sundesert Nuclear Plants Units 1 and 2. The plant is located in Riverside County, Calif.; approximately 8.9 km (5.5 miles) west of the Colorado River and 25.7 km (15.9 miles) southwest of Blythe, Calif., and will employ two pressurized-water reactors (PWR's) to produce up to 2,785 megawatts thermal (MWT) for each unit (NUREG-0405). (ELR Order No. 80081.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, U.S. Department of Transportation, 400 7th Street SW., Washington, D.C. 20590, 202-426-4357.

FEDERAL AVIATION ADMINISTRATION

Draft

Development Projects, Lihue Airport, Kauai County, Hawaii, January 25: Lihue Airport is located in the southeastern coast of the Island of Kauai, Kauai County, Hawaii, approximately 2 miles east of the town of Lihue. The basic objectives of the expansion development are to reduce the impact of aircraft operations on schools and residential areas to the south of the airport and to provide a highly desired precision instrument approach capability. (ELR Order No. 80078.)

FEDERAL HIGHWAY ADMINISTRATION

Draft

TN-1, McMinnville to Sparta, Warren, Van Buren, and White Counties, Tenn., January 25: The proposed action consists of the construction of approximately 20 miles of State Route 1 from just east of McMinnville to Sparta; in Warren, White, and Van Buren Counties, Tenn. The proposed project extends northeasterly from a point at the end of the newly constructed section of TN-1, just west of the intersection of TN-1 and TN-30, to an eastern terminus at TN-111 near Sparta. The proposed highway is classified as a principal arterial in Tennessee's "1985 Statewide Functional Highway Classification Plan" and is planned as a four-lane facility (FHWA-TN-EIS-77-09-D). (ELR Order No. 80077.)

Final

Inner Loop, U.S. 54 to I-35W, Wichita, Sedgwick County, Ill., January 24: Proposed is the construction of a freeway with termini at U.S. 54 in the vicinity of Seneca Avenue and at 9th Street at I-35W in the city of Wichita, Kans. The project would provide a combination 4 to 6 lane, full control access facility with a design speed of 55 mph. Adverse effects include the acquisition

of 87 to 98 acres for right-of-way. From 331 to 540 dwelling units and from 69 to 76 businesses will be relocated (region 7). Comments made by: FEA, HUD, EPA, HEW, DOD, DOC, FPC, CEQ, DOT, State and local agencies, groups and individuals. (ELR Order No. 80071.)

LR 1061, Blair County, Pa., January 26: The proposed highway improvement consists of a 14.5 mile portion of L.R. 1060 (T.R. 220), located in Logan and Antis Townships, Pa., as part of the Appalachian development highway system. The project will displace a number of people and will result in increased noise and erosion. A 4(F) statement is included concerning a public park. Comments made by: USDA, DOC, DOT, EPA, FEA, HEW, State and local agencies. (ELR Order No. 80060.)

MODIFICATION OF SECONDARY TREATMENT REQUIREMENT

Public Meeting

The Environmental Protection Agency (EPA) will hold a public meeting on February 22, 1978 in San Francisco to receive comments on implementation of section 301(h) of the Federal Water Pollution Control Act as amended (section 44 of the Clean Water Act of 1977, Pub. L. 95-217). Section 301(h) authorizes EPA to modify the requirement of secondary treatment for BOD, suspended solids and pH in an existing discharge into marine waters from a publicly owned treatment works if certain criteria are met.

The Federal Water Pollution Control Act required publicly owned treatment works to provide secondary treatment of their wastewaters by July 1, 1977. Coastal publicly owned treatment works who discharge their wastewater through ocean outfalls have argued that the reduction of BOD, suspended solids and pH resulting from secondary treatment is not necessary to protect the marine environment because of the dilution achieved in some deep marine waters. Under amendments adopted by Congress in 1977, those publicly owned treatment works which can show that an existing deep marine discharge requires less than secondary treatment for BOD, suspended solids and pH may be eligible, after case-by-case review, for a modification of the requirement to provide secondary treatment.

The purpose of this meeting is to receive the public's views on how EPA should interpret and apply the statutory criteria which an applicant must meet in order to obtain a modification of the secondary treatment requirement. In order to modify the requirement for secondary treatment, an applicant, in an application filed prior to

September 24, 1978, must demonstrate to the satisfaction of the Administrator of EPA that eight criteria have been met. The eight statutory criteria are:

(1) There is an applicable water quality standard specific to the pollutant for which the modification is requested, which has been identified under section 304(a)(6) of this Act;

(2) Such modified requirements will not interfere with the attainment or maintenance of that water quality which assures protection of water supplies and the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife, and allows recreational activities, in and on the water;

(3) The applicant has established a system for monitoring the impact of such discharge on a representative sample of aquatic biota, to the extent practicable;

(4) Such modified requirements will not result in any additional requirement on any other point or nonpoint source;

(5) All applicable pretreatment requirements for sources introducing waste into such treatment works will be enforced;

(6) To the extent practicable, the applicant has established a schedule of activities designed to eliminate the entrance of toxic pollutants from nonindustrial sources into such treatment works;

(7) There will be no new or substantially increased discharges from the point source of the pollutant to which the modification applies above that volume of discharge specified in the permit;

(8) Any funds available to the owner of such treatment works under title II of this Act will be used to achieve the degree of effluent reduction required by section 201 (b) and (g)(2)(A) or to carry out the requirements of this subsection.

Section 301(h) of the Federal Water Pollution Control Act applies only to "marine" discharges. The term "marine" discharge is defined as:

... a discharge into deep waters of the territorial sea or the waters of the contiguous zone, or into saline estuarine waters where there is strong tidal movement and other hydrological and geological characteristics which the Administrator determines necessary to allow compliance with paragraph (2) of this subsection, and section 101(a)(2) of this Act.

Subsection 101(a)(2) of the Act calls for achievement by 1983 of water quality which provides for the protection and propagation of fish, shellfish, and wildlife and provides for recreation in and on the water wherever attainable.

EPA is interested in receiving public comment on how the eight statutory criteria for a modification from the secondary treatment requirement

should be interpreted. A number of questions will arise in determining whether an applicant is eligible for consideration under section 301(h) and has made a satisfactory demonstration of compliance with the eight criteria. Public comment on the following questions of interpretation of the criteria would be particularly helpful in developing proposed regulations implementing section 301(h):

1. The first criteria (section 301(h)(1)) requires an applicable water quality standard specific to the pollutant (BOD, suspended solids and pH) for which the modification is requested. State water quality standards applicable to marine waters are often not in terms of BOD suspended solids, and pH. Should State water quality standards which regulate related or surrogate parameters, such as dissolved oxygen, turbidity, light transmission, etc., be used to show compliance?

2. Should the evaluation of water quality in the second criteria (section 301(h)(2)) consider only the impact of a discharge if a modification of the secondary treatment requirement is approved or should the evaluation compare the impact of the discharge if a modification is approved to the impact which would have resulted from secondary treatment?

3. In the second criteria (section 301(h)(2)), how should a "balanced, indigenous population" be defined? What methods should be used to determine that a balanced, indigenous population exists in marine waters?

4. Should the law be interpreted to require that the concentration of toxic pollutants (heavy metals, chlorinated hydrocarbons, etc.) in the discharge granted a modification be no greater than the concentration which would occur with secondary treatment?

5. Should compliance with the fifth criteria (section 301(h)(5)) require a publicly owned treatment works to have an enforceable pretreatment program at the time of the application?

6. Should the law be interpreted to require publicly owned treatment works which treat only domestic wastes to be evaluated differently than publicly owned treatment works which treat large amounts of industrial wastes?

This public meeting is being held prior to proposal of a regulation implementing section 301(h). To the extent possible, EPA will consider public comments made at the meeting, as well as written comments submitted prior to the meeting, in developing the proposed regulations. Any comments which are not considered prior to proposal will be considered in developing the final regulations.

The public meeting will be held on February 22 at 9:30 a.m. in the following location with registration beginning at 9 a.m.

EPA Region IX, Sixth Floor Conference Room, 215 Fremont, San Francisco, Calif. 94015.

If additional information on this public meeting is needed, please contact:

Richard Coddington, Deputy Director of the Water Division, EPA Region IX, 215 Fremont, San Francisco, Calif. 94105, 415-556-7686.

Information may also be obtained from:

Ms. Lisa Friedman, U.S. EPA, Office of General Counsel, Water Quality Division, Room 511, 401 M Street SW., Washington, D.C. 20460, 202-755-0753.

Persons wishing to make statements at the public meeting are requested to provide three copies of their statement. Written comments submitted prior to the public meeting should be sent in triplicate (if possible) to Lisa Friedman at the address listed above.

Dated: January 27, 1978.

SWEP T. DAVIS,
Acting Assistant Administrator
for Water and Hazardous Materials.

PESTICIDE PROGRAMS

Rebuttable Presumption Against Registration and Continued Registration of Certain Pesticide Products Containing Ethylene Dibromide; Extension of Period for Submission of Rebuttal Evidence and Comments

On December 1, 1977, the Environmental Protection Agency (EPA) issued a notice of presumption against registration and continued registration of pesticide product containing the ingredient 1,2-dibromoethane. This notice was published in the FEDERAL REGISTER on December 14, 1977 (42 FR 63134). The regulations governing rebuttal presumptions provide that the applicant or registrant of such pesticide products shall have forty-five (45) days from the date such notice is sent to submit evidence in rebuttal of the presumption. However, for good cause, an additional sixty (60) days may be granted in which such evidence may be submitted (40 CFR 162.11(a)(1)(i)).

A request for an additional 60 days in which to present evidence to the Agency has been received from one of the major registrants who was affected by the notice of presumption. The requester has specified a need for additional time to collect and analyze data and other information in order to adequately rebut and respond to the notice.

The Agency agrees that additional time would be beneficial for the sub-

mission of complete and accurate responses to the notice of presumption. Therefore, because good cause has been shown, all registrants, applicants for registration, and other interested persons shall have until April 3, 1978, to submit rebuttal evidence and other comments or information. Such evidence, comments or other information relevant to the presumption against registration and continued registration should be submitted to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, EPA, Room 401, East Tower, 401 M Street SW., Washington, D.C. 20460. Three copies of the comments should be submitted to facilitate the efforts of the Agency and of others interested in inspecting them. All comments should bear the identifying notation "OPP-30000/25A". Comments and information received on or before April 3, 1978, shall be considered before it is determined whether a notice shall be issued in accordance with 40 CFR 162.11(a)(5)(ii) and 7 U.S.C. 136(a)(c)(6) or 7 U.S.C. 136(d)(b)(1). Comments received after April 3, 1978, shall be considered only to the extent feasible consistent with the time limits imposed by 40 CFR 162.11(a)(5)(ii). All written comments filed pursuant to this notice will be available for public inspection in the Office of Federal Register Section at the above address from 8:30 a.m. to 4 p.m. Monday through Friday. The file supporting the Agency's presumption against this pesticide is available for public inspection in the Office of Special Pesticide Review, Room 447, East Tower, EPA, during the same hours.

Dated: January 27, 1978.

EDWIN L. JOHNSON,
Deputy Assistant Administrator
for Pesticide Programs.

FARM CREDIT ADMINISTRATION

[Farm Credit Administration Order No. 808]

FARM CREDIT ADMINISTRATION OFFICERS

Delegation of Authority to Act as Governor in the Event That the Governor is Absent or Not Able to Perform the Duties of His Office for any Other Reason (Revocation of FCA Order No. 804)

JANUARY 27, 1978.

1. In the event that the Governor of the Farm Credit Administration is absent or is not able to perform the duties of his office for any other reason, the officer of the Farm Credit Administration who is the highest on the following list and who is available to act, is hereby authorized to exercise and perform all functions, powers, authority, and duties pertaining to the office of Governor of the Farm Credit Administration:

- (1) Senior Deputy Governor;
- (2) Deputy Governor, Office of Supervision;
- (3) Deputy Governor and Chief Examiner;
- (4) Deputy Governor, Office of Administration;
- (5) Deputy Governor, Office of Finance and Research;
- (6) Chief of Staff of Senior Deputy Governor;
- (7) Any other officer of the Farm Credit Administration designated by the Governor.

2. This order shall be effective on the above written date, and supersedes Farm Credit Administration Order No. 804, dated June 28, 1977 (42 FR 34365).

DONALD E. WILKINSON,
Governor,
Farm Credit Administration.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 895]

APPLICATIONS ACCEPTED FOR FILING

Common Carrier Services Information

JANUARY 30, 1978.

By the Chief, Common Carrier Bureau:

The applications listed herein have been found, upon initial review, to be acceptable for filing. The commission reserves the right to return any of these applications, if upon further examination, it is determined they are defective and not in conformance with the Commission's Rules and Regulations or its policies.

Final action will not be taken on any of these applications earlier than 31

days following the date of this notice, except for radio applications not requiring a 30-day notice period (See § 309(c) of the Communications Act), applications filed under Part 68, applications filed under Part 63 relative to small projects, or as otherwise noted. Unless specified to the contrary, comments or petitions may be filed concerning radio and section 214 applications within 30 days of the date of this notice and within 20 days for Part 68 applications.

In order for an application filed under Part 21 of the Commission's Rules (Domestic Public Radio Services) to be considered mutually exclusive with any other such application appearing herein, it must be substantially complete and tendered for filing by whichever date is earlier: (a) the close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which the subsequent application is in conflict) as having been accepted for filing. In common carrier radio services other than those listed under Part 21, the cut-off date for filing a mutually exclusive application is the close of business one business day preceding the day on which the previously filed application is designated for hearing. With limited exceptions, an application which is subsequently amended by a major change will be considered as a newly filed application for purposes of the cut-off rule. (See § 1.227(b)(3) and 21.30(b) of the Commission's Rules.)

For the Federal Communications Commission.

WILLIAM J. TRICARICO,
Secretary.

JANUARY 30, 1978.

Applications accepted for filing:

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

20617-CD-P-78 South Shore Radio-Telephone, Inc. (KTS201) C.P. for additional facilities to operate on 158.70 MHz at a new site described as location No. 4: Oak Brook Towers, Oak Brook, Ill.

20623-CD-P-78 Mobilefone Northwest (new), C.P. for a new 1-way signaling station to operate on 152.24 MHz to be located at Pendleton Airport, Pendleton, Ore.

20694-CD-P-78 Radiotelephone Owatonna, Inc. (new), C.P. for a new station to operate on 152.09 MHz to be located 3 miles south of U.S. highway 4, on County Road approximately 2 miles south of Meriden, Minn.

20696-CD-P-78 Professional Communications, Inc. (new), C.P. for a new 1-way signaling station to operate on 158.70 MHz to be located on Road No. 4, Carter Hill Road, Corry, Pa.

20697-CD-P/ML-78 Communications Specialists, Inc. d.b.a. Radio Telpage (KTS276) C.P. to relocate facilities operat-

ing on 158.70 MHz located at 124 Southgate Road, Dothan, Ala.

20698-CD-P-(2)78 Mobilphone-Paging Radio Corp. (KRS653) C.P. for additional facilities to operate on 72.64 MHz, Control at location No. 1: Palmouth Street, 300 yds from Ashby Street, Johnston, R.I.; and 158.70 MHz, base at a new site described as location No. 4: 2121 West Main Road Portsmouth, R.I.

20699-CD-P-78 General Telephone Co. of Indiana, Inc. (KSJ800) C.P. to change antenna system and relocate facilities operating on 152.54 MHz located at 2059 Crisman Road, Portage, Ind.

20700-CD-P-78 Electro-Craft, Inc. (KWU248) C.P. for additional facilities to operate on 152.24 MHz located at a new site described as location No. 2: Summit of Bald Mountain, 2.6 miles west of Lead, S. Dak.

20701-CD-P-78 Waco Communications, Inc. (KLF635) C.P. for additional facilities to operate on 152.24 MHz located at a new site described as location No. 2: 817 South First Street, Temple, Tex.

20702-CD-P-78 Summit Communications, Inc. (new), C.P. for a new station to operate on 152.12 MHz to be located 800 feet east of highway 231 at southern boundary of Rensselaer, Ind.

20704-CD-ML-78 Electro-Craft, Inc. (KOP323) Modification of license to change frequency from 152.09 MHz to 152.15 MHz.

20705-CD-P-78 Electro-Craft, Inc. (KOP323) C.P. for additional facilities to operate on 152.09 MHz located at a new site described as location No. 2: Summit of Bald Mountain 2.6 miles west of Lead, S. Dak.

20706-CD-P-78 Consolidated Telephone Co. (new), C.P. for a new 1-way signaling station to operate on 158.10 MHz to be located 10 miles northwest of Brainerd, Minn.

20707-CD-P-78 Comex, Inc. (KCC797) C.P. to change antenna system, replace transmitter and change frequency from 459.325 MHz to 72.70 MHz at location No. 1: Uncanoonuc Mountain, near Goffstown, N.H.

20708-CD-TC-(5)-78 Indiana Telephone Corp. consent to transfer of control from Helen E. Schultz, transferor, to Continental Telephone Corp., transferee. Stations: KSJ797, Seymour, Ind.; KSJ775, Madison, Ind.; KSJ798, Jasper, Ind.; KSJ799, Salem, Ind.; and KUS303, North Vernon, Ind.

INFORMATIVE

It appears that the following applications may be mutually exclusive and subject to the Commission's Rules regarding ex parte presentations, by reasons of potential electrical interference.

Wyoming

Commercial Communications, Inc. (New), 20146-CD-P-(6)-78.

David R. Williams d.b.a. Industrial Communications (New), 21986-CD-P-(6)-77.

OFFSHORE RADIO TELEPHONE SERVICE

50003-CG-P-78 The Offshore Telephone Co. (new), C.P. for a new subscriber station to operate on 492.450 MHz to be located 110 miles south of Patterson, La., block 364A, GM.

50004-CG-P-78 The Offshore Telephone Co. (new), C.P. for a new central office station to operate on 489.450 MHz to be located 100 miles south of Franklin, La., block 296B, GM.

50005-CG-P-78 The Offshore Telephone Co. (new), C.P. for a new central office station to operate on 489.400 MHz to be located 25 miles south of Grand Cheniere, La., block 48C, GM.

50006-CG-P-78 The Offshore Telephone Co. (new), C.P. for a new subscriber station to operate on 492.400 MHz to be located 47 miles south of Grand Cheniere, La., block 238A, GM.

50007-CG-P/ML-78 The Offshore Telephone Co. (WBX632), C.P. for additional facilities to operate on 488.425, 488.450, 488.475, 488.500, 488.525, 488.550, 488.575, 488.600, 488.625, 488.650, 488.675, & 488.700 MHz located within the territory of the grantee.

RURAL RADIO SERVICE

60090-CR-P/L-78 Mobile Radio System of San Jose, Inc. (new), C.P. for a new rural subscriber station to operate on 158.55MHz located at Dooherty Ridge Road off Skyline Boulevard, 3 1/4 miles north highway 9, California.

60091-CR-P/L-78 Mobile Radio System of San Jose, Inc. (new), C.P. for a new Rural subscriber station to operate on 158.55 MHz located on Long Ridge Road off Skyline Boulevard, 3 1/4 miles north of highway 9, California.

60092-CR-P/L-78 Mobile Radio System of San Jose, Inc. (new), C.P. for a new Rural Subscriber station to operate on 158.55 MHz located at Portola Heights Road off Skyline Boulevard, 3 1/4 miles north of highway 9, California.

60093-CR-P/L-78 Mobile Radio System of San Jose, Inc. (new), C.P. for a new rural subscriber station to operate on 158.55 MHz located at Portola Heights Road off Skyline Boulevard, 3 1/4 miles north of highway 9, California.

60094-CR-P-78 Copper Valley Telephone Cooperative, Inc. (new), C.P. for a new rural subscriber station to operate on 157.77 MHz located northeast of Valdez, at mile 35, Richardson Highway, Valdez, Ark.

60095-CR-P-78 Copper Valley Telephone Cooperative, Inc. (new), C.P. for a new central office station to operate on 152.51 MHz located northeast of Valdez, at mile 27, Richardson Highway, Valdez, Ark.

60098-CR-P/L-78 Continental Telephone Co. of the West (new), C.P. for a new rural subscriber station to operate on 157.77 MHz located at range 26E, township 32 south, section 33, Utah.

POINT-TO-POINT MICROWAVE RADIO SERVICE

1112-CF-P-78 Roanoke & Botetourt Telephone Co. (new), Troutville Route 220 Daleville (Botetourt), Va. Lat. 37°25'03" N., Long. 79°53'51" W. C.P. for a new station on frequency 11055V MHz on azimuth 194.4 degrees toward Roanoke, Va.

1114-CF-P-78 Mountain States Telephone & Telegraph Co. (KXR20), 1326 Sheridan Avenue Cody (Park), Wyo. Lat. 44°31'33" N., Long. 109°03'38" W. C.P. to add a new point of communication on frequency 11075V MHz on azimuth 247.0 degrees toward Cody, passive reflector 2 to Cody passive reflector 3 on azimuth 35.2 degrees to Skytel, Wyo., on azimuth 260.8 degrees.

1115-CF-P-78 Same (new), Skytel 2.6 miles west of Wapiti (Park) Wyo. Lat. 44°27'31" N., Long. 109°29'16" W. C.P. for a new station on frequency 11525V MHz on azimuth 80.6 degrees toward Cody passive reflector 3 to Cody passive reflector 2 on azimuth 215.8 degrees to Cody, Wyo. on azimuth 66.9 degrees.

[Docket No. 21310; RM-1847; RM-1984; RM-2742]

FM QUADRAPHONIC BROADCASTING: ORDER EXTENDING TIME FOR FILING REPLY COMMENTS

Notice of Inquiry

AGENCY: Federal Communications Commission.

ACTION: Order.

SUMMARY: Action taken herein extends the time for filing reply comments to a Notice of Inquiry concerning FM quadrasonic broadcasting. Consumer Electronics Group of the Electronic Industries Association states the additional time is necessary so that it can prepare reply comments to comments which are extensive and highly technical.

DATE: Reply comments must be received on or before March 31, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

SUPPLEMENTAL INFORMATION:

Adopted: January 25, 1978.

Released: January 31, 1978.

Order extending time for filing reply comments (43 FR 1542).

By the Chief, Broadcast Bureau: 1. On June 22, 1977, the Commission adopted a Notice of Inquiry in the above-entitled proceeding. The date for filing comments has expired and

the date for filing reply comments is presently January 30, 1978.¹

2. On January 17, 1978, counsel for the Consumer Electronics Group of the Electronic Industries Association ("EIA-CEG") requested a 90-day extension of time in which to file reply comments. Counsel states that even in the best of circumstances careful review of the 15 volumes of comments in this proceeding would require additional time in order to formulate reply comments. He adds that the problem has been aggravated because of the difficulty which EIA-CEG members and others are experiencing in their efforts to review the filed comments since the duplicate volumes in this docket are incomplete and the original volumes of comments are often unavailable because they have been removed for reproduction.

3. On the basis of the reasons represented in the above-mentioned request for extension of time, we are persuaded that some additional time is warranted in order to assure development of a sound and comprehensive record on which to base a final decision in this proceeding. However, because we have already granted two previous extensions, we believe sixty days is sufficient in which to complete the preparation of reply comments.

4. Accordingly, *It is ordered*, That the request for extension of time for filing reply comments submitted by the Consumer Electronics Group of the Electronic Industries Association is granted to the extent that the present deadline for filing reply comments is extended through March 31, 1978, and is denied in all other respects.

5. This action is taken pursuant to authority found in sections 4(i), 5(d) (1) and 303(r) of the Communications Act of 1934, as amended, and section 0.281 of the Commission's Rules.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

PERSONAL USE RADIO ADVISORY COMMITTEE

Meeting

The Personal Use Radio Advisory Committee (PURAC) will meet February 22 and 23, 1978, at the Sheraton International Inn, 11810 Sunrise Valley Drive, Reston, Va.

¹By Order released August 16, 1977 (Mimeo 87835), the dates for filing comments and reply comments were extended to December 16, 1977, and January 16, 1978, respectively. By Order released December 27, 1977 (Mimeo 93067), the dates for filing comments and reply comments were extended to December 28, 1977, and January 30, 1978, respectively.

The main purpose of the meeting will be to coordinate all the task area plans for their final reports to be completed before PURAC is dissolved in April.

A general meeting beginning at 9 a.m. February 22 will consider partial or preliminary reports from each of three task areas: General Mobile Radio Service, User Rule Compliance, and Local Interference. The remainder of the time will be devoted to task area meetings.

The general public is welcome to attend, but only PURAC members will be eligible to debate and vote.

Any PURAC member who is unable to attend may designate proxies with a signed statement identifying the member who will vote for him.

FEDERAL COMMUNICATIONS COMMISSION,
WILLIAM J. TRICARICO,
Secretary.

FEDERAL MARITIME COMMISSION

[Independent Ocean Freight Forwarder License No. 1881]

THELMA QUILLIAM d.b.a. AEROMARINE FORWARDING

Order of Revocation

The bond issued in favor of Thelma Quilliam d.b.a. Aeromarine Forwarding, 225 Harris Court, South San Francisco, Calif. 94080, FMC No. 1881, was cancelled effective January 27, 1978.

By letter dated December 30, 1977, the licensee was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 1881 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before January 27, 1978.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

The licensee has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised) Section 5.01(d) dated August 8, 1977;

It is ordered, That Independent Ocean Freight Forwarder License No. 1881 issued to Thelma Quilliam d.b.a. Aeromarine Forwarding be returned to the commission for cancellation.

It is further ordered, That Independent Ocean Freight Forwarder License

No. 1881 be and is hereby revoked effective January 27, 1978.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Thelma Quilliam d.b.a. Aeromarine Forwarding.

LEROY F. FULLER,
Director, Bureau of
Certification and Licensing.

FEDERAL RESERVE SYSTEM

FIRST UNION BANCORPORATION

Proposed Retention of Ownership of St. Louis Union Trust Co.

First Union Bancorporation, St. Louis, Mo., has applied, pursuant to § 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to retain voting shares of St. Louis Union Trust Co., St. Louis, Mo., and indirect control of First Union Trust Co. in Kansas City, Kansas City, Mo. Notice of the application was published on December 23, 1977, in the St. Louis Globe-Democrat, a newspaper circulated in St. Louis, Mo., and on December 24, 1977, in the Kansas City Star, a newspaper circulated in Kansas City, Mo.

Applicant states that the proposed subsidiary would engage in the activities that may be performed by a trust company and investing funds for its own account in market instruments, including equity securities which do not include more than 5 percent of the outstanding voting shares of any company. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of St. Louis.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than February 23, 1978.

Board of Governors of the Federal Reserve System, January 27, 1978.

GRIFFITH L. GARWOOD,
Deputy Secretary of the Board.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Alcohol, Drug Abuse, and Mental Health Administration

ADVISORY COMMITTEES

Meetings

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. Appendix I), announcement is made of the following National Advisory bodies scheduled to assemble during the month of March 1978:

ALCOHOL TRAINING REVIEW COMMITTEE

Date and time: March 2-4; 9 a.m.
Place: Conference Room G, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857.

Type of meeting: Open—March 2, 9 to 11 a.m. Closed—Otherwise.
Contact—Ms. Jeanne Trumble, Room 14C-17, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-1056.

Purpose: The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute on Alcohol Abuse and Alcoholism, ADAMHA, relating to training activities and makes recommendations to the National Advisory Council on Alcohol Abuse and Alcoholism.

Agenda: From 9 a.m. to 11 a.m., March 2, the Committee will be open for reports and announcements to administrative and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public, in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5 U.S.C. Code and section 10(d) of (Pub. L. 92-463 (5 U.S.C. Appendix I)).

CLINICAL PROJECTS RESEARCH REVIEW COMMITTEE

Date and time: March 2-4; 9 a.m.
Place: Arlington Hyatt House, 1325 Wilson Boulevard, Arlington, Va. 22209.

Type of meeting: Open—March 2, 9 to 10 a.m. Closed—Otherwise.
Contact—Harriet German, Room 10C-05, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3367.

Purpose: The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of

Mental Health relating to clinical research and makes recommendations to the National Advisory Mental Health Council for final review.

Agenda: From 9 a.m. to 10 a.m., March 2, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5 U.S.C. Code and section 10(d) of (Pub. L. 92-463 (5 U.S.C. Appendix I)).

EPIDEMIOLOGIC STUDIES REVIEW COMMITTEE

Date and time: March 7-8; 9 a.m.
Place: Maryland Room, Mayflower Hotel, 1127 Connecticut Avenue NW., Washington, D.C. 20036.

Type of meeting: Open—March 7, 9 to 10 a.m. Closed—Otherwise.
Contact—Lavinia Walsh, Room 10C-09, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3774.

Purpose: The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute of Mental Health relating to research and training activities in the field of epidemiology and makes recommendations to the National Advisory Mental Health Council for final review.

Agenda: From 9 a.m. to 10 a.m., March 7, the meeting will be open for discussion of administrative announcements and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of section 552b(c)(6), Title 5 U.S.C. Code and section 10(d) of (Pub. L. 92-463 (5 U.S.C. Appendix I)).

Substantive program information may be obtained from the contact person listed above. The NIAAA Information contact who will furnish summaries of the meeting and rosters of the Committee members is Mr. Harry Bell, Associate Director for Public Affairs, National Institute on Alcohol Abuse and Alcoholism, Room 11A-17, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3306. The NIMH Information Officer who will furnish upon request summaries of the meeting and rosters of the committee members is Dr. Jacquelyn Hall, Acting Chief, Public Information Branch, Division of Scientific and Public Information NIMH, Room 15C-17, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4573.

Dated: January 30, 1978.

CAROLYN T. EVANS,
Committee Management Officer,
Alcohol, Drug Abuse, and
Mental Health Administration.

Food and Drug Administration
[Docket No. 77P-0339]

INTERNATIONAL DIAGNOSTICS TECHNOLOGY

Panel Recommendation on Petition for
Reclassification

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The agency is issuing for public comment the recommendation of the Immunology Device Classification Panel that the Anti-DNA Antibody, Immunofluorescent Solid Phase and control (FIAX™ Anti-DNA Antibody Test) be reclassified from class III (Premarket Approval) to class II (Performance Standards). This recommendation was made after review of a reclassification petition filed by International Diagnostic Technology (IDT), Santa Clara, Calif. under section 513(f) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360c(f)). After reviewing the panel recommendation and the public comments received, the agency will approve or deny the reclassification by order in the form of a letter to the petitioner. If the device is reclassified, the reclassification will be announced in the FEDERAL REGISTER.

DATE: Comments by March 6, 1978.

ADDRESS: Written comments (preferably four copies) to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION
CONTACT:

Srikrishna Vadlamudi, Food and Drug Administration, Bureau of Medical Devices (HFK-440), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7234.

SUPPLEMENTARY INFORMATION: On September 14, 1976, International Diagnostic Technology (IDT), Santa Clara, Calif. submitted to FDA a premarket notification under section 510(k) of the act (21 U.S.C. 360(k)), stating that it intended to market a device the manufacturer calls the FIAx™ Anti-DNA Antibody Test. After reviewing the information in the premarket notification, the commissioner of Food and Drugs determined that the device is not substantially equivalent to any device that was in commercial distribution before May 28, 1976; nor is the device substantially equivalent to a device that has been placed in commercial distribution since that date and subsequently reclassified. Upon this determination, the device is automatically classified in class III under section 513(f)(1) of the act.

Under section 515(a)(2) of the act (21 U.S.C. 360e(a)(2)), before a device

that is in class III under section 513(f)(1) of the act can be marketed, it must either be reclassified under section 513(f)(2) of the act or have an approval of an application for premarket approval under section 515 of the act, unless there is in effect for the device an investigational device exemption under section 520(g) of the act (21 U.S.C. 360j(g)).

On July 18, 1977, International Diagnostic Technology (IDT) submitted a reclassification petition for the device under section 513(f)(2) of the act. On September 26, 1977, the Immunology Device Classification Panel (panel) reviewed the petition and recommended that the device be reclassified into class II.

To determine the proper classification of the device, the panel considered the criteria in section 513(a)(1) of the act.

For the purposes of classification, the panel assigned to the device the name "Anti-DNA Antibody Test." The device is used for the detection and quantitation of Anti-DNA Antibodies in human serum or plasma. The presence of anti-DNA antibodies is an indication of Systemic Lupus Erythematosus (SLE), a tissue disorder characterized by skin eruptions, pain in the joints, fever, and other constitutional symptoms. A positive result from the use of this device indicates the need for further diagnosis for SLE.

SUMMARY OF THE REASONS FOR THE
RECOMMENDATION

The panel made the following determinations in support of its recommendation:

1. The device is not an implant, nor is it life-sustaining or life-supporting.
2. Hazards to life or health may result when the device does not perform properly.
3. The test is based on a solid-phase immunoassay using a fluorescent label.
4. Immobilized DNA is reacted with Anti-DNA in diluted serum.
5. Anti-DNA attached to immobilized DNA is reacted with fluorescently labeled anti-human immunoglobulins.
6. A fluorescent label affixed to Anti-DNA is measured in a fluorometer.
7. It is possible to develop a standard or set of standards to control the safety or effectiveness of the device.

SUMMARY OF THE DATA ON WHICH THE
RECOMMENDATION IS BASED

The usefulness of the FIAx™ Anti-DNA Kit in the screening of patients with auto-immune diseases was investigated along with the FARR assay and Amersham/Searle kits. A comparison was also made for the usefulness of the device for therapeutic monitoring. To determine the safety and effectiveness of the device, it was used on

sera from 236 patients. An agreement (197 out of 236, or 84 percent) exists between the results obtained with FIAx™ Anti-DNA Antibody system and the reference methods FARR™ RIA non-kit assay and Amersham/Searle kits used for DNA antibody determination for Systemic Lupus Erythematosus (SLE). In addition, 19 samples that read negative by the two reference methods and positive by FIAx™ proved to be samples from SLE patients. Immunofluorometric quantitation of antibody activity to DNA in human serum or plasma has been demonstrated in the FIAx™ system to be equally as sensitive, specific, and precise as other commercially available devices.

RISKS TO HEALTH

The panel noted that there is a danger of erroneous results from the use of the FIAx™ Anti-DNA Kit owing to lack of specificity and sensitivity (resulting in false positives and false negatives). This may lead to misdiagnosis and unnecessary treatment or lack of treatment. Lack of specificity results when the Anti-DNA antibody cross-reacts with other proteins of the cell and plasma. Therefore, the panel recommended that the device be classified into class II and that a standard directed to the specificity and sensitivity of the device be developed. The panel recommended that development of this standard be a high priority.

RESTRICTIONS

The panel recommended that this device be used in conjunction with other methods of diagnosis, including other diagnostic tests, examination of medical history, and observation of symptoms.

The petition and a transcript of the panel meeting are on file in the office of the Hearing Clerk, address noted above.

Dated: January 25, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner
for Compliance.

[FR Doc. 78-2709 Filed 2-2-78; 8:45 am]

[4110-03]

[Docket No. 77P-0151]

HOWMEDICA, INC.

Panel Recommendation on Petition for
Reclassification

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The agency is issuing for public comment the recommendation of the Gastroenterological and Urological Device Classification Panel that

the Night Drain Adaptor, Feather-Lite™ Urinary Diversion Pouch, Feather-Lite™ Semi-Disposable I.B. Pouch, and Ostomy Pouch not be reclassified from class III. (Premarket Approval) to class II (Performance Standards) or class I (General Controls). This recommendation was made after review of a reclassification petition filed by Howmedica, Inc., New York, N.Y., under section 513(f) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360c(f)). After reviewing the panel recommendation and the public comments received, the agency will approve or deny the reclassification by order in the form of a letter to the petitioner. If the device is reclassified, the reclassification will be announced in the FEDERAL REGISTER.

DATES: Comments by March 6, 1978.

ADDRESS: Written comments (preferably four copies) to the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION
CONTACT:

Dennis J. Cotter, Bureau of Medical Devices (HFK-430), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7226.

SUPPLEMENTARY INFORMATION: On August 13 and 27 and October 26, 1976, Howmedica, Inc., New York, N.Y., submitted to FDA a premarket notification under section 510(k) of the act (21 U.S.C. 360(k)), stating that it intended to market devices it calls (1) Ostomy Pouch, (2a) Feather-Lite™ Urinary Diversion Pouch, (2b) Feather-Lite™ Semi-Disposable I.B. Pouch, and (2c) Night Drain Adapter. After reviewing the information in the premarket notifications, the Commissioner of Food and Drugs determined that the devices are not substantially equivalent to any devices that were in commercial distribution before May 28, 1976; nor are the devices substantially equivalent to any devices placed in commercial distribution since that date and subsequently reclassified. The reason for this decision was the use of an arsenic-containing compound (10, 10'-oxybisphenarsine) as an additive to the vinyl plastics of which the devices are made. The additive is intended to inhibit microbial degradation of vinyl plastic materials. Upon this determination, these devices are automatically classified into class III under section 513(f)(1) of the act.

Under section 515(a)(2) of the act (21 U.S.C. 360e(a)(2)), before a device that is in class III under section 513(f)(1) of the act can be marketed, it must either be reclassified under section 513(f)(2) of the act or have an approval of an application for premarket approval under section 515 of the act,

unless there is in effect for the device an investigational device exemption under section 520(g) of the act (21 U.S.C. 360j(g)).

On June 9, 1977, Howmedica, Inc., submitted to FDA a reclassification petition for the devices under section 513(f)(2) of the act. On June 25, 1977, the Gastroenterological and Urological Device Classification Panel (panel) reviewed the petition and recommended that the devices not be reclassified into class II or class I.

To determine the proper classification of the devices, the panel considered the criteria in section 513(a)(1) of the act.

For the purposes of classification, the panel assigned to the devices the names (1) "pouch, colostomy" and (2) "bag, urinary, ileostomy (with or without adaptor)." A colostomy pouch is described as a medical device that is a bag used as a receptacle for collection of colostomy output, i.e., for collecting human waste in a patient who has had his or her large intestine surgically removed. This category will include ostomy pouches not otherwise classified. An ileostomy urinary bag (with or without adaptor) is described as a medical device in the shape of a bag that is affixed to the outside of the body in which waste from the ileum (small intestine) or urine is collected. It is used in cutaneous ureterostomies (to collect urine from the kidney after the ureter is surgically brought to the skin surface), cutaneous ileostomies (to collect contents of the small intestine after the small intestine or a special prosthesis is brought to the skin surface), and exteriorization of the bladder (to collect urine from the bladder after the ureter is surgically brought to the skin surface). The adaptor is used to connect a bag to a larger container when the patient is confined to bed. The panel recommended that all devices meeting these descriptions that require an arsenic-containing compound to be in direct contact with the body, and those substantially equivalent, remain in class III.

SUMMARY OF THE REASONS FOR THE
RECOMMENDATION

The panel made the following determinations in support of its recommendation:

1. The device is not an implant, nor is it life-sustaining or life-supporting.
2. The device is potentially hazardous to life or good health when properly used.
3. The device is in physical contact with the body.
4. The device is not powered by a nonmanual external or internal source.
5. The material used for contact with the body is not biocompatible.
6. The device does have potential hazards that can be avoided by pro-

mulgation of Federal regulations applicable to the device.

7. The device may be potentially hazardous to a fetus and/or gonads.

SUMMARY OF THE DATA ON WHICH THE
RECOMMENDATION IS BASED

The panel recommended rejection of the petition for reclassification because insufficient data exist to support the safe use of the arsenic-containing compounds in the ostomy devices.

The panel and FDA staff had the following concerns about the experimental design and some of the studies submitted by Howmedica, Inc., in support of the petition for reclassification:

1a. Ileal content, urine, or urine substitutes of a physiological pH were not used for experiments in determining the leachability of arsenic from the material.

b. Extractability testing was not carried out at physiological temperatures.

2. The adequacy of informed consent, because the patient permission statement was too vague for the patients to appreciate possible risks from the product; the statement said that the material causes irritations, sensitization, or other types of pathology, but did not mention possible risk of cancer from the arsenic compound.

3a. One experiment result showed decreased sperm production in laboratory animals. Further investigations were not carried out.

b. Individuals responsible for the patient studies and the volunteers who participated in the studies may not have been informed of the decreased sperm production that had occurred in the laboratory animals.

4. For a dermatotoxicity test, the material was not rubbed into the skin of the laboratory animals, but was merely placed on the skin.

5. In one animal study, moderate to severe intraepithelial inflammatory infiltration (inflammation associated with deposit of material in tissue) with superficial necrosis (deterioration of surface bone tissue) was noted.

6. In one animal group tested, the incidence of test animal mortality increased when doses of the material applied to the skin were increased.

7. The potential for arsenic leaching from the material was not satisfactorily evaluated.

HAZARDS TO HEALTH

The panel expressed grave concern about the potential hazards presented by arsenic compounds, used in the product, that come in direct contact with the body because:

1. Ostomy bags are constantly in contact with the patient's skin.
2. Ileostomy patients may be in contact with the material for 40 to 50 years.
3. Arsenic is a known carcinogen and accumulates in the body. Prolonged

exposure to arsenic may cause cancer (especially skin cancer, although the possibility of cancer of the gastro-intestinal tract and the stoma (the opening established in the abdominal wall by colostomy and other surgery) is also to be considered).

4. The incidence of cancer due to physiological contact with arsenic may not be apparent for 5 or more years.

Dated: January 25, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner
for Compliance.

[Docket No. 77P-0341]

SYVA

Panel Recommendation on Petition for
Reclassification

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The agency is issuing for public comment the recommendation of the Clinical Toxicology Device Classification Panel that the EMIT™ Lidocaine Assay Kit be reclassified from class III (Premarket Approval) to class II (Performance Standards). This recommendation was made after review of a reclassification petition filed by Syva, Palo Alto, Calif., under section 513(f) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360c(f)). After reviewing the panel recommendation and the public comments received, the agency will approve or deny the reclassification by order in the form of a letter to the petitioner. If the device is reclassified, the reclassification will be announced in the FEDERAL REGISTER.

DATE: Comments by March 6, 1978.

ADDRESS: Written comments (preferably four copies) to the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, Md. 20857.

FOR FURTHER INFORMATION CONTACT:

S. K. Vadlamudi, Bureau of Medical Devices (HFK-440), Food and Drug Administration, Department of Health, Education, and Welfare, 8757 Georgia Avenue, Silver Spring, Md. 20910, 301-427-7234.

SUPPLEMENTARY INFORMATION: On April 19, 1977, Syva, Palo Alto, Calif., submitted to FDA a premarket notification under section 510(k) of the act (21 U.S.C. 360(k)), stating that it intended to market a device the manufacturer calls the "EMIT™ Lidocaine Assay Kit." After reviewing the information in the premarket notification,

the Commissioner of Food and Drugs determined that the device is not substantially equivalent to any device that was in commercial distribution before May 28, 1976; nor is the device substantially equivalent to a device that has been placed in commercial distribution since that date and subsequently reclassified. Upon this determination, the device is automatically classified into class III under section 513(f)(1) of the act.

Under section 515(a)(2) of the act (21 U.S.C. 360e(a)(2)), before a device that is in class III under section 513(f)(1) of the act can be marketed, it must either be reclassified under section 513(f)(2) of the act or have an approval of an application for premarket approval under section 515 of the act, unless there is in effect for the device an investigational device exemption under section 520(g) of the act (21 U.S.C. 360j(g)).

On August 4, 1977, Syva submitted a reclassification petition for the device under section 513(f)(2) of the act. On October 6, 1977 the Clinical Toxicology Device Classification Panel (panel) reviewed the petition and recommended that the device be reclassified into class II.

To determine the proper classification of the device, the panel considered the criteria in section 513(a)(1) of the act.

For the purpose of classification, the panel assigned to the device the name, "enzyme immunoassay, lidocaine" and described the device as a kit for enzyme immunoassay of serum or plasma. The device is used to detect the level of lidocaine in the human serum or plasma. Lidocaine is a drug used to treat irregular heartbeat, especially in the emergency treatment of heart failure; an excess of lidocaine can result in convulsions due to respiratory failure. If the use of this device indicates an excess of lidocaine, the physician will adjust the dosage prescribed for a patient.

SUMMARY OF THE REASONS FOR THE RECOMMENDATIONS

The panel made the following determinations in support of its recommendation: 1. The device is not an implant, nor is it life-sustaining or life-supporting.

2. The device is not potentially hazardous to life or good health when properly used.

3. The device is an in vitro diagnostic product. The device is used to quantitate the levels of lidocaine in human serum or plasma by enzyme immunoassay. A step-by-step protocol for use by the analyst has been included. The type of instrument to be used with the device has also been included. Performance data on accuracy, precision, and quantitation of interfering substances have been included. The device has

performance characteristics that should be maintained at a satisfactory level.

SUMMARY OF THE DATA ON WHICH THE RECOMMENDATION IS BASED

To determine the safety and effectiveness of the device, it was used in two clinical studies on a series of 142 samples of human sera. The same sera samples were run with a currently accepted methodology of gas liquid chromatography (GLC). The data showed that there is a good agreement from two field clinical studies and also from in-house studies. The panel believe that these studies adequately support the precision claims of the product. The coefficient of variation was .10. The sample-to-sample variation was found to be within an acceptable range. The cross-reactivity with other chemically related compounds was adequately quantitated.

RISKS TO HEALTH

The panel noted that there is a risk of erroneous results from the use of this device owing to lack of specificity and sensitivity. Erroneous results can lead to improper dosage of the patient, and an excess dosage can result in convulsions due to respiratory failure. The panel recommended that the device be classified into class II, that a standard be developed directed toward the specificity and sensitivity of the device, and that development of this standard be a high priority.

The petition and a transcript of the panel meeting are on file in the office of the Hearing Clerk, address noted above.

Dated: January 26, 1978.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner
for Compliance.

[Docket No. 77N-0145]

X-OTAG PLUS TABLETS

Hearing on Refusal to Approve Application

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice announces a formal evidentiary public hearing and a prehearing conference on factual issues on the proposed refusal to approve an abbreviated new drug application (ANDA) described below for a drug product for human use called X-OTag Plus, submitted by Cord Laboratories, Inc./Tutag Pharmaceuticals, Inc.

DATES: Prehearing conference March 6, 1978, beginning at 10 a.m. Written

notices of participation must be received by March 6, 1978.

ADDRESSES: The prehearing conference and hearing will be held in the FDA Hearing Room, Room 4A-35, 5600 Fishers Lane, Rockville, Md. 20857. Written notices of participation identified by the above-designated docket number should be submitted to the Hearing Clerk (HFC-20), Food and Drug Administration, Room 4-65, 5600 Fishers Lane, Rockville, Md. 20857 (to ease identification, the envelope containing the notice should be clearly labeled "X-OTag Plus Hearing").

FOR FURTHER INFORMATION CONTACT:

Tenny Neprud, Compliance Regulations Policy Staff (HFC-10), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3480.

SUPPLEMENTARY INFORMATION: In the FEDERAL REGISTER of April 29, 1977 (42 FR 21847), the Director of the Bureau of Drugs issued a notice of opportunity for hearing on a proposal to refuse approval of the abbreviated new drug application (ANDA 85-445) filed by Cord Laboratories, Inc./Tutag Pharmaceuticals, Inc., 2599 West Midway Boulevard, Broomfield, Colo. 80020 (hereinafter called Tutag) for the drug product X-OTag Plus Tablets (orphenadrine citrate 50 milligrams in combination with acetaminophen 325 milligrams) and for the abbreviated new drug application (ANDA 85-682) filed by Inwood Laboratories for the drug product Orphenesic. This notice pertains only to X-OTag Plus Tablets; the agency's conclusion on Orphenesic will be issued later.

On May 25, 1977, Tutag filed a request for a hearing, and on June 27, 1977 it submitted data and arguments in support of its request. The Commissioner of Food and Drugs has reviewed the submissions and has concluded that an evidentiary hearing should be held on the factual issues set out in this notice. The presiding officer at the hearing will be Administrative Law Judge Daniel J. Davidson. A prehearing conference is scheduled for March 6, 1978, in the FDA hearing room at the address given above. Parties to the hearing will be the Bureau of Drugs and Tutag.

The proposed factual issues set out in Tutag's hearing request illustrate a misconception of the purpose of an ANDA. Tutag apparently believes that an ANDA is something different from a new drug application (NDA). Tutag seems to argue that FDA, by authorizing use of an ANDA, is, in effect, declaring that the drug involved is "generally recognized as safe and effective" within the meaning of section 201(p) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321(p)), as long as

certain manufacturing and bioavailability data have been submitted. Such a declaration would, if the requirements of 21 U.S.C. 321(p)(2) had been met, make the drug in question not a "new drug," as defined by the statute. The Commissioner rejects this theory. While FDA's position on what an ANDA represents was stated clearly in the notice of opportunity for hearing, the Commissioner recognizes that one statement, made by FDA in the past, and quoted in the notice of opportunity for hearing herein, may have led to the confusion evidenced by Tutag's submission, i.e., that "an ANDA is appropriate only for those drugs which from a generic standpoint are generally recognized as safe and effective when they are properly labeled and manufactured." (42 FR 21851; April 29, 1977). This statement did not, however, as is clear from the context in which it is quoted, represent an agency position that approval of an ANDA was a declaration that the drug involved was "generally recognized as safe and effective." To the extent that the statement may be construed as supporting such a position, it is explicitly disavowed.

As stated in the notice of opportunity for hearing, an ANDA is a form of new drug application, which is deemed to include, by reference, safety and effectiveness data that have already been reviewed and found adequate. The Commissioner has not provided for and would not, within the limits of his statutory authority, be able to provide for, the approval of new drug applications that did not include, either physically or by reference, the safety and effectiveness data required by section 505 of the act (21 U.S.C. 355).

Should there be any further question on this point, it would be resolved by reference to the DESI (Drug Efficacy Study Implementation) notice, upon which approval of an ANDA would be based. In such notices (see, e.g., the notice concerning Norflex Tablets, in the FEDERAL REGISTER of March 11, 1974 (39 FR 9487)), the drugs involved are often declared to be "new drugs" even though those drugs are found to have evidence of effectiveness sufficient to justify approval of a new drug application, thus allowing use of an ANDA for those drugs (cf. *Weinberger v. Hynson, Westcott & Dunning, Inc.*, 412 U.S.C. 609, 631 (1973); "The Act is designed so that drugs on the market, unless exempt, will have mustered the requisite scientifically reliable evidence of effectiveness long before they are in a position to drop out of active regulation by ceasing to be a 'new drug'"). It would, of course, be anomalous for the agency, by approving an ANDA, to declare a drug not to be a new drug upon the basis of a FEDERAL REGISTER announcement that the drug was a new

drug. A DESI notice finding evidence of effectiveness, such as the one for Norflex Tablets relied upon by Tutag, is relevant only to this extent: It is a finding that a new drug application is appropriate for the particular drug involved in that notice, for the uses considered by that notice.

Accordingly, the Commissioner concludes that a hearing will be granted on the following factual issues, which reflect the statutory criteria, and are those that were identified in the notice of opportunity for hearing:

1. Whether the ANDA for X-OTag Plus contains adequate tests by all methods reasonably applicable to show whether or not such drug is safe for use under the conditions prescribed, recommended, or suggested in the proposed labeling thereof, as required by 21 U.S.C. 355(d)(1).

2. Whether the results of testing show that X-OTag Plus is safe for use under the conditions proposed in its proposed labeling, in accord with 21 U.S.C. 355(d)(2) and (4).

3. Whether, when evaluated on the basis of the information submitted as part of the ANDA and any other information before the Commissioner with respect to X-OTag Plus, there is substantial evidence, as defined in 21 U.S.C. 355(d) and 21 CFR 314.111(a)(5), that X-OTag Plus will have the effect it purports or is represented to have under its proposed conditions of use, pursuant to 21 U.S.C. 355(d)(5).

Since X-OTag Plus is a fixed-combination prescription drug for humans, its use may only be approved if the drug is found to comply with §300.50 (21 CFR 300.50). Accordingly, a fourth issue for this hearing is the following:

4. Whether each component of X-OTag Plus makes a contribution to the claimed effects and the dosage of each component (amount, frequency, duration) is such that the combination is safe and effective for a significant patient population requiring such concurrent therapy as defined in the labeling of the drug.

In the notice of opportunity for hearing, it was stated that, if a hearing were granted, any remaining issue about the approvability of the ANDA would be included in the notice of hearing. The review of the ANDA has been completed, and various additional deficiencies have been noted. Accordingly, the Commissioner identifies as additional issues for hearing the following:

5. Whether the methods used in, and the facilities and controls used for, the manufacture, processing, and packing of X-OTag Plus are adequate to preserve its identity, strength, quality, and purity within the meaning of 21 U.S.C. 355(d)(3) and of applicable regulations.

6. Whether, based on a fair evaluation of all material facts, such labeling is false and misleading in any particular, within the meaning of 21 U.S.C. 355(d)(5) and of applicable regulations.

The deficiencies identified in this regard are stated in a letter to Tutag. If, as often with deficiencies of this type, Tutag can remedy the problems,

these issues will, of course, be made moot. The Commissioner encourages this type of amicable settlement, but recognizes Tutag's right to dispute these issues at the hearing if it desires.

The notice of opportunity for hearing included the issue of whether or not X-Otag Plus is a "new drug" within the meaning of 21 U.S.C. 321(p). Tutag did not request a hearing on this issue, stating specifically that the "new drug" issue "is not involved in this proceeding." Tutag cannot, of course, prevent the Commissioner from acting through an administrative proceeding to declare a drug to be a new drug, simply by refusing to acknowledge the Commissioner's doing so. Here there was a formal announcement in the FEDERAL REGISTER that the FDA was declaring X-Otag Plus to be a new drug; there was a specific notice of an opportunity for a hearing on this issue; and no request for a hearing was made. The Commissioner is, therefore, declaring X-Otag Plus to be a "new drug." This declaration is parallel to and consistent with the finding of the District Court for Colorado in *United States v. An Article of Drug . . . X-Otag Plus*, Civil Action Nos. 77-F-248, 77-F-719 (November 9, 1977), on appeal, No. 77-1946 (10th Cir.). The Commissioner's position is that a drug may be declared to be a new drug either by a Federal Court in a judicial enforcement proceeding or by the Commissioner through an administrative proceeding. X-Otag Plus is a rare example of a situation in which the same declaration has been made in both forums. In the normal course of events, there would be no administrative declaration of new drug status to follow a judicial finding on this issue. The Commissioner is incorporating into the record that supports his decision on X-Otag Plus's "new drug" status the transcript of the court's proceedings in Colorado. The Commissioner concludes that the transcript fully supports the conclusion that X-Otag Plus is a new drug.

Another result of the unique circumstances involved with X-Otag Plus is that in the enforcement proceeding much testimony and documentary evidence has already been presented on questions that will be relevant to the administrative hearing on the approvability of the ANDA for X-Otag Plus. The enforcement proceeding was before a United States District Judge, and the circumstances in which evidence was presented, and in which the opportunity to cross-examine and otherwise challenge that evidence was accorded, provided the parties procedural safeguards that are identical to those present in an FDA administrative hearing. The Commissioner has no desire to see a duplication of the court enforcement proceeding in the administrative hearing. He is there-

fore directing the Administrative Law Judge to incorporate in his hearing record, to be treated identically with evidence which the Administrative Law Judge himself receives at the hearing, the transcript of the court proceeding. Thus the parties will be allowed to rely upon any testimony introduced in the court proceeding, and the parties will not be expected, for example, to have the same witnesses testify to the same facts or opinions as were presented in the court proceeding.

The Administrative Law Judge will be expected to exclude any such testimony on the grounds that it is repetitious. There will, of course, be no bar to the presentation of the same witnesses as were used in the court proceeding, as long as their testimony does not repeat testimony previously given. Similarly, there will be no bar to the presentation of testimony that was ruled irrelevant or otherwise inadmissible by the Judge in the court proceeding. The Administrative Law Judge will, of course, be free to exclude any such testimony if he finds that it is not, for the purposes of this proceeding, admissible. Although certain testimony in the court proceeding will be irrelevant to the administrative proceeding, the parties will be free to point out the lack of relevance in arguments, whether presented orally or in writing, to the Administrative Law Judge.

Pursuant to § 12.85 (21 CFR 12.85), the Bureau of Drugs of FDA has filed with the Hearing Clerk a narrative statement setting forth its position on the issues for hearing and a summary of the types of evidence intended to be introduced in support of its position at the hearing. The Bureau has also filed with the Hearing Clerk copies of the ANDA, published studies, and all other data bearing on the issues raised herein.

Interested persons may obtain a copy of the narrative statement from the office of the Hearing Clerk, at the address given above. Such persons may also examine the data on X-Otag Plus at the office of the Hearing Clerk, from 9 a.m. to 4 p.m., Monday through Friday.

The hearing will be in the FDA Hearing Room on a date to be set at the prehearing conference. Written notices of participation must be filed with the Hearing Clerk, not later than March 6, 1978.

The hearing will be open to the public. Any participant may appear in person, or by or with counsel, or with other qualified representatives, and may be heard on matters relevant to the issues under consideration. Participants other than the Bureau of Drugs shall disclose data and information pursuant to § 12.85 by April 4, 1978.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52

Stat. 1052-1053 as amended (21 U.S.C. 355)) and 21 CFR 314.200(g) and under authority delegated to him (21 CFR 5.1), the Commissioner orders that a public hearing be held on the issues set out in this notice.

Dated: January 30, 1978.

JOSEPH P. HILE,
Associate Commissioner for
Compliance.

CARCINOGENESIS PROGRAM SCIENTIFIC REVIEW COMMITTEE

Amended Meeting

Notice is hereby given of a change in meeting date of the Carcinogenesis Program Scientific Review Committee, National Cancer Institute, February 9-10, 1978, which was published in the FEDERAL REGISTER on January 13, 1978, (43 FR 2008).

This meeting will now be held on February 10, 1978, only, in Room 4C18, Landow Building, 7910 Woodmont Avenue, Bethesda, Md. The meeting will be open to the public from 8:30 a.m. to 9 a.m. Attendance by the public will be limited to space available.

Dated: January 27, 1978.

SUZANNE L. FREMEAUX,
Committee Management Officer,
National Institutes of Health.

Office of Education

EMERGENCY SCHOOL AID ACT

Notice of Closing Date for Receipt of Applications for the Magnet Schools, University/Business Cooperation; Neutral Site Planning; and Special Compensatory Projects for Fiscal Year 1978

Under the authority of the Emergency School Aid Act ("ESAA"; Title VII of Pub. L. 92-318, as amended (20 U.S.C. 1601-1619)), the Commissioner of Education invites local educational agencies to submit applications for the following types of assistance.

1. Magnet Schools, University/Business Cooperation Projects
2. Neutral Site Planning Projects
3. Special Compensatory Projects

Applications must be prepared and submitted in accordance with regulations, instructions, and forms included in the program information packages. Closing date: March 31, 1978.

A. *Applications sent by mail:* Applications sent by mail should be addressed to U.S. Office of Education, Application Control Center, Attention:

13.589 for Magnet Schools, University/Business Cooperation Projects; Attention: 13.590 for Neutral Site Planning Projects; and Attention: 13.532II for Special Compensatory Projects, Washington, D.C. 20202.

Applications must be received by the Application Control Center on or before the closing date. In an effort to prevent the late arrival of applications due to unforeseen circumstances, the Office of Education suggests that applicants consider the use of registered or certified mail as explained below.

An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than March 27, 1978, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare or the U.S. Office of Education mailrooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of these mailrooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare or the U.S. Office of Education.

B. *Hand-delivered applications:* An application to be hand delivered must be taken to the U.S. Office of Education, Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Hand-delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C., time, except Saturdays, Sundays, and Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

C. *Program information and forms:* Information and application forms may be obtained from the Special Projects Branch, Equal Educational Opportunity Programs, 400 Maryland Avenue SW., Washington, D.C. 20202.

The Commissioner anticipates that a total of \$33,500,000 will be available to support projects solicited by this notice. Of this amount, \$750,000 will be reserved for neutral site planning activities, \$19,250,000 will be available for activities relating to magnet schools or university/business cooperation, and \$13,500,000 will be reserved for special compensatory projects.

D. *Project periods:* Grants made pursuant to this notice will be for activities starting no earlier than July 1, 1978, and ending no later than September 30, 1979, but in no case for more than a 12-month period.

E. *For further information contact:* Dr. Thomas W. Fagan, Chief, Special Projects Branch, Equal Educational

Opportunity Programs, 400 Maryland Avenue SW., Room 1017, Washington, D.C. 20202. Telephone 202-245-2465.

F. *Applicable regulations:* Grant awards made pursuant to this notice will be subject to the following regulations:

(1) Regulations relating generally to programs under the Emergency School Aid Act (45 CFR Part 185) and, in particular;

(i) Regulations relating to Magnet Schools, University/Business Cooperation and Neutral Site Planning, including any amendments to those regulations adopted pursuant to the notice of proposed rulemaking published in this issue of the FEDERAL REGISTER; and

(ii) Regulations for Special Compensatory Projects adopted pursuant to the notice of proposed rulemaking published in the FEDERAL REGISTER on December 2, 1977 (42 FR 61402); and

(2) The Office of Education general provisions regulations (45 CFR Parts 100, 100a and appendixes), except to the extent that those regulations are inconsistent with 45 CFR Part 185.

(20 U.S.C. 1601-1619.)

(Catalog of Federal Domestic Assistance No. 13.589—Magnet Schools, University/Business Cooperation; 13.590—Neutral Site Planning; and 13.532—Special Projects—Emergency School Aid.)

Dated: January 19, 1978.

ERNEST L. BOYER,
U.S. Commissioner of Education.
[FR Doc. 78-2912 Filed 2-2-78; 8:45 am]

[4110-02]

GRADUATE AND PROFESSIONAL OPPORTUNITIES PROGRAM

Closing Date for Receipt of Applications for Fiscal Year 1978

Notice is hereby given that pursuant to the authority contained in Title IX, parts A and B, of the Higher Education Act of 1965, as amended, applications will be accepted from institutions of higher education for a fellowship allocation and/or institutional grant under the Graduate and Professional Opportunities Program. The purpose of this program is to provide opportunities for graduate or professional study, considering the need to serve underrepresented minority groups, through establishing or improving graduate and professional programs in institutions of higher education and providing fellowships for graduate and professional study for careers in which there is national need.

Closing date: April 21, 1978.

A. *Application forms and information:* Application forms are being prepared but are not yet available. We anticipate the application forms and pro-

gram information packages will be ready for mailing on or about February 17, 1978.

Applications must be prepared and submitted in accordance with regulations, instructions, and forms included in the program information packages.

B. *Applications sent by mail:* An application sent by mail should be addressed to: U.S. Office of Education, Application Control Center, Attention 13.589, Washington, D.C. 20202. Applications must be received by the Application Control Center on or before the closing date. In an effort to prevent the late arrival of applications due to unforeseen circumstances, the Office of Education suggests that applicants consider the use of registered or certified mail as explained below.

An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than April 17, 1978, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare or the U.S. Office of Education mail rooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of these mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.

C. *Hand-delivered applications:* An application to be hand-delivered must be taken to the U.S. Office of Education, Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

D. *State commission comments:* An application for an institutional grant shall provide assurances that the institution has notified the appropriate State Commission (established or designated under section 1202 of the Higher Education Act of 1965, as amended) and that the State Commission has been given the opportunity to offer recommendations on the application to the institution and to the Commissioner.

E. *Program information:* There is appropriated \$3.25 million for the two programs, which are new and have never been funded before. Of the total, \$2.75 million will be allocated to fund approximately 345 fellowships pursuant to Title IX-B, and \$500,000 will finance grants to 15 to 30 institutions of higher education pursuant to Title IX-A.

An institution may apply for a specific number of fellowships and/or an institutional grant. The single application form and instructions pertaining to both programs will be contained in the application package to be sent to all interested applicants.

F. For further information contact: Dr. Donald N. Bigelow, U.S. Office of Education, 400 Maryland Avenue SW., (ROB-3, Room 3060), Washington, D.C. 20202. Telephone 202-245-2347.

G. Applicable regulations: The regulations applicable to this program are the Office of Education General Provisions for Programs (45 CFR Part 100a) and the proposed regulations for Graduate and Professional Study Fellowships and Institutional Grants published on October 11, 1977, in the FEDERAL REGISTER (42 FR 54926) and included in the application package.

WOMEN'S EDUCATIONAL EQUITY ACT PROGRAM

Extension of Closing Date for Receipt of Applications

Notice is given that the January 12, 1978, deadline for filing new grants applications under the Women's Educational Equity Act Program published in the FEDERAL REGISTER on October 12, 1977, is extended to February 15, 1978. The closing date for continuation grants only remain April 14, 1978.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information packages.

(a) Applications sent by mail: An application sent by mail should be addressed to: U.S. Office of Education, Application Control Center, Attention: 13.565A for general grants and 13.565B for small grants, Washington, D.C. 20202.

An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than February 10, 1978, for new grants, and April 10, 1978, for continuations, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the

Department of Health, Education, and Welfare or the U.S. Office of Education mail rooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of these mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.

(b) Hand-delivered applications: An application to be hand-delivered must be taken to the U.S. Office of Education, Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Hand-delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications for new grants will not be accepted after 4 p.m. on the closing date.

(c) Program information: Applications for general and small grant awards for the Women's Educational Equity Act Program are being accepted from public agencies, private non-profit organizations, or individuals to promote educational equity for women under 45 CFR Part 160f. Applications for general grants are being accepted both from new applicants and from current multi-year grantees seeking continuations of their projects. Applications for new general and small grants must be received by the Application Control Center on or before the closing date. Continuation applications should be received by the Application Control Center on or before the closing date in order to be assured of consideration for funding.

In fiscal year 1978, \$8,085,000 will be available for approximately 30 small grants, 35 new general grants and 14 continuing projects. Small grants are not to exceed \$15,000 each; general grant awards will range from approximately \$35,000 to \$175,000, with the average award expected to be about \$95,000. It is expected that approximately one-half of all awards will be single-year grants, and one-half will be multi-year grants. Nothing in this paragraph is intended as a limitation binding the Office of Education to any particular pattern of distribution, except as may be required by statute or regulation.

(d) Preapplication: No preapplication will be required for fiscal year 1978.

(e) State comment: Concurrently with the submission of its application to the Commissioner, a local educational agency (LEA) must provide a copy of its application to the State educational agency (SEA) of the State in which the LEA is located. For verification of submission to the SEA, the LEA applicant must enclose in its application to the Office of Education a copy of the dated cover letter used to

forward a copy of its application to the SEA. An SEA wishing to submit advice and comment on any LEA application originating within its State may do so by forwarding that advice and comment to the Women's Program Staff (see address in paragraph (f) below). Advice and comments received from SEAs will be considered in reviewing applications if they are received no later than March 2, 1978, for LEA applications for new general and small grants, and no later than April 26, 1978, for LEA applications for continuation general grants.

(f) For further information and forms contact: Women's Program Staff, U.S. Office of Education, Room 2145, 400 Maryland Avenue SW., Washington, D.C. 20202. 202-245-2181.

(g) Applicable regulations: The regulations applicable to this program include (1) the Office of Education General Provisions Regulations (45 CFR Parts 100, 100a) and (2) the Women's Educational Equity Act Program Regulations (45 CFR Part 160f, 42 FR 33005 (June 28, 1977)). (20 U.S.C. 1866)

(Catalog of Federal Domestic Assistance Number 13.565, Women's Educational Equity Act Program)

Dated: February 1, 1978.

ERNEST L. BOYER,
U.S. Commissioner of Education.

[4110-12]

Office of the Secretary

OFFICE OF THE DEPUTY UNDER SECRETARY FOR INTERGOVERNMENTAL AFFAIRS

Statement of Organization Functions, and Delegation of Authority

Part A, of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare, has been amended to add a new Chapter ABC (Office of the Deputy Under Secretary for Intergovernmental Affairs). The new Statement reads as follows:

Section ABC.00—Mission. The Deputy Under Secretary for Intergovernmental Affairs serves as the principal advisor and Assistant to the Secretary and Under Secretary on intergovernmental affairs, with the responsibility for facilitating the coordination and implementation of Administration and Secretarial initiatives as they pertain to intergovernmental affairs at the Headquarters, region, State, local and community levels. The Deputy Under Secretary for Intergovernmental Affairs is the central point of reference in the Department for problems and questions involving these matters. The Deputy Under Secretary for Intergovernmental Affairs provides leadership, coordination, evaluation, and administrative direction to the Principal Regional Officials.

Section ABC.10—Organization. The Office of the Deputy Under Secretary for Intergovernmental Affairs is under the direction of and control of the Deputy Under Secretary for Intergovernmental Affairs, who reports directly to the Secretary and Under Secretary.

Section ABC.20—Functions. Deputy Under Secretary for Intergovernmental Affairs:

1. Undertakes a variety of assignments for the Secretary and Under Secretary in the area of intergovernmental affairs. As required, intervenes on behalf of the Secretary or Under Secretary on critical intergovernmental problems which are beyond the authority of the Principal Regional Officials (PRO) or which cross program/agency/department lines.

2. Advises on State and local impact of proposed Departmental action whether in legislation, regulation, or administrative decision.

3. Serves as the point of contact between the Principal Regional Officials and the Secretary and Under Secretary.

4. Responds to Secretarial initiatives having regional, State and local implications by directing the PROs to take specific actions and by advising as to emphasis to be placed on given activities.

5. Ensures a full and timely opportunity for the PROs to contribute to the planning, development and implementation of Department policies. Ensures the effective policy review of the intergovernmental concerns of the Principal Operating Components (POCs) and the regional offices.

6. Resolves intergovernmental problems and situations that cut across the POCs in the regions. Recommends actions to the Secretary and Under Secretary for resolving problems such as in-service and program integration and delivery, and assures appropriate implementation of cross-program policies in the regions.

7. Formulates and recommends Departmental policies on the delivery of services to States and communities. Provides advice on shaping HEW assistance to meet specific needs. Serves as a focal point for coordinated HEW efforts to deal with community problems as a whole.

8. Has primary responsibility to ensure consistency of approach, administration, and action of multi-agency programs as they impact on State and local governments. In this regard, provides policy leadership for the Department in several program areas with special intergovernmental focus: e.g., Intergovernmental Personnel Act, Joint Funding and Simplification Act, and Partnership Grant Program.

9. Represents the Secretary and Under Secretary in contacts with offi-

cials of other Federal agencies, Congressional committees, Members of Congress, officials of State and local governments, and non-governmental organizations in functions which cut across program lines. Strengthens relationships and collaborates with Governors, their key officials, county and city officials, and others on the effects of national goals and programs in health, education, and welfare.

10. Serves as liaison with the White House on matters of intergovernmental concern through the Assistant to the President for Intergovernmental Affairs.

Section ABC.30—Order of Succession. In the absence or disability of the Deputy Under Secretary for Intergovernmental Affairs, the Special Assistant to the Deputy Under Secretary for Intergovernmental Affairs acts for him. In the absence or disability of both the Deputy Under Secretary and the Special Assistant, the Secretary or Under Secretary will designate the Acting Deputy Under Secretary for Intergovernmental Affairs.

Section ABC.40—Delegation of Authority. [Reserved]

Dated: January 23, 1978.

Approved:

JOSEPH A. CALIFANO, Jr.,
Secretary.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

(F-14870-B)

ALASKA

Native Claims Selection

On December 5, 1974, Kaktovik Inupiat Corp., for the Native village of Kaktovik, filed selection application F-14870-B under the provisions of section 12 of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 701; 43 U.S.C. 1601, 1611 (Supp. V, 1975)), for the surface estate of certain lands in the Kaktovik area.

As to the lands described below, the application, as amended, is properly filed and meets the requirements of the Alaska Native Claims Settlement Act and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with Federal laws leading to acquisition of title. In view of the foregoing, the surface estate of the following described lands, selected pursuant to section 12(a), aggregating approximately 22,812 acres, is considered proper for acquisition by Kaktovik Inupiat Corp. and is hereby approved for conveyance pursuant to section 14(a) of the Alaska Native Claims Settlement Act:

UMIAT MERIDIAN, ALASKA (UNSURVEYED)

T. 2 S., R. 24 E.,
Secs. 1 to 24, inclusive, all;
Secs. 29 to 32, inclusive, all. Containing approximately 17,692 acres.

T. 2 S., R. 23 E.,
Secs. 25 to 28, inclusive, all;
Secs. 33 to 36, inclusive, all. Containing approximately 5,120 acres.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

1. A right-of-way thereon for ditches and canals constructed by the authority of the United States, as prescribed and directed by the act of August 30, 1890, 26 Stat. 391, 43 U.S.C. 945;

2. A right-of-way thereon for the construction of railroads, telegraph, and telephone lines, as prescribed and directed by the act of March 12, 1914, 38 Stat. 305, 43 U.S.C. 975d;

3. The subsurface estate therein, and all rights, privileges, immunities, and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 704; 43 U.S.C. 1601, 1613(f) (Supp. V, 1975)); and

4. Pursuant to section 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 708; 43 U.S.C. 1601, 1616(b) (Supp. V, 1975)), the following public easements, referenced by easement identification number (EIN) on the easement maps in case file F-14870-EE, are reserved to the United States and subject to further regulation thereby:

U
M
I

a. (EIN 16 C) The right of the United States to enter upon the lands hereinabove granted for cadastral, geodetic, or other survey purposes is reserved, together with the right to do all things necessary in connection therewith.

b. (EIN 17 C) Easements for the transportation of energy, fuel, and natural resources which are the property of the United States or which are intended for delivery to the United States or which are produced by the United States. These easements also include the right to build any related facilities necessary for the exercise of the right to transport energy, fuel, and natural resources, including those related facilities necessary during periods of planning, locating, constructing, operating, maintaining, or terminating transportation systems. The specific location of these easements shall be determined only after consultation with the owner of the servient estate. Whenever the use of such easements will require removal or relocation of any structure owned or authorized by the owner of the servient estate, such use shall not be initiated without the consent of the owner of such improvement; provided, however, that the United States may exercise the right of eminent domain if such consent is not given. Only those portions of these easements that are actually in use or that are expressly authorized on March 3, 1996, shall continue to be in force. The grant of lands shall be subject to:

1. Issuance of a patent confirming the boundary description of the lands hereinabove granted after approval and filing by the Bureau of Land Management of the official plat of survey covering such lands.

2. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under section 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339, 341; 48 U.S.C. ch. 2, sec. 6(g) (1970))), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him;

3. Requirements of section 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 703; 43 U.S.C. 1601, 1613(c) (Supp. V, 1975)), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section;

4. The terms and conditions of the agreement dated August 6, 1976, between the Secretary of the Interior, Arctic Slope Regional Corp., Kaktovik Inupiat Corp., and the seven other Arctic Slope village corporations. A copy of the agreement shall be attached to and become a part of the conveyance document and shall be recorded therewith. A copy of the agreement is located in the Bureau of Land Management easement case file for Kaktovik Inupiat Corp., serialized F-14870-EE. Any person wishing to examine this agreement may do so at the Bureau of Land Management, Alaska State Office, 555 Cordova Street, Anchorage, Alaska 99501.

Pursuant to section 14(f) of the Alaska Native Claims Settlement act, conveyance of the subsurface estate of the lands described herein shall be granted to Arctic Slope Regional Corp. when conveyance is granted to Kaktovik Inupiat Corp. for the surface estate, and shall be subject to the same conditions as the surface conveyance. Kaktovik Inupiat Corp. is entitled to conveyance of 92,160 acres of land selected pursuant to section 12(a) of the Alaska Native Claims

Settlement act. Upon conveyance of the 22,812 acres described herein, a total of approximately 88,592 acres, of which 65,774 acres lie within the Arctic National Wildlife Range, will have been conveyed to that corporation. The remaining entitlement will be conveyed at a later date.

There are no inland water bodies considered to be navigable within the lands described.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the FEDERAL REGISTER and once a week, for four (4) consecutive weeks, in the Fairbanks Daily News-Miner. Any party claiming a property interest in lands affected by this decision may appeal the decision to the Alaska Native Claims appeal Board, P.O. Box 2433, Anchorage, Alaska 99510, with a copy served upon both the Bureau of Land Management, Alaska State Office, 555 Cordova Street, Anchorage, Alaska 99501, and the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501, also:

1. Any party receiving service 15 if this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Any unknown parties, any parties unable to be located after reasonable efforts have been expended to locate, and any parties who failed or refused to sign the return receipt shall have until March 6, 1978, to file an appeal.

3. Any party known or unknown who may claim a property interest which is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Alaska Native Claims Appeal Board.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeal. Further information on the manner of, and requirements for, filing an appeal may be obtained from the Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501.

If an appeal is taken, the adverse parties to be served are:

Kaktovik Inupiat Corp., P.O. Box 73, Kaktovik, Alaska 99747.

Arctic Slope Regional Corp., P.O. Box 129, Barrow, Alaska 99723.

ROBERT E. SORENSON,
Chief, Branch of Lands
and Minerals Operations.

[4310-84]

[F-14834-A]

ALASKA

Native Claims Selection

On December 28, 1973, Atkasook Corp., for the Native village of Atkasook, filed selection application F-14834-A under the provisions of section 12 of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 701; 43 U.S.C. 1601, 1611 (Supp. V, 1975)), for the surface estate of certain lands in the Atkasook area.

As to the lands described below, the application, as amended, is properly filed and meets the requirements of

the Alaska Native Claims Settlement Act and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with Federal laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands, selected pursuant to section 12(a), aggregating approximately 2,300 acres, is considered proper for acquisition by Atkasook Corp. and is hereby approved for conveyance pursuant to section 14(a) of the Alaska Native Claims Settlement Act:

UMIAT MERIDIAN, ALASKA (UNSURVEYED)

T. 13 N., R. 21 W.,

Secs. 19 and 20, those portions of tracts 1 and 2 of ANCSA 3(e) application F-22435 lying therein;

Secs. 29 to 32, inclusive, those portions of tract 2 of ANCSA 3(e) application F-22435 lying therein. Containing approximately 2,300 acres.

Upon conveyance of the above lands, all of sections 19, 20, and 29 through 32 will have been conveyed to Atkasook Corp.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

(1) A right-of-way thereon for ditches and canals constructed by the authority of the United States, as prescribed and directed by the act of August 30, 1890, 26 Stat. 391, 43 U.S.C. 945;

(2) A right-of-way thereon for the construction of railroads, telegraph, and telephone lines, as prescribed and directed by the act of March 12, 1914, 38 Stat. 305, 43 U.S.C. 975d;

(3) The subsurface estate therein, and all rights, privileges, immunities, and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 704; 43 U.S.C. 1601, 1613(f) (Supp. V, 1975)); and

(4) Pursuant to section 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 708; 43 U.S.C. 1601, 1616(b) (Supp. V, 1975)), the following public easements, referenced by easement identification number (EIN) on the easement map in case file F-14834-EE, are reserved to the United States and subject to further regulation thereby:

(a) (EIN 1 C5, D1) An easement for an existing access trail fifty (50) feet in width through village lands to public lands to the north and south. The usage of roads and trails will be controlled by applicable State or Federal law or regulation.

(b) (EIN 3 C3, C5, D1, D9, L) A streamside easement twenty-five (25) feet in width upland of and parallel to the ordinary high-water mark on all banks and an easement on the entire bed of Meade River. Purpose is to provide for public use of waters having highly significant present recreational use.

(c) (EIN 5 C5, D9) An easement for a campsite and a landing site for public access and safety on the site of the existing airstrip at Atkasook. Said easement is to be three thousand (3,000) feet in length and extending two hundred (200) feet northerly of and parallel to the centerline of the existing airstrip, and extending five hundred (500) feet southerly of and parallel to said

centerline. (Total dimensions of the easement are three thousand (3,000) feet by seven hundred (700) feet.)

(d) (EIN 6 C) The right of the United States to enter upon the lands hereinabove granted for cadastral, geodetic, or other survey purposes is reserved, together with right to do all things necessary in connection therewith.

(e) (EIN 7 C) Easements for the transportation of energy, fuel, and natural resources which are the property of the United States or which are intended for delivery to the United States or which are produced by the United States. These easements also include the right to build any related facilities necessary for the exercise of the right to transport energy, fuel, and natural resources, including those related facilities necessary during periods of planning, locating, constructing, operating, maintaining, or terminating transportation systems. The specific location of these easements shall be determined only after consultation with the owner of the servient estate. Whenever the use of such easements will require removal or relocation of any structure owned or authorized by the owner of the servient estate, such use shall not be initiated without the consent of the owner of such improvement; provided, however, that the United States may exercise the right of eminent domain if such consent is not given. Only those portions of these easements that are actually in use or that are expressly authorized on March 3, 1996, shall continue to be in force.

(f) In addition to the foregoing, the United States incorporates by reference the agreement of May 14, 1974, between the United States Department of the Navy, Arctic Slope Regional Corp. and four Arctic Slope village corporations, and reserves those easements necessary to implement said agreement. A copy of the agreement is located in Bureau of Land Management file F-14834-EE.

The grant of lands shall be subject to:

(1) Issuance of a patent confirming the boundary description of the lands hereinabove granted after approval and filing by the Bureau of Land Management of the official plat of survey covering such lands;

(2) Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under section 6(g) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 339, 341; 43 U.S.C. ch. 2, sec. 6(g) (1970))), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him;

(3) Requirements of section 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 703; 43 U.S.C. 1601, 1613(c) (Supp. V, 1975)), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section; and

(4) The terms and conditions of the agreement of August 6, 1976, between the Secretary of the Interior, Arctic Slope Regional Corp., Atkasook Corp., and the seven other Arctic Slope village corporations. A copy of the agreement shall be attached to and become a part of the conveyance document and shall be recorded therewith. A copy of the agreement is located in Bureau of Land Management easement case file for Atkasook Corp., serialized F-14834-EE. Any person wishing to examine this agreement may do so at the Bureau of Land Management, Alaska State Office, 555 Cordova Street, Anchorage, Alaska 99501.

ALASKA

Native Claims Selection

On December 12, 1975, Sealaska Corp. filed applications under the provisions of section 14(h)(1) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 43 U.S.C. 1601), for certain lands in the Tongass National Forest, Alaska. The lands described below are, as of the date of filing, segregated subject to valid existing rights, from all forms of appropriation under the public land laws. The applications cover a portion of the subdivisions described below.

Geological Survey
SAFETY AND POLLUTION-PREVENTION
STANDARDS PROGRAM

The comment period is extended to March 3, 1978, for the proposal that the U.S. Geological Survey adopt ANSI/ASME Generic Quality Assurance and Laboratory Accreditation Standards OCS-1-1977 and OCS-2-1977.

Several requests have been received to extend the February 2, 1978, due date for written comments on the proposed adoption of the above Standards as published in the FEDERAL REGISTER on January 3, 1978 (vol. 43, No. 1, FR 39).

In consideration of these requests and the relatively short comment period of the original Notice, the Geological Survey hereby extends the comment period to March 3, 1978.

W. A. RADLINSKI,
Acting Director.

National Park Service
BIG THICKET NATIONAL PRESERVE, TEX.

Availability of Proposed Plan for Visitor Use
and General Development Negative Declara-
tion

Proposals for the visitor use and general development of the Big Thicket National Preserve were outlined in a Workbook of Alternatives and discussed at four public workshops April 19 through 22, 1976, then further refined and presented in a Proposal/Assessment widely distributed and available for review and comment from January 24 to March 31, 1977.

The National Park Service has now prepared a plan which considers the past public involvement and review input and which is based on a sound planning process rationale. The plan is designed to implement measures soon that will serve both long and short-

term needs in preserving and protecting the fragile and widely scattered Preserve resources and at the same time provide for visitor use and enjoyment of the Preserve lands.

The plan describes locations for district offices and a visitor center/headquarters. It also lists the visitor use facilities proposed for each of the 12 units of the Preserve. An Analysis of Public comments received is included as Appendix A and proposed Special Regulations for the Preserve are Appendix B.

Copies of the plan will be sent to all persons, agencies and organizations that commented on the Proposal/Assessment and are available at the following locations: Big Thicket National Preserve, 6725 Eastex Freeway, P.O. Box 7408, Beaumont, Tex. 77706; Southwest Regional Office, National Park Service, 1100 Old Santa Fe Trail, P.O. Box 728, Santa Fe, New Mexico 87501; and National Park Service, Room 10-G-3, Fritz G. Lanham Federal Center, 819 Taylor Street, Fort Worth, Tex. 76102. Copies of the Proposal/Assessment are also still available at the above locations.

It is the conclusion of the National Park Service that the plan outlined is not a major Federal action that will significantly affect the environment and the controversy of the issues has been mitigated through adjustments to the plan. It is also determined that the minor changes in the plan that were not described in the Proposal/Assessment do not require a revision in the Proposal/Assessment. More detailed plans and specifications will be prepared and the plan will be implemented as soon as possible. No environmental statement will be prepared. Anyone wishing to comment on the plan or on the proposed Special Regulations should address them to the Superintendent at the Beaumont address on or before March 6, 1978.

Dated: January 23, 1978.

JOHN E. COOK,
Regional Director Southwest
Region, National Park Service.

GATEWAY NATIONAL RECREATION AREA
ADVISORY COMMISSION

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Gateway National Recreation Area Advisory Commission will be held commencing at 10 a.m. on Thursday, February 23, 1978, at Federal Hall, 26 Wall Street, New York, N.Y. The Commission was established by Pub. L. 92-592 to meet and consult with the Secretary of the Interior on general policies and specific matters relating to the development of Gateway National Recreation Area. The members of the Commission are:

Marian Heiskell, Chairlady, New York, N.Y.
Archibald S. Alexander, Bernardsville, N.J.
John F. Haggerty, Forest Hills, N.Y.
Orin Lehman, New York, N.Y.
Gordon N. Litwin, Little Silver, N.J.
Terrence D. Moore, Newark, N.J.
Sheldon Pollack, New York, N.Y.
Barbara Reach, New York, N.Y.
Richard J. Sullivan, Hoboken, N.J.
Nathaniel Washington, Newark, N.J.
Joseph B. Williams, Brooklyn, N.Y.

The matters to be discussed at this meeting include: 1. Superintendent's report on General Administrative and Management matters.

2. Reports by standing Advisory Commission Sub-Committees.

3. Narrative of events and actions regarding storm damage at Sandy Hook Unit.

4. Assistant Superintendent, Co-op Activities report on the status and future of YACC and Job Corps programs at Gateway National Recreation Area.

5. Presentation by Harpers Ferry Center on the draft Interpretive Prospectus Plan.

6. New business.

The meeting will be open to the public. However, facilities and space to accommodate members of the public are limited and persons will be accommodated on a first-come, first-served basis. Any members of the public may file with the Commission a written

statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting, or who wish to submit written statements, may contact Herbert Cables, Superintendent, Gateway National Recreation Area, Headquarters, Building 69, Floyd Bennett Field, Brooklyn, N.Y. 11234, Area Code 212-252-9150. Minutes of the meeting will be available for inspection 4 weeks after the meeting at the Gateway National Recreation Area Headquarters Building.

Dated: January 26, 1978.

HERBERT S. CABLES, Jr.
Superintendent.

HERBERT HOOVER NATIONAL HISTORIC SITE,
IOWA

Boundary Clarification

There appeared in the FEDERAL REGISTER in Vol. 37, No. 160 on Thursday, August 17, 1972, a Notice of the Establishment of the Herbert Hoover National Historic Site. In that notice the area established was depicted on map numbered 43220.001C dated October, 1971, which map is on file in the administrative offices for the Herbert Hoover National Historic Site and in the offices of the National Park Service, Department of the Interior, Washington, D.C.

The exact boundaries of the area set out in map numbered 43220.001C have caused some problems in clarification.

Now, therefore, in order to clarify the authorized boundaries of the Herbert Hoover National Historic Site, the following description is published:

A portion of land in Sections 7 and 8, T 79 N, R 4 W of the 5th Prime Meridian, in Cedar County, in the state of Iowa, more particularly described as follows:

Commencing at a brass cap in concrete at the intersection of the centerlines of Main and Downey Streets, in the City of West Branch, Iowa, which marks the northwest corner of said Section 8; thence S 0°53'02" E, 119.70 feet along the centerline of Downey Street to the point of beginning; thence N 86°07'40" E, 33.05 feet to a point in the east right-of-way line of Downey Street marked by a standard NPS brass cap in concrete stamped BDY-31; thence N 89°05'46" E, 111.92 feet to a standard NPS aluminum monument stamped BDY-32; thence N 0°53'02" W, 85.00 feet to a point in the south right-of-way line of Main Street marked by a standard NPS brass cap in a concrete sidewalk, stamped BDY-33; thence N 89°05'46" E, 551.73 feet along said south right-of-way line of Main Street to a point in the east right-of-way line of Second Street marked by a standard NPS aluminum monument stamped BDY-1; thence S 1°00'56" E, 645.57 feet along the east right-of-way line of Second Street to a standard aluminum monument stamped BDY-2; thence S 88°58'27" W,

161.85 feet crossing Second Street and along the lot line between lots G and F, Block 3, Cameron Addition to the city of West Branch, to the northwest corner of Lot F marked by a standard NPS aluminum monument stamped BDY-3; thence S 1°00'56" E, 109.99 feet along the west line of said lot F to its southwest corner marked by a standard NPS aluminum monument stamped BDY-4; thence S 88°58'27" W, 205.57 feet along the south line of lot F, of said Block 3, marked by a standard NPS aluminum monument stamped BDY-5; thence S 0°52'45" E, 165.00 feet to a standard NPS aluminum monument stamped BDY-6; thence S 89°00'48" W, 8.91 feet to a standard NPS aluminum monument stamped BDY-7; thence S 0°56'55" E, 250.49 feet to a point in the centerline of First Street marked by a standard NPS brass cap in concrete stamped BDY-8; thence S 89°05'03" W, 157.35 feet along the lot line between lots 4 and 5, Block 31, Cameron Addition to the City of West Branch, to a standard NPS aluminum monument stamped BDY-9; thence S 0°53'00" E, 433.32 feet to a standard NPS aluminum monument stamped BDY-10; thence S 89°24'22" W, 164.99 feet to a point in the centerline of Downey Street which lies S 0°53'02" E, 1637.28 feet from said northwest corner of Section 8; thence continuing S 89°24'22" W, 65.00 feet to a standard NPS aluminum monument stamped BDY-11; thence S 0°56'18" E, 286.09 feet to a standard Iowa Department of Transportation iron rail marking the right-of-way line of Freeway I-80; thence S 28°53'30" W, 90.29 feet to a standard Iowa D.O.T. iron rail marking said right-of-way line; thence S 44°31'51" W, 520.75 feet to a standard Iowa D.O.T. iron rail marking said right-of-way line; thence Southwesterly 321.15 feet along a non-tangent curve concave northwesterly in said right-of-way line having a radius of 683.96 feet, through a central angle of 28°54'10", to a standard Iowa D.O.T. iron rail; thence S 86°37'27" W, 1029.44 feet along said non-tangent right-of-way line to a standard Iowa D.O.T. iron rail; thence westerly 751.78 feet along a non-tangent curve concave northerly in said right-of-way line having a radius of 5569.69 feet, through a central angle of 7°44'01", to a standard Iowa D.O.T. iron rail; thence N 84°20'12" W, 114.76 feet to a point in said non-tangent right-of-way line which lies N 0°57'32" W, 228.10 feet from the center of said Section 7; thence continuing N 84°20'12" W, 383.18 feet along said right-of-way line to a standard Iowa D.O.T. iron rail; thence westerly 312.69 feet along a non-tangent curve concave northerly in said right-of-way line having a radius of 5589.69 feet, through a central angle of 3°12'19", to a point from which a radial line bears N 13°51'25" E; thence N 0°57'32" W, 0.69 feet to a standard NPS aluminum monument stamped BDY-19; thence continuing N 0°57'32" W, 968.48 feet to a standard NPS aluminum monument stamped BDY-POL; thence continuing N 0°57'32" W, 1358.28 feet to a standard NPS aluminum monument stamped BDY-20; thence continuing N 0°57'32" W, 5.51 feet to a point in the southerly right-of-way line of State Highway No. 1; thence N 87°08'43" E, 571.43 feet along said southerly right-of-way line of State Highway No. 1 to a standard Iowa D.O.T. iron rail; thence continuing N 87°08'43" E, 113.88 feet along said right-of-way line to a point which lies

N 0°57'32" W, 44.84 feet from a standard NPS aluminum monument stamped BDY-21; thence N 88°27'16" E, 505.10 feet to a point which lies S 38°19'53" E, 2.18 feet from a standard NPS aluminum monument stamped BDY-22; thence S 38°14'26" E, 457.10 feet (through a 1/4" iron rod at 385.43 feet) to a standard NPS aluminum monument stamped BDY-23; thence N 87°21'51" E, 571.92 feet to a 3"x6" white stone buried 3 inches below ground; thence N 86°38'04" E, 290.73 feet to a standard NPS aluminum monument stamped BDY-25; thence N 89°57'34" E, 577.81 feet to a standard NPS aluminum monument stamped BDY-26 at the southwest corner of Block 45 of Steers Plat; thence N 1°15'03" W, 230.36 feet along the west line of said Block 45 to its northwest corner, marked by a standard NPS brass cap in concrete stamped BDY-27; thence N 88°30'53" E, 151.99 feet along the north line of said Block 45 to its northeast corner, marked by a standard NPS brass cap in concrete stamped BDY-28; thence N 64°33'17" E, 37.07 feet to a point in the back of curb line projected westerly, marked by a standard NPS brass cap in concrete stamped BDY-29; thence N 88°30'51" E, 202.99 feet along the back of curb on the north side of Wetherell Street to a point in the west right-of-way line of Downey Street marked by a standard brass cap in concrete stamped BDY-30; thence N 86°07'40" E, 33.04 feet to the point of beginning.

Dated: January 25, 1978.

[Order No. 1, Amdt. 5]

SUPERINTENDENTS, ET AL., ROCKY MOUNTAIN
REGION

Delegation of Authority

Rocky Mountain Region Order No. 1, approved February 27, 1974, and published in the FEDERAL REGISTER of April 5, 1974 (39 FR 12369), as amended, sets forth in section 1 exceptions and restrictions on the authority delegated to Superintendents. This amendment adds paragraph (c) to read as follows:

SECTION 1. Superintendents * * * (c) Authority for assignment of incidental pilots.

Section 2 sets forth limitations on redelegations of authority. This amendment changes Section 2, paragraphs (c), (d), (e), and (g) to read as follows:

SEC. 2. Delegation * * * (c) Regional chief, branch of contracting. The regional chief, branch of contracting

may execute, approve, and administer contracts not in excess of \$200,000 for equipment, supplies, and services in conformity with applicable regulations and statutory authority and subject to the availability of appropriated funds. This authority may be exercised by the regional chief, branch of contracting in behalf of any office or area for which the Rocky Mountain regional office serves as the field finance office.

(d) Regional contract specialist. The regional contract specialist may execute, approve and administer contracts not in excess of \$100,000 for equipment, supplies, and services in conformity with applicable regulations and statutory authority and subject to the availability of appropriated funds. This authority may be exercised by the Regional Contract Specialist in behalf of any office or area for which the Rocky Mountain Regional Office serves as the field finance office.

(e) Regional purchasing agents. The regional purchasing agents may execute, approve and administer contracts not in excess of \$50,000 for equipment, supplies, and services in conformity with applicable regulations and statutory authority and subject to the availability of appropriated funds. This authority may be exercised by the Regional Purchasing Agents in behalf of any office or area for which the Rocky Mountain Regional Office serves as the field finance office.

(g) Field land acquisition officers. Field land acquisition officers and in-holding realty specialists are authorized to execute the land acquisition program in their assigned area, including contracting for acquisition of lands and related property and acceptance of offers to sell to or exchange with the United States, land or interest in lands, when the amount does not exceed \$250,000, and to approve claims for reimbursement under Pub. L. 91-646 when the amount does not exceed \$5,000. Said authority will be exercised in conformity with applicable regulations and statutory authority and subject to the availability of appropriated funds.

(National Park Service Order No. 77 (38 FR 7478) as amended.)

Dated: November 29, 1977.

GLEN T. BEAN,
Acting Regional Director,
Rocky Mountain Region.

INTERNATIONAL TRADE
COMMISSION

[Investigation 337-TA-391]

CERTAIN LUGGAGE PRODUCTS

Prehearing Conference and Hearing

Notice is hereby given that a prehearing conference will be held in con-

nection with the above styled investigation at 10 a.m. on February 15, 1978, in the Hearing Room of the Administrative Law Judge, Room 610 Bicentennial Building, 600 E Street NW., Washington, D.C. On or before February 14, 1978, the parties will have completed service of prehearing statements by order of the Presiding Officer. The purpose of this prehearing conference is to review such statements, complete the exchange of exhibits, and resolve any other necessary matters in preparation for the hearing.

Notice is also given that the hearing on complainant's temporary exclusion order request in this proceeding will commence at 10 a.m. on February 21, 1978, in the Hearing Room of the Administrative Law Judge, Room 610 Bicentennial Building, 600 E Street NW., Washington, D.C., and will continue daily until completed.

The Secretary shall serve a copy of this notice upon all parties of record, and shall publish this notice in the FEDERAL REGISTER.

Issued January 27, 1978.

DONALD K. DUVALL,
Presiding Officer.

DEPARTMENT OF LABOR

Employment and Training Administration

EMPLOYMENT TRANSFER AND BUSINESS COMPETITION DETERMINATIONS

Notice of Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 USC 1924(b), 1932, or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate, or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is

likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75. In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.
2. Employment trends in the same industry in the local area.
3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.
4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).
5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determinations which must be made regarding these applications are invited to submit such information in writing within two weeks of publication of this notice to: Deputy Assistant Secretary for Employment and Training, 601 D Street NW., Washington, D.C. 20213.

Signed at Washington, D.C. this 30th day of January 1978.

ERNEST G. GREEN,
Assistant Secretary for
Employment and Training.

APPLICATIONS RECEIVED DURING THE WEEK ENDING JANUARY 27, 1978

Name of Applicant and Location of Enterprise	Principal Product or Activity
Sunshine Management, Chico, Calif.	Prepared food.

Office of the Secretary WORKER ADJUSTMENT ASSISTANCE Investigations Regarding Certifications of Eligibility

Petitions have been filed with the Secretary of Labor under section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigations pursuant to section 221(a) of the Act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of imports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or pro-

duction, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 13, 1978.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 13, 1978.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 12th day of January 1978.

MARVIN M. FOOKS,
Director, Office of
Trade Adjustment Assistance.

to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment As-

sistance, at the address shown below, not later than February 13, 1978.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 13, 1978.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 23d day of January 1978.

MARVIN M. FOOKS,
Director, Office of
Trade Adjustment Assistance.

Wage and Hour Division

CERTIFICATES AUTHORIZING THE EMPLOYMENT OF LEARNERS AT SPECIAL MINIMUM WAGES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act (52 Stat. 1062, as amended; U.S.C. 214), Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and Administrative Order No. 1-76 (41 18949), the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. For each certificate, the effective and expiration dates, number or proportion of learners, and the principal product manufactured by the establishment are as indicated. Conditions on occupations, wage rates, and learning periods which are provided in certificates issued under the supplemental industry regulations cited in the captions below are as established in those regulations; such conditions in certificates not issued under the supplemental industry regulations are as listed.

The following certificates were issued under the apparel industry

learner regulations (29 CFR 522.1 to 522.9, as amended and 522.20 to 522.25, as amended). The following normal labor turnover certificates authorize 10 percent of the total number of factory production workers except as otherwise indicated.

Bob Evans of Kentucky, Inc., Burkesville, Ky.; 10-30-77 to 10-29-78 (women's uniforms).

Continental Apparel Mfg. Co., Inc., De-Funiak Springs, Fla.; 10-24-77 to 10-23-78 (ladies' pants and blouses).

Crane Mfg. Co., Marionville, Mo.; 12-27-77 to 12-26-78 (ladies' and men's jeans).

Elder Mfg. Co., Webb City, Mo.; 10-31-77 to 10-30-78 (men's and boys' shirts).

R. Fox, Ltd., Belleville, Ill.; 11-28-77 to 11-27-78 (men's slacks).

Franklin Ferguson Co., Inc., Florala, Ala.; 12-19-77 to 12-18-78 (men's and boys' shirts).

McCreary Mfg. Co., Stearns, Ky.; 12-8-77 to 12-7-78 (men's shirts).

Monticello Mfg. Co., Inc., Monticello, Ky.; 12-8-77 to 12-7-78 (men's and boys' shirts).

Rector Sportswear Corp., Rector, Ark.; 11-15-77 to 11-14-78 (men's pants).

J. H. Rutter Rex Mfg. Co., Inc., New Orleans, La.; 10-12-77 to 10-11-78 (men's shirts and pants).

Saxon Trouser Mfg. Co., Scranton, Pa.; 9-25-77 to 9-24-78 (men's pants).

Stapleton Garment Co., Inc., Stapleton, Ga.; 9-23-77 to 9-22-78 (men's and boys' pants).

Sulcraft Mfg. Co., Inc., Dushore, Pa.; 10-25-77 to 10-24-78; 10 learners (men's and boys' pajamas).

Toll-Gate Garment Corp., Hamilton, Ala.; 10-13-77 to 10-12-78 (men's shirts).

Wyoming Valley Garment Co., Wilkes-Barre, Pa.; 11-8-77 to 11-7-78; 10 learners (men's pants).

The following new plants were issued certificates authorizing the number of learners indicated.

Limestone Clothing Corp., Limestone, Tenn.; 10-3-77 to 4-2-78; 15 learners for new plant (men's and women's pants).

Limestone Clothing Corp., Unicoi, Tenn.; 10-3-77 to 4-2-78; 15 learners for new plant (men's and women's pants).

The following certificate was issued under the knitted wear industry regulations (29 CFR 522.1 to 522.9, as amended and 522.30 to 522.35 and amended).

Junior Form Lingerie Corp., Boswell, Pa.; 10-11-77 to 10-10-78; 5 percent of the total number of factory production workers for normal labor turnover purposes (ladies' underwear and sleepwear).

The following certificate was issued under the glove industry learner regulations (29 CFR 522.1 to 522.9, as amended and 522.60 to 522.65 as amended).

Burnham-Edina Mfg. Co., Edina, Mo.; 11-8-77 to 11-7-78; 5 learners for normal labor turnover purposes (work gloves).

Each learner certificate has been issued upon the representations of the

employer which, among other things were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificate may be annulled or withdrawn as indicated therein, in the manner provided in 29 CFR Part 528. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof on or before February 21, 1978.

Signed at Washington, D.C., this 31st day of January 1978.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (78-4)]

NASA AEROSPACE SAFETY ADVISORY PANEL

Meeting

The Aerospace Safety Advisory Panel will meet on February 21, 1978, in Room 7002, Federal Office Building 6, 400 Maryland Avenue SW., Washington, D.C. The Panel will meet for administrative and housekeeping purposes to develop the years work plan and the individual areas of responsibility. The meeting is open to the public and will begin at 9 a.m. and continue until the task is completed. The seating capacity of the room is about 40 persons, including members and other participants. Visitors will be requested to sign a visitor's register.

The Panel is chartered by Congress "to review safety studies and operations plans referred to it and shall make reports thereon, shall advise the Administrator with respect to the hazards of proposed or existing facilities and proposed operations and with respect to the adequacy of proposed or existing safety standards, and shall perform such other duties as the Administrator may request."

Pursuant to carrying out its statutory duties, the Panel reviews, evaluates, and advises on those program activities, systems, procedures, and management policies that contribute to risk and provide identification and assessment of these for management. Priority is given to those programs that involve the safety of manned flight.

Chairman of the Panel is Mr. Herbert Grier. The contact for further information is Carl R. Praktish, Executive Secretary, Aerospace Safety Advisory Panel, 400 Maryland Avenue SW.,

NATIONAL COMMISSION ON NEIGHBORHOODS

MEETING

ACTION: Notice of meeting.

SUMMARY: This notice, required under the Federal Advisory Committee Act (5 U.S.C. Appendix I), announces a public meeting.

TIME AND DATE: 8 p.m. (eastern standard time) on Friday, February 17, 1978 and 9 a.m. (eastern standard time) on Saturday, February 18, 1978.

PLACE: (February 17 meeting) Bond Court Hotel, 777 St. Clair Avenue, Cleveland, Ohio, (February 18 meeting) Catholic Center, 1033 Superior Avenue, Cleveland, Ohio.

AGENDA:

February 17 Meeting:

1. Task Forces meet;
2. Task Forces report to Commission;
3. Staff Director's report; discussion of future field visits; and
4. General discussion.

February 18 Meeting:

1. Testimony by invited witnesses from community organizations, private sector, and local government; and
2. Open microphone period for comments from the audience.

STATUS: Open to the public.

CONTACT PERSON: Ms. Frances Phipps, Deputy Director, 202-632-5200.

JONATHAN STEIN,
Administrative Officer.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Arts

VISUAL ARTS ADVISORY PANEL

Amended Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that the meeting of the Visual Arts Advisory Panel (Policy) to the National Council on the Arts which was listed on page 2464 of Volume 43, Number 11, Tuesday, January 17, 1978, issue of the FEDERAL REGISTER is amended in the following way:

The meeting on February 2, 1978, from 9:30 a.m. to 5:30 p.m., was originally scheduled to meet in the Mandeville Suite of the University of California-San Diego. The meeting will now occur in Conference Room 111A of the Matthews Campus (Chancellor's Complex) of the University of California-San Diego, in La Jolla, Calif. The February 3, 1978, session of the meeting will not change: 9:30 a.m. to 5:30 p.m., in the Mandeville Suite of the Muir Campus of the University of California at San Diego, in La Jolla, Calif.

This meeting will be open to the public. The topic of discussion will be crafts policy.

Further information with reference to this meeting can be obtained from Mr. Robert Sims, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call 202-634-6378.

Dated: January 31, 1978.

NATIONAL SCIENCE FOUNDATION

AD HOC ADVISORY GROUP FOR FUTURE SCIENTIFIC OCEAN DRILLING

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Ad Hoc Advisory Group for Future Scientific Ocean Drilling.

Dates: February 21 and 22, 1978.

Time: February 21, 9 a.m. to 5 p.m.; February 22, 8:30 a.m. to 5 p.m.

Place: Room 642, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

Type of Meeting: Part open—February 21—open; February 22—8:30 a.m. to 2:30 p.m.—open; February 22—2:30 p.m. to 5 p.m.—closed.

Contact person: Dr. Thomas A. Davies, Program Associate, Ocean Sediment Coring Program, Room 602, National Science Foundation, Washington, D.C. 20550, telephone 202-632-5849.

Summary minutes: May be obtained from the Committee Management Coordinator, Division of Financial and Administrative Management, Room 248, National Science Foundation, Washington, D.C. 20550.

Purpose of advisory group: To evaluate the scientific merit of possible future programs of drilling, and alternatives to drilling, in the deep oceans for scientific purposes in the 1980's and to recommend the best future program with regard to the scientific priorities.

AGENDA

FEBRUARY 21, 1978 (OPEN)

9 a.m.—Introduction.

9:30 a.m.—Current Status of Deep Sea Drilling; Future Drilling Plans.

NOTICES

1:30 p.m.—Ocean Drilling in Relation to Other Initiatives.

FEBRUARY 22, 1978

8:30 a.m.—Ocean Drilling in Relation to Other Programs (open).

1:30 p.m.—General Discussion of Issues Relating to Future Deep Ocean Drilling for Scientific Purposes (open).

2:30 p.m.—Review and Evaluation of Proposal UCSD-0862 (closed).

Reason for closing: The proposal being reviewed includes information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of 5 U.S.C. 552b(c), Government in the Sunshine Act.

Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of section 10(d) of Pub. L. 92-463. The Committee Management Officer was delegated the authority to make such determinations by the Acting Director, NSF, on February 18, 1977.

ADVISORY COMMITTEE FOR ATMOSPHERIC SCIENCES

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Committee for Atmospheric Sciences.

Date: February 23, 24, and 25, 1978.

Time: 9 a.m. to 5 p.m. each day.

Place: Room 543, National Science Foundation, 1800 G Street NW., Washington, D.C. 20550.

Type of meeting: Open.

Contact person: Dr. Alan J. Grobecker, Division Director, Division of Atmospheric Sciences, Room 644, National Science Foundation, Washington, D.C. 20550, telephone 202-634-1490.

Summary minutes: May be obtained from the Committee Management Coordinator, Division of Financial and Administrative Management, Room 248, National Science Foundation, Washington, D.C. 20550.

Purpose of committee: The Advisory Committee for Atmospheric Sciences provides advice, recommendations, and oversight concerning support for research and research-related activities in the atmospheric sciences area.

AGENDA

FEBRUARY 23, 1978

9 a.m. to 11 a.m.—Staff Review of Climate Dynamics and GARP—Its State of Science and Research Opportunities, E. Bierly.

11 a.m. to 12 m.—Discussion of Research Opportunities, Committee.

1:30 p.m. to 3:30 p.m.—Staff Review of Mid-latitude Meteorology, Cloud Physics,

Storm Processes and, Tropospheric Chemistry—its State of Science and Research Opportunities, H. F. Eden

3:30 p.m. to 4:30 p.m.—Discussion of Research Opportunities, Committee.

FEBRUARY 24, 1978

9 a.m. to 11 a.m.—Staff Review of Upper Atmosphere Research (Solar Terrestrial, Magnetospheric Physics, Aeronomy and Stratospheric Chemistry)—its State of Science and Research Opportunities, H. F. Eden.

11 a.m. to 12 m.—Discussion of Research Opportunities, Committee.

1:30 p.m. to 4:30 p.m.—Organization of Advisory Committee Atmospheric Sciences Studies, Committee.

FEBRUARY 25, 1978

9 a.m. to 12 m.—Organization of Advisory Committee Atmospheric Sciences Studies (continued), Committee.

PRESIDENT'S COMMISSION ON
MENTAL HEALTH
MEETING

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. Appendix I), announcement is made of the following Presidential Commission meetings scheduled to assemble during the month of February 1978:

The President's Commission on Mental Health: February 17, 1978—9:30 a.m. to 5 p.m., February 18, 1978—9:30 a.m. to 5 p.m., New Executive Office Building, Room 2010, Pennsylvania and 17th Streets NW., Washington, D.C., open meeting.

Contact: Mary Ann Orlando, Special Assistant to the Chairman, President's Commission on Mental Health, Room 121, Old Executive Office Building, Washington, D.C. 20500, telephone 202-456-7100.

Purpose: The President's Commission on Mental Health is a policy recommendation commission composed of 20 members representing a broad spectrum of interested and informed private citizens. The Commission was created by the President by Executive Order No. 11973 and was directed to identify the mental health needs of the nation. In particular, the Commission shall seek to identify: how the mentally ill, emotionally disturbed and mentally retarded are being served or underserved and who is affected by such underservice; projected needs for dealing with emotional stress during the next twenty-five years; ways the President, the Congress and the Federal Government may efficiently support the treatment of the underserved mentally ill, emotionally disturbed and mentally retarded; methods for coordinating a unified approach to all

mental health services; types of research the Federal Government should support to further prevention and treatment of mental illness and mental retardation; roles of various educational systems, volunteer agencies and other people-helping institutions can perform to minimize emotional disturbance; and what programs will cost, when the money should be spent and how the financing should be divided among Federal, State and local governments, and the private sector. The Commission shall conduct such public hearings, inquiries and studies as may be necessary, and shall submit a preliminary report to the President by September 1, 1977. A final report with recommendations and priorities shall be submitted to the President by April 1, 1978.

Agenda: This meeting will be open to the public. Agenda items include discussion of areas of service delivery, prevention, manpower and research, among others. Substantive program information may be obtained from: Mary Ann Orlando, Special Assistant to the Chairman, The President's Commission on Mental Health, Room 121, Old Executive Office Building, Washington, D.C. 20500, telephone 202-456-7100.

Attendance by the public will be limited to space available.

Mary Ann Orlando will furnish upon request summaries of the meeting and a roster of the Commission. President's Commission on Mental Health, Room 121, Old Executive Office Building, Washington, D.C. 20500.

BENEDICT LATTERI,
Administrative Officer, President's Commission on Mental Health.

SMALL BUSINESS ADMINISTRATION

[License No. 02/02-5285]

North Street Capital Corp.

Notice of Filing of Application for Approval of Conflict of Interest Transaction between Associates

Notice is hereby given the North Street Capital Corp., 250 North Street, White Plains, N.Y. 10625, a Federal licensee under section 301(d) of the Small Business Investment Act of 1958 as amended (Act), has filed an application pursuant to 13 CFR 107.1004 (1977) for approval of a conflict of interest transaction.

Licensee proposes to purchase a \$100,000, 10 percent, 10-year debenture of October Mountain Broadcasting Co. (OMBC), 224 Eagle Drive, Emerson, N.J. 07630. Licensee will also receive warrants to purchase 4 percent of OMBC's stock at \$18.18 per share. This is only part of a total financing of \$1,055,000 to be used to purchase radio station WOKO (AM), Albany, N.Y. and provide working capital for OMBC, the financial structure will be as follows:

	Amount	Percent of Potential corporation actual ownership ¹	(percent)
Antony B. Mason....	\$20,000	100	40
Syndicated Communications ²	200,000	29
Witherspoon Development Corp. ³	100,000	13
Minority Equity Capital Corp. ⁴	100,000	5.96
Bancap Corp. ⁵	135,000	8.04
Chemical Bank.....	400,000	0
North Street Capital Corp. ⁶	100,000	4

¹ SBA licensees. Form of investment is a 10 pct., 10-yr debenture with principal moratorium for 3 yr. Warrants for a total of 450 shares or 18 pct.

² Warrants exercisable at \$18.18/share. Total shares authorized 2,500.

³ 5 pct. cumulative participating preferred stock with warrants for 1,050 shares at \$18.18/share.

Mr. Antony B. Mason who was president of the licensee until October 15, 1977, is the president and sole stockholder of OMBC. Pursuant to the definition contained in section 107.3(g) of the regulations, Mr. Mason is considered to be an associate of the licensee.

Accordingly, the transaction falls within the purview of 13 CFR 107.1004 (1977) requiring prior written approval of the Small Business Administration.

Notice is further given that any interested person may not later than 15 days from the date of publication of this notice submit to SBA relevant comments on the proposed transaction. Any such communications should be addressed to the Deputy Associate Administrator for Investment, Small

Business Administration, 1441 L Street NW., Washington, D.C. 20416.

A copy of this notice shall be published by the licensee in a newspaper of general circulation in White Plains, N.Y. and Albany, N.Y.

(Catalog of Federal Domestic Assistance Program Number 59.011, Small Business Investment Companies.)

Dated: January 26, 1978.

PETER F. MCNEISH,
Deputy Associate Administrator
for Investment.

DEPARTMENT OF STATE

Agency for International Development

JOINT RESEARCH COMMITTEE OF THE BOARD
FOR INTERNATIONAL FOOD AND AGRICULTURAL DEVELOPMENT

Planning Project

The University of Missouri on behalf of the U.S. Agency for International Development and the Board for International Food and Agriculture is engaged in a planning project that will result in a recommended collaborative research program on sorghum/millet to be funded under Title XII of the International Development and Food Assistance Act of 1975.

The "Collaborative Research Support Program" approach will link institutions having common interests in organized programs of research on selected problems. Such a collaborative research program on a single problem area of common interest to the United States and several of the developing nations might involve one or more U.S. institutions, an international research center, and several developing nation agricultural universities or research centers.

The planning project, when completed in late February, will include recommendations for: a research program on sorghum and millet; participation institutions in the United States and developing countries which evidence interest in research on sorghum and millet; personnel who would be involved; budget requirements; and a legal entity which would be responsible for administering the project.

If desired, further information may be obtained from Dean Wendell McKinsey, College of Agriculture, University of Missouri-Columbia, Columbia, Mo. 65201.

CHARLES E. FRENCH,
A.I.D. Advisory Committee Representative, Joint Research Committee, Board for International Food and Agricultural Development.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

RAILROAD OPERATING RULES

Petitions for Waiver

As required by 45 U.S.C. 431(c), notice is hereby given that five railroads have submitted waiver petitions to the Federal Railroad Administration (FRA). Each petition requests that the railroad be granted a permanent waiver of compliance with certain safety standards contained in the Railroad Operating Rules (49 CFR Part 218).

The initial provisions for safety regulations concerning Railroad Operating Rules were issued by FRA on March 15, 1976. FRA subsequently issued additional provisions to these regulations on January 27, 1977 (42 FR 5056). These additional provisions require, in part, that railroads have certain carrier operating rules in

effect to protect railroad employees engaged in the operation of trains, locomotives, and other rolling equipment. These provisions became effective on August 1, 1977.

One of the carrier operating rules, that the FRA has required, prescribes the actions that a train crew must take to alert the crew of a following train that the track ahead of the following train is currently occupied. This provision of the FRA regulation is similar in some respects to Rule 99 of the Standard Code of Operating Rules of the Association of American Railroads. These protective measures also are commonly referred to in the railroad industry as "flagging" or providing "flag protection."

Each of the railroads identified below is seeking a waiver of compliance with one or more specific provisions of these standards. A brief description of the facts involved in each request as well as the particular regulatory provision involved has been provided.

Interested persons are invited to participate in these proceedings by submitting written data, views or comments. The FRA has not scheduled an opportunity or oral comment since the facts do not appear to warrant it. However, the FRA will provide an opportunity for oral comment if requested to do so by any interested party. Such requests must be in writing and must be submitted to FRA before February 10, 1978.

All communications concerning these petitions must identify the appropriate docket number (e.g., FRA Waiver Petition Docket No. RSOR-77-22) and should be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, 400 Seventh Street SW., Washington, D.C. 20590. Communications received before February 27, 1978 will be considered by the Federal Railroad Administration before final action is taken. Comments received after that date will be considered as far as practicable. Detailed information concerning each petition is on file with the Federal Railroad Administration and is available for examination by interested persons. Any comments received will also be on file. This material is available for examination during regular business hours in Room 5101, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590.

[Waiver Petition Docket RSOR-77-22]

CHICAGO & NORTH WESTERN RAILROAD

The Chicago & North Western Railroad (CNW) seeks a permanent waiver of compliance with the provisions of § 218.37(a)(2)(iv) of the flag protection portion of the regulation. That section permits a railroad to relieve a train crew of the responsibility to provide flag protection for its train only by the issuance of a train order.

The CNW proposes to relieve the train crews of this flagging responsibility by plac-

4701

ing special instructions in the railroad's timetables. These special instructions will advise all train crews of the fact that they have been relieved of the responsibility to provide flag protection on a given segment of trackage.

The waiver sought by the CNW would be applicable to approximately 36 subdivisions on that railroad where only one train per day is normally operated. The CNW states that operations on these subdivisions have been conducted safely since 1965 using the operational approach proposed in the waiver request.

The CNW indicates that steps will be taken to assure the safety of operations if following movements do occur on these lines.

[Waiver Petition Docket RSOR-77-23]

BESSEMER & LAKE ERIE RAILROAD

The Bessemer & Lake Erie Railroad (B&LE) seeks a waiver of compliance with the provisions of § 218.37(a)(1)(iii) of the flag protection portion of the regulation. That section requires a railroad to have an operating rule which specifies the manner in which flag protection will be provided on that carrier.

The regulation also contains a provision that permits a railroad to utilize two block signals to protect the rear of a train instead of utilizing flag protection. The waiver requested by the B&LE seeks authority to use only one block signal to protect the rear of a train at two specific locations on that railroad.

The locations involved in the B&LE request are identified as Albion, Pa. and Bessemer, Pa. At both locations the B&LE has yard facilities that are connected to main line trackage where operations are conducted in accordance with the signal indications of a traffic control system. The design of these facilities and the method of operation is such that on many occasions departing freight trains will be required to stop on the mainline shortly after leaving the yard. In those instances the rear of the train will be protected by only one block signal rather than the two signals specified in § 218.37(a)(2).

The waiver sought by the B&LE would permit departing trains to stop at these two locations without requiring the crews on those trains to provide flag protection in accordance with the regulation. In support of this request the B&LE notes that all movements on the mainline, which would be to the rear of the stopped train, are governed by the carrier's rules for yard limits. Consequently, in the opinion of the B&LE the absence of flag protection will not impair the safety of train operations at these two locations.

[Waiver Petition Docket RSOR-77-27]

ILLINOIS CENTRAL GULF RAILROAD

The Illinois Central Gulf Railroad (ICG) seeks a permanent waiver of compliance with a portion of the provisions of § 218.37(a)(iii) of the flag protection portion of the regulation. That section requires in part that a crew member place two rail torpedoes on the track when establishing protection for his train.

The ICG seeks to prohibit the use of these rail torpedoes in its electrified suburban passenger operations in the Chicago area. The track over which these trains are operated is primarily located in densely populated urban and suburban areas. The use

of rail torpedoes in these localities creates a hazard to juveniles who attempt to detonate them. Furthermore, on some portions of this trackage, the railroad right-of-way is located on a median strip in the middle of the street. Detonation of rail torpedoes in those areas presents a hazard to people using nearby sidewalks.

The ICG, in an effort to reduce these hazards, had discontinued the use of rail torpedoes on these commuter lines. Consequently, the ICG indicates that granting their requested waiver would be consistent with railroad safety and in the public interest.

[Waiver Petition Docket RSOR-77-29]

INDIANA HARBOR BELT RAILROAD

The Indiana Harbor Belt Railroad (IHB) seeks a permanent waiver of compliance with a portion of the provisions of § 218.37(a)(iii) of the flag protection portion of the regulation. That section requires in part that a crew member place two rail torpedoes on the track when establishing protection for his train.

The IHB indicates that it is primarily a terminal and switching railroad and that its main line extends for approximately 40 miles. This main line trackage, which runs from Gary, Ind. to Franklin Park, Ill., is frequently surrounded by urban and suburban development areas. Consequently, if rail torpedoes are used by the IHB they will present a hazard to the people living in those areas.

The IHB states that it has restricted the use of these torpedoes because, at detonation, the debris and the noise present a real danger for pedestrians and children. In support of its request the IHB notes that its trains operate at a maximum speed of 40 miles per hour due to the congested area that is being operated through.

[Waiver Petition Docket RSOR-77-37]

MAINE CENTRAL RAILROAD

The Maine Central Railroad (MEC) seeks a permanent waiver of compliance with the provisions of § 218.37(a)(2)(iv) of the flag protection portion of the regulation. That section permits a railroad to relieve a train crew of the responsibility to provide flag protection for its train only by the issuance of a train order.

The MEC proposes to relieve the train crews of this flagging responsibility by placing special instructions in the railroad's timetables. These special instructions will advise all train crews of the fact that they have been relieved of the responsibility to provide flag protection on a given segment of trackage.

The waiver sought by the MEC would be applicable to two subdivisions on that railroad where only one train per day is normally operated. The MEC indicates that operations on the two subdivisions have been conducted safely since 1981 using the operational approach proposed in this waiver request.

The MEC states that if a second train is operated on these lines a train order is issued to require that flag protection be provided on that line.

This notice is issued under the authority of section 202, 84 Stat. 971, 45 U.S.C. 431; and section 1.49(n) of the regulations of the Office of the Secretary of Transportation 49 CFR 1.49(n).

Issued in Washington, D.C. on January 30, 1978.

ROBERT H. WRIGHT,
Acting Chairman,
Railroad Safety Board.

[Dept. Circ. 570, 1977 Rev., Supp. No. 9]

INTEGON INDEMNITY CORP.

Surety Companies Acceptable on Federal Bonds

A certificate of authority as an acceptable surety on Federal bonds is hereby issued by the Secretary of the Treasury to the following company under Sections 6 to 13 of Title 6 of the United States Code. An underwriting limitation of \$438,000 has been established for the company.

Name of Company, Business Address, and State in Which Incorporated

Integon Indemnity Corporation, 420 North Spruce Street, Winston-Salem, North Carolina 27102; North Carolina.

Certificates of authority expire on June 30 each year, unless sooner revoked, and new certificates are issued on July 1 so long as the companies remain qualified (31 CFR Part 223). A list of qualified companies is published annually as of July 1 in Department Circular 570, with details as to underwriting limitations, areas in which licensed to transact surety business and other information. Copies of the circular, when issued, may be obtained from the Audit Staff, Bureau of Government Financial Operations, Department of the Treasury, Washington, D.C. 20226.

D. A. PAGLIAI,
Commissioner, Bureau of
Government Financial Operations.

Internal Revenue Service

[Delegation Order No. 169]

DEPUTY COMMISSIONER, ASSISTANT COMMISSIONER (COMPLIANCE) AND ASSISTANT COMMISSIONER (INSPECTION)

Delegation of Authority

AGENCY: Internal Revenue Service.

ACTION: Delegation of authority.

SUMMARY: The authority of the Commissioner of Internal Revenue to

make determinations and to issue orders to compel testimony under a grant of immunity to an individual where warranted is being delegated to the Deputy Commissioner, Assistant Commissioner (Compliance) and Assistant Commissioner (Inspection). The immunity order must have the approval of the Attorney General. The text of the delegation order appears below.

EFFECTIVE DATE: January 30, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. David E. Gaston, 1111 Constitution Avenue NW., Room 4523, Washington, D.C. 20224, 202-566-6645 (not toll free).

STUART E. SEIGEL,
Chief Counsel.

Subject: Authority for the issuance of immunity orders pursuant to 18 U.S.C. §§ 6002 and 6004 in proceedings arising under the laws administered by the Internal Revenue Service.

Pursuant to the authority vested in the Commissioner of Internal Revenue by Treasury Department Order No. 150-88, dated November 29, 1977, there is hereby delegated to the Deputy Commissioner, the Assistant Commissioner (Compliance) and the Assistant Commissioner (Inspection) the function under Title II of the Or-

ganized Crime Control Act of 1970 (18 U.S.C. § 6001, et seq; 84 Stat. 926), with the approval of the Attorney General, to make determinations and to issue the orders to compel the testimony under a grant of immunity of any individual who has been or may be called to testify or provide information at any proceeding before the Internal Revenue Service which such individual refuses to give or provide on the basis of his/her privilege against self-incrimination.

All requests for immunity must be referred to the Director, Criminal Tax Division, Office of the Chief Counsel, for review prior to referral to the Department of Justice.

This authority may not be redelegated.

Dated: January 27, 1978.

JEROME KURTZ,
Commissioner.

Office of the Secretary

"TRIGGER PRICE EXTRAS" FOR IMPORTED STEEL MILL PRODUCTS

Steel Reference Price Handbook

In the FEDERAL REGISTER of December 30, 1977, the Treasury Department

announced proposed rulemaking procedures with respect to regulations applicable to the information required to be filed at the time of importation of certain steel mill products (42 FR 65214). As was there indicated, the Secretary intends to implement a "trigger price mechanism" as recommended to, and approved by, the President. As part of these "trigger prices" are "extras" to be added to the base prices of the imported steel mill products. These "extras" pertain to specifications for width, thickness, chemistry, and surface preparation of the base product. Their addition to the appropriate base prices and importation costs (excluding duty) constitute the "trigger prices".

I am hereby announcing "extras" to be used in the trigger price mechanism for 16 of the 17 steel mill products for which base prices were published in the FEDERAL REGISTER of January 9, 1978 (43 FR 1463). These "extras" are based upon evidence made available to the Treasury Department by the Japanese Ministry of International Trade and Industry (MITI), as well as other information available to the Department.

ROBERT CARSWELL,
Deputy Secretary of the Treasury.

DUTY ASSESSMENT DIVISION

FEDERAL REGISTER, VOL. 43, NO. 24—FRIDAY, FEBRUARY 3, 1978

NOTICES

Please note that all prices given in the Steel Reference Price Handbook are in metric tons, the standard weight in international trade. Also, the numbering system consists of two parts: the AISI Category (e.g. Wire Rods - Commercial Quality AISI 1008 Category AISI 2) and sequential numbering of pages. As subsequent pages are published, they will be either new pages or replacements for the appropriate numbered page.

The terms "negotiable" or "subject to negotiation" refer to discussion of the price ranges which are appropriate to the practice in extras for steel products.

Pension and Welfare Benefit Programs

[Prohibited Transaction Exemption 78-11]

EMPLOYEE BENEFIT PLANS

Exemption from the Prohibitions Respecting a Transaction Involving the McCrone Employees Pension Plan

AGENCIES: Department of the Treasury/Internal Revenue Service, Department of Labor.

ACTION: Grant of individual exemption.

SUMMARY: This exemption enables the McCrone Employees Pension Plan (the Plan) to sell certain plan assets to Walter C. McCrone Associates, Inc. (the Employer).

FOR FURTHER INFORMATION CONTACT:

Ivan Strasfeld of the Prohibited Transactions Staff of the Employee Plans Division, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224 (Attention: E:EP:PT:2) 202-566-3045. This not a toll free number.

SUPPLEMENTARY INFORMATION

On October 25, 1977, notice was published in the FEDERAL REGISTER (42 FR 56379) of the pendency before the Internal Revenue Service and the Department of Labor (the Agencies) of an exemption from the taxes imposed by section 4975 (a) and (b) of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1) (A) through (E) of the Code and from the provisions of section 406(a) and 406(b) (1) and (2) of the Employee Retirement Income Security Act of 1974 (the Act), for a transaction described in an application submitted by the Employer and the trustees of the Plan. The notice set forth a summary of the facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Agencies in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Internal Revenue Service (the Service). In addition, the notice stated that any interested person might submit a written request that a hearing be held relating to this exemption. No public comments and no request for a hearing were received by the Service.

GENERAL INFORMATION

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 4975(c)(2) of the Code and section 408(a) of the Act does not relieve a fiduciary or party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Code and the Act. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interests of the participants and beneficiaries of the plan and in a prudent fashion in accordance with subsection (a)(1)(B) of section 404 of the Act, nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 4975(c)(1)(F) of the Code and section 406(b)(3) of the Act.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Code and the Act, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is in fact a prohibited transaction.

EXEMPTION

In accordance with section 4975(c)(2) of the Code and section 408(a) of the Act and the procedures set forth in Rev. Proc. 75-26, 1975-1 C.B. 722, and ERISA Proc. 75-1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Agencies make the following determinations:

(a) The exemption is administratively feasible; (b) it is in the interests of the Plan and of the participants and beneficiaries; and (c) it is protective of the rights of participants and beneficiaries of the Plan.

Accordingly, the following exemption is hereby granted under the authority of section 4975(c)(2) of the Code and section 408(a) of the Act and in accordance with the procedures set forth in Rev. Proc. 75-26, 1975-1 C.B. 722, and ERISA Proc. 75-1 (40 FR 18471, April 28, 1975):

The taxes imposed by section 4975 (a) and (b) of the Code by reason of section 4975(c)(1) (A) through (E) of the Code and restrictions of section 406(a) and 406(b) (1) and (2) of the Act shall not apply to a transaction involv-

ing the sale of the Plan's interest in a partnership known as 2820 South Michigan Co. to the Employer in exchange for interest bearing notes of the Employer, subject to the terms, conditions, and representations set forth in the application.

The availability of this exemption is subject to the express conditions that the material facts and representations contained in the application are true and complete and that the application accurately describes all material terms of the transaction consummated pursuant to the exemption.

Signed at Washington, D.C., this 26th day of January 1978.

IAN D. LANOFF,
Administrator for Pension and Welfare Benefit Programs,
Labor-Management Services Administration, U.S. Department of Labor.

FRED J. OCHS,
Director, Employee Plans Division, Internal Revenue Service.

INTERSTATE COMMERCE COMMISSION

[Docket Nos. AB 18 (Sub-No. 5) etc.]

CHESAPEAKE AND OHIO RAILROAD CO.

Railroad Services Abandonment

JANUARY 24, 1978.

Docket No. AB 18 (Sub-No. 5), Chesapeake and Ohio Railway Co., abandonment between Williamsburg and Elk Rapids, in Grand Traverse and Antrim Counties, Mich.; Docket No. AB 18 (Sub-No. 19), Chesapeake and Ohio Railway Co., abandonment portion Petoskey Subdivision between a point near Traverse City and Bay View, in Grand Traverse, Kalkaska, Antrim, Charlevoix and Emmet Counties, Mich.; Docket No. AB 18 (Sub-No. 20), Chesapeake and Ohio Railway Co., abandonment portion Traverse City and Petoskey Subdivisions between Manistee and Traverse City and the Northport Subdivision between Traverse City and Rennie, in Manistee, Benzie, Grand Traverse and Leelanau Counties, Mich.

The Notice to the Parties which accompanied the Draft Environmental Impact Statement (DEIS) prepared for this action indicated that the deadline for comments on the impact statement would be February 6, 1978.

In view of the fact that public notice of the availability of the DEIS was not published in the FEDERAL REGISTER until January 13, 1978, the comment date is now fixed at February 27, 1978.

H. G. HOMME, Jr.,
Acting Secretary.

[I.C.C. Order No. 40, Admt. 1; Rev. S.O. No. 1252]

**CHICAGO, MILWAUKEE, ST. PAUL AND
PACIFIC RAILROAD CO.**

Rerouting of Traffic

Upon further consideration of I.C.C. Order No. 40 (Chicago, Milwaukee, St. Paul and Pacific Railroad Company) and good cause appearing therefor:

It is ordered, That: I.C.C. Order No. 40 is amended by substituting the following paragraph (g) for paragraph (g) thereof:

(g) *Expiration date*. This order shall expire at 11:59 p.m., July 31, 1978, unless otherwise modified, changed, or suspended.

It is further ordered, That this amendment shall become effective at 11:59 p.m., January 31, 1978, and that this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., January 26, 1978.

[7035-01]

[I.C.C. Order No. 47; Rev. S.O. No. 1252]

**CHICAGO, MILWAUKEE, ST. PAUL AND
PACIFIC RAILROAD CO.**

Rerouting of Traffic

In the opinion of Joel E. Burns, Agent, the Chicago, Milwaukee, St. Paul and Pacific Railroad Company is unable to transport traffic currently over its line between Chicago, Ill., and Louisville, Ky., because of congestion caused by heavy snow.

It is ordered, That: (a) *Rerouting traffic*. The Chicago, Milwaukee, St. Paul and Pacific Railroad Co., being unable to transport traffic currently over its line between Chicago, Ill., and Louisville, Ky., because of congestion caused by heavy snow, that line is authorized to divert or reroute such traffic via any available route to expedite the movement. Traffic necessarily diverted by authority of this order shall be rerouted so as to preserve as nearly as possible the participation and revenues of other carriers provided in the original routing.

(b) Concurrence of receiving roads to be obtained. The railroad rerouting cars in accordance with this order

shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) *Notification to shippers*. Each carrier rerouting cars in accordance with this order, shall notify each shipper at the time each shipment is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted or re-routed by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic. Divisions shall be during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) *Effective date*. This order shall become effective at 4:30 p.m., January 25, 1978.

(g) *Expiration date*. This order shall expire at 11:59 p.m., February 3, 1978, unless otherwise modified, changed, or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., January 25, 1978.

[Rule 19; Ex Parte No. 241; Exemption No. 143]

**EXEMPTION UNDER PROVISION OF
MANDATORY CAR SERVICE RULES**

It appearing, that because of adverse weather conditions in the Northeast, the return of empty boxcars to the Union Pacific Railroad Co. (UP) has been seriously hampered; that there is

a substantial need for boxcars for off-line loading in terminal switching service in the Fairfax Industrial District, located in Kansas City, Mo.; that the aforementioned delays in the return of boxcars owned by the UP has resulted in a shortage of UP cars in the Fairfax Industrial District; that the shippers in this district are unable to furnish adequate advance routing information for the UP and its connections to select suitable cars owned by other railroads for loading in compliance with Car Service Rules 1 and 2; that the preponderance of the loading in this district is eastward; that the UP has an ample supply of boxcars owned by lines operating in states east of the Fairfax Industrial District; and that although the shippers are unable to furnish specific advance routing data for specific shipments, the majority of the foreign cars loaded in the district will be or in the direction of the car owners and in compliance with Car Service Rules 1 and 2.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, plain boxcars described in the Official Railway Equipment Register, ICC-RER No. 405, issued by W. J. Trezise, or successive issues thereof as having mechanical designation "XM" may be loaded by shippers served by the UP in its Fairfax Industrial District in Kansas City, Mo., without regard to the requirements of Car Service Rules 1 and 2 subject to exceptions 1 to 4 inclusive, shown below.

It is further ordered, That other railroads receiving cars from the UP in terminal switching service, loaded by shippers in the aforementioned Fairfax Industrial District for line-haul movement via their lines, may accept forwarding instructions from such shippers without regard to the requirements of Car Service Rules 1 and 2.

EXCEPTIONS

1. Cars of Canadian or Mexican ownership.
2. Cars subject to a car relocation or car assistance directive issued by the Car Service Division, Association of American Railroads.
3. Cars with inside length of 59-ft. 8-in. or greater.
4. Cars owned by the following western railroads: The Denver and Rio Grande Western Railroad Co., Southern Pacific Transportation Co., The Western Pacific Railroad Co.

Effective January 26, 1978.

Expires February 28, 1978.

Issued at Washington, D.C., January 26, 1978.

[7035-01]

FOURTH SECTION APPLICATION FOR RELIEF

JANUARY 31, 1978.

This application for long-and-short-haul relief has been filed with the ICC.

Protests are due at the ICC within 15 days from the date of publication of this notice.

FSA No. 43497, Southwestern Freight Bureau, Agent's No. B-724, rates on phosphatic fertilizer solution, from Taft, La., to stations in Wyoming, in sup. 114 to its tariff 273-G, ICC 5188, to become effective March 2, 1978.

Grounds for relief—market competition; short-line distance formula and grouping.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

[7035-01]

**IRREGULAR-ROUTE MOTOR COMMON
CARRIERS OF PROPERTY**

Elimination of Gateway Applications

JANUARY 27, 1978.

The following applications to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(d)(2)), and notice thereof to all interested persons is hereby given as provided in such rules.

Carriers having a genuine interest in an application may file an original and three copies of verified statements in opposition with the Interstate Commerce Commission on or before March 6, 1978. (This procedure is outlined in the Commission's report and order in Gateway Elimination, 119, MCC 530.) A copy of the verified statement in opposition must also be served upon applicant or its named representative. The verified statement should contain all the evidence upon which protestant relies in the application proceeding including a detailed statement of protestant's interest in the proposal. No rebuttal statements will be accepted.

MC 31462 (Sub-No. 25G), filed December 29, 1977. Applicant: PARAMOUNT MOVERS, INC., 3164 Springfield Street, P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: JAMES W. HIGHTOWER, 136 Wynnewood Professional Building, Dallas, Tex. 75224. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes,

transporting: *Household goods*, as defined by the Commission: 1. Between points in New Mexico, on the one hand, and, on the other, points in Alabama, Arkansas, Colorado, Connecticut, District of Columbia, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana (within 450 miles of Williston, N. Dak.), Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, and Wisconsin. 2. Between points in Colorado, on the one hand, and, on the other, points in Montana (within 450 miles of Williston, N. Dak.). 3. Between points in Mississippi, on the one hand, and, on the other, points in District of Columbia, North Carolina, South Carolina, Tennessee, and Virginia. 4. Between points in Texas, on the one hand, and, on the other, points in Louisiana. The purpose of this filing is to eliminate the gateways of: Bradley County, Ark.; Kiowa County, Okla. and points within 50 miles; Okmulgee County, Okla.; Cairo, Ill. and points within 25 miles; Gulfport, Miss. and points within 30 miles; Fort Wayne, Ind. and points in Indiana within 40 miles of Fort Wayne; Burlington, Iowa, and points within 50 miles; Houston, Tex., and points within 50 miles; Kansas City, Mo., and points within 30 miles; Alden, Minn., and points within 35 miles; points in North Dakota, within 200 miles of Williston; points in Tennessee; and points in Georgia.

NOTE.—This application is a gateway elimination request filed pursuant to the Commission's Policy Statement in Ex Parte No. 55 (Sub-No. 8), noticed in the FEDERAL REGISTER Issue December 9, 1974, and is related to MC-F-11952 published in the FEDERAL REGISTER of August 15, 1973.

If a hearing is deemed necessary, applicant requests that it be held at Dallas, Tex.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR Part 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before February 13, 1978. A copy must also be served upon applicant or its representative. Protests against the elimination of a gate-

way will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 8973 (Sub-No. E 196), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D. C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Plastic hose in mixed loads with plastic pellets, in bulk, and material, equipment and supplies* used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods, commodities in bulk, and commodities requiring special equipment), between points in Passaic County, N.J., on the one hand, and, on the other, points in that part of Massachusetts on and east of a line beginning at the Vermont-Massachusetts State line with Massachusetts Highway 112, thence along Massachusetts Highway 112 to an unnumbered road at Colrain, thence along the road to Interstate Highway 91, thence along Interstate Highway 91 to Massachusetts Highway 10 at Northampton, thence along Massachusetts Highway 10 to the the Connecticut-Massachusetts State line. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E 197), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Plastic hose in mixed loads with plastic pellets, in bulk, and material, equipment and supplies* used in the manufacture and sale of plastic articles (except those of unusual value, Class A and B explosives, household goods, commodities in bulk, and commodities requiring special equipment), between points in Passaic County, N.J., on the one hand, and, on the other points in that part of New York on and north of a line beginning at Lake Ontario at the junction of New York Highway 3 thence along New York Highway 3 to junction New York Highway 86, thence along New York Highway 86 to junction New York Highway 73, thence along New York Highway 73 to an unnumbered road at its intersection with Interstate Highway 87, thence along the road through Moriah Center to Port Henry,

thence along New York Highway 9N to junction New York Highway 8, thence along New York Highway 8 to the Vermont-New York State line and also, points in that part of New York on and west of a line beginning at Lake Ontario at the junction of New York Highway 47 at or near Rochester, thence along New York Highway 47 to junction Interstate Highway 490, thence along Interstate Highway 490 to junction New York Highway 15, thence along New York Highway 15 to junction New York Highway 256, thence along New York Highway 256 to junction New York Highway 436, thence along New York Highway 436 to junction New York Highway 408, thence along New York Highway 408 to junction New York Highway 19, thence along New York Highway 19 to junction New York Highway 417, thence along New York Highway 417 about four miles to an unnumbered road, thence along the road through Alma to the Pennsylvania-New York State line, and also points in that part of New York enclosed by a line beginning on the Long Island Sound with an unnamed road leading to Larchmont, thence along the road to Interstate Highway 95, thence along Interstate Highway 95 to Lincoln Avenue, thence along Lincoln Avenue to the Cross County Parkway, thence along the Parkway to Yonkers Avenue, thence along Yonkers Avenue to Ashburton Avenue, thence along Ashburton Avenue to the east bank of the Hudson River, thence along the river to 125th Street, thence along 125th Street to the Bronx County-Queens County boundary line, thence along the line to Interstate Highway 678, thence along Interstate Highway 678 to the Cross Island Parkway, to Interstate Highway 78, thence along Interstate Highway 78 to junction New York Highway 24, thence along New York Highway 24 to the Queens County-Nassau County boundary line, thence along the county line to the Atlantic Ocean.

The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E198), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Helsley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and *material, equipment, and supplies* used in the manufacture and sale of plastic articles (except those of unusual value, class A and B explosives, household goods, commodities in bulk, and commodities requiring special equipment), between points in Passaic County, N.J., on the one hand,

and, on the other, points in that part of Pennsylvania on and west of a line beginning on the New York-Pennsylvania State line with Pennsylvania Highway 446, thence along Pennsylvania Highway 446 to junction Pennsylvania Highway 155, thence along Pennsylvania Highway 155 to junction Pennsylvania Highway 120, thence along Pennsylvania Highway 120 to junction Pennsylvania Highway 255, thence along Pennsylvania Highway 255 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Pennsylvania Highway 53, thence along Pennsylvania Highway 53 to junction Pennsylvania Highway 350, thence along Pennsylvania Highway 350 to junction U.S. Highway 220, thence along U.S. Highway 220 to junction Interstate Highway 76, thence along Interstate Highway 76 to junction Pennsylvania Highway 326, thence along Pennsylvania Highway 326 to the Maryland-Pennsylvania State line, and also that part of Pennsylvania on and south of a line beginning at the Pennsylvania-Maryland State line with U.S. Highway 1, thence along U.S. Highway 1 to junction Pennsylvania Highway 52, thence along Pennsylvania Highway 52 to junction Pennsylvania Highway 3, thence along Pennsylvania Highway 3 to junction U.S. Highway 1, thence along U.S. Highway 1 to Robbins Street, thence along Robbins Street, and across the Tacony-Palmyra Bridge to New Jersey. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E199), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Helsley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and *material, equipment, and supplies* used in the manufacture and sale of plastic articles (except those of unusual value, class A and B explosives, household goods, commodities in bulk, and commodities requiring special equipment), between points in Passaic County, N.J., on the one hand, and, on the other, points in that part of Vermont on, north and east of a line beginning on Lake Champlain along Vermont Highway 17, thence along Vermont Highway 17 to junction Vermont Highway 125, thence along Vermont Highway 125 to junction Vermont Highway 100, thence along Vermont Highway 100 to junction Vermont Highway 107, thence along Vermont Highway 107 to junction Vermont Highway 12, thence along Vermont Highway 12 to junction Vermont Highway 106, thence along Vermont

Highway 106 to junction Vermont Highway 131, thence along Vermont Highway 131 to junction Vermont Highway 103, thence along Vermont Highway 103 to junction Vermont Highway 35, thence along Vermont Highway 35 to junction Vermont Highway 30, thence along Vermont Highway 30 to junction U.S. Highway 5, thence along U.S. Highway 5 to the Massachusetts-Vermont State line. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E200), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Helsley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and *material, equipment, and supplies* used in the manufacture and sale of plastic articles (except those of unusual value, class A and B explosives, household goods, commodities in bulk, and commodities requiring special equipment), between points in Somerset County, N.J., on the one hand, and, on the other, points in Alabama, Arkansas, Colorado, Connecticut, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, and Wisconsin. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E201), filed December 17, 1977. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047. Applicant's representative: E. Stephen Helsley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and *materials, equipment, and supplies* used in the manufacture and sale of plastic articles (except those of unusual value, class A and B explosives, household goods, commodities in bulk, and commodities requiring special equipment), between points in Somerset County, N.J., on the one hand, and, on the other, points in that part of New York on and north of a line beginning on Lake Erie at Wanaquo, thence along an unnumbered road to U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 20A, thence along U.S. Highway 20A to junction New York Highway 39, thence along New York Highway 39 to junction U.S. Highway 20,

thence along U.S. Highway 20 to junction New York Highway 21, thence along New York Highway 21 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction New York Highway 14, thence along New York Highway 14 to junction New York Highway 104, thence along New York Highway 104 to junction New York Highway 69, thence along New York Highway 69 to an unnumbered road heading south at Jamison Corners, thence along New York Highway 49 to junction New York Highway 13, thence along New York Highway 13 to junction New York Highway 316, thence along New York Highway 316 to junction New York Highway 46, thence along New York Highway 46 to junction New York Highway 5, thence along New York Highway 5 to junction New York Highway 234, thence along New York Highway 234 to junction New York Highway 26, thence along New York Highway 26 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction New York Highway 28, thence along New York Highway 28 to junction New York Highway 205, thence along New York Highway 205 to junction New York Highway 23, thence along New York Highway 23 to junction New York Highway 23A, thence along New York Highway 23A to junction New York Highway 42, thence along New York Highway 42 to junction New York Highway 28, thence along New York Highway 28 to junction Interstate Highway 87, thence along Interstate Highway 87 to junction New York Highway 299, thence along New York Highway 299 to junction U.S. Highway 9, thence along U.S. Highway 9 to junction New York Highway 9D, thence along New York Highway 9D to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 9W, thence along U.S. Highway 9W to the New York-New Jersey State line, thence along the New Jersey-New York State line to Interstate Highway 95, thence along Interstate Highway 95 to the east bank of the Hudson River, thence along the east bank of the river to 125th Street, thence along 125th Street to Interstate Highway 278, thence along Interstate Highway 278 to junction New York Highway 25A, thence along New York Highway 25A to the Van Wyck Expressway, thence along the Expressway to junction New York Highway 24, thence along New York Highway 24 to the Meadowbrook State Parkway, thence along the parkway to Jones Inlet and the Atlantic Ocean. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 8973 (Sub-No. E202), filed December 17, 1976. Applicant: METROPOLITAN TRUCKING, INC., 2424 95th Street, North Bergen, N.J. 07047.

Applicant's representative: E. Stephen Helsley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Plastic hose*, in mixed loads with plastic pellets, in bulk, and *material, equipment, and supplies* used in the manufacture and sale of plastic articles (except those of unusual value, class A and B explosives, household goods, commodities in bulk, and commodities requiring special equipment), between points in Somerset County, N.J., on the one hand, and, on the other, points in that part of North Carolina on and south of a line beginning on the Virginia-North Carolina State line at North Carolina Highway 39, thence along North Carolina Highway 39 to junction North Carolina Highway 55, thence along North Carolina Highway 55 to junction North Carolina Highway 58, thence along North Carolina Highway 58 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction North Carolina Highway 97, thence along North Carolina Highway 97 to junction North Carolina Highway 125, thence along North Carolina Highway 125 to junction U.S. Highway 17, thence along U.S. Highway 17 to the Albemarle Sound, thence along the south bank of the Sound to junction U.S. Highway 64, thence along U.S. Highway 64 to Whalebone and the Atlantic Ocean. The purpose of this filing is to eliminate the gateway of Ridgefield, N.J.

No. MC 83539 (Sub-No. E388), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and *parts, materials, and supplies* thereof, when moving in connection with such commodities, between points in Florida, on the one hand, and, on the other, points in Missouri. Restriction: The service authorized here is subject to the following restrictions: No service shall be performed in the stringing or picking up of any of the above commodities in connection with main or trunk pipelines, no service shall be performed in the stringing or picking up of pipe in connection with oil or gas pipelines. The purpose of this filing is to eliminate the gateways of points within a 50-mile radius of Nashville, Tenn., any points in Kentucky, and any point in Illinois.

No. MC 83539 (Sub-No. E389), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's repre-

sentative: H. N. Cunningham III (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and *parts thereof*, when moving in connection with such commodities, between: (a) Points in Florida in and west of Santa Rosa County, on the one hand, and, on the other, points in New Jersey; and (b) points in Florida in and west of Holmes, Washington, and Bay Counties, on the one hand, and, on the other, points in New Jersey in, north, and east of Hunterdon, Somerset, Middlesex, Monmouth, and Ocean Counties. The purpose of this filing is to eliminate the gateways of points within a 50-mile radius of Nashville, Tenn., any point in Virginia, and any point in Pennsylvania.

No. MC 83539 (Sub-No. E391), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and *parts thereof*, when moving in connection with such commodities, between points in Florida, on the one hand, and, on the other, points in Ohio. The purpose of this filing is to eliminate the gateways of Nashville, Tenn., and any point in Kentucky.

No. MC 83539 (Sub-No. E392), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and *parts thereof*, when moving in connection with such commodities, between: (a) Points in Florida in and west of Holmes, Washington, and Bay Counties, on the one hand, and, on the other, points in Pennsylvania, in, north, and west of Fulton, Huntingdon, Juniata, Perry, Dauphin, Lebanon, Berks, Lehigh, and Northampton Counties; (b) points in Florida in and west of Holmes, Washington, and Bay Counties, and in and south of Sarasota, DeSoto, Glades, and Palm Beach Counties, on the one hand, and, on the other, points in Pennsylvania in and west of Warren, Venango, Butler, Allegheny, Washington, and Green Counties. The purpose of this filing is to eliminate the gateways of points within a 50-mile radius of Nashville, Tenn., and any point in Kentucky.

No. MC 83539 (Sub-No. E393), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and parts thereof, when moving in connection with such commodities, between points in that part of Florida in and west of Holmes, Washington, and Bay Counties, on the one hand, and, on the other, points in Rhode Island. The purpose of this filing is to eliminate the gateways of points within a 50-mile radius of Nashville, Tenn., Kentucky, and Philadelphia, Pa.

No. MC 83539 (Sub-No. E394), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and parts thereof, when moving in connection with such commodities, between points in that part of Florida, in and west of Okaloosa County, on the one hand, and, on the other, points in that part of Virginia in and north and west of Prince William, Fauquier, Culpeper, Madison, Greene, Albemarle, Augusta, Rockbridge, Botetourt, Roanoke, Montgomery, Pulaski, Wythe, Smyth, and Washington Counties. The purpose of this filing is to eliminate the gateway of points within a 50-mile radius of Nashville, Tenn., and in Virginia.

No. MC 83539 (Sub-No. E395), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and related contractors' materials and supplies when moving in connection with such commodities between points in Georgia, on the one hand, and, on the other, points in Iowa. Restriction: No service shall be performed in the stringing or picking up of any of the above commodities in connection with main or trunk pipelines; and no service shall be performed in the stringing or picking up of pipe in connection with oil or gas pipelines. The purpose of this filing is to eliminate the gateways of points

within a 50-mile radius of Nashville, Tenn., Kentucky, and Illinois.

No. MC 83539 (Sub-No. E396), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and related contractors' materials and supplies when moving in connection with such commodities between points in Georgia in and west of Catoosa, Walker, Gordon, Bartow, Cherokee, Fulton, DeKalb, Henry, Butts, Monroe, Bibb, Houston, Dooly, Crisp, Turner, Tift, Berrien, and Lowndes Counties, on the one hand, and, on the other, points in New York in, west, and north of Lewis, Oneida, Oswego, Onondaga, Cayuga, Seneca, Yates, and Steuben Counties. The purpose of this filing is to eliminate the gateways of points within a 50-mile radius of Nashville, Tenn., Kentucky, and Pennsylvania.

No. MC 83539 (Sub-No. E398), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and parts thereof, when moving in connection with such commodities, between (a) points in Georgia in and west of Catoosa, Walker, Chattooga, Floyd, Polk, Haralson, Carroll, Heard, Troup, Harris, Muscogee, Chattahoochee, Stewart, Randolph, Clay, Early, Miller, and Decatur Counties, on the one hand, and, on the other, points in Pennsylvania in and west of Bradford, Sullivan, Lycoming, Clinton, Centre, Blair, Cambria, and Somerset Counties and (b) points in Georgia in, west and south of Union, White, Hall, Jackson, Clarke, Oconee, Greene, Hancock, Washington, Johnson, Emanuel, Candler, Evans, Tattnall, Long, Wayne, and Glynn Counties, on the one hand, and, on the other, points in Erie County, Pa. The purpose of this filing is to eliminate the gateways of a 50-mile radius of Nashville, Tenn., and Kentucky.

No. MC 83539 (Sub-No. E399), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting:

Commodities, the transportation of which, because of size or weight, require the use of special equipment, and parts thereof, when moving in connection with such commodities, between (a) points in Georgia in and west of Whitfield, Gordon, Pickens, Cherokee, Fulton, DeKalb, Henry, Butts, Monroe, Bibb, Houston, Dooly, Crisp, Turner, Tift, Berrien, and Lowndes Counties, on the one hand, and, on the other, points in West Virginia in and north of Ohio County, and (b) points in Georgia in and west of Whitfield, Walker, Chattooga, Floyd, Polk, Haralson, Carroll, Heard, Troup, Harris, Muscogee, Chattahoochee, Stewart, Randolph, Calhoun, Early, Miller, and Decatur Counties, on the one hand, and, on the other, points in West Virginia in, west, and north of Monongalia, Marion, Harrison, Doddridge, Gilmer, Calhoun, Roane, Kanawha, Putnam, and Cabell Counties. The purpose of this filing is to eliminate the gateways of points within a 50-mile radius of Nashville, Tenn., and Kentucky.

No. MC 83539 (Sub-No. E400), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and parts thereof, when moving in connection with such commodities between (a) points in Illinois in, east, and south of Henderson, Warren, Knox, Stark, Marshall, Putnam, La Salle, Kendall, Will, Du Page, and Cook Counties, on the one hand, and, on the other, points in Michigan in, east, and south of Marquette and Delta Counties, (b) points in Illinois, on the one hand, and, on the other, points in Michigan in, east, and south of Chippewa, Emmet, and Cheboygan Counties, and (c) points in Illinois in, east, and south of Adams, Brown, Cass, Menard, Logan, McLean, Livingston, La Salle, Kendall, Will, Du Page, and Cook Counties, on the one hand, and, on the other, points in Michigan. Restriction: The service authorized here is subject to the following restriction: No service shall be performed in the stringing or picking up of any of the above commodities in connection with main or trunk pipelines. The purpose of this filing is to eliminate the gateway of Indiana.

No. MC 83539 (Sub-No. E401), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle,

over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and parts thereof, when moving in connection with such commodities, between points in Illinois, on the one hand, and, on the other, points in Ohio. Restriction: The service authorized here is subject to the following restriction: No service shall be performed in the stringing or picking up of any of the above commodities in connection with main or trunk pipelines. The purpose of this filing is to eliminate the gateway of Indiana.

No. MC 83539 (Sub-No. E402), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, between points in Illinois, on the one hand, and, on the other, points in Rhode Island. Restriction: The service authorized here is subject to the following restriction: No service shall be performed in the stringing or picking up of any of the above commodities in connection with main or trunk pipelines. The purpose of this filing is to eliminate the gateways of Indiana and Philadelphia, Pa.

No. MC 83539 (Sub-No. E404), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and parts thereof, when moving in connection with such commodities, between points in Illinois, on the one hand, and, on the other, points in Virginia. Restriction: The service authorized here is subject to the following restriction: no service shall be performed in the stringing or picking up of any of the above commodities in connection with main or trunk pipelines. The purpose of this filing is to eliminate the gateway of Indiana.

No. MC 83539 (Sub-No. E405), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and parts thereof, when moving in

connection with such commodities, between points in Illinois, on the one hand, and, on the other, points in West Virginia. Restriction: The service authorized here is subject to the following restriction: no service shall be performed in the stringing or picking up of any of the above commodities in connection with main or trunk pipelines. The purpose of this filing is to eliminate the gateway of Indiana.

No. MC 83539 (Sub-No. E406), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and related contractors' materials and supplies when moving in connection with such commodities, between points in Indiana, on the one hand, and, on the other, points in Maryland. The purpose of this filing is to eliminate the gateway of Pennsylvania.

No. MC 83539 (Sub-No. E407), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, between points in Indiana, on the one hand, and, on the other, points in Massachusetts. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 83539 (Sub-No. E427), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment and, parts thereof, between points in Louisiana, on the one hand, and, on the other, points in Ohio. Restriction: No service shall be performed in the stringing or picking up of any of the above commodities in connection with main or trunk pipelines. The purpose of this filing is to eliminate the gateway of Arkansas and Kentucky or Mississippi and Kentucky.

No. MC 83539 (Sub-No. E428), filed May 31, 1977. Applicant: C & H TRANSPORTATION, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: H. N. Cunningham III (same

as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, the transportation of which, because of size or weight, require the use of special equipment, and related machinery, parts and related contractor's materials and supplies when moving in mixed load with such commodities between points in Maryland, on the one hand, and, on the other, points in Michigan. The purpose of this filing is to eliminate the gateway of points in Pennsylvania.

No. MC 107064 (Sub-No. E320), filed January 22, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Oldham, Potter, Carson, Gray, Deaf Smith, Randall, Armstrong, Donley, Farmer, Castro, Swisher, Briscoe, Hall, Bailey, Lamb, Hale, Floyd, and Motley Counties, Tex., and points on and west of U.S. Highway 83 in Wheeler, Collingsworth, Childress, and Cottle Counties, Tex., to points in California. The purpose of this filing is to eliminate the gateway of the facilities of Goodpasture, Inc., Castro County, Tex.

No. MC 107064 (Sub-No. E321), filed January 22, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in California, to points in Tennessee. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co. in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E322), filed January 22, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Texas on, south, and east of a line commencing at the Texas-Oklahoma State Line and extending along U.S. Highway 62 to its intersection with U.S. Highway 83, thence along U.S. Highway 83 to the Gulf of Mexico to points in Nevada on and south of U.S. Highway 50. The

purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co., in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E323), filed January 22, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Montana, to points in Texas on, south, and east of a line commencing at the Texas-Oklahoma State Line and extending along U.S. Highway 62 to its intersection with U.S. Highway 83, thence along U.S. Highway 83 to the Gulf of Mexico. The purpose of this filing is to eliminate the gateways of the plant site and storage facilities of Occidental Chemical Co., in Hale County, Tex., and points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E324), filed January 22, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Arkansas on and south of U.S. Highway 70 to points in Utah. The purpose of this filing is to eliminate the gateways of the plant site and storage facilities of Occidental Chemical Co., in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E325), filed January 22, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in California to points in Oklahoma (except points in Cimarron, Texas, and Beaver Counties, Okla.). The purpose of this filing is to eliminate the gateways of the plant site and storage facilities of Occidental Chemical Co., in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E326), filed January 22, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Idaho to points in Louisiana. The purpose of this filing is to eliminate the gateways of the plantsite and storage facilities of Occidental Chemical Co., in Hale County, Tex., and points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E327), filed January 22, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Maryland to points in Utah in and south of Millard, Sevier, Wayne, and San Juan Counties, Utah. The purpose of this filing is to eliminate the gateways of the plant site and storage facilities of Occidental Chemical Co., in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 107064 (Sub-No. E328), filed January 22, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Oldham, Potter, Carson, Gray, Deaf Smith, Randall, Armstrong, Donley, Parmer, Castro, Swisher, Briscoe, Hall, Bailey, Lamb, Hale, Floyd, and Motley Counties, Tex., and points on and west of U.S. Highway 83 in Wheeler, Collingsworth, Childress, and Cottle Counties, Tex., to points in Montana. The purpose of this filing is to eliminate the gateway of the facilities of Goodpasture, Inc., in Castro County, Tex.

No. MC 107064 (Sub-No. E329), filed January 22, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and

potash), from points in Oldham, Potter, Carson, Gray, Deaf Smith, Randall, Armstrong, Donley, Parmer, Castro, Swisher, Briscoe, Hall, Bailey, Lamb, Hale, Floyd, and Motley Counties, Tex., and points on and west of U.S. Highway 83 in Wheeler, Collingsworth, Childress, and Cottle Counties, Tex., to points in Idaho. The purpose of this filing is to eliminate the gateway of the facilities of Goodpasture, Inc., and Castro County, Tex.

No. MC 107064 (Sub-No. E330), filed January 22, 1976. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer ingredients* (except petroleum products and potash), from points in Oregon to points in Texas on, south, and east of a line commencing at the Texas-Oklahoma State Line and extending along U.S. Highway 62 to its intersection with U.S. Highway 83, thence along U.S. Highway 83 to the Gulf of Mexico. The purpose of this filing is to eliminate the gateways of the plant site and storage facilities of Occidental Chemical Co., in Hale County, Tex., points in that part of Texas on and west of U.S. Highway 83, and the facilities of Goodpasture, Inc., in Terry and Castro Counties, Tex.

No. MC 114019 (Sub-No. E474), filed December 20, 1976. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods*, in vehicles equipped with mechanical refrigeration from points in the lower peninsula of Michigan to points in the State of Missouri. The purpose of this filing is to eliminate the gateways of Chicago, Ill., and Lafayette, Ind.

No. MC 114019 (Sub-No. E475), filed December 20, 1976. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such merchandise as is dealt in by wholesale or retail food business houses and in connection therewith, equipment, materials and supplies used in the conduct of such business*, (a) Between points in the States of Wisconsin and Iowa, on the one hand, and, on the other, Toledo, Akron, Cleveland, Columbus, Dayton, Youngstown, Ohio and Louisville, Ky.; Sparrows Point and Baltimore, Md.,

New York, N.Y., and points within 30 miles of New York, N.Y., points in that part of New Jersey, Delaware, Maryland, which are located within 30 miles of Philadelphia, Pa., points in that part of New York on and west of a line beginning at the Windsor Beach, N.Y., and extending along to Rochester, N.Y., thence along U.S. Highway 15 to Wayland, N.Y., thence along New York Highway 245 to Dansville, N.Y., thence along New York Highway 36 to junction New York Highway 21, thence along New York Highway 21 to Andover, N.Y., and thence along New York Highway 17 to the New York-Pennsylvania State line, and points in West Virginia and Pennsylvania. (b) From Louisville, Ky., Akron, Cleveland, Columbus, Dayton, Toledo and Youngstown, Ohio, points in Ohio within 25 miles of each of such Ohio cities, Fort Wayne, Indianapolis, Muncie, South Bend and Terre Haute, Ind., and points in Indiana within 25 miles of each of such Indiana cities, Detroit, Flint and Grand Rapids, Mich., and points in Michigan within 25 miles of each of such Michigan cities, to points in Wisconsin and Iowa. The purpose of this filing is to eliminate the gateway Barrington, Ill.

No. MCH114019 (Sub-No. E476), filed December 20, 1976. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, raw and manufactured, (a) Between points in Ohio, Indiana, Pennsylvania, New York, and points in New Jersey within 30 miles of New York, N.Y. and Philadelphia, Pa., Baltimore, Md., and West Virginia on the one hand, and, on the other, points in Minnesota. (b) Between points in New York, and those in Pennsylvania and Ohio on and north of Interstate Highway 80 on the one hand, and, on the other, points in Missouri on and west of U.S. Highway 63 from the Arkansas-Missouri State line to its junction with U.S. Highway 54, thence along U.S. Highway 54 to the Illinois-Missouri State line. (c) Between points in Pennsylvania on and south of U.S. Highway 80 extending from the New Jersey-Pennsylvania State line to junction Interstate Highway 219, points in and east of Interstate Highway 219 to the Maryland-Pennsylvania State line, on the one hand, and, on the other, points in Missouri on and west of U.S. Highway 54 to junction U.S. Highway 73 and thence along U.S. Highway 73 to junction Interstate Highway 60, thence along Interstate Highway 60 to the Kansas-Missouri State line, and those points in New Jersey within 30 miles of New York, N.Y. and Philadelphia, Pa. (d) Be-

tween points in Pennsylvania on and south and west of U.S. Highway 80 from the Ohio-Pennsylvania State line, to junction Interstate Highway 219, thence along Interstate Highway 219 to the Maryland-Pennsylvania State line on the one hand, and, on the other, points in Missouri on and west of U.S. Highway 24 from the Illinois-Missouri State line to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Missouri-Kansas State line, and points in that part of New Jersey, Delaware, and Maryland which are within 30 miles of Philadelphia, Pa. (e) Between points within that portion of Ohio south of a line extending from Pennsylvania-Ohio State line along U.S. Highway 80 to junction Interstate Highway 13, thence south along Interstate Highway 13 to junction U.S. Highway 30, thence east along U.S. Highway 30 to the Ohio-Pennsylvania State line on the one hand, and, on the other, points in Missouri on and west of U.S. Highway 24 from the Illinois-Missouri State line to junction U.S. Highway 63, thence south along U.S. Highway 63 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Kansas-Missouri State line. (f) Between points in Ohio south of Interstate Highway 80 extending from the Indiana-Ohio State line to junction Interstate Highway 13, and points on and west of Interstate Highway 30, thence west along U.S. Highway 30 to the Ohio-Indiana State line on the one hand, and, on the other, points in Missouri on, west, and north of U.S. Highway 63 from the Iowa-Missouri State line, to junction U.S. Highway 40, thence along U.S. Highway 40 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Missouri Highway 52, thence along Missouri Highway 52 to junction Missouri Highway 18, thence along Missouri Highway 18 to the Kansas-Missouri State line. (g) Between points in Indiana on and north of U.S. Highway 30 on the one hand, and, on the other, points in Missouri on and west of U.S. Highway 63 from the Iowa-Missouri State line extending south to junction U.S. Highway 54 and points on and north of U.S. Highway 54 west of the Missouri-Kansas State line. The purpose of this filing is to eliminate the gateways of Chicago, and Barrington, Ill. Muscatine, Iowa, and any point in Ohio.

No. MC 114211 (Sub-No. E547) (Correction), filed June 4, 1974, published in the FEDERAL REGISTER issue of February 5, 1975, and republished, as corrected, this issue. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier,

by motor vehicle, over irregular routes, transporting: *Grading, paving and finishing machinery, equipment, parts, accessories and attachments*, between points in Ohio, West Virginia, Virginia, South Carolina, Maryland, Delaware, New Jersey, Connecticut, Rhode Island, Pennsylvania, New York, Massachusetts, Vermont, New Hampshire, Maine, and points in that part of North Carolina on and east of a line beginning at the Georgia-North Carolina State line, thence along U.S. Highway 64 to junction U.S. Highway 129, thence along U.S. Highway 129 to the North Carolina-Tennessee State line, and points in that part of Georgia on and east of a line beginning at the North Carolina-Georgia State line, thence along Georgia Highway 60 to junction U.S. Highway 76, thence along U.S. Highway 76 to junction Georgia Highway 5, thence along Georgia Highway 5 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction U.S. Highway 319, thence along U.S. Highway 319 to the Georgia-Florida State line, and points in that part of Florida on and east of a line beginning at the Georgia-Florida State line, thence along U.S. Highway 319 to junction U.S. Highway 98, thence along U.S. Highway 98 to junction Florida Highway 365, thence along Florida Highway 365 to Spring Creek, Fla., and points in that part of Tennessee on and east of a line beginning at the North Carolina-Tennessee State line, thence along U.S. Highway 129 to junction Interstate Highway 75, thence along Interstate Highway 75 to the Tennessee-Kentucky State line, and points in that part of Kentucky on and east of a line beginning at the Tennessee-Kentucky State line, thence along Interstate Highway 75 to the Kentucky-Ohio State line, on the one hand, and, on the other, points in that part of Colorado on and south of a line beginning at the Nebraska-Colorado State line, thence along Interstate Highway 80S, to junction Interstate Highway 70, thence along Interstate Highway 70 to the Colorado-Utah State line. The purpose of this filing is to eliminate the gateway of Canton, S. Dak.

NOTE.—The purpose of this correction is to state the correct territorial description.

By the Commission.

H. G. HOMME, Jr.,
Acting Secretary.

[Notice No. 7TA]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 25, 1978.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information. Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 26396 (Sub-No. 184TA), filed January 5, 1978. Applicant: POPELKA TRUCKING CO., d.b.a. THE WAGONERS, P.O. Box 990, Livingston, Mont. 59047. Applicant's representative: Bradford E. Kistler, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Acoustical materials and accessories*, from Plainfield, Ill., to Kansas, Nebraska, New Mexico, Arizona, Utah, Washington, Colorado, Texas, Michigan, Iowa, Missouri, Minnesota, South Dakota, Florida, Alabama, and to ports of entry on the international boundary line between the United States and Canada in the States of Montana, Idaho and North Dakota, for 180 days. Securities and Exchange Commission	14	

[6355-01]

CONSUMER PRODUCT SAFETY COMMISSION.

TIME AND DATE: 9:30 a.m., February 9, 1978.

LOCATION: Third Floor Hearing Room, 1111 18th Street NW., Washington, D.C.

STATUS: Partly Open; Partly Closed.

MATTERS TO BE CONSIDERED:

A. Open to the Public:

1. *Recommendation to Close Possible Substantial Product Hazard Case: Shelcor, Inc. vacuum baby bottles with glass liners, ID 77-7.*—Based upon its belief that no substantial risk of injury is associated with these bottles, the staff has recommended that the Commission close the substantial product hazard case, and not pursue a timeliness case.
2. *Exportation of Tris-treated Products that have been in Domestic Commerce.*—Richard Glmer, on behalf of the American Yarn Spinners Association, has asked the Commission's Directorate of Compliance and Enforcement to provide a statement of the Commission's enforcement intentions with respect to persons who export properly labeled Tris-containing fiber, yarn, fabrics or garments from original inventory or from recalled or returned articles. The staff has asked the Commission to approve a draft response to this request.
3. *Cellulose Home Insulation.*—The Commission will consider issues related to a possible proceeding to develop mandatory safety standards for cellulose home insulation. The Commission and staff discussed this matter at the February 2 briefing.

B. Closed to the Public (2 p.m.):

4. *Budget and Authorization Hearings.*—At this session, the Commission and staff

will discuss strategy related to upcoming Congressional hearings on CPSC's authorization and budget.

CONTACT PERSON FOR ADDITIONAL INFORMATION:

Sheldon D. Butts, Assistant Secretary, Office of the Secretary, Suite 300, 1111 18th Street NW., Washington, D.C. 20207, telephone 202-634-7700.

[S-262-78 Filed 2-1-78; 1:57 pm]

[6570-06]

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION.

TIME AND DATE: 9:30 a.m. (eastern time), Tuesday, February 7, 1978.

PLACE: Chairman's Conference Room, No. 5240, on the fifth floor of the Columbia Plaza Office building, 2401 E Street NW., Washington, D.C. 20506.

STATUS: Parts will be open to the public and part will be closed to the public.

MATTERS TO BE CONSIDERED:

Parts open to the public:

1. Procedures for providing assistance in obtaining attorneys to parties who have filed charges of discrimination; Proposed Section 81 of Compliance Manual.
2. Revision of procedures for Commission approval of determinations on petitions to revoke or modify subpoenas, to reflect transfer of functions to the Office of the General Counsel.

Part closed to the public:

Litigation Authorization; General Counsel Recommendations: Matters closed to the public under Sec. 1612.13(a) of the Commission's regulations (42 FR 13830, March 14, 1977).

NOTE.—Any matter not discussed or concluded may be carried over to a later meeting.

CONTACT PERSON FOR MORE INFORMATION:

Marie D. Wilson, Executive Officer, Executive Secretariat, at 202-634-6748.

Issued: January 31, 1978.

[S-254-78 Filed 2-1-78; 1:57 pm]

[6715-01]

AGENCY: FEDERAL ELECTION COMMISSION.

TIME AND DATE: Wednesday, February 8, 1978 at 10 a.m.

PLACE: 1325 K Street NW., Washington, D.C.

STATUS: This meeting will be closed to the public.

MATTERS TO BE CONSIDERED: Audits, Compliance, Personnel.

TIME AND DATE: Thursday, February 9, 1978 at 2 p.m.

PLACE: 1325 K Street NW., Washington, D.C.

STATUS: Portions of this meeting will be open to the public and portions closed.

MATTERS TO BE CONSIDERED:

Portions open to the public:

- I. Future meetings.
- II. Correction and approval of minutes.
- III. Advisory opinions: AO 1977-58, 1977-63, 1978-1, 1978-2.
- IV. Procedures on nonfilers: Part I.
- V. FEC Form 7.
- VI. FOIA regulations.
- VII. Status of Commissioner's Policy Statements.
- VIII. Classification actions.

KENNETH F. PLUMB,
Secretary.

[S-263-78 Filed 2-1-78; 3:22 pm]

[6210-01]

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM.

TIME AND DATE: 10 a.m., February 6, 1978. The closed portion of the meeting will commence at the conclusion of the open discussion.

PLACE: 20th Street and Constitution Avenue NW., Washington, D.C. 20551.

STATUS: Part of the meeting will be open, part will be closed.

MATTERS TO BE CONSIDERED:

Open portion:

Summary Agenda: Because of their routine nature, no substantive discussion of the following items is anticipated. These matters will be resolved with a single vote unless a member of the Board requests that an item be moved to the discussion agenda.

1. A proposed survey of bank holding company insurance activities.

Discussion Agenda:

1. Proposed statement to be presented to the Senate Committee on Banking, Housing, and Urban Affairs regarding the Federal Reserve System's budget.
2. Proposed guide to conduct for directors of Federal Reserve Banks and regulation to be issued, pursuant to 18 U.S.C. 208, regarding specific actions by such directors.
3. Any agenda items carried forward from a previously announced meeting.

Closed portion:

1. Proposed negotiation of a competitive purchase of computer equipment at the Federal Reserve Bank of Cleveland. This matter was originally announced for a meeting on January 30, 1978.
2. Any agenda items carried forward from a previously announced meeting.

CONTACT PERSON FOR MORE INFORMATION:

Mr. Joseph R. Coyne, Assistant to the Board: 202-452-3204.

[S-252-78 Filed 1-30-78; 8:45 am]

[6210-01]

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM.

TIME AND DATE: 11:30 a.m., Friday, January 27, 1978. The business of the Board required that this meeting be held with less than one week's advance notice to the public, and no earlier announcement of the meeting was practicable.

PLACE: 20th Street and Constitution Avenue NW., Washington, D.C. 20551.

STATUS: Closed.

MATTERS CONSIDERED: 1. Personnel appointments within the Board's staff.

4750-4782

CONTACT PERSON FOR MORE INFORMATION:

Mr. Joseph R. Coyne, Assistant to the Board, 202-452-3204.

Dated: January 27, 1978.

Public Health Service

NURSING SPECIAL
PROJECT GRANTS

Proposed Provisions

[4110-83]

DEPARTMENT OF HEALTH,
EDUCATION, AND WELFARE

Public Health Service

[42 CFR Part 57]

NURSING SPECIAL PROJECT GRANTS

Proposed Rulemaking

AGENCY: Public Health Service,
HEW.ACTION: Notice of proposed rulemak-
ing.

SUMMARY: The proposed regulations are to implement the Public Health Service Act, which provides that the Secretary may make grants to public and nonprofit private entities to meet the costs of special projects such as improving curricula of schools of nursing, increasing education opportunities for individuals from disadvantaged backgrounds, and providing continuing education for nurses. The proposed regulations revise the existing regulations to include changes made by the Nurse Training Act of 1975.

DATES: Comments must be received on or before March 6, 1978.

ADDRESSES: Written comments, preferably in triplicate, may be addressed to the Director, Bureau of Health Manpower, Health Resources Administration, 3700 East-West Highway, Center Building, Room 4-22, Hyattsville, Md. 20782. All comments received will be available for public inspection and copying at the Office of Program Operations, Bureau of Health Manpower, at the above address, weekdays, (Federal holidays excepted) between the hours of 8:30 a.m. and 5 p.m.

FOR FURTHER INFORMATION CONTACT:

Miss Edith Rathbun, Division of Nursing, Bureau of Health Manpower, Room 3-50, at the above address, phone 301-436-6684.

SUPPLEMENTARY INFORMATION: The Assistant Secretary for Health, Department of Health, Education, and Welfare, with the approval of the Secretary of Health, Education, and Welfare, proposes to revise Subpart T of Part 57, the regulations for nursing special project grants under the former section 805 of the Public Health Service Act. These grants are now authorized under section 820 of the Act. The Nurse Training Act of 1975 made changes in the several purposes for which these grants may be awarded and added two new purposes. The following features of the proposed regulations should be noted:

1. Section 57.1903(b) of the proposed regulation sets forth the purposes for which these grants may be made, as specified in section 820(a) of the Act.

PROPOSED RULES

2. Section 57.1904 of the proposed regulations sets forth the requirements for an approvable application.

3. With respect to projects to plan, develop, or establish a new nurse training program or programs of research in nurse training (§ 57.1903(b)(2)(i)), the proposed regulations require under § 57.1905(b) that the program to be planned, developed, or established must become operational (i.e., enroll students) within the period of grant support. The basis for this proposal is the Secretary's view based upon the Department's experience that it is a more productive use of Federal funds to support planning and/or developmental activities, which include establishment of an operating program as the end product, especially with limited funds available to carry out all of the purposes. The three-year project period should provide adequate time for a program to become operational.

4. Proposed § 57.1905(c) provides that for purposes of projects to increase nursing education opportunities for individuals from disadvantaged backgrounds, the grantee, in determining whether individuals are from disadvantaged backgrounds, may consider an individual to be from a disadvantaged background if the individual:

(a) Comes from an environment that has inhibited the individual from obtaining the knowledge, skills, and abilities required to enroll in and graduate from a school of nursing; or

(b) Comes from a family with an annual income below a level based on low-income thresholds by family size published by the U.S. Bureau of the Census, adjusted annually for changes in the Consumer Price Index, and multiplied by a factor to be determined by the Secretary for adaptation to this program. The Secretary periodically will publish in the FEDERAL REGISTER such factor and income levels as adjusted.

5. With respect to projects relating to continuing education, retraining opportunities, and upgrading the skills of certain types of nursing personnel (§ 57.1903(b) (4), (5), and (7), respectively), the proposed regulations require that these projects (1) be designed to have wide applicability for the nursing profession and (2) have an enrollment not limited to employees of a single institution. The purpose of these restrictions is to assure that public funds be used to effect improvement in training for the nursing profession in general, as opposed to routine employee orientation and in-service training which is considered the responsibility of individual employers. (See § 57.1905 (d), (e), and (f).)

6. Section 57.1903(b) of the proposed regulations provides that one project eligible for support is a project to increase the supply or improve the dis-

tribution by geographic area or by specialty group of adequately trained nursing personnel (including nursing personnel who are bilingual) to meet the health needs of the Nation. For this purpose, "nursing personnel who are bilingual" is proposed to be defined under § 57.1902 to mean nursing personnel with the ability to speak and understand, in addition to English, a language used by any major United States population group composed of individuals of limited English-speaking ability. In addition, "individuals of limited English-speaking ability" is proposed to be defined under § 57.1902(k) to mean "(1) individuals who were not born in the United States or whose native language is a language other than English, and (2) individuals who come from environments where a language other than English is dominant, and by reason thereof, have difficulty speaking and understanding the English language." This proposed definition is based upon a similar definition used in the Office of Education programs of support under the Bilingual Education Act (20 U.S.C. 880b).

It should also be noted that nursing special project grants which are to support the development of health resources intended for use in a health service area designated under Title XV of the Public Health Service Act or to support the delivery of health services are also subject to requirements of section 1513(e) of the Act, relating to review and approval by health systems agencies. Regulations establishing these review procedures are in the process of development by the Department.

It is therefore proposed to revise Subpart T of 42 CFR Part 57 as set forth below.

NOTE.—The Department of Health, Education, and Welfare has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107.

Dated: October 12, 1977.

JULIUS B. RICHMOND,
Assistant Secretary for Health.

Approved: January 23, 1978.

JOSEPH A. CALIFANO, Jr.,
Secretary.

Subpart T—Nursing Special Project Grants

Sec.	
57.1901	Applicability.
57.1902	Definitions.
57.1903	Eligibility.
57.1904	Application.
57.1905	Project requirements.

57.1911	Publications and copyright.
57.1912	Applicability of 45 CFR Part 74.

PROPOSED RULES

Sec.

57.1913 Additional conditions.

AUTHORITY: Sec. 215, 58 Stat. 690, as amended, 63 Stat. 35 (42 U.S.C. 216); sec. 820, 89 Stat. 35f (42 U.S.C. 296k).

Subpart T—Nursing Special Project Grants

§ 57.1901 Applicability.

The regulations of this subpart are applicable to the award of grants to public and nonprofit private schools of nursing and other public or nonprofit private entities under section 820 of the Public Health Service Act (42 U.S.C. 296k) to assist in meeting the costs of special projects.

§ 57.1902 Definitions.

As used in this subpart:

(a) "Act" means the Public Health Service Act, as amended.

(b) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

(c) "Council" means the National Advisory Council on Nurse Training (established by section 851(a) of the Act).

(d) "Budget Period" means the interval of time into which the project period is divided for budgetary and reporting purposes, as specified in the grant award document.

(e) "Project period" means the total time for which support for a project has been approved, including any extensions thereof.

(f) "Project director" means an individual designated by the grantee in the grant application and approved by the Secretary to direct the project being supported under this subpart.

(g) "State," except as otherwise provided herein, means a State, Puerto Rico, the District of Columbia, the Canal Zone, Guam, American Samoa, the Virgin Islands, or the Trust Territory of the Pacific Islands.

(h) "School of nursing" means a collegiate, associate degree or diploma school of nursing, as such are defined in section 853 of the Act.

(i) "Nonprofit" as applied to any school or entity means one which is a corporation or association, or is owned and operated by one

or more corporations or associations, no part of the net earnings of which inure or may lawfully inure to the benefit of any private shareholder or individual.

(j) "Nursing personnel who are bilingual" means nursing personnel with the ability to speak and understand, in addition to English, a language used by any major United States population group composed of individuals of limited English-speaking ability.

(k) "Individuals of limited English-speaking ability" means: (1) individuals who were not born in the United

States or whose native language is a language other than English, and (2) individuals who come from environments where a language other than English is dominant, and by reason thereof, have difficulty speaking and understanding the English language.

§ 57.1903 Eligibility.

(a) *Eligible applicants.* Any public or nonprofit private school of nursing or other public or nonprofit private entity located in a State may apply for a grant under this subpart.

(b) *Eligible projects.* Grants under this subpart may be made to eligible applicants to meet the costs of special projects to carry out one or more of the following purposes:

(1) To assist in—
(i) Mergers between hospital training programs or between hospital training programs and academic institutions, or

(ii) Other cooperative arrangements among hospitals and academic institutions leading to the establishment of nurse training programs;

(2) To plan, develop, or establish new nurse training programs or programs of research in nursing education, or to significantly improve curricula of schools of nursing (including curricula of pediatric nursing and geriatric nursing) or modify existing programs of nursing education;

(3) To increase nursing education opportunities for individuals from disadvantaged backgrounds, as determined in accordance with the criteria prescribed in § 57.1905(c), by—

(i) Identifying, recruiting, and selecting such individuals,

(ii) Facilitating the entry of such individuals into schools of nursing,

(iii) Providing counseling or other services designed to assist such individuals to complete successfully their nursing education,

(iv) Providing, for a period prior to the entry of such individuals into the regular course of education at a school of nursing, preliminary education designed to assist them to complete successfully such regular course of education,

(v) Paying such stipends as the Secretary may determine for such individuals for any period of nursing education, and

(vi) Publicizing, especially to licensed vocational or practical nurses, existing sources of financial aid available to persons enrolled in schools of nursing or who are undertaking training necessary to qualify them to enroll in such schools;

(4) To provide continuing education for nurses;

(5) To provide appropriate retraining opportunities for nurses who (after periods of professional inactivity) desire again actively to engage in the nursing profession;

(6) To help to increase the supply or improve the distribution by geographic area or by specialty group of adequately trained nursing personnel (including nursing personnel who are bilingual) needed to meet the health needs of the Nation, including the need to increase the availability of personal health services and the need to promote preventive health care;

(7) To provide training and education to upgrade the skills of licensed vocational or practical nurses, nursing assistants, and other paraprofessional nursing personnel; or

(8) To assist in meeting the costs of developing short-term (not to exceed 6 months) in-service training programs for nurses aides and orderlies for nursing homes, which programs emphasize the special problems of geriatric patients and include training for monitoring the well-being and feeding and cleaning of the patients in nursing homes, selected emergency procedures, basic knowledge of drug properties and interactions, and fire safety techniques.

§ 57.1904 Application.

(a) Each eligible applicant desiring a grant under this subpart shall submit an application in such form and at such time as the Secretary may prescribe.

(b) The application shall be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of any award, including the regulations of this subpart.

(c) In addition to such other pertinent information as the Secretary may require, an application for a grant under this subpart shall contain the following:

(1) A proposal for a project to carry out one or more of the purposes specified in § 57.1903(b).

(2) Information documenting the need for the proposed project.

(3) A description of the anticipated impact of the proposed project, including its potential contribution to nursing.

(4) A detailed plan for achieving and measuring the stated objectives of the proposed project.

(5) A description of the resources available for the conduct of the proposed project, including faculty, staff, equipment, facilities, and, where applicable, a clinical practice setting or settings.

(6) A detailed budget for the proposed project and a justification of the amount of grant funds requested.

¹ Applications and instructions may be obtained from the Division of Nursing, Bureau of Health Manpower, Health Resources Administration, Department of Health, Education, and Welfare, Center Building, Room 3-50, 3700 East-West Highway, Hyattsville, Md. 20782.

(7) A description of any Federal financial support related to the proposed project which the applicant is currently receiving.

(8) A detailed timetable for carrying out the activities of the proposed project, including any plans for continuing such activities beyond the project period.

(9) A description of the background and qualifications of the project staff and any proposed consultants.

(10) A description of any written agreements with other institutions or organizations for carrying out the proposed project.

(11) If the proposed project includes the provision of training, information concerning the source and number of potential students and a description of recruitment plans and criteria for the selection and admission of students.

§ 57.1905 Project requirements.

A project supported under this subpart shall be conducted in accordance with the following requirements:

(a) The project shall be conducted under the direction of the project director. If the project director becomes unable to function in such capacity, the Secretary shall be notified as soon as possible.

(b) If the project is designed to carry out the purpose of § 57.1903(b)(2)(i), the new nurse training program or program of research in nursing education to be planned, developed, or established shall be operational within the project period.

(c) If the project is designed to carry out the purpose of § 57.1903(b)(3), the grantee may consider an individual to be from a disadvantaged background if the individual:

(1) Comes from an environment that has inhibited the individual from obtaining the knowledge, skills, and abilities required to enroll in and graduate from a school of nursing; or

(2) Comes from a family with an annual income below a level based on low-income thresholds by family size published by the U.S. Bureau of the Census, adjusted annually for changes in the Consumer Price Index, and multiplied by a factor to be determined by the Secretary for adaptation to this program. The Secretary periodically will publish in the FEDERAL REGISTER such factor and income levels as adjusted.

(d) If the project is designed to carry out the purpose of § 57.1903(b)(4), the project shall provide a continuing education program which: (1) is designed to have wide applicability for the nursing profession, and (2) has an enrollment not limited to nurses employed by a single institution.

(e) If the project is designed to carry out the purpose of § 57.1903(b)(5), the project shall provide a retraining program which: (1) has a curriculum that

includes classroom instruction and faculty-supervised clinical training, (2) is designed to have wide applicability for the nursing profession, and (3) has an enrollment not limited to nurses employed by a single institution.

(f) If the project is designed to carry out the purpose of § 57.1903(b)(7), the project shall provide a training program which: (1) is designed to have wide applicability for the nursing field, and (2) has an enrollment not limited to nurses employed by a single institution.

(g) If the project is designed to carry out the purpose of § 57.1903(b)(8), the project shall develop a training program for nursing home personnel, the curriculum, course materials, and methodology of which can be used on a regional, State or national basis.

§ 57.1906 Evaluation and grant award.

(a) Within the limits of funds available for such purpose, the Secretary, after consultation with the Council, may award grants to those applicants whose projects will, in his judgment, best promote the purposes of section 820 of the Act, taking into consideration among other pertinent factors:

(1) The national or special local need which the particular project proposes to serve;

(2) The potential effectiveness of the proposed project in carrying out such purposes;

(3) The administrative and managerial capability of the applicant to carry out the proposed project;

(4) The adequacy of the facilities and resources available to the applicant to carry out the proposed project;

(5) The qualifications of the project director and proposed staff;

(6) The reasonableness of the proposed budget in relation to the proposed project; and

(7) The potential of the project to continue on a self-sustaining basis after the period of grant support.

(b) The amount of any award will be determined by the Secretary on the basis of his estimate of the sum necessary for all or a designated portion of the direct costs of the project plus an additional amount for indirect costs, if any, which will be calculated by the Secretary either: (1) on the basis of his estimate of the actual indirect costs reasonably related to the project, or (2) on the basis of a percentage of all, or a portion of, the estimated direct costs of the project when there are reasonable assurances that the use of such percentage will not exceed the approximate actual indirect costs. Such award may include an estimated provisional amount for indirect costs or for designated direct costs (such as fringe benefit rates) subject to upward (within the limit of available funds) as well as downward adjustments to actual costs when the amount properly

expended by the grantee for provisional items has been determined by the Secretary.

(c) All grant awards shall be in writing and shall set forth the amount of funds granted and the period for which such funds will be available for obligation by the grantee. Projects receiving grants under this subpart may be approved for an initial project period of up to three years. Grantees may apply for up to two years of additional support by submitting a competing extension application.

(d) Neither the approval of any project nor the award of any grant shall commit or obligate the United States in any way to make any additional, supplemental, continuation, or other award with respect to any approved project or portion thereof. For continuation support, grantees shall make separate application at such times and in such form as the Secretary may prescribe.

§ 57.1907 Grant payments.

The Secretary will from time to time make payments to the grantee of all or a portion of any grant award, either by way of reimbursement for expenses incurred in the budget period, or in advance for expenses to be incurred, to the extent he determines such payments necessary to promote prompt initiation and advancement of the approved project.

§ 57.1908 Expenditure of grant funds.

(a) Any funds granted pursuant to this subpart shall be expended solely for carrying out the approved project in accordance with section 820 of the Act, the regulations of this subpart, the terms and conditions of the award, and the applicable cost principles prescribed by Subpart Q of 45 CFR Part 74. *Provided*, That such funds may not be expended for sectarian instruction or for any religious purpose.

(b) Any unobligated grant funds remaining in the grant account at the close of a budget period may be carried forward and be available for obligation during subsequent budget periods of the project period. The amount of a subsequent award will take into consideration the amount remaining in the grant account. At the end of the last budget period of the project period, any unobligated grant funds remaining in the grant account shall be refunded to the Federal Government.

§ 57.1909 Nondiscrimination.

(a) Attention is called to the requirements of section 855 of the Act and 45 CFR Part 83, which together provide that the Secretary may not make a grant, loan guarantee, or interest subsidy payment under Title VIII of the Act to, or for the benefit of, any entity unless the application for the grant,

loan guarantee, or interest subsidy payment contains assurances satisfactory to the Secretary that the entity will not discriminate on the basis of sex in the admission of individuals to its training programs.

(b) Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.) and in particular to section 601 of such Act which provides that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI, which is applicable to grants made under this subpart, has been issued by the Secretary with the approval of the President (45 CFR Part 80).

(c) Attention is called to the requirements of Title IX of the Education Amendments of 1972 and in particular to section 901 of such Act which provides that no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance. A regulation implementing such Title IX, which is applicable to grants made under this subpart, has been issued by the Secretary with the approval of the President (45 CFR Part 86).

(d) Attention is called to the requirements of section 504 of the Rehabilitation Act of 1973, as amended, which provides that no otherwise qualified handicapped individual in the United States shall, solely by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such section 504, which is applicable to grants made under this subpart, has been issued by the Secretary (45 CFR Part 84).

(e) Grant funds used for alteration or renovation shall be subject to the condition that the grantee shall comply with the requirements of Executive Order 11246, 30 FR 12319 (Sept. 24, 1965), as amended, and with the applicable rules, regulations, and procedures prescribed pursuant thereto.

(f) The grantee shall not discriminate on the basis of religion in the admission of individuals to its training programs.

§ 57.1910 Grantee accountability.

(a) *Accounting for grant award payments.* All payments made by the Secretary shall be recorded by the grantee in accounting records separate

from the records of all other funds, including funds derived from other grant awards. With respect to each approved project the grantee shall account for the sum total of all amounts paid by presenting or otherwise making available evidence satisfactory to the Secretary of expenditures for costs meeting the requirements of this subpart: *Provided*, That when the amount awarded for indirect costs was based on a predetermined fixed percentage of estimated direct costs, the amount allowed for indirect costs shall be computed on the basis of such predetermined fixed-percentage rates applied to the total or selected elements of the reimbursable direct costs incurred.

(b) *Accounting for copyright royalties.* Royalties received by grantees from copyrights on publications or other works developed under the grant shall be accounted for as follows:

(1) Royalties received during the period of grant support may be retained by the grantee and, in accordance with the terms and conditions of the grant, used in either or both of the following ways:

(i) Used by the grantee for any purposes that further the objectives of section 820 of the Act.

(ii) Deducted from the total project costs for the purpose of determining the net costs on which the Federal share of costs will be based.

(2) Royalties received after the completion or termination of grant support may be retained by the grantee, unless the terms and conditions of the grant or a specific agreement negotiated between the Secretary and the grantee provide otherwise, except that any grantee that is a State or local government, as defined in 45 CFR 74.3, which receives royalties in excess of \$200 a year must return the Federal share of the excess amount (computed by applying the percentage of Federal participation in the cost of the grant-supported project to the excess amount) to the Federal Government, unless a specific agreement provides otherwise.

(c) *Grant Closeout.*—(1) *Date of final accounting.*—A grantee shall render, with respect to each approved project, a full account, as provided herein, as of the date of the termination of grant support. The Secretary may require other special and periodic accounting.

(2) *Final settlement.* There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of (i) any amount not accounted for pursuant to paragraphs (a) and (b) of this section; and (ii) any other amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74 and the terms and

conditions of the grant award. Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assigns by setoff or other action as provided by law.

§ 57.1911 Publications and copyright.

(a) *State and local government.* Where the grantee is a State or local government, as those terms are defined in Subpart A of 45 CFR Part 74, the Department of Health, Education, and Welfare copyright requirement set forth in 45 CFR 74.140 shall apply with respect to any book or other copyrightable materials developed or resulting from a project supported by a grant under this subpart.

(b) *Grantees other than State and local governments.* Where the grantee is not a State or local government, as so defined, except as may otherwise be provided under the terms and conditions of the award, the grantee may copyright without prior approval any publications, films, or similar materials developed or resulting from a project supported by a grant under this subpart, subject to a royalty-free, non-exclusive, and irrevocable license or right in the Government to reproduce, translate, publish, use, disseminate, and dispose of such materials, and to authorize others to do so.

§ 57.1912 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this subpart to State and local governments as those terms are defined in Subpart A of Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to all other grantee organizations under this subpart:

- A General.
- B Cash Depositories.
- C Bonding and Insurance.
- D Retention and Custodial Requirements for Records.
- F Grant-Related Income.
- K Grant Payment Requirements.
- L Budget Revision Procedures.
- M Grant Closeout, Suspension, and Termination.
- O Property.
- Q Cost Principles.

§ 57.1913 Additional conditions.

The Secretary may with respect to any grant award impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the approved activity, the interest of the public health, or the conservation of grant funds.

[42 CFR Part 57]

GRANTS TO SCHOOLS OF NURSING FOR THE
SUPPORT OF THEIR EDUCATIONAL PRO-
GRAMS

Proposed Rulemaking

AGENCY: Public Health Service,
HEW.ACTION: Notice of proposed rulemak-
ing.

SUMMARY: The proposed regulations are to implement the Public Health Service Act, which provides that the Secretary shall make annual capitation grants to schools of nursing for support of their educational programs. The proposed regulations are to be substituted for the existing regulations for these grants, and include the changes made by the Nurse Training Act of 1975 and by the Health Services Extension Act of 1977.

DATES: Comments must be received on or before March 6, 1978.

ADDRESSES: Written comments may be addressed to the Director, Bureau of Health Manpower, Health Resources Administration, 3700 East-West Highway, Center Building, Room 4-22 Hyattsville, Md. 20782. All comments received will be available for public inspection and copying at the Office of Program Operations, Bureau of Health Manpower, at the above address, weekdays (Federal holidays excepted) between the hours of 8:30 and 5 p.m.

FOR FURTHER INFORMATION CONTACT:

Miss Edith Rathbun, Division of Nursing, Bureau of Health Manpower, Room 3-50, at the above address, phone: 301-436-6684.

SUPPLEMENTARY INFORMATION: The Assistant Secretary for Health, Department of Health, Education, and Welfare, with the approval of the Secretary of Health, Education, and Welfare, proposes to delete Subpart K of 42 CFR Part 57, relating to nursing capitation grants under former section 806 of the Public Health Service Act, and to substitute a new Subpart K to implement section 810 of the Act, as amended by the Nurse Training Act of 1975 and by the Health Services Extension Act of 1977.

Nursing capitation grants are grants to schools of nursing based on formulas relating to the number of full-time students enrolled in the recipient institutions. The Nurse Training Act of 1975 (Title IX of Pub. L. 94-63) sub-

stantially revised the capitation provisions in section 806 of the Public Health Service Act, and redesignated it as section 810. These revisions include changes in the formulas for computing the grants for each of three types of eligible schools (collegiate, associate degree, and diploma schools of nursing), as well as changes to the conditions schools must meet in order to receive capitation grants. For example, each school must provide assurances satisfactory to the Secretary that its full-time, first-year enrollment will not decrease from the previous year, and that it will continue to expend a certain level of funds from non-Federal sources. Each school must also assure the Secretary that it will either increase its full-time, first-year enrollment, or carry out any two of the four programs specified in section 810(c)(2)(B). These programs involve nurse practitioner training, clinical education, continuing education, and the recruitment and graduation of students from disadvantaged backgrounds. Section 57.1004(c)(3)(ii)(D) of the proposed regulations sets forth the criteria for determining whether, for purposes of this program, individuals are from disadvantaged backgrounds. The proposed regulations also contain the following features:

1. Section 57.1004 of the proposed regulations sets forth the requirements for an approvable application.

2. With respect to new schools of nursing applying for grants under section 810(e) of the Act, the proposed regulations include provisions regarding eligibility (§ 57.1003(b)), application requirements (§ 57.1004(c)(4)), and determination of enrollment (§ 57.1005(b)).

It is, therefore, proposed to delete the existing Subpart K of 42 CFR Part 57 and to substitute a new Subpart K to Part 57 to read as set forth below.

NOTE.—The Department of Health, Education, and Welfare has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

Dated: December 2, 1977.

JULIUS B. RICHMOND,
Assistant Secretary for Health.

Approved: January 23, 1978.

JOSEPH A. CALIFANO, JR.,
Secretary.

57.1011 Records and reports.
57.1012 Inspection and audit.
57.1013 Applicability of 45 CFR Part 74.
57.1014 Additional conditions.

AUTHORITY: Sec. 215, 58 Stat. 690, as amended (42 U.S.C. 216); sec. 810, Stat. 356 (42 U.S.C. 298e).

Subpart K—Grants to Schools of Nursing for
the Support of Their Educational Programs

§ 57.1001 Applicability.

The regulations of this subpart are applicable to the award of annual grants under section 810 of the Public Health Service Act (42 U.S.C. 298e) to schools of nursing for the support of the education programs of such schools.

§ 57.1002 Definitions.

All terms not defined herein shall have the same meanings as given them in the Act. As used in this subpart:

(a) "Act" means the Public Health Service Act, as amended.

(b) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

(c) "State" means a State, the Commonwealth of Puerto Rico, the District of Columbia, the Canal Zone, Guam, American Samoa, the Virgin Islands, or the Trust Territory of the Pacific Islands.

(d) "Council" means the National Advisory Council on Nurse Training (established by section 851(a) of the Act).

(e) "School" or "school of nursing" means a collegiate, associate degree, or diploma school of nursing which is accredited as provided in section 853(f) of the Act.

(f) "Collegiate school of nursing" means a department, division, or other administrative unit in a college or university which provides primarily or exclusively a program of education in professional nursing and allied subjects leading to the degree of bachelor or arts, bachelor of science, bachelor of nursing, or to an equivalent degree, or to a graduate degree in nursing, and including advanced training related to such program of education provided by such school, but only if such program, or such unit, college, or university is accredited.

(g) "Associate degree school of nursing" means a department, division, or other administrative unit in a junior college, community college, college, or university which provides primarily or exclusively a two-year program of education in professional nursing and allied subjects leading to an associate degree in nursing or to an equivalent degree, but only if such program, or such unit, college, or university is accredited.

(h) "Diploma school of nursing" means a school affiliated with a hospital or university, or an independent school, which provides primarily or exclusively a program of education in professional nursing and allied subjects leading to a diploma or to equivalent indicia that such program has been satisfactorily completed, but only if such program, or such affiliated school or such hospital or university or such independent school is accredited.

(i) "New school" means a school which, at the time of filing an application for a grant under this subpart, has not graduated a class because of an insufficient period of operation.

(j) "Full-time student" means a student pursuing a full-time course of study, as determined by the school, in an accredited program in a school of nursing leading to a diploma or degree specified in paragraph (f), (g), or (h) of this section.

(k) "Construction" means (1) the construction of new buildings and the acquisition or expansion of existing buildings (including related costs, such as architects' fees, acquisition of land, off-site improvements, and the initial equipping of such buildings); and (2) the remodeling, alteration, and repair of existing buildings.

(l) "Program for the training of nurse practitioners" means an educational program for registered nurses (irrespective of the type of school of nursing in which the nurses received their training) which meets guidelines prescribed by the Secretary in accordance with section 822(a)(2)(B) of the Act and which has as its objective the education of nurses (including pediatric and geriatric nurses) who will, upon completion of their studies in such program, be qualified to effectively provide primary health care, including primary health care in homes and in ambulatory care facilities, long-term care facilities, and other health care institutions.

(m) "Nonprofit" as applied to any school means one which is a corporation or association, or is owned and operated by one or more corporations or associations, no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual.

(n) "Fiscal year" means the Federal fiscal year as defined in 31 U.S.C. 1020(a).

§ 57.1003 Eligibility.

(a) To be eligible for a grant under this subpart the applicant shall:

(1) Be a public or nonprofit school of nursing; and

(2) Be located in a State.

(b) A new school of nursing may apply for a grant under this subpart in the fiscal year preceding the fiscal year in which it will admit its first

class. For purposes of this section, the first class in a new collegiate school of nursing is (1) the second-year class in a three-year school, or (2) the third-year class in a four-year school.

§ 57.1004 Application.

(a) Each eligible school desiring a grant under this subpart shall submit an application in such form and at such time as the Secretary may prescribe.

(b) The application shall be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of any award, including the regulations of this subpart.

(c) In addition to such other information and assurances as the Secretary may require, an approvable application shall contain or be supported by:

(1) A reasonable assurance satisfactory to the Secretary that the first-year enrollment of full-time students in the school year beginning in the fiscal year in which the grant applied for is to be made will not be less than the first-year enrollment of such students in the school in the preceding school year. This assurance shall be in addition to any assurance given under section 802(b)(2)(D) of the Act with respect to a construction grant application, where applicable.

(2) A reasonable assurance that the school will expend in carrying out its function as a school of nursing, during the school year for which such grant is sought, an amount of funds (other than funds for construction, as defined in § 57.1002(k)) from non-Federal sources which is at least as great as the average amount of funds expended by such school for such purposes (excluding expenditures of a nonrecurring nature) in the three school years immediately preceding the school year for which the grant is sought. The determination of the average amount of non-Federal funds expended by a new school during such three-year period shall be the average for such of the three preceding school years in which expenditures were actually made in carrying out the functions of the school.

(3) Either (i) A reasonable assurance satisfactory to the Secretary that for the school year beginning in the fiscal year in which such grant is to be made, and for each school year thereafter beginning in a fiscal year in which such a grant is made, the first-

Applications and instructions may be obtained from the Division of Nursing, Bureau of Health Manpower, Health Resources Administration, Department of Health, Education, and Welfare, Center Building, Room 3-50, 3700 East-West Highway, Hyattsville, Md. 20782.

year enrollment of full-time students in the school will exceed the number of such students enrolled in the school year beginning during the fiscal year ending June 30, 1975, by

(A) 10 per centum of such number if such number was not more than 100; or

(B) 5 per centum of such number, or 10 students, whichever is greater, if such number was more than 100; or

(ii) A reasonable assurance satisfactory to the Secretary that the school will carry out, in accordance with a plan contained in or accompanying its application and approved by the Secretary, at least two of the following programs in the school year beginning in the fiscal year in which the grant applied for is to be made and in each school year thereafter beginning in a fiscal year in which such a grant is made:

(A) In the case of a collegiate school of nursing, a program for the training of nurse practitioners as defined in § 57.1002(l).

(B) A program under which students enrolled in a school of nursing will receive a significant portion of their clinical training in community health centers, long-term care facilities, and ambulatory care facilities geographically remote from the main site of the teaching facilities of the school.

(C) A program for the continuing education of nurses which meets needs identified by appropriate State, regional, or local health or educational entities (including health systems agencies).

(D) A program to identify, recruit, enroll, retain, and graduate individuals from disadvantaged backgrounds (as determined by the school in accordance with criteria prescribed in this paragraph) under which program at least 10 per centum of each year's entering class or 10 students, whichever is greater, is comprised of such individuals. For purposes of this paragraph, the school may only consider an individual to be from a disadvantaged background if the individual:

(1) Comes from an environment that has inhibited the individual from obtaining the knowledge, skills, and abilities required to enroll in and graduate from a school of nursing; or

(2) Comes from a family with an annual income below a level based on low-income thresholds by family size published by the U.S. Bureau of the Census, adjusted annually for changes in the Consumer Price Index, and multiplied by a factor to be determined by the Secretary for adaptation to this program. The Secretary periodically will publish in the FEDERAL REGISTER such factor and income levels as adjusted.

(4) In the case of an application from a new school of nursing which applies for a grant under this subpart

in the fiscal year preceding the fiscal year in which it will admit its first class:

(i) Evidence satisfactory to the Secretary that where required by State law or regulation the school has received the approval of the State Board of Nursing for the State in which such school is located to enroll students in such school in the fiscal year after the fiscal year in which the grant is sought.

(ii) An estimate of the number of full-time students to be enrolled in such school in the fiscal year after the fiscal year in which the grant is made and information and assurances supporting such estimate.

§ 57.1005 Determination of number of students.

(a) For purposes of this subpart, the number of full-time students enrolled in a school, the number of full-time first-year students enrolled in a school, or the number of full-time students enrolled in a particular year-class in a school, as the case may be, for any year shall be the number of such students enrolled or to be enrolled, as the case may be, in such school on October 15 of such year: *Provided*, That, schools which admit first-year classes in courses of study leading to a diploma or degree specified in § 57.1002 (f), (g), or (h) at times other than early fall may request the Secretary's approval of another official counting date for purposes of determining first-year enrollment.

(b) The classification of a full-time student as a first-year student or as a student in a particular year-class in a school shall be in accordance with the policies of the particular school, except that any student who is required to repeat one or more first-year courses after having been enrolled as a full-time student during a previous school year shall not be considered a first-year student for purposes of the maintenance of enrollment requirement of section 810(c)(1)(A) of the Act and § 57.1004(c)(1) or for purposes of section 810(c)(2)(A) of the Act and § 57.1004(c)(3)(i), where applicable.

(c) For purposes of making a grant under section 810(e) of the Act to a new school of nursing which applies for such grant in the fiscal year preceding the fiscal year in which it will admit its first class, the number of full-time students enrolled in such school or in a particular year-class in such school shall be the number which the Secretary, on the basis of the information and assurances provided by such school under § 57.1004(c)(4)(ii), determines to be the number of full-time students which the school will enroll in the fiscal year after the fiscal year in which the grant is to be made. With respect to a new associate degree school of nursing, the number of full-

time students enrolled in the first year of such school shall be the number of full-time students enrolled in the first year of the program of education leading to an associate degree in nursing or to an equivalent degree.

§ 57.1006 Grant award.

(a) The Secretary, after consultation with the Council, shall award a capitation grant to each applicant whose application is found to meet the applicable requirements of section 810 of the Act and the regulations of this subpart.

(b) The amount of each capitation grant shall be an amount computed in accordance with the formula set forth in section 810(a) of the Act. If the amount of funds appropriated for any fiscal year is less than the total of the amounts so computed for each school of nursing with an approved application, the grant awarded to each school shall be reduced proportionately in accordance with section 810(b) of the Act.

§ 57.1007 Grant payments.

The Secretary shall from time to time make payments to a grantee of all or a portion of any grant award, either in advance or by way of reimbursement.

§ 57.1008 Expenditure of grant funds.

(a) Capitation grant funds may be obligated by the school at any time before the end of a 24-month period specified in the grant award document for any purpose related to the educational program of the school, except as otherwise provided in paragraph (b) of this section. Any funds not so obligated shall be refunded to the Federal Government.

(b) Capitation funds may not be expended for the following purposes:

- (1) Construction (as defined in § 57.1002(k)), except that grant funds may be used for alterations and renovations;
- (2) Student assistance; and
- (3) Sectarian instruction or any religious purpose.

§ 57.1009 Nondiscrimination.

(a) Attention is called to the requirements of section 855 of the Act and 45 CFR Part 83, which together provide that the Secretary may not make a grant, loan guarantee, or interest subsidy payment under Title VIII of the Act to, or for the benefit of, any entity unless the application for the grant, loan guarantee, or interest subsidy payment contains assurances satisfactory to the Secretary that the entity will not discriminate on the basis of sex in the admission of individuals to its training programs.

(b) Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C.

2000d et seq.) and in particular to section 601 of such Act which provides that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI, which is applicable to grants made under this subpart, has been issued by the Secretary with the approval of the President (45 CFR Part 80).

(c) Attention is called to the requirements of Title IX of the Education Amendments of 1972 and in particular to section 901 of such Act which provides that no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance. A regulation implementing such Title IX, which is applicable to grants made under this subpart, has been issued by the Secretary with the approval of the President (45 CFR Part 86).

(d) Attention is called to the requirements of section 504 of the Rehabilitation Act of 1973, as amended, which provides that no otherwise qualified handicapped individual in the United States shall, solely by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing section 504, which is applicable to grants made under this subpart, has been issued by the Secretary (45 CFR Part 84).

(e) Grant funds used for alteration or renovation shall be subject to the condition that the grantee shall comply with the requirements of Executive Order 11246, 30 FR 12319 (September 24, 1965) as amended, and with the applicable rules, regulations, and procedures prescribed pursuant thereto.

(f) The grantee shall not discriminate on the basis of religion in the admission of individuals to its training programs.

§ 57.1010 Grantee accountability.

(a) Accounting for grant funds shall be in accordance with institutional accounting practices, based on generally accepted accounting principles, consistently applied regardless of the source of funds. The grantee shall account for the sum total of all amounts paid by presenting or otherwise making available evidence satisfactory to the Secretary of expenditures meeting the requirements of this subpart.

(b) The total sum of: (1) Any amount not accounted for pursuant to paragraph (a) of this section, and (2)

any other amounts due pursuant to Subparts F, M, and O) of 45 CFR Part 74 shall be payable to the Federal Government as final settlement with respect to each grant under this subpart. Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assigns by setoff or other action as provided by law.

§ 57.1011 Records and reports.

Each grant awarded pursuant to this subpart shall be subject to the condition that the grantee shall maintain such financial records, identifiable by grant number, and file with the Secretary such financial reports relating to the use of grant funds as the Secretary may find necessary to carry out the purposes of section 810 of the Act and the regulations of this subpart.

§ 57.1012 Inspection and audit.

Any application for a grant under

this subpart shall constitute the consent of the applicant to inspections of the facilities, equipment, and other resources of the applicant at reasonable times by the Secretary and the Comptroller General of the United States or any of their duly authorized representatives. In addition, the acceptance of any grant award under this subpart shall constitute the consent of the grantee to inspections and fiscal audits by such persons of the supported activity and of progress and fiscal records relating to the use of grant funds.

§ 57.1013 Applicability of 45 CFR Part 74.

The relevant provisions of the following subparts of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants awarded under this subpart:

SUBPART

- A—General.
- B—Cash depositories.
- C—Bonding and insurance.
- D—Retention and custodial requirements for records.
- F—Grant-related income.
- K—Grant payment requirements.
- M—Grant closeout, suspension, and termination.
- O—Property.
- Q—Cost principles.

§ 57.1014 Additional conditions.

The Secretary may with respect to any grant award impose additional conditions prior to or at the time of any award when in his judgement such conditions are necessary to assure or protect advancement of the grant purposes, the interests of the public health, or the conservation of grant funds.

FEDERALLY ASSISTED
CONSTRUCTION

[4510-27]

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND
FEDERALLY ASSISTED CONSTRUCTION

General wage determination decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date

shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDES DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedes Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedes Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedes Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the

rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

MODIFICATIONS TO GENERAL WAGE DETERMINATION DECISIONS

The numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State.

CANCELLATION OF GENERAL WAGE DETERMINATION DECISIONS

General Wage Decisions FL76-1016 and FL76-1017, Escambia, Santa Rosa, Okaloosa, and Walton Counties, Fla.,

are hereby cancelled. Agencies with residential construction projects contemplated in these counties should utilize the project determination procedure by submitting form SF-308 (see 29 CFR Part 1, Section 1.5). Contracts for which bids have been opened shall not be affected by this notice. Consistent with 29 CFR Part 1, Section 1.7 (b)(2), inclusion of the above decisions

in contracts for which the bid opening is within ten (10) days of this notice need not be affected.

Signed at Washington, D.C., this 27th day of January 1978.

RAY J. DOLAN,
Assistant Administrator,
Wage and Hour Division.

CLASSIFICATION DEFINITIONS

POWER EQUIPMENT OPERATORS

GROUP 1 - Asphalt paver and spreader; asphalt plant mixer operator; asphalt plant operator; backfillers; backhoe, all types; barber-green loader (similar type); blade-power, all types; boats-power; boilers (2); boring machines (all types); cable ways; cherry pickers (all types); chip spreader; concrete ready-mixed plant, portable (job site); concrete mixer paver; crane-overhead; crusher, rock; derricks and derrick cars (power operated); ditching machines; dozers; dredges-any type power; gradeall-similar type; hoist, endless chain power operator with power travel; loaders-all types; mechanic and welders; mucking machine; orange peels; pumps-material-all types; push cats; scoops-all types; self-propelled rotary drill; shovel, power; side boom; skimmer scoop; testhole machine; throttle man

POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITIONS (CONT'D)

GROUP 2 - Boilers (1); brooms-power operator (all types); chip spreader (front man); chief plane operator; compressor (1) 105' or over; compressors (2) 105 ft. or over not more than 20' apart; compressors-tandem (any size); compressors single, truck mounted; concrete saws, self-propelled; chain-power operator; curb finishing machine; elevator; finishing machine; firemen on rigs; flex plane, floating machine; form grader; greaser; hoist, endless chain-power operated; hopper-power operator; hydra hammer (all types); lad-avator-similar type; rollers-all types; siphons, jets and jennies; sub-grader; tractors over 50 h.p.

GROUP 3 - Oiler

GROUP 4 - Fork lift-masonry; roller driver-all types

GROUP 5 - "A" frame trucks; fork lift-all types and sizes (except masonry); mixers (with side loaders); pumps (with well points) dewatering systems, test or pressure pump; tractors (except when hauling material) less than 50 h.p.

GROUP 6 - Clamshells, 80 ft. of boom or over (including jib); crane or rig, 80 ft. of boom or over (including jib); draglines, 80 ft. of boom or over (including jib); pile drivers, 80 ft. of boom or over (including jib)

GROUP 7 - Crane or rig, over 200 ft of boom

GROUP 8 - Hoists-each additional drum over 1 drum

GROUP 9 - Master mechanic

GROUP 10 - Crane-tower or climbing

GROUP 11 - Ready Mixed Concrete Plants:

(a) Crane operator

(b) Loader operator

(c) Plant man

(d) Conveyor operator

	Basic Hourly Rates	Fringe Benefits Payments				Education and/or Appr. Tr.
		H & W	Pensions	Vacation		
POWER EQUIPMENT OPERATORS (CONT'D)						
Site Preparation and Grading

Group 8	10.10	.50	1.00	.75		.10

NOTICES

GROUP 1 - Asphalt paver and spreader, asphalt plant console operator, auto grader, backhoe, blade operator, all types, boilers - 2; booster pump or dredge, boring machine (truck or crane mounted), bulldozer operator, clam-shell operator, compressor maintenance operator - 2; concrete plant operator, central mix, concrete mixer, paver, crane operator, derrick or derrick trucks, ditching machine, dragline operator, dredge engineman, dredge operator, drill cat with compressor mounted on cat, drilling or boring machine, rotary, self-propelled, high loader-fork lift, hoisting engine - 2 active drums, locomotive operator, standard gauge, mechanics and welders, field or shop, maintenance operator, mucking machine, piledriver operator, pitman crane operator, pump-2, quad-trac, scoop operator all types, scoops in tandem, self-propelled rotary drill (leroy or equal - not air tac) shovel operator, side discharge spreader, sideboom cat, skimmer scoop operator, slip-form paver (CM, REX, or equal), throttle man, truck crane welding machine maintenance operator - 2

GROUP 2 - A-frame truck asphalt hot mix silo, asphalt plant fireman, drum, or boiler, asphalt plant mixer operator, asphalt plant man, asphalt roller operator, backfiller operator, chip spreader, concrete batch plant, dry power operator, concrete mixer operator, skiploader, concrete pump operator, crusher operator, elevating grader operator, greaser, hoisting engine-1 drum, latourneau roter, multiple compactor, pavement breaker, self-propelled of the hydra-hammer or similar type, power shield, pug mill operator, stump cutting machine, towboat operator, tractor operator over 50 h.p.

GROUP 3 - Boilers - 1 chip spreader (front man), churn drill operator, compressor maintenance operator - 1, concrete saws, self-propelled, conveyor operator, distributor operator, finishing machine operator, fireman, rig, float operator, form grader operator, pump, pump maintenance operator, other than dredge, roller operator, other than high type asphalt, screening and washing plant operator, self-propelled street broom or sweeper, siphons and jets, sub-grading machine operator, tank car heater operator operators - combination boiler and booster, tractor, 50 h.p. or less, without attachments, vibrating machine operator, not hand, welding machine maintenance operator-1

GROUP 4 - Mechanics' helpers, oller

GROUP 5 - Oiler, driver, all types

GROUP 6 - Clamshells, 3 yds. capacity or over, crane or rig, 80 ft. of boom or over (including jib), draglines, 3 yds. capacity or over, piledrivers, 80 ft. of boom or over (including jib), shovels, 3 yds. capacity or over

GROUP 7 - Cranes or rigs, over 200 ft. of boom (including jib)

GROUP 8 - Hoists (each additional drum over 1 drum)

Men working in tunnels or shafts (not air shafts or coffer dams) of twenty-five (25) ft. or more in length or depth will be paid fifty cents (50c) per hour above the regular classification

TRUCK DRIVERS CLASSIFICATION DEFINITIONS

Group 1 - One team, station wagons, pickup trucks, material trucks, single axle, tank wagon drivers, single axle

Group 2 - Material trucks, tandem, two teams, semi-trailers, winch truck-fork trucks, distributors drivers and operators, agitator and transit mix, tank wagon drivers, single axle, tank wagon drivers tandem or semi-trailers, Insley wagon, dump trucks, excavating, 5 cu. yds. and over, dumpsters, half-tracks, speedace, euclids and other similar excavating equipment

Group 3 - A-frame, lowboy, and boom truck driver

Group 4 - Mechanics and welders

Group 5 - Mechanics' helpers, ollers and greasers

WELDERS - receive rate prescribed for craft performing operation to which welding is incidental.

TRUCK DRIVERS (Building Construction) (CONT'D)

CLASSIFICATION DEFINITIONS

Group 1 - Warehousemen and stock man

Group 2 - Flat beds, pick-ups, dump trucks, under 10 yds.

Group 3 - Dump trucks, 10 yds. and over, steel trucks, semi truck drivers

Group 4 - Straddle trucks, wheel tractors (when used for towing), hydro lift trucks, hydraulically operated serial lifts, heavy hauling, A-frame winch and fork lifts, heavy excavating (dumper, euclid, etc.), double bottom units (20 tons cap. and over)

Group 5 - Distributor truck drivers and operators, ollers, greasers and mechanics' helpers

Group 6 - Mechanics

Group 7 - Transit mix, 5 yds. and over

Group 8 - Transit mix, under 5 yds.

POWER EQUIPMENT OPERATORS (Building Construction)

CLASSIFICATION DEFINITIONS

Group 1 - Bollers (2); boom cat, boring machine, ditching machine, concrete ready-mix plant; crane, truck crane, clamshell, dragline, dozer, scraper, all types, patrol, firemen (when operating steam or air valve); gradall hi-loaders (over 1 yd); hoist, two; locomotive; mechanic or welder; mixer-mobiler; paver, or any other machine with power swing; piledriver operator; power shovel; pump, concrete or other material

Group 2 - A-frame truck; barbed wire loader or similar type; bob cat hi-loaders (1 yd. and under); boiler (1); ditching machine-small; elevator operator; fireman; fork lift; greaser, equipment; hoist, one active drum; hydra hammer; jeep ditcher; mixer, other than paver; power broom, pump, 4" or larger, small machine engine; welding machine (1)

Group 3 - (a) Farm tractor (without attachments)

Group 4 - (a) Oiler

Group 5 - (b) Motor crane oiler

Group 6 - Tower cranes and derricks; frankie-type pile-driving machines; (4) drum hoist

Group 7 - Crane & shovels 100 ft. of boom or over (including jib) or 2 yds. capacity or over or 30 tons or over; (3) drum hoist

Group 8 - Crane & shovels booms 200 ft and over

Group 9 - Cranes with lifting ring

Group 10 - Master mechanic

Hoist each additional drum over two - an additional .25¢

NOTICES

- PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.
- FOOTNOTES:
- a. Employees employed on the last working day before Christmas Day and New Years Day and who report to work on such days shall receive 3 hours pay without working in the afternoon.
 - b. Employer contributes \$8.00 per day to Annuity Fund.
 - c. Paid Holidays: A through F, Lincoln's Birthday, Washington's Birthday, Columbus Day, Armistice Day and Election Day.
 - d. Employer contributes 6.4% of basic hourly rate for 5 years or more of service or 4.2% of basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.
 - e. Paid Holidays: Christmas Eve and New Years Eve: If employee works a full 1/2 day on the working day immediately preceding Christmas Day and New Years Day, they shall receive a full day's pay.
 - f. Work on Christmas Eve and New Years Eve shall terminate at Noon, but employees will receive a full day's pay.
 - g. Paid Holidays: A through F, Lincoln's Birthday, Washington's Birthday, Columbus Day, Election Day, and Veteran's Day provided the employee works 2 days in the calendar week in which the holiday falls and each remaining work during each calendar week.
 - h. Paid Holidays: A through F, Washington's Birthday, Good Friday, and Christmas Eve provided the employee has worked 30 full days during the 90 calendar days prior to the holiday and the regularly scheduled work days immediately preceding and following the holiday.
 - i. Paid Holiday: 1/2 day's pay for Labor Day.
 - j. Employer contributes \$5.00 per day to an Annuity Fund.
 - k. Employer contributes \$4.00 per day to a Security Benefit Fund.
 - l. For each 15 days worked with the contract year an employee will receive one day's vacation with pay, with a maximum vacation of 3 weeks per year.

POWER EQUIPMENT OPERATORS

- Group 1: Auger Machine Operator (post holes, etc.); Batch Bin Weighman, Scissorsman or Hoppetman; Beginner Operator; Brake-man and Helper; Crusher Oiler; Oiler; Utility; Spread Operator; Tractor Operators (farm, crawler or wheel type, 60 HSP (draw-bar) or less with or without use of power attachments, except for use of back hoe or bucket)
- Group 2: Broom Operators, self-propelled; Cableway Signalman (bellboy); Concrete Saw (self-propelled); Fireman; Power Loader, belt and bucket type
- Group 3: Air Compressor over 315 cu. ft. capacity; Chip Spreader Operator; Form Grader Operator; Joint Machine Operator; Longitudinal Float Operator; Mixer Operator Concrete (under one yard); Helper (welder or heavy duty); Roller Operators, self-propelled (pneumatic, rubber tired, sheep foot, vibratory or combination type); Tire Repairman
- Group 4: Pump Operator (all others)
- Group 5: Conveyor Belt Operator; Fork Lift and Lumber Staker; Screening Plant Operator

NOTICES

- Group 6: A-Frame Tractor Operators (farm, crawler or wheel type, over 60 HSP (drawbar) without use of power attachments)
- Group 7: Oiler, Lead Utility
- Group 8: Gummite and Groat Machine Operator; Mulching Machine Operator; Oil Distributor
- Group 9: Front End Loader (up to and including 1 1/2 cu. yds.); Pavement Breakers, Hydro-tamper and similar type machines; Pumps, well points
- Group 10: Hoist Operator (one drum)
- Group 11: Haulage Motorman and Industrial type Motormen; Motor Patrol Operator (all other); Pump Operator (in tunnels, shafts, raises); Hydro type Cranes (up to 15 tons)
- Group 12: Air Compressor, two or more machines or tunnels, shafts, raises of plant Operator; Asphalt Plant Operator; Bituminous Lay-down Machine Operator; Chi Machine and similar; Concrete Batch Plant; Concrete Finish Machine Operator; Concrete Multi Blade Span Saw (hunt process or similar); Concrete Spreader and Paver Operator; Cuthair Operator; Drilling Machine, Integrated (Core, Rotary, Calsson, Diamond); Elevating Grader; Front End Loader (over 1 1/2 cu. yds.); Jumbo Form Operator; Mixer Operator, base course pug mill type; Mixer Bituminous Operator (travel plant); Mixer Operator Concrete (over one yard); Motor Patrol Operator (finish); Mucking Machine Operator (all types); Pneumatic Guns; Pumpcrete Operator; Roller Operator, (tandem steel wheel, three axle or three wheel); Scraper Equipment (all types); Shovels, Draglines, Cranes, Piledrivers, all truck mounted cranes, (manu-facturers' rating) up to 3 1/2 yards, all attachments; Hydro type Cranes, (15 ton and over); Shuttle Car Operator; Subgrade Machine Operator (power); Tractor Operator, all with use of power attach-ments and including Pushcat, Dozer, Tournadozer, etc. (The use of power attachment shall not include diking, pulling or rollers, and similar unskilled actions); Trenching Machine Operator; Wash Plant Operator
- Group 13: Welder, Machine Doctor
- Group 14: Hoist Operator (two or more drums of shafts or raises); Repairman; Mechanic; Machine Doctor, Welders and Helper; Heavy Duty Mechanic, Machine Doctor
- Group 15: Cableway Operators; Mixer Dual Drum Cranes, (Whirley, Gantry, Stiffleg, Overhead traveling)
- Group 16: Shovels, Draglines, Cranes, Piledrivers, all truck mounted Cranes (manufacturers' rating) 3 1/2 yards to 7 cu. yds., all attachments; Wheel Excavator Operator
- Group 17: Shovels, Draglines, Cranes, Piledrivers, all truck mounted Cranes, (manufacturer's rating) 7 cu. yds. and over, all attachments

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER D—GRANTS

PART 50—POLICIES OF GENERAL APPLICABILITY

Abortions and Related Medical Services in Federally Assisted Programs of the Public Health Service

NOTE.—This document originally appeared in the FEDERAL REGISTER for Thursday, February 2, 1978. It is reprinted in this issue to meet requirements for publication on an assigned day of the week. (See the inside cover of this issue for information about agencies publishing on assigned days of the week.)

AGENCY: Public Health Service.

ACTION: Final rules.

SUMMARY: The Department is promulgating new rules to govern Federal financial participation in expenditures for abortions funded through various HEW programs. Three parallel sets of regulations are being promulgated. One set will apply to programs administered under title XIX of the Social Security Act, another to programs administered under title XX of that Act, and the third to programs and projects supported with funds appropriated to the Department of Health, Education, and Welfare and administered by the Public Health Service. These rules are necessary as a result of the enactment of Pub. L. 95-205. That statute imposes strict limitations upon Federal funding of abortions and requires that the Secretary "promptly issue regulations and establish procedures to insure that (the statute is) rigorously enforced." These regulations respond to that statutory directive and specify when Federal funds may be used to pay for abortions.

EFFECTIVE DATES: This regulation will be effective February 14, 1978. As explained in the preamble to 42 CFR Part 449 appearing in this issue at p. 4833, in providing Federal financial participation prior to the effective date of these regulations, the Department will accept any reasonable interpretation of the statutory provisions implemented by these regulations.

Notice of Proposed Rulemaking and a delayed effective date of 30 days have been waived because of the compelling need to provide immediate direction to States and Federal grantees as to those abortions which the Department will fund with its appropriations for fiscal year 1978, and to follow the dictates of Congress that the Department promptly issue regulations. Nevertheless, written comments or suggestions received on or

before March 20, 1978, will be considered with a view to revising these regulations, and will be responded to by further publication in the FEDERAL REGISTER no later than May 3, 1978.

In commenting please refer to PCO-187-RC. Agencies and organizations are requested to submit comments in duplicate. Comments will be available for public inspection beginning approximately two weeks after publication in Room 722-H, of the Department's offices at 200 Independence Avenue SW., Washington, D.C., on Monday through Friday of each week from 8:30 a.m. to 5 p.m., 202-245-0950.

ADDRESS: Address comments to: Marilyn Martin, Public Health Service, Room 722H, Humphrey Building, 200 Independence Avenue SW., Washington, D.C. 20201.

FOR FURTHER INFORMATION CONTACT:

Marilyn L. Martin, Room 722H, Hubert Humphrey Building, 200 Independence Avenue SW., Washington, D.C. 20201, 202-245-7581.

SUPPLEMENTARY INFORMATION: For a preamble statement, which is being issued jointly by the Public Health Service, the Health Care Financing Administration, and the Administration for Public Services of the Office of Human Development Services, concerning conditions governing Federal funding of abortions, see 42 CFR Part 449 appearing in this issue at page 4833.

Part 50 is amended by adding a new Subpart C to read as set forth below:

Subpart C—Abortions and Related Medical Services in Federally Assisted Programs of the Public Health Service

- | | |
|--------|---|
| Sec. | Applicability. |
| 50.302 | Definitions. |
| 50.303 | General Rule. |
| 50.304 | Life of the mother would be endangered. |
| 50.305 | Severe and long-lasting damage to physical health. |
| 50.306 | Rape and incest. |
| 50.307 | Documentation needed by programs or projects. |
| 50.308 | Drugs and devices and termination of ectopic pregnancies. |
| 50.309 | Record keeping requirements. |
| 50.310 | Confidentiality. |

AUTHORITY: Sec. 101, Pub. L. 95-205, 91 Stat. 1461, December 9, 1977.

§ 50.301 Applicability.

The provisions of this subpart are applicable to programs or projects for health services which are supported in whole or in part by Federal financial assistance, whether by grant or contract, appropriated to the Department of Health, Education, and Welfare and administered by the Public Health Service.

§ 50.302 Definitions.

As used in this subpart: (a) "Law enforcement agency" means an agency, or any part thereof, charged under applicable law with enforcement of the general penal statutes of the United States, or of any State or local jurisdiction.

(b) "Medical procedures performed upon a victim of rape or incest" means any medical service, including an abortion, performed for the purpose of preventing or terminating a pregnancy arising out of an incident of rape or incest.

(c) "Physician" means a doctor of medicine or osteopathy legally authorized to practice medicine and surgery by the State in which he or she practices.

(d) "Public health service" means: (1) An agency of the United States or of a State or local government, that provides health or medical services; and (2) a "rural health clinic," as defined under section 1(d)(aa)(2) of Pub. L. 95-210, 91 Stat. 1485; except that any agency or facility whose principal function is the performance of abortions is specifically excluded from this definition.

§ 50.303 General Rule.

Federal financial participation is not available for the performance of an abortion in programs or projects to which this subpart applies except under circumstances described in §§ 50.304, 50.305, or 50.306.

§ 50.304 Life of the mother would be endangered.

Federal financial participation is available for the performance of an abortion when a physician has found, and so certified in writing to the program or project, that on the basis of his/her professional judgment, the life of the mother would be endangered if the fetus were carried to term.

§ 50.305 Severe and long-lasting damage to physical health.

Federal financial participation is available for the performance of an abortion when two physicians have found, and so certified in writing to the program or project, that on the basis of their professional judgment, severe and long-lasting physical health damage to the mother would result if the pregnancy were carried to term.

§ 50.306 Rape and incest.

Federal financial participation is available for medical procedures performed upon a victim of rape or incest if the program or project has received signed documentation from a law enforcement agency or public health service stating that: (a) The person upon whom the medical procedure was performed was reported, within 60 days of the incident, to have been the victim

CHAPTER IV—HEALTH CARE FINANCING ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 449—SERVICES AND PAYMENT IN MEDICAL ASSISTANCE PROGRAMS

Federal Financial Participation in State Claims for Abortions

NOTE.—This document originally appeared in the FEDERAL REGISTER for Thursday, February 2, 1978. It is reprinted in this issue to meet requirements for publication on an assigned day of the week. (See the inside cover of this issue for information about agencies publishing on assigned days of the week.)

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Final rules.

SUMMARY: The Department is promulgating new rules to govern Federal financial participation in expenditures for abortions funded through various HEW programs. Three parallel sets of regulations are being promulgated. One set will apply to programs administered under title XIX of the Social Security Act, another to programs administered title XX of that Act, and the third to programs and projects supported with funds appropriated to the Department of Health, Education, and Welfare and administered by the Public Health Service. These rules are necessary as a result of the enactment of Pub. L. 95-205. That statute imposes strict limitations upon Federal funding of abortions and requires that the Secretary "promptly issue regulations and establish procedures to insure that (the statute is) rigorously enforced." These regulations respond to that statutory directive and specify when Federal funds may be used to pay for abortions.

EFFECTIVE DATE: The regulations will be effective February 14, 1978. As explained below, in providing Federal financial participation prior to the effective date of these regulations, the Department will accept any reasonable interpretation of the statutory provisions implemented by these regulations.

Notice of Proposed Rulemaking and a delayed effective date of 30 days have been waived because of the compelling need to provide immediate direction to States and Federal grantees as to which abortions the Department will fund with its appropriations for fiscal year 1978, and pursuant to the dictate of Congress that these regulations be issued promptly. Nevertheless, written comments or suggestions received on or before March 20, 1978, will be considered with a view to revising these regulations and will be responded to by further publication in the FEDERAL REGISTER no later than May 3, 1978. The Department's published response will indicate the extent to which, if at all, amendment of these regulations is in order in light of these comments.

INFORMATION: This document originally appeared in the FEDERAL REGISTER for Thursday, February 2, 1978. It is reprinted in this issue to meet requirements for publication on an assigned day of the week. (See the inside cover of this issue for information about agencies publishing on assigned days of the week.)

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Final rules.

SUMMARY: The Department is promulgating new rules to govern Federal financial participation in expenditures for abortions funded through various HEW programs. Three parallel sets of regulations are being promulgated. One set will apply to programs administered under title XIX of the Social Security Act, another to programs administered title XX of that Act, and the third to programs and projects supported with funds appropriated to the Department of Health, Education, and Welfare and administered by the Public Health Service. These rules are necessary as a result of the enactment of Pub. L. 95-205. That statute imposes strict limitations upon Federal funding of abortions and requires that the Secretary "promptly issue regulations and establish procedures to insure that (the statute is) rigorously enforced." These regulations respond to that statutory directive and specify when Federal funds may be used to pay for abortions.

of an incident of rape or incest; and (b) the report included the name, address and signature of the person who reported the rape or incest. Federal financial participation is also available for the performance of abortions for victims of rape or incest under the circumstances described in §§ 50.304 and 50.305 without regard to the requirements of the preceding sentence.

§ 50.307 Documentation needed by programs or projects.

Federal financial participation is unavailable for the performance of abortions or other medical procedures otherwise provided for under §§ 50.304, 50.305, and 50.306 if the program or project has paid without first having received the certifications and documentation specified in those sections.

§ 50.308 Drugs and devices and termination of ectopic pregnancies.

Federal financial participation is available with respect to the cost of drugs or devices to prevent implantation of the fertilized ovum, and for medical procedures necessary for the termination of an ectopic pregnancy.

§ 50.309 Record keeping requirements.

Programs or projects to which this subpart applies must maintain copies of the certifications and documentation specified in §§ 50.304, 50.305, and 50.306 for three years pursuant to the retention and custodial requirements for records at 45 CFR 74.20 et seq.

§ 50.310 Confidentiality.

Information in the records or in the possession of programs or projects which is acquired in connection with the requirements of this subpart may not be disclosed in a form which permits the identification of an individual without the individual's consent except as may be necessary for the health of the individual or as may be necessary for the Secretary to monitor the activities of those programs or projects. In any event, any disclosure shall be subject to appropriate safeguards which will minimize the likelihood of disclosures of personal information in identifiable form.

Dated: January 26, 1978.

JAMES F. DICKSON,
Acting Assistant
Secretary for Health.

Approved: January 26, 1978.

JOSEPH A. CALIFANO, Jr.,
Secretary, Department of Health,
Education, and Welfare.

lished response will indicate the extent to which, if at all, amendment of these regulations is in order in light of these comments.

In commenting please refer to PCO-187-RC. Agencies and organizations are requested to submit comments in duplicate. Comments will be available for public inspection beginning approximately 2 weeks after publication, in Room 5225 of the Department's offices at 330 C Street SW., Washington, D.C., on Monday through Friday of each week from 8:30 a.m. to 5 p.m., 202-245-0950.

ADDRESS: Address Comments to:

Administrator, Health Care Financing Administration, Department of Health, Education, and Welfare, P.O. Box 2366, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT:

Michael Cook, Room 4423, Switzer Building, 330 C Street SW., Washington, D.C. 20201, 202-245-0962 (HCFA).

SUPPLEMENTARY INFORMATION: On December 9, 1977, the President signed Pub. L. 95-205. That Act appropriates funds for the Department's programs from December 1, 1977, through September 30, 1978, or until enactment of an appropriation for any project or activity provided for therein, whichever occurs first. Section 101 of that Act contains language which succeeds section 209 of the Labor-HEW Appropriations Act of 1977, Pub. L. 94-439, which has popularly been referred to as the "Hyde amendment."

STATUTORY LANGUAGE

Section 101 of Pub. L. 95-205 provides, in part, that:

(N)one of the funds provided for in this paragraph shall be used to perform abortions except where the life of the mother would be endangered if the fetus were carried to term; or except for such medical procedures necessary for the victims of rape or incest, when such rape or incest has been reported promptly to a law enforcement agency or public health service; or except in those instances where severe and long-lasting physical health damage to the mother would result if the pregnancy were carried to term when so determined by two physicians.

Nor are payments prohibited for drugs or devices to prevent implantation of the fertilized ovum, or for medical procedures necessary for the termination of an ectopic pregnancy.

The Secretary shall promptly issue regulations and establish procedures to ensure that the provisions of this section are rigorously enforced.

PRIOR DEPARTMENT POLICY

Section 209 of Pub. L. 94-439, the Labor-HEW Appropriations Act of 1977, prohibited the Department from

using any funds appropriated under that Act to pay for abortions "except where the life of the mother would be endangered if the fetus were carried to term." The Department was enjoined by a Federal District Court from enforcing section 209 in October, 1976, prior to its implementation. The injunction was dissolved on August 4, 1977, and the Department published a notice, 42 FR 40486 (August 10, 1977), specifying the method by which it would implement section 209.

The notice provided that: "the Department will provide Federal financial participation in the cost of abortions only where the attending physician, on the basis of his or her professional judgment, has certified that the abortion is necessary because the life of the mother would be endangered if the fetus were carried to term."

In addition, the notice indicated that the conference report to section 209 made clear that that section did not bar Federal funding for medical procedures necessary for the termination of an ectopic pregnancy, for drugs and devices to prevent the implantation of the fertilized ovum and for prompt treatment before the fact of pregnancy is established for victims of rape or incest.

Congress did not enact an HEW appropriations act for fiscal year 1978 by October 1, 1977, the end of the 1977 fiscal year. Congress did, however, enact two temporary resolutions which continued funding for the Department through November 30, 1977. These resolutions continued the limitations on Federal funding of abortions set forth in section 209.

Finally, on December 7, 1977, Congress enacted Pub. L. 95-205, which the President signed on December 9, 1977, providing funding for the Department through September 30, 1978. The Secretary issued a statement on December 10, 1977, which essentially restated the provisions on Federal funding of abortions contained in the Act, and indicated that the Office of the General Counsel would be preparing regulations to enforce these limitations. The Department transmitted that statement to all State Medicaid agencies, HEW Regional Offices, Public Health Service Hospitals and grantees, and State medical associations.

INTRODUCTION

These regulations have been drafted to implement the determinations of Congress with respect to the availability of Federal funds to pay for abortions. Congress has expressed its will in a statute, Pub. L. 95-205, and the Department's primary task in preparing these regulations has been to interpret that statute to implement congressional intent.

In construing Pub. L. 95-205, the Department has accorded maximum

weight to the statutory language, for as the Supreme Court has noted, it is a cardinal principle of statutory construction that "[t]here is, of course, no more persuasive evidence of the purpose of a statute than the words by which the legislature undertook to give expression to its wishes. Often these words are sufficient in and of themselves to determine the purpose of the legislation. In such cases we have followed their plain meaning." "United States v. American Trucking Ass'n," 310 U.S. 534, 543 (1940).

Examination of statutory language focuses primarily on its plain meaning, and in determining that meaning, the Department has been guided by so-called "intrinsic aids," such as the structure of the statute and the inferences that may be drawn from the normal usages of grammar and composition. Intrinsic aids are recognized as valuable tools of construction. In the words of the most authoritative treatise on statutory construction, "[t]he use of intrinsic aids, by concentrating attention on the text of the law, thus appears to be most directly related to the object of deciding according to what the statute may be generally understood to mean." 2A Sutherland, "Statutory Construction" § 47.01 (Sands ed. 1973).

The Department has also thoroughly studied the legislative history of Pub. L. 95-205, which includes 10 different versions of the statute passed by either the Senate or the House and over 225 pages of congressional debate over 6 months.

Unfortunately, the reports of the House and Senate committees to which 1978 fiscal year appropriations bills were referred contain virtually no discussion of the issue of Federal funding of abortions. Also, because House and Senate conferees were never able to agree on the abortion issue, there is no conference report interpreting the statutory language. Thus, there is no official expression of the collective understanding of even one house of the Congress as to the meaning of this statute, and an interpretation of the legislative history must be based solely on the debates and the different versions of the statute. Although these debates serve as a valuable indication of congressional intent, they are at times inconsistent or inconclusive.

Nonetheless, the Department has sought to determine congressional intent with the greatest of care, using the traditional methods of statutory construction.

OPINION OF THE ATTORNEY GENERAL

The Department recognizes that the question of Federal funding of abortions is a matter of great concern to the American people.

The Department wishes to ensure that the regulations implementing sec-

tion 101 are consistent with the will of Congress. Accordingly, on January 24, 1978, the Secretary, by letter, requested the Honorable Griffin B. Bell, Attorney General of the United States, to review the legal validity of these regulations. The Secretary's letter stated:

THE SECRETARY OF HEALTH, EDUCATION, AND WELFARE

WASHINGTON, D.C. 20201

JANUARY 24, 1978.

Hon. GRIFFIN B. BELL,
Attorney General, Department of Justice,
Washington, D.C. 20530

DEAR MR. ATTORNEY GENERAL: As you are aware, Congress recently enacted Pub. L. 95-205, which provides for appropriations for the Department of Health, Education, and Welfare through the 1978 fiscal year and which contains certain restrictions upon the use of appropriated funds to pay for abortions.

Section 101 of Pub. L. 95-205 provides, in part, that "none of the funds provided for in [the HEW-Labor continuing resolution] shall be used to perform abortions except where the life of the mother would be endangered if the fetus were carried to term; or except for such medical procedures necessary for the victims of rape or incest, when such rape or incest has been reported promptly to a law enforcement agency or public health service; or except in those instances where severe and long-lasting physical health damage to the mother would result if the pregnancy were carried to term when so determined by two physicians." In addition, section 101 provides that "[t]he Secretary shall promptly issue regulations and establish procedures to ensure that the provisions of this section are rigorously enforced."

Enclosed is a copy of our final draft of the regulations implementing this statutory requirement. I understand that our legal staff has provided your staff, during the past several weeks, with an explanation of our interpretation of principal issues. Our views as to the legal basis and purpose of these regulations are expressed in the accompanying preamble.

In light of the importance of these rules, I would appreciate your formal opinion as to whether these rules comply with the statute. In particular, I would appreciate your opinion on the following questions of interpretation:

1. Do the "medical procedures" authorized for the victims of rape or incest include abortion?
2. Does the statute require this Department to specify through regulations what constitutes a "report," and, if so, has Congress indicated its intent on this issue?
3. Does the definition of "law enforcement agency" in the regulations properly reflect congressional intent?
4. Does the definition of "public health service" in the regulations properly reflect congressional intent?
5. Is the implementation in the regulations of the requirement that reporting be "prompt" consistent with the intent of Congress?
6. Are the procedures specified in the regulations to implement the reporting requirement consistent with the intent of Congress?

Because of the urgent necessity to give guidance to state agencies administering the

Medicaid program and Public Health Service hospitals and grantees, I would greatly appreciate a prompt response.

Thank you for your assistance.

Sincerely,

JOSEPH A. CALIFANO, Jr.

Enclosure.

The Attorney General responded to that request by letter of January 26, 1978. The Attorney General's letter states:

OFFICE OF THE ATTORNEY GENERAL

WASHINGTON, D.C. 20530.

January 26, 1978.

Hon. JOSEPH A. CALIFANO, Jr.,
Secretary of Health, Education, and Welfare,
Washington, D.C.

MY DEAR MR. SECRETARY: You have asked for my opinion whether certain provisions of your department's proposed regulations pertaining to federal funding of abortions with respect to victims of rape or incest are in conformity with the requirements of § 101 of Public Law No. 95-205, 91 Stat. 1461 (1977) (the "Act"), making further continuing Appropriations for fiscal year 1978, and for other purposes. Section 101 provides in part:

"None of the funds provided for in this paragraph shall be used to perform abortions except where the life of the mother would be endangered if the fetus were carried to term; or except for such medical procedures necessary for the victims of rape or incest, when such rape or incest has been reported promptly to a law enforcement agency or public health service; or except in those instances where severe and long-lasting physical health damage to the mother would result if the pregnancy were carried to term when so determined by two physicians."

Nor are payments prohibited for drugs or devices to prevent implantation of the fertilized ovum, or for medical procedures necessary for the termination of an ectopic pregnancy.

The Secretary shall promptly issue regulations and establish procedures to insure that the provisions of this section are rigorously enforced.

You have asked in particular for my opinion with respect to a series of questions relating to the scope of various terms and language in § 101.

At the outset I believe that some general observations are in order. As a rule, administrative regulations properly promulgated under statutory authority are presumed valid. *Grubbs v. Butz*, 514 F. 2d 1323 (D.C. Cir. 1975); *United States v. Boyd*, 491 F. 2d 1163 (9th Cir. 1973). In order to sustain that presumption, an administrative officer exercising rulemaking powers delegated to him by Congress must adhere to two basic requirements: he must adopt regulations which are both reasonable and consistent with the intention of Congress as expressed by the statute. *United States v. Larionoff*, 431 U.S. 864 (1977); *Manhattan General Equipment Co. v. C.I.R.*, 297 U.S. 129 (1936). Within that framework, an administrative officer such as yourself has broad discretion.

The legislative intention with respect to abortion regulations implementing § 101 of

The paragraph in question appropriates funds for your department for fiscal year 1978.

the Act is, however, difficult to discern. For the most part, neither the language of the section nor its legislative history provides clear answers to the questions you raise. The provisions of § 101 had their origin in the proposed HEW Appropriations Act for 1978. The reports of the House and Senate Appropriations Committees on that proposed act contain no discussion of Federal funding of abortions. The reports of the Conference Committee are equally unenlightening, as the conferees were unable to reach agreement on the abortion funding provisions of the proposed act. The final version of § 101 was a product of compromise on the floor of both houses. Consequently, the floor debates provide the only source of Congressional intent other than the language of the statute itself. But, those debates are contradictory and inconclusive in many respects. They do reveal, however, that Congress intended to leave many matters of interpretation concerning § 101 to the sound discretion of the Secretary, rather than attempt a more detailed statutory scheme. See, e.g., 123 Cong. Rec. H12651 (daily ed., Dec. 6, 1977) (remarks of Representative Michel); id. S19397-19398 (remarks of Senator Magnuson). After carefully reviewing the language of the section, the floor debates, and the views you express in the preamble to the proposed regulations, I conclude that the provisions of the regulations about which you have inquired are in conformity with both the language and intent of the section. I shall turn now to your specific questions.

ABORTIONS AS MEDICAL PROCEDURES NECESSARY FOR VICTIMS OF RAPE OR INCEST

Both the structure of § 101 and the available legislative history support my view that abortions are included in the phrase "medical procedures necessary for the victims of rape or incest." The section contains a broad prohibition against Federal funding of abortions followed by three exceptions. The second of those exceptions is for medical procedures in cases of rape or incest. The logical interpretation of the language of the paragraph is that Federal funding of abortions is permissible in the three circumstances enumerated. Moreover, if the exception for medical procedures in cases of rape or incest does not include abortions, the phrase would be surplusage. Immediately following the exceptions in the section is a new paragraph which describes non-abortion services for which Federal funding is available. Thus, there would be no reason to place an exception for medical procedures in the preceding language if such procedures did not include abortions. While it is possible to argue that by adding the term "medical procedures" to the exception covering victims of rape or incest Congress must have intended something other than abortions, that argument clearly runs counter to the thrust of the floor debates.

The Senate made it abundantly clear that it understood medical procedures to include abortions. In floor discussions which took place immediately before Senate passage of the Act, Senator Brooke, the ranking Republican conferee, asserted:

"I want to make it crystal clear, and I want to make it certain for the record, as to what was intended by the Senate and, as I understand, what was intended by the House by their vote—because no other

All references hereafter are to volume 123 of the daily edition of the Record.

change was referred to in that debate—is that we are talking about medical procedures being abortions. Cong. Rec. S19441 (Dec. 7, 1977)."

Senator Magnuson, the floor manager for the Senate conferees, unequivocally concurred in that understanding. Cong. Rec. S19441-19442 (Dec. 7, 1977).

The debates in the House of Representatives also indicate that the members of that body understood medical procedures to include abortions. See, e.g., Cong. Rec. H12488 (Nov. 29, 1977) (remarks of Representative Conte); Cong. Rec. H12772, H12774 (Dec. 7, 1977) (remarks of Representative Hyde). The sole suggestion to the contrary in the debates appears in a colloquy between Representatives Michel and Volker. In response to questioning, Representative Michel asserted that medical procedures in cases of rape or incest did not include abortions. Cong. Rec. H12652 (Dec. 6, 1977). Both earlier and later in the debates, however, Representative Michel made statements implicitly contradicting that assertion. Cong. Rec. H12170 (Nov. 3, 1977); H12652 (Dec. 6, 1977). It is therefore my opinion that the phrase "medical procedures necessary for the victims of rape or incest" used in § 101 includes abortions.

REPORTS OF INCIDENTS OF RAPE OR INCEST

The legislative history offers little guidance in interpreting the requirement that victims of rape and incest "report" the incidents to a law enforcement agency or public health service. Congress did not specify the form or content of the report except to indicate that the victim need not herself be the reporter. See Cong. Rec. S19237 (Nov. 29, 1977) (remarks of Senator Brooke); Cong. Rec. H12653 (Dec. 6, 1977) (colloquy between Representatives Volker and Michel). The basic concern of Congress in adopting a reporting requirement was to prevent fraudulent claims. See, e.g., Cong. Rec. H12489 (remarks of Representative Bonker). In my view, the reporting requirement in § 449.105(b) of the proposed regulations adequately reflects that concern and is compatible with Congressional intent.

DEFINITION OF LAW ENFORCEMENT AGENCY

The limited discussion of the term "law enforcement agency" in the floor debates does not suggest that Congress intended to ascribe a special meaning to the term. Cong. Rec. H10830 (Oct. 12, 1977); Cong. Rec. S19237 (Nov. 29, 1977). Section 449.101(a) of the proposed regulations defines the term as "an agency, or any part thereof, charged under applicable law with enforcement of the general penal statutes of the United States, or of any State or local jurisdiction." This meaning appears to be within the common understanding of the term and its adoption is within the Secretary's discretion.

DEFINITION OF PUBLIC HEALTH SERVICE

Although the discussion of the term "public health service" in the floor debates is somewhat lengthier, the meaning intended for the term is nevertheless unclear. See, e.g., Cong. Rec. H12654 (Dec. 6, 1977) (remarks of Representative Flood). Section 449.101(d) of the proposed regulations provides the following definition:

"(1) an agency of the United States or of a State or local government, that provides health or medical services; and (2) a 'rural health clinic', as defined under section

1(d)(aa)(2) of Pub. L. 95-210, 91 Stat. 1485, except that any agency or facility whose principal function is the performance of abortion is specifically excluded from this definition."

Since that definition can reasonably be accommodated within the statutory language, its adoption is within the Secretary's discretion.

REQUIREMENT OF PROMPT REPORTING

The requirement in §101 that cases of rape and incest be "reported promptly" is open to differing interpretations. There was no agreement during the floor debates on the permissible time limits for making such reports. Proposals ranged from a few weeks to several months. See, e.g., Cong. Rec. S19397, S19398 (Dec. 6, 1977) (remarks of Senator Magnuson suggesting that a report within 90 days would suffice); Cong. Rec. H12653 (statement of Representative Bonker that "prompt" is not as long as "3 or 4 or 5 weeks later"). Section 449.105 of the proposed regulations requires reports of cases of rape or incest "within 60 days of the incident." Since that requirement seems within the permissible meaning of the words "reported promptly" its adoption is within the Secretary's discretion.

PROCEDURES FOR IMPLEMENTING THE REPORTING REQUIREMENT

Section 449.106 of the proposed regulations specifies the procedure for enforcing the reporting requirement. It provides:

"Federal financial participation is unavailable in any expenditures for abortions or other medical procedures otherwise provided for under [the sections of the regulations] if the State agency has paid without first having received the certifications and documentations specified in those sections.

Neither the statute itself nor the legislative history indicates that Congress intended the Secretary to implement the reporting requirement in any particular manner. The only concern expressed was that the Secretary develop procedures to prevent fraudulent claims. See, e.g., Cong. Rec. H12652 (Dec. 8, 1977) (colloquy between Representatives Miller and Michel). In view of the absence of any congressional directive, it is my opinion that the method of implementing the reporting requirement in the proposed regulations is within the proper exercise of the Secretary's discretion.

In the final paragraph of §101 Congress expressly directed the Secretary to promulgate regulations implementing its requirements. As the administrative officer charged with enforcement of the statute, the Secretary's construction of the section is entitled to great weight. The views expressed in his regulations need not be the only reasonable ones or the ones someone else might choose in order to be valid. *Udall v. Tallman* 380 U.S. 1 (1965). It is my opinion that the provisions of the proposed regulations discussed above are reasonable and consistent with the language and intent of the section, and that you are authorized to promulgate these regulations.

Yours sincerely,

GRIFFIN B. BELL,
Attorney General.

ANALYSIS

The following analysis explains the major issues covered by these regula-

tions, including the requirements for Federal funding and the basis for each requirement.

GENERAL RULE

The regulations provide that Federal funds are not available to pay for abortions except in the three circumstances set forth in Pub. L. 95-205. The statute unequivocally provides that "none of the funds provided for in this paragraph shall be used to perform abortions except . . ." Since the prohibition on the use of funds is applicable to all of the Department's appropriated funds, the Department does not have statutory authority to fund any abortions other than those specifically provided for under the following three exceptions set forth in this statute:

"where the life of the mother would be endangered if the fetus were carried to term;" "or except for such medical procedures necessary for the victims of rape or incest, when such rape or incest has been reported promptly to a law enforcement agency or public health service;"

"or except in those instances where severe and long-lasting physical health damage to the mother would result if the pregnancy were carried to term when so determined by two physicians."

1. LIFE OF THE MOTHER WOULD BE ENDANGERED

The regulations provide that Federal funds will be available for the cost of abortions "when a physician has found, and so certified in writing . . . that on the basis of his/her professional judgment, the life of mother would be endangered if the fetus were carried to term." This section of the regulations essentially restates the statutory language and leaves to a physician the determination of whether a particular condition presents a life endangering circumstance. There are two reasons for leaving the determination to the discretion of a doctor.

First, Congress apparently intended that, in the absence of fraud, the physician's judgment would be conclusive. The life endangering exception in Pub. L. 95-205 is identical to the statutory exception contained in section 209 of the fiscal year 1977 HEW appropriations act. In implementing that provision, the Department left to physicians the determination whether a particular condition presents a life endangering circumstance. The Congress, in enacting section 101, did not indicate any disapproval of this interpretation. In fact, all evidence is to the contrary, since, as is discussed below, Congress clearly indicated that it expected physician judgment, in the absence of fraud, to operate conclusively under the very similar exception for severe and long-lasting physical health damage. The failure of Congress to question the manner in which HEW

had previously implemented this exception, and its reenactment without change, should be understood as indicating congressional approval of the Department's interpretation. See, e.g., *Cammarano v. United States*, 358 U.S. 498, 508-09 (1959).

Second, as a practical matter, it would be virtually impossible to specify every possible medical circumstance that could endanger the life of a pregnant woman. Rather, this medical determination must be made in each case by a physician familiar with the entire medical history of the patient as well as her current condition.

The regulations do require a physician to certify in writing to the State agency, program or project that in his or her professional judgment the life of the mother would be endangered if the fetus were carried to term. The State agency, program or project may not pay for the abortion until it has received this certification. The purpose of the certification requirement is not to enable the Department to question physician judgment, but rather to ensure that physician judgment has in fact been exercised. This is the most efficient manner by which a State agency or a program or project—or the Department in conducting audits or other enforcement reviews—may ascertain that the statutory requirements for a claim for Federal financial participation in an abortion have been met. As such, it will aid the Department in complying with the congressional directive for rigorous enforcement of these rules.

2. SEVERE AND LONG-LASTING PHYSICAL HEALTH DAMAGE

The regulations also provide for Federal funding of abortions "when two physicians have found, and so certified . . . that on the basis of their professional judgment, severe and long-lasting physical health damage to the mother would result if the pregnancy were carried to term." These requirements essentially follow the statutory language. The regulations do not attempt to list each circumstance that might fall within this exception. Rather, as with the life endangering exception, the regulation leaves this determination to the physician, since it would be impossible to list every medical circumstance which would result in severe and long-lasting physical health damage if the pregnancy were carried to term.

The record of the congressional debates in both houses of Congress supports this interpretation. In explaining to the Senate the exception regarding severe and long-lasting physical health damage, Senator Brooke, the ranking minority conferee and one of the chief proponents of Federal funding of abortions stated:

We know, when we are talking about severe and long-lasting physical health damage,

that *That is something that will be determined by a physician, because he is the only one who can determine that.* We are not in a position to determine what a severe and long-lasting physical health damage might be. It would be different from case to case. That is a medical determination that must be made, 123 Cong. Rec. S19442 (daily ed. Dec. 7, 1977) (emphasis supplied).

In the House, Representatives Hyde and Bauman, two chief proponents of strict limitations on Federal funding of abortions, objected to a prior version of section 101 which contained an exception for severe and long-lasting harm identical to the one enacted except that it omitted the "two physician" requirement:

MR. HYDE: The long and short of it is, whatever is serious, whatever is long lasting, is up to the doctor to decide. It can be a migraine headache or it could be varicose veins; it could be any condition that, in the doctor's medical judgment, is serious and would be long lasting. 123 Cong. Rec. H12653 (daily ed. Dec. 6, 1977) (emphasis supplied); and

MR. BAUMAN: As to the mother's health exception, it would be left up to the judgment of the doctor. Id. at H12773 (daily ed. Dec. 7, 1977) (emphasis supplied).

Based on the foregoing, the Department concluded that Congress intended that the determination as to severe and long-lasting physical health damage should be made by physicians.

This section of the regulations also requires that two physicians certify in writing that severe and long-lasting physical health damage would occur if the fetus were carried to term. As with the life endangering exception, the State agency, or program or project may not pay for the abortion without first having received this certification. This requirement provides the most efficient method by which the Department can monitor these determinations and comply with the statutory directive for rigorous enforcement.

3. MEDICAL PROCEDURES PERFORMED UPON VICTIMS OF RAPE OR INCEST

This section implements the third exception specified in section 101—medical procedures for victims of rape or incest. The regulations provide that Federal funding is available for "medical procedures performed upon a victim of rape or incest" provided that certain reporting requirements, explained later in the preamble at 3 (b), (c) and (d), are met.

(a) *Medical procedures.* The term "medical procedures performed upon a victim of rape or incest" is defined by these regulations to encompass "any medical service," including an abor-

The word "service" is placed in the definition to indicate that the term does not include drugs or devices which prevent implantation of the fertilized ovum. Federal funding for drugs or devices is permitted under another paragraph of the statute discussed below.

tion, performed for the purpose of preventing or terminating a pregnancy arising out of an incident of rape or incest." The Department has concluded, after a thorough analysis of the statutory language and the applicable legislative history, that Congress intended that the "medical procedures" authorized for the victims of rape or incest would include abortions.

The statutory language. As indicated earlier, statutory language is by far the most persuasive evidence of legislative intent. The language of section 101 of Pub. L. 95-205 plainly means that Congress intended to fund abortions for the victims of rape or incest. The statute specifies that "none of the funds provided in this paragraph shall be used to perform abortions except . . . for such medical procedures necessary for the victims of rape or incest, . . ." (Emphasis added.) "Medical procedures necessary for the victims of rape or incest" are thus explicitly authorized as one of three enumerated exceptions to the ban on funding for abortions and unless these procedures include abortions, it would make no sense for Congress to authorize their funding as an exception to the general ban on funding for abortions.

Moreover, the structure of the rest of the statute supports this conclusion. The placement of "medical procedures" as the second phrase in a series of three exceptions to the ban on the use of appropriated funds for abortions stands in instructive contrast to the sentence which follows the paragraph describing those exceptions. That sentence nowhere refers to abortions, but instead merely notes that "[n]or are payments prohibited" for drugs or devices or "for medical procedures necessary for the termination of an ectopic pregnancy." These items, grouped together in a separate sentence, are clearly not abortions, but are merely matters related to pregnancies as to which Congress meant to indicate that the abortion ban did not extend.

Had Congress intended that "medical procedures" for victims of rape and incest not include abortions but solely something different, the logic of ordinary English usage would have required the placement of the reference to the victims of rape or incest in the second paragraph, rather than in the paragraph describing the exceptions to the ban on funding for abortions.

The conference report to section 209 of the 1977 Labor-HEW Appropriations Act stated:

It is the intent of the Conferees to limit the financing of abortions under the Medicaid program to instances where the performance of an abortion is deemed by a physician to be of medical necessity and to prohibit payment for abortions as a method of family planning, or for emotional or social

convenience. It is not our intent to preclude payment for abortions when the life of the woman is clearly endangered, as in the case of multiple sclerosis or renal disease, if the pregnancy were carried to term. *Nor is it the intent of the Conferees to prohibit medical procedures necessary for the termination of an ectopic pregnancy or for the treatment of rape or incest victims;* nor is it intended to prohibit the use of drugs or devices to prevent implantation of the fertilized ovum. H. Rep. No. 1555, 94th Cong., 2d Sess. 3 (1976) (emphasis added).

Commenting on the conference report in an opinion dated July 27, 1977, and addressed to the Secretary, the Attorney General contrasted the first two sentences, which "use[d] the word 'abortion,' describing generally those which may be funded and those which may not," with the last sentence, in which the word "abortion" nowhere appeared. Based on this juxtaposition, and based on the conference committee's rejection of a proposal to include rape and incest among the enumerated exceptions, the Attorney General concluded in his opinion of July 27, 1977, that Congress did not intend that "medical procedures" for victims of rape or incest in the fiscal year 1977 appropriations statute include abortions.

As Congress considered the abortion matter for the 1978 fiscal year, it was fully aware of the Attorney General's interpretation of the fiscal year 1977 statute and conference report. See 123 Cong. Rec. H10130 (daily ed. Sept. 27, 1977) (remarks of Representative Conte). In addition, early versions of the abortion funding restriction that passed the House did not refer to rape or incest in the "exception" sentence, while Senate drafts did. Compare, e.g., House and Senate versions of October 12, 1977. In light of this history, it is clear to the Department that Congress was acutely aware of the significance of placing the reference to medical procedures for victims of rape and incest in the series of exceptions to the general ban on funding of abortions rather than in a separate and distinct sentence.

Accordingly, the placement in section 101 of the exception for funding for medical procedures for the victims of rape and incest clearly supports the conclusion that the plain meaning of the statute is that the phrase "medical procedures" includes abortions.

Furthermore, unless "medical procedures" is construed to include abortions, the reporting requirements in the case of rape or incest are difficult to explain. The statute provides that funding for medical procedures is available for the victims of rape or incest only "when such rape or incest has been reported promptly to a law enforcement agency or public health service." The legislative history is quite clear that the primary purpose of the reporting requirements was to

prevent Federal funding of abortions except in those circumstances specified by Congress. See, e.g., 123 Cong. Rec. H12489, H12491, (daily ed. Nov. 29, 1977) (remarks of Representatives Bonker, Bauman, and Michel). Treatment other than abortions for rape or incest victims had been funded under the fiscal year 1977 appropriations statute, and there is no mention in the records that Congress had any evidence before it concerning fraudulent procurement of these non-abortion procedures. There would thus seem to be no reason for subjecting the "medical procedures" in Pub. L. 95-205 to the reporting requirements unless they included abortions.

The legislative history. While the Department believes that it is clear from the plain meaning and the structure of the statute that the authorized medical procedures for victims of rape or incest include abortions, the vast preponderance of the debates also indicates that Congress intended the term "medical procedures" to encompass abortions.

The intent of the Senate is unmistakable. Thus, a colloquy between Senator Brooke, the ranking minority conferee and ranking minority member of Senate Appropriations Committee, and Senator Magnuson, the Acting Chairman of the Senate Appropriations Committee and floor manager of the appropriations language, reads in pertinent part:

MR. BROOKE: I want to make it crystal clear, and I want to make it certain for the record, as to what was intended by the Senate and, as I understand, what was intended by the House by their vote—because no other change was referred to in that debate—is that we are talking about medical procedures being abortions.

There is no doubt in my mind that medical procedures are abortions.

So, there are major changes now as to what poor, indigent women would be eligible for medical abortions. If the woman is a victim of rape or incest, she is eligible under the conditions of the reporting provision . . .

We fully intend medical procedures to include again, abortions. So long as the rape or incest has been reported to a law enforcement agency or to a public health service, the woman is clearly eligible for a publicly funded abortion.

Am I correct about our intent, that medical procedures do include abortion? Is that the chairman's understanding?

MR. MAGNUSON: That is correct. I think we should make it clear to the Secretary, Mr. Callfano, that we mean that a woman who is a victim of rape or incest may have an abortion as long as she reports the incident, and he should issue regulations . . . that will carry out that intent . . . 123 Cong. Rec. S19441-42 (daily ed., Dec. 7, 1977).

In addition to these remarks, Senate debates on virtually identical versions of section 101 contain many other in-

stances in which Senators indicated that "medical procedures" included abortions. See 123 Cong. Rec. S19237 (daily ed. Nov. 29, 1977); *id.* at S 19239; *id.* at S 18583 (daily ed. November 3, 1977); *id.* at S 18586. In fact, there is a total absence from the records of debate in the Senate of even a single instance in which a Senator expressed a contrary view.

Records of the House debate also indicate, with one exception, that members of that body understood the phrase "such medical procedures necessary for the victims of rape or incest" to include abortions.

The phrase "medical procedures necessary for the victims of rape or incest" first appeared in the version of the statute considered and passed by the Senate on November 3, 1977. See 123 Cong. Rec. S18584 (daily ed. Nov. 3, 1977). This proposal was submitted to the House later that day, whereupon Representative Mahon, the Chairman of the House Committee on Appropriations, who had negotiated this phrase with the Senate conferees and who was its proponent before the House, was questioned as to its meaning:

MR. VOLKMER: Mr. Speaker, in the language it says "except for medical procedures necessary for the victims of rape or incest." Would the medical procedures necessary for the victims of rape or incest include abortions? Would they necessarily include abortions?

MR. MAHON: This language excludes abortions "except for medical procedures necessary for the victims of rape or incest." That language it seems to me is a little bit fuzzy and at the same time not too bad.

MR. VOLKMER: Is the gentleman telling the House that it would not include abortions?

MR. MAHON: It could possibly include abortions, but the regulations would have to be promulgated and rigorously enforced by the HEW. 123 Cong. Rec. H12169 (daily ed. Nov. 3, 1977) (emphasis supplied).

Although somewhat tentative, Chairman Mahon's statement is inconsistent with the view that "medical procedures" could under no circumstances include abortions. That this language was perceived as permitting abortions for the victims of rape or incest is further established by the remarks in opposition to the Senate proposal by Representative Michel, the ranking minority House conferee and ranking Republican on the HEW-Labor Subcommittee of the House Appropriations Committee:

The Senate language does not include the words "forced rape," and thus could be interpreted to allow abortions on demand in cases of statutory rape. 123 Cong. Rec. H12170 (daily ed. Nov. 3, 1977). *Contra*, 123 Cong. Rec. H12652 (daily ed. Dec. 6, 1977) (remarks of Representative Michel indicating his view that "medical procedures" did not include abortions).

For this and other reasons, the House on November 3 rejected the version proffered by the Senate.

From the time of the first Senate proposal including the phrase "medical procedures necessary for the victims of rape or incest" in the paragraph describing the exceptions to the general ban on Federal funding of abortions until its passage of the appropriations act, its opponents in the House objected to including the phrase in the exceptions paragraph in part because they thought it would permit the funding of abortions. For example, earlier on the same day on which the House ultimately approved Pub. L. 95-205, it rejected language that was identical to the statute as passed except for the words "when so determined by two physicians" at the end of the first sentence. Opposing the inclusion of "medical procedures" in the exceptions paragraph, Representative Hyde, perhaps one of the most active Members of the House opposing Federal funding of abortions, stated:

The other body has removed "forced" from the definition of rape and thus opens medical abortions to any woman under the age of consent . . . 123 Cong. Rec. H12772 (daily ed. Dec. 7, 1977).

A week earlier, commenting on identical language, Representative Hyde stated:

In the rape of an 18-year-old girl or a 17-year-old girl, depending upon what the statutory age is in a given State, she would get her abortion. If she becomes pregnant, she gets an abortion. There is no requirement of force, or anything else. Statutory rape is covered. She gets an abortion. 123 Cong. Rec. H12489 (daily ed. Nov. 29, 1977).

Similar criticism of this language was offered by Representatives Conte and Mahon. See 123 Cong. Rec. H12487, H12488 (daily ed. Nov. 29, 1977).

The sole instance in the debates of a direct expression by a Member of Congress that the phrase "medical procedures necessary for the victims of rape or incest" did not include abortions occurred during a colloquy between Representatives Michel and Volkmer:

MR. VOLKMER: . . . In the first sentence or the first phrase the word "abortion" is used providing that none of the funds be used except where the life of the mother would be endangered.

Then we say "or except for such medical procedures . . ." and there we use the term "medical procedures"; we do not use the word "abortion"; and therefore, the word "abortion" is not included in "medical procedures"; is that correct?

MR. MICHEL: That is correct.

MR. VOLKMER: Is it the gentleman's intention in presenting this amendment to the House that the words "medical procedures" as used in here, and where reference obviously is made to them, does not include the word "abortion"; is that correct?

MR. MICHEL: Yes. 123 Cong. Rec. H12652 (daily ed. Dec. 6, 1977) (emphasis supplied).

Representative Michel's statement must be accorded due weight, given his leadership role in the abortion dispute, but it contradicts, not only his earlier statement concerning the identical language on November 3, quoted above, but also additional statements made by Representative Michel during the debate of December 6. Thus, when asked by another Member to comment on the prompt reporting aspect of the rape or incest exception, Representative Michel stated:

Yes. At least in this gentleman's mind it certainly does, and of course that prompt treatment is pretty much available today almost any place in the country. But "prompt" leaves itself open to a number of days. But let us face it. Pregnancy is a fact which cannot obviously be known until the raped victim has missed her first period. So it seems to me that "prompt" embraces a period that is at least in the 30-day range and still would be acceptable as prompt treatment and prompt reporting. 123 Cong. Rec. H12652 (daily ed. Dec. 6, 1977).

By making this statement, Representative Michel indicated that he would have permitted the performance of "medical procedures" after the fact of pregnancy is established. But it is precisely whether the fact of pregnancy has been established that distinguishes certain forms of treatment from abortions.

Given these differing statements, the record¹ is unclear whether, in Representative Michel's view, "medical procedures" includes abortion. Even assuming, however, that Representative Michel was consistent throughout in his view that "medical procedures" did not include abortions, that view is insufficient to overcome the plain meaning of the statute, the unequivocal expression of intent by the Senate, and the remaining debate in the House.

For the foregoing reasons, the Department has concluded that Congress intended to permit the funding of abortions for the victims of rape or incest.

It should be noted that since Congress considered but dropped proposals that would have limited the availability of abortions to victims of "forced" rape, it is clear that Congress intended that funding would be available for abortions for the victims of statutory rape. See, e.g., 123 Cong. Rec. H12772 (daily ed. Dec. 7, 1977) (remarks of Representative Hyde).

¹After the law was passed by Congress and signed by the President, Members of both houses of Congress wrote the Department expressing their varying interpretations of the meaning of several statutory terms. It is well settled that such post-enactment expressions may not be considered as probative evidence of legislative intent. Cf. *Waterman S. S. Corp. v. United States*, 381 U.S. 252, 268-9 (1965), 2A Sutherland, Statutory Construction § 48.16 (Sands ed. 1973).

Finally, the phrase "medical procedures performed upon a victim of rape or incest" does not encompass the use of drugs or devices to prevent the implantation of the fertilized ovum. (See 123 Cong. Rec. S19442 (daily ed. Dec. 7, 1977), and medical procedures necessary for the termination of an ectopic pregnancy. The statute explicitly provides " . . . nor are payments prohibited (for those procedures)" (emphasis supplied), in a sentence separate from and following the one providing for the general prohibition against Federal funding of abortions and the exceptions thereto. These items are not abortions. Accordingly, a separate subsection of the regulations provides for Federal funding of these procedures.

Finally, it should be noted that a victim of rape or incest may obtain an abortion under the other two exceptions to the general funding ban without reporting the incident to a law enforcement agency or public health service.

(b) *Report to a law enforcement agency or public health service.* The regulations effectuate the statutory requirement that an incident of rape or incest must be reported to a law enforcement agency or to a public health service for Federal funding to be provided for an abortion under this exception. Federal funds will be made available only where the State agency, program or project has received, prior to payment for the abortion, signed documentation from a law enforcement agency or public health service certifying that the person upon whom the abortion was performed was reported, within the time period specified by the regulations, to have been a victim of rape or incest. These requirements are explained in greater detail below.

(1) *Who must report.* The incident of rape or incest need not be reported by the victim herself. The Department has concluded that Congress intended that anyone may report on behalf of the victim. First, the words of the statute allow for Federal funding of "medical procedures . . . when such rape or incest has been reported promptly to a law enforcement agency or public health service." Thus, the statute does not specify that the victim must report the incident of rape or incest.

Second, the congressional debates demonstrate that the ranking minority conferees of both Houses of Congress agreed that third parties could make the report. Senator Brooke stated:

Our language does not say who must make the report to the law enforcement agency or public health service or its equivalent. It is our intent that the report may be made by third parties, such as doctors, attorneys including, but not limited to legal services lawyers, rape center counselors, welfare agencies, poverty agencies or family members or relatives. Our only requirement here is that someone or some organization make the report to relevant authorities cited in the provision. 123 Cong. Rec. S19237

(daily ed. Nov. 29, 1977). See also 123 Cong. Rec. S19397 (daily ed. Dec. 6, 1977).

Similarly, Representative Michel engaged in the following colloquy with Representative Volkmer:

MR. VOLKMER: . . . As I read the amendment of the gentleman, I do not find any requirement in it that the young lady herself makes that report. I just find it needs to be reported, which to me, and tell me if this is right or not, it could be reported by anyone. It could be reported by a private family planning agency. It could be reported by a father, mother, sister, brother, friend, or anyone else, as I read the amendment; is that correct, first?

MR. MICHEL: Well, there is a significant stigma, no matter who reports it. If a raped victim is singled out by name and address, and I do not care who reports it, there has to be some stigma attached to that.

MR. VOLKMER: The language says only reported; it does not say by whom.

MR. MICHEL: No, it does not.

MR. VOLKMER: It could be anyone.

MR. MICHEL: The Department of HEW may want to tie this down by rules, that could be done.

MR. VOLKMER: . . . what is the gentleman's intention in that regard?

MR. MICHEL: I would not be one to force that particular victim as an individual to report. 123 Cong. Rec. H12653 (daily ed. Dec. 6, 1977).

(ii) *Law enforcement agency.* With respect to the meaning of law enforcement agency, the Congressional Record consists of statements of two members of Congress who described a law enforcement agency in the following manner:

MR. McCLOREY: . . . the proper authorities . . . 123 Cong. Rec. H10830 (daily ed. Oct. 12, 1977);

MR. BROOKE: . . . [O]bviously a law enforcement agency includes the police—State, county or city. But it is not exclusively these organizations. Since we are dealing with women who are victims of attack, we do not want to pile trauma upon tragedy by forcing them to go through a process that is more geared to criminals than to people who deserve our greatest sympathy. If, for example, there is a human relations division within a police department, the report could be made through such an office. A police chaplain's office could be assigned the job of receiving reports. 123 Cong. Rec. S19237 (daily ed. Nov. 29, 1977).

In light of the clear language in the statute and the foregoing statements, the regulations define "law enforcement agency" as "an agency, or any part thereof, charged under applicable law with enforcement of the general penal statutes of the United States, or of any State or local jurisdiction." The reference to "any part thereof" is to make it clear that the report may be given to a rape crisis center or chaplain's office which is part of or administered by a law enforcement agency. The reference to "general penal statutes" is intended to preclude reporting to a specialized law enforcement

agency such as the Drug Enforcement Administration, Secret Service, or their State or local equivalents.

(iii) *Public Health Service.* The regulations define "public health service" primarily as "an agency of the United States or of a State or local government, that provides health or medical services . . ." The Department believes that this definition most closely comports with the intent of Congress; however, the Department acknowledges that what Congress meant by "public health service" is not entirely clear. The range of possibilities was suggested by one Congressman as follows:

What in the world is that? Most Members know of an organization called the U.S. Public Health Service. Is that what is meant by this amendment? I cannot find out. Or does it mean that one could have a conversation with the public health nurse next door? . . . The language of this amendment is wide open to interpretation. It could mean anything you want it to mean. 123 Cong. Rec. H12654 (daily ed. Dec. 6, 1977) (remarks of Representative Flood).

The text of the statute offers substantial, although not conclusive, evidence that Congress intended that reporting be restricted to governmental entities. First, the phrase "public health service" is used along with "law enforcement agency," and it is a general rule of statutory construction that "the meaning of doubtful words may be determined by reference to their association with other associated words and phrases." 2A Sutherland, "Statutory Construction" §47.16 (Sands ed. 1973). Law enforcement agencies are by definition governmental entities, and the close association of the two statutory phrases suggests that Congress intended "public health service" to have a similar meaning. In addition, the close similarity of the statutory phrase with the United States Public Health Service suggests that Congress intended to limit reporting to the Public Health Service, its State and local analogues, and other governmental entities.

The legislative history with respect to this phrase is brief and inconclusive. Only two statements in the Senate shed any light on its meaning. The first, by Senator Brooke, describes the meaning of the term "a public health service or its equivalent" when that language was under consideration by the Senate:

We also want to tell HEW what we mean by a "public health service or its equivalent." A public health service is one that serves the public in the immediate local area, or over a wider region. It could be a Government service and in many areas likely would be. But where such Government service does not exist, we intend that the private sector equivalent of such service would be eligible to receive the relevant report. Thus, in addition to services funded from public moneys we also would include

services funded by a combination of public and private moneys, or even moneys totally from the private sector, if that is the best "equivalent" that can be found.

Thus, authorized recipients of reports would include, but not be limited to, family planning organizations, health maintenance organizations, rape crisis centers, health and counseling centers run by local charitable organizations, special phone-in counseling services, or any kind of neighborhood or other health or counseling center for people with problems. 123 Cong. Rec. S19237 (daily ed. Nov. 29, 1977)

It should be emphasized that these statements were made in the context of a proposed version of the statute containing the phrase "a public health service or its equivalent." Significantly, the phrase "or its equivalent" was ultimately deleted. The critical passage in Senator Brooke's statement thus is: "[b]ut where such Government service does not exist, we intend that the private sector equivalent of such service would be eligible to receive the relevant report." (Emphasis supplied.) With the deletion of the phrase "or its equivalent," the most reasonable inference would seem to be that the Senate intended that only governmental entities would be eligible to receive reports from the victims of rape or incest.

Discussion in the House as to the meaning of "public health service" tended to focus on the desire that the term not be so broad as to include abortion clinics. On November 29, 1977, Representative Michel in a colloquy with Representative Bauman indicated that Medicaid-financed abortion clinics should be excluded:

MR. BAUMAN: Mr. Speaker, if the gentleman will yield further, anyone can see the obvious conflict that exists in a Medicaid-financed abortion clinic, which makes most of its money from performing abortions, having the right to certify that these pregnancies were a result of rape or incest. Obviously, it would be almost an automatic act by people who have a patent conflict of interest and wish to perform the abortion and be paid. That certainly should not be the intent of the conferees.

MR. MICHEL: No, it should not. I would sincerely hope that they would be getting the message downtown and that lines would be drawn accordingly. 123 Cong. Rec. H12491 (daily ed. Nov. 29, 1977).

The only additional House legislative history of any significance on the issue of what constitutes a public health service consists of the following colloquy between Representatives Volkmer and Michel:

MR. VOLKMER: That is, what is a public health service? What does the gentleman mean by a public health service? Does that include family planning centers and others that could be referred to?

MR. MICHEL: In my judgment, it is every public health center that is funded to any degree by Federal funds.

MR. VOLKMER: To any degree by Federal funds?

MR. MICHEL: Yes.

MR. VOLKMER: What about State and local funds?

MR. MICHEL: I am talking about federally funded centers. The gentleman and I well know that in Cook County or Peoria County today they are taking care of situations that we are prohibiting here, but they feel a need locally to do it and if there are no Federal funds, I have no voice in it. I am not about to eliminate or restrict what they are doing.

MR. VOLKMER: But the receivers of the report can only be public health services that are partially or fully funded by the Federal Government?

MR. MICHEL: Yes, sir. 123 Cong. Rec. H12653 (daily ed. Dec. 6, 1977).

As this brief review of the legislative history indicates, what Congress meant by the term "public health service" is not entirely clear. Only two possibilities have any support in the legislative history—a definition limited to governmental entities or a definition limited to Federally funded entities. The language of the statute and the deletion of the phrase "or its equivalent" led the Department to conclude that Congress intended to entrust the reception of reports from the victims of rape or incest, an integral part of a statutory requirement intended to deter fraud, only to those agencies ultimately accountable to the political process. Accordingly, the definition of "public health service" in these regulations is restricted primarily to governmental entities that provide health services. These may include health department offices, public hospitals and clinics and facilities operated by the Public Health Service.

This definition also encompassed quasi-public corporations or authorities, such as the New York City Health and Hospital Corporation, that provide general medical services pursuant to a delegation of governmental authority by a State or local government or through a multi-jurisdiction compact.

The Department recognizes that in certain rural areas no appropriate governmental agency or facility may be available. In order to insure that a responsible entity will be accessible for purposes of receiving the required report, the definition includes rural health clinics, a term defined in recently enacted Pub. L. 95-210, 91 Stat. 1485, to mean Federally funded clinics in certain medically underserved rural areas.

The Department believes that this definition of "public health service" will not prevent necessary reporting. Since reporting need not be done in person by the victim, communication by mail to a law enforcement agency or public health service from a health facility where a rape or incest victim went for medical help should prevent any problems of inaccessibility.

Finally, because of several clear expressions in the congressional debates

that abortion clinics cannot be considered proper facilities to receive reports of rape or incest, the definition of "public health service" specifically excludes any facility whose principal function is the performance of abortions. The Department believes that permitting reporting to abortion clinics would be inconsistent with the concept of rigorous enforcement.

(c) *The requirement that rape or incest be "promptly" reported.* Section 101 provides that Federal funding is available for "such medical procedures necessary for the victims of rape or incest, when such rape or incest has been reported promptly . . ." (Emphasis supplied.) To implement this requirement, the regulations provide that the report must be filed within 60 days of the incident of incest or rape. The 60-day period is consistent with congressional intent and was arrived at by balancing the competing interest of providing sufficient time to permit victims of rape or incest to make reasoned decisions as to how and whether to report these incidents, with the necessity to protect against fraudulent reporting. Thus, in explaining this requirement, one Congressman commented:

The intent is to insure that innocent victims of rape will receive treatment with a minimum of difficulty, but that sufficient steps have been taken by the victims to demonstrate the fact of the rape. 123 Cong. Rec. H12489 (daily ed., Nov. 29, 1977) (remarks of Representative Bonker).

The records of the debates in Congress indicate that Congress was aware of both policies that are balanced in these regulations, but that the members had conflicting views as to what would constitute prompt reporting, varying from as little as two or three weeks, to 60 to 90 days, to "months."

In the Senate, Senators Magnuson, Brooke and Metzenbaum, engaged in the following colloquy:

MR. BROOKE: In addition, we also include the word "promptly," to provide that any reporting must be prompt. By this we do not mean hours; we mean a much longer period of time that is reasonable yet humane . . .

MR. METZENBAUM: In yielding to the House with respect to putting in the word "promptly," it seems to me that it opens the door to a wide variety of interpretations . . .

MR. METZENBAUM: Does the Senator from Massachusetts, therefore, interpret the word "promptly" to mean a number of weeks and possibly months after the traumatic experience has occurred, rather than a requirement to get on the telephone immediately after that kind of occurrence? I believe it does have relevance, and I would appreciate to some elaboration on the subject from the Senator from Massachusetts.

MR. BROOKE: Mr. President, I agree with the Senator from Ohio that the word "promptly" is subject to interpretation.

As I view it, "promptly" would mean a reasonable and humane period of time in which the rape or incest would be reported to a law enforcement agency or to a public health service; it might be reported by a parent or someone in behalf of that victim of rape or incest, or it could be reported by the victim.

We may be talking about children. As the distinguished Senator from Ohio well knows, it is a matter that concerns me deeply and concerns him and others deeply. We may be talking about young children, so we may be talking about the reporting of the parent, where the child cannot be in a position to make that report promptly. It is not a question of hours, as I see it, but maybe days, weeks—a reasonable and humane period of time, whatever that may be considered.

MR. METZENBAUM: Possibly weeks and months.

MR. BROOKE: It could be, yes.

MR. MAGNUSON: I would not suggest that they wait months. As with any piece of legislation, you cannot spell out the time. We probably could say within 90 days or within 60 days or within the first part of the pregnancy. But we have to leave it up to the Department to make what we hope will be reasonable regulations to carry out what the word "promptly" means.

In reverse, I think it means that you cannot wait and wait and wait and all of a sudden show up some place and say, "I was raped," or, "Incest took place." You would have to do it within a reasonable time, with respect to the Department.

In this amendment, we go even further. We say:

The Secretary shall promptly issue regulations and establish procedures to ensure that the provisions of this section are rigorously enforced.

I think that would mean that they would interpret the word "promptly" not to apply to any length of time, but that it should be done, say, in 90 days, or say that was the middle figure, that it be before that time, not "promptly" after a long period of time.

I am sure that is the way the regulations would read.

MR. BROOKE: I think a reasonable and humane period of time would be a fair period of time. I think there might be extenuating circumstances in certain cases which should be taken into consideration.

MR. MAGNUSON: Each case has to be taken into consideration.

MR. BROOKE: I can conceive of a case where there is an extenuating circumstance such as requiring a longer period of time, say, than the normal case. So I think that would be the intent of the language.

MR. METZENBAUM: I appreciate the assurances of the distinguished Senator from Massachusetts and the distinguished Senator from Washington that "promptly" in this sense in this legislation does not mean "promptly" as we normally think of it such as when we expect the Secretary of HEW to act promptly in issuing regulations. That is a different kind of promptness than that which we expect under these circumstances.

MR. BROOKE: I agree.

MR. MAGNUSON: I hope this will set an example for other regulations they have to issue down there. 123 Cong. Rec. S19397-98 (daily ed. Dec. 6, 1977). See also id. at S 19442 (daily ed. December 7, 1977).

A somewhat more restrictive view had been stated by Senator Helms when he earlier had unsuccessfully introduced an amendment that would have required prompt reporting:

The word "promptly" before the word "reported" will eliminate the possibility that 2 or 3 months after the fact a supposed victim would claim to have been raped when, as a matter of fact, she had not. 123 Cong. Rec. S19238 (daily ed. Nov. 29, 1977).

The prevailing view in the House was closer to that of Senator Helms. One representative, referring to the Senate colloquy on the meaning of promptly, expressed apprehension that the Senate might consider the term to encompass months.

MR. BAUMAN: Then they [the Senators quoted above] went on to explain in their view months could pass and still lead to prompt reporting. In other words, this is a very large loophole, and this debate in the Senate could support a complete reversal of the attitude of the House when we desired a prompt reporting of when the rape occurred. Read what the Senate said. 123 Cong. Rec. H12772 (daily ed. Dec. 7, 1977).

In response to that remark, Representative Mahon related his belief that prompt was shorter than "months" and meant "reasonably quick."

MR. MAHON: Regardless of what may have been said by any Member of the other body and by any Member of this body, in plain English "prompt" means reasonably quick. It does not mean months, regardless of what anybody may have said. I do not accept everything I read in the Congressional Record. I know what the word "promptly" means, and I know that Mr. Califano, the Secretary of HEW, is a man of integrity, and he is required under the language in this proposal to promptly issue regulations to rigorously enforce the import of the resolution. So I would not be concerned about that matter. Id.

However, even after the Chairman's assurance to the contrary, Representative Bauman reiterated his fears that "prompt" could be interpreted to mean months after the occurrence of the rape:

. . . With the inclusion of the broadly interpreted "prompt reporting" months after the occurrence as the Members of the other body readily interpret it—and legislative history does play a part—we have another estimate. Id. at H 12773.

On the previous day, Representative Michel provided his view on the meaning of prompt reporting:

But "prompt" leaves itself open to a number of days. But let us face it. Pregnancy is a fact which cannot obviously be known until the raped victim has missed her first period. So it seems to me that "prompt" embraces a period that is at least in the 30-day range and still would be acceptable as prompt treatment and prompt reporting. 123 Cong. Rec. H12652 (daily ed. Dec. 6, 1977).

The significance of this comment is that it indicates this Member's belief

that "prompt" encompasses at least a sufficiently lengthy period of time so as to permit the victim to know whether or not she is pregnant.

The only additional explanation of the meaning of "prompt" was a comment by Representative Bonker, on December 6, 1977 that:

It has to be reported promptly and that does not mean it can be done 3 or 4 or 5 weeks later and reported and thus qualify for a medical abortion. *Id.* at H12653 (daily ed. Dec. 6, 1977).

In the face of these sharply conflicting expressions of Congress, the Department believes that a 60-day reporting period is within the middle range of the various time limits mentioned in the debates. More importantly, the Department believes that a 60-day reporting period accommodates both basic policies, of permitting access by eligible individuals while discouraging fraud, advanced in support of the promptness requirement.

(d) *The procedure for prompt reporting.* There is virtually no evidence as to what procedures Congress envisioned should be followed to implement the reporting requirements for the victims of rape or incest. The Department, in the absence of congressional guidance in formulating these requirements, has attempted to balance concerns for individual privacy with the statutory mandate that the Secretary shall "establish procedures to insure that the provisions of this section are rigorously enforced." The regulations require only that information necessary to confirm the fact that an incident of rape or incest has been reported to a law enforcement agency or public health service, be provided.

The regulations provide that Federal financial participation is available for medical procedures performed upon a victim of rape or incest if the appropriate State agency or program or project has received signed documentation from a law enforcement agency or public health service. The documentation must state that the person upon whom the medical procedure was performed was reported, within 60 days of the incident, to have been the victim of rape or incest and that the report included the name, address and signature of the person who reported the incident.

The regulations do not specify the manner in which reporting must be accomplished and do not require the reporting of any details concerning the underlying incident other than the name of the victim. However, it should be noted that the regulations require an official of the agency or service that received the report to certify in writing to the fact of prompt reporting. This may be done, for example, by inclusion in the certification of a statement that the rape or incest was promptly reported as required by the

regulations or by a recitation of the date of the report to the law enforcement agency or public health service and the date of the incident of rape or incest.

In order to implement the requirement of rigorous enforcement, the regulations require that the relevant documentation must be received by the applicable State agency, program or project prior to payment to the provider of the abortion. In other words, no Federal funds may be expended for an abortion until the State agency, program or project has on hand the requisite documentation. Providers, however, may perform abortions prior to the receipt of such documentation, but they do so at the risk of not receiving Federal reimbursement should such documentation subsequently not be forthcoming.

In addition, it must be noted that any person who knowingly submits a falsified claim for Federal funds, or who aids or abets in the submission of a falsified claim, may be subject to prosecution under section 1909(a) of the Social Security Act or another applicable provision of law.

4. RETENTION OF RECORDS

The regulations also require that the State agency, or the program or project maintain copies of all requisite documentation and certifications for the three year period specified in the maintenance of record requirements at 45 CFR 74.20. These records must be retained to facilitate audits and other enforcement reviews. However, in order to safeguard personal privacy, these records are subject to the safeguarding requirements specified in 45 CFR 205.50.

WAIVER OF PROPOSED REGULATIONS

Section 102 of Pub. L. 95-205 specifies that the statute governs the Department's appropriations effective as of December 1, 1977. Section 101 of that Act places specific limitations upon those abortions for which Federal funds are available. Accordingly, it is critical that States and other grantees be made aware of the instances in which Federal funding will be available as soon as possible. Moreover, Congress has dictated that these regulations must be issued promptly to enforce rigorously these limitations. For this reason, the Department has determined that there is good cause to waive notice and opportunity for public comment prior to issuing these regulations in final form, and to waive the normal requirement that 30 days elapse between publication of the regulations and effective date. However, comments will be received, as noted earlier, with the possibility of modifying the regulations in response to those comments.

EFFECTIVE DATE

These regulations will be effective February 14, 1978. The Department understands that a reasonable amount of time is necessary to make adjustments to comply with the reporting and record keeping procedures. The Department, however, believes that this can be done in substantially less time than the normal 30 days, given the minimal nature of the requirements imposed upon States and other grantees. The Department has concluded that a 12 day lead time is sufficient.

Part 449 is amended by adding a new Subpart A after § 449.82 to read as set forth below:

Subpart A—Federal Financial Participation in State Claims for Abortions

- 449.100 Applicability.
- 449.101 Definitions.
- 449.102 General rule.
- 449.103 Life of the mother would be endangered.
- 449.104 Severe and long-lasting damage to physical health.
- 449.105 Rape and incest.
- 449.106 Documentation needed by State agency.
- 449.107 Drugs and devices and termination of ectopic pregnancies.
- 449.108 Record keeping requirements.
- 449.109 Safeguarding requirements.

AUTHORITY: Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302); sec. 101 of Pub. L. 95-205, 91 Stat. 1461, December 9, 1977.

Subpart A—Federal Financial Participation in State Claims for Abortions

§ 449.100 Applicability.

This subpart applies to programs administered under Title XIX of the Social Security Act.

§ 449.101 Definitions.

As used in this Subpart:

(a) "Law enforcement agency" means an agency, or any part thereof, charged under applicable law with enforcement of the general penal statutes of the United States, or of any State or local jurisdiction.

(b) "Medical procedures performed upon a victim of rape or incest" means any medical service, including an abortion, performed for the purpose of preventing or terminating a pregnancy arising out of an incident of rape or incest.

(c) "Physician" means a doctor of medicine or osteopathy legally authorized to practice medicine and surgery by the State in which he or she practices.

(d) "Public health service" means: (1) An agency of the United States or of a State or local government, that provides health or medical services; and

(2) A "rural health clinic," as defined under section 1(d)(aa)(2) of Pub. L. 95-210, 91 Stat. 1485, except that

any agency or facility whose principal function is the performance of abortions is specifically excluded from this definition.

(e) "State" means each of the fifty States of the United States, the District of Columbia, Guam, the Virgin Islands, Puerto Rico, and the Northern Mariana Islands.

§ 449.102 General rule.

Federal financial participation is not available in expenditures for an abortion except under circumstances described in §§ 449.103, 449.104, or § 449.105.

§ 449.103 Life of the mother would be endangered.

Federal financial participation is available in expenditures for an abortion when a physician has found, and so certified in writing to the applicable State agency, that on the basis of his/her professional judgment, the life of the mother would be endangered if the fetus were carried to term.

§ 449.104 Severe and long-lasting damage to physical health.

Federal financial participation is available in expenditures for an abortion when two physicians have found, and so certified in writing to the applicable State agency, that on the basis of their professional judgment, severe and long-lasting physical health damage to the mother would result if the pregnancy were carried to term.

§ 449.105 Rape and incest.

Federal financial participation is available in expenditures for medical procedures performed upon a victim of rape or incest if the State agency has received signed documentation from a law enforcement agency or public health service stating that: (a) The person upon whom the medical procedure was performed was reported, within 60 days of the incident, to have been the victim of an incident of rape or incest; and (b) the report included the name, address and signature of the person who reported the rape or incest. Federal financial participation is also available in expenditures for abortions for victims of rape or incest under the circumstances described in §§ 449.103 and 449.104 without regard to the requirements of the preceding sentence.

§ 449.106 Documentation needed by the State agency.

Federal financial participation is unavailable in any expenditures for abortions or other medical procedures otherwise provided for under §§ 449.103, 449.104, and 449.105 if the State agency has paid without first having received the certifications and documentation specified in those sections.

§ 449.107 Drugs and devices and termination of ectopic pregnancies.

Federal financial participation is available in expenditures for drugs or devices to prevent implantation of the fertilized ovum, and for medical procedures necessary for the termination of an ectopic pregnancy.

§ 449.108 Record keeping requirements.

State agencies must maintain copies of the certifications and documentation specified in §§ 449.103, 449.104 and 449.105 for 3 years pursuant to the retention and custodial requirements for records at 45 CFR 74.20 *et seq.*

§ 449.109 Safeguarding requirements.

State agencies must safeguard against improper disclosure of information contained in the certifications and documentation described in §§ 449.103, 449.104, and 449.105 pursuant to the requirements at 45 CFR 205.50(b).

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS); DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 228—SOCIAL SERVICES PROGRAMS FOR INDIVIDUALS AND FAMILIES: TITLE XX OF THE SOCIAL SECURITY ACT

Federal Financial Participation in State Claims for Abortions

NOTE.—This document originally appeared in the FEDERAL REGISTER for Thursday, February 2, 1978. It is reprinted in this issue to meet requirements for publication on an assigned day of the week. (See the inside cover of this issue for information about agencies publishing on assigned days of the week.)

AGENCY: Administration for Public Services (APS), Office for Human Development Services (OHDS), Department of Health, Education, and Welfare.

ACTION: Final rules.

SUMMARY: Department is promulgating new rules to govern Federal financial participation in expenditures for abortions funded through various

HEW programs. Three parallel sets of regulations are being promulgated. One set will apply to programs administered under title XIX of the Social Security Act, another to programs administered under title XX of that Act, and the third to programs and projects supported with funds appropriated to the Department of Health, Education, and Welfare and administered by the Public Health Service. These rules are necessary as a result of the enactment of Pub. L. 95-205. That statute imposes strict limitations upon Federal funding of abortions and requires that the Secretary "promptly issue regulations and establish procedures to ensure that [the statute is] rigorously enforced." These regulations respond to that statutory directive and specify when Federal funds may be used to pay for abortions.

EFFECTIVE DATE: These regulations will be effective February 14, 1978. As explained in the preamble to 42 CFR Part 449 appearing in this issue at p. 4833 in providing Federal financial participation prior to the effective date of these regulations, the Department will accept any reasonable interpretation of the statutory provisions implemented by these regulations.

Notice of Proposed Rulemaking and a delayed effective date of 30 days have been waived because of the compelling need to provide immediate direction to States and Federal grantees as to those abortions which the Department will fund with its appropriations for fiscal year 1978, and to follow the dictates of Congress that the Department promptly issue regulations. Nevertheless, written comments or suggestions received on or before March 20, 1978, will be considered with a view to revising these regulations, and will be responded to by further publication in the FEDERAL REGISTER no later than May 3, 1978.

In commenting please refer to APS-3. Agencies and organizations are requested to submit comments in duplicate. Comments will be available for public inspection beginning approximately 2 weeks after publication, in Room 2225 of the Department's offices at 330 C Street SW., Washington, D.C., on Monday through Friday of each week from 8:30 a.m. to 5 p.m., 202-245-9415.

ADDRESS: Address comments to: Commissioner, Administration for Public Services, Department of Health, Education, and Welfare, P.O. Box 1923, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT:

Mrs. Johnnie U. Brooks, Room 2225, Switzer Building, 330 C Street SW., Washington, D.C. 20201, 202-245-9415.

SUPPLEMENTARY INFORMATION: For a preamble statement, which is

RULES AND REGULATIONS

being issued jointly by the Administration for Public Services of the Office of Human Development Services, the Public Health Service, and the Health Care Financing Administration, concerning conditions governing Federal funding of abortions, see 42 CFR Part 449 appearing in this issue at page 4833

45 CFR 228 is revised as follows:

1. The Table of Contents for Subpart I is revised as follows:

Subpart I—General Provisions

Sec.

228.90 Expenditures for which Federal financial participation is available.

228.91 Expenditures for which Federal financial participation is not available.

228.92 Federal Financial Participation in State Claims for Abortions.

AUTHORITY: Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302); and Sec. 101, Pub. L. 95-205, 91 Stat. 1461, December 9, 1977.

2. Subpart I is revised to add a new § 228.92 as follows:

§ 228.92 Federal Financial Participation in State Claims for Abortions.

Federal financial participation in State claims for abortions is governed by 42 CFR 449.100 through 449.109.

(Sec. 101, Pub. L. 95-205, 91 Stat. 1461, December 9, 1977.)

(Catalog of Federal Domestic Assistance Program No. 13.771, Social Services for Low Income and Public Assistance Recipients.)

Dated: January 26, 1978.

WARREN MASTER,
*Acting Assistant Secretary for
Human Development Services.*

Approved: January 26, 1978.

JOSEPH A. CALIFANO, JR.,
*Secretary, Department of Health,
Education, and Welfare.*

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA/FSQS		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/REA		DOT/OPSO	USDA/REA
	CSC			CSC
	LABOR			LABOR
	HEW/ADAMHA			HEW/ADAMHA
	HEW/CDC			HEW/CDC
	HEW/FDA			HEW/FDA
	HEW/HRA			HEW/HRA
	HEW/HSA			HEW/HSA
	HEW/NIH			HEW/NIH
	HEW/PHS			HEW/PHS

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

[4910-13]

Title 14—Aeronautics and Space

CHAPTER 1—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 78-NW-2-AD; Amdt. 39-3131]

PART 39—AIRWORTHINESS DIRECTIVES

Bell 47 Series, Modified in Accordance With STC SH357SW

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive to establish inspection times and criteria, as well as terminating action, for those Bell 47 helicopters equipped with a Simplex spray system installed in accordance with STC SH357SW.

The effect of this airworthiness directive is to preclude failure of the spray hopper upper attach fitting allowing the spray hopper to drop outboard onto the skid.

EFFECTIVE DATE: March 6, 1978.

The initial compliance time is prior to the next 25 hours of flight after the effective date of this airworthiness directive.

Simplex Modification No. E201 specified in this directive may be obtained upon request from Simplex Manufacturing Co., 5224 Northwest 42nd Avenue, Portland, Ore. 97218.

FOR FURTHER INFORMATION CONTACT:

Francis LaBrash, Modification

Group, ANW-219, Engineering and Manufacturing Branch, FAA Northwest Region, 9010 East Marginal Way South, Seattle, Wash. 98108, telephone 206-767-2528.

SUPPLEMENTARY INFORMATION: On July 2, 1977, a Bell 47D-1, equipped with a Simplex spray system, STC SH357SW had a failure of the spray hopper upper attach bracket which allowed the hopper to fall down onto the skid. This lateral over balance caused the helicopter to crash. The manufacturer of the spray system has designed a plug type repair which, when accomplished, will preclude further failures.

DRAFTING INFORMATION

The principal authors of this document are Francis LaBrash, Engineering and Manufacturing Branch, Northwest Region, and Jonathan Howe, Regional Counsel, Northwest Region.

ADOPTION OF THE AMENDMENT

Pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new airworthiness directive:

BELL 47 SERIES AS MODIFIED BY STC SH357SW. To preclude failure of the hopper upper support bracket, accomplish the following:

Within the next 25 hours flight time and at each 25 flight hours thereafter, inspect the hopper upper support bracket (P/N B630224) for cracks and/or deformation. If cracks and/or deformation are found, re-

place or repair. Inspections may be discontinued upon installation of Simplex Modification No. E201 (See Fig. 1), or equivalent modification or repair approved by an FAA Maintenance Inspector.

The manufacturer's repair, identified and described in this directive is incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(A)(1).

All persons affected by this directive who have not already received the repair documents from the manufacturer, may obtain copies upon request to Simplex Manufacturing Co., 5224 Northeast 42nd Avenue, Portland, Ore. 97218. This repair document may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Wash. 98108.

This amendment becomes effective March 6, 1978.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421, and 1423) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Seattle, Wash., on January 23, 1978.

C. B. WALK, Jr.,
Director, Northwest Region.

NOTE.—The incorporation by reference provisions in this document were approved by the Director of the Federal Register on June 19, 1967.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Bangor, Maine, 700-Foot Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT

ACTION: Final rule

SUMMARY: This amendment changes the description of the Bangor, Maine, 700-foot transition area to provide more controlled airspace for aircraft being radar vectored to a final approach.

EFFECTIVE DATE: March 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Richard G. Carlson, Operations Procedures and Airspace Branch, ANE-536, Air Traffic Division, Federal Aviation Administration, 12 New England Executive Park, Burlington, Mass. 01803; telephone 617-273-7285

SUPPLEMENTARY INFORMATION. On November 25, 1977, the Federal Aviation Administration published a notice proposing to enlarge the Bangor, Maine, 700-foot transition area to allow lowering certain minimum radar vectoring altitudes and to enhance control of traffic being radar vectored to a final approach. Interested persons were invited to participate in this rulemaking process by submitting written comments on the proposal to the FAA. No objections were received.

DRAFTING INFORMATION

The principal authors of this document are Richard G. Carlson, Air Traffic Division, New England Region, and George L. Thompson, Associate Regional Counsel, New England Region.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator for the description of the Bangor, Maine, 700-foot transition area in Subpart G of § 71.181 of the Federal Aviation Regulations (14 CFR 71.181) is amended, effective 0901 G.m.t., March 23, 1978, to read as follows:

That airspace extending upward from 700 feet above the surface, bounded by a line beginning at: latitude 45°09'50" N., longitude 68°35'30" W., to latitude 45°04'40" N., longitude 68°20'40" W., to latitude 44°59'00" N., longitude 68°30'00" W., to latitude 44°52'45" N., longitude 68°36'45" W., to latitude 44°43'30" N., longitude 68°18'10" W., to latitude 44°37'40" N., longitude 68°21'40" W., to latitude 44°27'30" N., longitude 68°36'50" W.

to latitude 44°36'25" N., longitude 68°49'45" W., to latitude 44°40'50" N., longitude 69°03'25" W., to latitude 44°54'45" N., longitude 69°02'45" W., to latitude 44°57'50" N., longitude 68°57'20" W., to latitude 44°59'45" N., longitude 68°47'50" W., to the point of beginning; excluding that portion which coincides with the Bar Harbor, Maine, 700 foot transition area.

(Sec. 307(a), Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Burlington, Mass., on January 9, 1978.

WILLIAM E. CROSBY,
 Acting Director,
 New England Region

(FR Doc. 78-3109 Filed 2-3-78; 8:45 am)

(Airspace Docket No. 77-RM-13)

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT

ACTION: Final rule.

SUMMARY: This amendment alters the Delta, Utah, 1,200-foot transition area. This action is necessary to provide controlled airspace for the new NDB-A and NDB-B approach procedures to Michael Airfield, Dugway Proving Ground, Utah.

EFFECTIVE DATE: 0901 G.m.t., March 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. David M. Laschinger, Operations, Procedures and Airspace Branch, Air Traffic Division, ARM-500, Federal Aviation Administration, Rocky Mountain Region, 10455 East 25th Avenue, Aurora, Colo 80010, telephone 303-837-3937.

SUPPLEMENTARY INFORMATION

HISTORY

On November 7, 1977, the FAA published for comment a Notice of Proposed Rulemaking (NPRM) to alter the Delta, Utah, 1,200-foot transition area (42 FR 57971). No objections were received in response to this notice.

THE RULE

This amendment to Part 71 of the Federal Aviation Regulations (FAR's) redefines the 1,200-foot transition area at Delta, Utah.

The present 1,200-foot transition area was found to be inadequate to contain the transition route for the NDB-A and NDB-B approach procedure to Michael Army Airfield, Dugway Proving Ground, Utah.

DRAFTING INFORMATION

The principal authors of this document are Mr. David M. Laschinger, Operations, Procedures and Airspace Branch, Air Traffic Division, and Mr. Daniel J. Peterson, Office of Regional Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended effective 0901 G.m.t., March 23, 1978, as follows:

By amending subpart G, section 71.181 so as to alter the following transition area to read:

DELTA, UTAH

and that airspace extending upward from 1,200 feet above the surface within 9 miles southeast and 13.5 miles northwest of the Delta VORTAC 203° and 023° radials, extending from 12 miles northeast to 25.5 miles southwest of the VORTAC; and that airspace within 5 miles northeast and 5 miles southwest of the Delta VORTAC 326° radial extending from the VORTAC to the southeast boundary of restricted area R-8402.

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Aurora, Colo., on January 11, 1978.

M. M. MARTIN,
 Director,
 Rocky Mountain Region

(FR Doc. 78-3111 Filed 2-3-78; 8:45 am)

[4910-13]

(Airspace Docket No. 77-NE-26)

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Change in Effective Hours of Hartford, Conn. Control Zone

AGENCY: Federal Aviation Administration (FAA), DOT

ACTION: Final rule

SUMMARY: This rule amends the description of the Hartford Control Zone to reflect that the control zone is now effective 24 hours daily, as published

RULES AND REGULATIONS

by Notices to Airmen (NOTAM). The control zone was formerly in effect from 0700 to 2300 local time daily.

EFFECTIVE DATE: February 2, 1978.
FOR FURTHER INFORMATION CONTACT:

Richard G. Carlson, Operations Procedures and Airspace Branch, ANE-536, Air Traffic Division, Federal Aviation Administration, 12 New England Executive Park, Burlington, Mass. 01803, telephone 617-273-7285.

SUPPLEMENTARY INFORMATION: The purpose of this rule is to amend the description of the Hartford Control Zone in § 71.171 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to reflect that the control zone is effective 24 hours daily, by deleting any reference to specific times of operation in the description.

This action conforms with the airport traffic control tower hours of operation which now provides weather observations on a 24 hour basis.

Since this change merely reflects the current hours of operation, it has no adverse affect on any person and notice and public procedure hereon is unnecessary.

DRAFTING INFORMATION

The principal authors of this document are Richard G. Carlson, Air Traffic Division, New England Region, and George L. Thompson, Associate Regional Counsel, New England Region.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 71.171 of the Federal Aviation Regulations (14 CFR Part 71) is hereby amended to change the effective hours of the Hartford, Conn., control zone from 0700 to 2300 hours daily to 24 hours daily by deleting, in its entirety, the last sentence of the description of the Hartford, Conn., Control Zone.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Burlington, Mass., on January 23, 1978.

ALBERT E. HOUCK,
Acting Director,
New England Region.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Designation of Transition Areas

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment designates a 700 foot and a 1,200 foot transition area at Roosevelt, Utah. This action is necessary to provide controlled airspace for the new VOR-B and RNAV Runway 25 instrument approach procedures at Roosevelt Municipal Airport, Roosevelt, Utah.

EFFECTIVE DATE: 0901 G.m.t., March 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. David M. Laschinger, Operations, Procedures and Airspace Branch, Air Traffic Division, ARM-500, Federal Aviation Administration, Rocky Mountain Region, 10455 East 25th Avenue, Aurora, Colo. 80010, telephone 303-837-3937.

SUPPLEMENTARY INFORMATION:

HISTORY

On December 22, 1977, the FAA published for comment a proposal to designate a 700 foot and a 1,200 foot transition area at Roosevelt, Utah (42 FR 64128). The only comment received expressed no objection.

THE RULE

This amendment to Part 71 of the Federal Aviation Regulations (FAR's) designates a 700 foot and a 1,200 foot transition area at Roosevelt, Utah.

This action is necessary to provide controlled airspace to contain the new VOR-B and RNAV Runway 25 instrument approach procedures at Roosevelt Municipal Airport, Roosevelt, Utah.

DRAFTING INFORMATION

The principal authors of this document are Mr. David M. Laschinger, Operations, Procedures and Airspace Branch, Air Traffic Division, and Mr. Daniel J. Peterson, Office of Regional Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended effective 0901 G.m.t., March 23, 1978 as follows:

By amending Subpart G 71.181 by designating the following transition areas:

ROOSEVELT, UTAH

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Roosevelt Municipal Airport, Roosevelt, Utah (latitude 40°16'33" N., longitude 110°03'02" W.) and within 2 miles either side of the Myton, Utah, VORTAC 023° radial extending from the 5-mile radius of the airport to the Myton VORTAC; and that airspace extending upward from 1,200 feet above the surface bounded by a line beginning at latitude 39°52'04.7" N., longitude 110°15'10.2" W., to latitude 40°27'47.3" N., longitude 110°15'58.9" W., to latitude 40°19'20.4" N., longitude 109°33'14.8" W., to latitude 40°03'58.4" N., longitude 109°41'25.5" W., to latitude 40°04'04.3" N., longitude 109°44'49.1" W., to latitude 39°52'27.4" N., longitude 109°44'33.3" W., to point of beginning.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1345(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Aurora, Colo., on January 11, 1978.

M. M. MARTIN,
Director, Rocky
Mountain Region.

[4910-13]

{Airspace Docket No. 77-RM-16}

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Establishment of Control Zone

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes a control zone at Gillette, Wyo. This establishment is necessary to protect the published instrument approach at Gillette-Campbell County Airport, Gillette, Wyo. The prerequisites for the establishment of a control zone, communications capability and weather reporting, have now been met.

EFFECTIVE DATE: 0901 G.m.t., March 23, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. David M. Laschinger, Operations, Procedures, and Airspace Branch, Air Traffic Division, ARM-500, Federal Aviation Administration, Rocky Mountain Region, 10455 East 25th Avenue, Aurora, Colo. 80010; telephone 303-837-3937.

SUPPLEMENTARY INFORMATION:

HISTORY

On November 25, 1977, the FAA published, for comment, a proposal to establish a control zone at Gillette, Wyo. (42 FR 60159). The only comments received expressed no objections.

THE RULE

This amendment to Part 71 of the Federal Aviation Regulations (FAR's) establishes a control zone at Gillette, Wyo.

Gillette, Wyo. has recently acquired communications capabilities supporting the establishment of a control zone to protect the VOR runway 15 standard instrument approach procedure.

DRAFTING INFORMATION

The principal authors of this document are Mr. Dave Laschinger, Operations, Procedures, and Airspace Branch, Air Traffic Division, and Mr. Daniel J. Peterson, Office of Regional Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended effective March 23, 1978, as follows:

By amending Subpart F, 71.171 so as to establish the following control zone:

GILLETTE, WYO.

"Within a 5-mile radius of the Gillette-Campbell County Airport (latitude 44°20'52" N., longitude 105°32'34" W.). This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective time will thereafter be continuously published in the Airman's Information Manual.

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Aurora, Colo., on January 11, 1978.

M. M. MARTIN,
Director,
Rocky Mountain Region.

RULES AND REGULATIONS

[6355-01]

Title 16—Commercial Practices

CHAPTER II—CONSUMER PRODUCT SAFETY COMMISSION

SUBCHAPTER D—FLAMMABLE FABRICS ACT REGULATIONS

PART 1615—STANDARD FOR THE FLAMMABILITY OF CHILDREN'S SLEEPWEAR: SIZES 0 THROUGH 6X (FF 3-71)

PART 1616—STANDARD FOR THE FLAMMABILITY OF CHILDREN'S SLEEPWEAR: SIZES 7 THROUGH 14 (FF 5-74)

Final Rules

AGENCY: Consumer Product Safety Commission.

ACTION: Final rules.

SUMMARY: In this document the Commission issues final rules amending the Standards for the Flammability of Children's Sleepwear: Sizes 0 through 6X (FF 3-71) and 7 through 14 (FF 5-74) and rules and regulations under those standards affected by the amendments. The amendments delete requirements for residual flame time (RFT) in FF 3-71 and revise the method of testing trim in both FF 3-71 and FF 5-74. The Commission issues these amendments to reduce the necessity for the use of chemical flame retardants on fiber and fabric used in children's sleepwear as a result of the recent national concern over the addition of the chemical tris (2,3 dibromopropyl) phosphate (TRIS), a potential carcinogen, to children's sleepwear fabrics and garments. In addition, the Commission issues these amendments because after considering the proposal, the oral and written comments and other relevant matter it believes the provisions deleted and revised are not needed to protect the public adequately against unreasonable risk of the occurrence of fire leading to death, injury, or significant property damage. The Commission is not amending FF 3-71 to delete requirements for garments under size 1.

EFFECTIVE DATE: The amendments shall take effect February 6, 1978.

FOR FURTHER INFORMATION CONTACT:

H. Elizabeth Jones, Directorate of Compliance and Enforcement, Consumer Product Safety Commission, Washington, D.C. 20207, 301-492-6617.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On October 26, 1977, by publication of a notice in the FEDERAL REGISTER (42 FR 56568), the Commission proposed amendments to the Standards for the Flammability of Children's Sleepwear for Sizes 0 through 6X (FF

3-71) (16 CFR Part 1615) and Sizes 7 through 14 (FF 5-74) (16 CFR Part 1616). These standards were issued as a result of deaths and burn injuries to children from fires involving sleepwear. The standards require that children's sleepwear in sizes 0-6X and 7-14 and fabric intended for such sleepwear meet certain flammability test requirements. The proposed amendments would have deleted the requirement for residual flame time testing and criteria in FF 3-71, exempted garments in sizes below size one from FF 3-71, and revised the method of testing trim in both FF 3-71 and FF 5-74.

Although the standards do not require that chemicals be added to garments or fabric to meet the standards, some manufacturers have added chemical flame retardants to some fibers or fabrics to ensure that sleepwear garments produced from these fibers or fabrics consistently comply with the standards. Because of recent national concerns over the addition of the chemical TRIS, a potential carcinogen, and Fyrol FR-2 to children's sleepwear garments and fabrics, the Commission expedited a previously planned but not started review of the standards for the flammability of children's sleepwear. The Commission's review led to the proposed amendments to the sleepwear standards which the Commission believed would reduce the need for adding chemical flame retardants to a number of fabrics and fibers used in children's sleepwear while generally maintaining the level of protection against fire afforded by these standards.

In seeking ways to reduce the need for the use of chemical flame retardants in children's sleepwear, the Commission does not mean to imply that chemical flame retardants as a general class are not safe. However, the issue of whether any chemical is or can be a carcinogen or a mutagen concerns a rapidly changing and developing area of technology. Chemicals that are assumed to be safe one day, may be shown later to be suspect as new and more sophisticated test methodologies are developed. The Commission believes that it is desirable and beneficial to take any action it can to reduce the need to add chemicals to children's sleepwear for purposes of flame retardancy if that action does not unduly reduce the level of safety afforded by the sleepwear standards. Such action could also make available to consumers a wider selection of fabric for children's sleepwear at a lower average cost.

The amendments were not proposed solely to reduce the need for adding chemical flame retardants to material used in children's sleepwear. In determining to propose the amendments, the Commission also considered other factors such as injury data pertinent

to the provisions of the standards that are affected by the amendments, the potential for injury if the standards are amended as proposed, the desirability of increasing consumer choice as to the types of fabric used in children's sleepwear garments, and the possibility of reducing the average cost of children's sleepwear garments. The Commission in balancing all of the factors considered, preliminarily determined that issuance of the proposed amendments would not result in an unreasonable risk of the occurrence of fire leading to death, injury, or significant property damage and that the proposed amendments were reasonable and appropriate.

The Commission proposed an amendment to delete the requirements for residual flame time (RFT) from FF 3-71. That requirement, which does not appear in FF 5-74, addresses the situation where flaming material from a burning garment melts and falls or drips (melt drip) onto another portion of the garment or a different garment or textile item, and causes it to ignite; or falls on the individual wearing the garment, resulting in a burn. A requirement for residual flame time was not included in FF 5-74 on the basis that older children are better able than younger children to protect themselves in case of a garment ignition. The Commission proposed to delete this requirement from FF 3-71 because it expected that the deletion would not substantially affect the safety level now provided by the standard, would decrease the need for adding chemical flame retardants to a number of fibers and fabrics to comply with the standard and would increase consumer choice by making more types of fabrics available. The amendment would primarily affect man-made fibers, such as nylon and polyester, and would allow a number of fabrics produced from these fibers to pass the standard without the addition of chemical flame retardants.

Trim is currently tested under both FF 3-71 and FF 5-74 in a vertical mode, which is the most stringent test position. The purpose of the trim test is to determine the flammability hazard associated with fabric/trim combinations to be used in children's sleepwear.

The proposed amendments to the trim testing requirements of both standards would provide a revised procedure for testing trim that is placed in a horizontal configuration on garments. Such trim would be tested in a horizontal position rather than a vertical position. The Commission proposed the amendments because mannequin and other laboratory tests indicate that when trim is used in a horizontal mode on the garment, testing in a horizontal rather than a vertical configuration is more representative

of the burning exhibited by the garment. The Commission, therefore, concluded that trim used in a horizontal position on sleepwear garments should be tested in that position and that the revision of the trim testing requirement should increase consumer choice as to the amount and type of trim available on garments.

The Commission proposed the amendment to exempt sizes below one from FF 3-71 because burn injury data associated with garments in those sizes available at the time of proposal indicated that the safety level now provided by the standard would not be substantially reduced, the exemption would permit the use of more non-chemically treated fabrics, would increase consumer choice as to the types of fabrics available for use in those garments, and could result in reduced average retail prices for children's sleepwear garments in these sizes. The Commission in proposing the amendment also stated that it was considering requiring that noncomplying sleepwear in sizes below one be labeled to state that it does not comply with FF 3-71 and specifically asked for comment on this issue.

In addition, the Commission proposed that the three amendments be effective immediately and sought comment on this issue.

COMMENTS ON PROPOSAL

Section 4(d) of the Flammable Fabrics Act (15 U.S.C. 1193(d)) requires that, in addition to providing an opportunity for making written submissions on a proposed amendment to a standard, the Commission shall provide interested persons with an opportunity for the oral presentation of data, views, or arguments. Oral presentations of behalf of 15 persons or organizations, on the proposed amendments, were heard by the Commission on November 16, 1977. In addition, 141 written comments were received by the end of the comment period on November 26, 1977, and more than 100 comments were filed after the end of the comment period. The late comments have been considered to the extent practicable.

The significant issues raised by the oral and written comments are discussed below.

RESIDUAL FLAME TIME

Comments concerning the proposed amendment to delete the requirement for RFT in FF 3-71 were received from individual members of the National Advisory Committee for the Flammable Fabrics Act, representatives of the textile and apparel industry, representatives of the medical profession, retailers, trade associations and consumers. A large majority of these comments supported the proposed amendment.

When a fabric made of a thermoplastic man-made fiber, such as nylon or polyester, is subjected to a flame, the material frequently ignites and/or melts. This material may fall away as a drop (melt drip) or as a section of fabric and may continue to burn. Residual flame time is defined in FF 3-71 as the time the flaming drip or fabric fragment continues to burn on the base of the test cabinet after the ignition source has been removed from the test specimen. Any individual specimen that exhibits an RFT of more than 10 seconds fails the test criteria in FF 3-71.

Those commenters supporting the amendment to FF 3-71 to delete the requirement for RFT generally did so on the grounds that the amendment would reduce the need for the use of chemical flame retardants on children's sleepwear and would not substantially affect the level of safety now provided by the standard. Those persons supporting the amendment also stated that it would increase consumer choice by making more fabrics available for use in sleepwear garments and would lower on the average manufacturing costs and thereby garment prices.

Those commenters opposing the amendment to FF 3-71 to delete the requirement for RFT did so for a number of reasons. Several of these commenters stated that when FF 3-71 was originally issued by the Department of Commerce in 1971, the provision for RFT was included in order to give the greatest possible protection to small children because they cannot protect themselves. These commenters argued that flaming melt drip is a hazard in that it can cause severe localized burns, and flaming melt drip can burn parts of the body that are not adjacent to the burning sections of the garment. In addition, they stated that flaming melt drip can serve as an ignition source for other fabrics or materials. They further contended that no new data or facts have been developed since FF 3-71 was originally issued that justify eliminating the requirement for RFT and that the elimination of RFT will lower the safety level now provided by the standard. These commenters also argued that elimination of RFT could result in the use of fibers in children's sleepwear garments that have particularly bad flaming melt drip characteristics.

Manufacturers of fibers referred to, by them, as inherently flame resistant argued that there are sufficient quantities of these fibers available to meet the demand for fabrics that comply with the RFT requirements of FF 3-71. They contended that elimination of the RFT requirement is not necessary to reduce the use of chemical flame retardants in children's sleepwear because inherently flame resis-

tant fibers are available in sufficient quantities. Thus, they contended there is no need for a trade-off in safety because there is no necessity for using chemical flame retardants. Further they contended that elimination of the RFT requirement would decrease consumer choice by driving out of the market the more expensive inherently flame resistant fibers.

The Commission recognizes that the provision for RFT was included in FF 3-71 to address the phenomenon of "flaming melt drip" whereby material from a burning garment made of man-made fibers could melt and fall or drip onto another portion of the garment, onto a different garment or textile item causing it to ignite, or on the individual wearing the garment, resulting in a burn. The Commission recognizes that flaming as well as nonflaming melt drip has the potential to cause injury.

Very little injury data is available which focuses on flaming and non-flaming melt-drip. Data in the Flammable Fabrics Accident Case and Testing System (FFACTS) as of July 1975, when the system became inactive, shows 4,172 cases of which 714 involved sleepwear. Of the sleepwear cases, 312 involved children through the age of 12. In 12 of these cases it was reported that the sleepwear garment melted or dripped. In two of these cases it was stated that the melted fabric adhered to the skin of the victims, which contributed to or caused the burn injury. The garment in one of the two cases was chemically flame retarded. In two other cases, it was stated that the garment melted, adhering to the clothing worn underneath, but did not appear to contribute to the victim's injuries. In the eight remaining cases, the relationship of melt-drip to the injury was not specified.

Physicians treating children in burn centers in Boston, Mass. and Galveston, Tex., while acknowledging the potential for melt drip to cause burn injury stated in their comments on the proposal that they did not consider melt drip to be a significant factor in injury severity.

The lack of reported injury cases resulting from melt drip cannot necessarily be attributed to the RFT requirements in FF 3-71 as suggested by several commenters. The requirement does not eliminate flaming melt drip but rather limits the flame to 10 seconds. Thus, the RFT requirement does not eliminate the potential for injury from either non-flaming drips or molten polymer, both of which would result in burns on contact with the skin. Moreover, there is also a lack of reported injuries resulting from melt-drip in garments subject to FF 5-74, which has no requirement for RFT. Elimination of the RFT provision as in

FF 3-71 is not expected to increase the number or severity of these injuries.

One industry commenter submitted to the Commission a number of questionnaire sheets filled out by attorneys handling clothing burn cases. The responses on a number of the questionnaires indicated that the garment involved in the litigation melted and dripped and that the melt drip aggravated the injury. In addition a number of the responses on the questionnaires stated that cotton garments melted and dripped thus aggravating the injury even though cotton garments from a technological standpoint cannot melt and drip. None of the responses to the questions were supported by any technical data.

Other data submitted to the Commission in response to the proposed amendments supported the conclusion that injuries caused by melt drip are not particularly severe and, therefore, do not present an unreasonable risk. In experiments conducted on anesthetized shaved rats and pigs, it was shown that the extent of the injury due to both flaming and non-burning melt drip was limited. In the experiments conducted on the shaved rats, the size of the injury never exceeded $\frac{1}{4}$ to $\frac{1}{2}$ square inches and the severity did not exceed second degree burns. In the experiments with the pig skin, the area and severity of the burn were similarly limited.

These studies indicate that when a melt drip injury occurs, it is usually a localized second degree burn. Such burns, while causing painful localized trauma at the time of the burn, are not likely to cause long lasting physical and psychological damage.

An importer of inherently flame resistant fiber submitted a film to the Commission, purportedly demonstrating the hazard posed by melt drip. This film was designed to demonstrate the resistance of fabrics and garments produced from the inherently flame resistant fiber to both large and small ignition sources. The film accomplishes the purpose. Part of the film demonstrated the effect of a large sustained flaming ignition source on selected fabrics, including one sample of polyester. The polyester fabric shrank from the flame, melted and dripped. This is to be expected with the large, sustained ignition source used. The phenomenon depicted in the film however, has little relationship to the sleepwear fires being addressed by the standards, where the ignition source is usually a small flame such as that from a match or lighter, and of short duration.

In determining whether it is reasonable to delete the RFT provision in FF 3-71 addressing flaming melt drip, the Commission considers factors in addition to the reduction of hazard. It also considers such factors as manufactur-

ing costs, retail prices, garment performance, consumer choice, and the supply of fabric that does not require the addition of a chemical flame retardant.

The Commission believes, on the basis of information provided in the comments and other available information, that amending FF 3-71 to delete the RFT requirement would result in an increase in the amount of untreated polyester and nylon fabric that could be used in garments subject to that standard. When the children's sleepwear standard was first promulgated, some polyester and nylon fabrics were found to occasionally fail the RFT requirement. This problem was overcome by treatment of these fabrics with chemical flame retardants. Elimination of the RFT requirement will permit many of these polyester and nylon fabrics to comply with the standard, without chemical flame retardant treatment.

Suppliers of inherently flame resistant fibers and yarn indicated that there are adequate quantities of inherently flame resistant material available to supply the children's sleepwear market with fabric that complies with FF 3-71. They therefore argue that no garments need be produced that have chemical flame retardants added. It is the Commission's view, however, that while inherently flame resistant fabric may indeed be available in adequate quantities to supply the children's sleepwear market, elimination of the RFT provision will allow the use of additional nonchemical flame retardant treated fabrics in children's sleepwear in those sizes subject to FF 3-71. It is the Commission's view, at this time, that any action it can take that would further reduce the necessity for adding flame retardant chemicals to children's sleepwear while, at the same time, making the widest possible selection of fabrics available without substantially affecting the level of safety afforded by the sleepwear standards, is desirable and beneficial. In this connection, the Commission notes that even fabric referred to in the trade as "inherently flame resistant" may have chemicals added for the purpose of flame retardancy at some stage of production of the fiber.

In considering whether to amend FF 3-71 to delete requirements for RFT, the Commission has also considered the potential effect of this action on the cost of sleepwear garments. Data before the Commission indicates that elimination of the RFT provision will allow garment manufacturers to use lower priced (untreated) fabric in their manufacturing process. This could result in lower average retail prices for children's sleepwear than would be the case without the amendment. While cost reduction alone is not, in the Commission's view, an adequate

reason to eliminate the RFT requirement in the standard, it is one of the factors considered by the Commission.

Several suppliers of inherently flame resistant fibers have expressed the opinion that if the RFT requirement is deleted, inherently flame resistant fibers will not be competitive with untreated polyester fibers because they will cost more and, therefore, will no longer be used in children's sleepwear. It appears to the Commission, on the basis of data submitted in the comments and other available information, that the share of the children's sleepwear market a fiber obtains and holds does not depend on the price of the fiber alone. Inherently flame resistant fibers have found their way into the children's sleepwear market during the last several years, even though their prices have been in the upper end of the prevailing price range for this market. Thus, anticipated price changes as a result of the elimination of RFT from FF 3-71 do not appear to be sufficient cause to exclude any fiber from the sleepwear market.

On the basis of the limited injury data available which can be directly attributed to melt drip, the relative low severity of such injuries, the likelihood of increasing the selection while reducing average retail prices of fabrics and garments that will be available to consumers if the requirements for RFT are deleted, and the likely availability of additional types of fabrics that can meet the requirements of FF 3-71 without the addition of chemical flame retardants, the Commission determines that the RFT requirement in FF 3-71 is not needed for the standard to adequately protect the public against unreasonable risk of the occurrence of fire leading to death, injury or significant property damage. Accordingly, the Commission amends FF 3-71 to delete the requirement for residual flame time as set forth below. The Commission will monitor the results of this amendment to determine its effect on sleepwear burn injuries. If burn injury or other information is found indicating a reduction in the safety level of the standard as a result of elimination of the RFT requirement, the Commission will reevaluate this amendment and after evaluating the factors discussed above consider further amendment of FF 3-71 regarding RFT.

Section 1615.4(a) of the FF 3-71 concerning the test chamber provides that a piece of asbestos paper be used to catch any melt drip and that this paper be changed after each specimen which drips has been tested. In view of the Commission's decision to delete the requirement for RFT which addresses melt drip, this procedure is no longer necessary and therefore has been eliminated from the Standard.

DELETION OF COVERAGE FOR SLEEPWEAR IN SIZES BELOW SIZE ONE

Comments concerning the proposal to amend FF 3-71 to exempt coverage of sleepwear in sizes below size one were received from individual members of the National Advisory Committee for the Flammable Fabrics Act, representatives of the textile and apparel industry, representatives of the medical profession, retailers, trade associations and consumers.

The Commission, on the basis of the oral and written comments, data compiled by the Commission staff concerning burn injuries involving children under 12 months of age, and other relevant material, voted 2-1 against issuing this proposed amendment.

The Consumer Product Safety Act provides that the Commission shall consist of 5 Commissioners and that 3 Commissioners constitute a quorum for transaction of business. There are currently 2 vacancies on the Commission. The internal voting procedure of the Commission presently requires that the Commission may not take action on a matter if there is a dissenting vote, although the Commission may act if two Commissioners vote to do so and one Commissioner abstains. Because the Commission voted 2 to 1 on the question of issuing the amendment exempting sleepwear garments in sizes less than one, no action can be taken to issue or withdraw the amendment at this time. This amendment may be further considered when additional Commissioners join the Commission.

TRIM TESTING

Comments concerning the proposed amendment to revise the method for testing trim in FF 3-71 and FF 5-74 were received from individual members of the National Advisory Committee for the Flammable Fabrics Act, representatives of the textile industry, representatives of the medical profession, retailers, trade associations and consumers. A large majority of these comments supported the proposed amendment.

The proposed amendment would allow manufacturers who are producing sleepwear garments with the garment trim in a horizontal configuration to test that trim for flammability in a horizontal mode on the test specimen, rather than in the more severe vertical configuration on the test specimen.

Those persons supporting the amendment to FF 3-71 and FF 5-74 to modify the method of testing trim did so generally on the grounds that the amendments would reduce the need for the use of chemical flame retardants in trim used on sleepwear and would not substantially affect the level of safety now provided by the

standards. They also stated that the standards as modified would continue to address hazards presented by burning trim as it occurs in real life situations, and would increase consumer choice in garment design and fabric availability.

Those persons who opposed the proposed amendment did so generally on the basis that the amendment would decrease the level of safety now provided to consumers. Several commenters stated that the change was not necessary because inherently flame resistant fibers were available for trim that would comply with the standards when tested in a vertical test mode.

It is the view of the Commission that testing trim in a horizontal configuration rather than in a vertical configuration is more representative of the burning characteristics of trim used on sleepwear garments in a horizontal mode. The Commission on the basis of laboratory tests, conducted by Clemson University on behalf of a garment manufacturer believes that the level of safety afforded by the standards will not be affected by this amendment. In those tests nightgowns were constructed from fabric commonly used to make children's sleepwear. These nightgowns were trimmed with lace produced from nylon, polyester and cotton, and self fabric ruffle.

The garments were then burned to determine the effect of the trim on the flammability of the garments. Based on these tests, the flammability hazard for trim used in a horizontal configuration was judged to be small, much less than that of trim in a vertical configuration. Therefore, testing of trim in a horizontal configuration on the test specimen, where the trim is used horizontally on the sleepwear garment and in a vertical configuration on the test specimen when the trim is to be used vertically on the sleepwear garment appears to provide a better assessment of the flammability hazard involved than does the current procedure in the standard which requires all trim to be tested in a vertical configuration. Further, testing in this manner is expected to have a minimal effect on the level of safety provided by the standards.

While inherently flame resistant fibers may be available for use in trim, the amendment will result in an increase in the amount and type of trim available for use on sleepwear garments. It should also reduce the need for chemical flame retardant treatment of trim. This issue is discussed in more detail under the heading "Residual Flame Time" above.

In view of the foregoing, the Commission concludes that FF 3-71 and FF 5-74 should be amended by revising the trim test procedures to allow testing of trim in a horizontal configura-

tion on a test specimen where the trim is to be used horizontally on the sleepwear garments. The Commission also concludes that a vertical test method for trim used on sleepwear garments in a horizontal position is not necessary to adequately protect the public against unreasonable risk of the occurrence of fire leading to death or injury.

As in the case of the RFT and sizes below one amendments, the results of the trim test modification will be monitored to determine the effect of the amendment on sleepwear injuries. If burn injuries or other information are found indicating a reduction in the safety level of the standards as a result of the test modification, the Commission will reevaluate this amendment and after analyzing the factors discussed above, consider further amendment of FF 3-71 and FF 5-7 regarding trim testing.

EFFECTIVE DATE

Comments concerning when the proposed amendments should be effective if issued by the Commission were received from individual members of the National Advisory Committee for the Flammable Fabrics Act, representatives of the textile industry, representatives of the medical profession, retailers, and trade associations. In all but a few of the comments, it was recommended that the amendments be effective immediately after promulgation of the amendment. One commenter suggested that the amendments be effective three months after they are issued in order to allow industry to adapt to the amendments and to allow existing inventories of fabrics to be depleted. Another commenter suggested that the amendments be effective one year after promulgation in order to permit the industry to adapt to the amendments.

As discussed above, the Commission has determined that the provisions of the sleepwear standards affected by the amendments are not needed to adequately protect the public against an unreasonable risk of the occurrence of fire leading to death, injury, or significant property damage. This determination is based in part on the expectation that the amendments are likely to result in the availability of additional types of fabrics for use in sleepwear garments that can meet the requirements of the standards without the addition of chemical flame retardants, and a possible decrease in the average cost of children's sleepwear, while maintaining the level of safety now provided by the standard.

In view of the foregoing, the Commission finds that it is in the public interest that the amendments be made effective upon their publication in the FEDERAL REGISTER. Therefore, on or after that date any sleepwear gar-

ment, no matter when manufactured or introduced into commerce, that complies with the standard as amended may be sold. Moreover, since the amendments relieve restrictions, or in the case of sizes below one, grant an exemption, the Commission finds, in accordance with 5 U.S.C. 553(d), that it is not necessary to delay the effective date of the amendments in order for the textile industry to adapt to them.

ENVIRONMENTAL CONSIDERATIONS

In proposing the amendments to FF 3-71 and FF 5-74 the Commission concluded that the proposed amendments are expected to reduce the use of chemical flame retardants, and that this reduction should in general have beneficial impacts on the environments. The Commission received no comments on this issue and reaffirms the conclusion made in the proposal.

OTHER COMMENTS

The Commission received a number of comments involving issues not directly related to the proposed amendments. These comments involve matters such as flammability standards in general and revisions to the sampling plan included in the standard. The Commission will consider these comments in the context of its fire-burn program and will take any action on the issues raised it considers appropriate.

CONCLUSION AND ISSUANCE

The Commission has considered the published proposal, the oral and written responses, to the proposal and other relevant material. Based on its analysis as discussed above, the Commission amends the Standards for the Flammability of Children's Sleepwear, FF 3-71 and FF 5-74, to delete the requirement in FF 3-71 for residual flame time and to revise the method of testing trim in both FF 3-71 and FF 5-74.

Therefore, pursuant to provisions of the Flammable Fabrics Act as amended (Pub. L. 90-189, see 4(a), 4(b), 81 Stat. 569; U.S.C. 1193(a)(b), 1201, and under authority vested in the Commission by the Consumer Product Safety Act (Pub. L. 92-573, sec. 30(b), 86 Stat. 1231; 15 U.S.C. 2079(b), 16 CFR 1615 and 1616 are amended as follows:

1. Section 1615.1 is amended as shown below:

Sections 1615.1 (e) is amended and (g) is reserved to read as follows:

§ 1615.1 Definitions.

• • • • •

(e) "Test Criteria" means the maximum char length which a sample or

specimen may exhibit in order to pass an individual test.

• • • • •
(g) [Reserved].

§ 1615.3 [Amended]

2. Section 1615.3(a) is amended and (b) (3) is deleted as shown below:

(a) *Summary of Test Method.* Five conditioned specimens, 8.9 x 25.4 cm. (3.5 x 10 in.), are suspended one at a time vertically in holders in a prescribed cabinet and subjected to a standard flame along their bottom edge for a specified time under controlled conditions. The char length is measured.

(b) • • •
(3) [Deleted].

§ 1615.4 [Amended]

3. Section 1615.4(a) is amended as follows:

(a) *Apparatus—(1) Test Chamber.* The test chamber shall be a steel cabinet with inside dimensions of 32.9 cm. (12 7/8 in.) wide, 32.9 cm. (12 7/8 in.) deep, and 76.2 cm. (30 in.) high. It shall have a frame which permits the suspension of the specimen holder over the center of the base of the cabinet at such a height that the bottom of the specimen holder is 1.7 cm. (2/3 in.) above the highest point of the barrel of the gas burner specified in paragraph (c) of this section and perpendicular to the front of the cabinet. The front of the cabinet shall be a close fitting door with a glass insert to permit observation of the entire test. The cabinet floor may be covered with a piece of asbestos paper, whose length and width are approximately 2.5 cm. (1 in.) less than the cabinet floor dimensions. The cabinet to be used in this test method is illustrated in Figure 1 and detailed in Engineering Drawings, Nos. 1 to 7.

4. Section 1615.4(b) (2) is amended as follows:

(b) • • •
(1) • • •

(2) Different colors or different print patterns of the same fabric may be included in a single Fabric or Garment Production Unit, provided such colors or print patterns demonstrate char lengths that are not significantly different from each other as determined by previous testing of at least three samples from each color or print pattern to be included in the Unit.

5. Section 1615.4(c) (1) and (3) are amended as follows:

(c) • • •

(1) *Normal Sampling.* Select one Sample from the beginning of the first Fabric Piece (Piece) in the Unit and one Sample from the end of the last Piece in the Unit, or select a sample from each end of the Piece if the Unit is made up of only one Piece. Test the

two selected Samples. If both Samples meet all the Test Criteria of § 1615.3(b), accept the unit. If either or both of the Samples fail the 17.8 cm. (7.0 in.) average char length criterion, § 1615.3(b)(1), reject the Unit. If two or more of the individual specimens, from the 10 selected specimens fail, the 25.4 cm. (10 in.) char length, § 1615.3(b)(2), select five additional specimens from the same end of the Piece in which the failure occurred, all five to be taken in the fabric direction in which the specimen failure occurred. If this additional Sample passes all the test criteria, accept the Unit. If this additional Sample fails any part of the test criteria, reject the Unit.

(2) • • • • •
(3) *Tightened Sampling.* The level of sampling required for acceptance shall be increased when a Unit is rejected under the Normal Sampling plan. The Tightened Sampling shall be the same as Normal Sampling except that one additional Sample shall be selected and cut from a middle Piece in the Unit. If the Unit is made up of less than two pieces, the Unit shall be divided into at least two Pieces. The division shall be such that the Pieces produced by the division shall not be smaller than 100 linear yards or greater than 2,500 linear yards. If the unit is made up of two Pieces, the additional Sample shall be selected from the interior end of one of the Pieces. Test the three selected Samples. If all three selected Samples meet all the test criteria of § 1615.3(b), accept the unit. If one or more of the three selected Samples fail the 17.8 cm. (7.0 in.) average char length criterion, § 1615.3(b)(1), reject the Unit. If two or more of the individual specimens from the 15 selected specimens fail the 25.4 cm. (10 in.) char length, § 1615.3(b)(2), reject the unit. If only one individual specimen, of the 15 selected Specimens fails the 25.4 cm. (10 in.) char length, § 1615.3(b)(2), select five additional specimens from the same end of the same piece in which the failure occurred, all five to be taken in the fabric direction in which the Specimen failure occurred. If this additional Sample passes all the test criteria, accept the Unit. If this additional Sample fails any part of the test criteria, reject the Unit. Tightened Sampling may be discontinued and Normal Sampling resumed after five consecutive Units have all been accepted using Tightened Sampling. If Tightened Sampling remains in effect for 15 consecutive units, production of the specific fabric in Tightened Sampling must be discontinued until that part of the process or component which is causing failure has been identified and

the quality of the end product has been improved.

6. Section 1615.4(c)(4)(iv) is amended as shown below:

(c) • • • • •
(4) • • • • •

(iv) Select and cut a Sample from each end of each adjoining Piece beginning adjacent to the Piece which failed. Test the two Samples from the Piece. If both Samples meet all the test criteria of § 1615.3(b), the Piece is acceptable. If one or both of the two selected Samples fail the 17.8 cm. (7.0 in.) average char length criterion, § 1615.3(b)(1), the Piece is unacceptable. If two or more of the individual Specimens, from the 10 selected specimens, fail the 25.4 cm. (10 in.) char length, § 1615.3(b)(2), select five additional specimens from the same end of the Piece in which the failure occurred, all five to be taken in the fabric direction in which the specimen failure occurred. If this additional Sample passes all the test criteria, the Piece is acceptable. If this additional Sample fails any part of the test criteria, the Piece is unacceptable.

7. Section 1615.4(c)(4)(vi) is amended as shown below:

(c) • • • • •
(4) • • • • •

(vi) Alternatively, individual Pieces from a rejected Unit containing three or more Pieces may be tested and accepted or rejected on a Piece-by-Piece basis according to the following plan, after removing the Piece or Pieces, the failure of which resulted in Unit rejection. Select four Samples (two from each end) from the Piece. Test the four selected Samples. If all four Samples meet all the Test Criteria of § 1615.3(b), accept the Piece. If one or more of the Samples fail the 17.8 cm. (7 in.) average char length criterion, § 1615.3(b)(1), reject the Piece. If two or more of the individual Specimens from the 20 selected specimens, fail the 25.4 cm. (10 in.) char length, § 1615.3(b)(2), select two additional Samples from the same end of the Piece in which the failure occurred. If these additional two Samples meet all the Test Criteria of § 1615.3(b), accept the Piece. If one or both of the two additional Samples fail any part of the Test Criteria, reject the Piece.

8. Section 1615.4(d)(2)(i) is amended as shown below:

(d) • • • • •
(2) • • • • •

(i) *Seams.* Make three Samples (15 specimens) using the longest seam type and three Samples using each other seam type 10 inches or longer that is to be included in the garment. Prior to testing, assign each specimen to one of the three Samples. Test each set of three Samples and accept or reject each seam design in accordance with the following plan:

(A) If all three Samples meet all the test criteria of § 1615.3(b), accept the seam design. If one or more of the three Samples fail the 17.8 cm. (7 in.) average char length criterion, § 1615.3(b)(1), reject the seam design. If three or more of the individual Specimens from the 15 selected specimens fail the 25.4 cm. (10 in.) char length, § 1615.3(b)(2), reject the seam design. If only one of the individual specimens from the 15 selected specimens fails the 25.4 cm. (10 in.) char length, § 1615.3(b)(2), accept the seam design.

(B) If two of the individual specimens from the 15 selected specimens, fail the 25.4 cm. (10 in.) char length, § 1615.3(b)(2), select three more Samples (15 specimens) and retest. If all three additional Samples meet all the test criteria of § 1615.3(b) accept the seam design. If one or more of the three additional Samples fail the 17.8 cm. (7 in.) average char length criterion, § 1615.3(b)(1), reject the seam design. If two or more of the individual specimens from the 15 selected specimens, fail the 25.4 cm. (10 in.) char length, § 1615.3(b)(2) reject the seam design. If only one of the individual specimens from the 15 selected specimens, fails the 25.4 cm. (10 in.) char length § 1615.3(b)(2) accept the seam design.

9. Section 1615.4(d)(2)(ii) (A) and (B) are revised as shown below:

(d) • • • • •
(2) — • • • • •

(ii) *Trim (A)(1)* Make three samples (15 specimens) from each type of trim to be included in the garment. For trim used only in a horizontal configuration on the garment, specimens shall be prepared by sewing or attaching the trim horizontally to the bottom edge of an appropriate section of untrimmed fabric. Sleeve and neckline trim may not be tested in this manner. Where more than one row of trim is used on the garment, specimens shall be prepared with the same configuration (same number of rows and spacing between rows up to the limit of the specimen size) as the garment.

(2) For trim used in other than a horizontal configuration, specimens shall be prepared by sewing or attach-

ing the trim to the center of the vertical axis of an appropriate section of untrimmed fabric, beginning the sewing or attachment at the lower edge of each specimen.

(3) For either configuration, the sewing or attachment shall be made in the manner in which the trim is attached in the garment.

(B)(1) Sewing or otherwise attaching the trim shall be done with thread or fastening material of the same composition and size to be used for this purpose in the garment and using the same stitching or seamtype. Trim used in the horizontal configuration shall be sewn or fastened the entire width (smaller dimension) of the specimen. Trim used in other than the horizontal configuration shall be sewn or fastened the entire length (longer dimension) of the specimen.

(2) Prior to testing, assign each specimen to one of the three samples. Test the sets of three samples and accept or reject the type of trim and design on the same basis as seam design. A type of trim and design accepted when tested in a vertical configuration may be used in a horizontal configuration without further testing.

10. Section 1615.4(d)(3)(i)(A) is amended as shown below:

(d) • • • • •
(3) • • • • •

(i)(A) From each Unit select at random sufficient garments and cut three Samples (15 specimens) from the longest seam type. No more than five specimens may be cut from a single garment. Prior to testing, assign each specimen to one of the three Samples. All specimens cut from a single garment must be included in the same Sample. Test the three selected Samples. If all three Samples meet all the test criteria of § 1615.3(b), accept the Unit. If one or more of the three Samples fail the 17.8 cm. (7 in.) average char length criterion, § 1615.3(b)(1), reject the Unit. If four or more of the individual specimens, from the 15 selected specimens, fail the 25.4 cm (10 in.) char length, § 1615.3(b)(2), reject the Unit. If three or less of the individual specimens, from the 15 selected specimens, fail the 25.4 cm. (10 in.) char length, § 1615.3(b)(2), accept the Unit.

11. Section 1615.4(d)(3)(i)(B)(3) is amended as shown below:

(d) • • • • •
(3) • • • • •

(3) Test the three Samples. If all three Samples pass the 17.8 cm. (7 in.) average char length criterion, § 1615.3(b)(1), and if three or less individual specimens fail by charring the entire specimen length, accept the Unit. If the Unit is not accepted in the above test, three Samples (15 specimens) of the longest seam type shall be made using fabric and thread from

production inventory and sewn on production machines by production operators. The individual fabric sections prior to sewing must be no larger than 20.3 x 63.3 cm. (8 in. x 25 in.) and must be selected from more than one area of the base fabric. Test the three prepared Samples. Accept or reject the Unit as described previously in this subsection.

12. Section 1615.4(g)(2)(i) is amended as shown below:

(g) • • • • •

(2) *Specimen Burning and Evaluation.* (i) One at a time, the mounted specimens shall be removed from the desiccator and suspended in the cabinet for testing. The cabinet door shall be closed and the burner flame impinged on the bottom edge of the specimen for 3.0±0.2 seconds. Flame impingement is accomplished by moving the burner under the specimen for this length of time, and then removing it.

12. Section 1615.4(g)(3) is amended as shown below:

(g) • • • • •

(3) *Report.* Report the value of char length, in centimeters (inches), for each specimen, as well as the average char length for each set of five specimens.

Subpart B—Rules and Regulations

Section 1615.31 is amended as shown below:

13. Section 1615.31(e)(1)(iii) is amended as shown below:

(e) • • • • •
(1) • • • • •

(iii) Test results and details of all tests performed, both prototype and production, including char lengths of each specimen tested, average char length of the samples required to be tested, details of the sampling procedure employed, name and signature of persons conducting tests, date of tests, and all other records necessary to demonstrate compliance with the test procedures and sampling plan specified by the standard or authorized alternate sampling plan.

14. Section 1616.4(c)(2)(ii) (A) and (B) are revised as shown below:

§ 1616.4 Sampling and Acceptance Procedures.

(c) • • • • •
(2) • • • • •

(ii) *Trim (A)* Make three samples (15 specimens) from each type of trim to be included in the garment. For trim used only in a horizontal configuration on the garment, specimens shall be prepared by sewing or attaching the trim horizontally to the bottom edge of an appropriate section of untrimmed fabric. Sleeve and necking trim may not be tested in this manner. Where more than one row of trim is

used on the garment, specimens shall be prepared with the same configuration (same number of rows and spacing between rows up to the limit of the specimen size) as the garment. For trim used in other than a horizontal configuration, specimens shall be prepared by sewing or attaching the trim to the center of the vertical axis of an appropriate section of untrimmed fabric, beginning the sewing or attachment at the lower edge of each specimen. For either configuration, the sewing or attachment shall be made in the manner in which the trim is attached in the garment.

(B) Sewing or otherwise attaching the trim shall be done with thread or fastening material of the same composition and size to be used for this purpose in the garment and using the same stitching or seamtype. Trim used in the horizontal configuration shall be sewn or fastened the entire width (smaller dimension) of the specimen. Trim used in other than the horizontal configuration shall be sewn or fastened the entire length (longer dimension) of the specimen. Prior to testing, assign each specimen to one of the three samples. Test the sets of three samples and accept or reject the type of trim and design on the same basis as seam design. A type of trim and design accepted when tested in a vertical configuration may be used in a horizontal configuration without further testing.

(Sec. 4(a), 4(b) (15 U.S.C. 1193(a), 1193(b)), 81 Stat. 569; sec. 30(d), (15 U.S.C. 2079(b)), 86 Stat. 1231.)

Effective date: February 6, 1978.

Dated: February 2, 1978.

SADYE E. DUNN,
Acting Secretary, Consumer
Product Safety Commission.

Title 19—Customs Duties

CHAPTER I—U.S. CUSTOMS SERVICE

[T.D. 78-46]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

Entry of Antiques

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Final rule.

SUMMARY: Under the Tariff Schedules of the United States, ethnographic objects and other antiques may be imported free of Customs duty. However, an additional duty, besides regular duties which may be applicable, is assessed on ethnographic

4856

objects and other antiques imported for sale and later found not to be authentic in respect to the antiquity claimed as a basis for free entry. This rule amends the Customs Regulations to reflect the current rate of this additional duty.

EFFECTIVE DATE: February 6, 1978.

FOR FURTHER INFORMATION CONTACT:

Thomas J. Lindmeier, Classification and Value Division, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229, 202-566-5727.

SUPPLEMENTARY INFORMATION:

BACKGROUND

Ethnographic objects (objects relating to a specific culture) made in traditional aboriginal styles at least 50 years before entry and other antiques made prior to 100 years before entry generally may be imported into the United States free of Customs duties under item 766.20 or item 766.25, Tariff Schedules of the United States (TSUS). However, if the importer of an ethnographic object or other antique imported for sale claims free entry under item 766.20 or item 766.25, TSUS, and the article later is found not to be an authentic antique, the article is subject to a special duty under item 766.30, TSUS, in addition to any other duty imposed by the TSUS. The purpose of this additional duty is to deter false claims for free entry.

Before the modifications of certain duty rates by Presidential Proclamation No. 3822, published in the FEDERAL REGISTER on December 16, 1967 (32 FR 19002), as a result of the Kennedy Round of tariff negotiations, the rate of additional duty assessed under item 766.30, TSUS, was 25 percent ad valorem (that is, 25 percent of the dutiable value) regardless of the country from which imported. Paragraphs (h) and (i) of § 10.53 of the Customs Regulations (19 CFR 10.53 (h) and (i)) and footnote 50 to Part 10 (footnote 50 to 19 CFR Part 10) reflect this rate. However, Presidential Proclamation No. 3822 modified this rate by stages so that, effective January 1, 1972, the additional rate assessed under item 766.30, TSUS, is 12.5 percent ad valorem for articles imported from all countries other than the Communist countries listed in General Headnote 3(e), TSUS. The additional rate under item 766.30, TSUS, for articles from Communist countries remains 25 percent ad valorem.

It is necessary, therefore, to amend paragraphs (h) and (i) of § 10.53 and footnote 50 to Part 10 to reflect the modification of the rate applicable to countries other than Communist countries from 25 percent to 12.5 percent ad valorem.

RULES AND REGULATIONS

Because these amendments merely conform the Customs Regulations to the current additional column 1 rate of duty under item 766.30, TSUS, notice and public procedure thereon are unnecessary, and good cause exists for dispensing with a delayed effective date under 5 U.S.C. 553.

DRAFTING INFORMATION

The principal author of this document was Norman W. King, Regulations and Legal Publications Division, Office of Regulations and Rulings, U.S. Customs Service. However, personnel from other offices of the Customs Service participated in its development, both on matters of substance and style.

AMENDMENTS TO THE REGULATIONS

Paragraphs (h) and (i) of § 10.53 and footnote 50 to Part 10 of the Customs Regulations (19 CFR 10.53 (h), (i); and footnote 50 to 19 CFR Part 10) are amended as follows:

§ 10.53 [Amended.]

(1) Paragraphs (h) and (i) of § 10.53 are amended by substituting "12.5 percent or 25 percent, as appropriate" for "25 percent".

(2) Footnote 50 to Part 10 is amended to read to follow:

"Any article imported for sale and claimed to be classifiable under item 766.20 or item 766.25, and thereafter determined to be not authentic in respect to the antiquity claimed as a basis for classification thereunder . . . a (column 1) duty of 12.5 percent ad val. . . . [or] a (column 2) duty of 25 percent ad val. in addition to any other duty imposed on such article under these schedules." (Item 766.30, Tariff Schedules of the United States.)

(R.S. 251, as amended, sec. 624, 46 Stat. 759 (19 U.S.C. 66, 1624).)

G. R. DICKERSON,
Acting Commissioner
of Customs.

Approved: January 25, 1978.

BETTE B. ANDERSON,
Under Secretary
of the Treasury.

Title 32—National Defense

CHAPTER I—OFFICE OF THE SECRETARY OF DEFENSE

Subchapter B—Personnel; Military and Civilian
[DOD Directive 1304.19]

Part 65—NOMINATION OF CHAPLAINS FOR THE ARMED FORCES

AGENCY: Office of the Secretary of Defense.

ACTION: Final rule.

SUMMARY: This rule establishes Department of Defense policy regarding minimum education and ecclesiastical endorsement requirements for appointment in the chaplaincy of the Armed Forces.

EFFECTIVE DATE: November 2, 1977.

FOR FURTHER INFORMATION CONTACT:

Samuel G. Powell, Chaplain, Colonel USAF, Executive Director, Armed Forces Chaplains Board, OASD(MRA&L), The Pentagon, Washington, D.C. 20301, telephone, 202-697-9015.

MAURICE W. ROCHE,
Director, Correspondence and
Directives, Washington Headquarters Services, Department
of Defense.

Dated: February 1, 1978.

Accordingly Part 65 reads as follows:

Sec.

65.1 Reissuance and purpose.

65.2 Applicability.

65.3 Policy.

AUTHORITY: The provisions of this Part 65 issued under sec. 3293, 5576, and 8293 of 10 U.S. Code and Executive Order 11390.

§ 65.1 Reissuance and purpose.

This Part establishes minimum education and ecclesiastical endorsement requirements for appointment in the chaplaincy of the Armed Forces.

§ 65.2 Applicability.

The provisions of this Part apply to the Office of the Secretary of Defense and the Military Departments.

§ 65.3 Policy

(a) It is Department of Defense policy that the following education requirements for chaplain appointments be met. The applicant shall:

(1) Possess 120 semester hours undergraduate credits (or the equivalent) from a college or university listed in Part 3 of the Higher Education, Education Directory (hereafter referred to as the "Directory") published by the Department of Health, Education, and Welfare; or

(2) Have completed 120 semester hours credit or the equivalent at a school not listed in the Directory, but from which course credits could be transferred to a listed school; and

(3) Possess a Master of Divinity or an equivalent theological degree, or have completed the equivalent of 3 resident years of graduate level study in theology or related subjects, leading to ordination and ecclesiastical endorsement which qualify the applicant to perform professional functions as a chaplain. All educational requirements must be fulfilled in a theological school listed in the Official Catholic

RULES AND REGULATIONS

4857

Directory or the Association of Theological Schools, or a graduate school of religion which is a component part of a college or university listed in the Directory as accredited on the graduate theological level by a regional accrediting agency or association listed in the Directory; or

(4) Have completed 3 resident years of graduate level study in theology or related subjects or a graduate theological degree at a nonlisted, graduate theological school, if the applicant presents a statement from an institution meeting the requirements specified in paragraph § 65.3a. (1) indicating that the work would be transferred to that institution.

(b) Ecclesiastical Endorsement of Chaplains. As a prerequisite to appointment as a chaplain, an applicant must receive endorsement from an ecclesiastical endorsing agency recognized by the Armed Forces Chaplains Board. In granting ecclesiastical endorsement, ecclesiastical endorsing agents are requested to use DD Form 2088. Additional copies of this form may be obtained from the Executive Director, Armed Forces Chaplains Board. This endorsement shall certify that the applicant is:

(1) A fully ordained or qualified priest, rabbi, or minister of religion;

(2) Actively engaged in a denominationally approved religious vocation; and

(3) Recommended as being qualified spiritually, morally, intellectually, and emotionally to represent the applicant's religious body in the chaplaincy of the Armed Forces.

Title 46—Shipping

CHAPTER II—MARITIME ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER C—REGULATIONS AFFECTING SUBSIDIZED VESSELS AND OPERATORS

PART 252—OPERATING-DIFFERENTIAL SUBSIDY FOR BULK CARGO VESSELS ENGAGED IN WORLDWIDE SERVICES

Amendment of Operating Requirements to Cover Nonsubsidized Service in U.S. Foreign Commerce

AGENCY: Maritime Administration, Department of Commerce.

ACTION: Interim rule.

SUMMARY: By this action, the regulations governing the operation of U.S.-flag bulk vessels receiving operating-differential subsidy (ODS) which

DD Form 2088 can be obtained by writing to the Executive Director, Armed Forces Chaplains Board, OASD(MRA&L), The Pentagon, Washington, D.C. 20301.

are engaged in carrying bulk cargo in essential service are amended to cover any nonsubsidized operation in the U.S. foreign commerce which is authorized by the Maritime Subsidy Board. The amendment has become necessary because certain bulk operators holding ODS agreements (ODSA) have recently received authorization to engage in nonsubsidized voyages for the purpose of carrying liquid bulk cargoes for the Strategic Petroleum Reserve (SPR) program of the United States, in accordance with such regulations as may be established by the United States. However, the present regulations do not encompass nonsubsidized voyages. To correct this situation, the amendment establishes the conditions for the termination and recommencement of ODS before and after any voyage of a subsidized bulk vessel which is not performed under subsidy, whether the vessel is carrying an SPR cargo or any other liquid or dry bulk cargo.

EFFECTIVE DATE: February 6, 1978.

COMMENT DATE: On or before March 8, 1978.

ADDRESSES: Send comments to: James S. Dawson, Secretary, Maritime Subsidy Board/Maritime Administration, Washington, D.C. 20230.

FOR FURTHER INFORMATION CONTACT:

Stephen C. Orosz or Robert C. Smith, Maritime Administration, Washington, D.C. 20230, 202-377-4758.

SUPPLEMENTARY INFORMATION: Existing regulations governing operating-differential subsidy (ODS) for bulk cargo vessels engaged in worldwide services appear in 46 CFR Part 252. However, recent authorizations by the Maritime Subsidy Board permitting nonsubsidized operation in the U.S. foreign commerce by bulk operators holding ODS agreements have made the amendment of Part 252 necessary because these regulations do not encompass the operation of subsidized bulk cargo vessels on nonsubsidized voyages for which the Maritime Subsidy Board has given prior authorization.

By action of August 17, 1977, the Maritime Subsidy Board authorized the Berger Group of subsidized bulk companies and Moore-McCormack Bulk Transport, Inc. (Mormac) to engage in the carriage of liquid bulk cargo specifically to meet the requirements of the U.S. Strategic Petroleum Reserve program (SPR), in accordance with such regulations as may be established by the United States. Payment of ODS, however, was not authorized for the operation of a vessel during the period of time such vessel engaged in the carriage of that portion of SPR

cargoes reserved for U.S.-flag ships. By subsequent actions of September 21 and October 26, 1977, the Board also authorized Zapata Products Tankers, Inc., and Chestnut Shipping Co., respectively, to engage in the SPR trade subject to the same provisions applicable to the Berger Group and Mormac.

This amendment, however, is not restricted to the specific situation regarding the operation of subsidized bulk cargo vessels in the SPR trade. Instead, a general provision has been provided by the use of the broad phrase "period of nonsubsidized service in the U.S. foreign commerce" to describe any voyage of a subsidized bulk vessel that is not performed under subsidy, whether carrying liquid or dry bulk cargo.

The purpose of this amendment is merely to establish the criteria for determining when ODS terminates and recommences for vessels engaged in nonsubsidized voyages in the U.S. foreign commerce. It does not, nor is it intended to, grant general permission to subsidized bulk operators to engage in such service. In accordance with the ODSA's, this can only be done by order of the Maritime Subsidy Board.

Pursuant to this amendment, an unsubsidized voyage of a subsidized bulk cargo vessel, whether made in the SPR trade or other service in U.S. foreign trade, commences upon the termination of the last subsidized period of operation. Consequently, subsidy will not be payable during the time the bulk vessel is positioning itself to load for the succeeding nonsubsidized voyage. This requirement will place the subsidized vessel on a more equal basis with nonsubsidized vessels in bidding for SPR cargoes.

The amendment further specifies that the unsubsidized operating period runs from the day of final discharge of cargo on the last subsidized voyage (modified to accommodate a following subsidized period of reduced crew, idleness or lay-up) to the day of final discharge of nonsubsidized cargo. A copy of the nonsubsidized voyage report is required to be submitted to the Maritime Administration in the same manner as specified in § 252.24(a).

For the purpose of meeting the requirement of minimum operation of 335 days each year as set forth in § 252.20(a) and the requirement of essential service and service in U.S. foreign commerce as set forth in § 252.21, it has been concluded that a nonsubsidized voyage will be considered in the same manner as a subsidized voyage.

Since the ODS program is a public grant program, rulemaking involving ODS is exempted from the requirements of 5 U.S.C. 553. However, to comport with the spirit of the rulemaking provisions in 5 U.S.C. 553, this amendment is being adopted in an interim form. This procedure was

chosen instead of proposed rulemaking because the amendment of § 252.20 can be made effective immediately upon publication while still providing to interested parties the opportunity to comment. It has become necessary to establish immediately the conditions for the termination and commencement of ODS for the vessels engaging in unsubsidized voyages because the SPR program is currently in operation and SPR voyages by ODS bulk operators have already been undertaken or are imminent.

Interested parties are encouraged to submit written comments, views, or data concerning this amendment. All such written submissions will be given full consideration and acted upon as if this action were a proposed rulemaking. However, this amendment shall remain in effect as a regulation until such time as further action is taken by this Agency.

Accordingly, 46 CFR Part 252 is amended by amending section 252.20 as follows:

1. The heading for § 252.20 is revised to read as set forth below, redesignate the present text of § 252.20 as paragraph (a), with the heading "(a) Subsidized voyages"; and redesignate the present paragraphs (a) and (b) as subparagraphs (1) and (2) respectively; paragraph (c) and subparagraphs (1), (2), (3), and (4) thereof as (3) and (i), (ii), (iii), and (iv), respectively; and paragraph (d) and subparagraphs (1), (2), and (3) thereof as (4) and (i), (ii), and (iii), respectively. A new paragraph (b) is added to read as set forth below.

§ 252.20 Subsidized and unsubsidized voyages.

(b) *Nonsubsidized voyages in the U.S. foreign commerce.* (1) For any period of nonsubsidized service in the U.S. foreign commerce with respect to which the Board has granted prior authorization, a vessel shall go off subsidy after 2400 hours local time of the day of final discharge of cargo on the last subsidized voyage, or in the event the nonsubsidized voyage follows a subsidized period of reduced crew, idleness or lay-up, the vessel shall be deemed to be off subsidy at 0001 hours local time of the day following the day on which such period of reduced crew, idleness or lay-up terminates. The vessel shall continue in this nonsubsidized service until 2400 hours local time of the day of final discharge of the nonsubsidized cargo after which time the vessel will resume subsidized status. In the event the vessel makes consecutive nonsubsidized voyages during any such period of nonsubsidized service, it will remain in nonsubsidized status until completion of the final nonsubsidized voyage.

(2) For the purposes of meeting the requirements set forth in §§ 252.20(a) and 252.21, any such nonsubsidized voyage will be considered in the same manner as a subsidized voyage.

(3) Voyage reports shall be submitted upon the completion of each nonsubsidized voyage in the same manner as specified in § 252.24(a) and shall clearly indicate that the voyage is nonsubsidized.

(Sec. 204(b), Merchant Marine Act, 1936, as amended (46 U.S.C. 1114), Reorganization Plans No. 21 of 1950 (64 Stat. 1273) and No. 7 of 1981 (75 Stat. 840) as amended by Pub. L. 91-469 (84 Stat. 1038), Department of Commerce Organization Order 10-8 (38 FR 19707, July 23, 1973).)

(Catalog of Federal Domestic Assistance No. 11.504—Operating-Differential Subsidies.)

Dated: January 31, 1978.

By order of the Maritime Administration/Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,
Secretary.

Title 49—Transportation

CHAPTER I—MATERIALS TRANSPORTATION
BUREAU, DEPARTMENT OF TRANSPORTATION

[Docket No. HM-157; Amdt. No. 177-39]

PART 177—CARRIAGE BY PUBLIC HIGHWAY

Incorporation of the Federal Motor Carrier
Safety Regulations by Reference

AGENCY: Materials Transportation Bureau, DOT.

ACTION: Final rule.

SUMMARY: The purpose of this amendment is to incorporate by reference the Federal Motor Carrier Safety Regulations under the authority of the Hazardous Materials Transportation Act (HMTA), 49 U.S.C. 1801, et seq. Except for certain recordkeeping requirements, the Motor Carrier Safety Regulations have previously been enforceable by criminal penalties only. This amendment is intended to authorize the use of civil penalty and other enforcement tools provided by the Hazardous Materials Transportation Act.

DATE: This amendment is effective on February 6, 1978.

FOR FURTHER INFORMATION CONTACT:

In the legal office: Gerald M. Tierney, Attorney, Chief Counsel's Office, Federal Highway Administration, Room 4217, 400 Seventh Street SW., Washington, D.C. 20590, 202-428-0346. In the program office: David B. Goodman, Hazardous Materials Specialist, Vehicle Require-

ments Branch, Bureau of Motor Carrier Safety, Room 3404, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-1700.

SUPPLEMENTARY INFORMATION: This amendment is consistent with the policy of reissuing regulations formerly issued under the Explosives and Other Dangerous Articles Act (EODAA) (18 U.S.C. 831-34) so that regulations will be effective under the new HMTA. Such reissuance is performed pursuant to the direction in the HMTA to bring all rules and regulations into conformity with the purposes and provisions of that Act as soon as practicable, Pub. L. 93-633, section 114(b)(2). The Federal Motor Carrier Safety Regulations (FMCSR) are currently applicable to carriers of hazardous materials pursuant to 49 CFR 397.2 which is issued jointly under the Interstate Commerce Act (ICA), 49 U.S.C. 304, and the EODAA, 18 U.S.C. 831-835. The effect of this amendment is merely to make civil penalties and other enforcement tools of the HMTA applicable to those hazardous materials carriers already subject to Parts 390-397. Because this amendment merely reissues, under new authority, regulations already in effect, notice and comment are unnecessary. For the same reason, this amendment is effective upon publication.

As the FMCSR are being incorporated by reference, the intent, scope of application and preemptive effects of the FMCSR, as reissued under the HMTA, are unchanged. The Department does not intend for this action to alter the categories of persons subject to the FMCSR, to alter the substance of those regulations, or to preempt State or local law not preempted by the FMCSR before incorporation into Part 177. However, §§ 397.3 and 397.9 are not being reissued under the HMTA at this time. Reissuance of both sections is being deferred pending further review, and in the meantime both sections will continue, as in the past, to be enforceable with criminal penalties provided by the statutes under which they were originally promulgated.

Primary drafters of this document are Gerald M. Tierney, Chief Counsel's Office, Federal Highway Administration, and David B. Goodman, Vehicle Requirements Branch, Bureau of Motor Carrier Safety.

The issuance of this regulation does not constitute a major action requiring an inflationary impact evaluation or an environmental impact statement, nor will it impose additional costs or burdens on Federal, State, or local governments.

In view of the foregoing, Part 177 of Title 49, Code of Federal Regulations, is amended as follows:

1. In the Table of Sections, an entry for § 177.804 is added to read:

Sec.

177.804 Compliance with Federal Motor Carrier Safety Regulations.

2. A new § 177.804 is added to read:

§ 177.804 Compliance with Federal Motor Carrier Safety Regulations.

Motor carriers and other persons subject to this Part shall comply with 49 CFR Parts 390 through 397 (excluding §§ 397.3 and 397.9) to the extent those rules apply.

(49 U.S.C. 1803, 1804, 1808; 49 CFR 1.53(e).)

Issued in Washington, D.C., on January 31, 1978.

L. D. SANTMAN,
Acting Director, Materials
Transportation Bureau.

[FR Doc. 78-3152 Filed 2-3-78; 8:45 am]

[4910-59]

CHAPTER V—NATIONAL HIGHWAY TRAFFIC
SAFETY ADMINISTRATION, DEPARTMENT OF
TRANSPORTATION

[Docket No. 78-03; Notice 1]

PART 571—FEDERAL MOTOR VEHICLE SAFETY
STANDARDS

New Pneumatic Tires for Passenger Cars

AGENCY: National Highway Traffic Safety Administration, Department of Transportation.

ACTION: Final rule.

SUMMARY STATEMENT: This amendment adds certain tire size designations to Standard No. 109, New Pneumatic Tires—Passenger Cars. This addition is made pursuant to a request from the Rubber Manufacturers Association (RMA) to permit the production of tires with the specified designations.

EFFECTIVE DATE: March 8, 1978, if objections are not received.

FOR FURTHER INFORMATION CONTACT:

John A. Diehl, Crash Avoidance Division, Office of Vehicle Safety Standards, National Highway Traffic Safety Administration, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-1715.

SUPPLEMENTARY INFORMATION: According to agency practice, regular amendments are published modifying the Appendix of Standard No. 109. Guidelines were published in the FEDERAL REGISTER on October 5, 1968 (33 FR 14964), and amended August 31, 1974 (39 FR 28980), specifying procedures by which routine additions could be made effective 30 days from publication in the FEDERAL REGISTER, if no objections are received. If objections are received, rulemaking procedures

for the issuance of motor vehicle safety standards (49 CFR Part 553) are followed. The RMA petitioned for this addition to the tire tables to permit production of tires with the specified designations. This request is granted.

Accordingly, Appendix A of 49 CFR 571.109 is amended subject to the 30 day provision indicated above, as specified below.

The principal authors of this document are John A. Diehl, Office of Vehicle Safety Standards, and Roger Tilton, Office of Chief Counsel.

§ 571.109 [Appendix Amended]

In Table I-GG, the following new tire size designation and corresponding values are added.

In Table I-HH the following new tire size designation and corresponding values are added.

In Table I-JJ, the following new tire size designations and corresponding values are added.

(Secs. 103, 119, 201, and 202, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1407, 1421, and 1422); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8.)

Issued on January 27, 1978.

ELWOOD T. DRIVER,
Acting Associate Administrator
for Rulemaking.

[4910-59]

[Docket No. 78-03; Notice 2]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

New Pneumatic Tires for Passenger Cars

AGENCY: National Highway Traffic Safety Administration, Department of Transportation.

ACTION: Final rule.

SUMMARY STATEMENT: This amendment adds certain tire size designations to Standard No. 109, New Pneumatic Tires—Passenger Cars. This addition is made pursuant to a request from the Michelin Tire Corp. to permit the production of tires with the specified designations.

EFFECTIVE DATE: March 8, 1978, if objections are not received.

FOR FURTHER INFORMATION CONTACT:

John A. Diehl, Crash Avoidance Division, Office of Vehicle Safety Standards, National Highway Traffic Safety Administration, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-1717.

SUPPLEMENTARY INFORMATION: According to agency practice, regular amendments are published modifying the Appendix of Standard No. 109. Guidelines were published in the FEDERAL REGISTER on October 5, 1968 (33 FR 14964), and amended August 31, 1974 (39 FR 28980), specifying procedure by which routine additions could be made effective 30 days from publi-

cation in the FEDERAL REGISTER, if no objections are received. If objections are received, rulemaking procedures for the issuance of motor vehicle safety standards (49 CFR Part 553) are followed. The Michelin Tire Corp. petitioned for this addition to the tire tables to permit production of tires with the specified designations. This request is granted.

The principal authors of this document are John A. Diehl, Crash Avoidance Division, and Robert M. Churilla, Office of Chief Counsel.

Accordingly, Appendix A of 49 CFR 571.109 is amended subject to the 30 day provision indicated above, as specified below:

§ 571.109 [Appendix Amended]

The Appendix is amended by adding: (1) A new Table I-NN, as follows:

TABLE I-NN

Tire load ratings, test rims, minimum size factors, and section widths for all millimetric "60 series" radial ply tires (TRX rim)

Tire size designation	Maximum tire loads, (pounds) at various cold inflation pressures (psi)												Test rim width (mm)	Minimum size factor (mm)	Section width* (mm)
	16	18	20	22	24	26	28	30	32	34	36	38			
195/60R390.....	840	900	950	1000	1050	1100	1150	1190	1240	1280	1320	1360	1400	150	200

*The letters "H", "S" or "V" may be included in any specified tire size designation adjacent to the "R".

*Actual section width and overall width shall not exceed the specified section width by more than 7 percent.

(2) A new Table I-OO, as follows:

TABLE I-OO

Tire load rating, test rims, minimum size factors and section widths for all millimetric "P/60" series ISO type tires (TRX rim)

Tire size designation	Maximum tire loads (kilograms) at various cold inflation pressures (kPa)								Test rim width (inches)	Minimum size factor (mm)	Section width* (mm)
	120	140	160	180	200	220	240	260

Title 42—Public Welfare

CHAPTER IV—HEALTH CARE FINANCING ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 450—ADMINISTRATION OF MEDICAL ASSISTANCE PROGRAM

Reimbursement on a Reasonable Cost Related Basis for Skilled Nursing and Intermediate Care Facility Services; Supplemental Statement of Basis and Purpose of Regulations

AGENCY: Health Care Financing Administration (HCFA), HEW.

ACTION: Notice.

SUMMARY: The following statement of basis and purpose is published in conformity with the order entered on December 7, 1977 in *American Health Care Assn. v. Califano*, U.S.D.C. D.C., Civ. No. 77-0250. This statement supplements and clarifies parts of the preamble which accompanied final regulations published at 41 FEDERAL REGISTER 27300-27308, July 1, 1976, with respect to opportunities for profit which States may afford providers of skilled nursing facility (SNF) and intermediate care facility (ICF) services under title XIX of the Social Security Act (Medicaid).

FOR FURTHER INFORMATION, CONTACT:

Milton Dezube, 202-245-8821.

SUPPLEMENTARY INFORMATION: Section 249(a) of Pub. L. 92-603, the Social Security Amendments of 1972, amended title XIX of the Social Security Act by adding section 1902(a)(13)(E). That section requires that State Medicaid plans provide:

... effective July 1, 1976, for payment of the skilled nursing facility and intermediate care facility services provided under the plan on a reasonable cost related basis, as determined in accordance with the methods and standards which shall be developed by the State on the basis of cost-finding methods approved and verified by the Secretary.

On April 13, 1976, the Department published a Notice of Proposed Rulemaking implementing section 249(a). (41 FR 15560.) Interested parties were given 45 days to submit any comments, suggestions, or objections pertaining to the proposed amendments. After these comments received were fully analyzed, final implementing regulations were published on July 1, 1976, together with a statement of basis and purpose. (41 FR 27300.)

NOTE.—These regulations were originally published by the Social and Rehabilitation Service and codified at 45 CFR 250.30 (a)(3) and (b)(6). Since title XIX is now administered by the Health Care Financing Administration, the regulations have been recodi-

fied at 42 CFR 450.30 (a)(3) and (b)(6). See 42 FR 52826, September 30, 1977.

On February 10, 1977, the American Health Care Association filed suit in the Federal District Court for the District of Columbia, alleging that these regulations unlawfully restricted the opportunities for profit which States could afford providers of SNF and ICF services under State Medicaid plans. The complaint alleged that (1) final regulations conflicted with the legislative history and, therefore, exceeded the Secretary's statutory authority; (2) the regulations violated the Administrative Procedure Act, in that the Notice of Proposed Rulemaking had not afforded adequate notice to interested parties of the position taken in the final regulations on permissible opportunities for profit; and (3) the preamble to the final regulations did not adequately explain the basis and purpose of the departures from the proposed regulations.

On December 7, the Court upheld the validity of the Department's regulations. The court found that the Secretary's limitations on opportunities for profit under the regulations were not in conflict with the statutory language or congressional intent; that the differences between the proposed regulations and the final regulations were insufficient to serve as a basis for invalidating the rulemaking procedures; and that the proposed regulations were sufficient to put affected persons on notice that the rulemaking procedure would impact upon their interests.

However, the Court also found that the statement of basis and purpose accompanying the final regulations did not provide enough guidance to enable interested parties to comply with the requirements of the regulations with respect to opportunities for profit. The Court therefore directed the Secretary, within 60 days, to issue a statement of basis and purpose which would advise interested parties of the intended operation of the regulations on this point.

The following statement of basis and purpose is published pursuant to the Court's order. This statement supplements and clarifies, but does not supersede, the original preamble published with the final regulations on July 1, 1976. The only issue raised in the lawsuit concerned the treatment under the regulations of profit in State plans for SNF and ICF reimbursement; consequently this statement is limited to points bearing on this subject.

LEGISLATIVE HISTORY

The legislative history of section 249(a) of Pub. L. 92-603 is sparse. The

only contemporaneous legislative discussions of sections 249(a) are the brief reports of the Senate Committee on Finance, where section 249 originated (S. Rept. No. 92-1230 (92d Cong., 2d Sess.) Sept. 26, 1972, pp. 287-288) and the conference committee report (H. Rept. No. 92-1605 (Conference Rept.) (92d Cong. 2d Sess.) Oct. 14, 1972, pp. 56-57). In addition, some general guidance on the meaning of section 249(a) is afforded from its context in Pub. L. 92-603. (It should also be noted that, several years after the enactment of Pub. L. 92-603, Senator Talmadge, a member of the Senate Committee on Finance, made statements in the Congressional Record expressing his understanding of the Committee's intention at the time it wrote section 249(a). (Cong. Rec., June 20, 1975, pp. 20029-20030; Cong. Rec., Mar. 25, 1976, pp. S4194-S4195.) In our view, Senator Talmadge's comments are consistent with the Department's implementation of section 249(a).)

This legislative history provides the following guidance on the meaning of the requirement that payment for SNF and ICF services under title XIX be on a reasonable cost related basis:

1. *An individual facility's reasonable cost related payment rate may (although it need not) be set in a manner that affords an opportunity for profit.* The legislative history indicates three ways in which the State may set payment rates which afford an opportunity for profit.

First, States may include a return on net invested equity in the payment rates for proprietary (for-profit) providers. The Senate Finance Committee and Conference Reports explain that States are to be free to use the title XVIII (Medicare) principles of reimbursement, which treat as an allowable cost a return on proprietary providers' net invested equity.

Second, States may set payment rates prospectively without retrospective adjustment, allowing providers who hold their costs below the payment rate to keep the difference as a profit. The Senate Finance Committee Report states that "States would be free to provide for retroactive adjustments on rates or costs to the extent necessary to prevent 'windfalls' or unjustifiably low payment." This statement necessarily implies that States are also to be free to set payment rates prospectively without retrospective adjustment.

Third, the Senate Finance Committee Report declares that States may set payment rates on a class basis. Any class payment rate affords providers an opportunity to profit by holding their costs below the class rate.

2. *"Reasonable cost related" payment rates must, at a minimum, be high enough to cover the allowable costs of an efficiently and economical-*

ly operated facility. The Senate Finance Committee Report expresses dissatisfaction with the arbitrary rate setting systems in use in some States at the time section 249(a) was written, in part because under those systems some facilities were paid too little to support the quality of care that Medicaid patients are expected to need and receive. It follows that "reasonable cost related" payment rates must be no lower than the amount adequate to cover in full the costs of providing the minimum care required under applicable federal and state law and standards of participation. Thus the cost to an efficiently and economically operated facility of meeting these Federal and State standards represents a "floor" on reasonable cost related payment rates.

3. *It is appropriate to set a ceiling on "reasonable cost related" payment rates.* The Senate Finance Committee Report, at the same time it noted that some providers were being paid too little, also expressed concern that other providers were being paid too much. Moreover, many other specific provisions, and much of the legislative history, of Pub. L. 92-603 evidence Congress great concern with the need to control the escalating costs of the Medicaid program by encouraging efficiency and economy. (See, e.g., sections 221-224 and 232 of Pub. L. 92-603; H. Rept. 92-231 (92d Cong., 1st Sess.), May 26, 1971, pp. 78-85, 100-101; S. Rept. 92-1230 (92d Cong., 2d Sess.), Sept. 26, 1972, pp. 184-190, 224-226.) Like the floor on acceptable payment rates, the ceiling may not be arbitrary, but must be reasonable cost related.

4. *States should be allowed greater flexibility to experiment in developing methods of determining reasonable cost related payment rates.* The Senate Finance Committee Report made clear that, while States were to have discretion to use some or all of the Medicare principles of cost finding or rate setting, they were not to be required to do so, but were to be free to develop or adopt other methods which could be less cumbersome and less expensive.

THE REGULATORY SCHEME

Ceilings and Floors on Reasonable Cost Related Payment Rates

On the basis of this legislative history, the Department's regulations provide a minimal framework within which States are free to develop their own reasonable cost related rate setting methods.

As was discussed in the preamble to the final regulations, there is no single acceptable method for determining reasonable cost, but rather a variety of acceptable methods; it follows from this that there is a spectrum of figures within an acceptable range, any of

which is a reasonable cost related payment rate. Under the Department's regulations, States may use a wide variety of rate-setting methods. States may set payment rates prospectively or retrospectively, on a class or facility-by-facility basis. (A payment rate set prospectively is a rate set for an accounting period entirely on the basis of cost reports of provider facilities and other cost data for earlier accounting periods, and on economic forecasts available before the beginning of the accounting period for which the rate is paid. A payment rate set or adjusted retrospectively is a rate set or adjusted for an accounting period on the basis of the cost reports of provider facilities and other cost data for the accounting period for which the rate is paid.) The Department has limited its role in determining how reasonable cost related payment rates are to be set to stating a few basic principles to which States must adhere in setting payment rates, including the principles which must be applied in determining the maximum and minimum rates which satisfy the requirement of being reasonable cost related.

The minimum reasonable cost related rate is the rate which the State reasonably finds (or, in the case of a prospectively determined rate, the level which the State reasonably expects) to be adequate to reimburse in full the allowable cost of a provider facility that is economically and efficiently operated. Thus, a provider facility's payment rate may not be lower than the level the State finds or expects to be adequate to reimburse the costs of that facility (where payment rates are set on a facility-by-facility basis) or of some provider in the class (where payment rates are set on a class basis) if that facility were operated as efficiently and economically as possible.

The maximum reasonable cost related rate in a prospective rate-setting system is the highest costs the individual provider (where rates are set on a facility-by-facility basis) or the highest cost provider in the class (where rates are set on a class basis) can reasonably be expected to incur, and which would be found reasonable if incurred. The maximum reasonable cost related rate in a retrospective rate-setting system is the amount which would be determined using the Medicare principles of provider reimbursement. In addition, all payment rates, whether set prospectively or retrospectively, are subject to any general payment limits established by the Secretary under sections 1861(v) and 1866 of the Social Security Act, as amended by section 223 of Pub. L. 92-603, and under implementing regulations at 42 CFR 405.460-405.461.

An approvable State title XIX plan for reimbursement of long term care

facility services must provide for a method of determining payment rates which assures that all participating providers' payment rates will fall somewhere between the maximum and minimum reasonable cost related rates.

Retention of the Medicare Ceiling on Payment Rates Set Retrospectively

Prior to promulgation of the regulations implementing section 249(a), the Department's regulations had provided that payment rates to long term care facilities not exceed rates that would be determined using the Medicare principles of reimbursement under Part A of title XVIII (former 45 CFR 250.30(b)(3) (ii) and (iii)). The basic principle of reimbursement under Part A of title XVIII is that the amount paid to any provider is the lesser of reasonable cost or customary charges (or, in the case of services provided free of charge or at a nominal charge, fair compensation as determined by the Secretary). The Department's regulations had permitted the Medicare ceiling to be calculated either on a facility-by-facility basis, or on a Statewide average.

The final regulations implementing section 249(a) discontinued use of the Medicare ceiling on payment rates set prospectively without retrospective adjustment. As the preamble indicated, this decision was based on the conclusion that the inherent cost-containment potential of prospective rate-setting made the Medicare ceiling unnecessary.

However, the Medicare ceiling was retained for retrospective rate-setting systems, since these systems do not have the incentives for efficiency and economy inherent in prospective systems. The regulations permit States to determine conformity with the Medicare ceiling requirement by any of three alternative methods. Thus, the requirement is deemed met if (1) the ceiling limitation is met on a facility-by-facility basis; or (2) if the State's payments do not exceed amounts which would have been determined under Medicare in 90 percent of a random sample of all facilities participating in Medicaid; or (3) if the average payments to all facilities within a class do not exceed amounts which would have been determined under Medicare.

Methods of Setting Reasonable Cost Related Payment Rates Which Afford Opportunity for Profit

In accordance with the legislative history discussed above, the preamble to the final regulations indicated three general approaches that may be used by States to afford providers the opportunity for profit under the regulations: Payment of a return on proprietary providers' net invested equity,

use of class rates, and use of prospective rates.

The preamble to the final regulations did not attempt to specify how States could use variants of these three approaches to afford an opportunity for profit. The Department chose to give the States flexibility to develop new rate-setting methods within the general requirements of the regulations, beyond those already known to or reviewed by the Department.

However, many States have been confused by the lack of guidance in this area. In addition, the Secretary and the Administrator of HCFA have learned that some Department Officials have not correctly interpreted the statute and regulations with respect to the opportunities for profit that may be afforded providers. Therefore, a list of approvable rate-setting methods which afford an opportunity for profit is set forth in this Notice in order to clarify the Department's policy. These rate-setting methods include all the methods of which the Department is presently aware which afford providers an opportunity for profit and which are approvable under the statute and implementing regulations. However, it is possible that States will yet develop other rate-setting methods affording an opportunity for profit which are not specified here but which would also be approvable.

Return on Net Invested Equity of Proprietary Providers

The State plan may provide that a return on proprietary providers' net equity will be treated as an allowable cost. The State may set the rate of return on net equity at the level it calculates is necessary to attract and maintain adequate investment of capital in the nursing home industry.

Since section 249(a) permits States to adopt, wholly or in part, the Medicare principles of cost finding and reimbursement, and since the Medicare principles treat a specified return on proprietary providers' net invested equity as an allowable cost, the Department concludes that States should be able to include a similar return as an item of allowable cost under these regulations. The Medicare provisions (42 U.S.C. 1395x(v)(1)(B) and 42 CFR 405.429(a)) permit this treatment on the rationale that a rate of return equivalent to that guaranteed on alternative investments is an economic cost of procuring the investment of private capital in health care facilities. But the Medicare principles do not permit such a return to be treated as an allowable cost item for non-profit or governmental providers, because the latter two groups do not base their decision to invest in a health care facility on a comparison of the economic

return they can expect from various uses of their capital. Therefore, as the preamble to these final regulations pointed out, a return on net invested equity would not be an appropriate element in the calculation of the reimbursement rate for non-profit and governmental providers.

Prospective Rates and Class Rates

While return on net invested equity may be included in the payment rates only of for-profit providers, States may use two other approaches, separately or in combination, to afford an opportunity for profit to non-profit as well as to for-profit providers.

First, the State can group providers in classes for purposes of determining payment rates. Any provider which can hold its costs below its payment rate may be allowed to keep the difference. Second, the State may set payment rates prospectively (on either a class or a facility-by-facility basis). Any provider which can hold its costs below the prospectively set rate will in effect profit by the difference. These rate-setting methods have the advantage of operating as an incentive to efficiency and economy, since providers will profit in inverse ratio to their costs. For example, if a prospective class rate is set at \$20/patient day, a provider which keeps its costs down to \$15/patient day makes a greater profit than one which keeps its costs down to \$19/patient day.

Below are listed all the approvable variants on prospective and class rate-setting systems of which the Department is presently aware. (In order to be approvable, the rate-setting methods described below must assure that all payment rates, and all ceilings and floors on payment rates, do not exceed the Federal upper and lower limits on reasonable cost related payment rates discussed above.)

(a) The State plan may provide that reasonable cost related payment rates will be set prospectively on a facility-by-facility basis.

(b) The State plan may provide that reasonable cost related payment rates will be set prospectively on a class basis.

(c) The State plan may provide that ceilings and floors on reasonable cost related payment rates will be set prospectively on a class basis, and that within those ceilings and floors payment rates will be set prospectively for all facilities in the class on a facility-by-facility basis. For each facility in the class whose projected costs for allowable cost items fall below the ceiling so established, the State may set a prospective rate at some point between the ceiling and the individual facility's projected costs. (Or, as a variant on this method, the State may set payment rates between projected actual costs and the class ceiling only

for facilities which have historically kept their costs more than some specified amount or percentage below the class ceiling rate.)

(d) The State plan may provide that reasonable cost related payment rates will be set retrospectively on a class basis.

(e) The State plan may provide that ceilings and floors on reasonable cost related payment rates will be set retrospectively on a class basis, and that within those ceilings and floors reasonable cost related payment rates will be set retrospectively for all facilities

in the class on a facility-by-facility basis. For each facility in the class whose actual costs for the rate period fall below the ceiling so established, the State may set a payment rate at some point between the ceiling and the individual facility's actual costs. (Or, as a variant on this method, the State may set payment rates between actual costs and the class ceiling only for facilities which have kept their costs more than some specified amount or percentage below the class ceiling rate.)

The foregoing has been published pursuant to the court's order of De-

cember 7, 1977, in *American Health Care Assn. v. Califano*. That order does not require a republication of 42 CFR 450.30 (a)(3) and (b)(6).

Dated: January 27, 1978.

ROBERT A. DERZON,
Administrator, Health Care
Financing Administration.

Approved: February 1, 1978.

JOSEPH A. CALIFANO, Jr.,
Secretary.

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

[7 CFR Part 1438]

1978 CROP GUM NAVAL STORES LOAN PROGRAM

Proposed Rule

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Proposed rule.

SUMMARY: The purpose of this notice is to advise that the Commodity Credit Corporation proposes to make determinations and issue regulations concerning a loan program for the 1978-crop gum naval stores, which is authorized by the Agricultural Act of 1949, as amended.

The loan program is intended to stabilize market prices and to protect producers, processors, and consumers. The program will enable producers to obtain price support of 1978-crop gum naval stores. Written comments are invited from interested persons.

DATE: Written comments must be received on or before March 8, 1978, in order to be sure of consideration.

ADDRESS: Producer Associations Division, Agricultural Stabilization and Conservation Service, P.O. Box 2415, U.S. Department of Agriculture, Washington, D.C. 20013.

FOR FURTHER INFORMATION CONTACT:

Roger A. P. Cooley, ASCS, 202-447-7405.

SUPPLEMENTARY INFORMATION: The Secretary is granted the authority under Title III ("Other Nonbasic Agricultural Commodities"), Sec. 301, of the Agricultural Act of 1949, as amended, to make available a loan and/or purchase program "to producers for any nonbasic commodity not designated in Title II at a level not in excess of 90 per centum of the parity price for the commodity" Sec. 302 provides that "price support shall, insofar as feasible, be made available to producers of any storable nonbasic agricultural commodity for which such a loan program is in effect and who are complying with such program.

Sec. 401 of the Act requires that the Secretary, in determining whether there shall be a program, consider: (1) The supply of the commodity in rela-

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

tion to the demand therefore, (2) the price levels at which other commodities are being supported, (3) availability of funds, (4) perishability and storability of the commodity, (5) importance of the commodity to agriculture and the national economy, (6) ability to dispose of stocks acquired through a support operation, and (7) the ability and willingness of producers to help keep supplies in line with demand.

PROPOSED RULE

In view of the interest shown by producers, the Secretary has under consideration a loan program for the 1978 crop of gum naval stores. The program would be a nonrecourse loan program as was in effect from 1938 through 1975. No purchase program is being considered for 1978-crop gum naval stores.

Before making any determination the Department will give consideration to comments, data, views, and recommendations submitted in writing, within the comment period, to the Director, Producer Associations Division.

All submissions received will be made available for inspection from 8:15 a.m. to 4:45 p.m., Monday through Friday, in Room 5750, South Building, 14th and Independence Avenue SW., Washington, D.C. (7 CFR 1.27(b)).

Signed at Washington, D.C., on January 27, 1978.

RAY FITZGERALD,
Executive Vice President,
Commodity Credit Corporation.
[FR Doc. 78-3150 Filed 2-3-78; 8:45 am]

[7590-01]

NUCLEAR REGULATORY COMMISSION

[10 CFR Parts 19 and 20]

NOTICES, INSTRUCTIONS AND REPORTS TO WORKERS, INSPECTIONS; STANDARDS FOR PROTECTION AGAINST RADIATION

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule.

SUMMARY: The Nuclear Regulatory Commission is considering amendments to its standards for protection against radiation. The amendments would require licensees to control the total occupational radiation dose of individuals. Implementing changes would require licensees: (a) To obtain

from more highly exposed individuals, information on dose during a current calendar quarter from sources outside of the licensee's control; (b) to furnish prompt estimates of dose, at the request of the individual, upon termination of work; and (c) to keep appropriate records. In many cases, licensees operating within the basic radiation dose limits permit workers to receive up to 1.25 rems per calendar quarter without obtaining information of prior occupational dose. It would be possible for more than one licensee to employ an individual in a calendar quarter. The individual could receive doses within the basic quarterly limit during each employment, and exceed the quarterly limit in total during multiple employments. The proposed amendments are designed to minimize the possibility of overexposure of short-term workers, sometimes called "transient workers," and other individuals who may be employed by, or work in the restricted areas of more than one licensee within a single calendar quarter, and individuals who may work for more than one licensee at a time (moonlighters).

DATES: Comment period expires April 7, 1978.

ADDRESSES: Written comments should be submitted to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

FOR FURTHER INFORMATION CONTACT:

Mr. Walter S. Cool, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, phone 301-443-6920.

SUPPLEMENTARY INFORMATION: The regulations in 10 CFR Part 20 requires that no licensee shall possess, use, or transfer licensed material in such a manner as to cause any individual in a restricted area to receive in any period of one calendar quarter, from radioactive material and other sources of radiation in the possession of the licensee, a dose in excess of the basic 1.25 rems per quarter whole body limit specified in § 20.101(a), or 10 percent of that dose as specified in § 20.104(a) if the individual is less than 18 years of age. Provision is made in § 20.101(b) that a licensee may permit an individual to receive up to 3 rems per quarter provided that the licensee determines the individual's occupa-

tional radiation dose history, and provided that the individual's accumulated occupational radiation dose to the whole body does not exceed the formula 5(N-18), where "N" equals the individual's age at his last birthday.

However, it would be possible for more than one licensee operating pursuant to § 20.101(a) to employ an individual in a calendar quarter. The individual could receive doses up to 1.25 rems during each employment without consideration of the dose received during prior employment, and exceed the basic 1.25 rems per quarter limit during the multiple employments.

Information obtained from Commission inspections and investigations and from reports on personnel monitoring filed on termination of employment or work assignment in licensed facilities by four categories of licensees pursuant to § 20.408, 10 CFR Part 20, indicate an increase in frequency of doses to transient workers at different licensed plants. The Commission is also aware of organized recruitment of personnel to work in licensed activities other than those of their primary employer (moonlighting), particularly during their vacations. Therefore, the Commission is considering amendments to its regulations that would require each licensee to control the total occupational dose to workers, including transient workers and moonlighters.

The proposed amendments to 10 CFR Part 20 that follow would amend § 20.1(b), the statement of purpose of Part 20, and § 20.101 to specifically require licensees to control the possession, use, and transfer of licensed material in such a manner that the total occupational dose of an individual does not exceed the appropriate limits. This would include contributions to the total from all sources of occupational dose, licensed and unlicensed, whether the sources are in the possession of the licensee or any other person.

The proposed amendments to § 20.102(a) would have the effect of requiring licensees to obtain information on prior occupational dose of workers during the calendar quarter in which they are first hired or brought in to work in a restricted area. The proposed amendment would require licensees to obtain from any individual who enters the licensee's restricted area under such circumstances that the individual receives or is likely to receive a dose in excess of 25 percent of the applicable dose limits in §§ 20.101(a) and 20.104, information on the nature and amount of occupational dose that the individual already

¹The four categories of licensees are specified in § 20.407(a), and are the categories considered to have the greatest potential for significant occupational radiation dose.

may have received during the current calendar quarter from radioactive material and sources of radiation possessed or controlled by other persons. Licensees would be required to maintain records of such information.

Unless doses are estimated and the information promptly provided, the individual worker would be unable to supply dose estimates to a subsequent employer, as would be required by the proposed § 20.102(a). Therefore, the proposed addition of § 19.13(e), 10 CFR Part 19, would require licensees to provide written dose estimates at the request of individuals terminating employment with the licensee in work involving radiation dose. These reports would be given to individuals, employed by other persons, who are terminating work assignments in the licensee's restricted areas, also upon request. The reports would cover the specifically identified final quarter or fraction thereof, and would either: (1) State that the radiation dose was reasonably estimated to be less than 25 percent of applicable limits in §§ 20.101(a) and 20.104(a), or (2) provide an estimate of the dose. The estimate would be provided to the worker at the time of termination, so that the worker would have the information prior to entry into the restricted area of another licensee. The finally determined dose would continue to be made available to the worker in accordance with existing regulations (§ 19.13).

A worker may choose to provide a prospective employer-licensee with copies of written statements of estimated dose that would be provided by a previous employer-licensee pursuant to proposed § 19.13(e), as one method of satisfying the requirement of proposed § 20.102(a). However, the hiring licensee would not be required to obtain copies of such written estimates of dose, or to verify the occupational dose information provided by a worker by contacting previous employers or licensees in whose restricted areas the individual worked. Further, enforcement action will not be taken against a licensee solely because an individual worker withholds or falsifies information. The effectiveness of the proposed system to limit the total occupational dose of transient and moonlighting workers is, therefore, dependent on the responsiveness of the workers as well as the licensees.

The licensee would not be required by the proposed amendments to determine the dose received by the individual prior to the calendar quarter during which the individual is hired or brought into a restricted area to work. However, determination of such accumulated dose on Form NRC-4, "Occupational External Radiation Exposure History," pursuant to § 20.102(b), would continue to be required before permitting an individual to receive an

occupational radiation dose in excess of the limits in § 20.101(a), pursuant to § 20.101(b).

The proposed amendments would have the effect of requiring licensees to have the capability of prompt estimation of dose to terminating workers, particularly short-term workers. This could be done in several ways, i.e., by providing personnel monitoring devices, such as pocket dosimeters, capable of prompt read-out of dose over the anticipated range, or by estimating the dose from survey data and associated occupancy times.

The proposed amendments also would have the effect of requiring continued knowledge of occupational doses received by an individual worker from sources outside of the licensee's control. This could be accomplished by a variety of licensee-employee agreements or conditions of employment, such as agreement by an individual worker to report promptly to the licensee any occupational dose received outside of the licensee's control.

In proposing these amendments, the Commission notes that a large percentage of licensees would not be affected by the proposed requirement to obtain information on prior or concurrent occupational doses because they do not experience doses in excess of 25 percent of the limits in § 20.101(a). Many of the licensees who do, and who utilize transient workers to perform tasks involving relatively high radiation doses, already obtain the occupational dose history of each individual pursuant to §§ 20.101(b) and 20.102(b). A large majority of these licensees already use self-reading pocket dosimeters and other devices that permit prompt assessment of doses, in addition to film badges or thermoluminescence dosimeters, in conjunction with work permits and other administrative measures, to assess and control doses in a timely manner.

It has also come to the Commission's attention that the wording of § 20.101(b) may be interpreted to permit an individual, whose accumulated dose to the whole body has been determined (Form NRC-4), to receive an additional occupational dose up to 3 rems during any calendar quarter from sources in the licensee's possession or control, if such a dose remains within the provisions of the 5(N-18) formula, regardless of any occupational dose received during the calendar quarter from sources which are not in the possession or control of the licensee. In order to assure that no worker receives more than 3 rems per quarter, amendments to § 20.101(b) are being proposed to specify that the total occupational dose to the whole body may exceed 1.25 rems during a calendar quarter provided that the total occupational dose to the whole body does not exceed 3 rems during the cal-

endar quarter. The existing provisions that the accumulated occupational dose shall not exceed the 5(N-18) formula, and that the licensee has determined the individual's accumulated occupational dose on Form NRC-4, remain unchanged. Note the basic specification in § 20.1(c), that licensees should, in addition to complying with the requirements set forth in 10 CFR Part 20, "make every reasonable effort to maintain radiation exposures, . . . as low as is reasonably achievable."

The proposed amendments are not intended to effect the employability of a worker in calendar quarters following the one in which the individual received an (accidental or inadvertent) overexposure. The licensee would be subject to appropriate citation and enforcement action. However, dismissal or removal of the worker from all activities involving potential exposure in subsequent calendar quarters is not required by Commission regulations. The dose limits recommended by standards-setting groups such as the National Council on Radiation Protection and Measurements, International Commission on Radiological Protection, and the Federal Radiation Council (now the Environmental Protection Agency), and implemented in the NRC regulations, are not intended to mark clearly a difference between conditions that are "safe" or "unsafe." Consideration of the linear dose/effect concept indicates that the risks associated with additional dose at low dose rates would be no greater than those associated with comparable dose received before an occupational overexposure. The possible loss of employment by an individual is not considered to be warranted by the small risk involved in additional dose within the limits in § 20.101. The regulations do require that in determining the accumulated dose of any individual under § 20.101(b), previous over-exposures must be included.

Further, the proposed amendments are not intended to change in any respect the Commission's regulations regarding levels of radiation in unrestricted areas, releases of radioactive materials in effluents to unrestricted areas, or to alter the Commission's emphasis on the concept of maintaining exposures to radiation, and releases of radioactive materials in effluents to unrestricted areas, as low as is reasonably achievable.

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and section 553 of title 5 of the United States Code, notice is hereby given that adoption of the following amendments to 10 CFR Parts 19 and 20 is contemplated. All interested persons who desire to submit written comments or suggestions for consideration

in connection with the proposed amendments should send them to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch by April 7, 1978. Copies of the comments on the proposed amendments may be examined at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C.

1. A new paragraph (e) is added to § 19.13, 10 CFR Part 19, to read as follows:

§ 19.13 Notifications and reports to individuals.

• • • • •

(e) At the request of a worker who is terminating employment with the licensee in work involving radiation dose, or of a worker who, while employed by another person, is terminating assignment to work involving radiation dose in the licensee's facility, each licensee shall provide to each such worker, or to the worker's designee, a written report regarding that worker's radiation dose during the specifically identified terminating calendar quarter or fraction thereof, either: (1) Stating that the dose was reasonably estimated to be less than 25 percent of the applicable limits in §§ 20.101(a) and 20.104(a), or (2) providing an estimate of that dose at termination.

2. Paragraph 20.1(b) of 10 CFR Part 20 is revised to read as follows:

§ 20.1 Purpose.

• • • • •

(b) The use of radioactive material or other sources of radiation not licensed by the Commission is not subject to the regulations in this part. However, it is the purpose of the regulations in this part to control the possession, use, and transfer of licensed material by any licensee in such a manner that the total occupational exposure of an individual (including occupational exposures to licensed and unlicensed radioactive material and to other unlicensed sources of radiation, whether in the possession of the licensee or any other person) does not exceed the standards of radiation protection prescribed in the regulations in this part.

• • • • •
3. In § 20.3(a), 10 CFR Part 20, a new paragraph (19) is added to read as follows:

§ 20.3 Definitions.

(a) As used in this part.

• • • • •

(19) "Termination" means the end of employment with the licensee or the end of a work assignment in the licensee's restricted areas, without exception or specific scheduling of reentry into the licensee's restricted areas during the remainder of the terminating calendar quarter.

4. The section heading, prefatory language of paragraph (a), prefatory language of paragraph (b), and paragraph (b)(1) in § 20.101 are amended to read as follows:

§ 20.101 Radiation dose limits for individuals in restricted areas.

(a) In accordance with the provisions of § 20.102(a), and except as provided in paragraph (b) of this section, no licensee shall possess, use, or transfer licensed material in such a manner as to cause any individual in a restricted area to receive in any period of one calendar quarter from radioactive material and other sources of radiation a total occupational dose in excess of the limits specified in the following table:

• • • • •

(b) A licensee may permit an individual in a restricted area to receive a total occupational dose to the whole body greater than that permitted under paragraph (a) of this section, provided:

(a) During any calendar quarter the total occupational dose to the whole body shall not exceed 3 rems; and

• • • • •

5. Section 20.102, 10 CFR Part 20, is amended to delete existing paragraph (a), to add a new paragraph (a), and to amend paragraph (b), to read as follows:

§ 20.102 Determination of prior occupational dose.

(a) Each licensee shall require any individual, prior to first entry into a restricted area under such circumstances that the individual will receive or is likely to receive a dose in excess of 25 percent of the applicable limits specified in § 20.101(a) and § 20.104(a), to disclose in a written, signed statement, as appropriate: (1) That the individual had no prior occupational dose during the current calendar quarter, (2) that the individual was reasonably estimated to have received occupational doses less than 25 percent of the applicable limits specified in § 20.101(a) and § 20.104(a) during the current calendar quarter from radioactive material and sources of radiation possessed or controlled by other persons, or (3) the nature and amount of any occupational dose which the individual may have received during the current calendar quarter from such

sources. Each licensee shall maintain records of such statements until the Commission authorizes their disposition.

(b) Before permitting, pursuant to § 20.101(b), any individual in a restricted area to receive a radiation dose in excess of the limits specified in § 20.101(a), each licensee shall:

(Sec. 161, Pub. L. 83-703, 68 Stat. 948 (42 U.S.C. 2201); sec. 201, Pub. L. 93-438, 88 Stat. 1242 (42 U.S.C. 5841).)

Dated at Washington, D.C., this 31st day of January 1978.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,
Secretary of the Commission.

[14 CFR Part 71]

[Airspace Docket No. 78-AEA-6]

CONTROL ZONE: CALDWELL, N.J.

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposed to alter the Caldwell, N.J., control zone. This alteration will change the hours of operation of the Caldwell, N.J., control zone, from 0900-1700 to 0800-2200 local time. This change results from a change in the hours of operation of the air traffic control tower.

DATES: Comments must be received on or before March 15, 1978.

ADDRESSES: Send comments on the proposal in triplicate to: Chief, Air-

space & Procedures Branch, AEA-530, Eastern Region, Federal Aviation Administration, Federal Building, Jamaica, N.Y. 11430.

FOR FURTHER INFORMATION CONTACT:

Frank Trent, Airspace & Procedures Branch, AEA-530, Air Traffic Division, Federal Aviation Administration, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430, telephone 202-995-3391. The docket may be examined at the following location: FAA, Office of the Regional Counsel, AEA-7, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430.

COMMENTS INVITED

Interested parties may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, J.F.K. International Airport, Jamaica, N.Y. 11430. All communications received on or before March 15, 1978, will be considered before action is taken on the proposed amendment. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Chief, Airspace & Procedures Branch, AEA-530, Eastern Region, Federal Aviation Administration, Federal Building, Jamaica, N.Y. 11430, or by calling 212-995-3391.

Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which described the application procedures.

THE PROPOSAL

The FAA is considering an amendment to Subpart F of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the control zone over Essex County Airport, Caldwell, N.J.

DRAFTING INFORMATION

The principal authors of this document are Frank Trent, Air Traffic Division, and Thomas C. Halloran, Office of the Regional Counsel.

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the Federal Avi-

ation Administration proposes to amend § 71.171 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to amend the description of the Caldwell, N.J. control zone by deleting, "0900 to 1700" and by inserting "0800 to 2200" in lieu thereof.

(Sec. 307(a), Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.85.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 as amended by Executive Order 11949 and OMB Circular A-107.

Issued in Jamaica, N.Y., on January 26, 1978.

L. J. CARDINALI,
Acting Director, Eastern Region.

[14 CFR Part 71]

[Airspace Docket No. 78-WE-1]

CONTROL ZONE, TWENTYNINE PALMS, CALIF.

Proposed Designation

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to designate a control zone for the Expeditionary Air Field (EAF), Marine Corps Base, Twentynine Palms, Calif. This is necessary to provide controlled airspace at the Expeditionary Air Field, Marine Corps Base.

DATES: Comments must be received on or before March 10, 1978.

ADDRESSES: Send comments on the proposal to: Federal Aviation Administration, Chief, Airspace and Procedures Branch, AWE-530, 15000 Aviation Boulevard, Lawndale, Calif. 90261.

The official docket may be examined at the following location:

Federal Aviation Administration, Office of the Regional Counsel, AWE-7, 15000 Aviation Boulevard, Lawndale, Calif. 90261.

An informal docket may be examined at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division, 15000 Aviation Boulevard, Lawndale, Calif. 90261.

FOR FURTHER INFORMATION CONTACT:

Thomas W. Binczak, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administra-

tion, 15000 Aviation Boulevard, Lawndale, Calif. 90261, telephone 213-536-6182.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should identify the Airspace Docket Number and be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, Calif. 90261. All communications received on or before March 10, 1978, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments received will be available both before and after closing date for comments in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Chief, Airspace and Procedures Branch, AWE-530, 15000 Aviation Boulevard, Lawndale, Calif. 90261, or by calling 213-536-6180. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The Fas is considering an amendment to Subpart F of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) by establishing a control zone at the Expeditionary Air Field, Marine Corps Base, Twentynine Palms, Calif. The control zone will provide protected airspace for the High VOR/DME/TACAN RWY 28 approach procedure to the Expeditionary Air Field Airport.

DRAFTING INFORMATION

The principal authors of this document are Thomas W. Binczak, Air Traffic Division and DeWitte T. Lawson, Jr., Esquire, Regional Counsel, Western Region.

THE PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend § 71.171 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) by establishing the following control zone:

TWENTYNINE PALMS, CALIF.

Within a 5-mile radius of the Expeditionary Air Field (EAF) Marine Corps Base

(latitude 34°17'20" N., longitude 116°10'20" W.) and with 2 miles each side of the Twentynine Palms VORTAC 299° radial extending from the 5-mile radius zone to 13.5 miles west of the VORTAC. This control zone is effective from 0730 to 1630 hours, local time, daily or during the specific dates and times established in advance by a Notice to Airmen which thereafter will be continuously published in the Airmen's Information Manual.

Sec. 307(a), Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Los Angeles, Calif., on January 24, 1978.

FRANK HAPPY,
Acting Director, Western Region.
[FR Doc. 78-3104 Filed 2-3-78; 8:45 am]

[6351-01]

COMMODITY FUTURES TRADING COMMISSION

[17 CFR Part 32]

REGULATION OF COMMODITY OPTION

Transactions

AGENCY: Commodity Futures Trading Commission.

ACTION: Proposed rule change.

SUMMARY: The Commodity Futures Trading Commission is reassessing the merits of continuing to permit the offer and sale in the United States of commodity options to the general public. Despite implementation and enforcement of the Commission's interim commodity option regulations, 17 CFR Part 32 (1977), as amended 42 FR 61831 (December 6, 1977), fraudulent and other unlawful and unsound practices appear to pervade current forms of commodity option sales activity in the United States of which the Commission is aware. This sales activity involves so-called dealer options on physical commodities and foreign commodity options. Accordingly, the Commission is publishing for comment a proposed amendment to its regulations which would generally prohibit commodity option transactions until such time as the Commission determines that adequate protection to option customers can reasonably be assured. The effect of the proposed amendment would be to permit the offer and sale of commodity options during the suspension only to commercial interests for use in connection with their businesses under the provisions of the trade option exemption contained in section 32.4 of the interim regulations.

DATES: Public Hearing: 9 a.m., February 28, 1978. Written comments to be received on or before March 8, 1978. Proposed effective date: Not yet determined.

ADDRESS: Written comments on the proposal should be sent to: Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581, Attention: Secretariat. The public hearing will be held at the above address.

FOR FURTHER INFORMATION CONTACT:

Teresa J. Hermosillo or Mark N. Rae, Office of General Counsel, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581, telephone 202-254-5347 or 202-254-7588, respectively.

SUPPLEMENTARY INFORMATION: Under section 4c(a)(B) of the Commodity Exchange Act, Congress has prohibited option transactions in certain commodities.¹ With respect to all other commodities regulated under the Act, Congress has given the Commission broad power under section 4c(b) of the Act to decide whether to prohibit or to permit option transactions and, if permitted, under what terms and conditions.² Section 4c(b) provides in pertinent part that:

"No person shall offer to enter into, enter into, or confirm the execution of any [commodity option] transaction . . . contrary to any rule, regulation, or order of the Commission prohibiting any such transaction or allowing any such transaction under such terms and conditions as the Commission shall prescribe . . ."

Section 8a(5) of the Act broadly empowers the Commission "to make and promulgate such rules and regulations as, in the judgment of the Commission, are reasonably necessary to effectuate any of the provisions or to accomplish any of the purposes of [the Act] . . ."

Pursuant to its authority under the Act, the Commission adopted interim regulations governing the offer and sale of commodity options in the United States, 41 FR 51808 (November 24, 1976). So-called dealer options on physical commodities and options originating on or through the facilities of foreign boards of trade have been permitted to be offered and sold under the interim regulations. As to these options, the interim regulations prescribe certain registration, disclosure, book and recordkeeping, financial and other customer protection require-

¹ 7 U.S.C. 6c(a)(B) (Supp. V, 1975). These are basically agricultural commodities and are enumerated in section 2(a) of the Act.

² 7 U.S.C. 6c(b) (Supp. V, 1975).

³ 7 U.S.C. 12a(5) (Supp. V, 1975).

PROPOSED RULES

ments.⁴ Under section 32.2(b) of the interim regulations, the Commission has thus far prohibited commodity option transactions involving futures contracts traded on contract markets designated by the Commission. Although this prohibition continues, the Commission has proposed and is presently considering the terms and conditions under which these options may be traded. 42 FR 18246 (April 5, 1977); 42 FR 55538 (October 17, 1977).

The interim regulations were designed to enable legitimate enterprises to engage in the options business and at the same time to provide basic customer protection until a more comprehensive regulatory structure could be developed and implemented for all types of commodity option trading, including commodity options on United States exchanges. The Commission has emphasized repeatedly that its decision to permit commodity option transactions under the interim regulations was premised upon there being adequate safeguards for customers in order to minimize the risk of fraudulent and unsound practices.⁵ Of course, the Commission has always understood that vigorous enforcement action would be required to assure the effectiveness of the regulatory scheme, and the Commission has instituted numerous enforcement actions as appropriate. It has become increasingly apparent to the Commission, however, that violations of the regulations have not been limited to a few firms and individuals. To the contrary, fraudulent and unsound practices appear to be pervasive, and repeated and systematic efforts to evade lawful requirements and to induce the public through high-pressure sales techniques to participate in transactions fraught with risks seem by far the rule rather than the exception.

In addition, it appears that dealer and foreign commodity options have been and are being sold almost exclusively as speculative instruments to members of the general public rather than as a device for hedging that com-

mercial interests might find of value. Thus, there does not appear to have been any useful economic purpose being served by the offer and sale of these options. In response to testimony in hearings on the 1974 amendments to the Act, to the effect that commodity option transactions might prove to serve an economic purpose, and for that reason should not be prohibited, Congress vested the Commission with broad authority over commodity options rather than extend to all newly regulated commodities the continued prohibition of commodity options involving the previously regulated agricultural commodities.⁶ Thus, the existence or absence of a useful economic purpose is of significance to the Commission in determining whether to permit or to forbid a form of commodity options trading. The Commission is also concerned that it has encountered great difficulty in verifying the details of option transactions effected for United States citizens by members of the London commodity exchanges, through which the vast majority of foreign commodity options originates.

As a result of its experience to date, the Commission proposes by rule to suspend the further offer and sale in the United States of commodity options until the Commission is satisfied that adequate customer protection can reasonably be assured.⁷ For this purpose the suspension would encompass all interests subject to Commission regulation under section 4c(b) of the Act, whether the interest be described as an "option" or otherwise.⁸ The Commission is concerned that the dangers to the public are now and may continue to be too great unless prompt action is taken. In this connection, the Commission points out that it may make the proposed suspension effective in fewer than 30 days from the

⁴See Hearings on H.R. 11955 before the House Committee on Agriculture, 93d Cong., 2d Sess., ser. 93-TT, at 37-38, 40-41, 133, 176-180, 199, 251, and 329 (1974).

⁵Should the Commission adopt this proposal, it intends to continue to permit the offer and sale of "trade options" under section 32.4 of the regulations. This provision applies to options offered by a person who has a reasonable basis to believe that the option is offered to a producer, processor, or commercial user of, or a merchant handling, the commodity which is the subject of the option, or the products or by-products thereof, and that the producer, processor, commercial user, or merchant is offered or enters into the transaction solely for purposes related to its business as such.

⁶The Commission's authority encompasses—and the proposed suspension would encompass—"... any transaction ... which is of the character of, or is commonly known to the trade as, an 'option', 'privilege', 'indemnity', 'bid', 'offer', 'put', 'call', 'advance guaranty', or 'decline guaranty' ..."

date the amendment implementing the suspension is adopted.

Interested persons are invited to participate in this rulemaking proceeding by submitting comments in written form to the Commission at the above address. All comments received on or before March 8, 1978, will be considered; comments received after that date but before final action has been taken will also be considered if at all possible. The Commission is particularly interested in receiving comments on the following issues:

(1) The extent to which firms have not been and are not now in substantial compliance with the interim commodity option regulations. The type of suspected or proven violations of the Commission's regulations that have been and are being committed and with what frequency.

(2) Is there any alternative to a suspension of the further offer and sale of options that the Commission can implement promptly which could reasonably be expected to afford meaningful customer protection at this time?

(3) What are the competitive implications or other arguably adverse effects of a suspension, including the effect on employees and existing customers of option firms.

(4) At its meeting on January 25, 1978, the Commission indicated that it intends to consider the following factors in deciding whether and when to lift the suspension: (a) the prospect for effective self-regulation should a Title III organization be established under section 17 of the Act, (b) the successful implementation of a pilot program for commodity option trading on United States exchanges, (c) whether protection to option customers can reasonably be assured if foreign commodity options are included as part of the Commission's proposed pilot program, and (d) the strengthening of the enforcement capability of the Commission. What other factors should the Commission consider in making this decision?

(5) What, if any, basis exists upon which the Commission might distinguish between dealer options and foreign commodity options in evaluating whether to impose a suspension?

(6) Is there any reason for the Commission to conclude that the abusive practices that it has detected in the offer and sale of dealer and foreign commodity options will disappear, or even be substantially reduced, should the Commission implement its proposed pilot program for commodity options trading on United States exchanges?

(7) What evidence exists of economic purpose or utility with respect to the participation by the general public or commercial interests in dealer and foreign commodity option transactions?

(8) Any other factors the Commission should consider in evaluating its proposal.

In addition, the Commission has directed its staff not only to present its comments on the issues set forth above but also to prepare a report, with appropriate documentation, summarizing the Commission's experience to date in regulating options transactions and discussing the further issues set forth below. The staff's comments and report will be placed in the Commission's public file of this rulemaking proceeding.

(1) To what extent are option customers presently being afforded adequate protection against fraudulent and other unlawful and unsound business practices? What amount and percentage of option customers' funds have been lost or are presently at risk through the existence of these practices?

(2) From January 1, 1977, through December 31, 1977, what percentage of reparation complaints filed with the Commission and forwarded to respondents against whom the Commission has not instituted enforcement action have alleged violations of the interim option regulations? What types of violations have been charged and what dollar amount of damages is involved in these cases?

(3) To what extent have customers or other persons expressed the view either in the Commission's rulemaking proceedings to date, or otherwise, that they wish to and should be permitted to purchase options?

The Commission will also hold a public hearing on February 28, 1978, to receive oral presentations regarding its proposal. If necessary, the Commission will continue the hearing on succeeding days. Persons who wish to appear at the hearing should forward an outline of their proposed statement to Mrs. Jane Stuckey, Office of the Secretariat, at the above address in time for it to be received by February 23, 1978. Oral presentations will be limited to 15 minutes. During and subsequent to any person's oral presentation, questions may be asked either by members of the Commission or the Commission staff. The Commission may also direct members of the staff to appear at the hearing.

The Commission considers the record developed in connection with its earlier proceedings regarding commodity options⁹ to be a part of the

⁹The prior proposals and actions of the Commission are set forth at 40 FR 18187 (April 25, 1975); 40 FR 26504 (June 24, 1975); 40 FR 49360 (October 22, 1975); 41 FR 7774 (February 20, 1976); 41 FR 44560 (October 8, 1976); 41 FR 51808 (November 24, 1976); 42 FR 18246 (April 5, 1977); 42 FR 55538 (October 17, 1977); and 42 FR 61831 (December 6, 1977).

ANTIDUMPING

Extension of Time for Comments Concerning Proposed Amendments to the Customs Regulations Relating to Merchandise From State-Controlled-Economy Countries

JANUARY 31, 1978.

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Notice of extension of time for comments.

SUMMARY: This notice extends the period of time permitted for the submission of comments in response to the recent proposal by the Customs Service to modify its procedures as they relate to investigations under the Antidumping Act, 1921, as amended, covering merchandise imported from state-controlled-economy countries. This extension will permit the preparation and submission of more detailed comments by interested members of the public.

DATES: Comments must be received on or before February 22, 1978.

ADDRESS: Comments should be addressed to the Commissioner of Customs, Attention: Regulations and Legal Publications Division, U.S. Customs Service, 1301 Constitution Avenue NW., Washington, D.C. 20229.

FOR FURTHER INFORMATION CONTACT:

Theodore Hume, Office of the General Counsel, Department of the Treasury, 1500 Pennsylvania Avenue NW., Washington, D.C. 20220, 202-566-2941.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On January 9, 1978, the Customs Service published in the FEDERAL REGISTER (43 FR 1356), notice of proposed amendments to §§ 153.7 and 153.27 of the Customs Regulations (19 CFR 153.7, 153.27) relating to investigations under the Antidumping Act, 1921, as amended (19 U.S.C. 160 et. seq.). These amendments would provide that when merchandise from a state-controlled-economy country is being compared with the constructed value of merchandise in a non-state-controlled-economy country or countries, adjustments may be made to reflect differences in economic factors between the state-controlled-economy country and a non-state-controlled-economy country. In addition, the requirements for a petition covering merchandise from a state-controlled-economy country to be in a satisfactory form were proposed to be modified.

Comments concerning these proposed amendments were to have been received on or before February 8, 1978. Several requests have been received to extend the period of time for the submission of comments. Therefore, Customs is extending the period of time to comment to February 22, 1978.

LEONARD LEHMAN,
Assistant Commissioner,
Regulations and Rulings.

Correction

In FR Doc. 77-35862 appearing on page 65189 in the issue of Friday, December 30, 1977 the following corrections are made:

On page 65190, in the second column, the 2nd complete paragraph, the 13th line reading "... intended for tanning or related effects ..." should now read "... intended solely for the purposes other than ..."

On page 65191 in the 1st paragraph under "LAMP BASE REQUIREMENT," the third word in the 12th line should read "designed."

On page 65192 the 5th and 6th lines in the 1st paragraph under "USER INSTRUCTION REQUIREMENTS" should read " * * * instructions would include the reproduction of the labels prescribed in § 1040.20 * * * ". In the third column under § 1040.20(c)(5)(i) in the 6th and 8th lines the word "nanometers" should read "nanometers."

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 56]

[FRL-846-3]

REGIONAL CONSISTENCY

Clean Air

AGENCY: Environmental Protection Agency.

ACTION: Advance Notice of Proposed Rulemaking.

SUMMARY: This notice announces that EPA will develop a regulation to provide for consistent implementation of the Clean Air Act (the Act) by the various EPA regional offices, as required by the 1977 Amendments to the Act. The Agency seeks written comments and invites all interested persons to participate in workshops that will be held to discuss publicly the development of this regulation.

DATES: Workshop meetings: February 17, 1978—Denver, Colo., March 17, 1978—Atlanta, Ga., April 14, 1978—Dallas, Tex., May 12, 1978—Boston, Mass.

ADDRESSES: To obtain information on workshop locations see Supplementary Information, below. Send comments to: Mr. Paul DeFalco, Jr., Regional Administrator, EPA, 215 Fremont Street, San Francisco, Calif. 94105, 415-556-2320.

FOR FURTHER INFORMATION CONTACT:

Mr. Paul DeFalco, Jr., Regional Administrator, EPA, 215 Fremont Street, San Francisco, Calif. 94105, telephone no. 415-556-2320.

SUPPLEMENTARY INFORMATION: The Environmental Protection Agency intends to develop a regulation under section 301(a)(2) of the Clean Air Act, as amended. We invite your participation in our deliberations. A list of workshops which you may wish to attend is printed below.

Section 301(a)(2) of the Act requires the Administrator to promulgate regulations establishing procedures and policies to be followed by regional officers and employees (including Regional Administrators) to follow in carrying out any delegation of authority granted under section 301(a)(1). Specifically, those regulations are to be designed:

(A) To assure fairness and uniformity in the criteria, procedures, and policies applied by the various regions in implementing and enforcing the Act;

(B) To assure at least an adequate quality audit of each State's performance and adherence to the requirements of this Act in implementing and enforcing the Act, particularly in the review of new sources and in enforcement of the Act; and

(C) To provide a mechanism for identifying and standardizing inconsistent or varying criteria, procedures, and policies being employed by such officers and employees in implementing and enforcing the Act.

The Agency is interested in obtaining views and opinions of the general public, industry, State and local governments, public interest groups, and other Federal agencies on the implementation of this requirement for regional consistency. Open workshops will be held to discuss the development of these regulations.

Scheduled workshop meetings are:

PREPARATION OF WORK PLAN AND PRELIMINARY DISCUSSION OF SCOPE

February 17, 1978, 9 a.m.—Elm Room—6th Floor, EPA—Region VIII, 1860 Lincoln Street, Denver, Colo. 70203, Call 303-837-3895 for further information.

Please notify Mr. DeFalco by letter or phone call if you plan to attend this meeting.

REVIEW OF WORK IN PROGRESS

March 17, 1978—Atlanta, Ga., Call 404-881-4747 for time and location.

April 14, 1978—Dallas, Tex., Call 214-767-2600 for time and location.

May 12, 1978—Boston, Mass., Call 617-223-7210 for time and location.

In addition to these workshops, the Agency will hold a public hearing after the regulation is proposed and before it is finalized. Additional information on the date, time and place of the public hearing will be published at the time any regulation is issued as a proposal. Interested persons may also participate in this rulemaking by offering written comment.

Comments are specifically requested on the following areas of interest:

1. What problems have arisen in the implementation or enforcement of the Clean Air Act because policies, procedures or criteria were inconsistent from region to region?

2. In what air pollution control programs is flexibility between regions or States desirable? In what areas is uniformity essential?

3. What types of program auditing might be used to help assure the accountability of EPA and State local air pollution control agencies?

4. What procedures could be used to identify and resolve inconsistent procedures and policies being used by Federal and State air pollution control

agencies in implementing or enforcing the Clean Air Act?

In addition to comments on these specific questions, we would appreciate any other opinions or recommendations you may have for achieving regional consistency in the implementation and enforcement of the Act. Although this notice deals specifically with the implementation of the Act, we recognize that regional inconsistency may be a problem in the implementation or enforcement of other environmental laws. Therefore, we will appreciate any suggestions on the general issue of regional consistency. Comments or requests for additional information should be addressed to: Mr. Paul DeFalco, Jr., Regional Administrator, EPA, 215 Fremont Street, San Francisco, Calif. 94105, 415-556-2320.

Dated: January 31, 1978.

DOUGLAS M. COSTLE,
Administrator, EPA.

[50 CFR Part 17]

ENDANGERED AND THREATENED WILDLIFE AND PLANTS

Proposed Endangered Status and Critical Habitat for Four Fishes; Extension of Comment Period and Notice of Public Hearing

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Extension of comment period and notice of public hearing.

SUMMARY: The comment period on the Fish and Wildlife Service proposed Endangered status and Critical Habitat for four fishes is extended for 60 days. A public hearing will be held in Birmingham, Ala., to obtain additional information.

DATES: The comment period is extended for 60 days and will close on March 31, 1978. The public hearing will be held on March 15, 1978, from 9 a.m. to 3 p.m. and from 7 p.m. to 9 p.m.

ADDRESSES: Comments and information should be submitted to the Director (OES), U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240. The public hearing will be held in the Cudworth Building Auditorium (also known as Engineering Building Auditorium) located at 1919-8th Avenue South at the University of Alabama in Birmingham, Ala.

FOR FURTHER INFORMATION CONTACT:

Mr. Keith M. Schreiner, Associate

Director, Federal Assistance, Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240, 202-343-4646.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On November 29, 1977, the Fish and Wildlife Service published (42 FR 60765-60768) a proposal to determine Endangered status and Critical Habitat for the Cahaba shiner (*Notropis* sp.), spring pygmy sunfish (*Elassoma* sp.), goldline darter (*Percina aurolineata*), and pygmy sculpin (*Cottus pygmaeus*). Due to the public interest ex-

pressed in this proposal, the Service is extending the comment period and holding a public hearing.

The primary author of this document is Dr. James D. Williams, Office of Endangered Species, 202-343-7814.

NOTE.—The Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

Dated: January 30, 1978.

LYNN A. GREENWALT,
Director,
Fish and Wildlife Service.

CIVIL AERONAUTICS BOARD

[Docket 30332; Agreement CAB 27114;
Order 78-1-128]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Agreement Relating To Specific Commodity Rates

Issued under delegated authority January 30, 1978.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers embodied in the res-

olutions of Traffic Conference 1 of the International Air Transport Association (IATA). The agreement, adopted by mail vote, has been assigned the above CAB agreement number.

The agreement would add a new specific commodity rate, under a new commodity description as set forth below, reflecting a reduction from general cargo rates.

Agreement	Specific commodity item No.	Description and rate ¹
CAB: 27114.....	0987	Tropical Fish Food. 130c per kg., minimum weight 500 kgs. From Natal to Los Angeles.

¹Subject to applicable currency conversion factors as shown in tariffs.

²Expires March 31, 1979.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that Resolution 100 (Mall 203) 590, incorporated in Agreement CAB 27114, is adverse to the public interest or in violation of the act provided that approval is subject to the conditions ordered.

Accordingly, it is ordered, That: Agreement CAB 27114 be approved, provided that (a) approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publications; (b) tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing; and (c) where a specific commodity rate is published for a specified minimum weight at a level lower than the general commodity rate applicable for such weight, and where a general commodity rate is published for a greater minimum weight at a level lower than such specific commodity rate, the specific commodity rate shall be extended to all such greater minimum weights at the applicable general commodity rate level.

Persons entitled to petition the Board for review of this order, pursuant to the Board's Regulations 14 CFR 385.50, may file such petitions within 10 days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board unless within such period a petition for review is filed or

the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

PHYLLIS T. KAYLOR,
Secretary.

[6320-01]

[Dockets 32061, 30387; Order 78-1-132]

ST. LOUIS/KANSAS CITY-SAN DIEGO ROUTE PROCEEDING; TRANS WORLD AIRLINES, INC.

Order Instituting Proceeding

Adopted by the Civil Aeronautics Board, at its office in Washington, D.C., on the 31st day of January 1978.

On January 21, 1977, Trans World Airlines filed an application for an amendment of its certificates for Route 2 to add two new segments: Kansas City-San Diego and St. Louis-San Diego. Ten days later, a motion for hearing was filed together with supporting exhibits.

In support of its motion, TWA alleges generally that the two primary markets need improved service, that TWA can provide significant benefits for passengers traveling between San Diego and points east of Kansas City and St. Louis, and that the operations will be profitable. It contends that service in each market is deficient (a) because no carrier possesses nonstop authority between Kansas City and San Diego¹ and (b) because American Airlines provides only one-stop service between St. Louis and San Diego, despite holding unrestricted rights. With respect to the cities beyond St. Louis and Kansas City which TWA would serve (Indianapolis, Pittsburgh, and Philadelphia), it notes that Indianapolis receives no single-plane service and Pittsburgh receives such service only in the westbound direction. The San Diego-Philadelphia market receives two daily one-stop round trips, one by American and one by United; but this is insufficient according to TWA because half of the O&D passengers move on connections. TWA believes that it will succeed in developing these

¹Continental Air Lines offers two daily one-stop round trips via the segment junction point Denver. United Air Lines also holds one-stop authority but provides no single-plane service. OAG, May 1, 1977.

markets, despite their modest size,² because of its strength at Kansas City and St. Louis, which are the key gateways for TWA's service to the East. It argues that on-line connecting passengers can be gathered at these two points to supplement the local traffic. TWA forecasts that 153,323 passengers will be carried over the San Diego-St. Louis/Kansas City segments in 1978, producing revenues of \$20.9 million (net of self-diversion) and an operating profit of \$4.6 million. Finally, TWA points out that San Diego traffic has been growing significantly faster than the national average and that, of the three major transcontinental carriers, TWA alone has no on-line access to it.

Answers in support of the motion were filed by St. Louis, the San Diego Convention and Visitors Bureau, the Indianapolis Airport Authority and the Pittsburgh Parties. These respondents generally agree that there is a need for improved single-plane service in these markets.

Answers were also filed by American Airlines, Continental Air Lines and Hughes Airwest. Airwest opposes hearing TWA's application now because several of TWA's proposed single-plane markets are also proposed as single-plane markets in the *Ohio/Indiana Points Nonstop Service Investigation*, Docket 21162, and the *Louisville Service Investigation*, Docket 29968. It argues that the service patterns resulting from these two proceedings should be known before additional, parallel service is considered. Continental adopts no position on the merits of TWA's motion but points out that TWA has a suit against the Board pending in federal court which involves the San Diego-Kansas City market and the *Additional Service to San Diego Case*, Docket 18104. TWA has claimed that the Board's refusal to consolidate the San Diego-Kansas City market into the *San Diego Case* violated the carrier's right to a comparative hearing. Continental believes that TWA's motion is designed to bolster its case in court and that this factor ought to be considered by the Board. Finally, in its answer American contends that TWA's motion should be denied because (1) service in the markets is not deficient, (2) TWA's proposal will actually produce an operating loss and a net economic loss after adjustments for understated self-diversion and overstated traffic growth, (3) the incumbents will suffer

¹True O&D plus interline connecting traffic for the five markets which would receive single-plane service was as follows for the year ended March 31, 1976:

San Diego-St. Louis.....	45,340
San Diego-Philadelphia.....	40,030
San Diego-Pittsburgh.....	21,450
San Diego-Kansas City.....	21,430
San Diego-Indianapolis.....	19,820

significant diversion, (4) TWA will probably not implement its proposal because it does not provide nonstop service in much larger markets, and (5) traffic is too low to justify a hearing under the proposed *Priorities of Hearing Standards* (PSDR-45).³

TWA filed a reply to American's answer⁴ defending the reasonableness of its traffic forecast and diversion estimate and the economic viability of the proposed services. In addition, TWA argues that the hearing standards proposed in PSDR-45 cannot apply because the regulation has not been adopted and is the subject of intense dispute.

We have decided to grant TWA's motion and to institute the *St. Louis/Kansas City-San Diego Route Proceeding*.⁵ The scope of the case will be limited to nonstop authority in each of the two San Diego markets and will not include new authority between St. Louis and Kansas City.

TWA did propose some reductions in normal first class and coach fares and a variety of discount fares in the markets it would serve. We solicit additional reduced fare offers from TWA as well as any other applicants and the incumbents. In accordance with the policy announced in our order instituting the *Chicago-Albany/Syracuse-Boston Competitive Service Investigation*, Order 77-12-50, December 9, 1977, the offer or failure to offer lower prices will be taken into account in determining whether the public convenience and necessity require the award of new authority and, if so, which carrier(s) should be selected.⁶ Consequently, we expect this proceeding to include an examination of the need for and feasibility of new price/quality options and related issues as explained in Order 77-12-50. Traditional service benefits, including the benefits of first nonstop service and city-pair competition, remain important considerations which will be weighed with price and price/quality possibilities. As more fully set out in Order 77-12-50, the parties and the judge should also focus on whether any new authority

²PSDR-45 was issued on November 28, 1976, in Docket 30123 and a separate proposal was offered by Members Minetti and West on January 17, 1977. Essentially, the proposed rule would recodify the existing hearing priority standards contained in section 399.60 of the Regulations.

³The reply was accompanied by a motion for leave to file the otherwise unauthorized document. The motion is granted.

⁴The debate over whether or not PSDR-45 should apply is no longer relevant since the Board adopted a different method of determining hearing priorities, at least for the near future, at an open meeting on November 23, 1977.

⁵See also Order 78-1-20, January 6, 1978, and Order 77-12-141, December 28, 1977.

NOTICES

should be permissive, and whether multiple awards should be made.

Accordingly, it is ordered, That:

1. The motion of Trans World Airlines for hearing in Docket 30387 be granted;

2. The *St. Louis/Kansas City-San Diego Route Proceeding* be instituted in Docket 32061 and set for hearing before an administrative law judge of the Board at a time and place to be designated later;

3. The issues in this proceeding shall include, but not be limited to, the following:

(a) Do the public convenience and necessity require the certification of an air carrier or air carriers to engage in nonstop air transportation over one or both of the following routes: (1) Between the terminal point San Diego, Calif., and the terminal point St. Louis, Mo.; and (2) between the terminal point San Diego, Calif., and the terminal point Kansas City, Mo.?

(b) If the resolution of (a) is affirmative, which applicant or applicants should be awarded authority?

(c) What terms, conditions or limitations, if any, should be imposed on any authority awarded?

4. Any authority awarded in this proceeding shall not be eligible for federal subsidy;

5. The application of Trans World Airlines in Docket 30387 be consolidated with this proceeding;

6. The petitions of the City of Kansas City, Mo., and the Greater Kansas City Chamber of Commerce, the City of Philadelphia and the Greater Philadelphia Chamber of Commerce, and the St. Louis Regional Commerce and Growth Association for leave to intervene be granted;

7. American Airlines, Continental Air Lines, United Air Lines, the St. Louis Airport Authority-City of St. Louis, the San Diego Convention and Visitors Bureau, the Indianapolis Airport Authority and the County of Allegheny, Pa., and the Pittsburgh Airport Advisory Committee be made parties to this proceeding;

8. The motion of Trans World Airlines for leave to file an otherwise unauthorized reply be granted;

9. Applications, motions to consolidate and petitions for reconsideration be filed within 21 days of the service date of this order and answers to these pleadings be filed 14 days thereafter; and

10. All applicants for authority in this proceeding shall file environmental evaluations pursuant to 14 CFR 312.12 within 30 days of the service date of this order.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.^{*}

DEPARTMENT OF COMMERCE

Industry and Trade Administration

SEMICONDUCTOR TECHNICAL ADVISORY
COMMITTEE

Partially Closed Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (1976 ed.), notice is hereby given that a meeting of the Semiconductor Technical Advisory Committee will be held on Thursday, February 23, 1978, at 9:30 a.m. in Room 3817, Main Commerce Building, 14th and Constitution Avenue, NW., Washington, D.C.

The Semiconductor Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974 and January 13, 1977, the Assistant Secretary for Administration, approved the recharter and extension of the Committee, pursuant to section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. section 2404(c)(1) and the Federal Advisory Committee Act.

The Committee advises the Office of Export Administration with respect to questions involving (A) technical matters, (B) worldwide availability and actual utilization of production technology, (C) licensing procedures which affect the level of export controls applicable to semiconductor products, including technical data or other information related thereto, and (D) exports of the aforementioned commodities and technical data subject to multilateral controls in which the United States participates including proposed revisions of any such multilateral controls.

The Committee meeting agenda has five parts:

GENERAL SESSION

- (1) Opening remarks by Rauer H. Meyer, Director, Office of Export Administration.
- (2) Presentation of papers or comments by the public.
- (3) Election of Chairman.
- (4) Discussion of the future work program of the Committee.

EXECUTIVE SESSION

- (5) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

^{*}All Members concurred.

The General Session of the meeting is open to the public, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (5), the Acting Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on January 27, 1977, pursuant to section 10(d) of the Federal Advisory Committee Act, as amended by section 5(c) of the Government In The Sunshine Act, Pub. L. 94-409 that the matters to be discussed in the Executive Session should be exempt from the provisions of the Federal Advisory Committee Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552b(c)(1). Such matters are specifically authorized under criteria established by an Executive Order to be kept secret in the interests of the national defense or foreign policy. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under Executive Order 11652. All Committee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Room 3012, Industry and Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Industry and Trade Administration, Room 1617M, U.S. Department of Commerce, Washington, D.C. 20230, telephone A/C 202-377-4196.

The complete Notice of Determination to close meetings or portions thereof of the series of meetings of the Semiconductor Technical Advisory Committee and of any subcommittees thereof was published in the FEDERAL REGISTER on March 2, 1977 (42 FR 12078).

Dated: January 31, 1978.

RAUER H. MEYER,
Director, Office of Export Administration, Bureau of Trade Regulation.

[3510-03]

Maritime Administration

GREAT LAKES AND ST. LAWRENCE SEAWAY

Study of Insurance Rates

In accordance with section 107(c) of Pub. L. 91-611, the Secretary of Com-

merce, acting through the Maritime Administration, in consultation with other interested Federal agencies, representatives of the merchant marine, insurance companies, industry, and other interested organizations, conducted a study of ways and means to provide reasonable insurance rates for shippers and vessels engaged in waterborne commerce on the Great Lakes and St. Lawrence Seaway beyond the existing navigation season, and submitted a report to Congress June 30, 1972.

In accordance with section 12 of the Shipping Act, 1916, 46 U.S.C. 811, the Maritime Administration is making an inquiry to determine if: (a) Conclusions arrived at in "The Great Lakes and St. Lawrence Seaway Study of Insurance Rates," U.S. Department of Commerce, Maritime Administration, June 1972, remain valid; (b) there have been many instances where insurance rates, coverages or practices were an inhibiting factor in the extension of the navigating season on the Great Lakes or St. Lawrence Seaway systems.

All parties are invited to submit comments to the Director, Office of Marine Insurance, Room 3622, Maritime Administration, Washington, D.C. 20230.

All comments should be received by the close of business, April 1, 1978.

Dated: January 31, 1978.

By order of the Assistant Secretary of Commerce for Maritime Affairs.

JAMES S. DAWSON, Jr.,
Secretary.

National Oceanic and Atmospheric
AdministrationMID ATLANTIC FISHERY MANAGEMENT COUNCIL,
SCIENTIFIC AND STATISTICAL COMMITTEE

Public Meeting

The Scientific and Statistical Committee of the Mid Atlantic Fishery Management Council, established by section 302 of the Fishery Conservation and Management Act of 1976 (Pub. L. 94-265), will meet February 24, 1978 at Stouffers, National Center Hotel, 2399 Jefferson-Davis Highway, Arlington, Va. 22202. The meeting starts at 10 a.m. on February 24 and will adjourn at about 4:30 p.m. on the same day.

Proposed Agenda: (1) Mackerel Management Plan; (2) Squid Management Plan; (3) Butterfish; and (4) Other Administrative Matters.

Meeting is open to the public. For more information on seating, changes to the agenda, or written comments,

contact Mr. John C. Bryson, Executive Director, Mid Atlantic Fishery Management Council, Room 2115, Federal Building, North and New Streets, Dover, Del. 19901, telephone 302-674-2331.

Dated: January 31, 1978.

WINFRED H. MEIBOHM,
Associate Director, National
Marine Fisheries Service.

Federal Energy Regulatory Commission

[Docket No. ER78-63]

CENTRAL TELEPHONE & UTILITIES CORP.

Order Granting Intervention and Conditionally
Denying Motion To Reject Rate Filing

JANUARY 30, 1978.

On December 30, 1977, we issued an order conditionally accepting for filing and suspending proposed rate schedule, providing for hearing, and establishing procedures in the above-styled docket. In that order, we noted that on December 19, 1977, the Kansas Municipal Defense Group, composed of municipal wholesale customers, filed a motion to reject, protest, and petition to intervene. In our order of December 30, 1977, we conditionally accepted for filing Central Telephone & Utilities Corp.'s (Central) proposed rate increases and suspended their effect for the maximum 5-month period. At this time, we shall consider the substantive issues raised in the pleadings filed by Central's customers.

The Kansas Municipal Defense Group (MDG) moved that the filing should be rejected for failure to conform to section 35.13 of the Commission's rules and regulations. Section 35.13(b)(4)(iii) provides that the public utility shall file statements A through P.

... together with related work papers based on estimates, for any 12 consecutive months beginning after the end of Period I, but no later than the date that the rates are proposed to become effective (Period II). Full explanations of the bases of each of the estimated figures shall be included, ...

MDG states that one of the bases for Central's proposed rate increase is increased depreciation expense based on new depreciation rates which became effective on January 1, 1977, and were utilized in period II, 1978 estimates. MDG states that the depreciation study upon which the increases are predicated is not part of the company's filing. It further states that there is no testimony support in any fashion for the depreciation increases. In the absence of workpapers, submissions and full explanations to all items

in the company's filing, MDG alleges that the municipals have been effectively denied a reasonable opportunity to evaluate and analyze Central's claims. MDG therefore states that they reserve their full rights to:

All legitimate and proper issues arising from the Company's filings for all purposes of discovery (sic), presentation of evidence, and complete or subsequent development by cross-examination and hearing, to include but not limited to, matters relating to the company's proffered cost of service presentation, fuel rate adjustment clause, rate design or scheme, contracts for service to all other customers, rate terms and conditions, and discrimination of rates vis-a-vis of the wholesale and/or retail customers or classes of the company.

The circumstances faced by the Commission in this proceeding are not without precedent. In *Municipal Light Boards of Reading and Wakefield, Mass. v. Federal Power Commission*,¹ intervenors filed a motion to reject a filing by the Boston Edison Co. with the FPC on the grounds, inter alia, that the filing failed to provide the required functional classification both as to accumulated depreciation and current depreciation expense. On April 29, 1970, the FPC issued an order denying the intervenors' motions to reject the filing, suspended the proposed rate increase, and set the issues presented for a hearing. After the intervenors' application for a rehearing was denied, review of the Commission's order was sought in the Court of Appeals. Affirming the Commission's order, the Court noted that a "rejection" of a filing is appropriate "where the filing is so deficient on its face that the agency may properly return it to the filing party without even awaiting a responsive filing by any other party in interest." It may be used by an agency "where the filing is so patently a nullity ... that administrative efficiency and justice are furthered by obviating any docket at the threshold rather than opening a futile docket."² With regard to Boston Edison's failure to show accumulated depreciation provisions and depreciation expenses by functional classification, the Court noted that the purpose of the depreciation accounting provisions is to assure that the rate filing will provide the FPC with the

... necessary information from which it can reach an informed and equitable decision as to the necessity for an investigation, hearing, and suspension, and to permit the Commission and parties in interest with meaningful opportunity to prepare for any proceeding.

The Court further noted that the filing rules at issue are "mere aids to the exercise of the agency's independent discretion, and in both language

¹450 F.2d 1341 (D.C. Cir. 1971).

²Id., at 1346.

and purpose leave room for a doctrine of substantial or reasonable compliance."

Accordingly, the Court left intact the FPC's finding that the filing was sufficiently complete for the FPC to be able to decide whether or not to investigate and suspend the increased rate. Moreover, the Court noted that during the investigation and hearing on the filing, the intervenor would be able to obtain "more refined functionalized depreciation figures" than were obtainable from the initial filing.

The principles announced in the *Reading* case are similarly applicable in the case sub judice. Based on the data contained in the filing, and the information required for its determination regarding the need for suspension of the proposed rates, it is clear that the filing was not so deficient that it should be considered a nullity; and that the public interest would not be furthered by forcing Central to resubmit its filing for failure to achieve exact compliance with our regulations. As noted, supra, in MDG's motion, the municipals have reserved the right to employ discovery and cross-examination methods to obtain the required information regarding support for the proposed depreciation expense. To insure that intervenors have an opportunity to evaluate the support data which has not yet been supplied, we are conditioning our denial of the motion to reject on Central's filing of that data within thirty (30) days of the issuance of this order.

The petitioner has cited the Federal Power Commission's order, in *Mississippi River Transmission Corp.*³ In that case, after a filing had been accepted, staff moved for summary disposition of the proposed depreciation rate increase. The issue presented was whether the company had made a prima facie case; and the FPC held that it had not. Here, contrastingly, the issue before the Commission is whether the filing substantially complies with the Commission's regulations. We hold that it does, subject to the condition set out; supra.

In its December 19, 1977, motion, MDG requested intervention in this proceeding. Also, on that date, Central Kansas Electric Cooperative, Inc. (CKEC), filed a petition to intervene and protest in this proceeding.

In protesting Central's currently proposed rate increases, MDG and CKEC challenge certain cost of service aspects of Central's filing. We find that the matters raised are properly the subject of a full evidentiary hearing, which we have previously ordered in this proceeding.

Based on the above, the Commission finds:

³Order granting motion for summary disposition and ordering refunds, Docket No. RP73-20, issued June 3, 1975.

(1) Good cause exists conditionally to deny the motion of the Kansas Municipal Defense Group to reject the proposed rate increases filed by Central Telephone & Utilities Co. on November 22, 1977.

(2) Good cause exists to grant interventions as described below.

The Commission orders: (A) Kansas Municipal Defense Group's motion to reject the proposed rate increase filed on November 22, 1977, by Central Telephone & Utilities Corp., is hereby denied; *Provided*, That Central Telephone & Utilities Corp. shall file, within thirty (30) days of the issuance of this order, the workpapers required by section 35.13(b)(4)(iii) of the Commission's regulations.

(B) The Kansas Municipal Defense Group and Central Kansas Electric Cooperative, Inc., are hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission; *Provided, however*, That participation by MDG and CKEC shall be limited to matters affecting certain rights and interests concerning the filing which is involved in this above-docketed proceeding; and *Provided further*, That the admission of the MDG and CKEC shall not be construed as recognition by the Commission that the intervenors might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

[6740-02]

[Docket No. RP72-157]

CONSOLIDATED GAS SUPPLY CORP.

Proposed Changes in FERC Gas Tariff

JANUARY 27, 1978.

Take notice that Consolidated Gas Supply Corp. (Consolidated) on January 4, 1978, tendered for filing proposed changes in its FERC Gas Tariff Second Revised Volume No. 1, pursuant to its PGA clause for alternate rates to be effective February 1, 1978. The proposed rate increase would produce approximately \$9.6 million annually in jurisdictional revenues. The rates, shown on Alternate Twenty-Ninth Revised Sheet Nos. 8 and 9, are being submitted for effectiveness February 1, 1978, in the event no action is taken on Consolidated Stipulation and Agreement filed November 28, 1977.

Consolidated states that through an oversight it neglected to include the

Alternate sheets with the revised tariff sheets filed December 30, 1977, also for effectiveness February 1, 1978.

The pipeline supplier rates contained in the filing are the same rates included in the December 30, 1977 filing.

Consolidated requests a waiver of any of the Commission's Rules and Regulations as may be required.

Copies of this filing were served upon consolidated's jurisdictional customers, as well as interested State Commissions.

Any persons desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR sections 1.8 and 1.10). All such petitions or protests should be filed on or before February 8, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[6740-02]

[Docket No. RP72-157]

CONSOLIDATED GAS SUPPLY CORP.

Proposed Changes in FERC Gas Tariff

JANUARY 27, 1978.

Take notice that Consolidated Gas Supply Corp. (Consolidated) on December 30, 1977 tendered for filing proposed changes in its FERC Gas Tariff Second Revised Volume No. 1, pursuant to its PGA clause for rates to be effective February 1, 1978. The proposed rate increase would produce approximately \$9.6 million annually in jurisdictional revenues.

Consolidated states that the filing reflects the rate changes of Texas Gas Transmission Corp. and Texas Eastern Transmission Corp. both filed for effectiveness February 1, 1978. Additionally, Consolidated has included the revised rates of Transcontinental Gas Pipe Line Corp. filed for effectiveness January 1, 1978 and not previously reflected in Consolidated's rates.

Consolidated has applied the current PGA adjustment to the rates filed in accordance with the Stipulation and Agreement filed on November 28, 1977, in Consolidated's rate proceedings now pending in Docket Nos. RP73-107, RP74-90, RP75-91, RP77-7, and RP77-140.

Consolidated requests a waiver of any of the Commission's Rules and Regulations as may be required.

Copies of this filing were served upon Consolidated's jurisdictional customers, as well as interested State Commissions.

Any persons desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 8, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[6740-02]

[Docket No. RP72-134]

EASTERN SHORE NATURAL GAS CO.

Purchased Gas Cost Adjustments to Rates and Charges

JANUARY 27, 1978.

Take notice that on January 13, 1978, Eastern Shore Natural Gas Co. (Eastern Shore) tendered for filing the following revised tariff sheets to its FERC Gas Tariff, Original Volume No. 1:

Substitute Third Substitute Forty-Fourth Revised Sheet No. 3A Superseding Second Substitute Forty-Fourth Revised Sheet No. 3A
Third Revised Sheet No. 3B Superseding Second Revised Sheet No. 3B
Substitute Third Substitute Forty-Fourth Revised PGA-1

Eastern Shore states that these tariff sheets are intended to track increases in rates filed on December 30, 1977 by Transcontinental Gas Pipe Line Corporation (Transco).

Eastern Shore has also filed the following alternative sheets to its FERC Gas Tariff:

Alternate Substitute Third Substitute Forty-Fourth Revised Sheet No. 3A Superseding Second Substitute Forty-Fourth Revised Sheet No. 3A
Alternate Third Revised Sheet No. 3B Superseding Second Revised Sheet No. 3B
Alternate Substitute Third Substitute Forty-Fourth Revised PGA-1
Second Alternate Substitute Third Substitute Forty-Fourth Revised Sheet No. 3A Superseding Second Substitute Forty-Fourth Revised Sheet No. 3A

Second Alternate Third Revised Sheet No. 3B Superseding Second Revised Sheet No. 3B

Second Alternate Substitute Third Substitute Forty-Fourth Revised PGA-1

Eastern Shore states that these alternative sheets are filed to track alternate sheets filed by Transco on December 30, 1977.

Copies of this filing have been mailed to each of Eastern Shore's jurisdictional customers and to interested State Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 8, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc. 78-3070 Filed 2-3-78; 8:45 am]

[6740-02]

[Docket No. CP78-159]

EL PASO NATURAL GAS CO.

Application

JANUARY 27, 1978.

Take notice that on January 16, 1978, El Paso Natural Gas Co. (Applicant), P.O. Box 1492, El Paso, Tex. 79978, filed in Docket No. CP78-159 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities, and the transportation and delivery, on a best efforts basis for a period extending through December 31, 1978, of up to 100,000 Mcf of natural gas per day in interstate commerce for Natural Gas Pipeline Co. of America (Natural), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant indicates that Natural has entered into a limited-term agreement with Colorado Interstate Gas Co. (CIG) dated December 8, 1977, for the purchase of quantities of natural gas excess to CIG's requirements during calendar year 1978. It is stated that Natural anticipates purchasing excess quantities of natural gas up to 100,000 Mcf per day which gas would be pur-

chased from CIG, near Green River, Wyo., commencing January 1, 1978, and continuing through December 31, 1978. It is further stated that pursuant to the terms and conditions of said gas purchase agreement between Natural and CIG, CIG would deliver those volumes of natural gas purchased by Natural to Northwest Pipeline Corp. (Northwest) who, in turn, would deliver such volumes to Applicant, for Natural's account, at an existing point of interconnection between the pipeline systems of Northwest and Applicant in La Plata County, Colo.

Pursuant to a letter agreement dated December 20, 1977, between Applicant and Natural, Applicant proposes to transport, on a best efforts basis, those quantities of gas, up to 100,000 Mcf per day, so received from Northwest for Natural's account and to deliver equivalent volumes on an Mcf basis to Natural at a proposed new point of interconnection between Applicant's pipeline system and that of Natural in Lea County, N. Mex. It is stated that in order to effectuate the deliveries of natural gas at the proposed new delivery point, Natural would construct at its own expense, own, operate and maintain the pipeline and measurement facilities necessary to connect its pipeline system with Applicant's pipeline system facilities. Applicant states that it would be required to construct own and operate a 16-inch tap and valve assembly, with appurtenances, located on its 16-inch O.D. Jal Plant-to-Pecos River pipeline in Lea County, N. Mex. In this connection Applicant, in the evaluation of the necessary facilities required to interconnect its 16-inch O.D. Jal Plant-to-Pecos River pipeline with Natural's pipeline in Lea County, N. Mex. has determined that it would be required to utilize approximately 8.1 miles of the above-said 16-inch pipeline, extending from the Jal Plant, to facilitate the instant arrangement, it is said. It is stated that Applicant has under active consideration certain proposed arrangements with other pipeline companies, which proposed arrangements contemplate the utilization of certain of such pipeline facilities to effectuate natural gas exchange arrangements.

The application states that Natural would reimburse applicant for the actual cost incurred by Applicant in the construction of the said tap and valve assembly, with appurtenances, which cost is estimated to be \$21,492. Applicant indicates that it would retain such facilities in place beyond the term of the transportation arrangement with Natural in anticipation of a further need for such interconnection between the companies' pipeline systems. The application further states that Natural would compensate Applicant through the pay-

ment of an administrative fee of 1.0 cent for each Mcf delivered by Applicant for Natural's account.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 17, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc. 78-3071 Filed 2-3-78; 8:45 am]

[6740-02]

[Docket No. ER78-187]

GREEN MOUNTAIN POWER CORP.

Filing of Proposed Initial Tariff Agreement

JANUARY 26, 1978.

Take notice that on January 16, 1978, Green Mountain Power Corp. (GMPC) tendered for filing an initial rate schedule pertaining to the sale of generation from GMPC's No. 5 gas turbine plant, located in Berlin, Vt., to Washington Electric Cooperative, Inc. (Co-op). GMPC states that such sale will be on substantially the same terms as those contained in FERC Docket No. ER78-33. GMPC further states that this contract and tariff

filling were brought about when the Co-op requested and GMPC agreed to sell capacity from the gas turbine plant. GMPC indicates that the contract provides that the Co-op will purchase 4.7 MW of capacity and associated energy from the aforementioned plant. GMPC further indicates that by separate contract, included in the rate filing, GMPC will provide transmission services to the Co-op for the power provided under the generation contract and for power furnished by others.

GMPC requests that the Commission waive its notice requirements and permit the Generation and Transmission Contracts to become effective as of December 1, 1977.

According to GMPC, copies of this filing have been sent to the Vermont Public Service Board and to Washington Electric Cooperative, Inc.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 6, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc. 78-3072 Filed 2-3-78; 8:45 am]

[6740-02]

[Docket No. CP78-157]

LONE STAR GAS CO. A DIVISION OF ENSERCH CORP.

Application

JANUARY 27, 1978.

Take notice that on January 16, 1978, Lone Star Gas Co., a Division of Enserch Corp. (Applicant), 301 South Harwood Street, Dallas, Tex. 75201, filed in Docket No. CP78-157 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a gas pipeline from the delivery of natural gas to three customers, all as more fully set forth in the application on file with the Commission and open to public inspection.

The application was initially tendered for filing on January 16, 1978; however, the fee required by Section 159.1 of the regulations under the Natural Gas Act (18 CFR 159.1) was not paid until January 23, 1978; thus, filing was not completed until the latter date.

ation of taps and regulators for the delivery of natural gas to three customers, all as more fully set forth in the application on file with the Commission and open to public inspection.

It is indicated that estimated peak day and annual requirements for the third year of operation is as follows:

Facility	Estimated annual Mcf 14.73 p.s.i.	Estimated peak day requirements (Mcf)
1. James Knipe, d.b.a. Pierce Pipe and Supply		
Third Year	393	2.8
2. Larry Lawler (Development-Res. & Comm.)		
Third Year	2,250	25
(25 Residential)	1,600	15
(10 Commercial)		
Total (Third Year)	3,850	40
3. Oklahoma State Highway Department (Heating)		
Third Year	2,420	32

Applicant estimates that the cost of the three facilities would be \$3,402, all of which would be financed from working capital, it is stated.

Applicant states that the requested volumes of gas for each new customer proposed herein are not expected to have any significant impact to Applicant's system operations.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 17, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the

public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

LOIS D. CASHELL,
Acting Secretary.

[Docket No. CP77-607]

MARIETTA, TEX. APPLICANT AND NATURAL GAS PIPELINE CO. OF AMERICA RESPONDENT

Extension of Time

JANUARY 27, 1978.

On January 24, 1978, Natural Gas Pipeline Co. of America (Natural) filed a motion for an extension of time for submitting testimony and for postponement of the prehearing conference, set by Commission Order issue December 14, 1977, in the referenced proceeding. Natural states that the City of Marietta, Tex. (Marietta), filed with the FERC a Notice of Withdrawal of Application. The Notice of Withdrawal was filed on January 25, 1978.

Section 1.11(d) of the Rules of Practice and Procedure states that withdrawal of a pleading filed in any proceeding in which a hearing has been held or convened requires the express permission of the Commission.

Accordingly, to allow the Commission sufficient time to act on Marietta's Notice of Withdrawal of Application, the dates set by the December 14, 1977 Order are extended as follows:

Filing and service upon all parties of testimony and exhibits by Marietta, intervenors, and Staff—March 3, 1978.
Prehearing conference—March 31, 1978 10 a.m. e.s.t.

LOIS D. CASHELL,
Acting Secretary.

[Docket No. ER78-177]

NORTHERN STATES POWER CO.

Letter Agreement

JANUARY 27, 1978.

Take notice that Northern States Power Co. (Company), on January 17, 1978, tendered for filing a Letter Agreement, dated November 18, 1977, with the Department of Energy, United States of America.

Company indicates that Contracts No. 14-06-600-1556 and No. 14-06-600-

1940 between Northern States and the United States terminated on October 20, 1977. Company further indicates that the Letter Agreement formalizes an oral agreement between the parties to continue to interconnect transmission systems and to provide for certain transactions until a new contract is executed or until June 30, 1978, whichever is earlier.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions and protests should be filed on or before February 17, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. RP76-52, et al.]

NORTHERN NATURAL GAS CO.

Further Extension of Time

JANUARY 30, 1978.

On January 24, 1978, Northern Natural Gas Co. filed a motion for a further extension of time for filing comments on the draft environmental impact statement (DEIS) in this proceeding, availability of which was noticed December 9, 1977, and published in the FEDERAL REGISTER December 14, 1977 (42 FR 62971). A previous extension of time to and including January 28, 1978, was granted by notice issued January 3, 1978.

Upon consideration, notice is hereby given that a further extension of time is granted to and including February 24, 1978, for filing comments on the DEIS in the captioned proceeding.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-818]

NORTHERN STATES POWER CO. (MINNESOTA)

Withdrawal of Price Squeeze Allegation and Motion To Terminate Proceedings

JANUARY 31, 1978.

Take notice that the city of Shakopee, Minn.-Shakopee Public Utilities

Commission (Shakopee) on January 11, 1978, filed a notice withdrawing the allegation of price squeeze made by it in its amended petition to intervene in the above-captioned docket and concurrently filed a motion to terminate all proceedings in this docket without a hearing.

Shakopee states that as the only remaining intervenor in this docket, it and Northern States Power Co. (NSP) have entered into a settlement agreement, as a result of which Shakopee is moving to dismiss an antitrust complaint against the company in a U.S. District Court, is withdrawing its opposition to the settlement rates herein and is moving to terminate the proceeding.

Any person desiring to be heard or to protest said filing should file comments or protests with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such comments or protests should be filed on or before February 10, 1978. Comments and protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.
[FR Doc. 78-3128 Filed 2-3-78; 8:45 am]

[6740-02]

[Docket No. CP78-165]

NORTHWEST PIPELINE CORP.

Application

JANUARY 27, 1978.

Take notice that on January 18, 1978, Northwest Pipeline Corp. (Applicant), 315 East Second South, Salt Lake City, Utah 84111, filed in Docket No. CP78-165 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of up to 10,000 Mcf of natural gas per day for Michigan Wisconsin Pipe Line Co. (Michigan Wisconsin), all as more fully set forth in the application on file with the Commission and open to public inspection.

It is stated that Michigan Wisconsin has under contract or otherwise owns or controls certain natural gas reserves in the Rocky Mountain area which are a considerable distance from its existing transmission system, and that in order to make such gas reserves available to it, Michigan Wisconsin and Applicant have entered into two agreements which contemplate that Applicant would perform certain gathering and transportation services for the benefit of Michigan Wisconsin. The two agreements are as follows:

(1) A gas gathering and transportation agreement (gathering agreement), dated September 23, 1977, which provides that Applicant would gather such volumes of natural gas as Michigan Wisconsin may control in the Lincoln Road area of Sweetwater County, Wyo., and that Applicant would, subject to the terms of the gathering agreement, deliver approximately equivalent volumes to Applicant's main transmission system for further transportation by Applicant for Michigan Wisconsin's account pursuant to the transportation agreement identified in item 2 below.

(2) A gas transportation agreement (transportation agreement) dated September 23, 1977, which provides that Applicant would transport up to 175,000 Mcf per day of natural gas for the account of Michigan Wisconsin, after delivery of such volumes of natural gas into Applicant's mainline transmission system.

It is indicated that pursuant to the gathering agreement, Applicant would provide a wellhead gathering service for Michigan Wisconsin of up to 10,000 Mcf of natural gas per day, which may be available from acreage within the area outlined in the gathering agreement. Applicant indicates that the volumes of natural gas to be gathered by it for Michigan Wisconsin's account would be transported through Applicant's Lincoln Road Gathering System and its Big Piney 30-inch loop line, processed at Applicant's Opal Gasoline Plant and redelivered at the point of interconnection of Applicant's Big Piney 30-inch loop line and Applicant's mainline in Lincoln County, Wyo. The volumes of natural gas delivered at Applicant's mainline for Michigan Wisconsin's account would be equivalent to 95 percent of the volumes received by Applicant at the wellhead for Michigan Wisconsin's account, and 5 percent of the volumes received by Applicant at the wellhead for Michigan Wisconsin's account would be furnished to Applicant to compensate for fuel usage and shrinkage attributable to the processing at Applicant's Opal Gasoline Plant, it is said.

The application states that the volumes of natural gas delivered for Michigan Wisconsin's account at the aforementioned point on Applicant's mainline would then be further transported by Applicant, pursuant to the transportation agreement, to a point of interconnection between the facilities of Applicant and El Paso Natural Gas Co. (El Paso) in La Plata County, Colo., where equivalent volumes of gas would be delivered to El Paso for Michigan Wisconsin's account. Applicant

cant indicates that the gas so delivered to El Paso would, by displacement or otherwise, be further transported by El Paso and Natural Gas Pipeline Co. of America (Natural) for ultimate delivery to Michigan Wisconsin.

It is indicated that pursuant to the gathering agreement, Michigan Wisconsin had the option, prior to the initial delivery hereunder, either (1) to furnish Applicant the amount of plant fuel and shrinkage attributable to the liquid products extracted from Michigan Wisconsin's gas for which Applicant agrees to return 100 percent of the net revenues attributable to the liquid products extracted less Applicant's actual cost of service incurred in such extraction operation; or (2) to provide Applicant, as compensation for fuel usage and shrinkage incurred during the extraction operation, with volumes of natural gas equal to 5 percent of the volumes delivered by Michigan Wisconsin to Applicant hereunder for which Applicant agrees to reimburse Michigan Wisconsin at the applicable national rate in effect at the time or, in the event of deregulation, the average price paid by others, including Applicant, under long-term contracts, for gas produced from the area covered by the gathering agreement. Pursuant to a letter agreement dated January 6, 1978, Michigan Wisconsin elects the latter option as its preferred means for keeping both parties whole with respect to the processing of Michigan Wisconsin's gas through Applicant's Opal Gasoline Plant, it is said.

Applicant estimates that, initially, 800 Mcf of gas per day would be gathered and transported through Applicant's Lincoln Road Gathering System, Big Piney loop line and mainline facilities for the account of Michigan Wisconsin. It is indicated that for the above-described gathering and transportation service, Applicant would charge Michigan Wisconsin a three-part rate as follows:

(1) A gathering rate based on Applicant's cost-of-service attributable to gathering Michigan Wisconsin's gas and delivering such gas to the point of interconnection with Applicant's Big Piney 30-inch loop line. The initial rate which Applicant would charge Michigan Wisconsin for the gathering service proposed herein would be 20.76 cents per Mcf.

(2) An initial transportation rate of 1.0 cent per Mcf for all volumes delivered for Michigan Wisconsin's account at the interconnection of Applicant's Big Piney 30-inch loop line and Ignacio-Sumas mainline as consideration for the transportation service provided through Applicant's Big Piney 30-inch loop line.

(3) An initial transportation rate of 1.0 cent per Mcf for all gas handled through its mainline system and rede-

livered to El Paso under the transportation agreement.

It is stated that the 1.0 cent per Mcf rate for gas transported through Applicant's main transmission system is predicated on Applicant's continuing ability to displace the gas to be delivered to El Paso for Michigan Wisconsin's account. It is stated that in the event that delivery by displacement is diminished due to Applicant's prior commitments on its transmission system or due to physical or legal limitations imposed on Applicant's displacement capability so that actual transportation of all or any portion of Michigan Wisconsin's gas is required, then the 1.0 cent per Mcf charge would be increased to Applicant's then rolled-in transmission cost or such other appropriate rate as may be established and approved by the Commission.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 17, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein. If the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc. 78-3075 Filed 2-3-78; 8:45 am]

[6740-02]

[Docket No. CP78-163]

SOUTHERN NATURAL GAS CO.

Application

JANUARY 27, 1978.

Take notice that on January 17, 1978, Southern Natural Gas Company (Applicant), First National, Southern Natural Building, Birmingham, Ala. 35203, filed in Docket No. CP78-163, an application pursuant to section 7(c) of the Natural Gas Act and section 2.79 of the Commission's General Policy and Interpretations (18 CFR 2.79) for a certificate of public convenience and necessity authorizing the transportation of up to a total of 4,000 Mcf of natural gas per day (at 14.73 psia) in two separate transactions for Owens-Corning Fiberglas Corp. (Owens-Corning), for a term ending July 21, 1979, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes to render these transportation services on an interruptible basis for Owens-Corning pursuant to transportation agreements dated December 2 and 12, 1977, between Applicant and Owens-Corning. Pursuant to the transportation agreement dated December 2, 1977, Applicant proposes to transport up to 2,000 Mcf of natural gas per day, which gas is to be produced from the Berryman No. 1 Well, Ellis County, Okla. It is indicated that Owens-Corning has contracted to purchase the subject gas from Alpar Resources, Inc. (Alpar) at a price of \$2.15 per Mcf for the first year of the contract, which price would increase 10 cents per Mcf at the beginning of the second year. The application states that Owens-Corning would arrange to have such quantities of gas delivered to Panhandle Eastern Pipe Line Co. (Panhandle) which would make the gas available to Trunkline Gas Co. (Trunkline), and that Trunkline would deliver the subject gas to Transcontinental Gas Pipe Line Corp. (Transco), who would then deliver it to Applicant at their authorized exchange point at Jonesboro, Ga., or at another mutually agreeable existing authorized exchange point between Transco and Applicant. Applicant states that it would redeliver the redelivery quantity to South Carolina Electric & Gas Co. (South Carolina), a resale customer of Applicant. It is stated that South Carolina, in turn would deliver the subject gas to Owens-Corning's plant in Aiken, S.C., which is a customer of South Carolina.

The application states that the gas purchased from Alpar is currently being transported by Panhandle and Trunkline pursuant to authorization granted in Docket No. CP77-480, and that this gas is delivered by Trunkline

to Transco pursuant to authorization granted in Docket No. CP77-427 for redelivery to Owens-Corning's plant in Anderson, S.C. Applicant states that it has been advised: (1) That the authority under such certificates expires on July 21, 1979; (2) that Owens-Corning desires the flexibility of Applicant having the authority to transport such gas to Owens-Corning's plant in Aiken, S.C., and Transco having the authority to transport such gas to its plant in Anderson, S.C.; and (3) that Transco would file a petition to amend its certificate in Docket No. CP77-427 to obtain the additional authority to deliver such gas to Applicant.

Applicant indicates that it would charge Owens-Corning a transportation charge of 13.0 cents per Mcf (at 14.73 psia) for all gas transported from the delivery point at Jonesboro, Ga., to the point of redelivery to South Carolina, and that it would charge Owens-Corning a minimum charge of \$50 per day for any day on which gas is transported when the transportation charges for such day are less than \$50. Applicant indicates further that it would also retain 3 1/4 percent of the quantities received for transportation as Owens-Corning's pro rata share of lost or unaccounted for gas between the delivery point and the redelivery point.

Pursuant to the transportation agreement dated December 12, 1977, Applicant proposes to transport gas Owens-Corning has purchased from Kilroy Properties Inc. (Kilroy) of Houston, Tex., which gas is produced from the Crown Zellerbach Well, East Chatham Field, Jackson Parish, La. It is indicated that Owens-Corning would purchase up to 2,000 Mcf of natural gas per day from Kilroy at a price of \$2 per million Btu's for the first year of the contract, which price would increase 15 cents at the ending of the first year and would increase 15 cents each 12 months thereafter.

It is stated that Owens-Corning would arrange to have such quantities of gas delivered to Tennessee Gas Pipeline Co., a Division of Tenneco, Inc. (Tennessee) who would deliver the gas to Applicant at their authorized exchange point at Patterson, La., or at another mutually agreeable existing authorized exchange point between Tennessee and Applicant. Applicant proposes to redeliver the redelivery quantity to South Carolina. South Carolina would, in turn, deliver the subject gas to Owens-Corning's plant in Aiken, S.C.

The application states that the gas purchased from Kilroy is currently being transported by Tennessee pursuant to authorization issued in Docket No. CP77-513, and that this gas is delivered by Tennessee to Transco for redelivery to Owens-Corning's plant in Anderson, S.C., pursuant to authoriza-

tion issued in Docket No. CP77-504. Applicant states that it has been advised that: (1) That the authority under such certificates would expire on August 20, 1979; (2) that Owens-Corning desires the flexibility of Southern having the authority to transport such gas to Owens-Corning's plant in Aiken, S.C., and of Transco having the authority to transport such gas to its plant in Anderson, S.C.; and (3) that Tennessee would file a petition to amend its certificate in Docket No. CP77-513.

Applicant indicates that it would charge Owens-Corning a transportation charge of 39.0 cents per Mcf (at 14.73 psia) for all gas transported from the delivery point at Patterson, La., to the point of redelivery to South Carolina, and that it would charge Owens-Corning a minimum charge of \$50 per day for any day on which gas is transported when transportation charges for such day are less than \$50. Applicant states that it would also retain 3 1/4 percent of the quantities received for transportation as Owens-Corning's pro rata share of lost or unaccounted for gas between the delivery point and the redelivery point.

It is stated that the subject gas is not available for resale in the interstate market. It is further stated that the subject gas would be used at Owens-Corning's Aiken, S.C. plant for Priority 2 process use.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 17, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a

petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

LOIS D. CASHELL,
Acting Secretary.

TENNESSEE GAS PIPELINE CO., A DIVISION OF
TENNECO, INC. (PIKE NATURAL GAS CO.
AND DELTA NATURAL GAS CO.)

Settlement Conference

JANUARY 31, 1978.

Take notice that on February 7, 1978, at 10 a.m., an informal conference will be convened of all interested persons with a view toward settling the issues in the captioned proceedings. The conference will be held at the office of the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C.

Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, attendance will not be deemed to authorize intervention as a party in this proceeding.

All parties will be expected to come fully prepared to discuss the merits of all issues arising in this proceeding and any procedural matters preparatory to a full evidentiary hearing or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 78-3129 Filed 2-3-78; 8:45 am]

[6740-02]

[Docket No. CP78-162]

TEXAS EASTERN TRANSMISSION CORP.

Application

JANUARY 27, 1978.

Take notice that on January 17, 1978, Texas Eastern Transmission Corp. (Applicant), P.O. Box 2521, Houston, Tex. 77001, filed in Docket No. CP78-162 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of interconnection facilities, the transportation of natural gas for Columbia Gas Trans-

mission Corp. (Columbia), and the addition of such interconnection facilities as a point of delivery to Columbia for existing service under Rate Schedule DCQ-C, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant requests authorization:

- (1) To construct and operate taps and metering facilities at a point located on Applicant's 24-inch and 20-inch transmission pipelines No. 1 and 2 near Rosbys Rock, Marshall County, W. Va.

- (2) To renovate the Waynesburg, Washington County, Pa., meter station to provide for reverse flow.

- (3) To transport for Columbia up to 35,000 dekatherms (dth) of natural gas per day, as provided by the gas transportation agreement of January 11, 1978.

- (4) To include the Rosbys Rock interconnection as an additional delivery point to Columbia for existing service under Rate Schedule DCQ-C and I-C.

The application states that the Consolidation Coal Co. is enlarging a mine located in Marshall County, W. Va., which would undermine Applicant's Line No. 20 which provides the major portion of natural gas for Moundsville and the southern portion of Wheeling, W. Va., and that in order to assure continued service to its customers in Moundsville and Wheeling, W. Va., during the mining operations, Columbia has requested that Applicant reestablish its Rosbys Rock interconnection between the two systems which had been abandoned in 1970 by order of the Federal Power Commission issued August 8, 1970, at Applicant's Docket No. CP70-255.

Applicant indicates that in order to deliver the transported quantities to the Rosbys Rock interconnection it would be necessary for it to modify its Waynesburg Station, Washington County, Pa., to provide a reverse flow. It is stated that the Waynesburg point is 25 miles east of the proposed Rosbys Rock interconnection and would be the primary point of receipt on Applicant's system. It is further stated that construction of the facilities at both the Rosbys Rock interconnection and the Waynesburg renovation is estimated to cost approximately \$146,400, and that Columbia would reimburse Applicant for all construction costs.

Applicant indicates that the proposed transportation service would be rendered pursuant to a gas transportation agreement dated January 11, 1978, between Applicant and Columbia, which agreement provides that Applicant would receive from Columbia for transportation up to 35,000 dth of gas per day at either the existing point of interconnection located in Fairfield County, Ohio or the renovated Waynesburg point for ultimate re-

delivery to Columbia at the point to be constructed near Rosbys Rock, Marshall County, W. Va.

It is indicated that Applicant would charge Columbia a transportation charge of (1) \$470.00 per day for natural gas delivered to Applicant at the Waynesburg interconnection, or (2) 7.08 cents per dth and 3 percent reduction in the quantity transported for gas used in providing such service, for gas delivered to Applicant at the Fairfield County, Ohio, interconnection.

It is contemplated that the proposed Rosbys Rock interconnection would initially be utilized for redelivery of quantities of gas tendered for transportation by Applicant, it is said. It is stated that upon completion of mining operations, Applicant and Columbia intend to leave the interconnection in service on a standby basis for transportation or existing firm sales service and, therefore, now seeks to add such point to their existing agreement for service under Applicant's Rate Schedule DCQ-C.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 17, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to

appear or be represented at the hearing.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc. 78-3077 Filed 2-3-78; 8:45 am]

[6740-02]

[Docket No. CP78-168]

TEXAS GAS TRANSMISSION CORP.

Application

JANUARY 27, 1978.

Take notice that on January 20, 1978, Texas Gas Transmission Corp. (Applicant), P.O. Box 1160, Owensboro, Ky. 42301, filed in Docket No. CP78-168 an application pursuant to Section 7(c) of the Natural Gas Act and section 157.7(b) of the Regulations thereunder (18 CFR 157.7(b)) for a certificate of public convenience and necessity authorizing the construction, during the 12-month period, commencing May 30, 1978, and operation of facilities to enable Applicant to take into its certificated main pipeline system natural gas which would be purchased from producers of other similar sellers thereof, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in connecting to its pipeline system supplies of natural gas which may become available from various producing areas generally coextensive with its pipeline system or the systems of other pipeline companies which may be authorized to transport gas for the account of or exchange gas with Applicant.

Applicant states that the total cost of the proposed facilities would not exceed \$10,000,000 with the cost of any single onshore project not exceeding \$1,500,000 and the cost of any single offshore project not exceeding \$2,500,000. It is stated that these facilities would be financed by Applicant from funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 17, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to inter-

vene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc. 78-3078 Filed 2-3-78; 8:45 am]

[6740-02]

[Docket No. CP78-160]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

JANUARY 27, 1978.

Take notice that on January 16, 1978, Transcontinental Gas Pipe Line Corp. (Applicant), P.O. Box 1396, Houston, Tex. 77001, filed in Docket No. CP78-160 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of up to 102 Dekatherms (dt) per day equivalent of natural gas on an interruptible basis for the account of Carolina Pipeline Co., NCNG Exploration Corp., an affiliate of North Carolina Natural Gas Corp.; Pennsylvania Gas and Water Co.; Philadelphia Electric Co.; Piedmont Exploration Co., Inc., an affiliate of Piedmont Natural Gas Co., Inc.; and Tar Heel Energy Corp., an affiliate of Public Service Co. of North Carolina, Inc., all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that these transportation customers are distribution company customers of Applicant, or affiliates of Applicant's distributors, which have participated in the Robert Mosbacher/Transco Exploration Co. Joint Venture (Mosbacher), a joint venture for and development of new natural gas reserves onshore, and in non-Federal waters, in the Gulf Coast area. The application further states that the participants in the

Mosbacher drilling program earn a proportionate share in the natural gas production from commercially successful wells discovered by the joint venture. It is stated that the joint venture has discovered and developed a successful well in the East Collins Field (Alma Rogers 25-8 No.1), Covington County, Mississippi, and Applicant proposes herein to transport to existing delivery points on its system the interests of the transportation customers listed above in the production from this well.

It is indicated that United Gas Pipe Line Co. (United) has agreed to receive gas produced from the East Collins Field, which field is adjacent to existing facilities of United in Covington County, Mississippi, for Applicant's account and to transport and redeliver such gas at existing authorized points of interconnection between the two pipeline systems. United's application for the transportation is on file with the Commission in Docket No. CP-78-35, it is said.

Applicant requests authorization herein to transport for the account of the above mentioned customers their interests in the East Collins Field gas from the point(s) of receipt from United to existing points of delivery on Applicant's system to such customers, or their affiliates.

Below is an estimate of the daily volumes available to each of the foregoing customers for which transportation service would be rendered from the East Collins Field:

ESTIMATED DAILY DELIVERIES OF TRANSPORTATION GAS FROM EAST COLLINS FIELD, COVINGTON COUNTY, MISS.

Producers	Buyers	Estimated daily volumes (Dekatherms)
Carolina Pipeline Co. ¹		6
NCNG Exploration Corp. ¹	North Carolina Natural Gas Corp.	13
Pennsylvania Gas & Water Co. ¹		19
Philadelphia Electric Co. ¹	Eastern Pennsylvania Exploration.	32
Piedmont Exploration Co., Inc. ¹	Piedmont Natural Gas Co., Inc.	13
Tar Heel Energy Corp. ¹	Public Service Co. of North Carolina, Inc.	19
Total.....		102

¹In each of these cases, Applicant's transportation service would be rendered for the account of the small-producer affiliates which would sell their interest in the East Collins gas to their distributor-parents at the point of redelivery to the distributor on Transco's.

It is stated that Philadelphia Electric Co. participates in the Mosbacher program through its small-producer affiliate, Eastern Pennsylvania Exploration Co., Inc. and that Eastern Pennsylvania Exploration would sell its working interest in the East Collins gas to Philadelphia Electric at the wellhead, and the transportation service proposed herein

It is indicated that Applicant would render the proposed transportation service at the then-effective transportation rates for which it provides comparable service at the time the requested certificate authorization herein is granted. It is further indicated that deliveries to the proposed customers would be made in Applicant's Rate Zones 2 and 3, as specified in Applicant's FERC Gas Tariff, Second Revised Volume No. 1. It is indicated that Carolina Pipeline Co., NCNG Exploration Corp., Piedmont Exploration Co., Inc. and Tar Heel Energy Corp. are all in Applicant's Rate Zone 2 and would pay a rate of 29.8 cents per dt for all quantities of natural gas transported hereunder, and that Applicant would withhold 4.4 percent of the volumes of gas delivered to the aforementioned Zone 2 customers for compressor fuel and line loss make-up. It is further indicated that Philadelphia Electric Co., and Piedmont Exploration Co., Inc., are in Applicant's Rate Zone 3 and would pay a rate of 31.5 cents per dt for all quantities of natural gas transported hereunder, and that Applicant would withhold 3.8 percent of the volumes of gas delivered to the aforementioned Zone 3 customers for compressor fuel and line loss make-up.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 17, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a

would be for the account of Philadelphia Electric.
²Carolina Pipeline Co. and Pennsylvania Gas and Water will not sell their interest in the East Collins gas to any one, it is said.

petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

LOIS D. CASHELL,
Acting Secretary.

[6740-02]

[Docket No. CP78-167]

UNITED GAS PIPE LINE CO.

Application

JANUARY 27, 1978.

Take notice that on January 20, 1978, United Gas Pipe Line Co. (Applicant), P.O. Box 1478, Houston, Tex. 77001, filed in Docket No. CP78-167 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of necessary facilities to provide a new and additional delivery point to St. John the Baptist Parish, La. (St. John), all as more fully set forth in the application on file with the Commission and open to public inspection.

The application states that Applicant delivers gas to St. John under the terms of a service agreement dated September 8, 1971, and that the area served by the distribution system of St. John lies on either side of the Mississippi River. However, it is said that Applicant delivers gas to St. John on the eastern side of the river only, the customers of St. John on the western side of the river being served through a river crossing owned and operated by St. John. The application further states that St. John has reported numerous difficulties with the subject river crossing and believes it to be in danger of failure, which would deprive the customers on the western side of the river of natural gas service.

It is stated that in order to assist St. John in maintaining gas service to its customers, Applicant has agreed pursuant to an agreement between the parties dated November 16, 1977, to the establishment of an additional delivery point to St. John on the western side of the river, thus eliminating the necessity of utilizing the river crossing. Applicant indicates that such additional new delivery point would necessitate the construction of metering and regulating facilities at an estimated cost of \$24,200, which cost would be reimbursed to Applicant by St. John. Applicant further indicates that it would enter into a gas transportation agreement with Transcontinental Gas

Pipe Line Corp. (Transco) whereby gas delivered to Transco by Applicant at an existing authorized point of interconnection near Cameron Meadows, Cameron Parish, La. would be redelivered by Transco to Applicant for sale to St. John at the proposed additional delivery point at a mutually agreeable point on Transco's 10-inch lateral line in St. John the Baptist Parish, La. It is stated that pursuant to another agreement between Applicant and St. John dated November 16, 1977, St. John would reimburse Applicant for any charge Applicant pays in connection with supply gas to St. John at said additional delivery point. Applicant and St. John would execute a new service agreement setting forth all applicable conditions providing a maximum daily quantity of up to 3,400 Mcf of gas assigned to the additional delivery point, with a corresponding reduction in the maximum daily quantity at the existing delivery point. It is said. It is stated that the overall maximum daily quantity applicable to St. John would not be increased by this arrangement.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 17, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to Intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to

appear or be represented at the hearing.

LOIS D. CASHELL,
Acting Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 851-1; PP 8G2026/T143]

PESTICIDE PROGRAMS

Establishment of a Temporary Tolerance; Aldicarb

The Texas A & I University, Citrus Center, Weslaco, Tex. 78596, submitted a pesticide petition (PP 8G2026) to the Environmental Protection Agency (EPA). This petition requested that a temporary tolerance be established for combined residues of the insecticide aldicarb (2-methyl-2-(methylthio) propionaldehyde O-(methylcarbamoyl) oxime and its cholinesterase-inhibiting metabolites 2-methyl-2-(methylsulfinyl)propionaldehyde O-(methylcarbamoyl)oxime and 2-methyl-2-(methylsulfonyl)propionaldehyde O-(methylcarbamoyl)oxime in or on the raw agricultural commodity grapefruit at 0.3 part per million (ppm).

This temporary tolerance will permit the marketing of grapefruit when treated in accordance with an experimental use permit that was issued under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended (86 Stat. 973, 89 Stat. 751; 7 U.S.C. 136(a) et seq.).

An evaluation of the scientific data reported and other relevant material showed that the requested tolerance was adequate to cover residues resulting from the proposed experimental use, and it was determined that the temporary tolerance would protect the public health. The temporary tolerance has been established for the pesticide, therefore, with the following provisions:

1. The total amount of the pesticide to be used must not exceed the quantity authorized by the experimental use permit.

2. Texas A & I University must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The firm must also keep records of distribution and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

This temporary tolerance expires January 18, 1979. Residues not in excess of 0.3 ppm remaining in or on grapefruit after this expiration date will not be considered actionable if the pesticide is legally applied during the term of and in accordance with the provisions of the experimental use

permit and temporary tolerance. This temporary tolerance may be revoked if the experimental use permit is revoked or if any scientific data or experience with this pesticide indicates such revocation is necessary to protect the public health. Inquiries concerning this notice may be directed to Mrs. Patricia Critchlow, Registration Division (WH-567), Office of Pesticide Programs, East Tower, 401 M Street SW., Washington, D.C. 20460 202-755-2516.

(Sec. 408(j) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(j)).)

Dated: January 27, 1978.

DOUGLAS D. CAMPT,
Acting Director,
Registration Division.

SCIENCE ADVISORY BOARD

Open Meeting; Consultation on Scientific Criteria for Photochemical Oxidants and Nitrogen Oxides

Under Pub. L. 92-463, notice is hereby given that a 2-day meeting of the Subcommittee on Scientific Criteria for Photochemical Oxidants of the Science Advisory Board will be held on February 22 and 23, 1978, in Conference Room A (Room 1112), Crystal Mall Building No. 2, 1921 Jefferson Davis Highway, Arlington, Va. The meeting will start at 9 a.m. on February 22, 1978.

The purpose of the meeting will be to provide advice and consultation on draft documentation relating to air quality criteria for photochemical oxidants and nitrogen oxides, prepared by the Agency's Office of Research and Development, and specifically on (1) a draft report entitled, "Health Effects for Short-Term Exposures to Nitrogen Dioxide", External Review Draft, December 12, 1977; and (2) a revised draft of a document entitled, "Air Quality Criteria for Photochemical Oxidants and Oxidant Precursors". Nitrogen Oxides will be discussed on February 22. Photochemical Oxidants will be discussed on February 23.

The meeting will be open to the public. Any member of the public wishing to attend or submit a paper should contact the Secretariat, Science Advisory Board (A-101), U.S. Environmental Protection Agency, Washington, D.C. 20460, by c.o.b. February 15, 1978. Please ask for Mrs. Ilene Stein or Ms. Barbara Robinson. The telephone number is 703-557-7720.

RICHARD M. DOWD,
Staff Director,
Science Advisory Board.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

ANIMAL DAMAGE CONTROL POLICY STUDY ADVISORY COMMITTEE

Meeting

Notice is hereby given in accordance with the Animal Damage Control Act of March 2, 1931, that a meeting of the Animal Damage Control Policy Study Advisory Committee will be held on February 8 and February 9, 1978, at 9 a.m. and will conclude at 4 p.m. The meetings will be held in Room 8070 (North Penthouse) of the Main Interior Building, 18th and C Streets NW., Washington, D.C. 20240.

The purpose of the Committee is to provide advisory services in coordination with the policy analysis of the problems of mammal predation of Western livestock with major emphasis on the problems of coyote depredation. The analysis will address issues related to mammal predation damage as opposed to migratory bird damage control. The study will be an objective examination of the nature and scope of the predation problems affecting the Western livestock industry, the environmental concerns and impacts associated with predatory damage control, and will present options, including the consequences of various levels and methods of predator control.

The 15-day time limit between publication of this notice and the meetings is waived under the emergency provisions occasioned by the necessity to face major policy issues that have to be resolved before Spring operations of the animal damage control program and to provide interested parties an opportunity to provide programmatic advice for the decisionmaking process. The scope, areas and methods pertinent to the control at the time of the lambing season, for example, must have been determined so that the operational aspects can proceed at the appropriate time to maximize its effectiveness at the least cost.

The meeting will be open to the public. However, facilities and space to accommodate members of the public are limited (about 40 spaces) and persons will be accommodated on a first-come, first-served basis. Any member of the public may file with the committee written statements concerning the matters to be discussed.

Persons wishing further information concerning the meeting, or who wish to submit written statements, may contact Ms. Sheila Minor, Office of the Assistant Secretary for Fish and Wildlife and Parks, Department of the Interior, Washington, D.C. 20240, 202-343-4945.

Minutes of the meeting will be available for public inspection 30 days after

4888

the meeting in Room 3145, Main Interior Building, Washington, D.C.

Dated: January 24, 1978.

RICHARD J. MYSHAK,
Deputy Assistant Secretary
for Fish and Wildlife and Parks.

**INTERNATIONAL TRADE
COMMISSION**

[332-97]

BROOMS OF BROOMCORN

Collection of Data for Determination of
Apparent U.S. Consumption

AGENCY: U.S. International Trade
Commission.

ACTION: Creation of a permanent
docket for the collection of data under
the authority of section 332(g) of the
Tariff Act of 1930, as amended (19
U.S.C. 1332(g)), to determine apparent
U.S. consumption of whiskbrooms, and
other brooms of broomcorn pursuant
to Executive Order 11377 of October
23, 1967.

EFFECTIVE DATE: January 27, 1978.

FOR FURTHER INFORMATION
CONTACT:

Mr. Leonard Heimowitz, General
Manufactures Division, U.S. Interna-
tional Trade Commission, 701 E
Street NW., Washington, D.C. 20436,
telephone 202-523-0399.

SUPPLEMENTARY INFORMATION:
Headnote 3 to schedule 7, part 8, sub-
part A, of the Tariff Schedules of the
United States (79 Stat. 948; 19 U.S.C.
1202), authorizes the President to
adjust the tariff rate quotas on whisk-
brooms and other brooms of broom-
corn to reflect annual changes in con-
sumption of such brooms. In order to
carry out his responsibilities under the
law, the President issued Executive
Order 11377, which directs the Com-
mission to annually report to him its
judgment as to the estimated annual
consumption of these brooms in the
preceding calendar year.

The determination of consumption
of whiskbrooms and other brooms of
broomcorn in the United States is de-
rived from data on production and ex-
ports obtained from questionnaires
completed by domestic producers, and
on imports obtained from the U.S.
Customs Service, Department of the
Treasury.

The whiskbrooms of broomcorn in-
volved in the determination are of a
kind provided for in items 750.26 to
750.28, inclusive, of the Tariff Sched-
ules of the United States (TSUS), and
the other brooms are of a kind pro-
vided for in items 750.29 to 750.31, in-
clusive, of the TSUS.

NOTICES

Once the annual determination of
apparent U.S. consumption is made,
the Commission will transmit a report
to the President. The report will be re-
leased to the public (consistent with
the treatment afforded confidential
business information).

By order of the Commission.

Issued: February 1, 1978.

KENNETH R. MASON,
Secretary.

[FR Doc. 78-3173 Filed 2-3-78; 8:45 am]

**CERTAIN ARTICLES OF STAINLESS STEEL OR
ALLOY TOOL STEEL**

Quarterly and Annual Statistical Reports
Providing Information

AGENCY: U.S. International Trade
Commission.

ACTION: Institution of an investiga-
tion under the authority of section
332(b) of the Tariff Act of 1930, as
amended (19 U.S.C. 1332(b)), to estab-
lish a permanent docket for the re-
ports concerning certain articles of
stainless steel or alloy tool steel re-
quired by Presidential Proclamation
4445 of June 14, 1976.

EFFECTIVE DATE: January 27, 1978.

FOR FURTHER INFORMATION
CONTACT:

Mr. Quay Williams or Mr. Nicholas
C. Tolerico, Minerals and Metals Di-
vision, U.S. International Trade
Commission, 701 E Street NW.,
Washington, D.C. 20436, telephone
202-523-0341, 202-523-0342, respec-
tively.

SUPPLEMENTARY INFORMATION:
On January 16, 1976, the U.S. Interna-
tional Trade Commission reported to
the President (Publication No. 756)
the results of its investigation (con-
ducted pursuant to section 201(a)(1) of
the Trade Act of 1974 (19 U.S.C.
2251(a)(1)). The Commission deter-
mined that certain articles of stainless
steel or alloy tool steel provided for in
items 608.52, 608.76, 608.78, 608.85,
608.88, 609.06, 609.07, and 609.08 of the
Tariff Schedules of the United States
are being imported into the United
States in such increased quantities as
to be a substantial cause of serious
injury, or the threat, thereof, to the
domestic industry or industries pro-
ducing articles like or directly com-
petitive with the imported articles.

The President accepted the Commis-
sion's finding and on June 14, 1976, an
orderly marketing agreement was en-
tered into between the Governments
of the United States and Japan to
limit the importation of the subject
articles from Japan, as set forth on

Presidential Proclamation 4445. The
President also proclaimed (Proclama-
tion No. 4445) on June 14, 1976, the
imposition of quantitative limitations
(absolute quotas) on U.S. imports from
all sources of certain articles of stain-
less steel or alloy tool steel. The effec-
tive period of the orderly marketing
agreement and the quantitative limita-
tions is June 14, 1976 through June 13,
1979, unless earlier modified or termi-
nated.

Section (g) of the Annex to Presi-
dential Proclamation 4445 directs as
follows:

(g) *United States International Trade
Commission (USITC) surveys.*—The USITC
shall conduct mandatory surveys and a
review with respect to products of the types
subject to import restraints under each item
involved as follows:

(i) *Quarterly.*—Surveys by calendar quar-
ter to obtain from domestic producers
monthly data on production, shipments,
prices, employment and man-hours. The in-
itial surveys shall cover the fourth quarter
of 1975 and the first two quarters of 1976;
subsequent surveys will cover individual
quarters; the last such survey shall cover
the quarter which ends not less than 60
days prior to the termination of the import
restraints. The USITC shall publish the re-
sults of these surveys within 45 days (as
soon as feasible and not later than 60 days
in the case of prices) of the end of a quar-
ter. Such surveys will be conducted month-
ly, upon written request of the Special Re-
presentative to the USITC, if the Special
Representative determines that monthly re-
porting is necessary.

(ii) *Annually.*—Annual surveys to obtain
from domestic producers data by calendar
quarter on profits, orders, and inventories,
and annual data on capital expenditures, ca-
pacity, and research and development ex-
penditures; and to obtain from importers
data by calendar quarter on prices, orders,
and inventories. The initial surveys shall
cover the fourth quarter of 1975 and calen-
dar year 1975, as appropriate, and calendar
year 1976, and the results shall be published
by March 31, 1977. The results of subse-
quent surveys shall be published by March
31 of each year thereafter so long as the
import restraints in this subpart are in
effect.

By order of the Commission.

Issued: February 1, 1978.

KENNETH R. MASON,
Secretary.

**COLOR TELEVISION RECEIVERS AND RELATED
PRODUCTS**

Quarterly and Annual Reports Providing
Certain Information

AGENCY: United States International
Trade Commission.

ACTION: Institution of an investiga-
tion under the authority of section
332(b) of the Tariff Act of 1930, as
amended (19 U.S.C. 1332(b)), to estab-
lish a permanent docket for the quar-
terly and annual reports concerning
color television receivers and related
products required by Presidential
Proclamation 4511 of June 24, 1977.

EFFECTIVE DATE: January 27, 1978.

FOR FURTHER INFORMATION
CONTACT:

Mr. Harold Graves or Mr. William
Fletcher, Machinery and Equipment
Division, United States International
Trade Commission, 701 E Street
NW., Washington, D.C. 20436, tele-
phone: 202-523-0360, 202-523-0378,
respectively.

SUPPLEMENTARY INFORMATION:
On March 22, 1977, the United States
International Trade Commission re-
ported to the President (Publication
No. 808) the results of its investigation
under subsection (b) of section 201 of
the Trade Act of 1974 (19 U.S.C.
2251(b)). The Commission determined
that color television receivers assem-
bled or not assembled, finished or not
finished, provided for in item 685.20 of
the Tariff Schedules of the United
States are being imported into the
United States in such increased quan-
tities as to be a substantial cause of se-
rious injury to the domestic industry
producing articles like or directly com-
petitive with the imported articles.

On May 19, 1977, the President ac-
cepted the determination of the Com-
mission which found serious injury to
that portion of the industry producing
subassemblies of color television re-
ceivers, and on May 20, 1977, an order-
ly marketing agreement was entered
into, effective July 1, 1977, between
the Government of the United States

of America and the Government of
Japan with respect to the trade in cer-
tain color television receivers.

On June 24, 1977, Presidential Pro-
clamation 4511 was issued limiting, ef-
fective July 1, 1977, the number of
color television receivers exported
from Japan to the United States
through June 30, 1980, unless earlier
modified or terminated.

Paragraph (7) of Presidential Procla-
mation 4511 directs as follows:

(7) The USITC shall issue reports and
conduct the following surveys with respect
to color television receivers and related
products:

(a) *Quarterly.* Surveys by calendar quarter
to obtain from producers in the United
States monthly data on production, ship-
ments, inventories, employment man-hours,
and prices, and other economic factors in-
dicative of conditions in the U.S. industry.
The initial surveys shall cover the fourth
quarter of 1976 and the first two quarters of
1977. Subsequent surveys shall cover in-
dividual quarters with the last such surveys
covering the quarter which ends not less
than 60 days prior to the termination of the
import relief. The USITC shall publish the
results of the initial surveys by September
1, 1977 and the results of later surveys
within 45 days of the end of the surveyed
quarter.

(b) *Annual.* Annual surveys to obtain data
from producers in the United States by calen-
dar quarter on profits, capacity, and
annual data on capital expenditures and re-
search and developments expenditures; and
to obtain from importers data by calendar
quarter on prices, orders, and inventories.
The initial surveys shall cover the calendar
year 1976 and the calendar year 1977, and
the results shall be published by March 31,
1978. The results of subsequent surveys
shall be published by March 31 of each year
thereafter so long as the import relief is in
effect.

By the order of the Commission.

Issued: February 1, 1978.

KENNETH R. MASON,
Secretary.

spectively.

SUPPLEMENTARY INFORMATION:
On February 8, 1977, the United
States International Trade Commis-
sion reported to the President (Publi-
cation No. 799) the results of its in-
vestigation under section 201(b) of the
Trade Act of 1974 (19 U.S.C. 2251(b)).
The Commission determined that
footwear provided for in items 700.05
through 700.85, inclusive (except items
700.51, 700.52, 700.53, 700.54, and
700.60, and disposable footwear de-
signed for one-time use provided for in
item 700.85) of the Tariff Schedules of
the United States, are being imported
into the United States in such in-
creased quantities as to be a substan-
tial cause of serious injury to the do-
mestic industry producing articles like
or directly competitive with the im-
ported articles.

The President accepted the Commis-
sion's finding and orderly marketing
agreements were entered into between
the Governments of the United States
and the Republic of China (concluded
on June 14, 1977) and the Republic of
Korea (concluded June 21, 1977) to
limit the importation of subject arti-
cles from the Republic of China and
the Republic of Korea, as set forth in
Presidential Proclamation 4510. The
effective period of the import re-
straints is June 28, 1977 through June
30, 1981, unless earlier modified or ter-
minated.

Section (k) of the Annex to Presi-
dential Proclamation 4510 directs as
follows:

(k) *United States International Trade
Commission (USITC) reports and surveys.*—
The USITC shall issue reports and conduct
surveys with respect to footwear as follows:

(i) *Quarterly.*—Reports by calendar quar-
ter showing monthly data on U.S. produc-
tion, imports for consumption, apparent
U.S. consumption, employment and prices.
The initial report shall cover 1975, 1976 and
the first two quarters of 1977; the last such
report shall cover the quarter which ends
not less than 60 days prior to the termina-
tion of the import relief. The reports shall
be published within 60 days of the end of a
quarter.

(ii) *Annually.*—Annual surveys to obtain
from domestic producers data on profits,
orders, capacity, inventories, prices, capital
expenditures, and research and develop-
ment expenditures; and to obtain from im-
porters data on prices, orders, and inven-
tories. The initial survey shall cover the cal-
endar year 1976 and the calendar year 1977,
and the results shall be published by May
31, 1978. The results of subsequent surveys
shall be published by May 31 of each year
thereafter so long as the import relief is in
effect.

By order of the Commission:

Issued: February 1, 1978.

KENNETH R. MASON,
Secretary.

WATCH MOVEMENTS

Collection of Data for Determination of
Apparent U.S. Consumption

AGENCY: United States International Trade Commission.

ACTION: Creation of a permanent docket for the collection of data under the authority of section 332(b) of the Tariff Act of 1930, as amended (19 U.S.C. 1332(b)), to determine apparent U.S. consumption of watch movements pursuant to Pub. L. 89-805 of November 10, 1966 (80 Stat. 1521, 1522).

EFFECTIVE DATE: January 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Lee Lukens, General Manufactures Division, United States International Trade Commission, 701 E Street NW., Washington, D.C. 20436, telephone: 202-523-0226.

SUPPLEMENTARY INFORMATION: Paragraph (c) of headnote 6, schedule 7, part 2, subpart E, of the Tariff Schedules of the United States requires the U.S. International Trade Commission annually to determine the apparent U.S. consumption of watch movements for the preceding calendar year and to use such determination as a basis for computing and allocating the quota for watches and watch movements, the product of certain U.S. insular possessions, admissible free of duty during the following calendar year, under general headnote 3(a) of the Tariff Schedules of the United States.

The determination of consumption of watches and watch movements in the United States is derived from production data, inventories and exports obtained from questionnaires completed by the domestic producers; data on imports for consumption, and shipments from the insular possessions will be taken from official statistics compiled by the Department of Commerce, Bureau of Census.

The Commission is required to determine the apparent U.S. consumption of watch movements, in 1977 and on or before April 1, 1978 report such determination to the Secretary of the Treasury, the Secretary of the Interior, and the Secretary of Commerce and to publish such determination in the FEDERAL REGISTER, together with the number of watches and watch movements which are the product of the Virgin Islands, Guam, and American

NOTICES

Samoa which may be entered free of duty during calendar year 1978.

By order of the Commission:

Issued: February 1, 1978.

KENNETH R. MASON,
Secretary.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

VISUAL ARTS ADVISORY PANEL

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the Visual Arts Advisory Panel (Artists' Fellowships) to the National Council on the Arts will be held February 22, 1978, from 9:30 a.m. to 6 p.m.; February 23, 1978, from 9:30 a.m. to 6 p.m., and February 24, 1978, from 9:30 a.m. to 6 p.m. in Columbia Plaza Room 1115, 2401 E Street NW., Washington, D.C. 20506.

This meeting is for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of March 17, 1977, these sessions will be closed to the public pursuant to subsection (c) (4), (6) and 9(B) of section 552 of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. Robert M. Sims, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call 202-634-6378.

ROBERT M. SIMS,
Administrative Officer, National
Endowment for the Arts, National
Foundation on the Arts
and the Humanities.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-250]

FLORIDA POWER AND LIGHT CO.

Issuance of Amendments to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued

Amendment No. 31 to Facility Operating License No. DPR-31, issued to Florida Power and Light Co., which revised Technical Specifications for Operation of the Turkey Point Nuclear Generating Unit No. 3, located in Dade County, Fla. The amendment is effective as of the date of issuance.

The amendment authorizes operation of Turkey Point Unit No. 3 with up to an average of 15 percent of the steam generator tubes in a plugged condition.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated June 8, 1977 (as supplemented by letter dated July 11, 1977), (2) Amendment No. 31 to License No. DPR-31, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Environmental & Urban Affairs Library, Florida International University, Miami, Fla. 33199. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 27th day of January 1978.

For the Nuclear Regulatory Commission.

STANLEY J. NOWICKI,
Acting Chief, Operating Reactors
Branch No. 3, Division of
Operating Reactors.

NOTICES

[7590-01]

[Docket No. 50-220]

NIAGARA MOHAWK POWER CORP.

Issuance of Amendment to Facility Operating License and Negative Declaration

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 21 to Facility Operating License No. DPR-63 issued to Niagara Mohawk Nuclear Power Corp. (the licensee) which revised technical specifications for operation of the Nine Mile Point Nuclear Station, Unit No. 1 (the facility) located in Oswego County, N.Y. The amendment is effective as of its date of issuance.

The amendment increases the spent fuel pool storage capacity from 1,140 to 1,984 fuel assemblies.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

Notice of Proposed Issuance of Amendment to Facility Operating License in connection with this action was published in the FEDERAL REGISTER on August 8, 1977 (42 FR 40060). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Commission has prepared an environmental impact appraisal for the revised technical specifications and has concluded that an environmental impact statement for this particular action is not warranted because there will be no environmental impact attributable to the action other than that which has already been predicted and described in the Commission's final environmental statement for the facility dated January 1974.

For further details with respect to this action, see (1) the application for amendment dated December 7, 1976, as supplemented by letters dated April 13, July 27, and September 29, 1977, (2) Amendment No. 21 to License No. DPR-63, (3) the Commission's related safety evaluation and (4) the Commission's environmental impact appraisal. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Oswego County Office Building, 48 East Bridge Street, Oswego, N.Y. 13126. A copy of items (2), (3), and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 27th day of January 1978.

For the Nuclear Regulatory Commission.

STANLEY J. NOWICKI,
Acting Chief, Operating Reactors
Branch No. 3, Division of
Operating Reactors.

[7590-01]

REGIONAL LICENSING PROGRAM

Effective March 1, 1978, the U.S. Nuclear Regulatory Commission will initiate a pilot program in which selected parts of its radiolotopes licensing program will be conducted at its Region III Office in Glen Ellyn, Ill. The following six midwestern States will be involved in the pilot program: Illinois, Indiana, Iowa, Michigan, Ohio, and Wisconsin.

The program will include: (1) all licenses for medical uses of radiolotopes, except teletherapy sources and nuclear powered pacemakers, and (2) licenses for industrial use of gauges (stationary and portable) and sources contained in gas chromatographs and X-ray fluorescence analyzers.

Effective March 1, 1978, licensing action will be facilitated if all inquiries or applications for new licenses, amendments, or renewals are sent to the following address:

U.S. Nuclear Regulatory Commission,
Region III, Radiolotopes Licensing Section,
799 Roosevelt Road, Glen Ellyn, Ill.
60137, telephone 312-858-2660.

For further information on this program prior to March 1, 1978, please contact me at 301-427-4236.

BERNARD SINGER,
Chief, Radiolotopes Licensing
Branch, Division of Fuel Cycle
and Material Safety.

[7590-01]

[Docket Nos. 50-582 and 50-583]

SAN DIEGO GAS AND ELECTRIC CO.

Availability of Draft Environmental Statement for Sunderset Nuclear Plant, Unit Nos. 1 and 2

Pursuant to the National Environmental Policy Act of 1969 and the U.S. Nuclear Regulatory Commission's regulations in 10 CFR Part 51, notice is hereby given that a Draft Environmental Statement prepared by the Commission's Office of Nuclear Reactor Regulation and the U.S. Department of the Interior related to the proposed construction of the Sunderset Nuclear Plant, Unit Nos. 1 and 2, to be located in Riverside County, Calif., is available for inspection by the public in the Commission's Public Document Room at 1717 H Street

NW., Washington, D.C., and in the Palo Verde Valley District Library, 125 West Chanslorway, Blythe, Calif., and the San Diego County Law Library, 1105 Front Street, San Diego, Calif. The Draft Statement (NUREG-0405) is also being made available at the Office of the Governor, Office of Planning and Research, 1400 10th Street, Sacramento, Calif., and at the Southern California Association of Governments, Suite 1000, 600 South Commonwealth Avenue, Los Angeles, Calif. Requests for copies of the Draft Environmental Statement should be addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C., Attention: Director, Division of Document Control.

The Applicant's Environmental Report, as supplemented, submitted by San Diego Gas and Electric Co. is also available for public inspection at the above-designated locations. Notice of availability on the Applicant's Environmental Report was published in the FEDERAL REGISTER on May 9, 1977 (42 FR 23569).

Pursuant to 10 CFR Part 51, interested persons may submit comments on the applicant's Environmental Report, as supplemented, and the Draft Environmental Statement for the Commission's consideration. Federal and State agencies are being provided with copies of the Applicant's Environmental Report and the Draft Environmental Statement (local agencies may obtain these documents upon request). Comments are due by March 20, 1978. Comments by Federal, State, and local officials, or other persons received by the Commission will be made available for public inspection at the Commission's Public Document Room in Washington, D.C., and the Palo Verde Valley District Library, 125 West Chanslorway, Blythe, Calif., and the San Diego County Law Library, 1105 Front Street, San Diego, Calif. Upon consideration of comments submitted with respect to the draft environmental statement, the Commission's staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Comments on the Draft Environmental Statement from interested persons of the public should be addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Site Safety and Environmental Analysis.

Dated at Bethesda, Md., this 27th day of January 1978.

For the Nuclear Regulatory Commission.

WM. H. REGAN, JR.,
Chief, Environmental Projects
Branch 2, Division of Site
Safety and Environmental
Analysis.

[4910-13]

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****RETROCESSION OF CONCURRENT JURISDICTION OVER THE METRO EASEMENT AT WASHINGTON NATIONAL AIRPORT TO THE COMMONWEALTH OF VIRGINIA****Departmental Action**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Departmental Action.

SUMMARY: This notice is being published to inform the public that the Department of Transportation has given back and the Commonwealth of Virginia has accepted concurrent jurisdiction over the properties described in an easement granted to the Washington Metropolitan Area Transit Authority (METRO) for operation of its rapid transit system at Washington National Airport.

EFFECTIVE DATE: June 29, 1977.

FOR FURTHER INFORMATION CONTACT:

John C. Curry, Metropolitan Washington Airports, Legal Counsel (AMA-7), Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: 202-557-8123.

SUPPLEMENTARY INFORMATION: The United States, by virtue of the Act of October 31, 1945 (Pub. L. 79-208, 59 Stat. 552), accepted exclusive jurisdiction, subject to certain conditions, over that land located west of

the Potomac River, within Virginia, known as Washington National Airport. On November 6, 1966, the United States consented to and approved the Washington Metropolitan Area Transit Authority Compact (Pub. L. 89-774, 80 Stat. 1324) which created an interstate compact between the Commonwealth of Virginia, the State of Maryland, and the District of Columbia. Pursuant to that Act, an easement was granted METRO by the United States for certain rail and transit purposes in, upon, under, over, and across a portion of the Airport.

An amendment to the Washington Metropolitan Area Transit Authority Compact (consented to and enacted by Congress in Pub. L. 94-306, June 4, 1976 (90 Stat. 672)) authorized METRO to establish and maintain regular police protection on all METRO properties to enforce: The laws of the signatories; the laws, ordinances and regulations of each of the political subdivisions; and the rules and regulations of METRO.

To facilitate efficient operation of METRO's rapid rail and associated facilities and to aid in the effective enforcement of laws and regulations within the area of the METRO easement at Washington National Airport, the United States has relinquished exclusive jurisdiction and now shares, with the Commonwealth of Virginia, jurisdiction over the METRO easement. Thus the State of Virginia and its affected political subdivisions have concurrent jurisdiction to enforce all applicable laws and regulations. See 40 U.S.C. 319.

Upon notice by the United States to the State of Virginia that the easement has been terminated or abandoned, the retrocession of concurrent jurisdiction will terminate immediately. In that event exclusive jurisdiction over the easement area will immediately revert to the United States.

The principal authors of this document are John C. Curry, Metropolitan Washington Airports, and Beth R. Fleishman, Office of the Chief Counsel.

(Washington National Airport Act, as amended (54 Stat. 688); Washington National Airport Act, Jurisdiction (59 Stat. 552); Pub. L. 87-852 (40 U.S.C. 319).)

JAMES T. MURPHY,
Director, Washington
Metropolitan Airports.

Federal Railroad Administration

(Docket No. 401-2; Notice 2)

DEVELOPMENT OF A MIDWESTERN RAIL SYSTEM PLAN**Notice of Public Meetings**

AGENCY: Federal Railroad Administration ("FRA"), DOT.

NOTICES

ACTION: Notice of public meetings.

SUMMARY: Pursuant to requests made by various railroads under sections 5 (b) and (d) of the Department of Transportation Act ("Act"), 49 U.S.C. 1654 (b) and (d), FRA has scheduled public meetings on February 16 and 17, 1978, to discuss specific topics relating to the unification or coordination of operations and facilities of railroads in the midwestern region of the United States. The public is invited to submit written comments on the subject matter of these meetings and to attend and participate in such meetings.

DATES: Public meetings will be held on February 16 and 17, 1978, at the Conrad Hilton Hotel, 720 South Michigan Avenue, Chicago, Ill. Each meeting will commence at 9 a.m.

ADDRESS: All written comments should be submitted to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, 400 Seventh Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Steven R. Ditmeyer, Associate Administrator for Policy and Program Development, Federal Railroad Administration, 400 Seventh Street SW., Washington, D.C. 20590, 202-426-0933.

SUPPLEMENTARY INFORMATION: On January 18 and 19, 1978, FRA conducted public meetings to receive comments on its intention to develop a plan containing recommendations on the physical plant restructuring needed to achieve a viable rail system in the midwestern region of the United States.

Subsequent to those meetings, various railroads requested the Secretary of Transportation ("Secretary") to assist, pursuant to section 5(b) of the Act, in planning, negotiating and effecting and, pursuant to section 5(d) of the Act, to convene a conference on, the unification or coordination of operations and facilities with respect to railroads operating in the midwest. Pursuant to 49 CFR 1.49(u), the Secretary has delegated his authority under section 5 (with the exception of authority to issue subpoenas) to the Administrator of FRA.

FRA has concluded that public meetings focusing on specific topics relating to the unification or coordination of operations and facilities of railroads in the midwest would be of benefit to the national rail system and would aid FRA in the planning assistance requested of it by the various railroads. Consequently, on the dates and at the location set forth above, FRA will hold concurrent public sessions on the following topics:

(1) The light-density, grain-gathering network; (2) mainline consolida-

tion and coordination; (3) terminals; and (4) the Rock Island's Farmrail proposal.

Sessions will be held on each topic from 9 a.m. to 5 p.m., on both February 16 and 17. There will be a brief general meeting on February 16 immediately prior to commencement of the sessions. Pursuant to section 5(d) of the Act, all persons attending or represented at any of these meetings shall be immune from liability under the antitrust laws of the United States with respect to any discussion or agreements reached at such meetings.

COMMENTS: Interested persons are invited to submit written comments on the subject matter of the public meetings and to attend and participate in such meetings. All written comments should indicate the docket number shown above.

INSPECTION: Copies of all written comments received will be available for examination by interested persons in Room 5101, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, D.C., between the hours of 9 a.m. and 5:30 p.m., on Mondays through Fridays with the exception of Federal holidays.

Dated: February 2, 1978.

ROBERT E. GALLAMORE,
Acting Administrator.

Office of the Secretary

INTERAGENCY TASK FORCE ON DEPOSIT RATE
CEILINGS

Request for Comments

The President has recently created an interagency Task Force to study deposit interest rate controls and housing credit.

The Task Force will consider whether the present statutory arrangements regarding the authority of the Federal regulators of banking and thrift institutions to set maximum interest rate ceilings on time and savings accounts should be continued, modified, or eliminated, and whether changes in the asset and liability powers of the various types of depository institutions would improve the delivery of financial services to the public while maintaining the competitive balance among the institutions. It is recognized that any changes in this area could have an adverse effect on the supply of mortgage credit and so the Task Force will also consider the effect of any such changes on mortgage credit and whether additional steps should be taken.

Much work has been done in recent years on the subject of restructuring financial institutions. Past Congresses have considered several major financial institutions reform bills. It is expected that much of this past work will provide a valuable contribution to the Task Force as it reviews the impact of present laws and regulations concerning deposit interest rate ceilings. The Task Force also wishes to keep abreast of more recent developments and analyses in this area. Because of the complexity of this subject and the potentially wide ranging economic effects of changes in the laws governing the operations of financial institutions, the Task Force invites the public to submit their view on any aspect of the work of the Task Force.

Any member of the public may comment by filing a written statement with the Task Force not later than February 23, 1978. All written statements will be considered by the Task Force in determining the final recommendations. Persons who wish to submit written statements or desire further information should write to Mr. Stephen J. Friedman, Deputy Assistant Secretary of the Treasury for Capital Markets, Department of the Treasury, Room 3025, 15th and Pennsylvania Avenues NW., Washington, D.C. 20220.

Dated: January 31, 1978.

ROBERT CARSWELL,
Deputy Secretary,
Department of the Treasury.

Office of the Secretary

[Supplement to Dept. Circular—Public Debt
Series—No. 2-78]

TREASURY NOTES OF SERIES M-1981

Interest Rate

FEBRUARY 1, 1978.

The Secretary of the Treasury announced on January 31, 1978, that the interest rate on the notes described in Department Circular—Public Debt Series—No. 2-78, dated January 26, 1978, will be 7½ percent per annum. Accordingly, the notes are hereby redesignated 7½ percent Treasury Notes of Series M-1981. Interest on the notes will be payable at the rate of 7½ percent per annum.

PAUL H. TAYLOR,
Acting Fiscal Assistant Secretary.

[Docket No. AB-7 (Sub-No. 32)]

CHICAGO, MILWAUKEE, ST. PAUL AND
PACIFIC RAILROAD CO.Abandonment Between Bonner and Bear Creek
in Missoula County, Mont.

Notice is hereby given pursuant to Section 1a of the Interstate Commerce Act (49 U.S.C. 1a) that by a Certificate and Order dated January 19, 1978, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in *Oregon Short Line R. Co., Abandonment, Goshen*, 354 I.C.C. 76 (1977); that applicant submit an order from the United States District Court for the Northern District of Illinois, Eastern Division, authorizing Milwaukee to file and prosecute the instant application, or, if a trustee has been appointed by the court, the joinder of that trustee in the application, and for public use as set forth in said order, the present and future public convenience and necessity permit the abandonment by the Chicago, Milwaukee, St. Paul and Pacific Railroad Co., of operations over a portion of its line, extending from milepost 2.4 northeast of Bonner, Mont. to milepost 36.4 at the end of the line at Bear Creek, Mont., a total distance of 37.1 miles of track including 3.1 miles of auxiliary trackage. A certificate of public convenience and necessity permitting abandonment of operations was issued to the Chicago, Milwaukee, St. Paul and Pacific Railroad Co. Since no investigation was instituted, the requirement of section 1121.38(a) of the Regulations that publication of notice of abandonment decisions in the *FEDERAL REGISTER* be made only after such a decision becomes administratively final was waived.

Upon receipt by the carrier of an actual offer of financial assistance, the carrier shall make available to the of-

¹This notice corrects the hearing date from February 22, 1978 to February 28, 1978 at Denver, Colo.

NOTICES

feror the records, accounts, appraisals, working papers, and other documents used in preparing Exhibit I (Section 1121.45 of the Regulations). Such documents shall be made available during regular business hours at a time and place mutually agreeable to the parties.

The offer must be filed and served no later than 15 days after publication of this Notice. The offer, as filed, shall contain information required pursuant to section 1121.38(b) (2) and (3) of the Regulations. If no such offer is received, the certificate of public convenience and necessity authorizing abandonment shall become effective March 23, 1978.

H. G. HOMME, Jr.,
Acting Secretary.

[Revised Service Order No. 1252; Order No.
9, Amdt. No. 3]

MIDDLETOWN & HUMMELSTOWN RAILROAD
CO.

Rerouting Traffic

To all railroads:
Upon further consideration of I.C.C. Order No. 9 (Middletown & Hummelstown Railroad Co.) and good cause appearing therefor:

It is ordered, That:
I.C.C. Order No. 9 is amended by substituting the following paragraph (g) for paragraph (g) thereof:
(g) *Expiration date.* This order shall expire at 11:59 p.m., July 31, 1978, unless otherwise modified, changed, or suspended.

It is further ordered, That this amendment shall become effective at 11:59 p.m., January 31, 1978, and that this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement, under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., January 26, 1978.

[Notice No. 290]

MOTOR CARRIER BOARD TRANSFER
PROCEEDINGS

The following publications include motor carrier, water carrier, broker,

and freight forwarder transfer applications filed under Section 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission on or before March 8, 1978. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopsis form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

No. MC-FC-77352, Filed October 7, 1977. Transferee: KUBACH CARTAGE, INC., P.O. Box 1203, Dearborn, Mich. 48121. Transferor: Kubach Trucking Co., A Michigan corporation, P.O. Box 1203, Dearborn, Mich. 48121. Applicant's representative: William B. Elmer, 21635 East Nine Mile Road, St. Clair Shores, Mich. 48080. Authority sought for purchase by transferee of the operating rights set forth in Certificate No. MC 61029 issued May 4, 1967, and in Permit Nos. MC 115582 and MC 115582 (Sub-Nos. 3 and 4) issued May 4, 1967, March 5, 1968, and November 29, 1973, respectively as follows: *Parts, assemblies, and materials* used in the manufacture of motor vehicles between Detroit, Mich., on the one hand, and, on the other, specified points owned, leased, or occupied by the Ford Motor Co. in the state of Michigan; and new furniture from Detroit, Mich., to points within 8 miles of Detroit, Mich. Transferee holds no Commission authority and does not seek Section 210a(b) authority.

No. MC-FC-77468, filed December 20, 1977. Transferee: KEEFE BROS. TRANSFER, INC., P.O. Box 205, Pepin, Wis. 54759. Transferor: John

Keefe and William T. Keefe, a partnership, d.b.a. Keefe Bros. Transfer, P.O. Box 205, Pepin, Wis. 54759. Applicant's representative: Joseph E. Ludden, P.O. Box 1503, La Crosse, Wis. 54601. Authority sought for purchase by transferee of a portion of the operating rights of transferor set forth in Certificate No. MC 51295, issued July 11, 1955, as follows: *General commodities*, except those of unusual value, dangerous explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading: From Winona, South St. Paul, St. Paul, and Minneapolis, Minn., to Pepin, Wis., and points in the towns of Pepin, Frankfort, and Stockholm in Pepin County, Wis. Transferee hold no Commission authority and does not seek Section 210(b) temporary authority.

No. MC-FC-77479, filed January 3, 1978. Transferee: LEPRECHAUN LINES, INC., Route 32, P.O. Box 2628, Newburgh, N.Y. 12550. Transferor: Newburgh Beacon Bus Corp. (same address as transferee). Applicant's representative: J. G. Dall, Jr., P.O. Box 567, McLean, Va. 22101. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 114755 (Sub-No. 1), issued July 20, 1972, as follows: *Passengers and their baggage*, in the same vehicle with passengers, in charter operations, beginning and ending at Beacon, Beekman, Cornwall (except the United States Military Academy, at West Point, N.Y.), Dover, East Fishkill, Fishkill, LaGrange, Lloyd, Marlborough, the city of Newburgh, the town of Newburgh, New Windsor, Pawling, Philipstown, Plattekill, Putnam Valley, Union Vale, and Wappinger, N.Y., and extending to points in the United States (including Alaska but excluding Hawaii). Transferee is presently authorized to operate as a common carrier under Certificate No. MC 112108 (Sub-No. 3). Application has not been filed for temporary authority under Section 210a(b). Republished.

H. G. HOMME, Jr.,
Acting Secretary.

[Notice No. 6TA]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 25, 1978.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original

and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 2368 (Sub-No. 73TA), filed January 12, 1978. Applicant: BRALLEY-WILLETT TANK LINES, INC., 2212 Deepwater Terminal Road, P.O. Box 495, Richmond, Va. 23204. Applicant's representative: William T. Marshburn (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Vegetable oil*, in bulk, in tank vehicles, from Gainesville, Ga., to points in Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia, for 180 days. Supporting shipper: Cargill, Inc., Ellen Jacobs, Traffic Manager, Gainesville, Ga. Send protests to: District Supervisor, Paul D. Collins, Bureau of Operations, Room 10, 502 Federal Building, 400 North 8th Street, Richmond, Va. 23240.

No. MC 8771 (Sub-No. 39TA), filed January 11, 1978. Applicant: SAW MILL SUPPLY, INC., 1018 Saw Mill River Road, Yonkers, N.Y. 10710. Applicant's representative: John R. Sims, Jr., 915 Pennsylvania Building, Washington, D.C. 20004. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Aluminum pipe, tubing,*

fittings, and accessories, from Ellenville, N.Y., to Los Angeles, San Francisco, and Oakland, Calif., Portland, Oreg., and Seattle, Wash., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: V.A.W. of America, Inc., P.O. Box 667, Ellenville, N.Y. 12428. Send protests to: Maria B. Kejss, Transportation Assistant, Interstate Commerce Commission, 26 Federal Plaza, New York, N.Y. 10007.

No. MC 29910 (Sub-No. 180TA), filed December 16, 1977. Applicant: ARKANSAS-BEST FREIGHT SYSTEM, INC., 301 South 11th Street, Fort Smith, Ark. 72901. Applicant's representative: Don A. Smith, P.O. Box 43, 510 North Greenwood, Fort Smith, Ark. 72902. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Prefabricated buildings, equipment, supplies, and building materials*, from the plant site of Carolina Log Buildings, Inc., located in Yadkin County, N.C., to points in that part of the United States, in and east of Montana, Wyoming, Colorado, and New Mexico, restricted to shipments originating at the facilities of Carolina Log Buildings, Inc., in Yadkin County, N.C., for 180 days. Supporting shipper: Carolina Log Buildings, Inc., Fletcher, N.C. 28732. Send protests to: District Supervisor, William H. Land, Jr., 3108 Federal Office Building, 700 West Capitol, Little Rock, Ark. 72201.

No. MC 107295 (Sub-No. 71TA), filed January 10, 1978. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Duane Zehr, P.O. Box 146, Farmer City, Ill. 61842. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Building mortar and flooring and curing compounds, adhesives, and machinery, and tools* used in the installation and application of the above named commodities, restricted against the transportation of commodities in bulk, from Conyers, Ga., to points in Alabama, Arkansas, Colorado, Florida, Kansas, Kentucky, Louisiana, Mississippi, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, and Virginia, for 180 days. Applicant has also an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: The Upco Co., 4805 Lexington Avenue, Cleveland, Ohio 44103. Send protests to: Charles D. Little, District Supervisor, Interstate Commerce Commission, 527 East Capitol Avenue, Springfield, Ill. 62701.

No. MC 111729 (Sub-No. 724TA), filed January 9, 1977. Applicant: PUROLATOR COURIER CORP., 3333 New Hyde Park Road, New Hyde Park, N.Y. 11040. Applicant's representative:
